Prescription Medications: must have a current pharmacist's label that includes the child's full name, dosage, current date, times and number of days to be administered, and the name and telephone number of the physician.

Non-prescription Children's Medication: can be administered for up to **three consecutive days** with a written order from the parent/guardian according to manufacturer's instructions. Medication instructions must note how much medication to give based on the child's age and weight. Written authorization from the child's medical provider is required to continue use beyond the three consecutive days.

Non-prescription Topical Children's Ointments: can be applied according to the manufacturer's instructions with authorization from the parent/guardian for a period not to exceed **six months**. Medication instructions must note how much medication to apply based on the child's age and weight. This includes sunscreen, insect repellent, and other non-medicated (free from antibiotic, antifungal or steroidal components) topical ointments designated for use for children.

As Needed Children's Medications: requires a written order from the child's medical provider for a period not to exceed **six months**. Authorization must list the reason, dosage, start date and end date. Dosage cannot state "as needed"; rather must list specific dosage times or symptoms for which medication should be given.

Medications for Chronic Illnesses: requires a written order from the child's medical provider for a period not to exceed **one year**. (See Prescription and Non-prescription medication above for details)

Note: All medications must be provided in the original container, labeled with the child's full name and any medication spoon/device to administer the medication must be provided. Non-prescription medications must be designated for use for children.
