

## Flinn Scientific, Inc.

SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION Magnesium
Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300
Signal Word DANGER
SECTION 2 - HAZARDS IDENTIFICATION
Hazard class: Flammable solids (Category 1). Flammable solid (H228). Keep away from heat, sparks, open flames, and hot surfaces. No smoking (P210).

SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Magnesium | $7439-95-4$ | Mg | 24.31 |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and kecp at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If on skin: Wash with plenty of water.
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.

## SECTION 5 - FIRE FIGHTING MEASURES

NFPA Code
Water reactive metal; avoid contact with acids or water. When heated to decomposition, may emit toxic fumes.
H-0
In case of fire: Use a Class D or dry sand as a fire extinguisher. Avoid water contact, violent reaction with water.

F-1
R-1
No Water

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Remove all ignition sources and water. Sweep up the spill, place in a sealed bag or container, and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#1. Store with metals and metal hydrides.
Store in a Flinn Saf-Stor ${ }^{\text {TM }}$ can.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection. Wash hands thoroughly after handling.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Silvery-white metal turnings or ribbon. Odorless. Melting point: $651{ }^{\circ} \mathrm{C}$
Soluble: Acids. Insoluble in water. Specific gravity: 1.74

## SECTION 10-STABILITY AND REACTIVITY

Avoid contact with water, acids, acid chlorides, strong oxidizers, halogens, and chlorinated solvents.
Shelf life: Indefinite, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Irritating dust.
Chronic effects: N.A.
Target organs: N.A.

ORL-RAT LD ${ }_{50}$ : N.A.
IHL-RAT LC ${ }_{50}$ : N.A.
SKN-RBT LD ${ }_{50}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Magnesium. Hazard class: 4.1, Flammable solid. UN number: UN1869.
N/A = Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (231-104-6), RCRA code D001.

## SECTION 16 - OTHER INFORMATION

> This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. Flirn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages relating thereto. The data is offered sofely for your consideration, investigation, and verification. The data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY, Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of $\begin{aligned} & \text { handling, storage, use and disposal of the product(s) described are beyond the controi of flinn Scientific, Inc. and may be beyond our knowledge. FOR THIS AND ANY } \\ & \text { REASONS WE DO NOT ASSUME RESPONSIBLITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY }\end{aligned}$ WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).

## Magnesium Chloride, 0.1 M

# CARPLINA <br> www.carolina.com 

## Section 1

## Product Description

Product Name:
Recommended Use:
Synonyms:
Distributor:

Chemical Information:
Chemtrec:

```
Magnesium Chloride, 0.1 M
Science education applications
Magnesium Chloride, Aqueous Solution
Carolina Biological Supply Company
2700 York Road, Burlington, NC 27215
1-800-227-1150
800-227-1150 (8am-5pm (ET) M-F)
800-424-9300 (Transportation Spill Response 24 hours)
```

GHS Classification:

## Section 3

## Composition / Information on Ingredients

| Chemical Name | CAS \# | $\frac{\%}{2}$ |
| :--- | :--- | :--- |
| Water | $7732-18-5$ | 99.05 |
| Magnesium Chloride, 6 -Hydrate | $7791-18-6$ | 0.95 |

## Section 4 First Aid Measures

Emergency and First Aid Procedures
Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest.
Eyes: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Skin Contact: After contact with skin, wash immediately with plenty of water.
Ingestion: If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Section 5 Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use media suitable to extinguish surrounding fire.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
Fire or excessive heat may produce hazardous decomposition products. Hydrogen chloride, Metal Oxides,

Section 6

Steps to Take in Case Material Is Released or Spilled:

## Spill or Leak Procedures

No adverse health affects expected from the clean-up of spilied material. Avoid creating and inhaling spray or mist.
No special spill clean-up considerations. Collect and discard in regular trash.

## Section 7 Handling and Storage

| Handling: | Do not breathe dust/vapor. Do not get in eyes, on skin, or on ciothing. Retained residue may make empty |
| :--- | :--- |
| containers hazardous; use caution. |  |

## Control Parameters

Engineering Measures:
Personal Protective Equipment (PPE):
Respiratory Protection:
Eye Protection:
Skin Protection:

Gloves:

## Physical Data

No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use. Lab coat, apron, eye wash, safety shower.
No respiratory protection required under normal conditions of use.
Wear chemical splash goggles when handling this product. Have an eye wash station available.
Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.

## Section 9

Formula: Cl 2 Mg Molecular Weight: $95.21 \mathrm{~g} / \mathrm{mol}$
Appearance: Colorless Odor: No data available Odor Threshold: No data available pH : No data available Melting Point: Estimated 0 C Boiling Point: 100 C
Flash Point: No data available Flammable Limits in Air: N/A N/A

Vapor Pressure: 14 (water)
Evaporation Rate (BuAc=1): Slightly $<1$
Vapor Density (Air=1): 0.7 (water)
Specific Gravity: Approx. 1.0
Solubility in Water: Soluble
Log Pow (calculated): No data available
Autoignition Temperature: No data available
Decomposition Temperature: No data available
Viscosity: 10
Percent Volatile by Volume: $99.05 \%$

## Section 10

## Reactivity Data

Reactivity:
Chemical Stability:
Conditions to Avoid: Incompatible Materials:
Hazardous Decomposition Products: Hazardous Polymerization:

No data available
Stable under normal conditions.
None known.
Strong oxidizing agents
Metal Oxides, , Hydrogen chloride Will not occur

## Section 11 Toxicity Data

| Routes of Entry | Inhalation, ingestion, eye or skin contact. |
| :---: | :--- |
| Symptoms (Acute): | N/A |
| Delayed Effects: | No data available |

| Acute Toxicity: |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Water | 7732-18-5 | Oral LD50 Rat |  |  |
|  |  | $90000 \mathrm{mg} / \mathrm{kg}$ |  |  |
| Magnesium Chloride, 6-Hydrate | 7791-18-6 | Oral LD50 Rat |  |  |

| No data available |  | Not listed | Not listed | Not listed |

Chronic Effects:
$\begin{array}{ll}\text { Mutagenicity: } & \text { No evidence of a mutagenic effect. } \\ \text { Teratogenicity: } & \text { No evidence of a teratogenic effect (birth defect). }\end{array}$

```
Magnesium Chloride, 0.1 M 2age 2 0E 3
```

## Safety Data Sheet

Sensitization: No evidence of a sensitization effect
Reproductive:
Target Organ Effects:
Acute:
Chronic:
No evidence of a sensitization effect.
No evidence of negative reproductive effects.
See Section 2
Not listed as a carcinogen by IARC, NTP or OSHA

## Section 12

## Ecological Data

Overview:
Mobility:
Persistence:
Bioaccumulation:
Degradability:
Other Adverse Effects:

Chemical Name
Water

CAS Number Eco Toxicity
7732-18-5 No data available

## Section 13 <br> Disposal Information

Disposal Methods:
Waste Disposal Code(s):

Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance. Not Determined

## Section 14 <br> Transport Information

Ground - DOT Proper Shipping Name:
N/A

Air - IATA Proper Shipping Name:
Not regulated for air transport by IATA.

## Section 15

## Regulatory Information

TSCA Status:
Chemical Name

No data available

All components in this product are on the TSCA Inventory.

| CAS <br> Number | §313 Name | $\S 304 \mathrm{RQ}$ | CERCLA RQ | $\S 302$ TPQ | $\begin{aligned} & \text { CAA 112(2) } \\ & \text { TQ } \end{aligned}$ |

| :---: | :---: |
| Synonyms | Magnesium Chloride, 6-Hydrate |

This substance or mixture has not been classifled as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals.

Signal word: WARNING
Pictograms: No symbol required
Target organs: Central nervous system, Kidneys, Gastrointestinal tract
GHS Classification:
Acute toxicity, oral (Category 5)
GHS Label information: Hazard statement
H303: May be harmful if swallowed.

Precautionary statement
P312: Call a POISON CENTER or doctor if you feel unwell.

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INGESTION: MAY BE HARMFUL. IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
EYE CONTACT: Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam.
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Speciflc Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

## TRu*

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Recover for reuse if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes. skin and clothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Avoid high humidity and moisture.

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations iow.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

## 180

Chemical stability: Stable
Hazardous polymerization: Will not occur.
Conditions to avoid: Excessive temperatures and heat. Avoid high humidity and moisture.
incompatible materials: Strong oxidizers.
Hazardous decomposition products: Hydrogen chloride gas, magnesium oxide.

## 

Acute toxicity: Oral-rat LD50: $2800 \mathrm{mg} / \mathrm{kg}$ (anhydrous)
Skin corrosion/irritation: Data not available
Serious eye damage/frritation: Data not available
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: Inhalation may cause mild irritation to the mucous membranes.
Ingestion: Ingestion my cause abdominal pain, vomiting and diarrhea.
Skin: Contact may cause mechanical irritation.
Eyes: Contact may cause mechanical irritation.
Signs and symptoms of exposure: Exercise appropriate procedures to minimize potential hazards.

## Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Magnesium Nitrate Solution

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
Chemtrec Emergency Phone Number: (800) 424-9964

## SECTION 2 - HAZARDS IDENTIFICATION

Hazard class: Skin and serious eye damage, corrosion or irritation (Category 2, 2B). Causes skin and eye irritation (H315+H320).

Pictograms

SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula Weight | Concentration |
| :--- | :--- | :--- | :--- | :--- |
| Magnesium nitrate | $13446-18-9$ | $\mathrm{Mg}\left(\mathrm{NO}_{3}\right)_{2} \bullet 6 \mathrm{H}_{2} \mathrm{O}$ | 256.43 | 18.00 |
| Water | $7732-18-5$ | $\mathrm{H}_{2} \mathrm{O}$ | $2.5 \%-25 \%$ |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing (P305+P351+P338). If eye irritation persists eyes: Get medical advice or attention (P337+P313).
If on skin: Wash with plenty of water ( $\mathrm{P} 302+\mathrm{P} 352$ ). If skin irritation occurs: Get medical advice or attention (P332+P313).
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.

## SECTION 5 - FIRE FIGHTING MEASURES

Nonflammable, noncombustible solution.
NFPA Code
In case of fire: Use a tri-class dry chemical fire extinguisher.
None established

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Ventilate area. Contain the spill with sand or absorbent material and deposit in a sealed bag or container. See Sections 8 and 13 for further information.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#3. Store with amides, nitrates, nitrites and azides.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264).

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Clear, colorless liquid. Odorless.

## SECTION 10 - STABILITY AND REACTIVITY

Shelf life: Good, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

| Acute effects: Irritant. | ORL-RAT LD $_{50}: 5440 \mathrm{mg} / \mathrm{kg}$ as magnesium nitrate |
| :--- | :--- |
| Chronic effects: N.A. | IHL-RAT LC $_{50}:$ N.A. |
| Target organs: N.A. | SKN-RBT LD $_{50}:$ N.A. |

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding. Flinn Suggested Disposal Method \#26b is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A.

## SECTION 15 - REGULATORY INFORMATION

Not listed.

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. ## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Magnesium Oxide

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261

Although this material is considered to be nonhazardous, unpredictable reactions among chemicals are always possible. Prudent laboratory practices should be observed.

## SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Magnesium oxide | $1309-48-4$ | MgO | 40.32 |  |
| Synonym: Magnesia |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.
If on skin: Wash with plenty of water.
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.

## SECTION 5 - FIRE FIGHTING MEASURES

Noncombustible solid.
NFPA Code
When heated to decomposition, may emit toxic fumes.
None
In case of fire: Use a tri-class dry chemical fire extinguisher.
established

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Ventilate area and sweep up the spill, place in a sealed bag or container, and dispose. Wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## Flinn Scientific, Inc.

SDS \#: 478.00

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#4. Store with hydroxides, oxides, silicates and carbonates.
Air and moisture sensitive. Store in a Flinn Chem-Saf ${ }^{\text {TM }}$ bag. Store in a cool, dry place.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection. Wash hands thoroughly after handling.
Exposure guidelines: PEL $15 \mathrm{mg} / \mathrm{m}^{3}$ (as total fume) (OSHA); $10 \mathrm{mg} / \mathrm{m}^{3}$ (inhatable fraction)(ACGIH)

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

White powder. Odorless. Boiling point: $3600^{\circ} \mathrm{C}$
Soluble: Acids and ammonium salts solutions. Slightly in water.

Melting point: $2800^{\circ} \mathrm{C}$
Specific gravity: 2.4 (varies)

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with strong oxidizers and acids.
Shelf life: Fair to poor. Sensitive to air and moisture. See Section 7 for further information.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Irritant, laxative effect.
Chronic effects: N.A.
Target organs: N.A.

ORL-RAT LD ${ }_{50}$ : N.A.
IHL-RAT LC ${ }_{50}$ : N.A.
SKN-RBT LD ${ }_{50}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A.
N/A $=$ Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (215-171-9).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. Flinn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages relating thereto. The data is offered solely for your consideration, investigation, and verification. The data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of handling, storage, use and disposal of the product(s) described are beyond the control of Flinn Scientific, Inc. and may be beyond our knowledge. FOR THIS AND OTHER REASONS, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITYFOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals.
Revision Date: March 25, 2014

| Product | MAGNESIUM SULFATE, MEPTAHYDRATE |  |
| :---: | :---: | :---: |
| Synonyms | Epsom Salts |  |
| $\text { Section } 2$ |  |  |
| This substa to the Glob Chemicals. <br> Signal wor | ce or mixture has not been classified as hazardous according ly Harmonized System (GHS) of Classification and Labeling of <br> None | Supplementary information: <br> Do not breathe dust. Do not get in eyes, on skin, or on clothing. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. Get medical attention if you feel unwell. |

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY BE HARMFUL IF INHALED. MAY CAUSE RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: MAY CAUSE EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: MAY BE HARMFUL IF ABSORBED THROUGH SKIN. MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

Suitable Extinguishing Media: Use any media suitable for extinguishing supporting fire.
Protective Actions for Fire-fighters: in fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

[^2] autions for Safe Handling：Read label on container before using．Do not wear contact lenses when working with chemicals．Keep out of reach of children．Avoid
 reuse．

Conditions for Safe Storage：Store in a cool，dry，well－ventilated area away from incompatible substances．

| Exposure Limits： | Chemical Name | ACGIH（TLV） | OSHA（PEL） | NIOSH（REL） |
| :---: | :---: | :---: | :---: | :---: |
|  | Magnesium sulfate | None established | None established | None established |

Engineering controls：Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material．Personnel should wear safety glasses，goggles，or faceshield，lab coat or apron，appropriate protective gloves．Use adequate ventilation to keep airborne concentrations low．

Respiratory protection：None should be needed in normal laboratory handling at room temperatures．If dusty conditions prevail，work in fume hood or wear a NIOSH／MSHA approved respirator．

Chemical stability：Stable
Hazardous polymerization：Will not occur．
Conditions to avoid：Excessive temperatures and heat．Protect from moisture．
Incompatible materials：None known．
Hazardous decomposition products：Sulfur oxides

## 

Acute toxicity：Data not available
Skin corrosion／irritation：Data not available
Serious eye damage／irritation：Data not available
Respiratory or skin sensitization：Data not available
Germ cell mutagenicity：Data not available
Carcinogenity：Data not available
NTP：No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP
IARC：No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable，possible or confirmed human carcinogen by IARC．
OSHA：No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA．
Reproductive toxicity：Data not available
STOT－single exposure：Data not available
STOT－repeated exposure：Data not available
Aspiration hazard：Data not available
Potential health effects：
Inhalation：May cause respiratory irritation．
Ingestion：Ingestion may cause nausea，vomiting and diarrhea．
Skin：Contact with skin may cause irritation．
Eyes：Contact with eyes may cause irritation
Signs and symptoms of exposure：To the best of our knowledge the chemical，physical and toxicological properties have not been thoroughly investigated．Specific data is not available．Exercise appropriate procedures to minimize potential hazards
Additional information：RTECS \＃：Data not available
要化中
Toxicity to fish：Gambusia affinis（fish，fresh water），LC50： $15,500 \mathrm{mg} / \mathrm{L} / 24$ hours
Toxicity to daphnia and other aquatic invertebrates：Daphnia magna（Crustacea），EC50：1，700 mg／L24 hours
Toxicity to algae：Scenedesmus subspicatus（Algae），EC50：2，700 mg／L／ 72 hours
Persistence and degradability：No data available Bioaccumulative potential：No data available
Mobility in soil：No data available PBT and vPvB assessment：No data available
Other adverse effects：An environmental hazard cannot be excluded in the event of unprofessional handling or disposal．

These disposal guidelines are intended for the disposal of catalog－size quantities only．Federal regulations may apply to empty container．State and／or local regulations may be different．Dispose of in accordance with all local，state and federal regulations or contract with a licensed chemical disposal agency．

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Maleic Acid

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300 Signal Word DANGER

## SECTION 2 - HAZARDS IDENTIFICATION

Hazard class: Acute toxicity, oral (Category 4). Harmful if swallowed (H302). Do not eat, drink or smoke when using this product ( P 270 ).

Hazard class: Skin and serious cye damage, corrosion or irritation (Category 2, 2B). Causes skin and eye irritation (H315+H320).

Hazard class: Sensitization, skin (Category 1). May cause an allergic skin reaction (H317). Avoid breathing dust or fumes (P261).

Hazard class: Specific target organ toxicity, single exposure; respiratory tract irritation (Category 3). May cause respiratory irritation (H335).

## SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Maleic acid | $110-16-7$ | $\mathrm{HO}_{2} \mathrm{CCH}: \mathrm{CHCO}_{2} \mathrm{H}$ | 116.07 |  |
| Synonyms: Maleinic acid, Butenedioic acid |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Get medical advice or attention (P313). If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing (P304+P340). If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing ( $\mathrm{P} 305+\mathrm{P} 351+\mathrm{P} 338$ ). If eye irritation persists: Get medical advice or attention ( $\mathrm{P} 337+\mathrm{P} 313$ ). If on skin: Wash with plenty of water ( $\mathrm{P} 302+\mathrm{P} 352$ ). If skin irritation or rash occurs: Get medical advice or attention ( $\mathrm{P} 333+\mathrm{P} 313$ ). If swallowed: Rinse mouth (P330). Call a POISON CENTER or physician if you feel unwell (P301+P312).

## SECTION 5 - FIRE FIGHTING MEASURES

Combustible solid.
Flash point $127^{\circ} \mathrm{C}$ Flammable limits: Lower: $2.7 \%$
NFPA Code

When heated to decomposition, may emit toxic fumes.
Nonc

In case of fire: Use a tri-class dry chemical fire extinguisher.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Remove all ignition sources and water. Sweep up the spill, place in a sealed bag or container, and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## Flinn Scientific, Inc.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Organic \#1. Store with acids, anhydrides and peracids.
Keep container tightly closed (P233). Use only in a hood or well-ventilated area (P271).

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264).
Contaminated work clothing should not be allowed out of the workplace (P272). Use only in a hood or well-ventilated area (P271).

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

White crystal. Faint tea odor. Melting point: $139^{\circ} \mathrm{C}$
Soluble: Water, alcohol, and acetone
Specific gravity: 1.59 (solid)

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with bases, oxidizers, and reducers.
Shelf life: Indefinite, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Skin and eye corrosion and irritation, gastrointestinal disturbances.
Chronic effects: N.A.
Target organs: Eyes, skin.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#24a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Maleic acid. Hazard class: 8, Corrosive. UN number: NA2215.
$\mathrm{N} / \mathrm{A}=$ Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (203-742-5).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. Flinn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages relating thereto. The data is offered solely for your consideration, investigation, and verification. The data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. ## SECTION 2 - HAZARDS IDENTIFICATION

Hazard class: Acute toxicity, oral (Category 4). Harmful if swallowed (H302). Do not eat, drink or smoke when using this product (P270).

Hazard class: Skin corrosion or irritation (Category 3). Causes mild skin irritation (H316).
Hazard class: Serious eye damage or irritation (Category 1). Causes serious eye damage (H318).
Hazard class: Acute toxicity, inhalation (Category 5). May be harmful if inhaled (H333).

## SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Malonic acid | $141-82-2$ | $\mathrm{CH}_{2}\left(\mathrm{CO}_{2} \mathrm{H}\right)_{2}$ | 104.07 |  |
| Synonym: Propanedioic acid |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Immediately call a POISON CENTER or physician (P310).
If inhaled: Call a POISON CENTER or physician if you feel unwell (P304+P312).
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing (P305+P351+P338).
If skin irritation occurs: Get medical advice or attention (P332+P313).
If swallowed: Rinse mouth (P330). Call a POISON CENTER or physician if you feel unwell (P301+P312).

## SECTION 5 - FIRE FIGHTING MEASURES

Combustible solid.
NFPA Code
When heated to decomposition, may emit toxic fumes.
None
In case of fire: Use a tri-class dry chemical fire extinguisher.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Wipe up the spill, place in a sealed bag or container, and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## Fuinn Scientific, Inc.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Organic \#1. Store with acids, anhydrides and peracids.
Store in a cool, dry place.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264).

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

White crystals. Faint beef bouillon odor.
Soluble: Water, alcohol, and ether

Boiling point: sublimes
Melting point: $135^{\circ} \mathrm{C}$ (decomposes)
Specific gravity: 1.619

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with bases, oxidizers, and reducers.
Shelf life: Indefinite, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Severe eye irritant, mild skin irritant, respiratory irritant, gastrointestinal disturbances.
Chronic effects: N.A.
Target organs: Skin, eyes, respiratory tract.

ORL-RAT LD $_{50}: 1310 \mathrm{mg} / \mathrm{kg}$
IHL-RAT LC ${ }_{50}$ : N.A.
EYE-RBT LD $50: 100 \mathrm{mg}$
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#24a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A.
$\mathrm{N} / \mathrm{A}=$ Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (205-503-0).

## SECTION 16 - OTHER INFORMATION

CHEMTREC 24 Hour Emergency
Phone Number (800) 424-9300
For laboratory use only.
Not for drug, food or household use.

