Mike Davis Chief Executive Officer

Mike Davis became the Center's new Chief Executive Officer January 2017 and is responsible for managing the delivery of services to nearly 10,000 individuals per year. He develops and manages a \$24 million annual budget, oversees human resources for 330 employees and contractors, ensures compliance with regulations and standards, and represents the center in community activities and events.

Mr. Davis earned a Bachelor's Degree in Science from Howard Payne University and a Master's Degree in Criminal Justice from Tarleton State University. He began his career with the Texas Youth Commission (TYC) and was a Superintendent at 5 different facilities in the state. He was promoted in 2008 to Regional Director for TYC where he oversaw and supervised six TYC facilities and four half-way houses. In 2011, he began employment with Health and Human Service Commission at the Mexia State Supported Living Center, Mexia Texas. He served as the Director for the facility until his retirement from the state in April 2016.

Daniela Badea-Mic, MD Chief Medical Officer

Dr. Daniela Badea-Mic, Medical Director, has worked with the Center since 1994. She graduated medical school from the University of Craiova in Romania. She obtained her psychiatric specialty from Connecticut Valley Hospital, affiliated with Yale University School of Medicine, Department of Psychiatry, where she was elected Chief Resident from 1991 – 1993.

Dr. Badea-Mic is a Diplomate of the American Board of Psychiatry and Neurology and a fellow of the American Psychiatric Association. She has held prominent positions in her many years of experience, including leadership positions in both inpatient and outpatient treatment programs.

Crisis Intervention Services

27/7 CRISIS HELPLINE

A helpline for anyone who needs immediate emotional support.

COUNSELING & CASE MANAGEMENT

One-on-one mental health support for people experiencing a mental health crisis.

SUICIDE PREVENTION

Information and programs to help prevent suicide in our community.

EMOTIONAL SUPPORT IN DISASTERS

Mental health crisis services for adults and children who have experienced a natural or man-made disaster. We help at the scene of the disaster.

MENTAL HEALTH FIRST AID

A one-day class that teaches people how to help someone experiencing a mental health crisis or showing signs of mental illness.

COMMUNITY REFERRALS

Connections to local resources to provide ongoing care and support recovery.

Psychiatric Crisis Hotline 1-888-767-4493

Mobile Crisis Outreach and Crisis Hotline – A continuously staffed mental health crisis screening and assessment service available 24-hours a day, seven days a week to provide assessment, intervention, education, support, and referrals to individuals experiencing a psychiatric crisis. Screenings are conducted by telephone or face-to-face by a qualified professional to assist individuals in accessing the services and supports they need. Crisis services are available to any and all persons experiencing mental health crisis within Nueces County.

Adult Mental Health Services

MEDICATIONS

Access to medicine that supports mental health and recovery from drug/alcohol use.

JOB TRAINING & EMPLOYMENT SUPPORT

Help building skills to get a job and ongoing support when working.

WELLNESS SERVICES

Exercise and nutrition programs for people who want to learn ways to lead a healthy life.

VETERAN, MILITARY & FAMILY SERVICES

Help for anyone who has spent any length of time in any area of the United States armed forces.

HELP APPLYING FOR SOCIAL SECURITY BENEFITS

Help complete forms to apply for Social Security Disability and Supplemental Security Income benefits.

Adult Mental Health Services

Who is eligible? Adult Mental Health Services are available to residents of Nueces County whom are 18 and older, and who qualify for services based on assessment. Services are offered on a sliding fee scale in consideration of insurance coverage and income.

What type of professionals provide services? Our staff consist of a wide array of interdisciplinary licensed and non-licensed treatment providers. We have Qualified Mental Health Professionals (QMHP-CS), Licensed Professional Counselors, Psychiatrists, Nurses, Certified Nurse Assistants, Medical Assistants, Nurse Practitioners and Physicians Assistants, just to name a few. All working together to ensure those we serve are able to recover from mental illness and pursue the life they choose to live.

1546 S. Brownlee Blvd. | 361-886-6970

Mental Health Services Intake and Cognitive Behavior Therapy – The intake department provides screening, assessment, and evaluation for service eligibility for individuals residing in Nueces County who would be served in adult mental health. Services include an eligibility assessment as well as a diagnostic evaluation to determine the level of need. Individuals not eligible for services are referred to community resources and support services that can meet their identified needs. Cognitive Behavior Therapy is available to qualifying individuals. All services are provided on site. Services provided Monday – Friday 8am – 5pm.

