Two-Day Course | Held over two consecutive days (6 hours per session)

OSHA (Occupational Safety and Health Administration) 10-hour training and Cal/OSHA training teaches basic safety and health information to entry-level workers in general industry. While the OSHA Outreach Training Program is voluntary, employers may require you earn an OSHA 10 card before you start work. Acquiring an OSHA 10 DOL card proves to employers that you have completed 10 hours of OSHA-authorized training on critical workplace safety topics. Entry-level workers with this credential have industry-specific knowledge and skills that help prevent injuries and keep workplaces safe and productive. Upon successful completion of these courses, you will receive an OSHA 10 or Cal/OSHA card in general industry.
