November 10, 2022

President and Members of the Board of Education and Residents Queen Bee School District 16 Glendale Heights, Illinois 60139

The Annual Comprehensive Financial Report of Queen Bee School District 16, Glendale Heights, Illinois, for the fiscal year ended June 30, 2022 is submitted herewith. Baker Tilly US, LLP, have issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2022 The independent auditors' report is located at the front of the financial section of this report. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented is: (1) accurate in all material aspects; (2) presented in a manner designed to fairly set forth the financial activity of its various funds; and (3) that all disclosures necessary for maximum public understanding of the District's financial status have been incorporated in the report.

The Annual Comprehensive Financial Report is presented in three sections: Introductory, Financial and Statistical. The Introductory section includes the table of contents, the transmittal letter, the District's organizational chart, and a list of principal officials. The Financial section begins with the Independent Auditors' Report and includes Management's Discussion and Analysis (the MD&A complements this letter and should be read in conjunction with it), the Basic Financial Statements and Notes that provide an overview of the District's financial position and operating results, the Combining and Individual Fund Statements for non-major funds and other schedules that provide detailed information relative to the Basic Financial Statements. The Statistical Section includes a number of tables of unaudited data depicting the financial history of the District, demographics, and the fiscal capacity of the District.

GENERAL DISTRICT INFORMATION

Founded in 1860, Queen Bee School District 16 provides pre-kindergarten through eighth grade educational programming. The District owns and operates five buildings, which, in FY22, were comprised of an Early Childhood & Pre-Kindergarten Center and Professional Development Center (Queen Bee School), two Kindergarten through Fourth Grade Elementary Schools (Glen Hill and Americana Elementary Schools), one Fifth through Eighth Grade Middle School (Glenside Middle School) and a building that is leased to and operated by AMITA Glen Oaks, a local, private Therapeutic Day School (Pheasant Ridge School). FY22 represents the second year of a seven-year lease of Pheasant Ridge, and the first in which the District did not operate its educational program in the building. The enrollment in the District decreased from 1,714 to 1,663 students between FY21 to FY22, respectively. There is little opportunity for housing development within the District boundaries and while the

District's share of the local property tax rate has been declining due to the District's concerted efforts in recent years, it remains at a relatively high level when compared to other DuPage County taxing bodies. Therefore, enrollment changes would most likely be attributable to generational movement within the community, and the District's recently commissioned demographic study concludes that this decline will continue for the near future. The majority of the District is located in Glendale Heights in DuPage County, Illinois with small portions of the District in unincorporated Glen Ellyn Countryside and Carol Stream. The District is located in the northern portion of DuPage County approximately 25 miles west of Chicago. The District is in Bloomingdale Township. The District contains approximately 3.5 square miles of land. The community served is approximately 34,000.

The District is served by the Metra/Union Pacific West train line to the south and Metra/Milwaukee District West line to the north. Located just two miles to the east of the District is the North - South Tollway that links DuPage County with all the major highways in northern Illinois.

ECONOMIC OUTLOOK

The District continued to practice sound financial management principles in FY22, which resulted in further growth in the balances of all core operating funds. The District adopted a "Fiscal Philosophy" during FY12 to address the pursuit of a balanced budget, solvency/liquidity, fund balance targets, borrowing targets, and transparency among other fiscal objectives. The increase in the tax extension this year and all future extensions will be limited to the Consumer Price Index (CPI) because the District is under the Illinois Property Tax Limitation Act. The CPI applicable to the upcoming 2022 tax levy is 7.0%, and this increase will allow additional revenue to be captured from the increased tax extension base (capped at 5%).

In January of 2020, the District applied for and was awarded by the Illinois State Board of Education a two-year Property Tax Relief Grant. In exchange for a \$1.5 million state grant, the District was required to abate \$1.6 million from the 2019 levy. This abatement, however, would not reduce the tax extension base for future levy years. The board elected to participate in the program, effectively reducing the local property for taxes paid by residents in 2020, while elevating the Evidence-Based Funding (EBF) minimum. In order for the \$1.5 million to remain in the Evidence-Based Funding (EBF) minimum for a second year and beyond, the District was required to abate another \$1.6 million from the 2020 levy, which it executed in January 2021, providing yet another year of property tax relief without the risk of eroding its tax extension base. In October 2021, ISBE announced that an additional round of this program would be offered that would apply to the 2021 and 2022 levy. The District applied and regrettably, did not get awarded another property tax relief grant.

At the beginning of FY18, the new Evidence-Based Funding (EBF) model was passed into law, and reformed the previous general state aid funding formula. In general, this new formula is driven by Districts' capacity to generate revenue through local sources, as well as by Districts' demographic compositions of student enrollment. As a result of its initial Tier I designation due to its relatively larger low-income, ELL and special education populations, as well as its relatively lower local residential and commercial property values, the District experienced a marked increase in overall state funding each year since FY18. Since the FY20 base funding minimum also included the \$1.5 million property tax relief grant referred to above, and as a result, the District was subsequently assigned a Tier 2 designation since it experienced a large increase in its local capacity to meet its adequacy target. This new Tier designation will result in the District receiving a smaller share of any new revenue allocated to the formula by the state's general assembly in the future. In the event that the general assembly cuts the

EBF allocation due to state budget shortfalls, this new Tier 2 distinction may introduce the risk of a burdening a greater share of the revenue cut than it would have otherwise as a Tier I district.

While the functional ages of the schools have improved in recent years due to concerted maintenance efforts and system upgrades, the original construction dates of the District facilities are as follows (oldest to youngest): Queen Bee School – 1954, Americana Intermediate School – 1963, Glen Hill Primary School – 1963, Glenside Middle School – 1969, and Pheasant Ridge Primary School – 1975. The District began to address the need to continue to maintain its aging facilities by completing a ten-year Life Safety Survey in 2011, and amending it in 2012, 2019 and 2021. The District completed the outstanding projects included in the survey by the end of 2021 and launched a long-term Master Facility Plan project update which entailed a new Life Safety Survey in 2021, a new roof survey, a new asbestos management plan and a new series of long-term facility enhancement options.

Prior to FY20, the District was facing a myriad of revenue risks and structural inefficiencies. Local revenues were not expected to increase significantly, enrollment was on the decline, the Operations & Maintenance expenses outpaced revenue, debt service payments were rising in accordance with their payment schedules, and various legislative proposals continued to threaten the District's financial health. Queen Bee 2020, the District's restructuring project, was successfully completed to address these structural challenges. The project was completed in November 2020 and stands as the cornerstone for the District's long-term sustainability. For the 2023 fiscal year, a balanced budget has been adopted and a deficit reduction plan is not required.

REPORTING ENTITY

The District includes all funds that are controlled by or dependent on the Board of Education of the District. The District does not exercise oversight responsibility over any other entity and thus does not include any other entity as a component unit in this report. Additionally, based on consideration of oversight responsibility, scope of public service and special financing relationships, the District is an independent entity, not included as a component unit of any other reporting entity.

FINANCIAL MANAGEMENT AND CONTROL

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data is properly recorded to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within this framework. Internal control practices are also integrated into the budgetary management of the District's funds. A budget is prepared for each fund, control is provided by verification of appropriation amounts prior to expenditures, as well as a monthly review of actual account totals compared to budget. Additional control is established through published policies and procedures for all aspects of accounting practices of the District, which includes the recording of receipts and disbursements of funds entrusted to the District.

