

## SAFETY DATA SHEET

## SECTION 1 - IDENTIFICATION

Product identifier used on the label: Paint Stripper and Graffiti Remover

Other means of Identification: ES73

Recommended use of the chemical and restrictions on use: For professional use only.
Manufacturer/Supplier:
Charlotte Products Ltd.
Address:
2060 Fisher Dr.
Peterborough, ON K9J 6X6
Telephone: 705-740-2880
Fax: 705-745-1239
24 Hr. Emergency Tel. \#: Infotrac 1-800-535-5053 (North America), 011-1-352-323-3500 (International)

## SECTION 2 - HAZARDS IDENTIFICATION

## Classification of the chemical:

Eye Damage/lrritation 2B

## Label elements:

Signal Word: Warning
Hazard statement(s)

H320 Causes eye irritation
Precautionary statement(s)

| P264 | Wash exposed areas thoroughly after handling |
| :--- | :--- |
| $\mathrm{P} 305+351+338$ | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact |
|  | lenses if present and easy to do - continue rinsing |
| $\mathrm{P} 337+313$ | If eye irritation persists get medical advice/attention |
| P 501 | Dispose of contents/container in accordance with local regulation |

## Hazard pictogram(s)

None

Other hazards not otherwise classified: None Known
Unknown Acute Toxicity: 1.0\%

SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name, Common Name \& Synonyms: | CAS \# | Concentration \% |
| :--- | :--- | :--- |
| Tripropylene glycol methyl ether | $25498-49-1$ | $30-60$ |
| Dimethyl Glutarate | $1119-40-0$ | $15-40$ |
| Dimethyl Succinate | $106-65-0$ | $5-10$ |
| Dimethyl Adipate | $627-93-0$ | $5-10$ |
| Polymer Solid | Proprietary | $1-5$ |
| Alcohols, C12-16, ethoxylated | $68551-12-2$ | $0.5-1.5$ |
| Fragrance | $5989-27-5 / 8002-09-3 / 103-09-3$ | $0.5-1.5$ |

** If the chemical name/CAS \# is "proprietary" and/or the weight \% is shown as a range, this information had been withheld as a trade secret.

## SECTION 4 - FIRST-AID MEASURES

## Description of first aid measures:

If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor/physician.

If on skin (or hair): Take off all contaminated clothing. Wash with soap and water, rinse skin with water/shower. If skin irritation occurs get medical advice/attention. Wash contaminated clothing before reuse.

If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor/physician if you feel unwell

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention

Most Important symptoms and effects, both acute and delayed: Causes eye irritation
Indication of any immediate medical attention and special treatment needed: Treat symptomatically

## SECTION 5 - FIRE-FIGHTING MEASURES

## Extinguishing media:

Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media: Not determined

Special hazards arising from the substance or mixture: None known
Flammability classification: Not flammable
Hazardous combustion products: Carbon oxides, oxides of phosphorus other unidentified organic compounds.

Special protective equipment and precautions for firefighters:
Protective equipment for fire-fighters: Firefighters should wear proper protective equipment and selfcontained breathing apparatus with full face piece operated in positive pressure mode.

Special fire-fighting procedures: Move containers from fire area if safe to do so. Cool closed containers exposed to fire with water spray. Do not allow run-off from firefighting to enter drains or water courses. Dike for water control.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: All persons dealing with the clean-up should wear the appropriate chemically protective equipment. Keep people away from and upwind of spilt/leak. Restrict access to area until completion of clean-up. Refer to protective measures listed in sections 7 and 8 .

Methods and material for containment and cleaning up: Soak up with inert absorbent material. Do not use combustible absorbents, such as sawdust. Pick up and transfer to properly labeled containers. Contaminated absorbent material may pose the same hazards as the spilled product. Contact the proper local authorities.

Special spill response procedures: In case of a transportation accident, contact Infotrac 1-800-535-5053 (North America), 011-1-352-323-3500 (International). If a spill/release in the US in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8802).

## SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling: Handle in accordance with good industrial hygiene and safety practice. Use protective equipment recommended in section 8. Avoid contact with eyes. Do not breathe dust/fume/gas/mist/vapors/spray. Wash face, hands, and any exposed skin after handling.

Conditions for safe storage: Keep container tightly closed and store in a cool, dry and well-ventilated place. Store locked up. Keep out of reach of children.

Incompatible materials: Oxidizing agents. Do not mix with other chemicals or cleaners

## SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

| Exposure Limits: |  |  |  |  |  |  |  | ACGIH TLV | OSHA PEL |  |
| :--- | :--- | :--- | :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Chemical Name | CAS \# | TWA | STEL | PEL | STEL |  |  |  |  |  |
| Tripropylene glycol methyl ether | $25498-49-1$ |  |  |  |  |  |  |  |  |  |
| Dimethyl Glutarate | $1119-40-0$ |  |  |  |  |  |  |  |  |  |
| Dimethyl Succinate | $106-65-0$ |  |  |  |  |  |  |  |  |  |
| Dimethyl Adipate | $627-93-0$ |  |  |  |  |  |  |  |  |  |
| Polymer Solid | Proprietary |  |  |  |  |  |  |  |  |  |
| Alcohols, C12-16, ethoxylated | $68551-12-2$ |  |  |  |  |  |  |  |  |  |
| Fragrance | $5989-27-$ |  |  |  |  |  |  |  |  |  |

## Exposure controls:

Ventilation and engineering measures: Use only in well-ventilated areas. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. In case of insufficient ventilation wear suitable respiratory equipment.

Respiratory protection: Not required with normal use. If airborne concentrations are above the permissible exposure limit or irritation occurs, use NIOSH-approved respirators. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134). Advice should be sought from respiratory protection specialists.

Skin protection: Not required with normal use. Where extensive exposure to product is possible, use protective gloves, resistant coveralls, apron and boots. The suitability for a specific workplace should be discussed with the producers of the protective regimes.

Eye face protection: Wear eye/face protection. Wear as appropriate tightly fitting safety goggles; Safety glasses with side-shields.

Other protective equipment: Ensure that eyewash stations and safety showers are close to the workstation location. Other equipment may be required depending on workplace standards.

General hygiene considerations: Do not breathe vapors or spray mist. Avoid contact with eyes. Do not eat, drink or smoke when using this product. Wash exposed areas after handling. Handle in accordance with good industrial hygiene and safety practice.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Hazy colorless liquid
Odor: Oca
Odor threshold: No applicable information available
pH: 3.5-4.5
Melting/Freezing point: No applicable information available
Initial boiling point and boiling range: No applicable information available
Flash point: No applicable information available
Flashpoint (Method): No applicable information available
Evaporation rate $(\mathrm{BuAe}=1)$ : No applicable information available
Flammability (solid, gas): Not flammable
Lower flammable limit (\% by vol.): Not Flammable
Upper flammable limit (\% by vol.): Not Flammable
Vapor pressure: No applicable information available
Vapor density: No applicable information available
Relative density: 1.01-1.02
Solubility in water: No applicable information available
Other solubility(ies): No applicable information available
Partition coefficient: No applicable information available
Auto ignition temperature: No applicable information available
Decomposition temperature: No applicable information available
Viscosity: No applicable information available
Volatile organic Compounds (\%VOC's): No applicable information available
Other physical/chemical comments: No applicable information available

## SECTION 10 - STABILITY AND REACTIVITY

Reactivity: Not normally reactive
Chemical stability: Stable
Possibility of hazardous reactions: No hazardous polymerization

Conditions to avoid: Keep out of reach of children. Do not use in areas without adequate ventilation. Avoid contact with incompatible materials.

Incompatible materials: Halogens, strong oxidizing or reducing agents, bases, metals, sulfur trioxide, phosphorus pentoxide

Hazardous decomposition products: None known. Refer to 'Hazardous Combustion Products' in Section 5

## SECTION 11-TOXICOLOGICAL INFORMATION

## Information on likely routes of exposure:

Routes of entry - inhalation: Avoid breathing vapors or mists

Routes of entry - skin \& eye: Avoid contact with eyes

Routes of entry - Ingestion: Do not taste or swallow

## Potential Health Effects:

Signs and symptoms of short term (acute) exposure:

Symptoms: Please see section 4 of this SDS sheet for symptoms.

## Potential Chronic Health Effects:

Mutagenicity: Not expected to be mutagenic in humans.
Carcinogenicity: No applicable information available
Reproductive effects: No applicable information available

Sensitization to material: No applicable information available

Specific target organ effects: No data available to indicate product or components will have specific target organ effects.

Medical conditions aggravated by overexposure: Pre-existing skin or eye disorders.

Toxicological data:
See the following table for individual ingredient acute toxicity data.

| Chemical name | CAS \# | LD $_{50}$ <br> (Oral, rat) | LD $_{50}$ <br> (Dermal. Rabbit) | LC $_{50}$ <br> (4hr, Inhal., rat) |
| :--- | :--- | :---: | :---: | :---: |
| Tripropylene glycol methyl ether | $25498-49-1$ | $3500 \mathrm{mg} / \mathrm{kg}$ | $15,400 \mathrm{mg} / \mathrm{kg}$ |  |
| Dimethyl Glutarate | $1119-40-0$ | $8191 \mathrm{mg} / \mathrm{kg}$ | $>2250 \mathrm{mg} / \mathrm{kg}$ |  |
| Dimethyl Succinate | $106-65-0$ | $6892 \mathrm{mg} / \mathrm{kg}$ | $>5000 \mathrm{mg} / \mathrm{kg}$ | $>2000 \mathrm{mg} / \mathrm{L}$ |

| Dimethyl Adipate | $627-93-0$ | $>5000 \mathrm{mg} / \mathrm{kg}$ | $1000 \mathrm{mg} / \mathrm{kg}$ |  |
| :--- | :--- | :--- | :--- | :--- |
| Polymer Solid | Proprietary |  |  |  |
| Alcohols, C12-16, ethoxylated <br> $(>5-10$ EO $)$ | $68551-12-2$ | $>2000 \mathrm{mg} / \mathrm{kg}$ | $>2000 \mathrm{mg} / \mathrm{kg}$ |  |
| Fragrance | $5989-27-5 / 8002-$ <br> $09-3 / 103-09-3$ |  |  |  |

*All empty cells no applicable information available

Other important toxicological hazards: None reported.

## SECTION 12 -ECOLOGICAL INFORMATION

Ecotoxicity: No applicable information available.

Persistence and degradability: No applicable information available
Bioaccumulation potential: No applicable information available.
Mobility in soil: No applicable information available.
Other Adverse Environmental effects: No applicable information available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Handling for disposal: Handle in accordance with good industrial hygiene and safety practice. Refer to protective measures fisted in sections 7 and 8 . Empty containers retain residue (liquid and/or vapor) and can be dangerous.

Methods of disposal: Dispose in accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules.

RCRA: If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste UN defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

## SECTION 14 - TRANSPORTATION INFORMATION

Special Shipping Information: Keep from freezing.
T.D.G. Classification: Not regulated under T.D.G.
D.O.T. Classification: Not regulated under D.O.T.

## SECTION 15-REGULATORY INFORMATION

[^0]

DISCLAIMER

Information for this material safety data sheet was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond control of this supplier, it is assumed that users of this material have been fully trained accordingly to the mandatory requirements of GHS. No warranty, expressed or implied, is made and supplier will not be liable for any losses, injuries or consequential damages which may result from the use of, or reliance on, any information contained within this form.

