

Egress from School Grounds

It is the policy of the School Board that district students remain on campus during school hours in accordance with Closed Campus Policy 3242. However, the district's Jr/Sr High School Principal is the designated authority to determine rules regarding student egress from school grounds for: approved course schedule and educational activities, and eleventh and twelfth grade students during the scheduled lunch meal period.

The Principal will work under the direction of the Superintendent to establish procedures for management of egress off school grounds during the school day.

The board will review and approve this policy annually no later than the last regular meeting in June for the following school year.
