Students can use their webcam to take a photo for an assignment submission in Canvas

Note: Teachers should limit file types for an assignment submission. Teachers should choose “File Uploads” only to allow students to use their webcam to submit assignments.

Students Will Open The Assignment

Students should open the assignment from their “To Do” list, Calendar, or the Assignments link in Course Navigation.

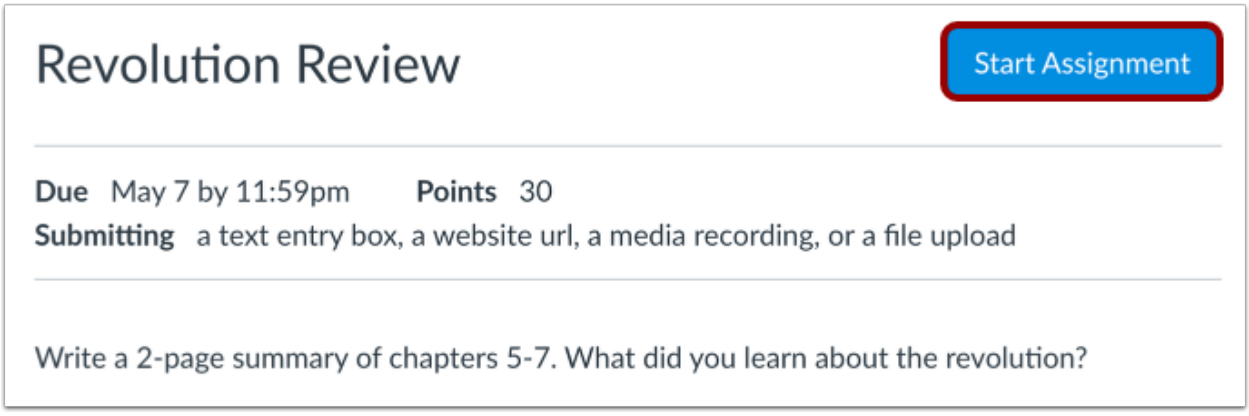

Students Will Select Assignment

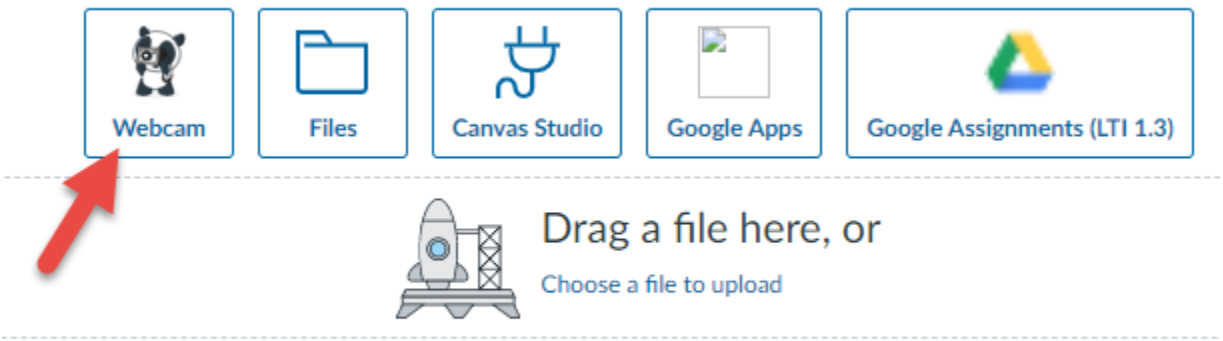

Click the title of the assignment.

Students Will Start Assignment

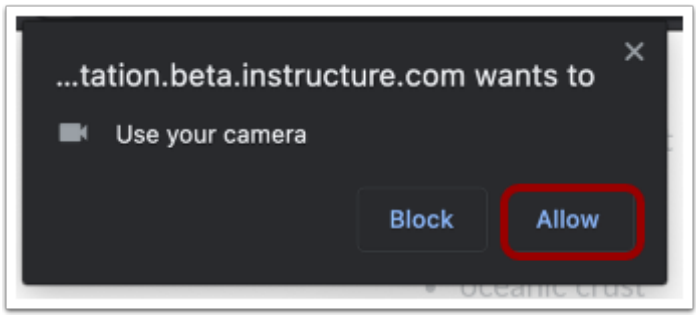

Click the **Start Assignment** button.