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

| Chernical Name | CAS \# | \% | EINECS |
| :---: | :---: | :---: | :---: |
| Manganese dioxide | 1313-13-9 | >98\% | 215-202-6 |

[^3]
## 

## Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand.

Protective Actions for Fire-fighters: In fire conditions, wear a N!OSH/MSHA-approved self-contained breathing apparatus and fuil protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Although not flammable, substance is a strong oxidizer which releases oxygen on heating, increasing the burning rate of any material with a flare-burning effect. It may cause re-ignition after a fire is extinguished.

[^4](2012 EMERGENCY RESPONSE GUIDEBOOK, (PHH50-ERG2012), GUIDE \# 140) reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources.

|  |  | ACGIH (TLV) | OSHA (PEL) | NIOSH (REL) |
| :---: | :---: | :---: | :---: | :---: |
| Limits: | Manganese, fume, as Mn | TWA: $0.2 \mathrm{mg} / \mathrm{m}^{3}$ | STEL: C $5 \mathrm{mg} / \mathrm{m}^{3}$ | TWA: $1 \mathrm{mg} / \mathrm{m}^{3}$ STEL: $3 \mathrm{mg} / \mathrm{m}^{3}$ |

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NiOSH/MSHAapproved respirator.

| Appearance: Solid. Black crystalline powder. Odor: No odor. <br> Odor threshold: Data not available. <br> pH : Data not available. <br> Melting / Freezing point: $535^{\circ} \mathrm{C}\left(995^{\circ} \mathrm{F}\right)$ <br> Boiling point: Data not available <br> Flash point: Data not available | Evaporation rate ( $=1$ ): Data not available Flammability (solid/gas): Data not available. Explosion limits: Lower / Upper: Data not available Vapor pressure ( mm Hg ): Data not available Vapor density (Air = 1): Data not available Relative density (Specific gravity): 5.0 Solubility(ies): Insoluble in water. | Partition coefficient: Data not available <br> Auto-ignition temperature: Data not available <br> Decomposition temperature: Data not available. <br> Vlscosity: Data not available. <br> Molecuiar formula: MnO 2 <br> Molecular weight: 86.94 |
| :---: | :---: | :---: |

Chemical stability: Stable Hazardous polymerization: Will not occur.

Conditions to avoid: Do not heat or rub with organic matter or other oxidizable substance. e.g. sulfur, sulfides, phosphides, hypophosphites, etc.
Incompatible materials: Chiorates, strong oxidizers, organic materials, combustible materiais, aluminum powder and sulfur.
Hazardous decomposition products: Heating above $535^{\circ} \mathrm{C}\left(995^{\circ} \mathrm{F}\right)$ will produce oxygen and manganese oxides and/or fumes.

## SAFETY DATA SHEET

Classified in accordance 29 CFR 1910.1200

## 1. Identification

Product identifier: \#82489 MAXIMUM STRENGTH SPRAY ADHESIVE
Other means of identification
SDS number:
RE1000037526

## Recommended restrictions

Recommended use: Adhesive
Restrictions on use: Not known.

## Manufacturer/Importer/Distributor Information

| Company Name: | CREATIVE ART MATERIALS LTD |
| :--- | :--- |
| Address: | 1214 RIVER HWY UNIT G |
|  | MOORESVILLE, NC 28117-6518 |
|  | US |
| Telephone: | $866-833-7797$ |

Emergency telephone number: 1-866-836-8855

## 2. Hazard(s) identification

## Hazard Classification

## Physical Hazards

Flammable aerosol
Category 1
Health Hazards
Serious Eye Damage/Eye Irritation
Category 2A
Specific Target Organ Toxicity -
Single Exposure
Category 3
(Narcotic effect.)
Aspiration Hazard
Category 1

## Environmental Hazards

Acute hazards to the aquatic
Category 3 environment
Chronic hazards to the aquatic
Category 3

## Label Elements

Hazard Symbol:

| Signal Word: | Danger |
| :--- | :--- |
| Hazard Statement: | Extremely flammable aerosol. |
|  | Causes serious eye irritation. |
|  | May cause drowsiness or dizziness. |
|  | May be fatal if swallowed and enters airways. |
|  | Harmful to aquatic life with long lasting effects. |

## Precautionary Statements

Prevention: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Avoid release to the environment.

Response: IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF SWALLOWED: Immediately call a POISON CENTER/doctor Do NOT induce vomiting. Call a POISON CENTER/doctor if you feel unwell.

Storage: Protect from sunlight. Do not expose to temperatures exceeding $50^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$. Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

Hazard(s) not otherwise
None.
classified (HNOC):

The exact concentration has been withheld as a trade secret.

## 4. First-aid measures

## Description of necessary first-aid measures

Inhalation: Move to fresh air.

## Skin Contact: <br> Wash skin thoroughly with soap and water. If skin irritation occurs:

Get medical advice/attention.
Eye contact:
Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.

Ingestion:
Rinse mouth. Call a physician or poison control center immediately. Never give liquid to an unconscious person. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

| Treatment: | Symptoms may be delayed. |.

## 5. Fire-fighting measures

## General Fire Hazards: <br> Use water spray to keep fire-exposed containers cool. Fight fire from a protected location. Move containers from fire area if you can do so without risk.

Suitable (and unsuitable) extinguishing media
Suitable extinguishing Use fire-extinguishing media appropriate for surrounding materials. media:

Unsuitable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. media:

Specific hazards arising from the chemical:

Vapors may travel considerable distance to a source of ignition and flash back.

Special protective equipment and precautions for firefighters
Special fire fighting No data available.
procedures:
Special protective equipment for fire-fighters:

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

## 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures:

Accidental release measures:

## Methods and material for containment and cleaning up:

Environmental Precautions:

Ventilate closed spaces before entering them. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep upwind.

Prevent entry into waterways, sewer, basements or confined areas. Stop the flow of material, if this is without risk. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leak if you can do so without risk.

Absorb spill with vermiculite or other inert material, then place in a container for chemical waste.

Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid release to the environment.

## 7. Handling and storage

## Handling

Technical measures (e.g. Local and general ventilation):

## Safe handling advice:

## Contact avoidance measures: No data available.

## Storage

Safe storage conditions:

Safe packaging materials:
Storage Temperature:

No data available.

Wash hands thoroughly after handling. Avoid contact with eyes. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use.

## 8. Exposure controls/personal protection

## Control Parameters <br> Occupational Exposure Limits

| Chemical Identity | Type | Exposure Limit Values |  | Source |
| :---: | :---: | :---: | :---: | :---: |
| Acetic acid, methyl ester | REL | 200 ppm | $610 \mathrm{mg} / \mathrm{m} 3$ | US. NIOSH: Pocket Guide to Chemical Hazards, as amended |
|  | STEL | 250 ppm | $760 \mathrm{mg} / \mathrm{m} 3$ | US. NIOSH: Pocket Guide to Chemical Hazards, as amended |

NOAEL (Mouse, Rat(Female, Male), Inhalation, 107-113 Weeks): 1,402
mg/m3 Inhalation Experimental result, Key study
NOAEL (Rat(Female, Male), Dermal, $5-28 \mathrm{~d}): 3,750 \mathrm{mg} / \mathrm{kg}$ Dermal Experimental result, Key study
NOAEL (Rat(Female, Male), Dermal, 28 d ): > $375 \mathrm{mg} / \mathrm{kg}$ Dermal Experimental result, Supporting study
NOAEL (Rat(Male), Inhalation): $12,470 \mathrm{mg} / \mathrm{m} 3$ Inhalation Experimental result, Key study
NOAEL (Rat(Female, Male), Inhalation): 10,000 mg/m3 Inhalation Experimental result, Key study
LOAEL (Rat(Female, Male), Oral, 13 Weeks): 1,250 mg/kg Oral Readacross based on grouping of substances (category approach), Key study NOAEL (Rat(Female, Male), Dermal, 28 d): > 375 mg/kg Dermal Experimental result, Supporting study

## Skin Corrosion/Irritation

Product:
Components:
Acetic acid, methyl
ester
2-Propanone
Ethane, 1,1-difluoro-
Heptane, branched, cyclic and linear Heptane Naphtha (petroleum), hydrotreated light

No data available.
in vivo (Rabbit): Not irritant
in vivo (Rabbit): Not irritant estimated Not irritating estimated Irritating.
in vivo (Rabbit): Irritating
In vitro (Human): not corrosive

## Serious Eye Damage/Eye Irritation

Product:
No data available.

Components:
Acetic acid, methyl ester
2-Propanone
Solvent naphtha (petroleum), light aliph. Heptane Naphtha (petroleum), hydrotreated light

Rabbit: Irritating
Irritating
Rabbit, 24 hrs: Minimum grade of severe eye irritant
Rabbit: Not irritating
Rabbit, 24-72 hrs: Not irritating
Rabbit, 24-72 hrs: Not irritating

## Respiratory or Skin Sensitization

 Product:No data available.
Components:
2-Propanone
Skin sensitization:, in vivo (Guinea pig): Non sensitising

Solvent naphtha (petroleum), light aliph. Heptane Naphtha (petroleum), hydrotreated light

Skin sensitization:, in vivo (Guinea pig): Non sensitising
Skin sensitization:, in vivo (Guinea pig): Non sensitising Skin sensitization:, in vivo (Guinea pig): Non sensitising

## Carcinogenicity

Product: No data available.

## Section 1

## Product Description

## Product Name:

Recommended Use:
Distributor:

```
Melt-N-Pour Agarose, 0.8\%
Science education applications
Carolina Biological Supply Company
2700 York Road, Burlington, NC 27215
1-800-227-1150
800-227-1150 (8am-5pm (ET) M-F)
800-424-9300 (Transportation Spill Response 24 hours)
```

Chemical Information:
Chemtrec:

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Classification:

## Section $3 \quad$ Composition / Information on Ingredients

| Chemical Name | CAS \# | $\%$ |
| :--- | :--- | :--- |
| Tris Borate EDTA Buffer, 1X |  | 99.2 |
| Agarose |  | 0.8 |

Section 4

## First Aid Measures

## Emergency and First Aid Procedures

Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest.
Eyes: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Skin Contact: After contact with skin, wash immediately with plenty of water.
Ingestion: If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Section 5

## Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use dry chemical, CO2 or appropriate foam.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
N/A
Carbon dioxide, Carbon monoxide, Nitrogen oxides

## Section 6

## Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled:

No adverse health affects expected from the clean-up of spilled material. Follow personal protective equipment recommendations found in Section 8 of this (M)SDS. Persons not wearing appropriate protective equipment should be excluded from area of spill until clean-up has been completed. Isolate area. Keep unnecessary personnel away. Remove soiled clothing and launder before reuse.
Use an inert absorbent such as sand or vermiculite. Place in properly labeled closed container. Contain the discharged material. Do not flush spill to drain.

## Handling and Storage

# Safety Data Sheet 

Storage Code: Green-general chemical storage

## Section $8 \quad$ Protection Information

Chemical Name<br>Boric Acid<br>(TWA) N/A

(TWA)
N/A

OSHAPEL
(STEL)

No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use. Good general room ventilation should be sufficient to control airborne contaminates to safe levels.
Personal Protective Equipment (PPE):
Respiratory Protection:
Eye Protection:
Skin Protection:

Gloves:

Lab coat, apron, eye wash, safety shower.
No respiratory protection required under normal conditions of use. Wear a NIOSH approved respirator if any exposure is possible.
Wear chemical splash goggles when handling this product. Have an eye wash station available.
Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.
Natural latex,, Natural rubber, Neoprene, Nitrile, Polyvinyl chloride

## Section 9

## Physical Data

| Formula: Product is a mixture | Vapor Pressure: No data available |
| :--- | :--- |
| Molecular Weight: | Evaporation Rate (BuAc=1): N/A |
| Appearance: Cloudy (milky) Semi-solid | Vapor Density (Air=1): No data available |
| Odor: No data available | Specific Gravity: No data available |
| Odor Threshold: No data available | Solubility in Water: Soluble |
| pH: No data available | Log Pow (calculated): No data available |
| Melting Point: No data available | Autoignition Temperature: No data available |
| Boiling Point: 100 C | Decomposition Temperature: No data available |
| Flash Point: No data available | Viscosity: 10 |
| Flammable Limits in Air: N/A | Percent Volatile by Volume: No data available |

## Section 10 <br> Reactivity Data

Reactivity:
Chemical Stability: Conditions to Avoid: Incompatible Materials:
Hazardous Decomposition Products:
Hazardous Polymerization:

No data available
Stable under normal conditions.
None known.
Water-reactive materials
Carbon dioxide, Carbon monoxide, Nitrogen oxides
Will not occur

## Section 11

## Toxicity Data

Routes of Entry Symptoms (Acute): Delayed Effects:

Ingestion, skin and eye contact.
No data available
No data available

## Acute Toxicity:

Chemical Name
Water
Boric Acid

CAS Number
Oral LD50
Oral LD50 Rat $90000 \mathrm{mg} / \mathrm{kg}$
Oral LD50 Rat 2660 mg/kg

Safety Data Sheet

Oral LD50 Rat 2000 mg/kg

## Carcinogenicity:

Chemical Name
Boric Acid
EDTA, Disodium Salt, Dihydrate
Sodium Hydroxide

IARC
Listed
Not listed
Not listed

NTP
Not listed
Not listed
Not listed

OSHA
Not listed Not listed Not listed

## Chronic Effects:

Mutagenicity:
Teratogenicity:
Sensitization:
Reproductive:
Target Organ Effects:
Acute:
Chronic:

No evidence of a mutagenic effect.
No evidence of a teratogenic effect (birth defect).
No evidence of a sensitization effect.
No evidence of negative reproductive effects.

See Section 2
Not listed as a carcinogen by IARC, NTP or OSHA., Reproductive systems

## Section 12 <br> Ecological Data

## Section 13 <br> Disposal Information

Disposal Methods:
Waste Disposal Code(s):

Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance. Not Determined

## Section 14 Transport Information

Ground - DOT Proper Shipping Name:
Not regulated for transport by US DOT.

Air - IATA Proper Shipping Name: Not regulated for air transport by IATA.

Section 15
TSCA Status:

## 2. Hazard(s) identification

## Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

| Flammable liquids | Category 2 |
| :--- | :--- |
| Acute oral toxicity | Category 3 |
| Acute dermal toxicity | Category 3 |
| Acute Inhalation Toxicity - Vapors | Category 3 |
| Specific target organ toxicity (single exposure) | Category 1 |
| Target Organs - Optic nerve. | Category 1 |
| Specific target organ toxicity - (repeated exposure) |  |
| Target Organs - Kidney, Liver, spleen, Blood. |  |

Label Elements

## Signal Word

Danger

## Hazard Statements

Highly flammable liquid and vapor
Toxic if swallowed
Toxic in contact with skin

Toxic if inhaled
Causes damage to organs
Causes damage to organs through prolonged or repeated exposure

## Precautionary Statements

## Prevention

Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product
Wear protective gloves/protective clothing/eye protection/face protection
Use only outdoors or in a well-ventilated area
Do not breathe dust/fume/gas/mist/vapors/spray
Keep away from heat/sparks/open flames/hot surfaces. - No smoking
Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof electrical/ventilating/lighting/equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Keep cool

## Response

IF exposed: Call a POISON CENTER or doctor/physician
Inhalation
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Call a POISON CENTER or doctor/physician
Skin
Call a POISON CENTER or doctor/physician if you feel unwell
Wash contaminated clothing before reuse
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower

## Ingestion

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
Rinse mouth
Fire
In case of fire: Use CO2, dry chemical, or foam for extinction

## Storage

Store locked up
Store in a well-ventilated place. Keep container tightly closed
Disposal
Dispose of contents/container to an approved waste disposal plant
Hazards not otherwise classified (HNOC)

## Other hazards

Poison, may be fatal or cause blindness if swallowed. Vapor harmful. Cannot be made non-poisonous.
WARNING! This product contains a chemical known in the State of California to cause birth defects or other reproductive harm.

## 3. Composition / information on ingredients

| Component | CAS-No | Weight \% |
| :---: | :---: | :---: |
| Methyl alcohol | $67-56-1$ | $>95$ |

## 4. First-aid measures

General Advice
Eye Contact
Skin Contact
Inhalation
Ingestion
Most important symptoms/effects
Notes to Physician

Notes to Physician

Immediate medical attention is required. Show this safety data sheet to the doctor in attendance.

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Wash off immediately with plenty of water for at least 15 minutes. Immediate medical attention is required.

Move to fresh air. If breathing is difficult, give oxygen. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Immediate medical attention is required.

Do not induce vomiting. Call a physician or Poison Control Center immediately.
Breathing difficulties. May cause blindness: Inhalation of high vapor concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting Treat symptomatically

## 5. Fire-fighting measures

Suitable Extinguishing Media

Unsuitable Extinguishing Media
Flash Point Method -

Autoignition Temperature
Explosion Limits
Upper $\quad 31.00 \mathrm{vol} \%$

Lower $\quad 6.0 \mathrm{vol} \%$
Sensitivity to Mechanical Impact No information available
Sensitivity to Static Discharge No information available

## Specific Hazards Arising from the Chemical

Flammable. Risk of ignition. Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Containers may explode when heated. Vapors may form explosive mixtures with air.

## Hazardous Combustion Products

Carbon monoxide (CO) Formaldehyde
Protective Equipment and Precautions for Firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

NFPA

| Health | Flammability | Instability | Physical hazards |
| :---: | :---: | :---: | :---: |
| 3 | 3 | 0 | $\mathrm{~N} / \mathrm{A}$ |

## 6. Accidental release measures

Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. Should not be released into the environment. See Section 12 for additional ecological information.

Methods for Containment and Clean Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.

Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.

|  | 7. Handling and storage |
| :--- | :--- |
| Handling | Wear personal protective equipment. Do not breathe vapors or spray mist. Do not get in <br> eyes, on skin, or on clothing. Use only under a chemical fume hood. Do not ingest. Keep <br> away from open flames, hot surfaces and sources of ignition. Use only non-sparking tools. <br> To avoid ignition of vapors by static electricity y discharge, all metal parts of the equipment <br> must be grounded. Take precautionary measures against static discharges. |
| Storage | Keep container tightly closed in a dry and well-ventilated place. Keep away from open <br> flames, hot surfaces and sources of ignition. Flammables area. |

8. Exposure controls / personal protection

Legend
ACGIH - American Conference of Governmental Industrial Hygienists
OSHA - Occupational Safety and Health Administration
NIOSH IDLH: The National Institute for Occupational Safety and Health Immediately Dangerous to Life or Health

| Engineering Measures | Use only under a chemical fume hood. Use explosion-proof electrical/ventilating/lighting/equipment. Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas. |
| :---: | :---: |
| Personal Protective Equipment |  |
| Eye/face Protection | Tightly fitting safety goggles. |
| Skin and body protection | Long sleeved clothing. |
| Respiratory Protection | Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. |
| Hygierie Measures | When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing. |

## 9. Physical and chemical properties

| Physical State | Liquid |
| :--- | :--- |
| Appearance | Colorless |
| Odor | Alcohol-like |
| Odor Threshold | No information available |

| pH | Not applicable |
| :--- | :--- |
| Melting Point/Range | $-98^{\circ} \mathrm{C} /-144.4^{\circ} \mathrm{F}$ |
| Boiling Point/Range | $64.7^{\circ} \mathrm{C} / 148.5^{\circ} \mathrm{F} @ 760 \mathrm{mmHg}$ |
| Flash Point | $12{ }^{\circ} \mathrm{C} / 53.6^{\circ} \mathrm{F}$ |
| Evaporation Rate | $5.2(\mathrm{ether}=1)$ |
| Flammability (solid, gas) | Not applicable |
| Flammability or explosive limits |  |
| $\quad$ Upper | $31.00 \mathrm{vol} \%$ |
| $\quad$ Lower | $6.0 \mathrm{vol} \%$ |
| Vapor Pressure | $128 \mathrm{hPa} @ 20^{\circ} \mathrm{C}$ |
| Vapor Density | 1.11 |
| Specific Gravity | 0.791 |
| Solubility | Miscible with water |
| Partition coefficient; n-octanol/water | No data available |
| Autoignition Temperature | $455{ }^{\circ} \mathrm{C} / 851{ }^{\circ} \mathrm{F}$ |
| Decomposition Temperature | No information available |
| Viscosity | 0.55 CP at $20^{\circ} \mathrm{C}$ |
| Molecular Formula | CH 4 O |
| Molecular Weight | 32.04 |
| VOC Content(\%) | 100 |
| Surface tension | $0.02255 \mathrm{~N} / \mathrm{m} @ 20^{\circ} \mathrm{C}$ |

## 10. Stability and reactivity

| Reactive Hazard | None known, based on information available |
| :--- | :--- |
| Stability | Stable under normal conditions. |
| Conditions to Avoid | Incompatible products. Heat, flames and sparks. Keep away from open flames, hot <br> surfaces and sources of ignition. |
| Incompatible Materials | Strong oxidizing agents, Strong acids, Acid anhydrides, Acid chiorides, Strong bases, <br> Metals, Peroxides |
| Hazardous Decomposition Products Carbon monoxide (CO), Formaldehyde |  |
| Hazardous Polymerization | Hazardous polymerization does not occur. |
| Hazardous Reactions | None under normal processing. |

## End of SDS

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018

## 1 Identification

## - Product identifier

- Trade name: Methanol (Methyl Alcohol)

Product code: ME1000-P

- CAS Number:

67-56-1

- Recommended use and restriction on use
- Recommended use:

Laboratory chemicals
Industrial uses.
Restrictions on use: No relevant information available.

- Details of the supplier of the Safety Data Sheet
- Manufacturer/Supplier:

AquaPhoenix Scientific, Inc.
860 Gitts Run Road
Hanover, PA 17331
Phone: (717)632-1291
Toll-Free: (866)632-1291
info@aquaphoenixsci.com
Distributor:
AquaPhoenix Scientific, Inc.
860 Gitts Run Road
Hanover, PA 17331
(717) 632-1291

Emergency telephone number:
ChemTel Inc.
(800)255-3924 (North America)
+1 (813)248-0585 (International)

## 2 Hazard(s) identification

Classification of the substance or mixture
Flam. Liq. 2 H225 Highly flammable liquid and vapor.
Acute Tox. 3 H301 Toxic if swallowed.
Acute Tox. 3 H311 Toxic in contact with skin.
Acute Tox. 3 H331 Toxic if inhaled.
Eye Irrit. 2B H320 Causes eye irritation.
STOT SE 1 H370 Causes damage to the nervous system and optic nerve.