END OF DOCUMENT

# Section 1: IDENTIFICATION 

### 1.1 PRODUCT IDENTIFIER

| Product Name: | PB Penetrating Catalyst (Bulk) |
| :--- | :--- |
| Product Code: | $128-\mathrm{PB}, 5-\mathrm{PB} \& 55-\mathrm{PB}$ |

### 1.2 RECOMMENDED USE OF CHEMICAL AND RESTRICTIONS ON USE

Use: Lubricant

### 1.3 DETAILS OF THE SUPPLIER OF THE SAFETY DATA SHEET

Name/Address:
The Blaster Corporation 8500 Sweet Valley Drive Valley View, Ohio 44125 - USA
Telephone Number: $\quad T(216)$ 901-5800
F (216) 901-5801

### 1.4 EMERGENCY TELEPHONE NUMBER

Emergency Telephone Number: CHEMTREC: (800) 424-9300
Date of Preparation:
May 26, 2014
Version \#: 1.0

## Section 2: HAZARD(S) IDENTIFICATION

### 2.1 CLASSIFICATION OF THE CHEMICAL ACCORDING TO OSHA HAZCOM 2012

Hazard class
Flammable Liquid 4
Serious Eye Irritation 2A
Carcinogenicity 2
Aspiration Hazard 1

### 2.2 LABEL ELEMENTS ACCORDING TO OSHA HAZCOM 2012

Hazard Pictogram:

Signal Word:
Hazard Statement:

Prevention:

Response:

## Danger

Combustible liquid. Causes serious eye irritation. Suspected of causing cancer. May be fatal if swallowed and enters airways.
Keep away from flames and hot surfaces. - No smoking. Wash hands thoroughly after handling. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.
If exposed or concerned: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If swallowed: Immediately

## SAFETY DATA SHEET

call a poison center/doctor. Do NOT induce vomiting.
Storage: Store in a well-ventilated place. Keep cool. Store locked up.
Disposal: Dispose of contents and container in accordance with all local, regional, national and international regulations.

### 2.3 ADDITIONAL INFORMATION

Hazards not otherwise classified: Not applicable.
$1 \%$ of the mixture consists of ingredient(s) of unknown acute toxicity.
This product is a hazardous chemical as defined by NOM-018-STPS-2000.
Mexico Classification:

Blue $=$ Health Red $=$ Flammability Yellow $=$ Reactivity $\quad$ White $=$ Special
Hazard Rating: $0=$ minimal, $1=$ slight, $2=$ moderate, $3=$ severe, $4=$ extreme

## Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 MIXTURES

| Ingredient | UN \# | H / F/R/* | CAS No | Wt. \% |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Distillates (petroleum), hydrotreated light | Not available | Not available | $64742-47-8$ | $45-55$ |
| Solvent naphtha (petroleum), heavy <br> aromatic | UN1270 | Not available | $64742-94-5$ | $20-30$ |
| Distillates (petroleum), hydrotreated <br> heavy naphthenic | Not available | Not available | $64742-52-5$ | $20-30$ |
| Naphthalene | UN1334/ <br> UN2304 | $2 / 2 / 0$ | $91-20-3$ | $0.2-2.1$ |
| Dinonylphenol, ethoxylated, phosphated | Not available | Not available | $39464-64-7$ | $0.5-1.5$ |

The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of $\S 1910.1200$.

* Per NOM-018-STPS-2000

## Section 4: FIRST- AID MEASURES

### 4.1 DESCRIPTION OF THE FIRST AID MEASURE

## Eye:

Skin:

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. If irritation persists, get medical attention.
In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Call a physician if irritation develops and persists.

## SAFETY DATA SHEET

\(\left.$$
\begin{array}{ll}\text { Inhalation: } & \begin{array}{l}\text { If breathing is difficult, remove to fresh air and keep at rest in a position } \\
\text { comfortable for breathing. Get medical advice/attention if you feel unwell. }\end{array} \\
\text { Ingestion: } & \begin{array}{l}\text { If swallowed, do NOT induce vomiting unless directed to do so by } \\
\text { medical personnel. Never give anything by mouth to an unconscious } \\
\text { person. Get immediate medical advice/attention. }\end{array}
$$ <br>

4.2 MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED\end{array}\right\}\)| Causes serious eye irritation. Symptoms may include discomfort or |
| :--- |
| Eye: |
| pain, excess blinking and tear production, with marked redness and |
| swelling of the conjunctiva. |

## Section 5: FIRE-FIGHTING MEASURES

### 5.1 EXTINGUISHING MEDIA

Suitable Extinguishing Media: Dry chemical, carbon dioxide or foam.
Unsuitable Extinguishing Media: Water may be ineffective for extinguishing fire.

### 5.2 SPECIAL HAZARDS ARISING FROM THE CHEMICAL

Products of Combustion: May include, and are not limited to: oxides of carbon, hydrocarbons.

### 5.3 SPECIAL PROTECTIVE EQUIPMENT AND PRECAUTIONS FOR FIRE FIGHTERS

Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA). Cool closed containers exposed to fire with water. Do not use a solid water stream as it may scatter and spread fire. Containers may explode when heated.

## Section 6: ACCIDENTAL RELEASE MEASURES

### 6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES

Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Eliminate sources of ignition.

### 6.2 METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING - UP

| Methods for Containment: | Contain and/or absorb spill with inert material (e.g. sand, vermiculite), <br> then place in a suitable container. Do not flush to sewer or allow to enter <br> waterways. Use appropriate Personal Protective Equipment (PPE). |
| :--- | :--- |
| Methods for Cleaning-Up: $\quad$Scoop up material and place in a disposal container. Vapors may be <br> heavier than air and may travel along the ground to a distant ignition <br> source and flash back. Provide ventilation. |  |

## SAFETY DATA SHEET

## Section 7: HANDLING AND STORAGE

### 7.1 PRECAUTIONS FOR SAFE HANDLING

$\left.\begin{array}{ll}\text { Handling: } & \begin{array}{l}\text { Keep away from sources of ignition. - No smoking. Avoid contact } \\ \text { with skin and eyes. Avoid breathing dust/fume/gas/mist/vapours/ } \\ \text { spray. Do not swallow. Handle and open container with care. When }\end{array} \\ & \text { using do not eat, drink or smoke. Use only outdoors or in a well- } \\ \text { ventilated area. (See section 8) }\end{array}\right\}$

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 CONTROL PARAMETERS

## Exposure Guidelines

| Occupational Exposure Limits |  |  |
| :--- | :---: | :---: |
| Ingredient | OSHA-PEL | ACGIH-TLV |
| Distilates (petroleum), hydrotreated light | 100 ppm | $200 \mathrm{mg} / \mathrm{m}^{3}$ |
| Solvent naphtha (petroleum), heavy aromatic | Not available. | Not available. |
| Distillates (petroleum), hydrotreated heavy naphthenic | $5 \mathrm{mg} / \mathrm{m}^{3}(\mathrm{mist})$ | $5 \mathrm{mg} / \mathrm{m}^{3}$ (mist) |
| Naphthalene | $10 \mathrm{ppm} ;$ |  |
| Dinonylphenol, ethoxylated, phosphated | $50 \mathrm{mg}^{3} / \mathrm{m}^{3}$ | 10 ppm |

### 8.2 EXPOSURE CONTROLS

Engineering Controls: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.

### 8.3 INDIVIDUAL PROTECTIVE MEASURES

## Personal Protective Equipment:

Eye/Face Protection: Safety glasses with side-shields.

## Skin Protection:

Hand Protection: Wear chemically resistant protective gloves.
Body Protection: Wear suitable protective clothing.
Respiratory Protection: A NIOSH approved respirator is recommended in poorly ventilated areas or when permissible exposure limits may be exceeded. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

General Health and Safety Measures:

Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating or smoking. Handle according to established industrial hygiene and safety practices. Ensure that eyewash stations and safety showers are close to the workstation location.

## Section 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 INFORMATION ON BASIC PHYSICAL AND CHEMICAL PROPERTIES

| Appearance: | Viscous/Oily. |
| :--- | :--- |
| Color: | Orange. |
| Odor: | Heavy aromatic. |
| Odor Threshold: | Not available. |
| Physical State: | Liquid. |
| pH: | Not available. |
| Melting Point/Freezing Point: | Not available. |
| Initial Boiling Point and Boiling Range: | $177.8^{\circ} \mathrm{C}\left(352^{\circ} \mathrm{F}\right)$ |
| Flash Point: | $65.6^{\circ} \mathrm{C}\left(150{ }^{\circ} \mathrm{F}\right)$ |
| Evaporation Rate: | $>1$ (n-butyl acetate $=1)$ |
| Flammability: | Flammable. |
| Lower Flammability/Explosive Limit: | Not available. |
| Upper Flammability/Explosive Limit: | Not available. |
| Vapor Pressure: | Not available. |
| Vapor Density: | $>1$ (Air $=1)$ |
| Relative Density/Specific Gravity: | 0.91 (Water $=1)$ |
| Solubility: | Negligible. |
| Partition coefficient: n-octanol/water: | Not available. |
| Auto-ignition Temperature: | Not available. |
| Decomposition Temperature: | Not available. |
| Viscosity: | Not available. |
| Oxidizing Properties: | Not available. |
| Explosive Properties: | Not available. |
| Voc content: | $<50 \%$ |

Section 10: STABILITY AND REACTIVITY

### 10.1 REACTIVITY

No dangerous reaction known under conditions of normal use.

### 10.2 CHEMICAL STABILITY

Stable under normal storage conditions.

## SAFETY DATA SHEET

### 10.3 POSSIBILITY OF HAZARDOUS REACTIONS

No dangerous reaction known under conditions of normal use.

### 10.4 CONDITIONS TO AVOID

Heat. Incompatible materials. Sources of ignition. Excessive water.

### 10.5 INCOMPATIBLE MATERIALS

Strong oxidizing agents. Strong reducing agents. Moisture.

### 10.6 HAZARDOUS DECOMPOSITION PRODUCTS

May include, and are not limited to: oxides of carbon, hydrocarbons.

## Section 11: TOXICOLOGICAL INFORMATION

### 11.1 INFORMATION ON TOXICOLOGICAL EFFECTS

Likely Routes of Exposure:
Skin contact, eye contact, inhalation, and ingestion.
Symptoms related to physical/chemical/toxicological characteristics:
Eye: Causes serious eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.

