

# THE ACTIVE MINDS CLASS *After School*

## WHAT'S NEW?

The Active Minds Class is happy to announce that we've partnered with CHA to bring our renowned program to the students in the form of after school programming.

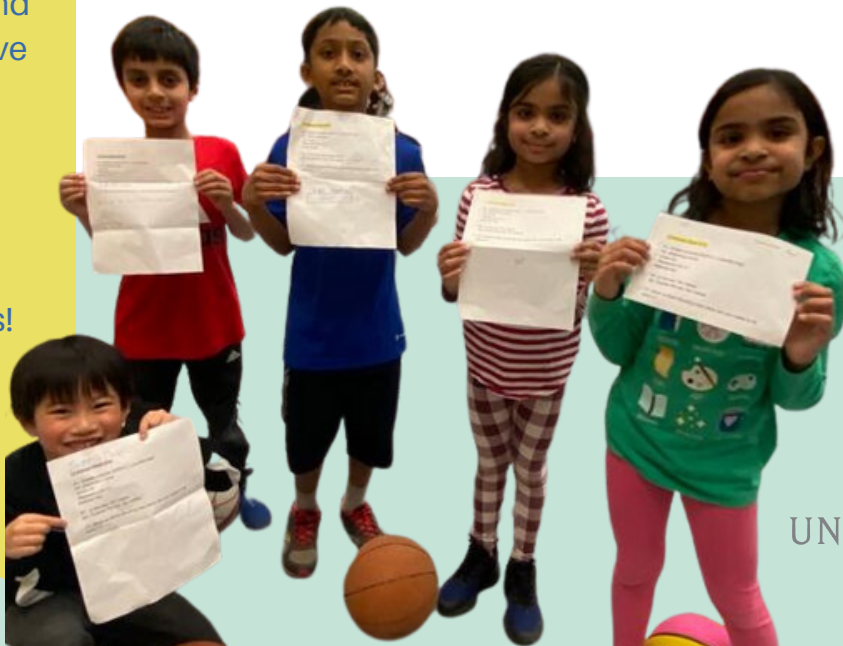

Parents can expect the same level of expertise, development and growth as they've come to expect through out the year at CHA.

Simply put - We Grow Great Kids!

## LEARN, GROW & PLAY

Join us for upbeat, fast-paced, exciting, AND sweat-causing challenges and games. Kiddos will enjoy physical exercises that reinforce effective communication, empathy, and conflict resolution just to name a few.

Our curriculums are aligned with the state standards of SEL learning outcomes and are taught in public and private institutions across the state.