- Label elements
- GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS).

- Hazard pictograms:

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 1)

- Signal word: Danger
- Hazard statements:

H225 Highly flammable liquid and vapor.
$\mathrm{H} 301+\mathrm{H} 311+\mathrm{H} 331$ Toxic if swallowed, in contact with skin or if inhaled.
H320 Causes eye irritation.
H370 Causes damage to the nervous system and optic nerve.

- Precautionary statements:

P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P233 Keep container tightly closed.
P240 Ground/bond container and receiving equipment.
P241 Use explosion-proof electrical/ventilating/lighting/equipment.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
P260 Do not breathe mist/vapors/spray.
P264 Wash thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P271 Use only outdoors or in a well-ventilated area.
P280 Wear protective gloves/protective clothing/eye protection.
P301+P310 If swallowed: Immediately call a poison center/doctor.
P330 Rinse mouth.
P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P312 Call a poison center/doctor if you feel unwell.
P337+P313 If eye irritation persists: Get medical advice/attention.
P361+P364 Take off immediately all contaminated clothing and wash it before reuse.
P370+P378 In case of fire: Use for extinction: CO2, powder or water spray.
P403+P235 Store in a well-ventilated place. Keep cool.
P405 Store locked up.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

- Other hazards There are no other hazards not otherwise classified that have been identified.

## 3 Composition/information on ingredients

- Chemical characterization: Substances
- CAS No. Description

67-56-1 methanol

## 4 First-aid measures

## - Description of first aid measures

- After inhalation:

Supply fresh air.
Seek immediate medical advice.
If experiencing respiratory symptoms: Call a poison center/doctor.

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 2)
After skin contact:
Immediately remove any clothing soiled by the product.
Immediately rinse with water.
If skin irritation continues, consult a doctor.

- After eye contact:

Remove contact lenses if worn.
Rinse opened eye for several minutes under running water. Then consult a doctor.

- After swallowing:

Rinse out mouth and then drink plenty of water.
Do not induce vomiting; immediately call for medical help.
Most important symptoms and effects, both acute and delayed:
Breathing difficulty
Dizziness
Coughing
Causes eye irritation.
Causes mild skin irritation.
Gastric or intestinal disorders when ingested.
Nausea
Acidosis
Blindness
Disorientation
Unconsciousness
Danger:
Danger of impaired breathing.
Toxic if swallowed, in contact with skin or if inhaled.
Causes damage to the nervous system and optic nerve.
Indication of any immediate medical attention and special treatment needed:
Contains ethanediol. Consult literature for specific antidotes.
Medical supervision for at least 48 hours.
If necessary oxygen respiration treatment.
If medical advice is needed, have product container or label at hand.

## 5 Fire-fighting measures

## Extinguishing media

- Suitable extinguishing agents:

Alcohol resistant foam
Gaseous extinguishing agents
Carbon dioxide
Water fog / haze
Water spray
Fire-extinguishing powder

- For safety reasons unsuitable extinguishing agents: No relevant information available.

Special hazards arising from the substance or mixture
Highly flammable liquid and vapor.
Formation of toxic gases is possible during heating or in case of fire.

- Advice for firefighters
- Protective equipment:

Wear self-contained respiratory protective device.
Wear fully protective suit.

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 3)
Additional information:
Eliminate all ignition sources if safe to do so.
Cool endangered receptacles with water in flooding quantities.
Use large quantities of foam as it is partially destroyed by the product.

## 6 Accidental release measures

Personal precautions, protective equipment and emergency procedures
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation.
Keep away from ignition sources.
Use respiratory protective device against the effects of fumes/dust/aerosol.
Isolate area and prevent access.
Environmental precautions Do not allow to enter sewers/ surface or ground water.
Methods and material for containment and cleaning up
Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders).
Send for recovery or disposal in suitable receptacles.
Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

## 7 Handling and storage

- Handling
- Precautions for safe handling:

Avoid splashes or spray in enclosed areas.
Use only in well ventilated areas.
Open and handle receptacle with care.
Information about protection against explosions and fires:
Highly flammable liquid and vapor.
Keep ignition sources away - Do not smoke.
Protect from heat.
Protect against electrostatic charges.
Flammable gas-air mixtures may be formed in empty containers/receptacles.

- Conditions for safe storage, including any incompatibilities
- Requirements to be met by storerooms and receptacles:

Store in cool, dry conditions in well sealed receptacles.

- Information about storage in one common storage facility:

Store away from foodstuffs.
Store away from oxidizing agents.

- Further information about storage conditions: This product is hygroscopic.
- Specific end use(s) No relevant information available.

## 8 Exposure controls/personal protection

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 4)

- Control parameters

| Components with limit values that require monitoring at the workplace: |  |
| :--- | :--- |
| $\mathbf{6 7 - 5 6 - 1}$ methanol |  |
| PEL (USA) | Long-term value: $260 \mathrm{mg} / \mathrm{m}^{3}, 200 \mathrm{ppm}$ <br> REL (USA) <br> Short-term value: $325 \mathrm{mg} / \mathrm{m}^{3}, 250 \mathrm{ppm}$ <br> Long-term value: $260 \mathrm{mg} / \mathrm{m}^{3}, 200 \mathrm{ppm}$ <br> Skin <br> TLV (USA) <br> Short-term value: $328 \mathrm{mg} / \mathrm{m}^{3}, 250 \mathrm{ppm}$ <br> Long-term value: $262 \mathrm{mg} / \mathrm{m}^{3}, 200 \mathrm{ppm}$ |
| EL (Canada) | Skin; BEI <br> Short-term value: 250 ppm <br> Long-term value: 200 ppm |
| LMPE (Mexico) | Skin <br> Short-term value: $325 \mathrm{mg} / \mathrm{m}^{3}, 250 \mathrm{ppm}$ <br> Long-term value: $260 \mathrm{mg} / \mathrm{m}^{3}, 200 \mathrm{ppm}$ |
| Skin <br> Short-term value: 250 ppm <br> Long-term value: 200 ppm <br> PIEL, IBE |  |

| - Ingredients with biological limit values: |  |
| :---: | :---: |
| 67-56-1 methanol |  |
| BEI (USA) | $15 \mathrm{mg} / \mathrm{L}$ |
|  | Medium: urine |
|  | Time: end of shift |
|  | Parameter: Methanol (background, nonspecific) |

## - Exposure controls

- General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work.
Do not inhale gases / fumes / aerosols.
Avoid contact with the eyes and skin.
Engineering controls: Provide adequate ventilation.

- Breathing equipment:

Wear appropriate NIOSH respirator when ventilation is inadequate and occupational exposure limits are exceeded.

- Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Material of gloves
Nitrile rubber, NBR
Neoprene gloves
Butyl rubber, BR

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 5)
Laminated film gloves.
Not suitable are gloves made of the following materials:
PVA gloves
Natural rubber, NR
Eye protection:
Safety glasses
Follow relevant national guidelines concerning the use of protective eyewear.
Body protection: Solvent resistant protective clothing

- Limitation and supervision of exposure into the environment

No relevant information available.
Risk management measures No relevant information available.

## 9 Physical and chemical properties

| Information on basic physical and chemical properties <br> - Appearance: |  |
| :---: | :---: |
| Form: | Liquid |
| Color: | Colorless |
| - Odor: | Like alcohol |
| - Odor threshold: | Not determined. |
| - pH-value: | Not determined. |
| - Melting point/Melting range: | $-98{ }^{\circ} \mathrm{C}\left(-144.4{ }^{\circ} \mathrm{F}\right)$ |
| - Boiling point/Boiling range: | $65^{\circ} \mathrm{C}\left(149{ }^{\circ} \mathrm{F}\right)$ |
| - Flash point: | $12{ }^{\circ} \mathrm{C}\left(53.6{ }^{\circ} \mathrm{F}\right)$ |
| - Flammability (solid, gaseous): | Not applicable. |
| - Auto-ignition temperature: | $>260{ }^{\circ} \mathrm{C}$ ( $>500{ }^{\circ} \mathrm{F}$ ) |
| - Decomposition temperature: | Not determined. |
| - Danger of explosion: | Product is not explosive. However, formation of explosive air/vapor mixtures are possible. |
| - Explosion limits |  |
| Lower: | 6 Vol \% |
| Upper: | 31 Vol \% |
| - Oxidizing properties: | Not determined. |
| - Vapor pressure at $20^{\circ} \mathrm{C}\left(68{ }^{\circ} \mathrm{F}\right)$ : | $130 \mathrm{hPa}(97.5 \mathrm{~mm} \mathrm{Hg})(97.5 \mathrm{~mm} \mathrm{Hg})$ |
| - Density: |  |
| Relative density: | 0.79 |
| Vapor density at $20{ }^{\circ} \mathrm{C}\left(68{ }^{\circ} \mathrm{F}\right)$ : | 1.11 |
| Evaporation rate: | Not determined. |
| Solubility in / Miscibility with Water: | Fully miscible. |

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 6)
Partition coefficient (n-octanol/water) at $20{ }^{\circ} \mathrm{C}$
( $68{ }^{\circ} \mathrm{F}$ ):
-0.77 log POW

- Viscosity

Dynamic: Not determined.
Kinematic: Not determined.
Other information No relevant information available.

## 10 Stability and reactivity

- Reactivity: No relevant information available.
- Chemical stability: Stable under normal temperatures and pressures.
- Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.
Possibility of hazardous reactions
Highly flammable liquid and vapor.
Reacts violently with oxidizing agents.
Toxic fumes may be released if heated above the decomposition point.
Used empty containers may contain product gases which form explosive mixtures with air.
Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomized.
Reacts with strong acids and alkali.
Conditions to avoid Excessive heat.

- Incompatible materials Oxidizers
- Hazardous decomposition products

Under fire conditions only:
Carbon monoxide and carbon dioxide

## 11 Toxicological information

## - Information on toxicological effects

- Acute toxicity: Toxic if swallowed, in contact with skin or if inhaled.

## - LD/LC50 values that are relevant for classification:

ATE (Acute Toxicity Estimate)

| Oral | LD50 | $100 \mathrm{mg} / \mathrm{kg}$ |
| :--- | :--- | :--- |
| Dermal | LD50 | $300 \mathrm{mg} / \mathrm{kg}$ |
| Inhalative | LC50 $/ 4 \mathrm{~h}$ | $3 \mathrm{mg} / \mathrm{l}$ |

- Primary irritant effect:
- On the skin: Based on available data, the classification criteria are not met.
- On the eye: Irritating effect.
- Sensitization: Based on available data, the classification criteria are not met.
- IARC (International Agency for Research on Cancer):

Substance is not listed.

- NTP (National Toxicology Program):

Substance is not listed.

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 7)

- OSHA-Ca (Occupational Safety \& Health Administration):

Substance is not listed.
Probable route(s) of exposure:
Ingestion.
Inhalation.
Eye contact.
Skin contact.

- Germ cell mutagenicity: Based on available data, the classification criteria are not met.
- Carcinogenicity: Based on available data, the classification criteria are not met.
- Reproductive toxicity: Based on available data, the classification criteria are not met.
- STOT-single exposure: Causes damage to the nervous system and optic nerve.
- STOT-repeated exposure: Based on available data, the classification criteria are not met.

Aspiration hazard: Based on available data, the classification criteria are not met.

## 12 Ecological information

## - Toxicity

- Aquatic toxicity No relevant information available.
- Persistence and degradability No relevant information available.
- Bioaccumulative potential: No relevant information available.

Mobility in soil: No relevant information available.
Additional ecological information

- General notes:

Do not allow product to reach ground water, water course or sewage system.
Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

- Results of PBT and vPvB assessment
- PBT: Not applicable.
-vPvB: Not applicable.
- Other adverse effects No relevant information available.

## 13 Disposal considerations

## - Waste treatment methods

- Recommendation:

Incinerate in accordance with local, state and federal regulations.
The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

- Uncleaned packagings
- Recommendation: Disposal must be made according to official regulations.
- Recommended cleansing agent: Water, if necessary with cleansing agents.

## 14 Transport information

Safety Data Sheet
acc. to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
Printing date: November 05, 2018
Revision: July 05, 2018
Trade name: Methanol (Methyl Alcohol)

Trade name: Methanol (Methyl Alcohol)
(Cont'd. of page 9)

## 15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
United States (USA)
SARA
- Section 302 (extremely hazardous substances):

Substance is not listed.
Section 355 (extremely hazardous substances):
Substance is not listed.

- Section 313 (Specific toxic chemical listings):

Substance is listed.

- TSCA (Toxic Substances Control Act)

Substance is listed.
Proposition 65 (California)
Chemicals known to cause cancer:
Substance is not listed.
Chemicals known to cause developmental toxicity for females:
Substance is not listed.
Chemicals known to cause developmental toxicity for males:
Substance is not listed.
Chemicals known to cause developmental toxicity:
Substance is listed.
EPA (Environmental Protection Agency):
Substance is not listed.

- IARC (International Agency for Research on Cancer):

Substance is not listed.
Canadian Domestic Substances List (DSL) (Substances not listed.):
Substance is listed.

## 16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Phone Number (800) 424-9300
For laboratory use only.
Not for drug, food or household use.

| Product | METHYL ALCOHOL |
| :--- | :--- |
| Synonyms | Methanol ; Wood Alcohol |

## Section 2 2 . 4 Wazards ldentifeation

Signal word: DANGER
Pictograms: GHSO2 / GHS06 / GHS08
Target organs: Central nervous system, Liver, Kidneys, Heart

GHS Classification:
Flammable liquid (Category 2)
Acute toxicity, oral (Category 3)
Acute toxicity, dermal (Category 3)
Acute toxicity, inhalation (Category 3)
STOT-SE (Category 1)
GHS Label Information: Hazard statement:
H225: Highly flammable liquid and vapour.
H301: Toxic if swallowed.
H311: Toxic in contact with skin.
H331: Toxic if inhaled.
H370: Causes damage to organs.

## Precautionary statement:

P210: Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P241: Use explosion-proof electrical/ventilating/lighting equipment.
P242: Use only non-sparking tools.
P243: Take precautionary measures against static discharge.
P260: Do not breathe mist/vapours/spray.
P264: Wash hands thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P271: Use only outdoors or in a well-ventilated area.
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330 +P310: IF SWALLOWED: Rinse mouth. Immediately call a POISON CENTER or doctor/physician.
P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P308+P312: IF exposed or concerned: Call a POISON CENTER or doctor/physician if you feel unwell.
P370+P378: In case of fire: Use dry chemical, alcohol foam, carbon dioxide or water spray to extinguish.
P403+P233+P235: Store in a well-ventilated place. Keep container tightly closed. Keep cool.
P405: Store locked up.
P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with all local, state and federal regulations.

Ca Prop 65: This product contains a chemical known to the State of California to cause reproductive toxicity (Methanol, developmental).

INGESTION: MAY BE FATAL OR CALUSE BLINDNESS IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.
INHALATION: VAPOR HARMFUL. HARMFUL IF INHALED. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: HARMFUL IN CONTACT WITH SKIN. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 2squon S. <br> Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam.

Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Fires involving a small amount of combustibles may be smothered by dry chemical. Vapors formed from this product are heavier than air and may travel along the ground to a distant source of ignition and flash back instanty. Closed containers exposed to heat may explode. Burns with a clear, almost invisible flame. Contact with strong oxidizers may cause fire.

## 

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Remove all sources of ignition. Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Sectlon 7. Wanding \& Storage
Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhaie vapors, spray or mist. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Slore in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources.

Engineering controls: Facillies storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses. goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If misty conditions prevail, work in fume hood or wear a NIOSHIMSHAapproved respirator.

Appearance: Clear, colorless liquid.
Odor: Pungent+ odor.
Odor threshold: Data not available.
pH: Data not available.
Melting / Freezing point: $-98^{\circ} \mathrm{C}\left(-144^{\circ} \mathrm{F}\right)$
Boifing point: $65^{\circ} \mathrm{C}\left(149^{\circ} \mathrm{F}\right)$
Flash point: $11^{\circ} \mathrm{C}\left(52^{\circ} \mathrm{F}\right) \mathrm{CC}$

Evaporation rate (Butyl acetate $=1$ ): 4.6 Flammability (solid/gas): Data not available. Explosion limits: Lower / Upper: $7.3 \% / 36 \%$ Vapor pressure ( mm Hg ): $96 \mathrm{~mm} @ 20^{\circ} \mathrm{C}$ Vapor density ( ( ir $=1$ ): 1.11 Relative density (Specific gravity): 0.79 Solubility(ies): Complete in water.

Partition coefflcient: ( $n$-octanol / water): Low Pow: - 82 Auto-ignition temperature: $463^{\circ} \mathrm{C}\left(867^{\circ} \mathrm{F}\right)$ Decomposition temperature: Data not available. Viscosity: Data not available.
Molecular formula: $\mathrm{CH}_{3} \mathrm{OH}$
Molecular weight: 32.04

Chemical stability: Stable

## Hazardous polymerization: Will not occur.

Conditions to avoid: Excessive temperatures, heat, sparks, open flame and other sources of ignition.
Incompatible materials: Strong oxidizing agents, strong acids. zinc, aluminum and magnesium, reducers, alkalies.
Hazardous decomposition products: Oxides of carbon and formaidehyde.

## Flinn Scientific, Inc. <br> Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION Methyl Orange

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261

| CHEMTREC Emergency Phone Number: (800) 424-9300 Signal Word $\quad$ DANGER |
| :--- |
| SECTION 2 - HAZARDS IDENTIFICATION |
| Hazard class: Acute toxicity, oral (Category 3). Toxic if swallowed (H301). Do not eat, drink or smoke when |
| using this product (P270). |

## SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Methyl orange | $547-58-0$ | $\mathrm{C}_{14} \mathrm{H}_{15} \mathrm{~N}_{3} \mathrm{O}_{3} \mathrm{SNa}$ | 327.334 |  |
|  |  |  |  |  |
| Synonyms: Sodium p-dimethylaminoazobenzenesulfonate; |  |  |  |  |
| C.I. 13025 |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.
If on skin: Wash with plenty of water.
If swallowed: Rinse mouth. Immediately call a POISON CENTER or physician (P301+P310+P330).

## SECTION 5 - FIRE FIGHTING MEASURES

Noncombustible solid.

NFPA Code
None
established

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Sweep up the spill, place in a sealed bag or container, and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

Flinn Scientific, Inc.

| Safety Data Sheet $\quad$ Methyl Orange | SDS \#: 516.00 |
| :--- | :---: | :---: |

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Organic \#9. Store with dyes, indicators and stains.
Keep container tightly closed. Store in a cool, dry place.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection. Wash hands thoroughly after handling (P264). Will stain skin, clothing, and surfaccs.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Orange powder. Odor like burnt rubber.
pH indicator: 3.0 red to 4.4 yellow.
Soluble: Hot water. Partially in alcohol.

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with strong oxidizers.
Shelf life: Indefinite, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Harmful if swallowed.
ORL-RAT LD ${ }_{50}: 60 \mathrm{mg} / \mathrm{kg}$
Chronic effects: N.A.
IHL-RAT LC ${ }_{50}$ : N.A.
Target organs: N.A.
SKN-RBT LD ${ }_{50}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Toxic solids, organic, N.O.S.; Hazard class: 6.1, Keep away from food; UN number: UN281!
$\mathrm{N} / \mathrm{A}=$ Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (208-925-3).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. Fiinn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shail not be hable for any damages relating thereto. The data is offered solely for your consideration, investigation, and verification. The data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of handling, storage, use and disposal of the product(s) described are beyond the control of Flinn Scientific, Inc. and may be beyond our knowiedge. FOR THIS AND OTHER REASONS, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals.
Revision Date: March 21, 2014

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION <br> Methyl Red Indicator Solution

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261

| CHEMTREC Emergency Phone Number: (800) 424-9300 Signal Word N/A | Pictograms |
| :---: | :---: |
| SECTION 2 - HAZARDS IDENTIFICATION |  |
| This chemical is considered nonhazardous according to GHS classifications for the Hazard Communication Standard. Treat all laboratory chemicals with caution. |  |
| Although this material is considered to be nonhazardous, unpredictable reactions among chemicals are always possible. Prudent laboratory practices should be observed. |  |

SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Methyl red, sodium salt | $845-10-3$ | $\mathrm{C}_{15} \mathrm{H}_{14} \mathrm{~N}_{3} \mathrm{O}_{2} \mathrm{Na}$ | 291.28 | $0.1 \%$ |
| Water | $7732-18-5$ | $\mathrm{H}_{2} \mathrm{O}$ | 18.00 | $>99 \%$ |
|  |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.
If on skin: Wash with plenty of water.
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.

## SECTION 5 - FIRE FIGHTING MEASURES

Nonflammable, noncombustible solution.
In case of fire: Use a tri-class dry chemical fire extinguisher.
NFPA Code
None
established

## SECTION 6 -.. ACCIDENTAL RELEASE MEASURES

Ventilate area. Contain the spill with sand or absorbent material and deposit in a sealed bag or container. See Sections 8 and 13 for further information.

Flinn Scientific, Inc.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Organic \#9. Store with dyes, indicators and stains.
Avoid storing for prolonged periods. Color fades because of reduction.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection. Wash hands thoroughly after handling.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Red, orange or yellow liquid. Odorless.
pH indicator: 4.4 red to 6.2 yellow.

## SECTION 10 - STABILITY AND REACTIVITY

Shelf life: Fair to poor. Color fades because of reduction.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: N.A.
Chronic effects: N.A.
Target organs: N.A.