Skin: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
Ingestion: May be fatal if swallowed and enters airways. This product may be aspirated into the lungs and cause chemical pneumonitis. May cause stomach distress, nausea or vomiting.
Inhalation: May cause respiratory tract irritation.
Acute Toxicity:

| Ingredient | IDL.H | LC50 | LD50 |
| :---: | :---: | :---: | :---: |
| Distillates (petroleum), hydrotreated light | Not available. | Inhalation $>5.2 \mathrm{mg} / \mathrm{L} 4 \mathrm{~h}$, rat | Oral $>5000 \mathrm{mg} / \mathrm{kg}$, rat; Dermal $>2000 \mathrm{mg} / \mathrm{kg}$, rabbit |
| Solvent naphtha (petroleum), heavy aromatic | Not available. | Inhalation $>5.28 \mathrm{mg} / \mathrm{L} 4 \mathrm{~h}$, rat | Oral $>5000 \mathrm{mg} / \mathrm{kg}$, rat; Dermal $>2000 \mathrm{mg} / \mathrm{kg}$, rabbit |
| Distillates (petroleum), hydrotreated heavy naphthenic | Not available. | Inhalation $>5.0 \mathrm{mg} / \mathrm{L} 4 \mathrm{~h}$, rat | Oral $>5000 \mathrm{mg} / \mathrm{kg}$, rat; Dermal $>5000 \mathrm{mg} / \mathrm{kg}$, rabbit |
| Naphthalene | 250 ppm | Not available. | Oral $490 \mathrm{mg} / \mathrm{kg}$, rat; Dermal >2500 mg/kg, rat; Dermal $>20 \mathrm{~g} / \mathrm{kg}$, rabbit |
| Dinonylphenol, ethoxylated, phosphated | Not available. | Not available. | Not available. |

| Calculated overall Chemical Acute Toxicity Values |  |  |
| :---: | :---: | :---: |
| LC50 (inhalation) | LD50 (oral) | LD50 (dermal) |
| Not available. | $>2000 \mathrm{mg} / \mathrm{kg}$, rat | $>2000 \mathrm{mg} / \mathrm{kg}$, rabbit |

SAFETY DATA SHEET

|  | Chemical Listed as Carcinogen or <br> Potential Carcinogen <br> Ingredient |
| :--- | :---: |

* See Section 15 for more information.

### 11.2 DELAYED, IMMEDIATE, AND CHRONIC EFFECTS OF SHORT- AND LONG-TERM EXPOSURE

Skin Corrosion/Irritation:
Serious Eye Damage/Irritation:
Respiratory Sensitization:
Skin Sensitization:
STOT-Single Exposure:

Based on available data, the classification criteria are not met.
Causes serious eye irritation.
Based on available data, the classification criteria are not met.
Based on available data, the classification criteria are not met.
Based on available data, the classification criteria are not met.

## Chronic Health Effects:

Carcinogenicity: Possible carcinogen.
Germ Cell Mutagenicity: Based on available data, the classification criteria are not met.
Reproductive Toxicity:
Developmental: Based on available data, the classification criteria are not met.
Fertility: Based on available data, the classification criteria are not met.
STOT-Repeated Exposure:
Aspiration Hazard:
Other Information:

Based on available data, the classification criteria are not met. May be fatal if swallowed and enters airways. Not available.

## Section 12: ECOLOGICAL INFORMATION

### 12.1 ECOTOXICITY

Acute/Chronic Toxicity: May cause long-term adverse effects in the aquatic environment.

### 12.2 PERSISTENCE AND DEGRADABILITY

Not available.

### 12.3 BIOACCUMULATIVE POTENTIAL

## Bioaccumulation:

Not available.

### 12.4 MOBILITY IN SOIL

Not available.

### 12.5 OTHER ADVERSE EFFECTS

Not available.

## Section 13: DISPOSAL CONSIDERATIONS

### 13.1 WASTE TREATMENT METHODS

Disposal Method:

Other disposal recommendations: Handle empty containers with care because residual vapours are flammable.

## Section 14: TRANSPORT INFORMATION

### 14.1 UN NUMBER

DOT
NA 1993
14.2 UN PROPER SHIPPING NAME

DOT
Combustible liquid, n.o.s. (Petroleum distillate)

### 14.3 TRANSPORT HAZARD CLASS (ES)

DOT
3
14.4 PACKING GROUP

DOT

## SOURCE AGENCY CARCINOGEN CLASSIFICATIONS:

CP65 California Proposition 65
OSHA (O) Occupational Safety and Health Administration.
ACGIH (G) American Conference of Governmental Industrial Hygienists.
A1-Confirmed human carcinogen.
A2 - Suspected human carcinogen.
A3-Animal carcinogen.
A4 - Not classifiable as a human carcinogen.
A5 - Not suspected as a human carcinogen.
IARC (I) International Agency for Research on Cancer.
1 - The agent (mixture) is carcinogenic to humans.
2A - The agent (mixture) is probably carcinogenic to humans; there is limited evidence of carcinogenicity in humans and sufficient evidence of carcinogenicity in experimental animals.

## SAFETY DATA SHEET

2B - The agent (mixture) is possibly carcinogenic to humans; there is limited evidence of carcinogenicity in humans in the absence of sufficient evidence of carcinogenicity in experimental animals.
3 - The agent (mixture, exposure circumstance) is not classifiable as to its carcinogenicity to humans.
4 - The agent (mixture, exposure circumstance) is probably not carcinogenic to humans.
NTP (N) National Toxicology Program.
1 - Known to be carcinogens.
2 - Reasonably anticipated to be carcinogens.

## 1. IDENTIFICATION

Product Name: PDI Sani-Cloth AF3 Germicidal Disposable Wipe
Date of Preparation: February 1, 2018
Recommended use of the chemical and restrictions on use:
Recommended use: Use as a disinfectant on hard, non-porous surfaces. Read and understand the entire label before using. Use only according to label directions. It is a violation of Federal law to use this product in a manner inconsistent to label directions.
Restrictions on use: For Professional and Hospital Use.
Manufacturer/Supplier: Nice-Pak/PDI, Inc.
Two Nice-Pak Park
Orangeburg, NY 10962-1376
Phone Number: 1-845-365-1700
Emergency Phone Number: PERS: 1-800-633-8253 (Domestic/Canada)
1-801-629-0667 (International)

## 2. HAZARD(S) IDENTIFICATION

This product is a colorless liquid with a natural odor impregnated on a wipe. There is a small amount of liquid on the wipe and very small amount of free liquid in the packages.

GHS Classification:

| Physical | Health | Environmental |
| :--- | :--- | :--- |
| Not Classified | Eye Irritant Category 2B | Not Classified |

## Label Elements:

Warning!

## Hazard Statements:

Causes eye irritation.

## Precautionary Statements:

Wash thoroughly after handling.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical attention.
Other Hazards: None known.

## 3. COMPOSITION / INFORMATION ON INGREDIENTS

| Chemical name | CAS No. | Concentration |
| :--- | :---: | :---: |
| Non-Hazardous Components | Mixture | $90-<100 \%$ |

| Quaternary ammonium compounds, C12- <br> 18-alkyl [(ethylphenyl) methyl] dimethyl, <br> chlorides | $85409-23-0 /$ <br> $68956-79-6$ | $0.14 \%$ |
| :--- | :---: | :---: |
| Benzyl-C12-18-alkyldimethyl ammonium <br> chlorides | $68391-01-5$ | $0.14 \%$ |

## 4. FIRST-AID MEASURES

## Description of First Aid Measures:

Eye: Flush eyes with large quantities of water for several minutes. Remove contact lenses if easy to do so. Continue rinsing. Get medical attention if irritation persists.
Skin: No first aid should be required. Wash skin with water. Get medical attention if irritation develops or persists.
Inhalation: Not a normal route of exposure. If symptoms develop move victim to fresh air. Get medical attention if symptoms develop.
Ingestion: Ingestion is unlikely for solid products. No first aid is required for small amounts transferred from hands to mouth.

Most Important Symptoms/Effects, Acute and Delayed: Direct contact may cause mild eye irritation.

Indication of Immediate Medical Attention and Special Treatment, If Necessary: None required under normal conditions of use.

## 5. FIRE-FIGHTING MEASURES

Suitable (and Unsuitable) Extinguishing Media: Use media appropriate for surrounding fire.

Specific Hazards Arising From the Chemical: Product will burn under fire conditions. Combustion may produce oxides of sodium, nitrogen and chloride compounds, and ammonia.

Special Protective Equipment and Precautions for Fire-Fighters: Wear an approved, positive pressure, selfcontained breathing apparatus and full protective clothing. Cool fire exposed containers with water. Contain runoff.

## 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Avoid contact with eyes. Wear appropriate protective clothing as described in Section 8.

Environmental Hazards: Avoid releases to the environment. Report spill as required by local and federal regulations.

Methods and Materials for Containment and Cleaning Up: Do not reuse towelette. Pick up wipe and place in an appropriate container for infectious waste disposal. Do not flush in toilet.

## 7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with eyes. Wear protective clothing and equipment as described in Section 8. Wash hands thoroughly with soap and water after use. Keep containers closed when not in use. Refer product label for additional information on use and handling.

Dispenser or Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling. If recycling is not available, put in trash collection. Follow all SDS precautions when handling empty containers.

Conditions for Safe Storage, Including Any Incompatibilities: Store in a cool, dry location away from incompatible materials. Do not contaminate water, food or feed by storage or disposal. For containers: When not in use keep center cap of lid closed to prevent moisture loss.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

## Exposure Guidelines:

| Non-Hazardous Components | None Established |
| :--- | :--- |
| Quaternary ammonium compounds, C12-18-alkyl <br> [(ethylphenyl) methyl] dimethyl, chlorides | None Established |
| Benzyl-C12-18-alkyldimethyl ammonium chlorides | None Established |

Appropriate Engineering Controls: General ventilation is adequate under normal conditions of use. Refer product label for additional information.

Individual Protection Measures, Such As Personal Protective Equipment:
Respiratory Protection: None required for normal use. In case of insufficient ventilation, wear suitable respiratory equipment. Refer product label for additional information.
Skin Protection: Use disposable protective gloves to prevent skin contact.
Eye Protection: Wear safety goggles or other eye protection to prevent eye contact.
Other: None required under normal conditions of use.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| Appearance: Colorless liquid saturated on a wipe | Flammable limits: LEL: Not applicable <br> UEL: Not applicable |
| :--- | :--- |
| Odor: Natural odor | Vapor pressure: Not available |
| Odor Threshold: Not applicable | Vapor density: Not available |
| pH: 11.4 (Saturant) | Relative density: $0.995-1.045$ |
| Melting point/freezing point: $0^{\circ} \mathrm{C}\left(32^{\circ} \mathrm{F}\right)$ (Saturant) | Solubility(ies): Soluble in water (Saturant) |
| Boiling point/range: $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ (Saturant) | Partition coefficient ( $\mathbf{n}$-octanol/water): Not available |
| Flash point: Not available | Auto-ignition temperature: Not available |
| Evaporation rate: Not available | Decomposition temperature: Not available |
| Flammability (solid, gas): Not applicable |  |

## 10. STABILITY AND REACTIVITY

Reactivity: Not reactive under normal conditions of use. This product may react in contact with incompatible materials.
Chemical Stability: Stable under normal storage and handling conditions.
Possibility of Hazardous Reactions: Hazardous polymerization will not occur.
Conditions To Avoid: Keep away from heat , and open flames.
Incompatible Materials: Avoid contact with strong oxidizing agents.
Hazardous Decomposition Products: Thermal decomposition may produce oxides of sodium, nitrogen and chloride compounds, and ammonia.

## 11. TOXICOLOGICAL INFORMATION

## Potential Health Effects:

Eye: This product is expected to cause mild irritation to eyes based on test data from the OPPTS 870.2400 Acute Eye Irritation Study which resulted in Toxicity Category III.
Skin: No adverse effects are expected. This product is non-irritating based on test data from the OPPTS 870.2500 Acute Skin irritation study which resulted in Toxicity Category IV.

Inhalation: Inhalation of high concentrations of vapors may cause upper respiratory tract irritation. Ingestion: Ingestion is unlikely for solid products. This product contains only a small amount of liquid. No adverse effects are expected.

Chronic Effects: None known.

Carcinogenicity: None of the components of this product are listed as a carcinogen or suspected carcinogen by OSHA, IARC, and NTP.

Reproductive Effects: Reproductive harm is not expected from this product.

Mutagenic Effects: Not expected to cause mutagenic activity.