Assertive Community Treatment (ACT) – ACT is the highest level of care within the core service system - TRR (Texas Resiliency and Recovery Services). ACT is an evidenced based service delivery model which utilizes the Illness Management and Recovery curriculum in the provision of intensive rehabilitation services. Individuals within this program have the highest level of need and most severe mental illnesses. The program is designed as an interdisciplinary team which collaborates closely to provide intensive rehabilitation and medication management. 80% of services are provided in the home/community setting and are provided on an ongoing, almost daily basis to those in this program. The Physician plays an integral and in depth role within the team. Services provided Monday – Friday 8am – 5pm.

Crisis Intervention Team - The goal of the Crisis Intervention Team is to provide a mechanism for individuals with involvement with law enforcement to be identified, assessed and diverted into treatment rather than arrest/incarceration. Crisis intervention staff work alongside crisis intervention trained officers in response to 911 calls involving individuals with mental health issues, including substance abuse/dependence. The teams work to link individuals coming into contact with law enforcement directly to treatment, access to substance abuse, crisis respite, and intensive outpatient services are available.

Jail Diversion – Jail Diversion's primary goal is to divert and serve individuals who have been incarcerated and have an identified mental illness that played a role in their arrest. Jail Diversion has 2 primary access points. The first being the pre arrest, post detention diversions initiated from the Crisis Intervention Teams. The second is the Nueces County Jail. These individuals must be approved to participate in the program by the DA's office. Upon approval, individuals are enrolled in Jail Diversion and released on a personal recognizance bond with conditions set by the DA's office to participate in ongoing outpatient Mental Health services.

Mobile Crisis Outreach Team – MCOT provides crisis assessment and intervention services including follow-up and engagement to individuals experiencing mental health crises. Services are designed to reach individuals at their place of residence, school and/or other community-based safe locations, 24 hours per day, 365 days per year. The Mobile Crisis Outreach Team works to respond to crisis calls providing rapid community based intervention and linkage to resources including respite, intensive outpatient and inpatient services.

Adult Mental Health Services

Projects for Assistance in Transition from Homelessness (PATH) – PATH homeless program provides outreach and case management services to individuals who are homeless. Services are provided primarily within the community for outreach, education, and engagement. Individuals receive services to assist them in obtaining housing, employment and other basic needs. Individuals are also provided with medication management services when needed and linked to community resources for substance use and abuse services. The goal is to reach out to individuals directly on the streets and to engage them into ongoing services as appropriate. Services are rendered ranging from weekly to monthly until individuals are transitioned into TRR services or linked to external providers for ongoing care. Services provided Monday – Friday 8am – 5pm.

Psychiatric Medication Clinic – Provides psychiatric medication management and support to individuals involved in outpatient treatment with the Center. Also provides medically integrated care for those with Diabetes and Hypertension as identified through the 1115 waiver program. Multiple medication clinics are run daily Monday – Friday. The vast majority of medication services are provided through 435. Services are provided on site Monday – Friday 8am – 5pm.

Psychosocial Rehabilitation – Utilizing the Illness Management and Recovery curricula, psychosocial rehabilitation assist individuals with severe persistent mental illness in obtaining and maintaining stability and independence within the community. Services are person directed and incorporate an individual's strengths and resources. Services include symptom management and education, coping strategies, psychiatric medication management, peer support, and independent living skills, among others. Services provided Monday – Friday 8am – 5pm.

Routine Case Management and Skills Training – LOC-1 individuals are in routine case management/skills training services. These individuals are typically those whose illness is well managed and they are working on higher order needs and maintenance of recovery. Services include basic case management focused on access to adjunct services in the community and resource access and acquisition. The majority of services are provided on site with approximately quarterly contact for most individuals when they have their physician's appointment. Some individuals do receive skills training services to address symptom management and other recovery needs. Services provided Monday – Friday 8am – 5pm.

1642 S. Brownlee | 361-886-6938

Crisis Respite – “Pathways” – Pathways crisis respite and stabilization services are available to adults in Nueces county and accessed via our crisis services or direct referral. There are 16 beds available. Pathways staff work to assist individuals in stabilizing avoid inpatient care or as a bridge back to the community after inpatient care. Staff provide basic case management, medication education and stabilization, and ongoing daily assessment of suicidality and other risk factors. Services are provided primarily on site however case management staff do take individuals into the community as needed to address needs. Services Provided 7 days a week 24 hours per day.