ORL-RAT LD ${ }_{50}$ : N.A.
IHL-RAT LC $5_{50}$ : N.A.
SKN-RBT LD ${ }_{50}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26b is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A.
N/A = Not applicable

## SECTION 15 - REGULATORY INFORMATION

Not listed.

## SECTION 16 - OTHER INFORMATION

[^7]| Product | METHYL RED, INDICATOR SOLUTION |
| :---: | :---: |
| Synonyms | Methyl Red, 0.02\% Aqueous pH Indicator Solution |
| Sondex | Wy Franderkontry |

This substance or mixture has not been classified as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals.

## Supplementary information:

Do not breathe mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. Get medical attention if you feel unwell.

Signal word: Not classified
Pictograms: Not classified
Target organs: None known
GHS Classification: Not classified
GHS Label information: Hazard statement: Not classified
Precautionary statement: Not classified

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

| Chemical Name | CAS | $\%$ | EINECS |
| :--- | :---: | :---: | :---: |
| Water <br> Methyl red, sodium salt | $7732-18-5$ | $99.98 \%$ | $231-791-2$ |

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY BE HARMFUL IF INHALED. MAY CAUSE RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: MAY CAUSE EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam.
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: In fire conditions, water may evaporate from this solution which may cause hazardous decomposition products to be formed as dust or fume.

## 

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water contact with eyes. skin and clothing. Do not inhale mist/vapors/spray. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash ciothing before reuse.
Conditions for Safe Storage: Store in a cool, well-ventilated area away from incompatible substances. Protect from light.

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If misty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

Appearance: Clear, colorless red liquid
Odor: No odor.
Odor threshold: Data not available.
pH: Data not available.
Melting / Freezing point: Approximately $0^{\circ} \mathrm{C}\left(32^{\circ} \mathrm{F}\right)$ (water)
Boiling point: Approximately $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ (water)
Flash point: Data not available

Evaporation rate ( Water =1): <1
Flammability (solid/gas): Data not available.
Explosion limits: Lower / Upper: Data not available
Vapor pressure (mm Hg): 14 (water)
Vapor density (Air = 1): 0.7 (water)
Relative density (Specific gravity): Approximately 1.0 (water Solubility(ies): Complete in water.

Partition coefficient: Data not available
Auto-ignition temperature: Data not available
Decomposition temperature: Data not available.
Viscosity: Data not available.
Molecular formula: Mixture
Molecular weight: Mixture

Chemical stability: Stable
Hazardous polymerization: Will not occur.
Conditions to avoid: Excessive temperatures which cause evaporation. Protect from light.
Incompatible materials: Strong oxidizers, reducing agents.
Hazardous decomposition products: Carbon oxides, nitrogen oxides and sodium oxides.

## 

Acute toxicity: Oral-rat TD ${ }_{\text {Lo }}: 12000 \mathrm{mg} / \mathrm{kg}$ [Methyl red]
Skin corrosion/irrltation: Data not available
Serious eye damage/irritation: Data not available
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: May be harmful if inhaled.
Ingestion: May be harmful if swallowed.
Skin: May cause irritation.
Eyes: May cause irritation.
Signs and symptoms of exposure: To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated. Specific data is not available. Exercise appropriate procedures to minimize potential hazards.
Additional information: RTECS \#: DG8960000 [Methyl red]
H2TMTM
Toxicity to fish: No data available
Toxicity to daphnia and other aquatic invertebrates: No data available
Toxicity to algae: No data available
Persistence and degradability: No data available Bioaccumulative potential: No data available
Mobility in soil: No data available PBT and vPvB assessment: No data available
Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

## Section 4 First Aid Measures

## Emergency and First Aid Procedures

Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest.
Eyes: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Skin Contact: $\quad$ After contact with skin, wash immediately with plenty of water.
Ingestion: If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Section $5 \quad$ Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use media suitable to extinguish surrounding fire.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
Fire or excessive heat may produce hazardous decomposition products.
Carbon dioxide, Carbon monoxide

## Section 6

## Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill.
Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.

## Safety Data Sheet

Disposal Methods:
Waste Disposal Code(s):

Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance.
Not Determined

## Section 14

Ground - DOT Proper Shipping Name:
Not regulated for transport by US DOT.

## Transport Information

## Section 15

## Air - IATA Proper Shipping Name: <br> Not regulated for air transport by IATA.

TSCA Status:
All components in this product are on the TSCA Inventory.

Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture
GHS label elements
Hazard pictograms

## Signal word

 Hazard statements: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: FLAMMABLE LIQUIDS - Category 3
SKIN SENSITIZATION - Category 1
CARCINOGENICITY - Category 2
TOXIC TO REPRODUCTION (Fertility) - Category 2
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation and Narcotic effects) - Category 3
SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 ASPIRATION HAZARD - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 65.4\%
:

: Danger
: Flammable liquid and vapor.
May cause an allergic skin reaction.
Suspected of damaging fertility.
Suspected of causing cancer.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.

## Section 2. Hazaras identitication

## Precautionary statements

General
Prevention

Response

Storage
Disposal

## Supplemental label

 elementsHazards not otherwise classified
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only nonsparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Contaminated work clothing should not be allowed out of the workplace.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical attention.
: Store locked up. Store in a well-ventilated place. Keep cool.
Dispose of contents and container in accordance with all local, regional, national and international regulations.
DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

## Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
| :--- | :--- |
| Other means of |  |
| identification | : Not available. |

## CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | 65.4 | $64742-88-7$ |
| Methyl Ethyl Ketoxime | 0.2 | $96-29-7$ |
| Cobalt 2-Ethylhexanoate | 0.2 | $136-52-7$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation

Skin contact

Ingestion
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Most important symptoms/effects, acute and delayed

## Potential acute health effects

Eye contact
Inhalation
Skin contact
Ingestion
: No known significant effects or critical hazards.
: Can cause central nervous system (CNS) depression. May cause drowsiness and dizziness. May cause respiratory irritation.
: May cause an allergic skin reaction.
: Can cause central nervous system (CNS) depression. May be fatal if swallowed and
enters airways. enters airways.

## Over-exposure signs/symptoms

Eye contact : No specific data.
Inhalation

Skin contact
: Adverse symptoms may include the following: respiratory tract irritation
coughing nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness reduced fetal weight increase in fetal deaths skeletal malformations
: Adverse symptoms may include the following: irritation
redness
reduced fetal weight
increase in fetal deaths
skeletal malformations

Sectıon 4. Fırst aıd measures
Adverse symptoms may include the following: nausea or vomiting reduced fetal weight increase in fetal deaths skeletal malformations

Indication of immediate medical attention and special treatment needed, if necessary
Notes to physician
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments
: No specific treatment.
Protection of first-aiders
: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising from the chemical
: Use dry chemical, $\mathrm{CO}_{2}$, water spray (fog) or foam.
: Do not use water jet.
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

## Environmental precautions

:Section 6. Accidental release measures
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

## Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handing) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in a segregated and approved area. including any
incompatibilities

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

## Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). |
|  | TWA: 100 ppm 8 hours. |
| Methyl Ethyl Ketoxime | TWA: $400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | AIHA WEEL (United States, 10/2011). Skin |
|  | sensitizer. |
|  | TWA: 10 ppm 8 hours. |

## Appropriate engineering controls

## Environmental exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering'modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

## Eye/face protection

## Skin protection

Hand protection

## Body protection

Other skin protection

Respiratory protection
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Appearance

## Aerosol product

Heat of combustion : $0.00002721 \mathrm{~kJ} / \mathrm{g}$

## Section 10. Stability and reactivity

## Reactivity

Chemical stability : The product is stable.
Possibility of hazardous reactions

## Conditions to avoid

Incompatible materials

Hazartous decomposition products
: Under normal conditions of storage and use, hazardous reactions will not occur.
: No specific test data related to reactivity available for this product or its ingredients.
: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas.
: Reactive or incompatible with the following materials: oxidizing materials
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

## Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
| :--- | :--- | :--- | :--- | :--- |
| Methyl Ethyl Ketoxime | LD50 Oral | Rat | $930 \mathrm{mg} / \mathrm{kg}$ | - |
| Cobalt 2-Ethylhexanoate | LD50 Dermal | Rabbit | $>5 \mathrm{~g} / \mathrm{kg}$ | - |
|  | LD50 Oral | Rat | $1.22 \mathrm{~g} / \mathrm{kg}$ | - |

## Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Methyl Ethyl Ketoxime | Eyes - Severe irritant | Rabbit | - | 100 <br> microliters | - |

| Potential chronic health effects |  |
| Not available. |  |
| General | : May cause damage to organs through prolonged or repeated exposure. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity | Suspected of causing cancer. Risk of cancer depends on duration and level of exposure. |
| Mutagenicity | : No known significant effects or critical hazards. |
| Teratogenicity | : No known significant effects or critical hazards. |
| Developmental effects | : No known significant effects or critical hazards. |
| Fertility effects | : Suspected of damaging fertility. |
| Numerical measures of toxicity |  |
| Acute toxicity estimates |  |
| Not available. |  |

## Section 12. Ecological information

## Toxicity

| Product/ingredient name | Result | Species | Exposure |
| :--- | :--- | :--- | :--- |
| Methyl Ethyl Ketoxime | Acute LC50 $843000 \mu \mathrm{~g} / /$ Fresh water | Fish - Pimephales promelas | 96 hours |

## Persistence and degradability

Not available.

## Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential |
| :--- | :--- | :--- | :--- |
| Methyl Ethyl Ketoxime | - | 2.5 to 5.8 | low |
| Cobalt 2-Ethylhexanoate | - | 15600 | high |

## Mobility in soil

Soil/water partition coefficient (Koc)
: Not available.

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Section 14. I ransport intormation

| Additional <br> information | Special <br> provisions <br> Not Applicable | Special <br> $\frac{\text { provisions }}{\text { Not Applicable }}$ | Special <br> provisions <br> (ERG\#128) | Special <br> provisions <br> Not Applicable | Emergency <br> Schedules (EmS) <br> F-E, S-E |

| Special precautions for user . Multion |  |  |  |  |  |

Special precautions for user :

Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available. to Annex II of MARPOL 73/78 and the IBC Code

## Section 15. Regulatory information

## U.S. Federal regulations

## State regulations

California Prop. 65
WARNING: This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS $®$ ratings are to be used with a fully implemented HMIS® program. HMIS ® is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

## Section 16. Uther intormation

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture

GHS label elements

Signal word
Hazard statements
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: FLAMMABLE AEROSOLS - Category 1
GASES UNDER PRESSURE - Compressed gas
SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A
SKIN SENSITIZATION - Category 1
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation and Narcotic effects) - Category 3
SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 ASPIRATION HAZARD - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 33.6\%
:

: Danger
: Extremely flammable aerosol.
Contains gas under pressure; may explode if heated.
Causes serious eye irritation.
May cause an allergic skin reaction.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.

## Section 2. Hazards identitication

## Precautionary statements

## General

Prevention

Response
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Pressurized container: Do not pierce or burn, even after use. Do not spray on an open flame or other ignition source. Use only outdoors or in a well-ventilated area. Do not breathe dust or mist. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.
: Get medical attention if you feel unwell. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
Storage
Disposal

## Supplemental label

 elements: Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 ${ }^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$. Store in a well-ventilated place.
Dispose of contents and container in accordance with all local, regional, national and international regulations.

DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. FOR INDUSTRIAL USE ONLY.
Please refer to the SDS for additional information. Keep upright in a cool, dry place. Do not discard empty can in trash compactor.

Hazards not otherwise
:None known.

Section 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of |  |
| identification | : Not available. |

CAS number/other identifiers

| Ingredient name | \% by weight | CAS number |
| :--- | :--- | :--- |
| Acetone | 39.0 | $67-64-1$ |
| Propane | 13.8 | $74-98-6$ |
| Butane | 13.2 | $106-97-8$ |
| Med. Aliphatic Hydrocarbon Solvent | 12.7 | $64742-88-7$ |
| Heptane | 7.1 | $64742-49-0$ |
| UV Light Absorber | 0.1 | $104810-48-2$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Description of necessary first aid measures

| Eye contact | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention. |
| :---: | :---: |
| Inhalation | Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Skin contact | Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| Ingestion | Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

Most important symptoms/effects, acute and delayed Potential acute health effects
Eye contact : Causes serious eye irritation.

Inhalation : Can cause central nervous system (CNS) depression. May cause drowsiness and dizziness. May cause respiratory irritation.
Skin contact : May cause an allergic skin reaction.
Ingestion : Can cause central nervous system (CNS) depression. May be fatal if swallowed and enters airways. Irritating to mouth, throat and stomach.
Over-exposure signs/symptoms

| Eye contact | : Adverse symptoms may include the following pain or irritation watering redness |
| :---: | :---: |
| Inhalation | : Adverse symptoms may include the following respiratory tract irritation coughing nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness |
| Skin contact | Adverse symptoms may include the following irritation redness |
| Ingestion | : Adverse symptoms may include the following: nausea or vomiting |

| Indication of immediate medical attention and special treatment needed, if necessary |  |
| :--- | :--- |
| Notes to physician | $:$Treat symptomatically. Contact poison treatment specialist immediately if large <br> quantities have been ingested or inhaled. |
| Specific treatments | $:$ No specific treatment. |

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media Suitable extinguishing media <br> Unsuitable extinguishing media <br> Specific hazards arising from the chemical

## Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Use an extinguishing agent suitable for the surrounding fire.
: None known.
: Extremely flammable aerosol. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Gas may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back, causing fire or explosion. Bursting aerosol containers may be propelled from a fire at high speed. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials:
carbon dioxide
carbon monoxide

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
vironmental precautions
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. In the case of aerosols being ruptured, care should be taken due to the rapid escape of the pressurized contents and propellant. If a large number of containers are ruptured, treat as a bulk material spillage according to the instructions in the clean-up section. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".
: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Section 6. Accidental release measures

## Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Pressurized container: protect from sunlight and do not expose to temperatures exceeding $50^{\circ} \mathrm{C}$. Do not pierce or burn, even after use. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Avoid breathing gas. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store away from direct sunlight in a dry, cool
including any
incompatibilities
and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Protect from sunlight. Store locked up. Eliminate all ignition sources. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
| Acetone | ACGIH TLV (United States, 4/2014). |
|  | TWA: 500 ppm 8 hours. |
|  | TWA: $1188 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | STEL: 750 ppm 15 minutes. |
|  | STEL: $1782 \mathrm{mg} / \mathrm{m}^{3} 15 \mathrm{minutes}$. |
|  | NIOSH REL (United States, 10/2013). |
|  | TWA: 250 ppm 10 hours. |
|  | TWA: $590 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. |
| Propane | OSHA PEL (United States, 2/2013). |
|  | TWA: 1000 ppm 8 hours. |
|  | TWA: $2400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | NIOSH REL (United States, 10/2013). |
|  | TWA: 1000 ppm 10 hours. |
|  | TWA: $1800 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. |

| Date of issue/Date of revision | $: 4 / 6 / 2015$. | Date of previous issue | $:$ No previous validation. | Version | $: 1$ | $5 / 13$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

Section 8. Exposure controls/personal protection

| Butane <br> Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). TWA: 1000 ppm 8 hours. TWA: $1800 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. NIOSH REL (United States, 10/2013) TWA: 800 ppm 10 hours. TWA: $1900 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. ACGIH TLV (United States, 4/2014). STEL: 1000 ppm 15 minutes. OSHA PEL (United States, 2/2013). TWA: 100 ppm 8 hours. TWA: $400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
| :---: | :---: |

## Appropriate engineering controls

## Environmental exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

Hygiene measures

## Eye/face protection

## Skin protection Hand protection

## Body protection

Other skin protection

## Respiratory protection

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.
Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Other adverse effects : No known significant effects or critical hazards.
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer uniess fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Do not puncture or incinerate container.

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.
to Annex II of MARPOL 73/78 and the IBC Code

## Section 15. Regulatory information

U.S. Federal regulations

California Prop. 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS $®$ is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS $®$ materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

| Supplemental label elements | WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. FOR INDUSTRIAL USE ONLY. |  |  |
|  | Please refer to the SDS for additional information. Do not transfer contents to other containers for storage. |  |  |
| Hazards not otherwise classified | : None known. |  |  |
| Section 3. Composition/information on ingredients |  |  |  |
| Substance/mixture : | Mixture |  |  |
| Other means of identification | : Not available. |  |  |
| CAS number/other identifiers |  |  |  |
| Ingredient name |  | \% by weight | CAS number |
| Butoxypropanol |  | 3.0 | 5131-66-8 |
| Ethylene Glycol |  | 2.3 | 107-21-1 |
| 1-Methyl-2-Pyrrolidone |  | 1.6 | 872-50-4 |
| 1-(2-Butoxymethylethoxy)-propano |  | 1.5 | 29911-28-2 |
| Decylpoly(ethyleneoxy)ethanol |  | 1.2 | 9014-85-1 |
| Tetramethyl Decynediol |  | 0.2 | 126-86-3 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention following exposure or if feeling unwell.
Inhalation
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 4. First aid measures

## Most important symptoms/effects, acute and delayed

## Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : Exposure to decomposition products may cause a health hazard. Serious effects may |
|  | be delayed following exposure. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

## Over-exposure signs/symptoms

| Eye contact | No specific data. |
| :---: | :---: |
| Inhalation | : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Skin contact | Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Ingestion | Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |

## Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments
: No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising from the chemical
Hazardous thermal decomposition products

Special protective actions for fire-fighters
: Use an extinguishing agent suitable for the surrounding fire.
: None known.
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
nitrogen oxides metal oxide/oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

| Date of issue/Date of revision $\quad: 4 / 6 / 2015 . \quad$ Date of previous issue $\quad$ : No previous validation. Version $: 1 \quad 3 / 11$ |
| :--- | :--- | :--- | :--- |

## Section 5. Fire-fighting measures

| Special protective <br> equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing <br> apparatus (SCBA) with a full face-piece operated in positive pressure mode. |
| :--- | :--- |

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| :---: | :---: |
| r emergency responders | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel". |

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures : Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

## Advice on general

occupational hygiene
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any
incompatibilities
: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
| Ethylene Glycol | ACGIH TLV (United States, 4/2014). |
|  | C: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: Aerosol |
| 1-Methyl-2-Pyrrolidone | AIHA WEEL (United States, 10/2011). |
|  | Absorbed through skin. |
|  | TWA: 10 ppm 8 hours. |

## Appropriate engineering controls <br> Environmental exposure controls

: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

## Hygiene measures

## Eye/face protection

## Skin protection <br> Hand protection

Body protection

Other skin protection

Respiratory protection

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 10. Stability and reactivity

## Reactivity

Chemical stability $\quad:$ The product is stable.
Possibility of hazardous : Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid : No specific data.
Incompatible materials : No specific data.
Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 16. Other information

#### Abstract

Notice to reader It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## Section 2. Hazards identification

## OSHA/HCS status

## Classification of the

 substance or mixtureGHS label elements
Hazard pictograms

Signal word Hazard statements

Precautionary statements
General

Prevention
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: TOXIC TO REPRODUCTION (Unborn child) - Category 1B SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: $12.3 \%$
:

: Danger
: May damage the unborn child. May cause damage to organs through prolonged or repeated exposure.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Do not breathe vapor.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention.
: Store locked up.

## Section 2. Hazards identification

## Disposal

Supplemental label elements

Dispose of contents and container in accordance with all local, regional, national and international regulations.
DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. FOR INDUSTRIAL USE ONLY.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

Hazards not otherwise classified

## Section 3. Composition/information on ingredients

Substance/mixture
Other means of : Not available.
identification

CAS number/other identifiers

| Ingredient name | \% by weight | CAS number |
| :--- | :--- | :--- |
| Butoxypropanol | 3.0 | $5131-66-8$ |
| Ethylene Glycol | 2.3 | $107-21-1$ |
| 1-Methyl-2-Pyrrolidone | 1.7 | $872-50-4$ |
| 1-(2-Butoxymethylethoxy)-propanol | 1.5 | $29911-28-2$ |
| Decylpoly(ethyleneoxy)ethanol | 1.2 | $9014-85-1$ |
| 2-Methoxymethylethoxypropanol | 0.2 | $34590-94-8$ |
| Tetramethyl Decynediol |  | $126-86-3$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention following exposure or if feeling unwell. |
| :---: | :---: |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse. |

## Section 4. First aid measures

Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Most important symptoms/effects, acute and delayed

Potential acute health effects
Eye contact : No known significant effects or critical hazards.

Inhalation : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin contact : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.
Over-exposure signs/symptoms
Eye contact : No specific data.
Inhalation : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations
Skin contact : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations
Ingestion : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations

Indication of immediate medical attention and special treatment needed, if necessary
: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments : No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire. media
Unsuitable extinguishing : None known. media

Specific hazards arising
: In a fire or if heated, a pressure increase will occur and the container may burst.

| Date of issue/Date of revision | $: 4 / 6 / 2015$. | Date of previous issue $\quad$ No previous validation. Version $: 1$ | $3 / 12$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Section 5. Fire-fighting measures

| Hazardous thermal <br> decomposition products | $:$ <br> : Decomposition products may include the following materials: <br> carbon dioxide <br> carbon monoxide <br> nitrogen oxides |
| :--- | :--- |
| Special protective actions |  |
| for fire-fighters | : |
| Promptly isolate the scene by removing all persons from the vicinity of the incident if |  |
| there is a fire. No action shall be taken involving any personal risk or without suitable |  |
| training. |  |

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : if specialised clothing is required to deal with the spillage, take note of any information in

Environmental precautions
: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

| Date of issue/Date of revision | $: 4 / 6 / 2015$. | Date of previous issue $\quad$ No previous validation. Version $: 1$ | $4 / 12$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Section 7. Handling and storage

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from
including any
incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
| Ethylene Glycol | ACGIH TLV (United States, 4/2014). |
| 1-Methyl-2-Pyrrolidone | C: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: Aerosol |
|  | AlHA WEEL (United States, 10/2011). |
|  | Absorbed through skin. |
| 2-Methoxymethylethoxypropanol | TWA: 10 ppm 8 hours. |
|  | ACGIH TLV (United States, 4/2014). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 8 hours. |
|  | TWA: $606 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | STEL: 150 ppm 15 minutes. |
|  | STEL: $909 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. |
|  | NIOSH REL (United States, 10/2013). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 10 hours. |
|  | TWA: $600 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. |
|  | STEL: 150 ppm 15 minutes. |
|  | STEL: $900 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. |
|  | OSHA PEL (United States, 2/2013). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 8 hours.. |
|  | TWA: $600 \mathrm{mg} / \mathrm{m}^{3} 8$ hours.. |

## Appropriate engineering controls

Environmental exposure controls
: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

| Hygiene measures | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| :---: | :---: |
| Eye/face protection | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side- |

## Skin protection

## Section 8. Exposure controls/personal protection

$\left.\begin{array}{ll}\text { Hand protection } & \begin{array}{l}\text { : Chemical-resistant, impervious gloves complying with an approved standard should be } \\ \text { worn at all times when handling chemical products if a risk assessment indicates this is } \\ \\ \text { necessary. Considering the parameters specified by the glove manufacturer, check } \\ \text { during use that the gloves are still retaining their protective properties. ## Section 13. Disposal considerations

## Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

|  | DOT <br> Classification | TDG <br> Classification | Mexico <br> Classification | IATA | IMDG |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.