Acute Toxicity:
The following values are based on OPPTS Test Data:
Oral rat LD50: >5000 mg/kg, Dermal rabbit LD50: >5000 mg/kg, Inhalation rat LC50: >2.6 mg/L/4hr

## 12. ECOLOGICAL INFORMATION

Ecotoxicity: No data available for this mixture. The following ecotoxicity data is for the individual components:
Quaternary ammonium compounds, C12-18-alkyl [(ethylphenyl) methyl] dimethyl, chlorides and Benzyl-C12-18-alkyldimethyl ammonium chlorides: 96 hr LC50 Fish: $0.86 \mathrm{ppm}, 48 \mathrm{hr}$ EC50 Daphnia: 0.0058-0.016 mg/L

This product is expected to be very toxic to the aquatic environment. Releases to the environment should be avoided.

Persistence and Degradability: No data available Bioaccumulative Potential: No data available

Mobility in Soil: No data available
Other Adverse Effects: None known.

## 13. DISPOSAL CONSIDERATIONS

Towelette Disposal: Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet.
Dispenser or Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling. If recycling is not available, put in trash collection.

Empty containers or liners may retain some product residues. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. This material and its container must be disposed of in a safe manner. Dispose in accordance with all local, state and federal regulations.
14. TRANSPORT INFORMATION

|  | UN <br> Number | Proper shipping name | Hazard <br> Class | Packing <br> Group | Environmental <br> Hazard |
| :--- | :--- | :--- | :--- | :--- | :--- |
| US DOT | None | Not Regulated | None | None | None |
| IMDG | UN3082 | Environmentally hazardous <br> substance, liquid, n.o.s. <br> (Quaternary ammonium <br> compounds)* | 9 | III | Marine Pollutant |
| IATA | UN3082 | Environmentally hazardous <br> substance, liquid, n.o.s. <br> (Quaternary ammonium | 9 pounds)* |  |  |

*Inner packages with less than 5 liters of liquid are exempt per IMDG Code 2.10.2.7 and ICAO Special Provision A197.

Special precautions: None known

## 15. REGULATORY INFORMATION

## Safety, Health, and Environmental Regulations Specific for the Product In Question:

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

## FIFRA Labeling:

## Keep Out Of Reach of Children <br> CAUTION <br> PRECAUTIONARY STATEMENTS

## Hazards to Humans \& Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

CERCLA 103 Reportable Quantity: This product is not subject to reporting under CERCLA. Some states have more stringent reporting requirements. Report all spills in accordance with local, state, and federal regulations.

## SARA TITLE III:

Hazard Category for Section 311/312: See OSHA Hazard Classification in Section 2.

Section 313 Toxic Chemicals: This product contains the following chemicals subject to SARA Title III Section 313 Reporting requirements: None

Section 302 Extremely Hazardous Substances (TPQ): None

EPA Toxic Substances Control Act (TSCA) Status: This product is a EPA Registered product \#9480-9. However, all of the ingredients of this product are listed on the TSCA inventory.

## STATE REGULATIONS:

California Proposition 65: This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Massachusetts RTK: None listed.

Pennsylvania RTK: None listed.

Rhode Island RTK: None listed.

New Jersey RTK: None listed.

## 2. HAZARD(S) IDENTIFICATION

This product is a clear white liquid with a chlorine odor impregnated on a wipe. There is a small amount of liquid on the wipes and no free liquid in the packages.

GHS Classification:

| Physical | Health | Environmental |
| :--- | :--- | :--- |
| Not Classified | Not Classified | Not Classified |

Label Elements:
None Required

Hazard Statements:
Not Required
Precautionary Statements:
Not Required

Other Hazards: None known.

## 3. COMPOSITION / INFORMATION ON INGREDIENTS

| Chemical name | CAS No. | Concentration |
| :--- | :---: | :---: |
| Non-Hazardous Components | Mixture | $90-<100 \%$ |
| Sodium Hypochlorite | $7681-52-9$ | $0.63 \%$ |

## 4. FIRST-AID MEASURES

## Description of First Aid Measures:

Eye: Rinse thoroughly with water. Get medical attention if irritation occurs and persists.
Skin: No first aid should be required. Wash skin with water. Get medical attention if irritation develops or persists.
Inhalation: Not a normal route of exposure. If symptoms develop move victim to fresh air. Get medical attention if symptoms develop.
Ingestion: Ingestion is unlikely for solid products. No first aid is required for small amounts transferred from hands to mouth.

Most Important Symptoms/Effects, Acute and Delayed: Direct contact with liquid may cause slight eye irritation.

Indication of Immediate Medical Attention and Special Treatment, If Necessary: None required under normal conditions of use.

## 5. FIRE-FIGHTING MEASURES

Suitable (and Unsuitable) Extinguishing Media: Use media appropriate for surrounding fire.

Specific Hazards Arising From the Chemical: Product will burn under fire conditions. Combustion may produce oxides of carbon and phosphorus, and chlorine gas.

Special Protective Equipment and Precautions for Fire-Fighters: Wear an approved, positive pressure, selfcontained breathing apparatus and full protective clothing. Cool fire exposed containers with water. Contain runoff.

## 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Avoid prolonged contact with eyes. Wear appropriate protective clothing as described in Section 8.

Environmental Hazards: Avoid releases to the environment. Report spill as required by local and federal regulations.

Methods and Materials for Containment and Cleaning Up: Do not reuse towelette. Pick up wipe and place in an appropriate container for disposal. If used, place in a container for infectious waste disposal. Do not flush in toilet.

## 7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with eyes. Wear protective clothing and equipment as described in Section 8. Wash hands thoroughly with soap and water after use. Keep containers closed when not in use. Refer product label for additional information on use and handling.

Dispenser or Container Disposal: Nonrefillable container. Do not resue or refill this container. Dispose in accordance with all local, state and federal regulations.

Conditions for Safe Storage, Including Any Incompatibilities: Store in a cool, dry location away from incompatible materials. Do not contaminate water, food or feed by storage or disposal. For containers: When not in use keep center cap of lid closed to prevent moisture loss.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

## Exposure Guidelines:

| Non-Hazardous Components | None Established |
| :--- | :--- |
| Sodium Hypochlorite | $2 \mathrm{mg} / \mathrm{m3}$ STEL AIHA WEEL |

Appropriate Engineering Controls: General ventilation is adequate under normal conditions of use. Refer product label for additional information.

## Individual Protection Measures, Such As Personal Protective Equipment:

Respiratory Protection: None required for normal use. In case of insufficient ventilation, wear suitable respiratory equipment. Refer product label for additional information.
Skin Protection: Use disposable protective gloves to prevent prolonged skin contact.
Eye Protection: None required under normal use conditions.
Other: None required under normal conditions of use.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| Appearance: Clear white liquid saturated on a wipe | Flammable limits: LEL: Not applicable <br> UEL: Not applicable |
| :--- | :--- |
| Odor: Chlorine odor | Vapor pressure: Not available |
| Odor Threshold: Not applicable | Vapor density: Not available |
| pH: 12.5 (Saturant) | Relative density: 1.018 (Saturant) |
| Melting point/freezing point: $0^{\circ} \mathrm{C}\left(32^{\circ} \mathrm{F}\right)$ (Saturant) | Solubility(ies): Saturant- infinite |
| Boiling point/range: $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ (Saturant) | Partition coefficient ( $\mathbf{n}$-octanol/water): Not available |
| Flash point: Not available | Auto-ignition temperature: Not available |
| Evaporation rate: Not available | Decomposition temperature: Not available |
| Flammability (solid, gas): Not applicable |  |

## 10. STABILITY AND REACTIVITY

Reactivity: Not reactive under normal conditions of use.
Chemical Stability: Stable under normal storage and handling conditions.

Possibility of Hazardous Reactions: Hazardous polymerization will not occur. Product may react in contact with acids or strong oxidizing agents. Mixing product with acids or ammonia will create hazardous vapors. Conditions To Avoid: Keep away from heat and open flames.
Incompatible Materials: Avoid contact with strong oxidizing agents, acids, caustics, and ammonia.
Hazardous Decomposition Products: Thermal decomposition may produce oxides of carbon and phosphorus, and chlorine gas.

## 11. TOXICOLOGICAL INFORMATION

## Potential Health Effects:

Eye: This product is expected to cause minimal irritation to eyes based on test data from the OPPTS 870.2400 Acute Eye Irritation Study which resulted in Toxicity Category III. The test data obtained does not meet the criteria of the GHS for eye irritancy.
Skin: No adverse effects are expected.
Inhalation: Inhalation of high concentrations of vapors may cause upper respiratory tract irritation. Ingestion: Ingestion is unlikely for solid products. This product contains only a small amount of liquid. No adverse effects are expected.

Chronic Effects: None known.

Carcinogenicity: None of the components of this product are listed as a carcinogen or suspected carcinogen by OSHA, IARC, and NTP.

Reproductive Effects: Reproductive harm is not expected from this product.

Mutagenic Effects: Not expected to cause mutagenic activity.

## Acute Toxicity:

No toxicity data available for the mixture. The following toxicity data is for the individual components:
Non-Hazardous Components: No toxicity data available
Sodium Hypochlorite: Oral rat LD50: $1100 \mathrm{mg} / \mathrm{kg}$, Inhalation rat LC50: $>10.5 \mathrm{mg} / \mathrm{L} / 1 \mathrm{hr}$, Dermal rabbit LD50: $>20 \mathrm{~g} / \mathrm{kg}$

## 12. ECOLOGICAL INFORMATION

Ecotoxicity: No data available for this mixture. The following data is for the individual components:
Sodium Hypochlorite: 96 hr LC50 Coho Salmon: $0.032 \mathrm{mg} / \mathrm{L}$, 48 hr EC50 Daphnia magna: $141 \mathrm{ug} / \mathrm{L}$ (M-Factor Acute: 10)

This product is expected to be toxic to the aquatic environment. Releases to the environment should be avoided.

Persistence and Degradability: No data available
Bioaccumulative Potential: No data available
Mobility in Soil: No data available
Other Adverse Effects: None known.

## 13. DISPOSAL CONSIDERATIONS

Towelette Disposal: Do not reuse towelette. Dispose of used towelette in trash. Do not flush in toilet.

Dispenser or Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling. If recycling is not available, put in trash collection.

Empty containers or liners may retain some product residues. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. This material and its container must be disposed of in a safe manner. Dispose in accordance with all local, state and federal regulations.

