

MAKING PRACTICES PUBLIC

Academic & Athletic Competitions, Residencies/Critical Experiences, and Community Service Trips

Academic and athletic competitions, residencies/critical experience and community service trips require careful planning. To ensure consistency in planning and the approval of trips, a team of District administrators and staff established the process summarized in the flowchart below in 2021.

Any staff member involved in planning trips is required to follow the District's process. Each trip is considered for approval and decisions are made in a timely manner.

Beyond transportation, many trips require nursing coverage due to students' medical needs. There may be instances when trips are canceled due to staffing shortages in one or both areas. Please know that the LMSD continues recruitment efforts to fill these important positions.