## Section 15. Regulatory information

## U.S. Federal regulations

## State regulations

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS $®$ ratings are to be used with a fully implemented HMIS® program. HMIS $®$ is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS $®$ materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

Section 2. Hazards identification

## OSHA/HCS status

Classification of the substance or mixture

## GHS label elements

Hazard pictograms
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2
Percentage of the mixture consisting of ingredient(s) of unknown oral toxicity: 5.2\% Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: $4.6 \%$ Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: $9.3 \%$
:

: Warning
: May cause damage to organs through prolonged or repeated exposure.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Do not breathe vapor.
: Get medical attention if you feel unwell.
: Not applicable.

## Section 2. Hazards identification

Disposal

Supplemental label elements
: Dispose of contents and container in accordance with all local, regional, national and international regulations.
DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.
: None known.

Hazards not otherwise classified

## Section 3. Composition/information on ingredients

Substance/mixture
Other means of identification
: Mixture
: Not available.

## CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Butoxypropanol | 2.99 | $5131-66-8$ |
| Ethylene Glycol | 2.32 | $107-21-1$ |
| 1-Methyl-2-Pyrrolidone | 1.71 | $872-50-4$ |
| Decylpoly(ethyleneoxy)ethanol | 1.22 | $9014-85-1$ |
| 2-Methoxymethylethoxypropanol | 1.02 | $34590-94-8$ |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If

## Eye contact

Skin contact
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention following exposure or if feeling unwell. not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention following exposure or if feeling unwell. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention following exposure or if feeling unwell. Wash clothing before reuse. Clean shoes thoroughly before reuse.