# Peak Global Lifetime 50/50 Prediluted Antifreeze \& Coolant 

## Safety Data Sheet

according to Federal Register/Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

| Product form | : Mixture |
| :--- | :--- |
| Product name | $:$ Peak Global Lifetime 50/50 Prediluted Antifreeze \& Coolant |

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Automotive Engine Antifreeze \& Coolant
1.3. Details of the supplier of the safety data sheet

Old World Industries, LLC
4065 Commercial Ave.
Northbrook, IL 60062 - USA
T (847) 559-2000
uww.oldworldind.com
1.4. Emergency telephone number

Emergency number : (800) 424-9300; (703) 5273887 (International)
Chemtrec

## SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification
Acute Tox. 4 (Oral) H302
STOTRE $2 \quad \mathrm{H} 373$
Full text of H-phrases: see section 16

### 2.2. Label elements

GHS-US labelling
Hazard pictograms (GHS-US)

Signal word (GHS-US)

Hazard statements (GHS-US)

Precautionary statements (GHS-US)

Warning
: H302 - Harmful if swallowed
H373 - May cause damage to organs (kidneys) through prolonged or repeated exposure (oral)
P201- Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P260 - Do not breathe mist, spray, vapors
P264 - Wash affected areas thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P280 - Wear personal protective equipment as required
P301+P310 - If swallowed: Immediately call doctor/physician or poison center P301+P330+P331 - If swallowed: rinse mouth. Do NOT induce vomiting P304+P340-If inhaled: Remove person to fresh air and keep comfortable for breathing P308+P313 - If exposed or concerned: Get medical advice/attention
P405-Store locked up
P501 - Dispose of contents/container, in a safe manner, to appropriate waste disposal facility, in accordance with local/regional/national/international regulations

## SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general
First-aid measures after inhalation

First-aid measures after skin contact

First-aid measures after eye contact

First-aid measures after ingestion

Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the labet where possible).
If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek immediate medical advice. Allow the victim to rest. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.
Remove contaminated clothing. Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: Rinse immediately with plenty of water (for at least 15 minutes). Get medical advice/attention. Specific treatment (see supplemental first aid instructions on this label).
Remove contact lenses, if present and easy to do. Continue rinsing. Rinse immediately with pienty of water for 15 minutes, lifting lower and upper lids. If eye irritation persists: Rinse immediately with plenty of water. Get medical advice/attention.
Obtain emergency medical attention. Rinse mouth. If the person is fully conscious, make him/her drink two glasses of water. Never give an unconscious person anything to drink. Do NOT induce vomiting. Call a POISON CENTER/doctor/physician if you feel unwell. If medical advice is delayed, and if the person has swallowed a moderate volume of material (a few ounces), then give three to four ounces of hard liquor, such as whiskey. For children, give proportionally less liquor, according to weight.
4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries : Causes damage to organs (kidneys) (oral).
Symptoms/injuries after skin contact
Symptoms/injuries after eye contact
Symptoms/injuries after ingestion
Causes skin irritation.
: Causes serious eye damage.
: Swallowing a small quantity of this material will result in serious health hazard. The lethal dose in humans is estimated to be 100 mL ( 3 oz ).

### 4.3. Indication of any immediate medical attention and special treatment needed

A more effective intravenous antidote for physician uses is 4-methylpyrazaole, a potent inhibitor of alcohol dehydrogenases, which effectively blocks the formation of toxic metabolites of ethylene glycol. It has been used to decrease the metabolic consequences of ethylene glycol poisoning before metabolic acidosis coma, seizures, and renal failure have occured.

## SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media
Water fog. Fine water spray. Alcohol-resistant foam. Foam. Carbon dioxide. Dry chemical powder. Sand.
Unsuitable extinguishing media
Do not use a heavy water stream. May spread fire.
5.2. Special hazards arising from the substance or mixture

Fire hasard
: During a fire, smoke may contain the noighat materal in addition to combristion proriucts of

f-irefighting instructions
Protection during firefighting

Use water sufty or fog for cooling exponsel cuntainers. Exercise caution when fighling ary chemical fire. Prevent fire-fighting water from entering environment.
: Do not enter fire area without proper protective equipment, including respiratory protection.

## Peak Global Lifetime 50/50 Prediluted Antifreeze \& Coolant <br> Safety Data Sheet <br> according to Federal Register / Vol. 77. No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Special protective equipment for fire fighters | : Wear positive pressure self-contained breathing apparatus (SCBA). Protective fire fighting <br> clothing (includes fire-fighting helmet, coat, pants, boots and gloves). |
| :--- | :--- |

## SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
6.1.1. For non-emergency personnel

Emergency procedures : Evacuate unnecessary personnel.
6.1.2. For emergency responders

Protective equipment
Equip cleanup crew with proper protection. Refer to section 8.2.
Emergency procedures : Ventilate area.

### 6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.
6.3. Methods and material for containment and cleaning up

Methods for cleaning up : Soak up spils with inert solids; such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.

### 6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

## SECTION7:Handing and storage

7.1. Precautions for safe handling

Precautions for safe handling

Hygiene measures
7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Keep only in the original container in a cool, well ventilated place away from : Heat sources. Keep container closed when not in use. Product may become solid at temperatures below -37 ${ }^{\circ} \mathrm{C}\left(-34^{\circ} \mathrm{F}\right)$. Do not store near food, foodstuffs, drugs or potable water supplies. Do not cut, drill, weld, use a blowtorch on, etc. containers even when empty.
Incompatible products : Keep away from strong acids, strong bases and oxidizing agents.
Incompatible materials : Sources of ignition.

No additional information available

## SEGTION8: Exposure controls/personal protection

8.1.

Control parameters

# Percent Copper in Brass- Advanced Inquiry Laboratory Kit Flinn Scientific 

Primary Learning Objective 1.16
The relative proportions of copper, zinc, and iron in brass influence its properties and uses. How can the percent composition of brass be determined to verify these properties? The purpose of this advanced inquiry lab is to design a procedure to analyze the amount of copper in brass using visible spectroscopy. The lab begins with an introductory activity, in which students measure the absorbance of various metal ion solutions at regular wavelength intervals from 400 nm to 700 nm and investigate the influence of the anion on the absorption spectra. Students identify the correlation among wavelength, absorbance, and concentration for each of three possible ions that may be obtained from brass: copper, zinc, and iron. Once the introductory activity is completed, students design and carry out an experiment to construct a calibration curve and determine the concentration of copper ions in a solution prepared by dissolving brass in nitric acid. Students must investigate the concentration range over which Beer's law is valid and identify the optimum wavelength for analysis. The mass percent of copper in brass is determined from the results of the analysis. This experiment should be performed in a fume hood or well-ventilated lab. Flinn Catalog Number: AP7643 Materials Included in Kit (for 24 students working in pairs)

## 4 First-Aid Measures

- Description of first aid measures:
- General information: No special measures required.

After inhalation: Supply fresh air; consult doctor in case of complaints.
After skin contact:
Generally the product does not irritate the skin.
Rinse with warm water.
If skin irritation occurs, consult a doctor.
After eye contact:
Rinse opened eye for several minutes under running water.
If eye irritation occurs, consult a doctor.
After swallowing: If swallowed and symptoms occur, consult a doctor.
Information for doctor:
Most important symptoms and effects, both acute and delayed: No further relevant information available.
Indication of any immediate medical attention and special treatment needed:
No further relevant information available.

## 5 Fire-Fighting Measures

## Extinguishing media:

Suitable extinguishing agents:
$\mathrm{CO}_{2}$, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
Special hazards arising from the substance or mixture: No further relevant information available.
Advice for firefighters:
Protective equipment:
As in any fire, wear self-contained breathing apparatus pressure-demand (NIOSH approved or equivalent) and full protective gear to prevent contact with skin and eyes.

## 6 Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures: Not required.

Environmental precautions: Do not allow to enter sewers/surface or ground water.

- Methods and material for containment and cleaning up:

Absorb with liquid-binding material (i.e. sand, diatomite, acid binders, universal binders, sawdust).
Dispose of the collected material according to regulations.

- Reference to other sections:

See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

## 7 Handling and Storage

## - Handling

- Precautions for safe handling: No special measures required.

## Safety Data Sheet (SDS)

Issue date 05/11/2016

## Trade name: Potassium Chloride and Phthalate Buffer Solution

- Information about protection against explosions and fires: No special measures required.
- Conditions for safe storage, including any incompatibilities:
- Storage
- Requirements to be met by storerooms and receptacles: Store in the original container.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: None.

Specific end use(s): No further relevant information available.

## \& Exposure Controls/Personal Protection

- Additional information about design of technical systems: No further data; see section 7.
- Control parameters:

All ventilation should be designed in accordance with OSHA standard (29 CFR 1910.94). Use mechanical (general) ventilation for storage areas. Use appropriate ventilation as required to keep Exposure Limits in Air below TLV \& PEL limits.
Components with occupational exposure limits:
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
Additional information: The lists that were valid during the creation of this SDS were used as basis.

- Exposure controls:
- Personal protective equipment:
- General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

- Breathing equipment: Not required.
- Protection of hands: Not required.
- Material of gloves: Not required.
- Penetration time of glove material: Not applicable.

Eye protection:

Goggles recommended during refilling.

## 9 Physical and Chemical Properties

No further relevant information available.

10 Stability and Reactivity

- Reactivity: No further relevant information available.
- Chemical stability: Stable under normal conditions.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

Possibility of hazardous reactions: No dangerous reactions known.
Conditions to avoid: No further relevant information available.
Incompatible materials: Strong acids and strong oxidizing agents.

- Hazardous decomposition products:

Aldehydes, Carbon Oxides, NItrogen Oxides (NOx), Potassium Oxides and Hydrochloric acid gas.
11 Toxicological Information

- Information on toxicological effects:
- Acute toxicity:
- LD/LC50 values that are relevant for classification:

7447-40-7 Potassium Chloride
Oral LD50 $2600 \mathrm{mg} / \mathrm{kg}$ (rat)

- Primary irritant effect:
- On the skin: No irritating effect.
- On the eye: No irritating effect.

## Safety Data Sheet (SDS)

Issue date 05/11/2016

## Trade name: Potassium Chloride and Phthalate Buffer Solution

- Additional toxicological information:

The product is not subject to classification according to internally approved calculation methods for preparations.
When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

- Carcinogenic categories:

IARC (International Agency for Research on Cancer):
Group 1 - Carcinogenic to humans
Group 2A - Probably carcinogenic to humans
Group 2B - Possibly carcinogenic to humans
Group 3 - Not classifiable as to its carcinogenicity to humans
Group 4 - Probably not carcinogenic to humans
None of the ingredients are listed.
NTP (National Toxicology Program):
None of the ingredients are listed.
OSHA-Ca (Occupational Safety \& Health Administration):
None of the ingredients are listed.

## 12 Ecological Information

- Toxicity: The hazards for the aquatic environment are unknown.
- Aquatic toxicity: No further relevant information available.

Persistence and degradability: No further relevant information available.

- Behavior in environmental systems:
- Bioaccumulative potential: No further relevant information available.
- Mobility in soil: No further relevant information available.
- Additional ecological information:

General notes: Not known to be hazardous to water.
Results of PBT and vPvB assessment:
PBT: Not applicable.
vPvB: Not applicable.
Other adverse effects: No further relevant information available.
13 Disposal Considerations

## - Waste treatment methods:

Recommendation:
Observe all federal, state and local environmental regulations when disposing of this material. Smaller quantities can be disposed of with household waste.

## - Uncleaned packagings

- Recommendation:

Dispose of as unused product.
Disposal must be made according to official regulations.

## 14 Transport Information

## - UN-Number:

DOT, ADN, IMDG, IATA
ADR

- UN proper shipping name:
- DOT, ADR, ADN, IMDG, IATA

Non-Regulated Material
Non-Regulated Material
Not Regulated
Non-Regulated Material

## Safety Data Sheet (SDS)

Issue date 05/11/2016
Trade name: Potassium Chloride and Phthalate Buffer Solution

## Transport hazard class(es):

- DOT, ADR, ADN, IMDG, IATA

Class: Non-Regulated Material
Packing group:

- DOT, ADR, IMDG, IATA Non-Regulated Material
- Environmental hazards: Not applicable.