To ensure sound financial management, proper accounting practices, internal controls, and budgetary planning are affirmed by the continual review of the Board of Education.

The basis of accounting and the various funds utilized by the District are fully described in Note 1 of the financial statements. Additional information on the District's budgetary accounting can also be found in Note 1.

This is the seventeenth year the District has prepared financial statements following GASB 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments." GASB 34 created basic financial statements for reporting on the District's financial activities as follows:

Government-wide financial statements. These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by many businesses. The government-wide statements include the Statement of Net Position and the Statement of Activities.

Fund financial statements. These statements present information for individual major funds rather than by fund type. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements.

As part of this model, management is responsible for preparing a Management Discussion and Analysis of the District. This discussion is located in the basic financial statements, providing an assessment of District finances for fiscal year 2022, with comparisons to 2021. You will note the positive financials trends that are reflection of the strong progress made.

FUTURE INITIATIVES

The most significant circumstance impacting the District in both the short and long term was the restructuring of the District's grade level center concept that was completed in the fall of 2020. The previous structure of four buildings serving grades K 8 was reduced to three buildings, starting in the 2020-21 school year. Two primary factors drove the decision to undertake this District restructuring. The first was the steady decline in enrollment over the past decade that resulted in staffing and operational inefficiencies across the four buildings. The second was the District's property tax rate rise over that period to one of the highest in DuPage County. To address these structural challenges, the District executed a lease of one of these four original buildings, Pheasant Ridge Elementary School, to a community health and education organization, which took effect on July 1, 2020. The District also issued 2020 Alternative Revenue Bonds, the proceeds of which funded the enhancement of the three remaining buildings to allow for the increased enrollment they would support as a result of this consolidation. The lease and service agreement revenues generated by Pheasant Ridge effectively fund the annual bond & interest payments of the 2020 Alternative Revenue Bonds, and the personnel and operational savings generated by the facility reduction supports the District's efforts to reduce property tax rates over time.

With regards to external factors, the COVID 19 pandemic posed a whole host of new circumstances and risks that the District addressed in FY20, FY21, and FY22 and continues to plan for in FY23 and beyond. Under the governor's school closure order, the District implemented fully remote instruction in the last quarter of FY20, and then implemented a hybrid remote & part time in person instructional model at the beginning of FY21 in accordance with local, state and federal health and safety guidelines. Due to rising transmission rates, the District returned to a fully remote model in October 2020. Given declining transmission rates and the proliferation of the COVID-19 vaccine, the District returned to a hybrid instructional model in February 2021, which it maintained through the end of the school year. Due to the shifting models of instruction employed, the revenue streams and expenditures differed from those experienced in a traditional school year budget. The DuPage County Treasurer's Department continued to collect and distribute taxes in the same fashion as it had before the pandemic, and the District is projecting that taxes will continue to be collected at pre-pandemic rates. The District has been allocated \$2.6 in the form of an ESSER III grant, all of which is expected to be collected in FY23. This grant allows the District to recapture certain costs back to the start of the pandemic, March 2020. While some expenses rose to meet student needs during the pandemic, such as enhanced instructional staff assignments, overtime for custodial work, technology purchasing and networking enhancements, the acquisition of personal protective equipment, cleaning supplies and other health related materials, the acquisition of furniture and building modifications to allow for social distancing, etc., they were offset by significant cost savings due to the reduction or elimination of extracurricular programs, transportation services, food services, and other services provided only in a traditional full day, in person instructional model.

A negotiated agreement with the Queen Bee Education Association (QBEA) was completed by the end of FY22 in June 2022, with a new five-year negotiated agreement, but with salary rate increases only set for the first three years of the agreement. In addition, the District's Insurance Committee will begin a process in the fall/winter of 2022-2023 to implement a high deductible health insurance plan design, which may result in the modification of plan options, as well as the premiums paid by both the employer and the employees. In general, staffing levels are reevaluated every year as enrollment shifts, retirements occur, and budgetary requirements become evident.

As cited earlier, the District launched a long-term Master Facility Plan project update that will result in a revised set of facility and financial goals for the District for the next 10 years and beyond. The District will consult with the Board to allocate the resources necessary to address any urgent facility needs that are newly identified, while also prioritizing the less urgent, yet important enhancements necessary to ensure the buildings' functional lives are reinforced to serve future generations of students.

RELEVANT FINANCIAL POLICIES

Budget planning begins no later than January by adopting a proposed budget calendar. The proposed budget shall be available for public inspection and comment at least 30 days before the budget hearing. The adopted budget shall be posted on the District's website and filed with the DuPage County Clerk's office within 30 days of adoption. The Board of Education may amend the budget by following the same procedures as provided for in the original adoption.

The Board of Education shall act on all expenditures, interfund loans and transfers, transfers within funds in excess of 10 percent of the total fund and all contingency fund expenditures.

The certificate of property tax levy is to be filed with the DuPage County Clerk's office by the last Tuesday in December. The District annually publishes a statement of affairs regarding its financial position by December 1st.

INDEPENDENT AUDIT

<u>The School Code of Illinois</u> and the District's adopted policy require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants selected by the District's Board of Education. The independent auditors' report has been included in the financial section of this report.

CERTIFICATE OF ACHIEVEMENT

The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. This was the twenty-fifth consecutive year that the District has received this prestigious award.

In order to be awarded a Certificate of Excellence, a government unit must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Excellence is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to conform to the Certificate requirements and we are submitting it to ASBO to determine its eligibility for another certificate.

CLOSING STATEMENT

It is our belief that this Annual Comprehensive Report will provide the District's management, outside investors, and local citizens with a most meaningful financial presentation. We hope that all readers of this Report will obtain a clear and concise understanding of the District's financial condition as of June 30, 2022. We extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a professional and fiscally responsible manner.

Respectfully submitted,

oseph R. Williams, Ed.D

Superintendent of Schools

The Certificate of Excellence in Financial Reporting is presented to

Queen Bee School District 16

for its Annual Comprehensive Financial Report for the Fiscal Year Ended June 30, 2021.

The district report meets the criteria established for ASBO International's Certificate of Excellence in Financial Reporting.

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Queen Bee School District 16 (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of June 30, 2022 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (GAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 2, the District adopted the provisions of GASB Statement No. 87, *Leases*, effective July 1, 2021. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the District's ability to continue as a going concern for a reasonable
 period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit for the year ended June 30, 2022 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information for the year ended June 30, 2022 as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2022, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2022.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District as of and for the year ended June 30, 2021 (not presented herein), and have issued our report thereon dated November 11, 2021, which contained unmodified opinions on the respective financial statements of the governmental activities and each major fund. The supplementary information for the year ended June 30, 2021 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2021 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2021 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2021.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory, statistical and other sections, as listed in the table of contents but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Report on Summarized Comparative Information

We have previously audited the District's 2021 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities and each major fund in our report dated November 11, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Oak Brook, Illinois November 10, 2022

Baker Tilly US, LLP

The discussion and analysis of Queen Bee School District 16's (the "District") financial performance provides an overall review of the District's financial activities as of and for the year ended June 30, 2022. The management of the District encourages readers to consider the information presented herein in conjunction with the transmittal letter found in the introductory section and the basic financial statements to enhance their understanding of the District's financial performance. All amounts, unless otherwise indicated, are expressed in millions of dollars. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

Financial Highlights

- > In total, net position increased by \$6.8. This is primarily attributable the second year of cost savings as a result of Queen Bee 2020, the district restructuring initiative that became fully effective on July 1, 2020. In addition, District's net OPEB liability decreased which attributed to the increase in net position.
- > General revenues accounted for \$30.9 in revenue or 77% of all revenues. Program specific revenues in the form of charges for services and fees and grants accounted for \$9.1 or 23% of total revenues of \$40.0.
- > The District had \$33.2 in expenses related to government activities. However, only \$9.1 of these expenses were offset by program specific charges and grants.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- > Government-wide financial statements,
- > Fund financial statements, and
- > Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities and transportation services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds (the District maintains no proprietary or fiduciary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Tort Immunity and Judgment Fund, Operations and Maintenance Fund, Transportation Fund, Municipal Retirement/Social Security Fund, Debt Service Fund, Capital Projects Fund and Fire Prevention and Safety Fund, all of which are considered to be major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension and other postemployment benefits to its employees.