1602 10th Street | 361-886-1420

La Mariposa New Life Wellness Center – La Mariposa Recovery Center is a peer run program which focuses on providing support and unique access to services for individuals served. Our peer specialists provide educational and support groups, cooking classes, leisure activity classes, and physical health classes, among other programming to provide support for recovery to those we serve. It is also just a place for our clients to hang out and socialize with their peers. Services are provided on site Monday – Friday 8am – 3pm.

1038 Texas Yes Blvd., Robstown, TX | 361-886-1445

Robstown Clinic – Provides the full array of services for adults and youth. Services include medication management, nursing, psychosocial rehabilitation and case management/skills training. Services in Robstown are integrated with the Spohn Family Health Clinic to ensure access to both medical and psychiatric services in one location for individuals within the community. Services provided Monday – Friday 8am – 5pm.

Adult Mental Health Services

105 Waco St. | 361-882-1312

Jail Based Competency Restoration – Provides services to persons with criminal offenses (not eligible for outpatient restoration) who are remanded to competency restoration by the court system as a result of being “incompetent to stand trial”. Jail Based Competency Restoration provides a local treatment option and reduces wait times for a state based restoration service.

Outpatient Competency Restoration – OCR individuals are persons with nonviolent offenses who are remanded to competency restoration by the court system as a result of being “incompetent to stand trial” due to the nature of their illness. Services focus on medication stabilization, education, and rehabilitation skills to assist individuals in understanding their charge and restoring them to competency so that they can stand trial for the crime they have committed. Often individuals are returned to the community upon restoration for ongoing services. Services are provided on an ongoing basis on site at pathways or at Brownlee square. Services provided Monday – Friday 8am – 5pm. With 24 hour monitoring through Pathways Respite where they are housed.

Texas Correctional Office of Offender with Medical and Mental Impairment (TCOOMMI) – Under Contract with TDCJ the TCOOMMI program provides psychosocial rehabilitation, case management, and medication management services to individuals on parole and probation who are identified as having a priority population diagnosis. Individuals are served utilizing the illness management and recovery curricula. The majority of services are provided in the home/community setting, however a large amount of services are provided on site as well. Individuals are typically seen weekly for ongoing services and support with the goal of assisting them in collaborating with the justice system and successfully completing parole and probation while avoiding recidivism. Services provided Monday – Friday 8am – 5pm.

3733 S. Port Ave.

Continuity of Care | 361-886-4687– Continuity of Care staff work closely with the local courts, state hospital system, and local hospitals to help coordinate and monitor inpatient care for all individuals within Nueces County. In collaboration with local hospitals, the criminal justice system, and the state hospital system they work to assist in coordinating and representing the Center’s clients within the state inpatient care system. Services are primarily coordinating and administrative in nature. Staff make weekly trips to SASH to monitor ongoing care with the goal of returning individuals to the community. Services provided Monday – Friday 8am – 5pm. PASSR staff provide screening and engagement of individuals in nursing facilities to determine the need for community based mental health services.

Mental Health First Aid Training – An 8-hour training course that teaches course participants how to help someone who is developing a mental health problem or experiencing a mental health crisis. Course participants learn how to identify, understand, and respond to signs of mental illnesses and addictions. The course is delivered by certified Mental Health First Aid (MHFA) USA instructors who complete a 5-day training and meet certification requirements. There are two courses available Adult MHFA and Youth MHFA. Each course teaches risk factors, introduces the 5 step action plan, and provides resources.

Turning Point Counseling & Veterans Services | 361-886-1086 – Turning Point provides counseling services to individuals who have been a victim of crime or trauma. Counseling is provided on site at no cost to those served. A Military Veteran Peer is available to support and assist current and former service members and their families in accessing Veteran’s supports within the community. Services provided Monday – Friday 8am – 5pm.

Youth Mental Health Services

COUNSELING SERVICES & CASE MANAGEMENT

Support emotional health through counseling.

FAMILY EDUCATION & SUPPORT

Programs that teach families how to talk to each other and work through problems.

SUICIDE PREVENTION

Information, programs and support to help youth at risk for suicide.

MEDICATIONS

Access to medicine that supports mental health.

SELF-CARE & SOCIAL SKILLS

Tools that help children take care of their health and build healthy bonds with other people.