Special precautions for user: Not applicable.
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code: Not applicable.
UN "Model Regulation": Non-Regulated Material

## 15 Regulatory Information

- Safety, health and environmental regulations/legislation specific for the substance or mixture:
SARA (Superfund Amendments and Reauthorization):

Section 355 (extremely hazardous substances):
None of the ingredients are listed.
Section 313 (Specific toxic chemical listings):
None of the ingredients are listed.
TSCA (Toxic Substances Control Act):
All ingredients are listed or exempt from listing.
California Proposition 65:
Chemicals known to cause cancer:
None of the ingredients are listed.
Chemicals known to cause reproductive toxicity for females:
None of the ingredients are listed.

- Chemicals known to cause reproductive toxicity for males:

None of the ingredients are listed.
Chemicals known to cause developmental toxicity:
None of the ingredients are listed.
Carcinogenic categories:
EPA (Environmental Protection Agency):
None of the ingredients are listed.
TLV (Threshold Limit Value established by ACGIH):
111-30-8 Glutaraldehyde
NIOSH-Ca (National Institute for Occupational Safety and Health):
None of the ingredients are listed.
GHS label elements Non-Regulated Material
Hazard pictograms: Non-Regulated Material
Signal word: Non-Regulated Material
Hazard statements: Non-Regulated Material

## National regulations:

The product is subject to be classified according with the latest version of the regulations on hazardous substances.

## Trade name: Potassium Chloride and Phthalate Buffer Solution

- Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

## 16 Other Information

The information and recommendations in this safety data sheet are, to the best of our knowledge, accurate as of the date of issue. Nothing herein shall be deemed to create warranty, expressed or implied, and shall not establish a legally valid contractual relationship. It is the responsibility of the user to determine applicability of this information and the suitability of the material or product for any particular purpose.

- Date of preparation / last revision: 05/11/2016 / 2
- Abbreviations and acronyms:

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Phenol Red

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300 Signal Word WARNING
SECTION 2 - HAZARDS IDENTIFICATION
Hazard class: Skin and serious eye damage, corrosion or inritation (Category 2, 2A). Causes skin and serious
eye irritation (H315+H319).

Hazard class: Specific target organ toxicity, single exposure; respiratory tract irritation (Category 3). May cause respiratory irritation (H335). Avoid breathing dust or fumes (P261).

## SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration |
| :--- | :---: | :---: | :---: | :---: |
| Phenol red, sodium salt | $34487-61-1$ | $\mathrm{C}_{19} \mathrm{H}_{13} \mathrm{NaO}_{5} \mathrm{~S}$ | 376.36 |  |
| Synonym: Phenolsulfonephthalein indicator |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell (P312).
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing ( $\mathrm{P} 304+\mathrm{P} 340$ ).
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.
If on skin: Wash with plenty of water ( $\mathrm{P} 302+\mathrm{P} 352$ ). If skin irritation occurs: Get medical advice or attention (P332+P313).
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.

## SECTION 5 - FIRE FIGHTING MEASURES

Nonflammable solid.
When heated to decomposition, may emit toxic fumes.
In case of fire: Use a tri-class dry chemical fire extinguisher.

NFPA Code
None established

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Sweep up, place in sealed bag or container and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Organic \#9. Store with dyes, indicators and stains.
Keep container tightly closed (P233). Store in a cool, dry place. Use only in a hood or well-ventilated area (P271).

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264). Use only in a hood or well-ventilated area (P271). Will stain skin, clothing, and surfaces.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Bright to dark red crystal or powder. Odorless. pH indicator: 6.8 ycllow to 8.4 red.
Soluble: Water

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with strong oxidizers.
Shelf life: Indefinite, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

| Acute effects: Irritant | ORL-RAT LD $_{50}:$ N.A. |
| :--- | :--- |
| Chronic effects: N.A. | IHL-RAT LC |
| Target organs: N.A. | SKN-RBT LD $58:$ N.A. |

N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A.
N/A = Not applicable

## SECTION 15 - REGULATORY INFORMATION

## TSCA-listed, EINECS-listed (252-057-8).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliabie. Flinn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages relating thereto. The data is offered solely for your consideration, investigation, and verification. The data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of handling, storage, use and disposal of the product(s) described are beyond the control of Flinn Scientific, Inc. and may be beyond our knowledge. FOR THIS AND OTH REASONS, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals.
Revision Date: March 21, 2014

## Safety Data Sheet

## Section 1

Product Description

Product Name:
Recommended Use:
Synonyms:
Distributor:
Chemical Information:
Chemtrec:

Phenol Red, 0.04\%
Science education applications
Phenol Red Solution, Phenolsulfonphthalein, PSP
Carolina Biological Supply Company, 2700 York Road, Burlington, NC 27215-3398
800-227-1150 (8am-5pm (ET) M-F)
800-424-9300 (Transportation Spill Response 24 hours)

## Section 2 <br> Hazard Identification

Classification of the chemical in accordance with paragraph (d) of $\$ 1910.1200$;

## WARNING

Causes skin irritation. Causes serious eye irritation.
GHS Classification:
Skin Corrosion/Irritation Category 2, Serious Eye Damage/Eye Irritation Category 2A

| Acute Toxicity Dermal Contains | $100 \%$ of the mixture consists of ingredient(s) of unknown toxicity |
| :--- | :--- |
| Acute Toxicity Inhalation Vapor |  |
| Contains | $100 \%$ of the mixture consists of ingredient(s) of unknown toxicity |
| Acute Toxicity Inhalation Dust/Mist <br> Contains | $100 \%$ of the mixture consists of ingredient(s) of unknown toxicity |

Section 3

## Composition / Information on Ingredients

Chemical Name
Water
Sodium Hydroxide
Phenol Red, Sodium Salt

| CAS \# | $\%$ |
| :--- | :--- |
| $7732-18-5$ | 99.5 |
| $1310-73-2$ | 0.46 |

## Section 4

## First Aid Measures

## Emergency and First Aid Procedures

Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest.
Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Ta ke off contaminated clothing and wash before reuse.
If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.
Ingestion:

## Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:

Use media suitable to extinguish surrounding fire.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
Fire or excessive heat may produce hazardous decomposition products.
Carbon dioxide, Carbon monoxide

## Section 6

## Safety Data Sheet

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill.
Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.

## Handling and Storage

Handling:
Storage:
Storage Code:

Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Keep container tightly closed in a cool, well-ventilated place.
Green - general chemical storage

## Section $8 \quad$ Protection Information

## Section 9

Formula: C19H14O5S
Molecular Weight: 376.36 (Phenol Red Sodium)
Appearance: Red Liquid
Odor: None
Odor Threshold: No data available
pH: >7
Melting Point: Estimated OC
Boiling Point: Estimated 100 C
Flash Point: No data available
Flammable Limits in Air: No data available

## Physical Data

Vapor Pressure: No data available
Evaporation Rate (BuAc=1): No data available
Vapor Density (Air=1): No data available
Specific Gravity: > 1
Solubility in Water: Soluble
Log Pow (calculated): No data available
Autoignition Temperature: No data available
Decomposition Temperature: No data available
Viscosity: No data available
Percent Volatile by Volume: No data available

## Section 10

## Reactivity Data

Reactivity:
Chemical Stability:
Conditions to Avoid: Incompatible Materials:
Hazardous Polymerization:

Not generally reactive under normal conditions.
Stable under normal conditions.
Elevated temperatures
Water-reactive materials
Will not occur

## CHEMTREC 24 Hour Emergency <br> Phone Number (800) 424-9300 <br> For laboratory use only.

Not for drug, food or household use.

Signal word: DANGER
Pictograms: GHSO2 / GHS07
Target organs: Central nervous system, Liver, Kidneys.

GHS Classification:
Flammable liquid (Category 2)
Eye irritation (Category 2)
STOT-SE (Category 3)
GHS Label information: Hazard statement(s):
H225; Highly flammable liquid and vapour.
H319: Causes serious eye irritation.
H336: May cause drowsiness or dizziness.

Precautionary statement(s):
P210: Keep away from heat/sparks/open flames/hot surfaces, No smoking.
P233: Keep container tightly closed.
P240: Ground/bond container and receiving equipment.
P241: Use explosion-proof electrical/ventilating/lighting equipment.
P242: Use only non-sparking tools.
P243: Take precautionary measures against static discharge.
P261: Avoid breathing mist/vapours/spray.
P264: Wash hands thoroughly after handling.
P271: Use only outdoors or in a well-ventilated area.
P280: Wear protective gloves/protective clothing/eye protection/face protection. P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
P312: Call a POISON CENTER or doctor if you feel unwell.
P337+P313: If eye irritation persists: Get medical attention.
P370+P378: In case of fire: Use dry chemical, alcohol foam, carbon dioxide or water spray to extinguish.
P403+P235: Store in a well-ventilated place. Keep cool.
P405: Store locked up.
P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with locai/regional/national regulations.

Ca Prop 65: This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Inciuce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY BE HARMFUL IF INHALED, CAUSES RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: MAY BE HARMFUL IF ABSORBED THROUGH SKIN. MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam.
Protective Actions for Fire-fighters: In fire conditions. wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Vapors formed from this product are heavier than air and may travel along the ground to a distant source of ignition and flash back instantly. Flame may not be visible in daylight.
 Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Remove all sources of ignition. Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill
area with soap and water. wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources

\section*{Section 8 Exposure Controls 7 Personel Protection <br> Exposure Limits: <br> 

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguisting material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Resplratory protection: None should be needed in normal laboratory handling at room temperatures. If misty conditions prevail, work in fume hood or wear a NIOSH/MSHA approved respirator

## Sections s. St Pysical \& Chemibal Properties

Appearance: Clear, red-orange liquid Odor: Aromatic odor.
Odor threshoid: Data not available
pH : Data not available.
Melting / Freezing point: Approximately $-21.6^{\circ} \mathrm{C}\left(-7^{\circ} \mathrm{F}\right)$ Boiling point: $80^{\circ} \mathrm{C}\left(176^{\circ} \mathrm{F}\right)$
Flash point: $23.9^{\circ} \mathrm{C}\left(75.5^{\circ} \mathrm{F}\right) \mathrm{TCC}$

Evaporation rate ( Butyl acetate $=1$ ): $>1$ Flammability (solid/gas): Data not available. Explosion limits: Lower / Upper: $2 \% / 12 \%$ [Pure IPA]
Vapor pressure ( mm Hg ): $33 \mathrm{~mm} @ 20^{\circ} \mathrm{C}$ [Pure IPA] Vapor density (Air = 1): 2.1 [Pure IPA]
Relative density (Specific gravity): 0.8
Solubility(ies): Complete in water.

Partition coefficient: ( $n$-octanol/ water): Data not available Auto-ignition temperature: $399^{\circ} \mathrm{C}\left(750^{\circ} \mathrm{F}\right.$ ) ASTM-E659-78 [Pure IPA] Decomposition temperature: Data not available.
Viscosity: Data not available
Molecular formu la: Mixture
Molecular weight: Mixture

## Section 10 Stability 8 Reactivity

Chemical stability: Stable
Hazardous polymerization: Will not occur
Conditions to avoid: Excessive temperatures, heat, sparks, open flame and other sources of ignition.
Incompatible materials: Strong oxidizing materiais, caustics, aluminums, metals, nitroform, oleum, chlorinated compounds can react vigorously with this alcohol.
Hazardous decomposition products: Oxides of carbon.

