**Subject:** For the Board Packet

We would like to present to you, the board, about some of the concerns that you mentioned at the May board meeting in regards to students taking the school-provided devices home. To get started, we would like to provide you with some research and information that supports our position that students should have access to the technology 24/7. Below is a link to a ThingLink. After clicking on the link, you will be taken to a picture with dots on it. Click on each dot to read the information or watch a video. We look forward to sharing the rest of our thoughts and information at the meeting. We welcome an opportunity to answer questions and address any concerns you have at the board meeting.
