Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication With Those Charged With Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments
Our Responsibilities With Regard to the Financial Statement Audit	Our responsibilities under auditing standards generally accepted in the United States of America and <i>Government Auditing Standards</i> issued by the Comptroller General of the United States have been described to you in our arrangement letter dated August 18, 2022. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities, which are also described in that letter.
Overview of the Planned Scope and Timing of the Financial Statement Audit	We have issued a separate communication dated August 18, 2022 regarding the planned scope and timing of our audit and identified significant risks.
Accounting Policies and Practices	Preferability of Accounting Policies and Practices Under generally accepted accounting principles, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice. Adoption of, or Change in, Accounting Policies Management has the ultimate responsibility for the appropriateness of the accounting policies used by the District. The District adopted GASB Statement No. 96 <i>Subscription-Based Information Technology Agreement</i> as of July 1, 2022. Significant or Unusual Transactions or Policies We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.
Basis of Accounting	The accounting policies of the District conform to accounting principles generally accepted in the United States of America for governmental units as established by the Governmental Accounting Standards Board ("GASB"). The financial statements were prepared on the assumption that the District will continue as a going concern.
Audit Adjustments	A summary of audit adjustments, other than those that are clearly trivial, proposed by us and recorded by the District are shown in the attached Summary of Recorded Audit Adjustments.
Uncorrected Misstatements	Uncorrected misstatements are summarized in the attached Summary of Uncorrected Misstatements.
Disagreements With Management	We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.
Consultations With Other Accountants	We are not aware of any consultations management had with other accountants about accounting or auditing matters.
Significant Issues Discussed With Management	No significant issues arising from the audit were discussed or the subject of correspondence with management.

Area	Comments
Significant Difficulties Encountered in Performing the Audit	We did not encounter any significant difficulties in dealing with management during the audit.
Letter Communicating Internal Control Deficiencies	We have separately communicated the internal control deficiencies over financial reporting identified during our audit of the financial statements, and this communication is attached as Exhibit A.
Significant Written Communications Between Management and Our Firm	Copies of significant written communications between our firm and the management of the District, including the representation letter provided to us by management, are attached as Exhibit B.

In planning and performing our audit of the financial statements of Pine Plains Central School District (the "District") as of and for the year ended June 30, 2023, in accordance with auditing standards generally accepted in the United States of America, we considered the District's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing, or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Therefore, material weaknesses may exist that were not identified. However, we did not identify any deficiencies in internal control that we consider to be material weaknesses.

**Pine Plains Central School District
Report to the Board of Education
November 1, 2023**

We consider the following matters to be significant deficiencies:

Inventory/Supply Control

Condition: The School District's bus garage had no system in place to track the bus supplies on hand and what was purchased and used by the bus garage mechanic. The District also had a period of time where the control over the District fuel supply was down and there was no accurate system in place to track the usage. This has since been resolved.

Criteria: Districts are required to have controls in place over their assets and be able to track their usage.

Cause: The systems in the bus garage have grown relaxed over time.

Effect: The School District was not able to accurately account for supplies on hand.

Recommendation: The District should put a system in place to track the supplies on hand and their usage.

Time Control

Condition: The School District's bus garage staff and supervisors are not signing off on their timecards to support the time and effort spent on the job.

Criteria: Districts are required to have controls over documentation of employee time worked.

Cause: The systems in the bus garage have grown relaxed over time.

Effect: The School District was not able to accurately account for the employees charging time to bus garage salary lines.

Recommendation: The District should work to strengthen their controls over employee time charges.

This communication is intended solely for the information and use of the District and management and is not intended to be, and should not be, used by anyone other than these specified parties.

Sincerely,

RBT CPAs, LLP
