

Transfer Students Immunization Requirements

A student transferring from another school system in South Carolina or from another state must provide their South Carolina Immunization Certificate. An out-of-state student must take their immunization record to a doctor or health department to receive a South Carolina certificate.

All incoming students with an international immunization record must take their immunization record to the health department for a South Carolina certificate.

Please note any missing or non-compliant immunizations will need to be administered by a physician or health department before a SC Immunization Certificate can be issued.

New residents may temporarily enroll their children in school for 30 days with a special exemption issued by the school until an immunization certificate can be obtained. If a certificate is not presented to the school at the end of the 30 days, the student will no longer be allowed to attend school.
