P-184 Opt Out
Graduating Class of 2024 & Beyond
High School Credit/Grade Request
For 7th and 8th Courses

Student Name: _____ Grad Year: _____ Date: _____

Students who complete high school level courses prior to entering high school will automatically have their grades and credits placed on their high school transcript and applied to fulfilling their high school graduation requirements. A request can be made to change the credit to "Pass" which will not impact their GPA, or a request can be made to remove the credit and grade from their record entirely. Please note that once a change is made, the grade and credit cannot be reapplied or recalculated in the student's grade point average. To implement the change, indicate what change you would want to make on the chart below for the courses you have completed. To maintain the letter grade, there is no action you need to take.