Government-Wide Financial Analysis

The District's combined net position was higher on June 30, 2022, than it was the year before, increasing \$6.8 to \$11.3.

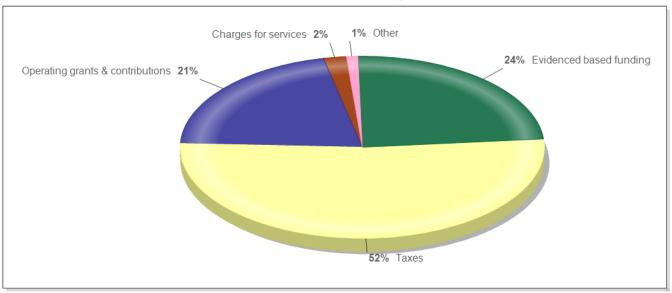

Table 1 Condensed Statements of Net Position (in millions of dollars)		
	<u>2021</u>	<u>2022</u>
Assets: Current and other assets Capital assets	· · · · · · · · · · · · · · · · · · ·	31.9 \$ 37.1 27.4 26.7

Net position: Net investment in capital assets Restricted Unrestricted (deficit)		6.9 7.7 3.2 4.1 (5.6) (0.5)
Total net position	<u>\$</u>	4.5 \$ 11.3

Revenues in the governmental activities of the District of \$40.0 exceeded expenses by \$6.8. This was attributable primarily to through optimizing staffing, reducing special education purchased services and out of district tuition expenses and completion of construction projects. In addition, FY22 was the second year of cost savings as a result of Queen Bee 2020, the district restructuring initiative that became fully effective on July 1, 2020.

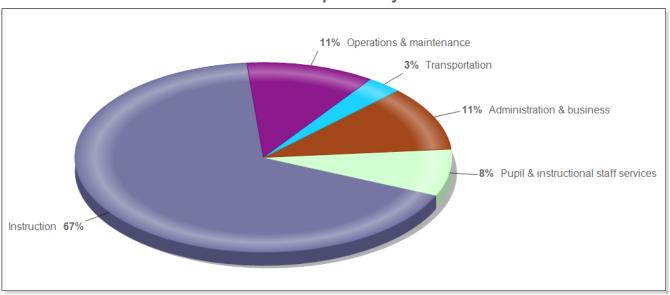

Table 2 Changes in Net Position (in millions of dollars)			
		<u>2021</u>	<u>2022</u>

Net position, end of year	<u>\$</u>	4.5 \$	11.3

Property taxes accounted for the largest portion of the District's revenues, contributing 52%. The remainder of revenues came from state, federal grants and other sources. The total cost of all the District's programs was \$33.2.

District-Wide Revenues by Source

District-Wide Expenses by Function

Financial Analysis of the District's Funds

The District's Governmental Funds balance increased from \$20.2 to \$24.7. This increase was chiefly attributable to revenues exceeding expenditures by \$4.5. Property tax receipts were up \$1.5, state aid payments were up \$0.8 but federal aid payments were down by \$1.2 due to COVID related grants from prior year.

Regular and special program student instruction expenditures increased \$0.3, retirement contributions increased by \$0.6, with in-person service instructional staff costs increasing \$0.8 and related operations costs increasing \$0.5. With the completion of the Queen Bee 2020 construction project the prior year, expenditures decreased \$7.9 in the operations and maintenance fund. Overall expenditures across all funds were \$5.5 less than FY21.

In addition, FY22 was the second year of cost savings as a result of Queen Bee 2020, the District restructuring initiative that became fully effective on July 1, 2020. These savings were largely captured through optimizing staffing, and reducing special education purchased services and out of district tuition expenditures and timing of construction spending.

General Fund Budgetary Highlights

The District budget is prepared in accordance with Illinois law and is based on the modified accrual basis of accounting (except for the exclusion of the on behalf payments from other governments discussed in the notes to required supplementary information), utilizing revenues, expenditures and encumbrances. The District amended the budget on June 13, 2022.

Budgeted revenues for fiscal year 2022 in the General Fund were \$25.8. Actual revenues of \$27.7 were higher than the budget by 7.2%. This increase was due to property tax receipts coming in over budget by \$0.8.

The District is subject to PTELL when property tax revenue is determined. The combination of annually increasing EBF revenue, with the staffing efficiencies due to the district restructuring, the special education program modifications, and a series of upcoming retirements will help maintain a healthy balance in the General Fund.

Staffing for instructional, administrative, and operations staff in both the General and Operations and Maintenance Funds for fiscal 2022 were again controlled to enhance budgetary solvency. Coupled with the district's thorough re-examination of existing contracts and long term obligations, restricting expenditures to only those that are budgeted or operationally critical is center to the Board of Education's and the administration's fiscal philosophy.

Capital Assets and Debt Administration

Capital assets

By the end of 2022, the District had compiled a total investment of \$45.0 (\$26.7 net of accumulated depreciation) in a broad range of capital assets including buildings, land and equipment. Total depreciation expense for the year was \$0.9. More detailed information about capital assets can be found in Note 5 of the basic financial statements.

Table 3 Capital Assets (net of depreciation) (in millions of dollars)			
		<u>2021</u>	<u>2022</u>
Construction in progress	\$	10.2 \$	10.0
Buildings and improvements		16.7	16.3
Equipment		0.1	-
Land improvements		0.4	0.4
Total	<u>\$</u>	27.4 \$	26.7

Long-term debt

At the end of fiscal 2022, the District had a debt margin of \$10.9. More detailed information on long-term debt can be found in Note 6 of the basic financial statements.

Table 4 Outstanding Long-Term Debt (in millions of dollars)

Alternative revenue bonds		7.3	6.9
Debt certificates and other		19.0	14.2
Total	<u>\$</u>	39.9 \$	33.3

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that will significantly affect financial operations in the future:

The most significant circumstance impacting the District in both the short and long term is the restructuring of the District's grade level center concept which was completed in the fall of 2020. The previous structure of four buildings serving grades K 8 was reduced to three buildings, starting for the 2020 21 school year. For fiscal 2022, this continued to be a successful strategy. Two primary factors drove the decision to undertake this District restructuring. The first is the steady decline in enrollment over the past decade that resulted in staffing and operational inefficiencies across the four buildings. The second is the District's property tax rate rise over that period to one of the highest in DuPage County. To address these structural challenges, the District executed a lease of one of these four original buildings, Pheasant Ridge Elementary School, to a community health and education organization, which took effect on July 1, 2020. The District also issued 2020 Alternative Revenue Bonds, the proceeds of which funded the enhancement of the three remaining buildings to allow for the increased enrollment they would support as a result of this consolidation. The lease and service agreement revenues generated by Pheasant Ridge effectively fund the annual bond & interest payments of the 2020 Alternative Revenue Bonds, and the personnel and operational savings generated by the facility reduction supports the District's efforts to reduce property tax rates over time.

