

# COVID Policy

**1**

## If you are sick – stay home!

Coughing, sneezing, fever? Stay home!  
When you feel better and the symptoms  
are gone, come back to school

## If you test positive

you should isolate for 5 days from the  
time the symptoms start. Day 0 is the first  
day you feel unwell

**2****3**

## If someone in your household

has tested positive for COVID they should  
self-isolate. If you need to have contact  
with that person, you should BOTH wear a  
mask during this contact

## Wearing a mask to school!

If you are concerned about your health or  
believe you have been exposed to flu,  
covid, cold, but do not have any symp-  
toms, it is good practice to wear a mask