## Section 4. First aid measures

Ingestion
: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention following exposure or if feeling unwell. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

```
Most important symptoms/effects, acute and delayed
    Potential acute health effects

Indication of immediate medical attention and special treatment needed, if necessary
Notes to physician : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments
: No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising from the chemical Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Use an extinguishing agent suitable for the surrounding fire.
: None known.
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Do not breathe vapor or mist. Do not ingest. Avoid contact with eyes, skin and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

## Control parameters

## Occupational exposure limits (OSHA United States)

| Ingredient name | Exposure limits |
| :--- | :--- |
| Butoxypropanol | None. |
| Ethylene Glycol | ACGIH TLV (United States, 3/2016). |
|  | C: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: Aerosol |
| 1-Methyl-2-Pyrrolidone | AIHA WEEL (United States, 10/2011). |
|  | Absorbed through skin. |
|  | TWA: 10 ppm 8 hours. |
| Decylpoly(ethyleneoxy)ethanol | None. |
| 2-Methoxymethylethoxypropanol | ACGIH TLV (United States, 3/2016). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 8 hours. |
|  | TWA: $606 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | STEL: 150 ppm 15 minutes. |
|  | STEL: $909 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. |
|  | NIOSH REL (United States, 10/2016). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 10 hours. |
|  | TWA: $600 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. |
|  | STEL: $150 \mathrm{ppm} 15 \mathrm{minutes}$. |
|  | STEL: $900 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. |
|  | OSHA PEL (United States, $6 / 2016$ ). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 8 hours. |
|  | TWA: $600 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |

## Occupational exposure limits (Canada)

| Ingredient name | Exposure limits |
| :---: | :---: |
| ethanediol | CA British Columbia Provincial (Canada, 7/2016). <br> C: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: Aerosol <br> TWA: $10 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Particulate <br> STEL: $20 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. Form: <br> Particulate <br> C: 50 ppm Form: Vapour <br> CA Ontario Provincial (Canada, 7/2015). <br> C: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: Aerosol only. <br> CA Saskatchewan Provincial (Canada, 7/2013). <br> CEIL: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: aerosol <br> CA Alberta Provincial (Canada, 4/2009). <br> C: $100 \mathrm{mg} / \mathrm{m}^{3}$ <br> CA Québec Provincial (Canada, 1/2014). <br> STEV: 50 ppm 15 minutes. Form: vapour and mist <br> STEV: $127 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. Form: vapour and mist |
| 1-Methyl-2-Pyrrolidone <br> 2-Methoxymethylethoxypropanol | CA Ontario Provincial (Canada, 7/2015). <br> TWA: $400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. <br> CA Alberta Provincial (Canada, 4/2009). <br> Absorbed through skin. <br> 8 hrs OEL: 100 ppm 8 hours. <br> 15 min OEL: $909 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. <br> 8 hrs OEL: $606 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. <br> 15 min OEL: 150 ppm 15 minutes. |

Occupational exposure limits (Mexico)

| Ingredient name | Exposure limits |
| :--- | :--- |
| ethanediol | NOM-010-STPS-2014 (Mexico, 4/2016). |
| 2-Methoxymethylethoxypropanol | CEIL: $100 \mathrm{mg} / \mathrm{m}^{3}$ Form: Only AEROSOL |
|  | NOM-010-STPS-2014 (Mexico, 4/2016). |
|  | Absorbed through skin. |
|  | TWA: 100 ppm 8 hours. |
|  | STEL: 150 ppm 15 minutes. |

Appropriate engineering controls

Environmental exposure controls
: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

| Hygiene measures | $:$Wash hands, forearms and face thoroughly after handling chemical products, before <br> eating, smoking and using the lavatory and at the end of the working period. <br> Appropriate techniques should be used to remove potentially contaminated clothing. <br> Wash contaminated clothing before reusing. Ensure that eyewash stations and safety <br> showers are close to the workstation location. <br> Eye/face protection <br> $:$Safety eyewear complying with an approved standard should be used when a risk <br> assessment indicates this is necessary to avoid exposure to liquid splashes, mists, <br> gases or dusts. If contact is possible, the following protection should be worn, unless <br> the assessment indicates a higher degree of protection: safety glasses with side- <br> shields. <br> Skin protection <br> Hand protection |
| :--- | :--- |
| : Chemical-resistant, impervious gloves complying with an approved standard should be <br> worn at all times when handling chemical products if a risk assessment indicates this is <br> necessary. Considering the parameters specified by the glove manufacturer, check <br> during use that the gloves are still retaining their protective properties. It should be <br> noted that the time to breakthrough for any glove material may be different for different <br> glove manufacturers. In the case of mixtures, consisting of several substances, the <br> protection time of the gloves cannot be accurately estimated. |  |

# Section 8. Exposure controls/personal protection 

Body protection

Other skin protection

Respiratory protection
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

| Appearance |  |
| :---: | :---: |
| Physical state | : Liquid. |
| Color | : Not available. |
| Odor | Not available. |
| Odor threshold | : Not available. |
| pH | : 8 |
| Melting point | : Not available. |
| Boiling point | : $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ |
| Flash point | : Closed cup: $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ [Pensky-Martens Closed Cup] |
| Evaporation rate | : 0.8 (butyl acetate = 1) |
| Flammability (solid, gas) | : Not available. |
| Lower and upper explosive (flammable) limits | : Lower: 0.6\% <br> Upper: 20.4\% |
| Vapor pressure | : $2.3 \mathrm{kPa}(17.5 \mathrm{~mm} \mathrm{Hg})$ [at $\left.20^{\circ} \mathrm{C}\right]$ |
| Vapor density | : 1 [Air = 1] |
| Relative density | : 1.02 |
| Solubility | : Not available. |
| Partition coefficient: n octanol/water | : Not available. |
| Auto-ignition temperature | Not available. |
| Decomposition temperature | : Not available. |
| Viscosity | : Kinematic ( $40^{\circ} \mathrm{C}\left(104^{\circ} \mathrm{F}\right)$ ): $>0.205 \mathrm{~cm}^{2} / \mathrm{s}(>20.5 \mathrm{cSt})$ |
| Molecular weight | : Not applicable. |
| Aerosol product |  |
| Heat of combustion | : $4.056 \mathrm{~kJ} / \mathrm{g}$ |

## Section 10. Stability and reactivity

## Reactivity

## Chemical stability

Possibility of hazardous reactions
Incompatible materials : No specific data.

Hazardous decomposition products
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

## Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
| :--- | :--- | :--- | :--- | :--- |
| Butoxypropanol | LD50 Dermal | Rabbit | $3100 \mathrm{mg} / \mathrm{kg}$ | - |
| Ethylene Glycol | LD50 Oral | Rat | $4700 \mathrm{mg} / \mathrm{kg}$ | - |
| 1-Methyl-2-Pyrrolidone | RD50 Dermal | Rabbit | $8 \mathrm{~g} / \mathrm{kg}$ | - |
|  | Rat | $3914 \mathrm{mg} / \mathrm{kg}$ | - |  |

## Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Ethylene Glycol | Eyes - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
|  | Eyes - Mild irritant | Rabbit | - | 1 hours 100 milligrams | - |
|  | Eyes - Moderate irritant | Rabbit | - | 6 hours 1440 milligrams | - |
|  | Skin - Mild irritant | Rabbit | - | $555$ <br> milligrams | - |
| 1-Methyl-2-Pyrrolidone | Eyes - Moderate irritant | Rabbit | - | $100$ <br> milligrams | - |
| 2-Methoxymethylethoxypropanol | Eyes - Mild irritant | Human | - | 8 milligrams | - |
|  | Eyes - Mild irritant | Rabbit | - | 24 hours 500 milligrams | - |
|  | Skin - Mild irritant | Rabbit | - | 500 milligrams | - |

: Not available.

Other adverse effects
: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

|  | DOT <br> Classification | TDG <br> Classification | Mexico <br> Classification | IATA | IMDG |
| :--- | :--- | :--- | :--- | :--- | :--- |
| UN number | Not regulated. | Not regulated. | Not regulated. | Not regulated. | Not regulated. |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

| Ship type | : Not available. |
| Pollution category | : Not available. |

## Section 15. Regulatory information

## SARA 313

SARA 313 (40 CFR 372.45) supplier notification can be found on the Environmental Data Sheet.
California Prop. 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
Caution: HMIS® ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS $_{8} 8$ ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented $\mathrm{HMIS} ®$ program. HM IS $®$ is a registered trademark and service mark of the American Coatings Association, Inc.
Procedure used to derive the classification

| Classification | Justification |

| Date of printing  <br> Date of issue/Date of <br> revision $: 8 / 1 / 2017$ <br> Date of previous issue $: 6 / 9 / 2017$ |  |

## Section 16. Other information

Version
Key to abbreviations
: 5
: ATE = Acute Toxicity Estimate
BCF = Bioconcentration Factor
GHS = Globally Harmonized System of Classification and Labelling of Chemicals IATA = International Air Transport Association
IBC = Intermediate Bulk Container
IMDG = International Maritime Dangerous Goods
LogPow = logarithm of the octanol/water partition coefficient
MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) $\mathrm{UN}=$ United Nations

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by Sherwin-Williams, including but not limited to the incorporation of non Sherwin-Williams products or the use or addition of products in proportions not specified by Sherwin-Williams. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## Precautionary statements

 GeneralPrevention

Response

Storage
Disposal

## Supplemental label elements

: Flammable liquid and vapor.
Causes serious eye irritation.
Causes skin irritation.
Suspected of causing cancer.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves. Wear eye or face protection. Wear protective clothing. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash hands thoroughly after handling.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
: Store locked up. Store in a well-ventilated place. Keep cool.
Dispose of contents and container in accordance with all local, regional, national and international regulations.
DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

## Hazards not otherwise classified

| Substance/mixture | : Mixture |
| :--- | :--- |
| Other means of |  |
| identification | : Not available. |

CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | 55.7 | $64742-88-7$ |
| Heavy Naphthenic Petroleum Oil | 19.1 | $64742-52-5$ |
| Titanium Dioxide | 0.3 | $13463-67-7$ |

Section 3. Composition/intormation on ingreaients
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contac
Inhalation

Skin contact

Ingestion
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Most important symptoms/effects, acute and delayed

## Potential acute health effects

| Eye contact | $:$ Causes serious eye irritation. |
| :--- | :--- |
| Inhalation | : Can cause central nervous system (CNS) depression. May cause drowsiness and |
| dizziness. May cause respiratory irritation. |  |
| Skin contact | $:$ Causes skin irritation. |
| Ingestion | : Can cause central nervous system (CNS) depression. May be fatal if swallowed and |
|  | enters airways. |

## Over-exposure signs/symptoms

| Eye contact | : Adverse symptoms may include the following: pain or irritation watering redness |
| :---: | :---: |
| Inhalation | : Adverse symptoms may include the following respiratory tract irritation <br> coughing <br> nausea or vomiting <br> headache <br> drowsiness/fatigue <br> dizziness/vertigo <br> unconsciousness |

Section 4. rirst aıd measures

| Skin contact | $:$ Adverse symptoms may include the following: <br> irritation <br> redness |
| :--- | :--- |
| Ingestion | $:$Adverse symptoms may include the following: <br>  <br>  <br> nausea or vomiting |

Indication of immediate medical attention and special treatment needed, if necessary
Notes to physician
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments
Protection of first-aiders
: No specific treatment.
: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media
: Use dry chemical, $\mathrm{CO}_{2}$, water spray (fog) or foam.
: Do not use water jet.

Specific hazards arising from the chemical

Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency
personnel personnel

: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in a segregated and approved area. including any incompatibilities Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

Section 8. Exposure controls/personal protection

| Ingredient name | Exposure limits |
| :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). |
|  | TWA: 100 ppm 8 hours. |
| Heavy Naphthenic Petroleum Oil | TWA: $400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | ACGIH TLV (United States, 3/2015). |
|  | TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Inhalable |
|  | fraction |
|  | NIOSH REL (United States, 10/2013). |
|  | TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. Form: Mist |
|  | STEL: $10 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. Form: Mist |
| Titanium Dioxide | OSHA PEL (United States, 2/2013). |
|  | TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | ACGIH TLV (United States, 3/2015). |
|  | TWA: $10 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | OSHA PEL (United States, 2/2013). |
|  | TWA: $15 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Total dust |

## Appropriate engineering controls

## Environmental exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

Hygiene measures
Eye/face protection

Skin protection
Hand protection

Body protection

Other skin protection
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid spiashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Section 8. Exposure controls/personal protection
Respiratory protection
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

| Appearance |  |
| :---: | :---: |
| Physical state | : Liquid. |
| Color | : Not available. |
| Odor | Not available. |
| Odor threshold | Not available. |
| pH | Not available. |
| Melting point | Not available. |
| Boiling point | $148^{\circ} \mathrm{C}$ ( $298.4{ }^{\circ} \mathrm{F}$ ) |
| Flash point | Closed cup: $43^{\circ} \mathrm{C}\left(109.4{ }^{\circ} \mathrm{F}\right)$ [Pensky-Martens Closed Cup] |
| Evaporation rate | 0.13 (butyl acetate = 1) |
| Flammability (solid, gas) | Not available. |
| Lower and upper explosive (flammable) limits | : Lower: 1\% Upper: 6\% |
| Vapor pressure | : $0.023 \mathrm{kPa}(0.169 \mathrm{~mm} \mathrm{Hg})\left[\right.$ at $\left.20^{\circ} \mathrm{C}\right]$ |
| Vapor density | : 5 [Air = 1] |
| Relative density | : 0.86 |
| Solubility | Not available. |
| Partition coefficient: $\boldsymbol{n}$ octanol/water | Not available. |
| Auto-ignition temperature | Not available. |
| Decomposition temperature | Not available. |
| Viscosity | Kinematic (room temperature): $<0.205 \mathrm{~cm}^{2} / \mathrm{s}(<20.5 \mathrm{cSt}$ ) <br> Kinematic ( $40^{\circ} \mathrm{C}\left(104^{\circ} \mathrm{F}\right)$ ): $<0.205 \mathrm{~cm}^{2} / \mathrm{s}(<20.5 \mathrm{cSt})$ |
| Molecular weight | Not applicable. |
| Aerosol product |  |
| Heat of combustion | $29.44 \mathrm{~kJ} / \mathrm{g}$ |

## Section 10. Stability and reactivity

Reactivity
Chemical stability

Possibility of hazardous reactions
incompatible materials
: No specific test data related to reactivity available for this product or its ingredients.
: The product is stable.
: Under normal conditions of storage and use, hazardous reactions will not occur.

| Conditions to avoid | $:$Avoid all possible sources of ignition (spark or flame). <br> braze, solder, drill, grind or expose containers to heat <br> allow vapor to accumulate in low or confined areas. <br> Incompatible materials $\quad$ |
| :--- | :--- |
| : Reactive or incompatible with the following materials: <br> oxidizing materials |  |

: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, allow vapor to accumulate in low or confined areas. oxidizing materials

Section 10. Stability and reactivity
Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should products not be produced.

## Section 11. Toxicological information

## Mobility in soil

Soil/water partition
coefficient (Koc)
: Not available.

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

| Additional information | This product may be re-classified as "Combustible Liquid," unless transported by vessel or aircraft. Non-bulk packages (less than or equal to 119 gal ) of combustible liquids are not regulated as hazardous materials. <br> Special provisions <br> Not Applicable | Product classified as per the following sections of the <br> Transportation of Dangerous Goods Regulations: 2. 18-2.19 (Class 3). <br> Special <br> provisions <br> Not Applicable | Special <br> provisions <br> (ERG\#128) | Special provisions Not Applicable | $\begin{aligned} & \text { Emergency } \\ & \text { schedules (EmS) } \\ & \hline \text { F-E, S-E } \end{aligned}$ |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

## Section 15. Regulatory information

## U.S. Federal regulations

## State regulations

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other
reproductive harm.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS ${ }^{8}$ ratings are to be used with a fully implemented HMIS ${ }^{8}$ program. HMIS® is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

Section 2. Hazards identification

OSHA/HCS status
Classification of the

GHS label elements Hazard pictograms

## Signal word

Hazard statements
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: FLAMMABLE LIQUIDS - Category 3
SKIN CORROSION/IRRITATION - Category 2
SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A
CARCINOGENICITY - Category 2
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation and Narcotic effects) - Category 3
SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 ASPIRATION HAZARD - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: $78.7 \%$
:

: Danger
: Flammable liquid and vapor.
Causes serious eye irritation.
Causes skin irritation.
Suspected of causing cancer.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.

## Precautionary statements

General
Prevention

## Response

## Storage

Disposal

## Supplemental label elements

: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only nonsparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash hands thoroughly after handling.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
: Store locked up. Store in a well-ventilated place. Keep cool.
Dispose of contents and container in accordance with all local, regional, national and international regulations.
DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.

## Hazards not otherwise :None known.

 classifiedSection 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of |  |
| identification | : Not available. |
| CAS number/other identifiers |  |

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | 58.5 | $64742-88-7$ |
| Heavy Naphthenic Petroleum Oil | 17.3 | $64742-52-5$ |
| Titanium Dioxide | 1.0 | $13463-67-7$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact

Inhalation

Skin contact

Ingestion
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Most important symptoms/effects, acute and delayed

## Potential acute health effects

| Eye contact | $:$ Causes serious eye irritation. |
| :--- | :--- |
| Inhalation | : Can cause central nervous system (CNS) depression. May cause drowsiness and |
| dizziness. May cause respiratory irritation. |  |
| Skin contact | : Causes skin irritation. |
| Ingestion | : Can cause central nervous system (CNS) depression. May be fatal if swallowed and |
|  | enters airways. Irritating to mouth, throat and stomach. |

## Over-exposure signs/symptoms

\(\left.$$

Indication of immediate medical attention and special treatment needed, if necessary

## Section 4. rirst aıd measures

Notes to physician

Specific treatments
Protection of first-aiders
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
: No specific treatment.
: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media<br>Unsuitable extinguishing : Do not use water jet. media<br>: Use dry chemical, $\mathrm{CO}_{2}$, water spray (fog) or foam.

Specific hazards arising from the chemical

## Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials:
carbon dioxide
carbon monoxide

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

## Advice on general

 occupational hygiene: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventiliated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Conditions for safe storage, including any incompatibilities

## Section 8. Exposure controls/personal protection

Titanium Dioxide

TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours.
ACGIH TLV (United States, 4/2014).
TWA: $10 \mathrm{mg} / \mathrm{m}^{3} 8$ hours.
OSHA PEL (United States, 2/2013). TWA: $15 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Total dust

## Appropriate engineering controls

## Environmental exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

Hygiene measures
Eye/face protection

Skin protection
Hand protection

Body protection

## Other skin protection

## Respiratory protection

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures shouid be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

| Aerosol product |  |

## Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
| :---: | :---: |
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas. |
| Incompatible materials | : Reactive or incompatible with the following materials: oxidizing materials |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Soil/water partition : Not available.
coefficient (Koc)

Other adverse effects
: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

## Section 14. I ransport intormation

| Additional <br> information | Special <br> provisions <br> Not Applicable | Special <br> provisions <br> Not Applicable | Special <br> provisions <br> (ERG\#128) | Special <br> provisions <br> Not Applicable | Emergency <br> schedules (EmS) <br> F-E, S-E |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.
to Annex II of MARPOL
73/78 and the IBC Code

| Proper shipping name | : Not available. |
| :--- | :--- |
| Ship type | : Not available. |
| Pollution category | : Not available. |

## Section 15. Regulatory information

## U.S. Federal regulations

## State regulations

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS $®$ is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS $®$ materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## SAFETY DATA SHEET

## Section 1. Identification

Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture

GHS label elements
Hazard pictograms

Signal word
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: FLAMMABLE LIQUIDS - Category 3 SKIN CORROSION/IRRITATION - Category 2 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A
TOXIC TO REPRODUCTION (Unborn child) - Category 2
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation) - Category 3
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) Category 3
SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 ASPIRATION HAZARD - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 79.9\%
:

: Danger

| Hazard statements | Flammable liquid and vapor. <br> Causes serious eye irritation. <br> Causes skin irritation. <br> Suspected of damaging the unborn child. <br> May be fatal if swallowed and enters airways. <br> May cause respiratory irritation. <br> May cause drowsiness and dizziness. <br> May cause damage to organs through prolonged or repeated exposure. |
| :---: | :---: |
| Precautionary statements |  |
| General | Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. |
| Prevention | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves. Wear eye or face protection. Wear protective clothing. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash hands thoroughly after handling. |
| Response | Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. |
| Storage | Store locked up. Store in a well-ventilated place. Keep cool. |
| Disposal | Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Supplemental label elements | DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. |
|  | Please refer to the SDS for additional information. Do not transfer contents to other containers for storage. |
| Hazard | None known. |

## Hazards not otherwise :None known. classified

## Section 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of <br> identification | $:$ Not available. |

CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |  |
| :--- | :--- | :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | 57.9 | $64742-88-7$ |  |
| Heavy Naphthenic Petroleum Oil | 17.6 | $64742-52-5$ |  |
| Aliphatic Solvent | 0.1 | $64742-47-8$ |  |
| Toluene | $: 9 / 25 / 2015$ | Date of previous issue | $: 5 / 19 / 2015$ |
| Date of issue/Date of revision |  |  | Version |

## Section 3. Composition/intormation on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact

Inhalation

Skin contact

Ingestion
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Most important symptoms/effects, acute and delayed

## Potential acute health effects

Eye contact : Causes serious eye irritation.
Inhalation
: Can cause central nervous system (CNS) depression. May cause drowsiness and dizziness. May cause respiratory irritation.
Skin contact : Causes skin irritation.
Ingestion : Can cause central nervous system (CNS) depression. May be fatal if swallowed and enters airways.

## Over-exposure signs/symptoms

| Eye contact | : Adverse symptoms may include the following pain or irritation watering redness |
| :---: | :---: |
| Inhalation | : Adverse symptoms may include the following respiratory tract irritation <br> coughing <br> nausea or vomiting <br> headache <br> drowsiness/fatigue <br> dizziness/vertigo <br> unconsciousness <br> reduced fetal weight <br> increase in fetal deaths <br> skeletal malformations |

## Section 4. rirst aid measures

| Skin contact | : Adverse symptoms may include the following: irritation redness reduced fetal weight increase in fetal deaths skeletal malformations |
| :---: | :---: |
| Ingestion | Adverse symptoms may include the following: nausea or vomiting reduced fetal weight increase in fetal deaths skeletal malformations |
| Indication of immediate medical attention and special treatment needed, if necessary |  |
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media |  |
| :--- | :--- |
| Suitable extinguishing <br> media | : Use dry chemical, $\mathrm{CO}_{2}$, water spray (fog) or foam. |
| Unsuitable extinguishing <br> media | $:$ Do not use water jet. |

Specific hazards arising from the chemical

## Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials:
carbon dioxide
carbon monoxide

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

## Section 6. Accidental release measures

For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

| Environmental precautions | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| :---: | :---: |
| Methods and materials for containment and cleaning up |  |
| Small spill | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

## Precautions for safe handling

Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in a segregated and approved area. including any incompatibilities Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :---: | :---: |
| Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). TWA: 100 ppm 8 hours. TWA: $400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
| Heavy Naphthenic Petroleum Oil | ACGIH TLV (United States, 3/2015). TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Inhalable fraction |
|  | NIOSH REL (United States, 10/2013). TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. Form: Mist STEL: $10 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. Form: Mist OSHA PEL (United States, 2/2013). TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
| Aliphatic Solvent | ACGIH TLV (United States, 3/2015). Absorbed through skin. TWA: $200 \mathrm{mg} / \mathrm{m}^{3}$, (as total hydrocarbon vapor) 8 hours. |
| Toluene | OSHA PEL Z2 (United States, 2/2013). <br> TWA: 200 ppm 8 hours. <br> CEIL: 300 ppm <br> AMP: 500 ppm 10 minutes. <br> NIOSH REL (United States, 10/2013). <br> TWA: 100 ppm 10 hours. <br> TWA: $375 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. <br> STEL: 150 ppm 15 minutes. <br> STEL: $560 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. <br> ACGIH TLV (United States, 3/2015). <br> TWA: 20 ppm 8 hours. |

Appropriate engineering controls

Environmental exposure
controls
: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

Hygiene measures
Eye/face protection
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.
Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
Skin protection

## Section 8. Exposure controls/personal protection

Hand protection

## Body protection

Other skin protection

Respiratory protection
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

| Appearance |  |
| :---: | :---: |
| Physical state | : Liquid. |
| Color | : Not available. |
| Odor | : Not available. |
| Odor threshold | : Not available. |
| pH | : Not available. |
| Melting point | : Not available. |
| Boiling point | : $148^{\circ} \mathrm{C}\left(298.4^{\circ} \mathrm{F}\right)$ |
| Flash point | : Closed cup: $41^{\circ} \mathrm{C}\left(105.8^{\circ} \mathrm{F}\right)$ [Pensky-Martens Closed Cup] |
| Evaporation rate | : 0.13 (butyl acetate = 1) |
| Flammability (solid, gas) | : Not available. |
| Lower and upper explosive (flammable) limits | Lower: 1\% <br> Upper: 8.8\% |

## Section 10. Stability and reactivity

## Reactivity

## Chemical stability : The product is stable.

Possibility of hazardous reactions

## Conditions to avoid

: No specific test data related to reactivity available for this product or its ingredients.
: Under normal conditions of storage and use, hazardous reactions will not occur.
: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas.
: Reactive or incompatible with the following materials: oxidizing materials
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Hazardous decomposition products

## Section 11. Toxicological information

## Information on toxicological effects

## Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |

: No known significant effects or critical hazards.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

Section 14. I ransport intormation

| Additional information | This product may be re-classified as "Combustible Liquid," unless transported by vessel or aircraft. Non-bulk packages (less than or equal to 119 gal ) of combustible liquids are not regulated as hazardous materials. <br> Special provisions Not Applicable | Product classified as per the following sections of the <br> Transportation of Dangerous Goods Regulations: 2. 18-2.19 (Class 3). <br> Special provisions <br> Not Applicable | Special <br> provisions <br> (ERG\#128) | Special <br> provisions <br> Not Applicable | $\begin{aligned} & \text { Emergency } \\ & \text { Schedules (EmS) } \\ & \text { F-E, S-E } \end{aligned}$ |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.
to Annex II of MARPOL 73/78 and the IBC Code

| Proper shipping name | : Not available. |
| :--- | :--- |
| Ship type | : Not available. |
| Pollution category | : Not available. |