With regards to external factors, the COVID 19 pandemic posed a whole host of new circumstances and risks that the District addressed in FY20 and FY21, and continues to plan for in FY22 and beyond. The District has also been allocated \$2.6 in the form of an ESSER III grant, all of which is expected to be collected in FY23 that will provide essential resources to address student learning loss through summer enrichment programs, the acquisition of English language arts and math curricula, student technology resources, key renovations to assist with social distancing and air quality in the schools.

An ongoing external factor impacting the District is state funding. The FY23 EBF calculation includes \$0.2 in additional revenue, bringing the FY23 EBF total to \$9.6, however, as expected, the District's Tier designation shifted for the first time from I to II, due to its improving local capacity, which will reduce its share of newly allocated state funding going forward.

Pension Reform is also currently on hold, but any form of "cost shift" in the future could seriously impact the District. A proposal that gained some traction in FY18 included a four year phase in that shift the entire cost burden onto the district at the end of the fourth year. If such cost shift were to be implemented, early estimates reveal an expenditure of \$0.3 in year one of the phase in, and upwards of \$1.2 expenditure in year four of the phase in and beyond.

A property tax freeze is also being considered by state lawmakers, and should such legislation ever be enacted, early estimates place the negative financial impact on Queen Bee School District 16 at approximately \$0.4 per year.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AS OF JUNE 30, 2022

Total fund balances - governmental funds		\$ 24,692,532
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Net capital assets used in governmental activities and included in the Statement of Net Position do not require the expenditure of financial resources and, therefore, are not reported in the Governmental Funds Balance Sheet.		26,707,888
Interest expense paid and incurred by the District recognized in the Statement of Net Position is not due and payable in the current period, and accordingly, is recognized as a prepaid expenditure in the Governmental Funds Balance Sheet.		(156,513)
Deferred outflows of resources related to other post-employment benefit liabilities do not relate to current financial resources and are not included in the Governmental Funds Balance Sheet.		815,687
Deferred outflows of resources related to pensions do not relate to current financial resources and are not included in the Governmental Funds Balance Sheet.		1,387,471
Deferred inflows of resources related to other post-employment benefit liabilities that do note relate to current financial resources and are not included in the Governmental Funds Balance Sheet.		(5,555,559)
Deferred inflows of resources related to pensions do not relate to current financial resources and are not included in the Governmental Funds Balance Sheet.		(3,258,415)
Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the Statement of Net Position. Balances at June 30, 2022 are:		
Bonds payable Debt certificates Unamortized bond premium Net OPEB liability Net pension liabilities Compensated absences	\$ (18,450,000) (500,000) (572,002) (11,865,327) (1,647,958) (228,278)	
	<u> </u>	(33,263,565)
Interest on long-term liabilities accrued in the Statement of Net Position will not be paid with current financial resources and, therefore, is not recognized in the Governmental Funds Balance Sheet.		 (24,319)
Net position of governmental activities		\$ 11,345,207

RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2022

Net change in fund balances - total governmental funds		\$	4,461,814
Amounts reported for governmental activities in the Statement of Activities are different because:		Φ	4,401,014
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeds current year net capital outlay in the current period.			(704,089)
Certain state aid revenues included in the Statement of Activities do not provide current financial resources and, therefore, are included as deferred inflows of resources in the fund statements. State and federal aid			(14,643)
The issuance of long-term debt (bonds, leases, etc.) provides current financial resources to the governmental funds, while its principal repayment consumes current financial resources of the governmental funds. Neither transaction, however, has any effect on net position. This is the amount of current year principal repayments.			1,870,000
Governmental funds report the effects of premiums, discounts and similar items when the debt is issued. However, these amounts are deferred and amortized in the Statement of Activities. This is the amount of the current year, net effect of these differences.			83,859
In the Statement of Activities, operating expenses are measured by the amounts incurred during the year. However, certain of these items are included in the governmental funds only to the extent that they require the expenditure of current financial resources: Interest payable Compensated absences Net OPEB liability Accretion on capital appreciation bonds Net pension liability	\$ 4,835 38,554 2,587,327 (15,486) 2,004,450		
Deferred outflows of resources due to OPEB liabilities Deferred inflows of resources due to OPEB liabilities Deferred outflows of resources due to pensions Deferred inflows of resources due to pensions State on-behalf contribution revenue State on-behalf contribution expense	 (170,819) (2,132,066) (698,496) (464,144) (454,684) 454,684		1,154,164
Interest expense paid and incurred by the District and recognized in the Statement of Activities is not due and payable in the current period, and accordingly, is not recognized as an expenditure in the Governmental Funds Income Statement.			1,137
Change in net position of governmental activities		\$	6,852,242

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Queen Bee School District 16 (the "District") operates as a public school system governed by a sevenmember board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to the accounting principles generally accepted in the United States of America, as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the District:

Reporting Entity

This report includes all of the funds of the District. The reporting entity for the District consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The District has not identified any organizations that meet this criteria.

Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's operating activities are all considered "governmental activities", that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities".

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) amounts paid by the recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Governmental Funds Financial Statements

Governmental funds financial statements are organized and operated on the basis of funds and are used to account for the District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, reserves, fund balance, revenues and expenditures. The minimum number of funds is maintained consistent with legal and managerial requirements.

Separate financial statements are provided for all governmental funds.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements have been met.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, expenditures for unmatured principal and interest on general long-term debt are recognized when due; and certain compensated absences, claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Major Governmental Funds

<u>General Fund</u> - the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. This fund is primarily used for most of the instructional and administrative aspects of the District's operations. Revenues consist largely of local property taxes and state government aid.

<u>Special Revenue Funds</u> - account for the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes, other than those accounted for in the Debt Service Fund or Capital Projects Funds.

Tort Immunity and Judgment Fund - accounts for all revenue and expenditures related to the prevention of tort liability. Revenue is derived primarily from local property tax collections and investment income.

Operations and Maintenance Fund - accounts for expenditures made for repair and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes.

Transportation Fund - accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

<u>Debt Service Fund</u> - accounts for the accumulation of resources that are restricted, committed, or assigned for, and the payment of, long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds.

<u>Capital Project Funds</u> - accounts for the financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of, and/or additions to, major capital facilities.

Capital Projects Fund - accounts for construction projects and renovations financed through serial bond issuance.

Fire Prevention and Life Safety Fund - accounts for State-approved life safety projects financed through serial bond issues or local property taxes levied specifically for such purposes.

On-behalf payments (payments made by a third party for the benefit of the district, such as payments made by the state to the Teachers' Retirement System) have been recognized in the financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Property taxes, replacement taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and recognized as revenue at that time.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until earned.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly-rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at fair value. Changes in fair value of investments are included as investment income.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the governmental activities column in the statement of net position. Receivables are expected to be collected within one year.

Property Tax Revenues

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2021 levy resolution was approved during the December 16, 2021 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year.

The tax rate ceilings are applied at the fund level. These ceilings are established by state law subject to change only by the approval of the voters of the District.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lessor of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The CPI rates applicable to the 2021 and 2020 tax levies were 1.4% and 2.3%, respectively.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

The 2021 property tax levy is recognized as a receivable in fiscal 2022, net of estimated uncollectible amounts approximating 1% and less amounts already received. The District considers that the first installment of the 2021 levy is to be used to finance operations in fiscal 2022. The District has determined that the second installment of the 2021 levy is to be used to finance operations in fiscal 2023 and has included the corresponding receivable as a deferred inflow of resources.

Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement / Social Security Fund, and the balance is allocated to the remaining funds at the discretion of the District.

Prepaid Items

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include land, land improvements, buildings, building improvements, vehicles, equipment, and construction in progress are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$1,000 and an estimated useful life of more than 1 year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and building improvements	40
Land improvement	20
Equipment and vehicles	5-10

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

Compensated Absences

Non-certified employees earn vacation days which vest after the completion of one year of service. Employees accrue vacation days at varying levels depending on job title and years of service. Only benefits considered to be vested are disclosed in these statements.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

All vested vacation is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at June 30, 2022 are determined on the basis of current salary rates and include salary related payments.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the applicable bonds using the effective interest method. The balance at year end for premiums/discounts is shown as an increase or decrease in the liability section of the statement of net position.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

Equity Classifications

Equity is classified as net position in the government-wide financial statements and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less than any unspent debt proceeds.

Restricted net position - Consists of net position with constraints placed on its use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources.

Equity is classified as fund balance in the fund financial statements and displayed in five components:

Nonspendable - includes amounts not in spendable form, such as inventory, or amounts required to be maintained intact legally or contractually (principal endowment) (e.g. inventory, pre-paid items, permanent scholarships).

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Restricted - includes amounts constrained for a specific purpose by external parties (e.g. Debt Service, Capital Projects, State and Federal Grant Funds).

Committed - includes amounts constrained for a specific purpose by a government using its highest level of decision making authority, the Board of Education. This formal action (a resolution) must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Board of Education board that originally created the commitment.

Assigned - includes General Fund amounts constrained for a specific purpose by the Board of Education or by an official that has been delegated authority to assign amounts. The Board of Education may also take official action to assign amounts. Additionally, all remaining positive spendable amounts in governmental funds, other than the General Fund, that are neither restricted nor committed are considered assigned. Assignments may take place after the end of the reporting period.

Unassigned - includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

Governmental fund balances reported on the fund financial statements at June 30, 2022 are as follows:

The restricted and assigned fund balances in the governmental funds are for the purpose of the respective funds as described above in the Major Governmental Funds section. The nonspendable fund balances are for prepaid items.

Comparative Data

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2021, from which such summarized information was derived.

Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

Note 2 - Changes in Accounting Principles

In June 2017, the Governmental Accounting Standards Board issued statement No. 87 - Leases. This Statement establishes a single model for lease accounting based on foundational principle that leases are financings of the right to use an underlying asset. The statement requires lessees to recognize a lease liability and an intangible right-to-use lease asset and lessors to recognize a lease receivable and a deferred inflow of resources. This standard was implemented July 1, 2021.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 3 - DEPOSITS AND INVESTMENTS

At year end, the District's cash and investments was comprised of the following:

	Carrying Valu	Statement e Balances
Deposits ISDLAF+ money market funds	\$ 15,373,74 10,123,60	
Total	\$ 25,497,35	<u>1</u> \$ 26,144,885

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. The trust is not registered with the SEC as an investment company. Investments are rated AAAm and are valued at share price, which is the price for which the investment could be sold.

Custodial Credit Risk - Deposits. With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of June 30, 2022, the bank balance of the District's deposit with financial institutions totaled \$16,021,278; of which the entire amount was collateralized and insured.

Custodial Credit Risk - Investments. With respect to investments, custodial credit risk is the risk that, in the even of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring all investments be secured by private insurance or collateral.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common checking and investment accounts, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures that have been approved by the Board of Education.

NOTE 4 - INTERFUND TRANSFERS

During the year, the Board transferred \$6,300,000 from the General Fund (Educational Accounts) to the Operations and Maintenance Fund. These transfers were made to support future operations as the fund has met its levy rate ceiling.

In addition, the Board transferred \$109,250 from the General Fund (Educational Accounts) and \$1,601,500 from the Operations and Maintenance Fund to the Debt Service Fund to meet debt service requirements on the District's debt certificates and alternate revenue bonds.

Lastly, during the year, the Board of Education authorized the transfer of a portion of the General Fund (Educational Accounts), thereby transferring fund balance of \$600,000 to the Capital Projects Fund to fund capital projects.

State law allows for the above transfers.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 5 - CAPITAL ASSETS

Capital asset activity for the District for the year ended June 30, 2022 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets not being depreciated:				
Land Construction in progress	\$ 1,628 10,210,129	\$ - \$ 199,027	366,442	1,628 10,042,714
Total capital assets not being depreciated	10,211,757	199,027	366,442	10,044,342
Capital assets being depreciated:				
Land improvements Building improvements Equipment Vehicles	1,112,417 29,365,652 3,802,212 327,241	366,442 - -	- - - -	1,112,417 29,732,094 3,802,212 327,241
Total capital assets being depreciated	34,607,522	366,442	<u> </u>	34,973,964
Less Accumulated Depreciation for:				
Land improvements Building improvements Equipment Vehicles	695,976 12,727,706 3,679,648 303,972	53,856 721,913 122,564 4,783	- - - -	749,832 13,449,619 3,802,212 308,755
Total accumulated depreciation	17,407,302	903,116	<u>-</u> _	18,310,418
Net capital assets being depreciated	17,200,220	(536,674)	<u> </u>	16,663,546
Net governmental activities capital assets	\$ 27,411,977	\$ <u>(337,647</u>) <u>\$</u>	<u>366,442</u> \$	26,707,888

Depreciation expense was recognized in the operating activities of the District as follows:

Governmental Activities	Depreciation
Regular programs	\$ 434,836
Special programs Instructional staff	51,760 224,645
General administration School administration	26,567 36,858
Operations and maintenance Central	117,151 11,299
Total depreciation expense - governmental activities	\$ 903,116

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 6 - LONG TERM LIABILITIES

Changes in General Long-term Liabilities. The following is the long-term liability activity for the District for the year ended June 30, 2022:

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
General obligation bonds Alternate revenue bonds Unamortized premium	\$ 12,944,514 7,265,000 684,968	\$ 15,486 - 	\$ 1,375,000 400,000 112,966	\$ 11,585,000 6,865,000 572,002	\$ 1,465,000 425,000
Total bonds payable Debt certificates Compensated absences Net pension liability Net OPEB liability	20,894,482 595,000 266,832 3,652,417 14,452,654	15,486 - 232,302 - 69,870	1,887,966 95,000 270,856 2,004,459 2,657,197	19,022,002 500,000 228,278 1,647,958 11,865,327	1,890,000 100,000 228,278 -
Total long-term liabilities - governmental activities	<u>\$ 39,861,385</u>	\$ 317,658	\$ 6,915,478	\$ 33,263,565	\$ 2,218,278

Additions to the general obligation bonds includes accretion on capital appreciation bonds. The obligations for the compensated absences, OPEB liabilities, and net pension liability will be repaid from the General Fund and the obligation for the IMRF net pension liability will be paid from the Municipal Retirement/Social Security Fund.