## 

Acute toxicity: Oral-rat LD50: $4396 \mathrm{mg} / \mathrm{kg}$; Inhalation-rat LC50: $72.6 \mathrm{mg} / \mathrm{L} / 4$ hours ; Dermal-rat LD50: $12.000 \mathrm{mg} / \mathrm{kg}$ [lsopropanol]
Skin corrosion/irritation: Skin-rabbit - Slight irritant.
Serious eye damagefirritation: Eyes-rabbit - Irritating,
Respiratory or skin sensitization: Not sensitizing
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC classified: Group 3: Not classifiable as to its carcinogenicity to humans
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: The substance or mixture is classified as specific target organ toxicant, single exposure, category 3 with narcotic effects.
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
 and irritation of the throat. Continued inhalation may result in unconsciousness and death
 develop if this occurs
Skin: Prolonged or repeated contact may cause irritation and drying, cracking and defatting of the skin which can lead to dermatitis
Eyes: Contact causes burning sensation, redness, swelling, and/or blurred vision
Signs and symptoms of exposure: See Potential health effects above.
Additional information: RTECS \#: NT8050000 [Isopropanol]

Toxicity to fish: Pimephales promelas (Fish, fresh water) LC50:9640 mg/L/96 hours [Isopropanol]
Toxicity to daphnia and other aquatic invertebrates: Artemia salina (Crustacea), EC50=>10,000 mg/L/24 hours [Isopropanol]
Toxicity to algae: Scenedesmus quadricauda (Algae), LOEC50 $=1,800 \mathrm{mg} / \mathrm{L} / 7$ days [1sopropanol]
Persistence and degradability: No data available Bioaccumulative potential: No data available

## Mobility in soil: No data available PBT and vPvB assessment: No data avaidable

Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional hancling or disposal.

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local
regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

Exceptions: Limited quantity equal to or less than 5 L

Reproductive toxicity (Category 2)
GHS Label information: Hazard statement:
H341: Suspected of causing genetic defects.
H350: May cause cancer.
H361f: Suspected of damaging fertility.

P201: Obtain special instructions before use
P202: Do not handle until all safety precautions have been read and understood.
280. Wear protective gloves/protective clothing/eye protection/lace protection.

P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with local/regional/national regulations.

Ca Prop 65: This chemical is known to the State of California to cause cancer or reproductive toxicity

| Section 3 | Composition / Information on Ingredients |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Chemical Name |  | CAS |  |  |
| Phenolphthalein |  | $77-09-8$ |  |  |

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY BE HARMFUL IF INHALED. MAY CAUSE RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: MAY BE HARMFUL IF ABSORBED THROUGH SKIN. MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## Section $5 \quad$ Fire Fighting Measures

Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam. Use any media suitable for extinguishing supporting fire
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

## Section $6 \quad$ Accidental Release Measures

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale dunts. Use with adequate ventilation. Avnid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Protect from light.

| Section 8 | Exposure Controls / Personal Protection |  |  | NIOSH (REL) |
| :---: | :---: | :---: | :---: | :---: |
| Exposure Limits: | Chemical Name | ACGIH (TLV) | OSHA (PEL) |  |
| Exposure Limits. | Phenolphthalein | None established | None established | None established |

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator

## Section $9 \quad$ Physical \& Chemical Properties

Appearance: Solid. White to off-white powder Odor: No odor.
Odor threshold: Data not available. pH : Data not available.
Melting / Freezing point: $261^{\circ} \mathrm{C}\left(501^{\circ} \mathrm{F}\right)$ Boiling point: Data not available
Flash point: Data not available

Evaporation rate ( $=1$ ): Data not available Flammability (solid/gas): Data not available. Explosion limits: Lower / Upper: Data not available Vapor pressure ( mm Hg ): Data not available Vapor density (Air =1): Data not available Relative density (Specific gravity): 1.299 Solubility(ies): Slightly soluble in water.

Partition coefficient: Data not available
Auto-ignition temperature: Data not available
Decomposition temperature: Data not available.
Viscosity: Data not available.
Molecular formula: $\mathrm{C}_{20} \mathrm{H}_{14} \mathrm{O}_{4}$
Molecular weight: 318.33

Chemical stability: Stable Hazardous polymerization: Will not occur
Conditions to avoid: Excessive temperatures. Protect from light.
Incompatible materials: Strong oxidizers.
Hazardous decomposition products: Oxides of carbon.

## Section 11 Toxicological Information

Acute toxicity: Data not available
Skin corrosion/irritation: Data not available
Serious eye damage/irritation: Data not available
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: (R) Reasonably anticipated to be a human carcinogen.
IARC classified: Group 2B: Possibly carcinogenic to humans.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: May be harmful if inhaled. May cause respiratory tract irritaition.
Ingestion: May be harmful if swallowed.
Skin: May be harmful if absorbed through skin. May cause skin irritation.
Eyes: Contact causes irritation.
Signs and symptoms of exposure: See Potential health effects above. Risk of cancer depends on level and duration of exposure.
Additional information: RTECS \#: Data not available
Section 12 Ecological Information
Toxicity to fish: No data available
Toxicity to daphnia and other aquatic invertebrates: No data available
Toxicity to algae: No data available
Persistence and degradability: No data available Bioaccumulative potential: No data available
Mobility in soil: No data available PBT and vPvB assessment: No data available
Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

## Section 13 Disposal Considerations

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

## 2. Hazard(s) identification

Classification
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Flammable liquids
Serious Eye Damage/Eye Irritation Germ Cell Mutagenicity Carcinogenicity
Reproductive Toxicity
Specific target organ toxicity (single exposure)

Category 2
Category 2
Category 2
Category 2
Category 2
Category 3
Target Organs - Respiratory system, Central nervous system (CNS).
Specific target organ toxicity - (repeated exposure) Category 2
Target Organs - Kidney, Liver.
Label Elements
Signal Word
Danger

## Hazard Statements

Highly flammable liquid and vapor

Causes serious eye irritation
Suspected of causing genetic defects
Suspected of causing cancer
Suspected of damaging fertility or the unborn child
May cause respiratory irritation
May cause drowsiness or dizziness
May cause damage to organs through prolonged or repeated exposure

## Precautionary Statements

## Prevention

Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Use personal protective equipment as required
Wash face, hands and any exposed skin thoroughly after handling
Wear eye/face protection
Do not breathe dust/fume/gas/mist/vapors/spray
Use only outdoors or in a well-ventilated area
Keep away from heat/sparks/open flames/hot surfaces. - No smoking
Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof electrical/ventilating/lighting/equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Keep cool

## Response

IF exposed or concerned: Get medical attention/advice

## Inhalation

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

## Skin

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
Eyes
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention
Fire
In case of fire: Use CO2, dry chemical, or foam for extinction

## Storage

Store locked up
Store in a well-ventilated place. Keep container tightly closed

## Disposal

Dispose of contents/container to an approved waste disposal plant
Hazards not otherwise classified (HNOC)
May form explosive peroxides

## 3. Composition / information on ingredients

| Component | CAS-No | Weight \% |
| :---: | :---: | :---: |
| Isopropyl alcohol | $67-63-0$ | 99 |
| Phenolphthalein | $77-09-8$ | 1 |

## 4. First-ald measures

## Eye Contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Obtain medical attention.

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Wear appropriate protective gloves and clothing to prevent skin exposure.
Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.
Handle in accordance with good industrial hygiene and safety practice.

## 13. Disposal considerations

Waste Disposal Methods
Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

|  | 14. Transport information |

## X

X - Listed
E-Indicates a substance that is the subject of a Section 5(e) Consent order under TSCA.
F - Indicates a substance that is the subject of a Section $5(\mathrm{f})$ Rule under TSCA.
N - Indicates a polymeric substance containing no free-radical initiator in its inventory name but is considered to cover the designated polymer made with any free-radical initiator regardless of the amount used.
P - Indicates a commenced PMN substance
$\mathbf{R}$ - Indicates a substance that is the subject of a Section 6 risk management rule under TSCA.
S - Indicates a substance that is identified in a proposed or final Significant New Use Rule
T- Indicates a substance that is the subject of a Section 4 test rule under TSCA.
XU - Indicates a substance exempt from reporting under the Inventory Update Rule, i.e. Partial Updating of the TSCA Inventory Data Base Production and Site Reports (40 CFR 710(B).
Y1 - Indicates an exempt polymer that has a number-average molecular weight of 1,000 or greater.
Y2 - Indicates an exempt polymer that is a polyester and is made only from reactants included in a specified list of low concern reactants that comprises one of the eligibility criteria for the exemption rule.

Section 2

## Hazard Identification

Classification of the chemical in accordance with paragraph (d) of $\$ 1910.1200$;

## DANGER

Highly flammable liquid and vapor. Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness. Suspected of causing genetic defects. May cause cancer. Suspected of damaging fertility or the unborn child.

GHS Classification:
Carcinogenicity Category 1B, Flammable Liquid Category 2, Serious Eye Damage/Eye Irritation Category 2, Germ Cell Mutagenicity Category 2, Reproductive Toxicity Category 2, Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 3

Other Safety Precautions: IF exposed or concerned: Get medical advice/attention.

## Section 3 <br> Composition / Information on Ingredients

| Chemical Name | CAS \# | $\frac{\%}{69.3}$ |
| :--- | :--- | :--- |
| $2-$ Propanol | $67-63-0$ | 29.7 |
| Water | $7732-18-5$ | 1 |

## Section 4

## First Aid Measures

## Emergency and First Aid Procedures

Inhalation:
Eyes:
Skin Contact:
Ingestion:

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy
to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Section 5 <br> Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use dry chemical, CO 2 or appropriate foam.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
Vapors may travel back to ignition source. Closed Containers exposed to heat may explode. Risk of explosion if heated under confinement. May cause fire.
Carbon dioxide, Carbon monoxide

## Safety Data Sheet

## Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled. the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Ventilate the contaminated area. Prevent the spread of any spill to minimize harm to human heaith and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation. Shut off ignition sources; including electrical equipment and flames. Do not allow smoking in the area.

## Section 7

## Handling and Storage

Handling:

Storage:
Storage Code:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/.../ equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Use personal protective equipment as required.
Keep container tightly closed. Store in a weil-ventilated place. Keep container tightly closed. Store in a wellventilated place. Keep cool. Store locked up. Keep container tightly closed in a cool, well-ventilated place. Red - Flammables. Store in approved flammable containers. Store away from oxidizing materials.

## Spill or Leak Procedures

## Safety Data Sheet

Steps to Take in Case Material Is Released or Spilled:

No health affects expected from the clean-up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section 8 of this MSDS Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Ventilate the contaminated area.
No special spill clean-up considerations. Collect and discard in regular trash.

## Section 7

## Ecological Data

Overview:
Mobility:
Persistence:
Bioaccumulation:
Degradability:
Other Adverse Effects:

Slight ecological hazard. In high concentrations, this product may be dangerous to plants and/or wildlife.
This material is expected to have moderate mobility in soil. It absorbs to most soil types.
Biodegradation is expected to be a major fate process for this material.
Bioconcentration is not expected to occur.
Biodegrades quickly.
No data

## Section 13 <br> Disposal Information

Disposal Methods:
Waste Disposal Code(s):

Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance.
If discarded, this product is considered a RCRA ignitable waste, D001.

