*What program*  
**will you choose?**

# Forestry & Park Management

**Do you enjoy being outside and working with nature?** Climb to new heights in Forestry and Park Management!

You'll will learn the principles of dendrology (the study of trees) and the **management of forests and forest ecosystems**. You'll learn how trim, shape, and fell trees. Students design facilities, manage resources, and build picnic tables in CTC's **68-acre living lab!**

## Learn New Skills

- Chainsaw maintenance and operation
- Surveying and mapping
- Principles of climbing and rigging
- Advanced rope techniques
- Utility terrain vehicle operation
- Tractor and chipper operation/maintenance
- Tree care and wood processing

## Career Opportunities

- Tree care specialist
- Landscape specialist
- Forester
- Water craft officer
- Wildlife officer
- State park ranger
- Federal park ranger
- Certified arborist

## Blaze your own trail to success at CTC!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

For these details and more visit

**SCCTC.org/Forestry**

**SCAN** with your  
phone camera

## Do you love animals and science?

Unleash your passion with a career in Veterinary Science!

The animal care industry is rapidly expanding and has created **new careers and business opportunities**.

You'll learn proper handling of animals, specimen collection techniques for laboratory samples, **surgical assisting**, and preventative health management plans.

### Learn New Skills

- Animal care, handling, and socialization
- Animal nutrition and exercise
- Animal behavior management
- Pet emergency care
- Basic grooming skills
- Animal exercise
- Kennel cleaning and sanitation
- Customer service
- Anatomy and physiology

### Career Opportunities

- Veterinarian
- Veterinary assistant/technician
- Animal trainer
- Animal research assistant
- Veterinary office worker
- Natural wildlife specialist
- Zoologist
- Kennel owner/operator
- Animal groomer

### Get ready to walk on the wild side!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

**SCCTC.org/VetScience**

**SCAN** with your  
phone camera

# Computer Graphic Arts

**Do you enjoy being creative?**  
Study the business of art and design and express yourself!

Almost everything you come in contact with — from advertisements in magazines, billboards, industrial design of toys, cars, and chairs to the packaging of CD covers and cereal boxes — has to be designed by someone!

**The newest gadgets or ads could be designed by you!**

## Learn New Skills

- Drawing techniques - pencil and ink
- Painting - opaque and wash
- Perspective rendering
- Design and composition
- Typography and color theory
- Image editing - Adobe Photoshop
- Page layout - Adobe InDesign
- Computer illustration - Adobe Illustrator

## Career Opportunities

- Advertising designer
- Art director
- Fashion illustrator
- Graphic designer
- General illustrator
- Interior designer
- Multimedia specialist
- Production artist
- Publications designer

## Sketch your career path!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

For these details and more visit

**SCCTC.org/GraphicArts**

**SCAN** with your  
phone camera

**Do you enjoy being creative and working on a computer?** Creativity clicks in this classroom!

Digital Media Design is all around us — from animated banners, photos, print ads, blogs, **social media**, to instructional and promotional videos.

Someone has to design the materials, edit photographs, design the social media ads, create animations, edit the video, etc. **That could be you!**

## Learn New Skills

- Photography
- Creating and editing images
- Graphic design and page layout
- Typography and color theory
- Digital illustration
- Digital media
- Video and audio production
- Animation
- Social media content creation with photos, graphics, and videos

## Career Opportunities

- Film and video editor
- Photographer
- Animator
- Video production assistant
- Freelancer
- Desktop publisher
- Digital content creator
- Digital marketing assistant
- Graphic designer

## Design your colorful future!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

**Not sure what to pick or where you fit? Try it all in the Jaguar Academy!**

This program is designed for sophomore students who are interested in **exploring different career fields** at CTC.

You'll spend time in different program labs and in the classroom. Plus, you'll receive **career and life skills mentoring**. Our goal is to get you Career Ready, College Ready, Life Ready!

## Learn New Skills

- OSHA 10 certification
- CPR and first aid instruction
- Skills and aptitude assessments
- Personal finance
- Workplace skills
- Social skills

## Program Benefits

- Student-centered, hands-on learning experiences
- Active learning engagement and relating subject matter to life and work
- Small class size and access to instructional resources and technology

## Career adventures await, start here!

- Program courses
  - Certifications and credentials
  - College transfer credits
  - Career opportunities
  - Scholarships available
- For these details and more visit  
**SCCTC.org/JagAcademy**

**SCAN** with your  
phone camera

**Are you ready to bridge to the world of work?** We've got the support to help you be successful!

This program provides **intensive support** to help you transition from high school to the work environment. Our goal is to help you **get and maintain competitive or supported employment**.

You'll spend time in the classroom and working in the community.