## Section 15. Regulatory information

## U.S. Federal regulations

## State regulations

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## SAFETY DATA SHEET

## Section 1. Identification

| Product name | : MINWAX® WOOD FINISH® Natural |

| Emergency telephone number of the company | : (216) 566-2917 |
| Product Information Telephone Number | : 8000 523-9299 |
| Regulatory Information Telephone Number | (216) 566-2902 |
| Transportation Emergency Telephone Number | (800) 424-9300 |

## Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture

GHS label elements Hazard pictograms

Signal word Hazard statements
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: FLAMMABLE LIQUIDS - Category 3 SKIN CORROSION/IRRITATION - Category 2 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation and Narcotic effects) - Category 3 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 ASPIRATION HAZARD - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: $81.2 \%$
:

: Danger
: Flammable liquid and vapor.
Causes serious eye irritation.
Causes skin irritation.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.

## Precautionary statements

General

## Prevention

Response

Storage
Disposal

Supplemental label elements

Hazards not otherwise classified
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosionproof electrical, ventilating, lighting and all material-handling equipment. Use only nonsparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash hands thoroughly after handling.
: Get medical attention if you feel unwell. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
: Store locked up. Store in a well-ventilated place. Keep cool.
Dispose of contents and container in accordance with all local, regional, national and international regulations.

DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

## Section 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of |  |
| identification | : Not available. |

## CAS numberlother identifiers

| Ingredient name | \% by weight | CAS number |
| :--- | :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | 59.9 | $64742-88-7$ |
| Heavy Naphthenic Petroleum Oil | 18.3 | $64742-52-5$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact

Inhalation

Skin contact

Ingestion
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Most important symptoms/effects, acute and delayed

 Potential acute health effectsEye contact : Causes serious eye irritation.

Inhalation : Can cause central nervous system (CNS) depression. May cause drowsiness and dizziness. May cause respiratory irritation.
Skin contact : Causes skin irritation.
Ingestion : Can cause central nervous system (CNS) depression. May be fatal if swallowed and enters airways. Irritating to mouth, throat and stomach.

## Over-exposure signs/symptoms

| Eye contact | : Adverse symptoms may include the following: <br> pain or irritation <br> watering <br> redness |
| :--- | :--- |
| Inhalation | : Adverse symptoms may include the following: <br> respiratory tract irritation <br> coughing <br> nausea or vomiting <br> headache <br> drowsiness/fatigue <br> dizziness/vertigo <br> unconsciousness |
| : Adverse symptoms may include the following: |  |
| irritation |  |
| redness |  |

Indication of immediate medical attention and special treatment needed, if necessary

## Section 4. rirst aid measures

Notes to physician
Specific treatments
Protection of first-aiders
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
: No specific treatment.
: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media
: Use dry chemical, $\mathrm{CO}_{2}$, water spray (fog) or foam.
: Do not use water jet.
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions. protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Do not breathe vapor or mist. Do not swallow. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any
incompatibilities
: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). |
|  | TWA: 100 ppm 8 hours. |
| Heavy Naphthenic Petroleum Oil | TWWA: $00 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | ACGIH TLV (United States, 4/2014). |
|  | TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Inhalable |
|  | fraction |
|  | NIOSH REL (United States, 10/2013). |
|  | TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. Form: Mist |
|  | STEL: $10 \mathrm{mg} / \mathrm{m}^{3} 15 \mathrm{minutes}$. . Form: Mist |
|  | OSHA PEL (United States, 2/2013). |
|  | TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |

| Date of issue/Date of revision | $: 5 / 19 / 2015$. | Date of previous issue | $: 4 / 6 / 2015$. | Version | $: 1.01$ |
| :--- | :--- | :--- | :--- | :--- | :--- |

## Appropriate engineering controls

## Environmental exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legistation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

Eye/face protection

Skin protection
Hand protection

Body protection

## Other skin protection

## Respiratory protection

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.
Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 10. Stability and reactivity

## Reactivity

Chemical stability

Possibility of hazardous reactions

## Conditions to avoid

Incompatible materials
: No specific test data related to reactivity available for this product or its ingredients.
: The product is stable.
: Under normal conditions of storage and use, hazardous reactions will not occur.
: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas.
: Reactive or incompatible with the following materials: oxidizing materials

Hazardous decomposition products
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Other adverse effects : No known significant effects or critical hazards.

## Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

| Additional information | Special provisions Not Applicable | Special <br> provisions <br> Not Applicable | Special provisions (ERG\#128) | Special provisions Not Applicable | Emergency schedules (EmS) F-E, S-E |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available. to Annex II of MARPOL 73/78 and the IBC Code

## Section 15. Regulatory information

## U.S. Federal regulations

## State requlations

California Prop. 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS $®$ ratings are not required on SDSs under 29 CFR 1910.
 program. HMIS® is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between variouslocations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## Section 1. Identification

| Product name | : MINWAX® WOOD FINISH® Red Mahogany |

## Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture

GHS label elements
Hazard pictograms

Signal word Hazard statements
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: FLAMMABLE LIQUIDS - Category 3
SKIN CORROSION/IRRITATION - Category 2
SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A
CARCINOGENICITY - Category 2
SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract irritation and Narcotic effects) - Category 3
SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2
ASPIRATION HAZARD - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: $83.9 \%$
:

: Danger
: Flammable liquid and vapor.
Causes serious eye irritation.
Causes skin irritation.
Suspected of causing cancer.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.

## Precautionary statements

General

Prevention

Response

Storage
Disposal

Supplemental label elements

Hazards not otherwise classified
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only nonsparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash hands thoroughly after handling.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
: Store locked up. Store in a well-ventilated place. Keep cool.
Dispose of contents and container in accordance with all local, regional, national and international regulations.
DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

Section 3. Composition/information on ingredients

| Substance/mixture : Mixture |  |  |
| :---: | :---: | :---: |
| Other means of <br> identification$\quad:$ Not available. |  |  |
| CAS numberlother identifiers |  |  |
| Ingredient name | \% by weight | CAS number |
| Med. Aliphatic Hydrocarbon Solvent Heavy Naphthenic Petroleum Oil Aliphatic Solvent <br> Mineral Spirits (Odorless) <br> Carbon Black | $\begin{aligned} & 44.4 \\ & 12.0 \\ & 10.7 \\ & 1.3 \\ & 0.2 \end{aligned}$ | $\begin{array}{\|l} 64742-88-7 \\ 64742-52-5 \\ 64742-47-8 \\ 64742-47-8 \\ 1333-86-4 \end{array}$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact<br>Inhalation

Skin contact

Ingestion
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, beit or waistband.

## Most important symptoms/effects, acute and delayed Potential acute health effects

| Eye contact | : Causes serious eye irritation. |
| :--- | :--- |
| Inhalation | : Can cause central nervous system (CNS) depression. May cause drowsiness and |
| dizziness. May cause respiratory irritation. |  |
| Skin contact | : Causes skin irritation. |
| Ingestion | : Can cause central nervous system (CNS) depression. May be fatal if swallowed and |
|  | enters airways. Irritating to mouth, throat and stomach. |

## Over-exposure signs/symptoms

| Eye contact | : Adverse symptoms may include the following pain or irritation watering redness |
| :---: | :---: |
| Inhalation | : Adverse symptoms may include the following respiratory tract irritation coughing nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness |
| Skin contact | : Adverse symptoms may include the following irritation redness |
| Ingestion | : Adverse symptoms may include the following. nausea or vomiting |

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician
Specific treatments
Protection of first-aiders
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
: No specific treatment.
: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

| Suitable extinguishing |
| :--- |
| media |

| Unsuitable extinguishing |
| :--- |
| media |

Specific hazards arising from the chemical

## Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions. protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

## Section 6. Accidental release measures

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

## Advice on general occupational hygiene

: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities
: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). |
|  | TWA: 100 ppm 8 hours. |

Form: Inhalable fraction |
| :---: | :---: |

## Appropriate engineering controls

Environmental exposure controls
: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products, before <br> eating, smoking and using the lavatory and at the end of the working period. <br> Appropriate techniques should be used to remove potentially contaminated clothing. <br> Wash contaminated clothing before reusing. Ensure that eyewash stations and safety <br> showers are close to the workstation location. |
| :--- | :--- |
| Eye/face protection |  |
| :Safety eyewear complying with an approved standard should be used when a risk <br> assessment indicates this is necessary to avoid exposure to liquid splashes, mists, <br> gases or dusts. If contact is possible, the following protection should be worn, unless <br> the assessment indicates a higher degree of protection: chemical splash goggles. |  |
| Skin protection |  |
| Hand protection |  |$\quad$| : Chemical-resistant, impervious gloves complying with an approved standard should be |
| :--- |
| worn at all times when handling chemical products if a risk assessment indicates this is |
| necessary. Considering the parameters specified by the glove manufacturer, check |
| during use that the gloves are still retaining their protective properties. It should be |
| noted that the time to breakthrough for any glove material may be different for different |
| glove manufacturers. In the case of mixtures, consisting of several substances, the |
| protection time of the gloves cannot be accurately estimated. |

Section 8. Exposure controls/personal protection

| Respiratory protection | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved <br> standard if a risk assessment indicates this is necessary. Respirator selection must be <br> based on known or anticipated exposure levels, the hazards of the product and the safe <br> working limits of the selected respirator. |
| :--- | :--- |

## Section 10. Stability and reactivity

## Reactivity

Chemical stability : The product is stable.

## Possibility of hazardous

 reactions
## Conditions to avoid

Incompatible materials
: No specific test data related to reactivity available for this product or its ingredients.
: Under normal conditions of storage and use, hazardous reactions will not occur.
: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas.
: Reactive or incompatible with the following materials: oxidizing materials

Other adverse effects
: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.
to Annex II of MARPOL 73/78 and the IBC Code

| Proper shipping name | : Not available. |

## Section 15. Regulatory information

U.S. Federal regulations

## State regulations

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS $®$ is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS $®$ materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## SAFETY DATA SHEET

## Section 1. Identification

## Section 2. Hazards identification

OSHA/HCS status

## Classification of the

 substance or mixtureGHS label elements
Hazard pictograms

Disposal

## Supplemental label elements

## Hazards not otherwise classified

: Flammable liquid and vapor.
Causes serious eye irritation.
Causes skin irritation.
May damage the unborn child.
Suspected of causing cancer.
May be fatal if swallowed and enters airways.
May cause respiratory irritation.
May cause drowsiness and dizziness.
May cause damage to organs through prolonged or repeated exposure.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material-handling equipment. Use only nonsparking tools. Take precautionary measures against static discharge. Keep container tightly closed. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Wash hands thoroughly after handling.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
: Store locked up. Store in a well-ventilated place. Keep cool.
Dispose of contents and container in accordance with all local, regional, national and international regulations.

DANGER: Rags, steel wool, other waste soaked with this product, and sanding residue may spontaneously catch fire if improperly discarded. Immediately place rags, steel wool, other waste soaked with this product, and sanding residue in a sealed, water-filled, metal container. Dispose of in accordance with local fire regulations. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Contains solvents which can cause permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

## Section 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of | : Not available. |
| identification |  |
| CAS number/other identifiers |  |

Section 3. Composition/ıntormation on ingredients

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Med. Aliphatic Hydrocarbon Solvent | 53.8 | $64742-88-7$ |
| Heavy Naphthenic Petroleum Oil | 17.1 | $64742-52-5$ |
| Aliphatic Solvent | 1.4 | $64742-47-8$ |
| 1-Methyl-2-Pyrrolidone | 0.1 | $872-50-4$ |
| Carbon Black | 0.1 | $1333-86-4$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention. |
| :---: | :---: |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| Ingestion | Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Aspiration hazard if swallowed. Can enter lungs and cause damage. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

## Most important symptoms/effects, acute and delayed

Potential acute health effects

| Eye contact | $:$ Causes serious eye irritation. |
| :--- | :--- |
| Inhalation | : Can cause central nervous system (CNS) dep |
| dizziness. May cause respiratory irritation. |  |
| Skin contact | $:$Causes skin irritation. <br> Ingestion |

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing : Use dry chemical, $\mathrm{CO}_{2}$, water spray (fog) or foam.
media
Unsuitable extinguishing media

Specific hazards arising from the chemical

## Hazardous thermal decomposition products

Special protective actions for fire-fighters
: Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Special protective equipment for fire-fighters
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill
: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures

Advice on general
occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not swallow. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in a segregated and approved area.
including any
incompatibilities

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :---: | :---: |
| Med. Aliphatic Hydrocarbon Solvent | OSHA PEL (United States, 2/2013). TWA: 100 ppm 8 hours. TWA: $400 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
| Heavy Naphthenic Petroleum Oil | ACGIH TLV (United States, 4/2014). TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Inhalable fraction |
|  | NIOSH REL (United States, 10/2013). TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. Form: Mist STEL: $10 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. Form: Mist OSHA PEL (United States, 2/2013). TWA: $5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
| Aliphatic Solvent | ACGIH TLV (United States, 4/2014). Absorbed through skin. TWA: $200 \mathrm{mg} / \mathrm{m}^{3}$, (as total hydrocarbon vapor) 8 hours. |
| 1-Methyl-2-Pyrrolidone | AIHA WEEL (United States, 10/2011). Absorbed through skin. TWA: 10 ppm 8 hours. |
| Carbon Black | NIOSH REL (United States, 10/2013). TWA: $3.5 \mathrm{mg} / \mathrm{m}^{3} 10$ hours. TWA: 0.1 mg of PAHs $/ \mathrm{cm}^{3} 10$ hours. OSHA PEL (United States, 2/2013). TWA: $3.5 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. ACGIH TLV (United States, 4/2014). TWA: $3 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Inhalable fraction |

Appropriate engineering controls

## Environmental exposure controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures $\quad$| : Wash hands, forearms and face thoroughly after handling chemical products, before |
| :--- |
| eating, smoking and using the lavatory and at the end of the working period. |
|  |
|  |
|  |
|  |
| Appropriate techniques should be used to remove potentially contaminated clothing. |
| Wash contaminated clothing before reusing. Ensure that eyewash stations and safety |
| showers are close to the workstation location. |

| Date of issue/Date of revision | $: 7 / 30 / 2015$. | Date of previous issue | $: 5 / 19 / 2015$. | Version | $: 1.04$ | $6 / 13$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

Section 8. Exposure controls/personal protection

Eye/face protection

Skin protection Hand protection

Body protection

Other skin protection

Respiratory protection
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

| Appearance |  |
| :---: | :---: |
| Physical state | : Liquid. |
| Color | : Not available. |

Mobility in soil

## Section 12. Ecological intormation

Soil/water partition<br>: Not available. coefficient (Koc)

Other adverse effects
: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|  | DOT <br> Classification | TDG Classification | Mexico Classification | IATA | IMDG |
| :---: | :---: | :---: | :---: | :---: | :---: |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.

## Section 15. Regulatory information

## U.S. Federal regulations <br> :

State regulations
California Prop. 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

Caution: HMIS $®$ ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS $®$ ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS $\circledR^{\circledR}$ ratings are to be used with a fully implemented HMIS $\left.{ }^{( }\right)$ program. HMIS® is a registered mark of the National Paint \& Coatings Association (NPCA). HMIS $®$ materials may be purchased exclusively from J. J. Keller (800) 327-6868.
The customer is responsible for determining the PPE code for this material.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## SECTION I - IDENTIFICATION

## Material Name

MOD PODGE ACRYLIC SEALER, GLUE AND FINISH

## Company Information

Plaid Enterprises, Inc.
3225 Westech Drive
Norcross, GA 30092
Phone: 1-678-291-8259
Fax: 1-678-291-8363
Email: htrundle@PlaidOnline.Com
For transportation emergencies only call: 770-630-0380
For health emergencies call the Poison Control Center: 1-800-222-1222

## SECTION II - HAZARDS IDENTIFICATION

Classification in accordance with paragraph (d) of 29 CFR 1910.1200.
There are no GHS label elements.
PRIMARY ROUTES OF ENTRY: INHALATION, INGESTION, EYE, SKIN
EFFECTS AND SYMPTOMS OF ACUTE EXPOSURE: NONE EXPECTED
EFFECTS AND SYMPTOMS OF CHRONIC EXPOSURE: NONE EXPECTED
CARCINOGEN LISTING: NTP: NO IARC: NO OSHA: NO
SEE SECTION III FOR COMPONENTS AFFECTED
MEDICAL CONDITIONS USUALLY AGGRAVATED BY OVER EXPOSURE TO THIS PRODUCT: NONE

## SECTION III - COMPOSITION / INFORMATION ON HAZARDOUS INGREDIENTS

$\frac{\text { Hazardous Ingredients }}{\text { None }} \xrightarrow{\text { CAS/EC \# }}$| PEL/TLV <br> $(\mathrm{MG} / \mathrm{M} \#)$ |
| :--- | | Max Weight |
| :--- |
| \% WTP | IARC

## SECTION IV - FIRST AID MEASURES

EYES: Flush eyes with a large amount of water for at least 15 minutes. Consult a physician if irritation persists.
SKIN: Wash affected skin areas thoroughly with soap and water. Consult a physician if irritation persists.
INGESTION: Small amounts are not anticipated to be harmful. Give 2 glasses of water to drink.
INHALATION: Remove to fresh air. Get medical attention if breathing is difficult.
NOTE TO PHYSICIANS: Please contact your local poison control center for information regarding this product.

## SECTION V - FIRE FIGHTING MEASURES

FLASH POINT (METHOD): N/A
EXPLOSION LIMITS IN AIR (\% BY VOLUME): NOT EXPLOSIVE
EXTINGUISHING MEDIA: NO SPECIAL MEDIA REQUIRED
FIRE FIGHTING PROCEDURES: NO SPECIAL FIRE FIGHTING PROCEDURES REQUIRED
UNUSUAL FIRE \& EXPLOSION HAZARDS: NOT COMBUSTIBLE

## SECTION VI - ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE A MATERIAL IS SPILLED: Clean up in accordance with all applicable regulations. Absorb spillage with noncombustible, absorbent material. For waste disposal, see Section XIII

## SECTION VII - HANDLING AND STORAGE

PRECAUTIONS TO BE TAKEN DURING STORAGE AND HANDLING: Good industrial hygiene practice requires that exposure be maintained below the TLV. This is preferably achieved through the provision of adequate ventilation. When exposure cannot be adequately controlled in this way, personal respiratory protection should be employed.

## SECTION VIII - EXPOSURE CONTROLS / PERSONAL PROTECTION

RESPIRATORY PROTECTION AND SPECIAL VENTILATION REQUIREMENTS: NONE REQUIRED
OTHER PROTECTIVE EQUIPMENT (GLOVES, GOGGLES, ETC): NONE REQUIRED
WORK/HYGIENE PRACTICES: NONE REQUIRED
ENGINEERING CONTROLS: NONE REQUIRED

## SECTION IX - PHYSICAL AND CHEMICAL PROPERTIES

BOILING POINT: N/A
VAPOR PRESSURE: N/A
SPECIFIC VAPOR DENSITY (AIR=1): N/A
SOLUBILITY IN WATER: N/A

MELTING POINT: N/A

SPECIFIC GRAVITY: N/A
REACTIVITY IN WATER: NON-REACTIVE

SECTION X - STABILITY AND REACTIVITY

HAZARDOUS POLYMERIZATION PRODUCTS: N/A
STABILITY: STABLE CONDITIONS TO AVOID: N/A
INCOMPATIBILITY (MATERIALS TO AVOID): N/A
HAZARDOUS DECOMPOSITION PRODUCTS: N/A

## SECTION XI - TOXICOLOGICAL INFORMATION

[^10]
## SECTION XIII - DISPOSAL CONSIDERATIONS

RCRA HAZARD CLASS (40 CFR 261): THIS PRODUCT IS NOT CLASSIFIED AS A HAZARDOUS WASTE.
WASTE DISPOSAL METHOD: DISPOSE OF IN ACCORDANCE WITH FEDERAL, STATE AND LOCAL REGULATIONS.

## SECTION XIV - TRANSPORTATION INFORMATION

U.S. DOT (49 CFR 172.101): THIS IS NOT A HAZARDOUS MATERIAL AS CLASSIFIED BY CFR 172.101.

## SECTION XV - REGULATORY INFORMATION

CONTENTS OF THIS SDS COMPLY WITH OSHA HAZARD COMMUNICATION STANDARD 29 CFR 1910.1200

## EPA SARA TITLE III CHEMICAL LISTINGS:

SECTION 302.4 EXTREMELY HAZARDOUS SUBSTANCES (40 CFR 355):
NONE
SECTION 313 TOXIC CHEMICALS (40 CFR 372):
NONE
INTERNATIONAL REGULATIONS
CANADIAN WHMIS: THIS PRODUCT IS A CONTROLLED PRODUCT UNDER CANADA'S WORKPLACE HAZARDOUS MATERIALS INFORMATION SYSTEM. IT CONTAINS THE FOLLOWING TOXIC OR HIGHLY TOXIC MATERIALS:
NONE
SUPPLEMENTAL STATE COMPLIANCE INFORMATION:
THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED UNDER NEW JERSEY'S RIGHT TO KNOW PROGRAM: NONE

THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) REQUIRING NOTIFICATION TO THE STATE OF WASHINGTON UNDER THEIR CHILDREN'S SAFE PRODUCTS ACT:
NONE
THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED IN FLORIDA'S TOXIC SUBSTANCE LIST:
NONE
THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED IN MAINE'S PRIORITY CHEMICAL LIST:
NONE
THIS PRODUCT CONTAINS THE FOLLOWING CHEMICALS CONSIDERED BY VERMONT AS BEING OF VERY HIGH CONCERN TO CHILDREN:
NONE
THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED IN MASSACHUSETTS HAZARDOUS SUBSTANCE LIST: NONE

THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED ON MICHIGAN'S CRITICAL MATERIALS REGISTER: NONE

THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED ON MINNESOTA'S HAZARDOUS SUBSTANCES LIST: NONE

THIS PRODUCT CONTAINS THE FOLLOWING CHEMICAL(S) LISTED IN PENNSYLVANIA'S HAZARDOUS SUBSTANCES LIST: NONE

Under CPSC's consumer product regulations (16CFR1500.3 and 150014), this product has the following required acute and chronic hazard labeling:

NONE

## SECTION XVI - OTHER INFORMATION

Disclaimer: We believe the statements, technical information and recommendations contained herein are reliable, but they are given without warranty or guarantee of any kind. The information contained in this document applies to this specific material as supplied. It may not be valid for this material if it is used in combination with any other materials. It is the user's responsibility to satisfy oneself as to the suitability and completeness of this information for the user's own particular use.

Material Safety Data Sheet

## SECTION 3－HAZARD IDENTIFICATION

Emergency Overview：These materials are pigmented topcoats．They are stable，non－ flammable，opaque flowable liquids with flash points above $200^{\circ} \mathrm{F}$ ．

## Primary Routes of Exposure：

 InhalationSkin contact
Eye contact
Ingestion

## Potential Acute Health Effects：

Inhalation：May cause respiratory tract irritation Eye：May cause eye irritation
Skin：$\quad$ Prolonged or repeated skin contact may cause irritation
Ingestion：Not hazardous under intended use conditions
Potential Chronic Health Effects：None known

## SECTION 4 －First AID MEASURES

Eye contact：Flush eyes with clean water for 15 minutes．Seek medical attention．
Skin contact：Thoroughly wash with soap and warm water before the coating dries．
Inhalation：If irritation occurs，remove to fresh air and seek medical attention if cough or other symptoms develop．

Ingestion：Do not induce vomiting．Seek medical attention．
Note to Physician：Treat symptomatically．This material is basically non－toxic．A small quantity（approximately one tablespoon）is unlikely to cause harm．

## SECTION 5 －Fire Fighting MEASURES

## Flash Point（method）：$\quad \mathrm{N} / \mathrm{D}$（est．$>200^{\circ} \mathrm{F}$ ）

Extinguishing Media：Use water spray，foam，or carbon dioxide when fighting fires involving this material．

Protection of Firefighters：As in any fire，wear NIOSH approved self－contained breathing apparatus pressure－demand and full protective gear．

Fire and Explosion Hazards：Material will not burn．

## SECTION 6－ACCIDENTAL RELEASE MEASURES

Personal Precautions：Slippery：can cause slips and falls if walked on．
Clean Up Methods：Contain spill with sand or other diking material．Soak up small spills with absorbent material．Dispose of in accordance with federal，state，and local regulations．
（See also Section 8 for information on Exposure Controls and Personal Protective Equipment．）

## SECTION 7 －HANDLING AND STORAGE

Handling：Avoid prolonged or repeated contact with skin．Avoid contact with eyes．Wash hands with soap and warm water after use．

Storage：Keep from freezing．Keep container closed when not in use．Do not reuse container and properly dispose of empty containers．

# $m \mid m$ <br> MロロERN M円STERS。 <br> Material Safety Data Sheet 

## SECTION 8 －EXPOSURE CONTROLS／PERSONAL PROTECTION

Engineering Controls：If necessary，use general room dilution ventilation，process enclosures，local exhaust ventilation，or other engineering controls to control airborne levels below recommended exposure limits．

## Personal Protective Equipment（PPE）：

Eye Protection：Eye contact should be avoided．Where eye contact is likely，wear chemical splash goggles and／or full－face shield．

Skin Protection：Wear gloves to prevent prolonged skin contact．
Respiratory Protection：None needed under normally anticipated use conditions．If vapor levels exceed allowable limits，wear a NIOSH approved air－purifying respirator with an organic vapor cartridge．

General Hygiene Practices：Avoid eye and skin contact．Avoid breathing vapors．Wash hands with soap and warm water before eating，drinking，or using the toilet．

## SECTION 9 －PHYSICAL DATA

Appearance：Opaque flowable liquid Odor：Mild odor
Physical State：Liquid pH：5．0－10．0
Boiling Point：Above $200^{\circ} \mathrm{F}$
Melting Point：$\quad<32^{\circ} \mathrm{F}$
Vapor Pressure：N／D
Vapor Density：N／D
Odor Threshold：N／D
Viscosity：$\quad 1,000-25,000 \mathrm{cps}$
Solubility in Water：Dilutable in water
Specific Gravity $($ water $=1): 1.1-1.5$
Coating VOC：Coating，less water，contains less than 150 grams per liter Volatile Organic Compounds．

## SECTION 10 －STABILITY AND REACTIVITY

Stability：Stable，non－reactive Incompatibility：Strong acids and strong bases
Hazardous Polymerization：Will not occur
Hazardous Decomposition Products：None known

## SECTION 11 －TOXICOLOGICAL INFORMATION

Carcinogenicity：This material is not considered a carcinogen by IARC or NTP and is not regulated as a carcinogen by OSHA．
（See also Section 15 for related information．）

## SECTION 12 －ECOLOGICAL INFORMATION

Chemical Fate and Effects：No data available．

## SECTION 13 －DISPOSAL CONSIDERATIONS

Recommended Waste Disposal Method：This material is not considered hazardous waste under Federal Hazardous Waste Regulations（40CFR 261）．However，state and local requirements for waste disposal may be more restrictive or otherwise differ from federal regulations．Chemical additions，processing，or otherwise altering this material may render the waste management information presented in this MSDS incomplete，inaccurate，or otherwise inappropriate．Consult all applicable federal，state，and local regulations regarding the proper disposal of this material．

## SECTION 14 －TRANSPORTATION INFORMATION

Regulated by the DOT：Not regulated
DOT Proper Shipping Name：Paint

# $m \mid M$ <br> MロロERN M円のTERS。 <br> Material Safety Data Sheet 

## SECTION 15 －REGULATORY INFORMATION

## CERCLA：

The Comprehensive Environmental Response Compensation and Liability Act of 1980 （CERCLA）requires notification to the National Response Center for releases of quantities of Hazardous Substances equal to or greater than the reportable quantities（RQs）in 40 CFR 302.4 （for CERCLA 102）．

Components present in this product at a level which could require reporting under the statute are：
$\frac{\text { Chemical Name }}{\text { none }} \quad \frac{\text { CAS \＃}}{\text { N／A }} \quad \frac{\text { Maximum Concentration（Wt．\％）}}{\text { N／A }}$

## SARA Title III，section 311／312：

The Superfund Amendments and Reauthorization Act of 1986 （SARA）Title III requires emergency planning based on Threshold Planning Quantities（TPQs）and release reporting based on Reportable Quantities（RQs）in 40 CFR 355 （used for SARA 302，304，311，and 312）．

Components present in this product at a level which could require reporting under the statute are：
$\frac{\text { Chemical Name }}{\text { none }} \quad \frac{\text { CAS \＃}}{\text { N／A }} \quad \frac{\text { Maximum Concentration（Wt．\％）}}{\text { N／A }}$

