Shaping little minds and growing social skills requires meeting preschool and kindergarten students where they are developmentally to ensure success for their time in EC and their future K-12 experiences. This 3 part training series will provide in-service teachers with the knowledge and practice creating strategies, plans, and tools to use within their early childhood teams to bring back to school with them and begin implementing with their young students.

February 6th

Administrator Edition

Administrators will learn how to ensure their staff, students, and community are included in the PBIS work at their school. Administrators will also learn how to create a tiered level of supports for providing professional development for teachers, objective data collection, and resources for coaching teachers in Tier 1 (universal) practices.
