

NOW ENROLLING 23-24 SCHOOL YEAR SEMESTER ONE GRADES K-12

Your Virtual Partner

These past weeks, partner schools have reached out to us with a variety of questions and situations. If you have a situation that you would like to see if VLAC can help solve, please reach out. We are here to serve and happy to talk with you about how we can be part of providing a solution for your students.

Short and Long Term Suspensions or Expulsions

Yes we can enroll students with VLAC for semester one and/ or two if it is the result of removal from school. If you share the student's return to school date we can create a virtual plan for their education while they are removed from school.

Behavior Challenges & School Avoidance

If your school team is working with a student and family to manage behaviors, VLAC can provide a full or part time schedule for the student as part of your plan. If personal or social issues are keeping a student from attending school, we are happy to have them join VLAC as part of your plan to help students during this time.

Part Time Schedules and New Students

If allowed by your district and/or school, we are able to put together part time schedules. Some recent inquiries have been about allowing students to take electives in person at sending schools and core classes at VLAC. Others have asked about students attending one or two hours in the AM or PM at their home schools and the rest of the classes being with VLAC. We are happy to provide any classes online that you feel will benefit your student and their situation. Do you have students who are new to your school and want to start in person learning at the semester or next year? We are happy to enroll students until they return to in person learning.