## Learn New Skills

- Good decision making
- Problem solving skills
- Social skills
- Positive work habits
- Employability skills
- Professional appearance
- Event experience
- Real-world experience

## Career Opportunities

- Retail sales and management
- Restaurant food prep and service
- Manufacturing assembly
- Packing and shipping
- Custodial
- Host/hostess
- Medical services

## Unlock your hidden potential, start here!

We work with each student to match their abilities and interests with the needs of an employer and provide the necessary supports to ensure that the student can be successful in the work environment.

# Carpentry

**Do you enjoy working with your hands?** Build your future in the in-demand field of construction!

You will learn **basic carpentry skills** such as framing, window installation, and roofing. Students work on many different construction projects to gain **real-world experience!**

**Bring your building ideas to life in Carpentry!**

## Learn New Skills

- Rough framing
- Finish carpentry
- Roofing, siding, soffit, and fascia work
- Doors and window installation
- Basic plumbing installation
- Shed, garage, and pole barn installation
- Basic concrete forming and finishing

## Career Opportunities

- Residential carpenter
- Commercial carpenter
- Project manager
- Construction manager
- Ironworker, steelworker, or millwright
- Crane operations
- Concrete specialist
- Plumber

## Lay your foundation for tomorrow at CTC!

# Electrical Trades

**Are you intrigued by what powers our world? Power up your future in Electrical Trades!**

Electrical trades professionals are more in-demand than ever before. You will hone your skills by working **hands-on in a lab** setting and progress to **on-site projects**.

The program is a state-approved Pre-Apprenticeship program!

## Learn New Skills

- Electrical safety
- First Aid and CPR
- DC theory
- Blueprint reading
- Residential wiring
- Commercial wiring
- Conduit bending
- Motor controls

## Career Opportunities

- Construction wireman
- Construction electrician
- Electrical material handler
- Electrical apprentice
- Maintenance electrician
- Lineman
- Low voltage installer

## Give your tomorrow a jolt!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

# Heating & Air Technology

**Do you enjoy troubleshooting and solving problems?** Stay cool and earn hot with a career in HVAC!

Heating and air technologies impact our daily lives. Skilled specialists are required to **design, install, and maintain** controlled environments and are in high-demand. You'll learn basic electrical skills, ductwork installation, and basic copper and plastic piping practices.

## Learn New Skills

- Basic electricity
- Soldering and brazing
- Basic copper and plastic piping practices
- HVAC mathematics
- Basic carbon steel piping practices
- Introduction to sheet metal layout, fabrication, and processes
- Installing & insulating ductwork

## Career Opportunities

- Service technician
- Plumber
- Sheet metal worker
- Sales representative
- Installation specialist
- Job site manager
- HVAC system designer
- Electrical engineer

## Bring the heat to your career - start here!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

**Do you love food? Is the kitchen your happy place?** Build your own menu and taste success in Culinary Arts!

You'll jump right in by learning in the kitchen and then apply your skills while **working in the CTC Food Truck** and The Jaguar Room, our on-campus restaurant. Both businesses are student-run, giving you the chance to **experience the food service industry in and out of the kitchen.**

## Learn New Skills

- Basic kitchen skills
- Kitchen safety and sanitation
- Front and back of the house operations
- Baking principles
- Entrepreneurship and marketing
- Customer service skills

## Career Opportunities

- Cook or banquet cook
- Line or prep cook
- Barista
- Food blogger or critic
- Dietitian
- Food scientist
- Restaurant owner
- Event planner
- Kitchen supervisor

**Do you enjoy teaching and working with children?** Use your passion to make a difference!

In this exciting program you'll learn the skills and explore opportunities to become a **teacher, administrator, or other school staff member**. You'll take a deep dive into child development, lesson planning, classroom management, and teaching methods. Plus, you'll observe and **participate in real classrooms!**

## Learn New Skills

- Child development
- Learning process and styles
- Lesson planning
- Classroom management
- Best practices: Classroom safety
- Job-ready professionalism

## Career Opportunities

- K-12 teacher
- Early childhood center
- ParaPro
- Reading specialist
- School counselor
- Librarian
- Entrepreneur - in-home child care or owner/operator of a child care service

# Engineering & Architectural Design

**Do you enjoy 3D drawing, visualization, and tech?** Design your future in CAD!

Work with the latest drafting software to **invent and engineer your own custom digital models** and then generate physical three-dimensional (3D) objects with our 3D printers. If you can imagine it, you can 3D print it.

## Learn New Skills

- 2D and 3D advanced computer modeling
- Blueprint reading
- Additive manufacturing techniques
- Architectural design and modeling
- Engineering design methods
- Electronics
- Engineering/technical math skills
- Architectural blueprint construction

## Career Opportunities

- SolidWorks drafter
- Mechanical AutoCAD drafter
- Architectural AutoCAD drafter
- Structural detailer
- Civil drafter
- Building information modeler
- Draftsman
- CAD technician

## Review your blueprint for success!

# Dental Assisting

**Do you enjoy working with others and transforming smiles?** Help people smile brighter with a career in Dental Assisting!

