

London ISD Language Translation Procedures

London ISD is committed to providing meaningful communication and promoting access to district programs, services, and activities for students and parents with limited English proficiency. London ISD adheres to the following procedures for translation and interpretation services for families of London ISD students.

Home Language Identification

The Home Language Survey is used by London ISD to identify languages spoken by families within the district. The Home Language Survey is collected when a student first enrolls in a Texas public school.

District and Campus Level Translation

The London ISD district website can be translated into various languages by selecting the language toggle button in the gray boxes on the right side of the website.

All campuses have personnel available who can help translate or interpret as needed for parents/guardians whose first language is Spanish.

Translations and interpretations in Spanish can be requested and made available when needed for parent conferences, ARD Committee Meetings, 504 Meetings, LPAC Meetings and any other parent meeting regarding the student's education when needed.

For languages other than Spanish, the district will take reasonable steps to seek competent oral interpretation of materials or information about any program, service, or activity to facilitate any interactions with district staff significant to the student's education. The district will provide such services upon request of the parents and/ or when it may be reasonably anticipated by district staff that such services will be necessary.
