## **AHERA NOTIFICATION**

It is the intention of the Mansfield Township School District to inform all staff, students and their parents and any building occupants annually about the status of any activities relating to Asbestos Containing Building Materials (ACBM) in the Mansfield Township School Building. In compliance with the most recent AHERA regulations, during the school year 1988-1989, the Board of Education contracted Princeton Testing Laboratories, a certified consulting firm, to identify, inspect and assess asbestos containing materials in the building and develop a management plan for dealing with them. A tri-annual inspection and survey was also conducted in 1992 and 1995. Six months surveillance are also conducted by the school's L.E.A. The management plan, the tri-annual inspection and the six month surveillance are available for review in the main office of the school during regular office hours. (8:00AM - 3:30PM)

## **NOTICE**

There is Asbestos Containing Material in this building. According to Briggs Associates Inc., there is no friable asbestos in any of the student occupied areas.
