MISSION STATEMENT & ROLE OF SCHOOL COUNSELORS

The mission of the Pequea Valley School Counseling Department is to collaborate with learners, staff, families, business/community, and postsecondary stakeholders to challenge all learners to reach their full potential in present and future endeavors. We will promote a safe and equitable learning environment where every learner counts, in order to assist them in their academic, career , and social/emotional development

- School Counselors serve as leaders, advocates, collaborates, and agents of systematic change.**
- School Counselors are critical to successful efforts to close the academic gaps of our learners.**
- School counselors with their training are an intricate part of our school team with all of the challenges our learners face each day.**

GOALS

Program goals were created for each grade range (elementary, middle, & high school) connected to the three domains in our mission statement.

We monitor these goals for completion and goals are reviewed yearly.

STAKE HOLDER PLANS

As a team, we look at different ways to engage stakeholders in planning for the future of our learners:

- Learners
- Parents
- Educators
- Business and Community
- Post Secondary Institutions

ADVISORY COMMITTEE

We have had an advisory committee that has met each year 2016-2017, we did not meet last year due to scheduling. We will meet this year to help support our learners, staff and families in the three areas of academic, career, and social/emotional growth.

SCHOOL COUNSELING

PROGRAM AND DELIVERY SYSTEM

Pequea Valley School District counselors facilitate a variety of services across the three domains : Academic, Career, and Social/Emotional. As you review the plan you will see the activities divided into three areas and color coded under the four delivery models. You will also notice on-going monthly activities that occur that our school counselors take a part in.

SCHOOL COUNSELING CURRICULUM ACTION PLAN

Pequea Valley School counselors have created a curricular plan that is appropriate at each level for their development level. The action plan lists the ASCA and CEW standards, as well material as location, assessments, and stakeholders.
