EDUCATIONAL PHILOSOPHY:

American Heritage Schools champions a classical educational approach. Students are held to high academic standards and trained in our three pillars of Knowledge, Integrity, and Compassion. These encompass the creation of a learning environment which fosters intellectual growth, the development of honorable personal character, and compassion for others.

OUR SCHOOL

American Heritage Schools, Broward Campus is an independent, nonsectarian, co-educational day school for grades PK3 through 12 with approximately 2,900 students. The high school, grades 9-12, has a student population of 1,650 students. Our student to faculty ratio is 5:1. American Heritage Schools is a tuition-only school where, in an effort to make all families equal, we do not ask for, nor accept, donations. We are managed by veteran educators, and we have no governing board. It is paramount that all our staff have a vested interest in American Heritage Schools; therefore, the children of faculty and staff receive full tuition to our school.

College Prep Experience

American Heritage Schools resembles a small college in size and design with facilities and labs similar to those on a college campus. Our school gives students a rigorous, traditional education in a forward-thinking, technologically advanced environment. Our students, 100% of whom are accepted into 4-year universities, are prepared to be active, intelligent, creative, and contributing members of society through the embodiment of knowledge, integrity and compassion. We strive to offer a challenging college preparatory curriculum and aim to develop critical thinking, problem solving, and lifelong learning. American Heritage Schools offers financial aid as well as academic and fine arts scholarships.

College Prep Curriculum

American Heritage Schools, Broward Campus offers 30 AP courses and 138 honors classes. Placement in AP and honors courses is by recommendation and is based on placement testing and grades. Students wishing to take AP courses must meet certain requirements which may include successful completion of an honors class prior to taking an AP level class. For example, AP Chemistry students must first successfully complete Honors Chemistry to be eligible. Students enrolled in AP courses are required to take the AP exam at the end of the year. A limited number of AP courses are available for 9th and 10th grade students. The average 9th and 10th grader takes 1 AP. The average American Heritage student takes 1-2 AP courses in 11th grade, while our most competitive juniors take 4-5 AP courses.

School Community

We believe that in addition to academics, arts, and athletics, students should develop a strong sense of social responsibility. We offer 88 student-created clubs and activities, each supervised by a faculty adviser. We celebrate diversity and welcome students of all religions, nationalities, ethnicities, and races. Our focus is to create a community of scholars who respect individual and group differences and seek to become responsible citizens.

Faculty

The Upper School students are served by 365 instructors, academic and college advisors, and administrators, of whom 60% hold Masters or Doctoral degrees. In addition to having AP readers on our staff, our pre-professional courses are taught by prominent doctors, judges, attorneys, engineers, and business people, who are currently practicing in their fields and dedicated to the students and their success. Faculty turnover is minimal. To foster educational best practices and a love of learning, all our teachers participate in professional development throughout the year.

Fine Arts

Our fine arts department is recognized internationally. We welcome students with all abilities in the arts, and our low student to teacher ratio gives each student the chance to develop skills at his/her own pace. We believe a student should be well-rounded; we teach performance techniques and hands-on application combined with theory in all disciplines of study. We give all students various opportunities to display their talents, both on campus and throughout the region, country, or world. We are also proud to host, in our state of the art Fine Arts Building, the Junior Thespians District Festival and the High School Choral State Festival each year.

Athletics

American Heritage Schools offers a complete competitive sports program with teams in all major sports. We have a "no cut" policy that allows every student an opportunity to participate on the Patriot team of his or her choice. Many of our coaches are former professional athletes. All coaches provide high-quality instruction to enable students to further develop their skills and build good character, leadership, and respect for others.