General Obligation Bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates	Original Indebtedness	Carrying Amount
Series 2013A Taxable General Obligation Refunding School Bonds dated March 4, 2013 are due in annual			
installments through June 30, 2024 Series 2013B Taxable General Obligation Limited Tax	3.50% to 3.63%	\$ 1,000,000 \$	1,000,000
School Bonds dated March 4, 2013 are due in annual installments through June 30, 2033 Series 2015 General Obligation Refunding School Bonds	3.25% to 3.75%	7,565,000	7,565,000
dated May 6, 2015 are due in annual installments through May 1, 2026	2.00% to 2.25%	5,375,000	3,020,000
Total		\$ 13,940,000 \$	11,585,000

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 6 - LONG TERM LIABILITIES - (CONTINUED)

Annual debt service requirements to maturity for general obligation bonds are as follows for governmental type activities:

	Principal	Interest	Total
2023	\$ 1,465,000 \$	354,219 \$	1,819,219
2024	1,585,000	315,419	1,900,419
2025	1,700,000	272,941	1,972,941
2026	820,000	239,144	1,059,144
2027	740,000	215,150	955,150
2028 - 2032	4,365,000	655,050	5,020,050
2033	 910,000	34,125	944,125
Total	\$ 11,585,000 \$	2,086,048 \$	13,671,048

The District is subject to the Illinois School Code, which limits the amount of certain indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2022, the statutory debt limit for the District was \$29,822,771, providing a debt margin of \$10,872,771.

Alternate Revenue Bonds. The obligations for the alternative revenue bonds will be repaid from the Operations and Maintenance Fund. The District has pledged future fund revenues to repay \$7,610,000 million in revenue bonds issued in 2020. Proceeds from the bonds provided financing for the to build and equip additions to and alter, repair and equip the Glen Hill Primary, Americana Intermediate and Glenside Middle School Buildings and improve the sites thereof.

Alternate Revenue bonds currently outstanding are as follows:

Purpose	Interest Rates	Original Indebtedness	Carrying Amount
Series 2020 General Obligation (Alternate Revenue Source) School Bonds dated March 30, 2020 are due in annual installments through June 1, 2034	2.00% to 4.00%	\$ 7,610,000 <u>\$</u>	6,865,000
Total		<u>\$ 7,610,000</u> <u>\$</u>	6,865,000

Annual debt service requirements to maturity for alternative revenue bonds are as follows for governmental type activities:

	Principal	Interest	Total
2023	\$ 425,000 \$	185,500 \$	610,500
2024	455,000	168,500	623,500

Total	<u>\$</u>	500,000 \$	36,285 \$	536,285

NOTE 7 - LESSOR AGREEMENTS

The District leases one of its school buildings under a noncancelable operating lease to a third party. The District recognized \$371,490 in lease revenue during the current fiscal year related to these leases. As of June 30, 2022, the District's receivable for lease payments was \$803,119. Additionally, the District reported deferred inflows of resources associated with the leases that will be recognized as revenue over the lease term. As of June 30, 2022, the District reported deferred inflows of resources of \$803,119.

Description	Date of Issue	Final Maturity	Interest Rates	Outstanding Principal
Building lease	7/1/2020	7/1/2024	1.15%	803,119
Total			<u>;</u>	\$ 803,119

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the following public entity risk pools: Educational Benefit Cooperative (EBC) for some or all of the employees' benefits and Collective Liability Insurance Cooperative to administer workers' compensation claims, casualty, property, and liability protection, and all insurance other than health, life and accident coverages procured the member districts. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 9 - JOINT AGREEMENTS

The District is a member of the Cooperative Association for Special Education (CASE), a joint agreement that provides certain special education programs and services to residents of many school districts. The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these are not included as component units of the District.

Complete financial statements for CASE can be obtained from the administrative office at 22W600 Butterfield Road, Glen Ellyn, Illinois 60137.

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS

Teachers' Health Insurance Security

Plan Description. The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are listed under "Central Management Services."

Benefits Provided. The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

On Behalf Contributions to THIS Fund. The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.90% of pay during the year ended June 30, 2022. During the year, State of Illinois contributions of \$106,352 were recognized as revenues and expenditure in the General Fund based on the current financial resources basis and \$(423,300) were recognized as revenues and expenses in government activities based on the economic resources measurement basis.

Contributions. The District also makes contributions to THIS Fund. The District's THIS Fund contribution was 0.67% during the year ended June 30, 2022. The percentage of employer required contributions in the future will not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2022, the District paid \$79,173 to the THIS Fund, respectively, which was 100 percent of the required contribution for the year.

THIS Fiduciary Net Position. Detailed information about the THIS Fund's fiduciary net position as of June 30, 2021 is available in the separately issued THIS Annual Financial Report.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

Net OPEB Liability. At June 30, 2022, the District reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for the state's retiree insurance support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collection net OPEB liability

State's proportionate share of the collective net OPEB liability associated with the District

Total

\$ 9,660,649
13,098,430
\$ 22,759,079

The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021. The District's proportion of the net OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2021, relative to the projected contributions of all participating THIS employers and the state during that period. At June 30, 2021 and 2020, the District's proportion was 0.043802% and 0.044931%, respectively.

Actuarial Assumptions. The net OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.50%

Salary Increases 4.00% to 9.50%

Investment Rate of Return 2.75%

Healthcare Cost Trend Rates - Initial Medicare and Non-Medicare - 8.00%

Healthcare Cost Trend Rates - Ultimate 4.25% Fiscal Year the Ultimate Rate is Reached 2038

Mortality rates were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants, mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

Discount Rate. At June 30, 2021, the discount rate used to measure the total OPEB liability was a blended rate of 1.92%, which was a change from the June 30, 2020 rate of 2.45%. Since THIS is financed on a payas-you-go basis, the discount rate is based on the 20-year general obligation bond index.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (0.92%) or 1-percentage-point higher (2.92%) than the current discount rate:

	1% Decrease	Current Discount Rate	1% Increase
Net OPEB Liability	<u>\$ 11,720,915</u>	\$ 9,660,649	\$ 8,200,158

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower (initial rate of 7.00% decreasing to an ultimate rate of 3.25%) for Medicare and non-Medicare coverage or 1-percentage-point higher (initial rate of 9.00% decreasing to an ultimate rate of 5.25%) for Medicare and non-Medicare coverage than the current healthcare cost trend rate:

		Healthcare Cost Trend	
	1% Decrease	Rate	1% Increase
Net OPEB Liability	\$ 7,810,893	\$ 9,660,649	\$ 12,400,417

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. For the year ended June 30, 2022, the District recognized OPEB expense of \$(235,101) and on-behalf revenue and expenditures of \$(423,300) for support provided by the state. At June 30, 2022, the District's deferred outflows of resources and deferred inflows of resources related to OPEBs were from the following sources:

	0	Deferred utflows of esources	_	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$	-	\$	451,913
Changes in Assumptions		3,335		3,617,478
Net Difference Between Projected and Actual Earnings on OPEB Plan				
Investments		152		185
Changes in Proportion and Differences Between District Contributions and				
Proportionate Share of Contributions		504,499		1,364,401
District Contributions Subsequent to the Measurement Date		79,173		
Total	\$	587,159	\$	5,433,977

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net OPEB liability for the year ending June 30, 2023. The remaining amounts reported as deferred outflows and inflows of resources related to OPEB (\$(4,925,991)) will be recognized in OPEB expense as follows in these reporting years:

	Year Ending June 30,		Amount
2023		\$	(672,035)
2024			(672,035)
2025			(672,035)
2026			(672,036)
2027			(672,027)
Thereafter		_	(1,565,823)
Total		\$	(4,925,991)

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

Medical Insurance Retirement Program

Plan Description. The District administers a single-employer defined benefit healthcare plan ("the Medical Insurance Retirement Program"). The plan provides health insurance reimbursements for eligible retirees and their spouses through the District's group health insurance plan, which covers both active and retired members. Benefit provisions are established through personnel policy guidelines and state that eligible IMRF retirees and their spouses may remain on the District's insurance plan until they are Medicare eligible, with a fixed District provided reimbursement equal to the single HMO premium in the year of retirement. The retiree must pay the difference between the billed premium and the District reimbursement, and the District contribution does not rise if there is a premium increase. TRS retirees are not eligible to remain on the District's medical coverage upon retirement. Instead, these employees are offered an annual stipend based on years of service. The District covers 100% of medical insurance cost for eligible retired administrators and their spouses until age 65 or for ten years, whichever is first. The Medical Insurance Retirement Program does not issue a publicly available financial report. Total aggregate OPEB expense for the THIS and the Retirees' Health Plan is \$(23,317).