Complete this program and prepare to choose one of these **career options**: secure a full-time, **well-paying job** or **continue your education** and become an Expanded Functions Dental Assistant, a Dental Hygienist, or even a Dentist.

## Learn New Skills

- Certified Ohio Dental Assistant or Registered Dental Certification
- Dental Radiographer's Licensure
- CPR for Healthcare Providers Certification
- Infection control procedures
- Entry level chair-side assisting skills
- Entry level dental laboratory procedures
- Entry level business administration and business office procedures

## Career Opportunities

- Chair-side assistant
- Dental hygienist
- Dentist
- Business administrator
- Laboratory assistant
- Dental office manager

# Emergency Medical Technician

**Do you thrive in high-pressure situations?** Every second counts when you're an EMT!

You'll learn advanced first aid, medication administration, and patient-assessment skills in a laboratory setting. EMT students will also be exposed to **real life experiences** at Springfield Regional Medical Center, Springfield Fire Department, and local private ambulance services.

## Learn New Skills

- Patient assessment
- Medical emergencies
- Trauma emergencies
- CPR re-certification
- Medication administration
- Spinal immobilization
- Oxygen administration
- Bag valve mask ventilation

## Career Opportunities

- EMT
- Registered Nurse (RN)
- Advanced EMT
- Paramedic
- Firefighter
- Licensed Practical Nurse (LPN)

## Assess your EMT career opportunities!

- Program courses
- Certifications and credentials
- College transfer credits
- Career opportunities
- Scholarships available

# Medical Assisting

**Do you like people and have an eye for detail?** Your diagnosis: Medical Assisting is for you!

You'll gain entry-level skills for working in a **medical office or clinical setting** where you can perform clinical, receptionist, and lab duties. You'll develop skills to become a **multi-skilled assistant** who displays professionalism, utilizes communication skills, and assists physicians in providing patient care.

## Learn New Skills

- Electrocardiogram (ECG/EKG)
- Phlebotomy
- Scheduling and coding
- Medications
- Injections
- Instrument recognition
- Sterilization
- Assisting with minor office surgery
- Assisting with specialty exams

## Career Opportunities

- Medical assistant
- Medical transcriptionist
- Insurance processor

# Nurse Assisting

**Do you enjoy talking to people and helping them feel better?** Get your scrubs on, it's time to make the rounds!

The Nurse Assisting program is the first step in the registered nursing pathway. The healthcare industry is booming and Nurse Aides remain on the list of **high-growth job opportunities**. You will get the skills needed to successfully compete in this healthcare workforce!

## Learn New Skills

- Basic care procedures such as bathing, feeding, and dressing
- Oral hygiene
- Bed making
- Assisting with walking
- Lifting and transferring
- Vital signs
- Basic anatomy and physiology
- Medical terminology
- CPR/First Aid

## Career Opportunities

- Nurse Aide in hospital or long term care facility
- Home Health Aide
- Registered Nurse
- Nurse Practitioner
- Licensed Practical Nurse
- Medication Technician

**Have you ever wondered how hacking works?** Crack the code to a career in cybersecurity!

Every industry, every household, every nation is impacted by cyber threats and vulnerabilities! You'll explore game theory, **cryptography, operating systems**, networks, and productivity applications. Plus, students will learn about the **program languages of your favorite applications** and get hands-on building PCs and creating a portfolio of skills.

## Learn New Skills

- Computer and network terms and concepts
- Setup, install, and configure hardware and software
- Fundamentals of programming languages of web apps
- Troubleshoot problems in PCs and security systems
- Protocols for use of online technology and combatting cyberattacks

## Career Opportunities

- Security analyst
- Security administrator
- Security software developer
- Cryptographer
- Security consultant
- PC technician
- Front-end web developer
- Military contract security administrators

## Become a guardian of the digital world!

# Software Programming Technologies

**Do you like brainstorming and solving problems?** Master the language of computers!

You'll learn programming languages currently used in web applications, database applications, and productivity applications. In addition, hands-on activities and projects will help you create a portfolio of sample projects. Students can earn Microsoft certifications.

## Learn New Skills

- Software development
- Computer programming
- Web programming
- Game design and programming
- App design
- Robot and drone programming
- Database design and management
- Systems analysis and design
- Cybersecurity

## Career Opportunities

- App developer
- Web developer
- Java developer
- IT support technician
- Database analysis and administration
- IT manager
- Software developer
- Security analyst

# Applied Engineering & Manufacturing

**Are you interested in technology and engineering?** Assemble your future here!

You will learn the basics of the five areas of engineering technology. The majority of the coursework is **hands-on assignments and working in the lab** on a variety of machines, including 3D printers and CNC machines.