## SARA Title III，section 313：

The Superfund Amendments and Reauthorization Act of 1986 （SARA）Title III requires submission of annual reports of release of toxic chemicals that appear in 40 CFR 372 （for SARA 313）．
Components present in this product at a level which could require reporting under the statute are：

| Chemical Name | CAS \＃ | Maximum Concentration（Wt．\％） |
| :--- | :--- | :---: |
| Crystalline Silica（Quartz） | $14808-60-7$ | $2 \%$ |

## TSCA：

The components of this mixture are listed in the Toxic Substance Control Act Inventory of Chemical Substances．

This product does not contain any chemicals that would require export notification under Section 12（b）of the TSCA regulation．

## Signal Word

Danger

## Hazard Statements

Flammable solid.
Causes serious eye irritation.

## Precautionary Statements - Prevention

Keep away from heat/spark/open flames/hot surfaces.
No smoking.
Use only in a well ventilated area.

## Precautionary Statements - Response

If case of fire: use appropriate media to extinguish.
If in eyes: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
Continue rinsing. Immediately call a poison control center.
If inhaled: remove victim to fresh air and keep comfortable for breathing.

## Precautionary Statement - Disposal

Dispose of waste and residues in accordance with local authority requirements.

## Hazards not otherwise classified (HNOC)

Not applicable

## Other information

Not know.

## mooremedical

| Title: Safety Data Sheet - Alcohol Prep Pad | SDS -002 |
| :--- | :---: |

### 3.0 COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms None
Substance: Mixture

| CHEMICAL NAME | CAS NO. | WEIGHT (\%) |
| :---: | :---: | :---: |
| Isopropyl Alcohol | $67-63-0$ | 70 |
| Purified Water | $7732-18-5$ | 30 |

### 4.0 FIRST AID MEASURES

## DESCRIPTION OF FIRST AID MEASURES

| General Advice | Keep victim warm and quiet. Monitor for systemic secondary <br> effects on liver and kidney. Ensure that medical personnel <br> are aware o the material (s) involved and take precautions to <br> protect themselves. |
| :--- | :--- |
| Eye Contact | Immediately flush with plenty of water. After initial flushing <br> remove any contact lenses and continue flushing for at least <br> 15 minutes. Seek immediate medical attention/advice. |
| Skin Contact | In case of skin irritation, discontinue use of product. Wash off <br> with soap and water. Get medical attention if irritation <br> develops and persists. |
| Inhalation | If breathing is difficult, remove to fresh air and keep at rest in <br> a position comfortable for breathing. Call a physician if <br> symptoms develop or persist. |
| Ingestion | If swallowed, contact a Poison Control Center immediately. <br> Immediately rinse mouth out with water. Do not induce |
| vomiting. If vomiting occurs naturally, have victim lean |  |
| forward to reduce risk of aspiration. Never give anything by |  |
| mouth if victim is unconscious or is convulsing. |  |

## MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED

## Symptoms

May include stinging, tearing, redness, swelling and blurred vision.

| Title: Safety Data Sheet - Alcohol Prep Pad | SDS -002 |
| :--- | :---: |

Provide general supportive measures and treat asymptomatically.

### 5.0 FIRE-FIGHTING MEASURES

## SUITABLE EXTINGUISHING MEDIA

Use foam, dry chemical or carbon dioxide. Be aware of possibility of re-ignition. Keep containers and surroundings cool with water spray.

Unsuitable extinguishing media: None

## SPECIFIC HAZARDS ARISING FROM THE CHEMICAL

During fire, gases hazardous to health may be formed.

## Explosion data

Sensitivity to Mechanical Impact None
Sensitivity to Static Discharge None

## PROTECTIVE EQUIPMENT AND PRECAUTIONS FOR FIREFIGHTERS

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection.

In case of fire of explosion, do not breather fumes. In the event of fire, use water spray to cool fire exposed surfaces and to protect personnel. Shut off fuel to the fire. If a leak or spill has not ignited, use water spray to disperse the vapors.

### 6.0 ACCIDENTAL RELEASE MEASURES

## PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES

| Personal Precautions | Wear appropriate protective equipment and clothing during <br> clean up. |
| :--- | :--- |
| Other Information | Eliminate all sources of ignition. |
| For Emergency Responders | Use personal protective equipment as required. Vapors can <br> accumulate in low areas. Consider need for evacuation. |

| Title: Safety Data Sheet - Alcohol Prep Pad | SDS -002 |
| :--- | :---: |

ENVIRONMENTAL PRECAUTIONS Collect spillage. Prevent material from entering water

## METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP

Methods for Containment

## Methods for Cleaning up

Contain and absorb using earth, sand or inert materials. Transfer into suitable containers for recovery or disposal.

N/A

### 7.0 HANDLING AND STORAGE

## PRECAUTIONS FOR SAFE HANDLING

## Advice on Safe Handling

## CONDITIONS FOR SAFE STORAGE

## Storage Conditions

Incompatible Materials

Do not handle near open flame or heat sources. Do not use with electrocautery procedures. Use according to package label instructions. Discard after single use. Avoid inhaling vapor and contact with eyes.

Keep container closed. Store in a cool, dry, well ventilated place. Keep away from sources of ignition.

N/A

### 8.0 EXPOSURE CONTROLS/PERSONAL PROTECTION

## CONTROL PARAMETERS

## Exposure Guidelines

OSHA PEL Limits for Air contaminants Isopropanol $980 \mathrm{mg} / \mathrm{m} 3,400 \mathrm{ppm}$
US ACGIH Threshold Limit Values

US NIOSH

Isopropanol STEL 400 ppm
Isopropanol TWA 200 ppm
Isopropanol STEL $1225 \mathrm{mg} / \mathrm{m} 3$, 500 ppm
Isopropanol TWA $980 \mathrm{mg} / \mathrm{m} 3,400 \mathrm{ppm}$

### 10.0 STABILITY AND REACTIVITY

## CHEMICAL STABILITY

POSSIBILITY OF HAZARDOUS REACTIONS

Hazardous polymerization

CONDITIONS TO AVOID

INCOMPATIBLE MATERIALS

HAZARDOUS DECOMPOSITION PRODUCTS

Stable under normal condition of handling, use and transport.

None under normal processing.

Does not occur.

Heat, flames and sparks. Avoid temperatures exceeding flash point.

Strong oxidizing agents.

May include but are not limited to oxides of carbon.

### 11.0 TOXICOLOGICAL INFORMATION

## INFORMATION ON LIKELY ROUTES OF EXPOSURE

## Product Information

Available toxicological data for individual ingredients are summarized below.

## mooremedical

Supporting Health \& Care

| Title: Safety Data Sheet - Alcohol Prep Pad | SDS -002 |
| :--- | :---: |

| Inhalation | Vapors have a narcotic effect and may cause headache, <br> fatigue, dizziness and nausea. Health injuries are not known |
| :--- | :--- |
| or expected under normal use. |  |
| Eye Contact | Causes serious eye irritation. |
| Skin Contact | Not expected to be a primary skin irritant. |
| Ingestion | Not applicable under normal conditions of use. |

| Chemical Name | Oral LD50 | Dermal LD50 | Inhalation LD50 |
| :--- | :---: | :---: | :---: |
| Isopropanol <br> $67-63-0$ | $5045 \mathrm{mg} / \mathrm{kg}$ | Eye $12800 \mathrm{mg} / \mathrm{kg}$ | 16970 |

INFORMATION ON TOXICOLOGICAL EFFECTS No information available.

## DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE

## Skin corrosion/irritation

Serious eye damage/eye irritation
Respiratory or skin sensitization
Sensitization
Germ cell mutagenicity
Carcinogenicity

Prolonged skin contact may cause temporary irritation.
Causes serious irritation to the eye
Not expected to cause skin sensitization.
No sensitization responses were observed.
Not expected to have chronic health effects.
This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC , ACGHI or NTP.

US OSHA Specifically Regualted Substances Not listed

Reproductivity Toxicity
STOT- single exposure
STOT - repeated exposure
Chronic Toxicity
Sub-chronic Toxicity
Neurological Effects

Finished product not expected to have chronic health effects.
Narcotic effects.
Not classified.
No known effect.
No known effect.
Not applicable.

Not available.

## SAFETYDATASHEET

## 4. FIRST-AID MEASURES

Contaminated individuals of chemical exposure must be taken for medical attention if any adverse effect occurs. Rescuers should be taken for medical attention, if necessary. Take copy of label and MSDS to health professional with contaminated individual.

SKINCONTACT: Wash affected area immediately soap and water. Remove contaminated clothing and footware. If symptoms develop and persist, get medical attention.

EYECONTACT: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get immediate medical attention.

INHALATION:Move to fresh air. If symptoms develop and persist, get medical attention.

INGESTION: Routine use of this product is not expected to cause any situation which could lead to ingestion. If this product is swallowed, CALL PHYSICIAN OR POISON CONTROL CENTER FOR MOST CURRENT INFORMATION. If professional advice is not available, do not induce vomiting. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or unable to swallow.

MEDICALCONDITIONSAGGRAVATEDBYEXPOSURE: None known.
RECOMMENDATIONSTOPHYSICIANS: Treat symptoms and eliminate overexposure.

## 5. FIRE-FIGHTING MEASURES

FLASHPOINT:Aqueous. Does not flash

## AUTOIGNITIONTEMPERATURE: Not Established

FLAMMABLELIMITS(inairbyvolume.\%): Lower:NA Upper:NA FIRE EXTINGUISHING MATERIALS: Use fire extinguishing materials appropriate for surrounding fire including water spray (for cooling), dry extinguishing media, carbon dioxide, foam.

UNUSUAL FIRE AND EXPLOSION HAZARDS: This product has no unusual fire or explosion hazards..

Explosion Sensitivity to Mechanical Impact: Not Sensitive
Explosion Sensitivity to Static Discharge: Not Sensitive

SPECIAL FIRE-FIGHTING PROCEDURES: Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent run off water from entering storm drains, bodies of water, or other environmentally sensitive areas.

## SAFETYDATASHEET

## 6. ACCIDENTAL RELEASE MEASURES

SPILL AND LEAK RESPONSE: Personnel should be trained for spill response operations. Wear appropriate protective equipment such as rubber gloves, safety glasses, and appropriate body protection. Stop discharge if safe to do so.
CLEAN-UP METHOD: Wear suitable protective clothing, gloves and eye/face protection. Avoid skin contact and inhalation of vapors during disposal of spills. Confine in small space area; use absorbent to clean up.
DISPOSAL: Dispose of in accordance with applicable Federal, State, and local procedures (see Section13, Disposal Considerations). Dispose of recovered material and report spill per regulatory requirements. It is recommended you contact local authorities to determine if there may be other local reporting requirements.

## 7. HANDLING and STORAGE

WORK PRACTICES AND HYGIENE PRACTICES:As with all chemicals, avoid getting this product ON YOU or IN YOU. Wash thoroughly after handling this product. Do not eat, drink, smoke, or apply cosmetics while handling this product. Use in a well-ventilated location. Remove contaminated clothing immediately.
STORAGE AND HANDLING PRACTICES: All employees who handle this material should be trained to handle it safely. Avoid contact with eyes, skin and clothing. Keep the container tightly closed and dry.
EMPTY CONTAINER PRECAUTION: Attention! Follow label warnings even after container is emptied since empty containers may retain product residues. Do not reuse empty container without professional cleaning for food, clothing, or products for humans or animal consumption, or where skin contact can occur.

## 8. EXPOSURE CONTROLS- PERSONAL PROTECTION

VENTILATION AND ENGINEERING CONTROLS: Use with adequate ventilation to ensure exposure levels are maintained below the limits provided below. Use local exhaust ventilation, and process enclosure if necessary, to control airborne dust. Ensure eyewash/safety shower stations are available near areas where this product is used.

EXPOSURELIMITS/GUIDELINES:

| ComponentName | CAS\# | ACGIH-TLV's | OSHA PEL's | Other |
| :---: | :---: | :---: | :---: | :---: |
| None | N/A | N/A | N/A | N/A |

Currently, International exposure limits are established for the components of this product. Please check with competent authority in each country for the most recent limits in place.

## SAFETYDATASHEET

The following information on appropriate Personal Protective Equipment is provided to assist employers in complying with OSHA regulations found in 29 CFR Subpart I (beginning at 1910.132) or equivalent standard of Canada, or standards of EU member states (including EN 149 for respiratory PPE, and EN 166 for face/eye protection), and those of Japan. Please reference applicable regulations and standards for relevant details.

RESPIRATORYPROTECTION: If necessary, use only respiratory protection authorized in the U.S. Federal OSHA Respiratory Protection Standard (29CFR1910.134), equivalent U.S. State standards, Canadian CSA Standard Z94.4-93, the European Standard EN149, or EU member states. Oxygen levels below $19.5 \%$ are considered IDLH by OSHA. In such atmospheres, use of a full-face piece pressure/demand SCBA or a full face piece, supplied air respirator with auxiliary selfcontained air supply is required under U.S. Federal OSHA's Respiratory Protection Standard (1910.134-1998) or the regulations of various U.S. States, Canada, EU Member States, or those of Japan. Air-purifying respirators with dust/mist/fume filters are recommended if operations may produce mists or sprays from this product.<br>EYE PROTECTION: Full face protection should be used if the potential for splashing or spraying of products exist.If necessary, refer to U.S. OSHA 29 CFR 1910.133, Canadian Standards, and the European Standard EN166, Australian Standards, or relevant Japanese Standards.<br>BODY PROTECTION: Work clothing sufficient to prevent skin contact. If necessary, refer to appropriate Standards of Canada, or appropriate Standards of the EU, Australian Standards, or relevant Japanese Standards

## 9. PHYSICAL and CHEMICAL PROPERTIES

APPEARANCE, ODOR and COLOR: White liquid, cherry odor.
BOILING POINT/RANGE: $>212^{\circ} \mathrm{F}\left(>100^{\circ} \mathrm{C}\right) \quad \mathrm{pH}: 8.0$ to 9.0
MELTING POINT/RANGE: $32^{\circ} \mathrm{F}\left(0^{\circ} \mathrm{C}\right)$ (Freezing point) EVAPORATIONRATE(n-BuAc=1):same as water
SPECIFICGRAVITY@20º $\mathbf{\circ}$ 1.01-1.02 (water=1) SOLUBILITY IN WATER: Dilutable

VAPOR DENSITY:N/A
ODOR THRESHOLD: N/A
VOC:<0.009\% (Calculated)

## 10. STABILITY and REACTIVITY

STABILITY: Stable.
DECOMPOSITIONPRODUCTS: Thermal degradation produces carbon monoxide, carbon dioxide and other low molecular weight hydrocarbons
MATERIALS WITH WHICH SUBSTANCE IS INCOMPATIBLE: The product may react to strong acids, bases and oxidizing agents.
POSSIBILITY OF HAZARDOUS REACTIONS: Will not occur. CONDITIONS TO AVOID: None known.

## 11. TOXICOLOGICAL INFORMATION

TOXICITY DATA: No LD50 Data Available for this product
SUSPECTED CANCER AGENT: The components of this product are not listed by agencies tracking the carcinogenic potential of chemical compounds as follows:

## Carcinogenity

NTPRegulated No
IARCRegulated No
OSHARegulated No

## SAFETYDATASHEET

#### Abstract

IRITANCY OF PRODUCT: Not established. SENSITIZATION TO THE PRODUCT: These products are not known to cause human skin or respiratory sensitization. REPRODUCTIVE TOXICITY INFORMATION: Listed below is information concerning the effects of this product and its components on the human reproductive system.

Mutagenicity: The components of this product are not reported to produce mutagenic effects in humans. Embryotoxicity: The components of this product are not reported to produce embryotoxic effects in humans. Teratogenicity: The components of this product are not reported to produce teratogenicity effects inhumans. ReproductiveToxicity: The components of this product are not reported to produce reproductive effects in humans.

## 12. ECOLOGICAL INFORMATION

ALL WORK PRACTICES MUST BE AIMED AT ELIMINATING ENVIRONMENTAL CONTAMINATION.
MOBILITY IN SOIL: This product has not been tested for mobility in soil.
PERSISTENCE/DEGRADABILITY: This product have not been tested for persistence or biodegradability. The components may slowly degrade in the environment and form a variety of organic and inorganic materials; however, no specific information is known.
ENVIRONMENTAL STABILITY: Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways
BIOACCUMULATION/ACCUMULATION: These products have not been tested for bio-accumulation potential.

## 13. DISPOSAL CONSIDERATIONS

PREPARING WASTES FOR DISPOSAL: Waste disposal must be in accordance with appropriate U.S. Federal, State, and local regulations, those of Canada, Australia, EU Member States and Japan.

## 14. TRANSPORTATION INFORMATION

## US DOT, IATA, IMO, ADR:

U.S. DEPARTMENT OF TRANSPORTATION (DOT) SHIPPING REGULATIONS: This product is not classified as dangerous goods, per U.S. DOT regulations, under 49 CFR 172.101. Non-Regulated
TRANSPORT CANADA, TRANSPORTATION OF DANGEROUS GOODS REGULATIONS: These products are not classified as Dangerous Goods, per regulations of Transport Canada.
INTERNATIONAL AIR TRANSPORT ASSOCIATION (IATA): These products are not classified as Dangerous Goods, by rules of IATA:
INTERNATIONAL MARITIME ORGANIZATION (IMO) DESIGNATION: These products are not classified as Dangerous Goods by the International Maritime Organization
EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY ROAD (ADR): These products are not classified by the United Nations Economic Commission for Europe to be dangerous goods

## 15. REGULATORY INFORMATION

## UNITED STATES REGULATIONS:

U.S. SARA REPORTING REQUIREMENTS: The components of these products are not subject to the reporting requirements of Sections 302, 304, and 313 of Title III of the Superfund Amendments and Reauthorization Act.
U.S. SARA THRESHOLD PLANNING QUANTITY: There are no specific Threshold Planning Quantities for any component of these products. The default Federal MSDS submission and inventory requirement filing threshold of $10,000 \mathrm{lb}(4,540 \mathrm{~kg})$ therefore applies, per 40 CFR 370.20.

## SAFETYDATASHEET

## 2. Hazard(s) identification

Physical hazards
Health hazards

Environmental hazards

OSHA defined hazards
Label elements

Signal word
Hazard statement

Flammable aerosols Category 1
Acute toxicity, oral Category 4
Skin corrosion/irritation Category 2
Serious eye damage/eye irritation Category 2B
Carcinogenicity Category 1B
Specific target organ toxicity, single exposure Category 3 narcotic effects
Specific target organ toxicity, repeated Category 2
exposure
Hazardous to the aquatic environment, acute Category 1 hazard
Hazardous to the aquatic environment, Category 1 long-term hazard
Not classified.

## Danger

Extremely flammable aerosol. Harmful if swallowed. Causes skin irritation. Causes eye irritation. May cause drowsiness or dizziness. May cause cancer. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

## Precautionary statement Prevention

Storage
Disposal
Hazard(s) not otherwise classified (HNOC)
Supplemental information

Response If swallowed: Call a poison center/doctor if you feel unwell. If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell. Rinse mouth. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Collect spillage.
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.

Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding $50^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$.
Dispose of contents/container in accordance with local/regional/national/international regulations.
None known.
$81.58 \%$ of the mixture consists of component(s) of unknown acute oral toxicity. $26.34 \%$ of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. $26.34 \%$ of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

## 3. Composition/information on ingredients

## Mixtures

| Chemical name | Common name and synonyms | CAS number | \% |
| :---: | :---: | :---: | :---: |
| Heptane |  | 142-82-5 | 70-<80 |
| ETHANE, 1,1'-OXYBIS- |  | 60-29-7 | 10-<20 |
| Carbon Dioxide |  | 124-38-9 | $5-<10$ |
| Distillates (petroleum), <br> Hydrotreated Light Naphthenic |  | 64742-53-6 | < 1 |
| Hydrotreated Heavy Naphthenic |  | 64742-52-5 | $<1$ |

Distillate (petroleum)
*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

## 4. First-aid measures

## Inhalation

Skin contact
Eye contact
Ingestion

## Most important

symptoms/effects, acute and delayed
Indication of immediate medical attention and special treatment needed
General information

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.
May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort. Skin irritation. May cause redness and pain.
Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

## 5. Fire-fighting measures

Suitable extinguishing media
Unsuitable extinguishing media

Powder. Alcohol resistant foam. Carbon dioxide (CO2).
Do not use water jet as an extinguisher, as this will spread the fire.

| Material name: Motor Medic Thrust Starting Fluid |  | sos us |
| :--- | :--- | :--- |
| M3815 | Version \#: 05 | Revision date: $11-03-2015$ |
| Issue date: $05-07-2015$ | $2 / 10$ |  |

Specific hazards arising from the chemical
Special protective equipment and precautions for firefighters

## Fire fighting

equipment/instructions

## Specific methods

## General fire hazards

Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.
Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.
Extremely flammable aerosol.

## 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Methods and materials for containment and cleaning up

## Environmental precautions

## 7. Handling and storage

Precautions for safe handling

Conditions for safe storage, including any incompatibilities

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Refer to attached safety data sheets and/or instructions for use. Keep combustibles (wood, paper, oil, etc.) away from spilled material. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.
Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Do not taste or swallow. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.
Level 3 Aerosol.
Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding $50^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

## Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

|  | Type | Value | Form |
| :--- | :--- | :--- | :--- |
| Carbon Dioxide (CAS <br> $124-38-9)$ | PEL | $9000 \mathrm{mg} / \mathrm{m} 3$ |  |
| Distillates (petroleum),  5000 ppm |  |  |  |
| Hydrotreated Light <br> Naphthenic (CAS <br> $64742-53-6)$ | PEL | $5 \mathrm{mg} / \mathrm{m} 3$ | Mist. |

[^12]

| Biological limit values | No biological exposure limits noted for the ingredient(s). |
| :--- | :--- |
| Appropriate engineering | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates |
| should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, |  |
| controls | or other engineering controls to maintain airborne levels below recommended exposure limits. If <br> exposure limits have not been established, maintain airborne levels to an acceptable level. Eye <br> wash facilities and emergency shower must be available when handling this product. |
|  |  |

[^13]Individual protection measures, such as personal protective equipment
Eye/face protection Chemical respirator with organic vapor cartridge and full facepiece.
Skin protection
Hand protection
Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection
Thermal hazards
General hygiene considerations

## Chemical respirator with organic vapor cartridge and full facepiece.

Wear appropriate thermal protective clothing, when necessary.
When using do not smoke. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 13. Disposal considerations

Disposal instructions

Local disposal regulations
Hazardous waste code

Waste from residues / unused products

Contaminated packaging

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Dispose in accordance with all applicable regulations.
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

## SECTION 3 - HAZARDS IDENTIFICATION

## ROUTES OF EXPOSURE

INHALATION of vapor or spray mist.
EYE or SKIN contact with the product, vapor or spray mist.
EFFECTS OF OVEREXPOSURE
EYES: Irritation.
SKIN: Prolonged or repeated exposure may cause irritation.
INHALATION: Irritation of the upper respiratory system.
In a confined area vapors in high concentration may cause headache, nausea or dizziness.
Prolonged overexposure to hazardous ingredients in Section 2 may cause adverse chronic effects to the following organs or systems:

- the liver
- the urinary system

SIGNS AND SYMPTOMS OF OVEREXPOSURE
Redness and itching or buming sensation may indicate eye or excessive skin exposure.
MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
None generally recognized.
CANCER INFORMATION
For complete discussion of toxicology data refer to Section 11.

## SECTION 4 - FIRST AID MEASURES

EYES: Flush eyes with large amounts of water for 15 minutes. Get medical attention.
SKIN: Wash affected area thoroughly with soap and water.
Remove contaminated clothing and launder before re-use.
INHALATION: If affected, remove from exposure. Restore breathing. Keep warm and quiet. INGESTION: Do not induce vomiting. Get medical attention immediately.

## SECTION 5 - FIRE FIGHTING MEASURES

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

## STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Remove all sources of ignition. Ventilate the area.
Remove with inert absobent.

## SECTION 7 - HANDLING AND STORAGE

## STORAGE CATEGORY

Not Applicable
PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE
Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children.

## SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

## PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation.
Avoid contact with skin and eyes. Avoid breathing vapor and spray mist.
Wash hands after using.
This coating may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV $10 \mathrm{mg} / \mathrm{m} 3$ (total dust), $3 \mathrm{mg} / \mathrm{m} 3$ (respirable fraction), OSHA PEL $15 \mathrm{mg} / \mathrm{m} 3$ (total dust), $5 \mathrm{mg} / \mathrm{m} 3$ (respirable fraction).
Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.
VENTILATION
Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

## RESPIRATORY PROTECTION

If personal exposure cannot be controled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.
When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product, underlying paint, or the abrasive.
PROTECTIVE GLOVES
Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

## EYE PROTECTION

Wear safety spectacles with unperforated sideshields.

## SECTION 10 - STABILITY AND REACTIVITY

## STABILITY - Stable

CONDITIONS TO AVOID
None known.
INCOMPATIBILITY
None known.
HAZARDOUS DECOMPOSITION PRODUCTS
By fire: Carbon Dioxide, Carbon Monoxide
haZARDOUS POLYMERIZATION
Will not occur

## SECTION 11 - TOXICOLOGICAL INFORMATION

## CHRONIC HEALTH HAZARDS

Crystalline Silica (Quartz, Cristobalite) is listed by IARC and NTP. Long term exposure to high levels of silica dust, which can occur only when sanding or abrading the dry film, may cause lung damage (silicosis) and possibly cancer.
IARC's Monograph No. 93 reports there is sufficient evidence of carcinogenicity in experimental rats exposed to titanium dioxide but inadequate evidence for carcinogenicity in humans and has assigned a Group 2B rating. In addition, the IARC summary concludes, "No significant exposure to titanium dioxide is thought to occur during the use of products in which titanium is bound to other materials, such as paint."
Ethylene Glycol is considered an animal teratogen. It has been shown to cause birth defects in rats and mice at high doses when given in drinking water or by gavage. There is no evidence to indicate it causes birth defects in humans.
TOXICOLOGY DATA

| CAS No. | Ingredient Name |  |  |
| :--- | :--- | :--- | :--- |
| 107-21-1 | Ethylene Glycol | LC50 RAT | 4HR |

## SECTION 12 - ECOLOGICAL INFORMATION

## ECOTOXICOLOGICAL INFORMATION

No data available

## SECTION 13 - DISPOSAL CONSIDERATIONS

## WASTE DISPOSAL METHOD

Waste from this product is not hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.

## SECTION 14 - TRANSPORT INFORMATION

Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (ocean, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport.
US Ground (DOT)
Not Regulated for Transportation.
Canada (TDG)
Not Regulated for Transportation.
IMO
Not Regulated for Transportation.
IATAICAO
Not Regulated for Transportation.

## SECTION 15 - REGULATORY INFORMATION

SARA 313 (40 CFR 372.65C) SUPPLIER NOTIFICATION

| CAS No. | CHEMICAL/COMPOUND | \% by WT | \% Element |
| :--- | :--- | :--- | :--- |
| $107-21-1$ | Ethylene Glycol | 1 |  |

CALIFORNIA PROPOSITION 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. TSCA CERTIFICATION

All chemicals in this product are listed, or are exempt from listing, on the TSCA Inventory.

## SECTION 16 - OTHER INFORMATION

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

The above information pertains to this product as currently formulated, and is sased on the information available at this time. Addition of reducers or other additives to this product may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.

[^1]:    

[^2]:    
    Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
    Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
    Containment and Cleanup: Recover for reuse if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

[^3]:    
    INGESTION: HARMFUL IF SWALLOWED. Call physician or Poison Controk Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

    INHALATION: HARMFUL IF INHALED. CAUSES RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

    EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Fiush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.
     water. If irritation occurs, get medical attention.

[^4]:    
    Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
    Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
    Containment and Cleanup: Remove all sources of ignition. Recover for reuse if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

[^5]:    Persistence and Degradability

    ## Biodegradation

    Product: No data available

    ## Components:

    Acetic acid, methyl ester
    Propane

    2-Propanone
    Methane, 1,1'-oxybis-
    Solvent naphtha (petroleum), light aliph.

    Naphtha (petroleum), hydrotreated light

    70 \% Detected in water. Experimental result, Key study
    100 \% (385.5 h) Detected in water. Experimental result, Key study 50 \% (3.19 d) Detected in water. QSAR, Weight of Evidence study
    90.9 \% (28 d) Detected in water. Experimental result, Key study

    5 \% (28 d) Detected in water. Experimental result, Key study
    90.35 \% (28 d) Detected in water. Experimental result, Supporting study
    $95 \%$ (10 d) The 10-day window requirement is fulfilled. 90.35 \% (28 d) Detected in water. Experimental result, Supporting study

    No data available.

    ## Bioaccumulative potential

    Bioconcentration Factor (BCF)
    Product: No data available.

    ## Components:

    2-Propanone Haddock, adult, Bioconcentration Factor (BCF): 0.69 Aquatic sediment Experimental result, Not specified

    Solvent naphtha Bioconcentration Factor (BCF): 10-2,500 Aquatic sediment Estimated by (petroleum), light aliph. calculation, Key study

    Naphtha (petroleum), hydrotreated light

    Bioconcentration Factor (BCF): 10-2,500 Aquatic sediment Estimated by calculation, Key study

    ## Partition Coefficient n-octanol / water (log Kow)

    ## Product:

    No data available.

    ## Components:

    Naphtha (petroleum), hydrotreated light

    Mobility in soil: $\quad$ No data available.

    ## Components:

    Acetic acid, methyl ester No data available.

    Propane
    2-Propanone
    Ethane, 1,1-difluoro-
    Heptane, branched, cyclic and linear
    Methane, 1,1'-oxybis-
    Solvent naphtha (petroleum), light aliph.
    Heptane
    Naphtha (petroleum), hydrotreated light