Contributions and Benefits Provided. Contribution requirements are established through personnel policy guidelines and may be amended by the action of the governing body. For the year ended 2022, the District contributed \$181,958 to the plan.

Employees Covered by Benefit Terms. At June 30, 2022, the actuarial valuation date, the following employees were covered by the benefit terms:

Retired Plan Members	23
Active Employees Not Yet Eligible	-
Active Employees Fully Eligible	201
Total	224

Total OPEB Liability. The District's total OPEB liability of \$2,204,678 was measured as of June 30, 2022, and was determined by an actuarial valuation as of that date.

Inflation	2.25%
Election at Retirement	100.00%
Discount Rate	3.54%
Healthcare Cost Trend Rate - Initial	4.50% PPO
	10.70% HMO
Healthcare Cost Trend Rate - Ultimate	5.00%
Fiscal Year the Ultimate Rate is Reached	2027

The discount rate was based on the high quality 20 year tax-exempt G.O. bond rate.

Mortality rates were based on the following: IMRF Mortality follows the Sex Distinct Raw Rates as Developed in the PubG-2010(B) Study. These rates are improved generationally using MP-2020 Improvement Rates. TRS Mortality follows the Sex Distinct Raw Rates as Developed in the PubT-2010 Study. These rates are improved generationally using MP-2020 Improvement Rates and Weighted Based on the TRS June 30, 2020 Actuarial Valuation.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of the best estimates of future events.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

Changes in Total OPEB Liability. The District's changes in total OPEB liability for the year ended June 30, 2022 was as follows:

	Total OPEB Liability	
Balance at June 30, 2021 Service Cost Interest Differences Between Expected and Actual Experience Changes in Assumptions and Other Inputs Benefit Payments	\$	2,316,766 150,999 48,077 (39,115) (90,091) (181,958)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. For the year ended June 30, 2022, the District recognized OPEB expense of \$211,784. The District reported deferred outflows and inflows of resources related to OPEB from the following sources:

	O	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference Between Expected and Actual Experience Assumption Changes	\$	79,828 148,700	\$	36,807 84,775	
Total	<u>\$</u>	228,528	\$	121,582	

The amounts reported as deferred outflows and inflows of resources related to OPEB (\$106,946) will be recognized in OPEB expense as follows:

	Year Ending June 30,	Amount
2023		\$ 12,708
2024		12,708
2025		12,708
2026		12,708
2027		12,708
Thereafter		 43,406
Total		\$ 106,946

NOTE 11 - RETIREMENT SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Total aggregate pension expense for fiscal year 2022 is \$(212,270). Each retirement system is discussed below.

Teachers' Retirement System

Plan Description. The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/acfrs/fy2021; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Benefits Provided. TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for *Tier 2* are identical to those of *Tier 1*. Death benefits are payable under a formula that is different from *Tier 1*.

Essentially all *Tier 1* retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. *Tier 2* annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional *Tier 3* hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Contributions. The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2021 was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the District, is submitted to TRS by the District.

On Behalf Contributions to TRS. The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2022, State of Illinois contributions recognized by the District were based on the state's proportionate share of with the pension expense associated with the District, and the District recognized revenue and expenses of \$5,943,623 in governmental activities based on the economic resources measurement basis and revenues and expenditures in the amount of \$5,868,655 in the General Fund based on the current financial resources measurement basis.

2.2 Formula Contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2022, were \$68,537, and are deferred because they were paid after the June 30, 2021 measurement date.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Federal and Special Trust Fund Contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total District normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much more higher.

For the year ended June 30, 2022, the District pension contribution was 10.31 percent of salaries paid from federal and special trust funds. Contributions for the year ended June 30, 2022, were \$22,903, which was equal to the District's required contribution. These contributions are deferred because they were paid after the June 30, 2021 measurement date.

Salary increases over 6 percent. The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. For the year ended June 30, 2022, the District paid \$737 to TRS for employer contributions due on salary increases in excess of 6 percent.

TRS Fiduciary Net Position. Detailed information about the TRS's fiduciary net position as of June 30, 2021 is available in the separately issued TRS Annual Comprehensive Financial Report.

Net Pension Liability. At June 30, 2022, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 988,725
State's proportionate share of the collective net pension liability associated with the District	 82,865,696
Total	\$ 83,854,421

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020, and rolled forward to June 30, 2021. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2021, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2021 and 2020, the District's proportion was 0.00126741 percent and 0.00138745 percent, respectively.

Summary of Significant Accounting Policies. For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of TRS and additions to/deductions from TRS fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the June 30, 2021 actuarial valuation included (a) 7.00% investment rate of return net of pension plan investment expense, including inflation, (b) projected salary increases varies by amount of service credit, and (c) inflation of 2.25%.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Mortality. The assumed mortality rates are based on the Society of Actuaries PubT-2010 mortality tables, adjusted for TRS experience, with generational improvement based on Scale MP-2020. The actuarial assumptions used were based on the results of an experience study dated August 12, 2021.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	16.70 %	6.20 %
U.S. equities small/mid cap	2.20 %	7.40 %
International equities developed	10.60 %	6.90 %
Emerging market equities	4.50 %	9.20 %
U.S. bonds core	3.00 %	1.60 %
Cash equivalents	2.00 %	0.10 %
TIPS	1.00 %	0.80 %
International debt developed	1.00 %	0.40 %
Emerging international debt	4.00 %	4.40 %
Real estate	16.00 %	5.80 %
Private debt	10.00 %	6.50 %
Hedge funds	10.00 %	3.90 %
Private equity	15.00 %	10.40 %
Infrastructure	4.00 %	6.30 %

Discount Rate. At June 30, 2021, the discount rate used to measure the total pension liability was a blended rate of 7.00 percent, which was the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2021 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. *Tier 1*'s liability is partially funded by *Tier 2* members, as the *Tier 2* member contribution is higher than the cost of *Tier 2* benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Discount Rate Sensitivity. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1%	Current % Decrease Discount Rate				1% Increase		
District's proportionate share of the collective net pension liability	\$	1,224,516	\$	988,725	\$	792,870		

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended June 30, 2022, the District recognized pension expense of \$(47,916) and on-behalf revenue of \$5,943,623 for support provided by the state. At June 30, 2022, the District's deferred outflows of resources and deferred inflows of resources related to pensions were from the following sources:

	0	Deferred utflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experience Net difference between projected and actual earnings on pension plan	\$	5,672	\$ 4,077		
investments		-	66,320		
Assumption changes Changes in proportion and differences between District contributions and		438	4,886		
proportionate share of contributions		725,170	844,978		
District contributions subsequent to the measurement date		91,440	 _		
Total	\$	822,720	\$ 920,261		