3733 S. Port Ave. | 361-886-1093

Services for Youth ages 3-17 – Mental Health Services are available for children & adolescents. An assessment is completed by a licensed professional to access a comprehensive array of behavioral health services that are designed to improve a child's functioning and reduce symptoms associated with behavioral and emotional disorders. Services include assessment, medication training and support, parent support groups, family partner, psychiatric evaluation, pharmacological management, counseling, skills training and development, case management, and crisis intervention.

Youth Empowerment Services (YES) Waiver – A Medicaid Home and Community-Based Services Waiver that allows for more flexibility in the funding of intensive community-based services to assist children and adolescents with severe emotional disturbance to live in the community with their families. To obtain more information or to get registered on the inquiry list for Nueces County, please call 1-844-253-4947.

Intellectual & Developmental Disability Services

SERVICE COORDINATION & COMMUNITY REFERRALS

Connections to local resources to provide ongoing services and care.

CRISIS SUPPORT

Help managing stress and staying safe during a mental health crisis.

COMMUNITY LIVING SUPPORT

Help for people learning to live on their own.

FAMILY EDUCATION & SUPPORT

Tools to help families better support people living with IDD.

EMPLOYMENT SERVICES

Help finding work.

SOCIAL & DAILY LIVING SKILLS

Tools that help people take care of their health, live on their own and talk to others.

IQ TESTING

Tests to make intellectual and developmental disabilities diagnoses.

Local Intellectual and Developmental Disability Authority (LIDDA) Services

Who is eligible? Intellectual and Developmental Disability Services are available to individuals over 3 years of age who are diagnosed with an intellectual disability (IQ below 70), have a diagnosis on the Autism Spectrum, or who have certain other related conditions. Services are offered on a sliding fee scale based on insurance coverage and income.

What is the goal of IDD Services? Our programs consist of a wide array of services to help individuals achieve their highest level of independence and functioning. Once determined eligible, our team of staff work with individuals and their families to identify the areas of a person's life where they want to improve their skill set and abilities. The team then identifies what services and supports a person will need to try and reach their personal goals. We then implement services based on the program the individual is in, the service availability, and find additional resources in the community.

212 S. Staples | 361-886-4663

Intake & Assessment – Services available for individuals ages three and older who have an intellectual disability, a developmental disability, and in some programs certain other related conditions. Intakes are conducted to screen for crisis, assess needs, and to assist with placement on statewide waiver interest lists. A psychological assessment is then conducted to determine eligibility for services. Previous assessments may be reviewed to assist with the determination of eligibility. Any person not already in an IDD program who has a desire or need for any available IDD Service, must contact the Local Authority Intake Coordinator as eligibility must be determined and then the person will be admitted to services and assigned a service coordinator.

Intellectual & Developmental Disability Services

Community First Choice (CFC) – Individuals with Star Plus or Star Kids Medicaid receive services to help them live more independently in the community. Services include personal assistance with daily living skills, habilitation services to help them to care for themselves, emergency response services, and support for persons who choose to select and manage their own attendants.

Community Supports/Community Training – Provides individualized activities consistent with the person- directed plan, provided in the home and at various community locations as appropriate. Provides habilitation and support activities to improve the ability to perform daily living activities. Includes support services to the family to help preserve the family unity and prevent or limit out-of-home placement.

Crisis Intervention Services (CIS) and Crisis Respite – Short-term supports provided to individuals with IDD who also have significant behavioral, psychiatric, or other needs that put the individual at risk of immediate danger to self or others; put the person's physical or mental health at risk of serious deterioration; or cause an individual to believe that they are at risk for harm or deterioration. CIS can include crisis assessment, supports to the individual and primary caregiver to assist with coping skills, behavioral supports, and other supports needed to de-escalate a crisis situation. Crisis respite services can be provided in home if it is anticipated that the crisis can be stabilized within 72 hours or out of home in a supervised setting for brief temporary basis if the crisis cannot be resolved while the individual remains at home.

General Revenue (GR) – Individuals receive services in their home and in the community including training, support, respite, and vocational or employment services. These services are limited in scope and are provided to those with the greatest need. Enrollment into an IDD waiver program disqualifies an individual from continuing in GR services.

