

Elgin Academy Media Statement

It is with a heavy heart that we announce that this year, our 185th, will be the final year of Elgin Academy. The Board has voted that the school will close at the end of the 2023-2024 term. Despite the tremendous efforts of the Board, school leadership and other dedicated community members to find a path forward, we have recently determined that our model of an independent school is no longer sustainable in Elgin.

We recognize how heartbreaking this news is. The care and well-being of our students is a hallmark of our school. We have plans in place to do all we can in support of everyone in our community - students, parents, faculty and staff, and alums.

The school will be hosting webinars with the school community to share more information about how the Board came to this difficult decision, the plans for the balance of the school year and to answer questions from our students, parents and alums.