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability for the year ending June 30, 2023. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$(188,981)) will be recognized in pension expense as follows:

Year Ending June 30,		Amount		
2023		\$ 83,242		
2024		31,857		
2025		(160,663)		
2026		(132,657)		
2027		 (10,760)		
Total		\$ (188,981)		

Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer pension plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For *Regular Tier 1*, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under *Regular Tier 1*, the pension is increased by 3% of the original amount on January 1 every year after retirement. For *Regular Tier 2*, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under *Regular Tier 2*, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Plan Membership. At December 31, 2021, the measurement date, membership of the plan was as follows:

Retirees and beneficiaries	93
Inactive, non-retired members	80
Active members	77
Total	250

Contributions. As set by statute, District employees participating in IMRF are required to contribute 4.50 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actuarially determined contribution rate for calendar year 2021 was 13.88 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Actuarial Assumptions. The assumptions used to measure the total pension liability in the December 31, 2021 annual actuarial valuation included (a) 7.25% investment rate of return, (b) projected salary increases from 2.85% to 13.75%, and (c) price inflation of 2.25%. The retirement age is based on experience-based table of rates that are specific to the type of eligibility condition. The tables were last updated for the 2020 valuation pursuant to an experience study of the period 2017-2019.

Mortality. For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020 were used. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

		Projected Returns/Risk			
	Target	One Year	Ten Year		
Asset Class	Allocation	Allocation Arithmetic 39.00 % 3.25 % 15.00 % 4.89 % 25.00 % (0.50)% 10.00 % 4.20 %			
Equities	39.00 %	3.25 %	1.90 %		
International equities	15.00 %	4.89 %	3.15 %		
Fixed income	25.00 %	(0.50)%	(0.60)%		
Real estate	10.00 %	4.20 %	3.30 %		
Alternatives	10.00 %				
Private equity		8.85 %	5.50 %		
Hedge funds		-	-		
Commodities		2.90 %	1.70 %		
Cash equivalents	1.00 %	(0.90)%	(0.90)%		

Discount Rate. The discount rate used to measure the total pension liability for IMRF was 7.25%, the same rate as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits payments to determine the total pension liability.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Discount Rate Sensitivity. The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate of 7.25% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	Current 1% Decrease Discount Rate				1% Increase			
Total pension liability Plan fiduciary net position Net pension liability/(asset)	\$ \$	22,702,105 19,526,655 3,175,450	\$ \$	20,185,888 19,526,655 659,233	\$ \$	18,171,471 19,526,655 (1,355,184)		

Changes in Net Pension Liability/(Asset). The District's changes in net pension liability/(asset) for the calendar year ended December 31, 2021 was as follows:

	Increase (Decrease)							
	T	otal Pension Liability (a)		an Fiduciary let Position (b)	· /	Net Pension Liability/ (Asset) (a) - (b)		
Balances at December 31, 2020 Service cost Interest on total pension liability	\$	19,426,316 366,419 1,390,896	\$	16,970,089 - -	\$	2,456,227 366,419 1,390,896

Contributions Contributions - employer Contributions - employee Net investment income Other (net transfer)		(849,507) - - - -		(849,507) 517,448 170,989 2,815,052 (97,416)		(517,448) (170,989) (2,815,052) 97,416		
Balances at December 31, 2021	\$	20,185,888	\$	19,526,655	\$	659,233		

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended June 30, 2022, the District recognized pension expense of \$(164,354). The District's deferred outflows and inflows of resources related to pension were from the following sources:

	0	Deferred utflows of lesources	Deferred Inflows of Resources		
Differences between expected and actual experience Assumption changes Net difference between projected and actual earnings on pension plan	\$	303,449	\$ 148,350 78,423		
investments Contributions subsequent to the measurement date		- 261,302	2,111,381		
Total	\$	564,751	\$ 2,338,154		

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability/(asset) for the year ending June 30, 2023. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$(2,034,705)) will be recognized in pension expense as follows:

Year Ending June 30,			Amount				
2023		\$	(381,787)				
2024			(806,082)				
2025			(528,017)				
2026			(318,819)				
Total		\$	(2,034,705)				

NOTE 12 - STATE AND FEDERAL AID CONTINGENCIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowance, if any, would be immaterial.

NOTE 13 - CONTINGENT LIABILITIES

The District is a defendant in various tax rate objection cases. Although the outcome is not presently determinable, in the opinion of the District's attorneys, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

NOTE 14 - EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 91, Conduit Debt, GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, GASB Statement No. 96, Subscription-Based Information Technology Arrangements, GASB Statement No. 99, Omnibus 2022, GASB Statement No. 100, Accounting Changes and Error Corrections an amendment of GASB Statement No. 62, and GASB Statement No. 101, Compensated Absences.

When they become effective, application of these standards may restate portions of these financial statements.

NOTE 15 - SUBSEQUENT EVENTS

On October 5, 2022, the District issued general obligation bonds in the amount of \$7,695,000 with an interest rate of 2.53 percent. These bonds were issued to refund the District's General Obligation Limited Tax School Bonds, Series 2013B, dated March 6, 2013.

Notes to Schedule:

The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

Valuation date:

Actuarially determined contribution rates are calculated as of December 31 each year, which are 6 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate Entry age normal
Amortization method Level percentage of payroll, closed

Remaining amortization period 22 years

Asset valuation method 5-Year Smoothed Market, 20% corridor

Inflation 2.50%

Salary increases 3.35% to 14.25%, including inflation

Investment rate of return 7.25%

Retirement Age Experience-based table of rates that are specific to the type of eligibility condition Mortality RP-2014 Employee Mortality Table, adjusted to match current IMRF experience

Other information:

There were no benefit changes during the year.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION AS OF AND FOR THE YEAR ENDED JUNE 30, 2022

STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data

Except for the exclusion of on-behalf payments from other governments, discussed below, the budgeted amounts for the Governmental Funds are adopted on the modified accrual basis, which is consistent with accounting principles generally accepted in the United States of America.

The Board of Education follows these procedures in establishing the budgetary data reflected in the general purpose financial statements:

- 1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to September 30, the budget is legally adopted through passage of an resolution. By the last Tuesday in December, a tax levy resolution is filed with the county clerk to obtain tax revenues.
- 4. Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education, after following the public hearing process mandated by law.
- 5. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
- 6. All budget appropriations lapse at the end of the fiscal year.

The Board of Education amended the budget on June 13th, 2022.

Budget Reconciliations

The Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds (GAAP basis) includes "on-behalf" payments received and made for the amounts contributed by the State of Illinois for the employer's share of the Teachers Retirement System pension. The District does not budget for these amounts in the General Fund (Educational Accounts). The differences between the budget and GAAP basis are as follows:

	Revenues		Expenditures	
General Fund Budgetary Basis To adjust for on-behalf payments received To adjust for on-behalf payments made	\$	27,668,959 5,975,007 -	\$	21,841,794 - 5,975,007
General Fund GAAP Basis	\$	33,643,966	\$	27,816,801

Note: Tax rates are per \$100 of assessed value.

Note: The District's ability to raise its direct rate is restricted by the tax rate ceiling and the PTELA limitation. The tax rate ceilings are applied at the fund level. These ceilings are established by state law subject to change only by the approval of the voters of the District. The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lessor of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation.