Pre-Admission Screening and Resident Review (PASRR) – PASSR staff provide screening and engagement services to individuals in nursing facilities to determine the need for community based mental health services or intellectual and developmental disability services. If eligible for mental health services, individuals are referred to outpatient services to receive mental health care treatment to meet their needs and return them to the community and independence. If individuals are eligible for IDD, services are provided to individuals residing in or at risk of placement in a Nursing Facility. Individuals receive Specialized Services including occupational therapy, speech therapy, physical therapy, a customized manual wheelchair, and durable medical equipment from their Nursing Facilities. Individuals also receive additional Specialized Services from the LIDDA including Day Habilitation, Behavioral Support, Community Support, and Vocational Services. Individuals are also provided with Community Living Options to ensure they are aware of their ability to divert from a Nursing Facility before entering and their ability to transition to the community if they are already residing in a facility.

Respite – Provides short-term relief services for the unpaid caregiver when the caregiver is temporarily unavailable to provide support. Respite also provides personal assistance in daily living activities, functional living tasks, and supervision for safety and security. This service includes habilitation activities, social interaction, participation in leisure activities, and use of natural support system and typical community services available to all people.

Service Coordination – A person-directed process to link, coordinate services, and support people to achieve their personal outcomes. Service Coordination includes writing, reviewing, revising, implementing and monitoring the plan of services provided. Service Coordinators assist people in securing and maintaining services in the community including education, training, transportation, specialized therapies, advocacy, food, housing, financial benefits and crisis management. Service Coordination is provided for individuals enrolled in General Revenue Services, the Texas Home Living waiver program, the Home and Community Based Services waiver program, the Community First Choice Program, and the Pre-Admission Screening and Resident Review Program.

Transition Support Team (TST) – Provides assistance, training, and case consultation to contracted local intellectual and developmental disabilities authorities (LIDDAs), Home and Community-based Services (HCS) program providers, and Texas Home Living (TxHmL) program providers within the entire south Texas region in supporting individuals with both IDD and complex medical/behavioral health needs. These individuals are transitioning from or at risk of being sent to institutional settings including State Supported Living Centers and nursing facilities.

Intellectual & Developmental Disability Services

Advance Employment Services – 1625 10th Street | 361-886-6955

Provides services that are designed to meet the vocational goals of each participant.

Employment Assistance/Supported Employment – is assistance with finding and maintaining competitive employment in an integrated setting with on-going individualized support services consistent with the individual's person-directed plan. The service includes supervision and training, essential to sustain paid competitive work by an individual.

Paid Employment for IDD Consumers - The Center operates and manages Source America/Ability One contracts with the Corpus Christi Army Depot and WorkQuest contracts with the Texas Department of Transportation which provide paid training and employment opportunities for persons with disabilities.

Vocational Training – is provided on site and in the community to enable the individual to obtain employment. Employment Assistance – assists the individual to locate paid individualized competitive employment in the community by helping him/her identify employment preferences, job skills, work requirements and conditions, and prospective employers offering employment compatible with the individual's identified preferences, skills, and requirements. The goal is to match the person's skills with their desired career and to develop natural support systems in the work environment.

IDD Waiver Provider Services – 212 S. Staples | 361-884-9854

Day Habilitation – NCMHID's Internal Waiver Provider operates a Day Habilitation program, which is located at 1625 10th Street. This program is primarily community based and works to improve individuals skills in the areas of health, safety, community awareness, community living, personal development, independent living, and social interaction. To be eligible individuals must be eligible for HCS or TxHmL and must have gone through the process of selecting NCMHID to be their provider for the program, or be participating in the PASRR program.

Home & Community-Based Services (HCS) – Supports eligible individuals living in their own home, a family home, or in a host home. Offers an array of services based on the needs of the person, including day habilitation, personal attendant services/ habilitation, respite, transportation, dental, nursing, supported employment/employment assistance, and specialized therapies. Encourages personal choice and maximum level of independence while using natural support system to achieve goals.

Specialized Therapies – Contracted services include assessments and treatment by licensed or certified professionals including dietary assessments, audiology, occupational therapy, speech therapy, and behavioral support.

Texas Home Living Services (TxHmL) – Services similar to those offered in the Home & Community Services Program (as listed above). However host home and other residential services are not available in this program.

If you desire services in the HCS or TxHmL waiver programs, you must contact the locally authority to be placed on the statewide interest list. When openings are made available by the state, the local authority will notify individuals that they have received an offer and will work with HHSC to determine eligibility.