Students Will Use Webcam

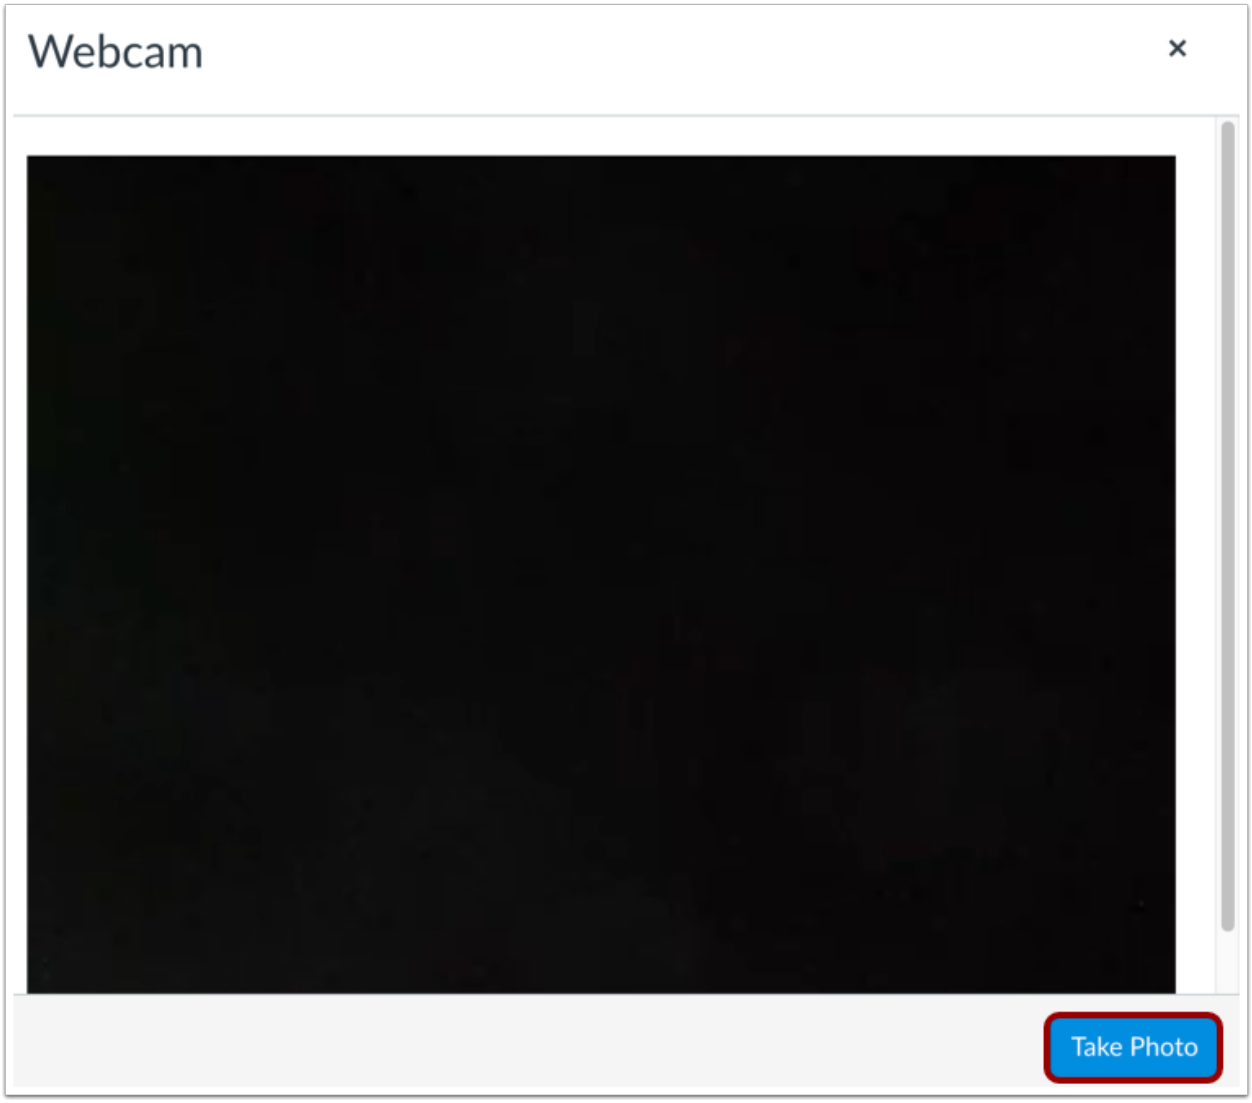

To take a picture with your webcam and submit the image, click the **Webcam** button.

