DISCUSSIONS AND INSIGHTS

PITCH

Student groups develop pitches for their business idea with support from JA business mentors and deliver these at the Pitch Competition Event.

ACCELERATE

Student groups develop a high level business model using the lean canvas templates, presenting this and a 5-minute pitch at the Accelerate Competition Event.

LAUNCH

Student groups run their businesses, carefully tracking inventory and finances. Sales occur outside of the traditional meeting environment, so student groups meet to report on sales progress and to develop a PowerPoint presentation, proof of concept, and growth plan to be presented at the Launch Competition Event.
