Mission – Goals – Objectives

Mission Statement

The mission of the New Hartford public Schools in partnership with families and the community, is to inspire and prepare all children to become independent and enthusiastic learners who achieve personal excellence by providing a challenging and exemplary education program that is differentiated, inclusive and dynamic.

Theory of Action

If we cultivate a climate and culture focused on continuous improvement that values professional growth and collaboration, and set high expectations for teaching and learning, strengthening the capacity of educators to actively engage students in differential learning, then we ensure that all students and staff are meeting growth targets, honoring the district's mission to provide an exemplary education program.

112 Special Education Tutor Substitutes

Special Education Tutor Substitutes are paid \$10.50 per hour.

113 Special Education Secretary

This position is no longer reflected in the school offices section of the budget and is back in Special Education due to the fact that this position no longer has any regular education duties.

311 Homebound Instruction

At times throughout the year, some students, because of a severe injury or sickness, may require a tutor or teacher to work with them at home.

312 Pupil Services--Therapies

Some students with special needs may require other therapeutic services such as occupational and physical therapy. Again, because we have seen a significant increase in students with severe special needs, more intense and costly therapies are required.

408 Service Contracts

This line covers the cost of the multiple services necessary at each building.

431 Equipment Repair

Equipment such as lawn mowers, snow blowers and floor machines must be repaired throughout the year.

532 Phones

Monthly service fees for all phones in the buildings, as well as the Central Office are paid for from this line. The increase is a direct result of the loss of funding from the E-Rate reimbursement program.

533 Internet Service Provider

Our Internet service provider and our website service provider are paid for using money from this line. This increase is due to the rising cost of Internet service and upgraded hardware. CEN (Connecticut Education Network) began billing schools and libraries for their use of the network in July 2016. All public K-12 schools and libraries that had previously been covered by the State's General Fund since CEN's inception now need to pay.