Students Should Enable Webcam

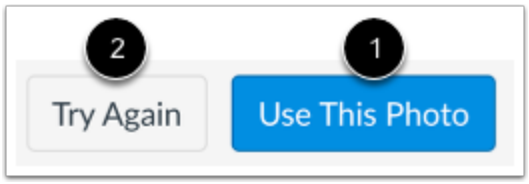

If the student's browser prompts them for access to their computer's camera, they should click the **Allow** button.

Students Will Take Photo

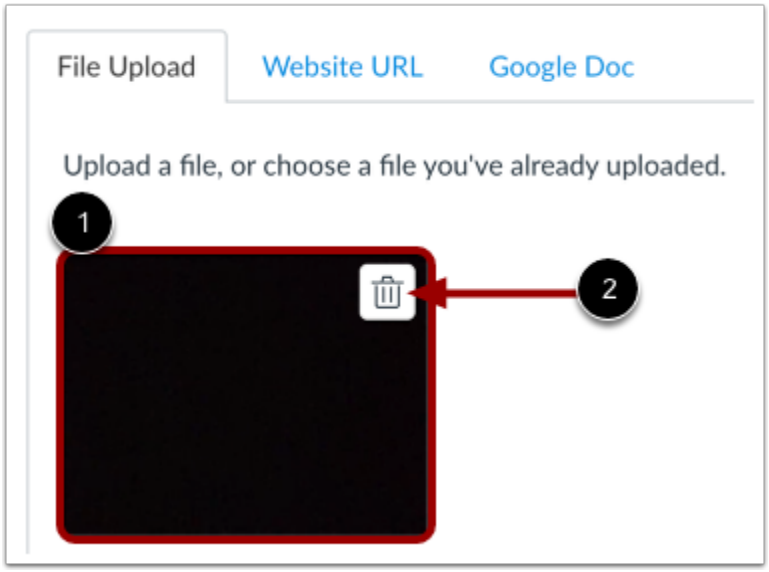

Students should click the **Take Photo** button.

Students Will Submit Photo

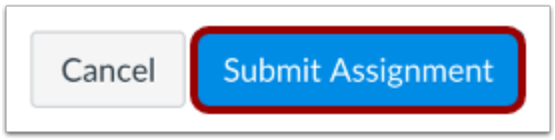

If students want to use the photo they took as an assignment submission, They should click the **Use This Photo** button [1]. To retake the photo, click the **Try Again** button [2].

Students Can View Photo

Students can preview the photo in the File Upload tab [1]. To remove the photo from a submission, click the **Delete** icon [2].

Students Should Submit Assignment

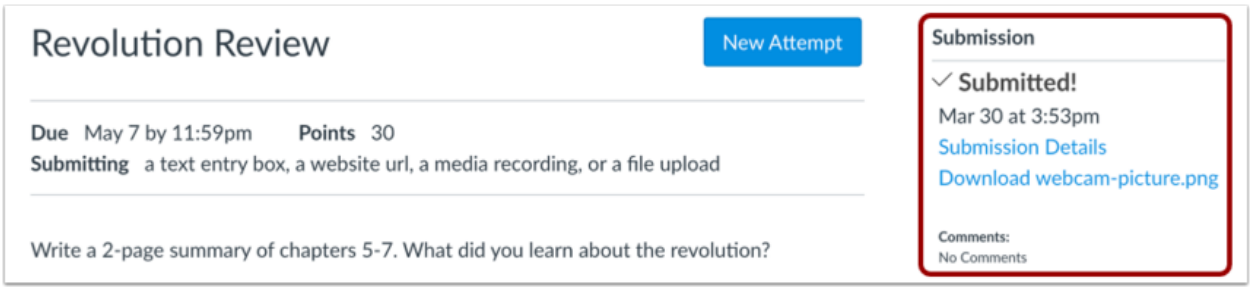

Click the **Submit Assignment** button.

View Submission Status

Large files display a submission status indicator.

View Submission

View the confirmation of your assignment submission.
