Calling ALL Presenters

The Middle School CTE Engagement Symposium is looking for practitioners with valuable strategies and best practices that are happening at their school site. If your middle school team and partners have developed challenging and rewarding projects, activities, and curriculum please consider presenting. The 2024 Middle School CTE Engagement Symposium will be an excellent venue to share any and all strategies developed for student success within your programs!

The San Diego County Office of Education is very excited to bring together our region's education partners to share their best practices in building high quality middle school Career Technical Education (CTE) programs. Sessions will include:

How to develop middle school CTE pathway programs

How to expand middle school CTE pathway programs

Strategies for engaging school site leadership support for CTE in middle schools

Credential solutions for middle school

Work-based learning activities for middle school

Middle school career pathway programs marketing and outreach

How to develop a middle school to high school transition model

Counseling for career awareness and postsecondary exploration
