

## The Whole Picture

### Multimetric Analysis for Student Performance and Beyond

In this presentation, we will delve into the art of comparing and contrasting various third-party assessment metrics, such as i-Ready, Fountas and Pinnell, Acadience Reading, etc. in conjunction with data and information maintained within student management systems and student results on the New York State assessments.

Through case studies, we will explore how to perform effective comparison analyses to draw meaningful insights from the relationships between data points. Further, we will explore creative applications of your district's unique data.

Workshop overview:

- Understand how to compare between different assessment metrics
- Plan and share ideas for analyzing combinations of data from your district

DATE: Tuesday, November 28, 2023  
TIME: 2:30 pm – 3:30 pm  
COST: Complimentary  
AUDIENCE: K-12 Building and District Level School Administrators  
LOCATION: Virtual Workshop – Details will be provided by email  
REGISTER: <https://webreg@esboces.org>

Eric Dumouchelle has been serving as a Staff Developer/Shared Data Expert at Eastern Suffolk BOCES since February 2023. He holds a New York State Mathematics 7-12 certification, and brings four years of teaching experience to his current role. In his capacity at Eastern Suffolk BOCES, Eric is responsible for creating innovative tools that streamline data analysis and retrieval, making it more accessible for both administrators and teachers. Eric also collaborates closely with administrators to interpret third-party benchmarking data and presents insights at data team and grade-level meetings to support informed instructional choices. Additionally, he plays a role in assisting districts with state reporting requirements. Beyond his professional commitments, Eric enjoys reading, cooking, and being outdoors, all while raising his one-year-old twins.
