

# Avon Media Team

## Courses Quick Sheet

### **Animation (Previously Computer Illustrations & Graphics)**

**New course name: Computer Illustration: Arts, AV Tech and Communication Special Topic**

*Application mandatory for acceptance in course. [Link to Application.](#)*

Grades: 11, 12 preferred with art/editing experience

Course Description: Computer Illustration and Graphics introduces students to the computer's use in visual communication. The focus of the course is on original cartoon animation creation. These skills are developed by creating work with imaging, drawing, interactive, and page layout software and animation software used by professionals, such as Toon Boom Harmony. The course includes organized learning experiences that incorporate a variety of visual art techniques as they relate to the design and execution of animation videos. Communication skills will be emphasized through the study of effective methods used to design products that publicize information and ideas.