You'll dream it, design it, and build it!

## Learn New Skills

- Mastercam
- Solidworks
- Manual machining
- Welding and fabrications
- CNC
- Robotics
- AutoCAD

## Career Opportunities

- CADD drafter
- CNC operator
- Electrical maintenance
- Metal fabricating
- Machining
- Welding
- Industrial engineer
- Mechanical engineer
- Project manager

## Dream and design your career path!

**Are you detail oriented and take pride in a job well done?** You have a bright future in welding!

More than half the products made in America require welding during the manufacturing process.

This **fast-growing field** has many opportunities. You will learn techniques and skills needed to fabricate and weld metals in the Welding Lab.

## Learn New Skills

- AWS Qualified Welder
- OSHA 10 Certification
- CPR Certification
- Forklift Certification
- Blueprint reading & layout
- Shielded metal arc welding
- Gas metal arc welding
- Flux cored arc welding
- Gas tungsten arc welding
- CNC plasma cutting and design

## Career Opportunities

- Fabricator
- Inspector
- Manufacturing worker
- Steel Worker
- Technologist/engineer
- Welder
- Apprentice

# Criminal Justice

**Do you feel called to serve your community?** The verdict is in - you belong in the Criminal Justice program!

You'll explore multiple areas of the criminal justice system, including officer training, **criminal investigations, law and court proceedings**, corrections, and rehabilitation. This program will include physical training to prepare you to meet industry standards for physical fitness.

## Learn New Skills

- Evidence collection and crime scene processing
- Accident investigation and reconstruction
- Crisis response
- Fingerprinting
- Pre-law fundamentals
- Ethics and professionalism
- Corrections and rehabilitation

## Career Opportunities

- Peace Officer Training Academy
- Corrections officer
- State or federal officer
- Forensics
- Homeland Security
- Local police officer
- Military

## Investigate your career in criminal justice!

# Auto Body Collision Repair

**Do you like to work with cars and your hands?** Prime and paint your way to a career in Auto Body Collision Repair!

You will learn a full range of topics, from general shop safety and electrical repairs to **fixing suspension system components and frame straightening**. Students get hands-on experience in our state-of-the-art auto body lab and high-end paint booth.

## Learn New Skills

- General shop safety
- Automotive electrical systems
- Suspension systems
- Automotive detailing
- Paint booth operations
- Frame straightening
- Sanding and refinishing
- Estimating repairs

## Career Opportunities

- Refinish technician
- Body technician
- Body shop estimator
- Industrial metal finisher
- Insurance appraiser

# Auto Services

**Do you like to work with cars and fix problems? Fuel your future in Auto Services!**

From small engine repair to replacing brakes, you'll learn the **basics of auto servicing and repair**. Students work with instructors in the lab, which operates as a real automotive service center.

Plus, a Small Engine/Outdoor Power Equipment Technology course is included in this program!

## Learn New Skills

- Safe work practices
- Business ethics
- Auto detailing
- Tire servicing
- Exhaust system service
- Vehicle maintenance services
- Brakes, suspension and steering servicing
- Electrical system servicing
- Outdoor power equipment service

## Career Opportunities

- Auto detailer
- Tire service technician
- Vehicle maintenance technician
- Undercar technician (brakes, steering & suspension)
- Technician assistant
- Power equipment service person

## Where Passion Meets Purpose

Getting involved in student organizations isn't just about making friends and having fun (though that's a big part of it), but also about gaining valuable skills, exploring your passions, and building a foundation for future success.

Dive in, discover your interests, and let these student groups be your launchpad for an exciting journey through high school!

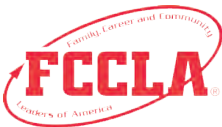

### **Business Professionals of America**

BPA members participate in leadership conferences, competitions, and community service.

### **Educators Rising**

Education Exploration chapters feed teacher preparation programs. Members attend conferences and competitions.

### **Family, Career, and Community Leaders of America**

Conferences, competitions, and networking is at the heart of FCCLA. Students engage in a variety of projects.

### **FFA**

Student members attend Farm Science Review, events, competitions, leadership development conferences, and show livestock.

### **SkillsUSA**

Students compete in local, regional, state, and national competitions in various skill areas, from 3-D animation to welding.

## Plus, there's more!

Explore all the student clubs at [SCCTC.org/Clubs](https://www.scctc.org/Clubs)!

## Decisions are hard.

CTC offers more than 20 career paths and endless opportunities to get **Career Ready, College Ready, and Life Ready.**

*Don't wait.*  
**APPLY  
TODAY!**

## At CTC and we'll help you:

- Find your passion
- Explore careers
- Join clubs & organizations
- Learn by doing
- Earn college credits
- Gain industry credentials
- Develop real-world skills
- Connect with people & jobs
