

Art & Coffee for Parents

Art and coffee for parents is an activity that aims to take you away from the hectic everyday life and help you feel like children again, drawing calmly without fear or worry that you might do something wrong or that you are not good enough. All children can and love to draw, why can't we, as adults, relax and let ourselves be drawn to the emotion that drawing brings, enjoying a cup of coffee and making new friends. Be yourself and find your inspiration.

All materials such as easel, canvas, acrylic paints, brushes, knives are provided as well as a cup of aromatic coffee. We will draw different favourite things: such as seascapes, flowers, portraits.

Classes will be once per week. Experience is not necessary, only good mood and desire to draw!

Price per week: 1000 denars.
