Over 500 student enrollments in AP courses

7 CTE completer programs offered

Over 150 students that are on a half day waiver for CSM, Employment, etc

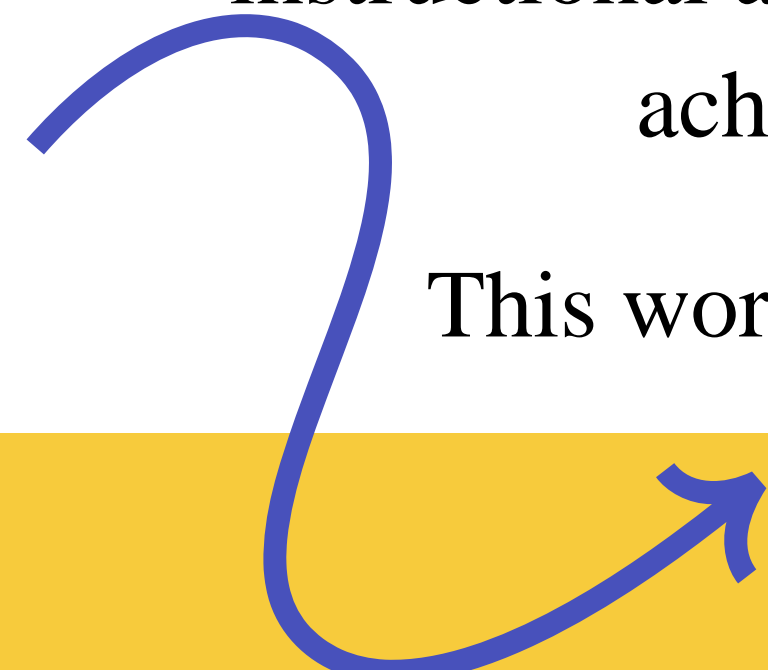

School Improvement

School Improvement is a decision-making model that schools utilize to ensure programming, teaching and learning, and culture and community, provide all students access, opportunity, and support to achieve at high levels.

Each school develops a School Improvement Plan (SIP). The SIP identifies priority goals, instructional and culture strategies, and supports schools will implement to raise student achievement and prepare students for college and career pathways.

This works starts at the elementary school and continues through high school.

Student Learning & Achievement Reading

- 54% of students were proficient in English/Language Arts (ELA).
With school system emphasis on Writing Standard 2, we aim to see student growth in ELA throughout the year based on quarterly writing samples.
- **SIP Goal:** The mean of total student scores will increase by .25 from their quarterly writing samples (scored 1-4) from quarter 1 to quarter 3.
- Staff professional development and year-long implementation of Writing Standard 2 will be targeted by each department to support this goal.

Student Learning & Achievement Mathematics

- 47% of 9th grade Algebra 1 students were proficient in Mathematics according to iReady testing data from the 2022-2023 school year.
- **SIP Goal**: The percent of students scoring 3 or more grade levels below will decrease by 5% from the Fall to the Winter iReady Assessment.
- Extended PD for our Math Department relating to IM (math curriculum) will be provided for teachers responsible for administering math iReady. FEV tutoring will be available for students who are identified as being 3 or more grade levels below.

Student Learning & Achievement Access & Opportunity

- La Plata High School has a large population of students enrolled in AP courses, as well as Dual Enrollment, Early College, and CTE courses.
- **SIP Goal**: La Plata High School will continue to see an increase in students enrolled in AP, Dual Enrollment, Early College, and CTE programs.
- School Counselors and the College and Career Advisor will give presentations to different grade levels regarding the various scheduling options available for students.

Working together to achieve excellence for every student.

School Climate and Culture

- During SY22-23, LPHS began implementing Restorative Practices in an attempt to inform faculty on best practices regarding de-escalation and relationship building.
- **SIP Goal**: LPHS will increase the number of trained teachers in Restorative Practices.
- This process will be done through professional development sessions and by using a modulated platform, *An Introduction to Social Emotional Learning (SEL)*, that teachers will complete throughout the year.
