SECTION III – PURCHASING ETHICS

PURCHASING ETHICS

Public purchasing and the expenditure of public funds require that ethical standards be incorporated into every aspect of the District's purchasing functions. Purchasing personnel and school District employees face the difficult task of developing good vendor relations and encouraging vendor competition while avoiding even the appearance of favoritism or other ethical misconduct. In an effort to get the job done successfully and on time, one may be tempted to circumvent policies, procedures, and laws, or make their own liberal "legal" interpretations of existing policies. Such activity, although well intentioned, will cause ethical problems.

In addition to the information provided in this section, please read the following Board Policy and Administrative Regulation:

- **Board policy DH (Legal),** Employee Standards of Conduct - Educator Ethics. This policy resides on the District's web site.

Educators shall comply with standard practices and ethical conduct toward students, professional colleagues, school officials, parents, and members of the community and shall safeguard academic freedom.

The State Board for Educator Certification (SBEC) shall provide for the adoption, amendment, and enforcement of an educator's code of ethics [see DH(EXHIBIT)]. SBEC is solely responsible for enforcing the ethics code for purposes related to certification disciplinary proceedings.

Education Code 21.041(b)(8); 19 TAC 247.1(b),

(c) **Public Servants:** All district employees are "public servants" and therefore subject to Title VIII of the Penal Code, regarding offenses against public administration, including restrictions on the acceptance of illegal gifts, honoraria and expenses, and abuse of office. Penal Code 1.07(a)(41), Title VIII [See DBD and BBFA]

- **Board policy DH (Local),** Employee Standards of Conduct. This policy resides on the District's web site.

Each District employee shall perform his or her duties in accordance with state and federal law, District policy, and ethical standards. The District holds all employees accountable to the Educators' Code of Ethics. [See DH (EXHIBIT)]

Each District employee shall recognize and respect the rights of students, parents, other employees, and members of the community and shall work cooperatively with others to serve the best interests of the District.

An employee wishing to express concern, complaints, or criticism shall do so through appropriate channels. [See DGBA]

- **Violations of Standards of Conduct**

Each employee shall comply with the standards of conduct set out in this policy and with any other policies, regulations, and guidelines that impose duties, requirements, or standards attendant to his or her status as a District employee. Violation of any policies, regulations, or guidelines, including intentionally making a false claim, offering a false statement, or refusing to cooperate with a District investigation, may result in disciplinary action, including termination of employment. [See DCD and DF series]

The Texas Education Agency (TEA), *Financial Accountability System Resource Guide – General Ethical Standards and other documents*, prescribes common standards of ethics governing the conduct of employees involved in the purchasing function, which are incorporated in the procedures prescribed below.

SPLIT PURCHASES

Sequential Purchases – District employees shall not make purchases, over a period, of items that in normal purchasing practices would be made in one purchase.

Component Purchases – District employees shall not make purchases of the component parts of an item that in normal purchasing practices would be made in one purchase.

Separate Purchases – District employees shall not make purchases separately in order to circumvent board approval of items that in normal purchasing practices would be made in one purchase.

CONFLICT OF INTEREST – [Local Government Code Chapter 176](#) provides information regarding conflict of interest statements to be filed by vendors and certain school district employees. [HB 491](#) passed by the 80th Legislature made modifications to the requirements for conflict of interest statements. Refer to the [Texas Ethics Commission website](#) for additional information and sample forms.

GIFTS - A district employee who exercises discretion in connection with contracts, purchases, payments, claims, or other pecuniary transactions shall not solicit, accept, or agree to accept any benefit from a person the public servant knows is interested in or likely to become interested in any such transactions of the District. *Penal Code 1.07(41) (A), (E), 36.08(d)*

FINANCIAL INTEREST - District employees shall not participate directly or indirectly in procurement when the employee or the employee’s family member has a financial interest pertaining to the procurement.

PERSONAL USE - District employees shall not make any commitment to acquire goods or services in the name of the District for personal use or ownership.

Equal Consideration - District employees shall grant all competitive suppliers equal consideration insofar as state or federal laws and District policy permit. This is especially important when evaluating bids and proposals.

RELATIVES - No District employee with purchasing authority may authorize the purchase of anything from any person or from any firm that is controlled, owned, or operated by that employee or from a relative within the second degree by blood or marriage of the employee.

TEXAS EDUCATION CODE 44.032

(b) An officer, employee, or agent of a school district commits an offense if the person with criminal negligence makes or authorizes separate, sequential, or component purchases to avoid the requirements of Section 44.031(a) or (b). An offense under this subsection is a Class B misdemeanor and is an offense involving moral turpitude.

(c) An officer, employee, or agent of a school district commits an offense if the person with criminal negligence violates Section 44.031(a) or (b) other than by conduct described by Subsection (b). An offense under this subsection is a Class B misdemeanor and is an offense involving moral turpitude.

(d) An officer or employee of a school district commits an offense if the officer or employee knowingly violates Section 44.031, other than by conduct described by Subsection (b) or (c). An offense under this subsection is a Class C misdemeanor.

(e) The final conviction of a person other than a trustee of a school district for an offense under Subsection (b) or (c) results in the immediate removal from office or employment of that person. A trustee who is convicted of an offense under this section is considered to have committed official misconduct for purposes of Chapter 87, Local Government Code, and is subject to removal as provided by that chapter and Section 24, Article V, Texas Constitution. For four years after the date of the final conviction, the removed person is ineligible to be a candidate for or to be appointed or elected to a public office in this state, is ineligible to be employed by or act as an agent for the state or a political subdivision of the state, and is ineligible to receive any compensation through a contract with the state or a political subdivision of the state. This subsection does not prohibit the payment of retirement benefits to the removed person or the payment of workers' compensation benefits to the removed person for an injury that occurred before the commission of the offense for which the person was removed. This subsection does not make a person ineligible for an office for which the federal or state constitution prescribes exclusive eligibility requirements.

(e) A court may enjoin performance of a contract made in violation of this subchapter. A county attorney, a district attorney, a criminal district attorney, a citizen of the county in which the school district is located, or any interested party may bring an action for an injunction. A party who prevails in an action brought under this subsection is entitled to reasonable attorney's fees as approved by the court.

Employees involved in the purchasing process are exposed to more than ordinary temptations because they are involved with the expenditure of large amounts of public money. Strict adherence to the above standards are critical to the protection of the employee's and the District's reputation.

For clarity and accuracy, the recommended provision for determining award is the "responsive and responsible bidder whose bid is most economical for the purpose intended, according to criteria set forth in the solicitation."

Multiple Awards: The award of bids/proposals to two or more bidders for the same or essentially similar items. Appropriate only in situations where a single award would be impossible or impractical and awards are limited to the least number of suppliers necessary for a workable contract.