Date of issue: 02/05/2018 Revision date: 02/05/2018 Version: 1.0

| SECTION 1: Identification |  |
| :--- | :--- |
| 1.1. Identification : Mixture <br> Product form : Pitsco HD Bond II <br> Product name  |  |

1.2. Recommended use and restrictions on use
Use of the substance/mixture $\quad:$ Adhesive.
1.3. Supplier
Pitsco Education
915 E Jefferson
Pittsburg, Ks 66762
T 800-358-4983
1.4. Emergency telephone number
Emergency number : 1-800-535-5053

## SECTION 2: Hazard(s) identification

2.1. Classification of the substance or mixture

GHS-US classification
Not classified
2.2. GHS Label elements, including precautionary statements

GHS-US labeling
No labeling applicable
2.3. Other hazards which do not result in classification

Other hazards not contributing to the : May be harmful if swallowed. classification
2.4. Unknown acute toxicity (GHS US)

Not applicable

## SECTION 3: Composition/Information on ingredients

3.1. Substances

Not applicable

### 3.2. Mixtures

This mixture does not contain any substances to be mentioned according to the criteria of section 3.2 of HazCom 2012

## SECTION 4: First-aid measures

### 4.1. Description of first aid measures

First-aid measures after inhalation

First-aid measures after skin contact
First-aid measures after eye contact
First-aid measures after ingestion
: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
: If skin irritation occurs: Wash off immediately with soap and plenty of water. Obtain medical attention if irritation persists.
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. If irritation persists, get medical attention.
: Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

### 4.2. Most important symptoms and effects (acute and delayed)

Symptoms/effects after inhalation
May cause irritation to the respiratory tract.
Symptoms/effects after skin contact
Symptoms/effects after eye contact

Symptoms/effects after ingestion
May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.
May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

## Pitsco HD Bond II

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.
4.3. Immediate medical attention and special treatment, if necessary
Treat symptomatically. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

## SECTION 5: Fire-fighting measures

5.1. Suitable (and unsuitable) extinguishing media
Suitable extinguishing media : Use extinguishing media appropriate for surrounding fire.

Unsuitable extinguishing media : None known.
5.2. Specific hazards arising from the chemical

| Fire hazard | :This product is an aqueous mixture that will not burn. Dried adhesive film will burn in a fire. <br> Products of combustion may include, and are not limited to: oxides of carbon. <br> Reactivity$\quad:$ No dangerous reactions known under normal conditions of use. |
| :--- | :--- |

### 5.3. Special protective equipment and precautions for fire-fighters

Protection during firefighting : Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA). Cool closed containers exposed to fire with water spray.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

General measures : Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

### 6.1.1. For non-emergency personnel

No additional information available
6.1.2. For emergency responders

No additional information available
6.2. Environmental precautions

Prevent entry to sewers and public waters.
6.3. Methods and material for containment and cleaning up

For containment

Methods for cleaning up

## SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling
Hygiene measures
: Soak up with inert absorbent material (for example sand, sawdust, a universal binder, silica gel). Do not flush into surface water or sewer system. Wear recommended personal protective equipment.
6.4. Reference to other sections
For further information refer to section 8: "Exposure controls/personal protection"
7.2. Conditions for safe storage, including any incompatibilities

Storage conditions
: Keep out of the reach of children. Store tightly closed in a dry, cool and well-ventilated place.
SECTION 8: Exposure controls/personal protection
8.1. Control parameters

No additional information available

### 8.2. Appropriate engineering controls

Appropriate engineering controls
: Ensure good ventilation of the work station. Provide readily accessible eye wash stations and safety showers.
Environmental exposure controls
: Avoid release to the environment.

### 8.3. Individual protection measures/Personal protective equipment

## Hand protection:

Wear suitable gloves

## Pitsco HD Bond II

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

## Eye protection:

Safety glasses or goggles are recommended when using product.

## Skin and body protection:

Wear suitable protective clothing

## Respiratory protection:

Ensure adequate ventilation, especially in confined areas. In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Other information:

Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.
SECTION 9: Physical and chemical properties

| 9.1. Information on basic physical and chemical properties |  |
| :---: | :---: |
| Physical state | Viscous liquid |
| Appearance | White liquid |
| Color | White |
| Odor | Mild, slight |
| Odor threshold | No data available |
| pH | 4-5.5 |
| Melting point | $32{ }^{\circ} \mathrm{F}$ |
| Freezing point | No data available |
| Boiling point | : $212{ }^{\circ} \mathrm{F}$ |
| Flash point | None |
| Relative evaporation rate (butyl acetate=1) | No data available |
| Relative evaporation rate (ether=1) | Slower than Ether |
| Flammability (solid, gas) | No data available |
| Vapor pressure | Not determined |
| Relative vapor density at $20^{\circ} \mathrm{C}$ | No data available |
| Relative density | Lighter than air |
| Specific gravity / density | $8.8-9.2 \mathrm{lb} / \mathrm{gal}$ |
| Solubility | Water: Dispersible |
| Partition coefficient n -octanol/water | : Not determined |
| Auto-ignition temperature | Not determined |
| Decomposition temperature | Not determined |
| Viscosity, kinematic | : 3300-4300 cSt |
| Viscosity, dynamic | : 3000-5000 cP |
| Explosion limits | : No data available |
| Explosive properties | Not determined |
| Oxidizing properties | : No data available |

9.2. Other information
Percent Solids : 52-58\%

## SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.
10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

| 10.4. Conditions to avoid |  |
| :--- | :--- |
| Heat. | EN (English US) |
| $02 / 05 / 2018$ | $3 / 5$ |

## Pitsco HD Bond II

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.
10.5. Incompatible materials

None known.
10.6. Hazardous decomposition products

May include, and are not limited to: oxides of carbon.

## SECTION 11: Toxicological information

11.1. Information on toxicological effects

## SECTION 12: Ecological information

12.1. Toxicity

Ecology - general
: May cause long-term adverse effects in the aquatic environment.
12.2. Persistence and degradability

| Pitsco HD Bond II |  |
| :--- | :--- |
| Persistence and degradability | Not established. |

### 12.3. Bioaccumulative potential

| Pitsco HD Bond II |  |
| :--- | :--- |
| Bioaccumulative potential | Not established. |
| 12.4. Mobility in soil |  |
| No additional information available |  |
| 12.5. Other adverse effects |  |

Other information : No other effects known.

## SECTION 13: Disposal considerations

13.1. Disposal methods

Product/Packaging disposal recommendations : Dispose in a safe manner in accordance with local/national regulations.

## SECTION 14: Transport information

Department of Transportation (DOT)
In accordance with DOT
Not regulated

## Pitsco HD Bond II

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

## SECTION 15: Regulatory information

### 15.1. US Federal regulations

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

### 15.2. International regulations

No additional information available

### 15.3. US State regulations

No additional information available

Symptoms/effects after ingestion

May cause irritation to the respiratory tract.
Repeated or prolonged contact may cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
: Repeated or prolonged contact may cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.
May be harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting and diarrhea.

## Pitsco White Wood Glue

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.
4.3. Immediate medical attention and special treatment, if necessary
Treat symptomatically. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

## SECTION 5: Fire-fighting measures

5.1. Suitable (and unsuitable) extinguishing media

Suitable extinguishing media : Use extinguishing media appropriate for surrounding fire.
Unsuitable extinguishing media : None known.
5.2. Specific hazards arising from the chemical

| Fire hazard | :This product is an aqueous mixture that will not burn. Dried adhesive film will burn in a fire. <br> Products of combustion may include, and are not limited to: oxides of carbon. Organic <br> compounds and water may be released during combustion. <br> Reactivity |
| :--- | :--- |
| : No dangerous reactions known under normal conditions of use. |  |
| N.3. Special protective equipment and precautions for fire-fighters |  |
| Protection during firefighting | : Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory <br> protection (SCBA). Cool closed containers exposed to fire with water spray. |

## SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures : Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

### 6.1.1. For non-emergency personnel

No additional information available
6.1.2. For emergency responders

No additional information available
6.2. Environmental precautions

Prevent entry to sewers and public waters.

### 6.3. Methods and material for containment and cleaning up

For containment : Soak up with inert absorbent material (for example sand, sawdust, a universal binder, silica gel). Do not flush into surface water or sewer system. Wear recommended personal protective equipment.
Methods for cleaning up : Keep in suitable, closed containers for disposal. Provide ventilation.
6.4. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection"

## SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling : Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not swallow. Handle and open container with care. When using do not eat, drink or smoke.
Hygiene measures
: Wash contaminated clothing before reuse. Always wash hands after handling the product.
7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Keep out of the reach of children. Store tightly closed in a dry, cool and well-ventilated place.

## SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No additional information available
8.2. Appropriate engineering controls

Appropriate engineering controls : Ensure good ventilation of the work station. Provide readily accessible eye wash stations and safety showers.
Environmental exposure controls : Avoid release to the environment.

### 8.3. Individual protection measures/Personal protective equipment

## Hand protection:

Wear suitable gloves

## Pitsco White Wood Glue

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

## Eye protection:

Safety glasses or goggles are recommended when using product.

## Skin and body protection:

Wear suitable protective clothing

## Respiratory protection:

Ensure adequate ventilation, especially in confined areas. In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Other information:

Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.
SECTION 9: Physical and chemical properties

| 9.1. Information on basic physical and chemical properties |  |
| :--- | :--- |
| Physical state | $:$ Viscous liquid |
| Appearance | $:$ White or brown liquid |
| Color | $:$ White or brown |
| Odor | $:$ mild sweet |
| Odor threshold | $:$ Not determined |
| pH | $: 4.5-5.5$ |
| Melting point | $: 32^{\circ} \mathrm{F}$ |
| Freezing point | $:$ No data available |
| Boiling point | $: 212{ }^{\circ} \mathrm{F}$ |
| Flash point | $:$ Not applicable |
| Relative evaporation rate (butyl acetate $=1)$ | $:$ Slower than n-butyl acetate |
| Flammability (solid, gas) | $:$ Not determined |
| Vapor pressure | $:$ Not determined |
| Relative vapor density at $20^{\circ} \mathrm{C}$ | $:$ Not determined |
| Relative density | $:$ Not determined |
| Specific gravity / density | $: 9.3-9.7$ lb/gal (~1.14) |
| Solubility | $:$ Water: Dispersible |
| Partition coefficient $n-o c t a n o l /$ water | $:$ Not determined |
| Auto-ignition temperature | $:$ Not determined |
| Decomposition temperature | $:$ Not determined |
| Viscosity, kinematic | $: 6000-8000 ~ c S t$ |
| Viscosity, dynamic | $: 5000-9000 \mathrm{cP}$ |
| Explosion limits | $:$ No data available |
| Explosive properties | $:$ Not determined |
| Oxidizing properties | $:$ No data available |

9.2. Other information
Percent Solids : 43-47\%

## SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.
10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.
10.4. Conditions to avoid

Heat.

## Pitsco White Wood Glue

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.
10.5. Incompatible materials

None known.
10.6. Hazardous decomposition products

May include, and are not limited to: oxides of carbon.

## SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity
Skin corrosion/irritation
Serious eye damage/irritation
Respiratory or skin sensitization
Germ cell mutagenicity
Carcinogenicity
Reproductive toxicity
Specific target organ toxicity - single exposure
Specific target organ toxicity - repeated
exposure
Aspiration hazard
Symptoms/effects after inhalation
Symptoms/effects after skin contact
Symptoms/effects after eye contact
Symptoms/effects after ingestion
Other information

## SECTION 12: Ecological information

12.1. Toxicity

Ecology - general
: May cause long-term adverse effects in the aquatic environment.
12.2. Persistence and degradability

| Pitsco White Wood Glue |  |
| :--- | :--- |
| Persistence and degradability | Not established. |

Distributor: Pacon Corporation<br>2525 N. Casaloma Dr.<br>Appleton WI 54913

## Section 1 - Identification

Sample: Plast'r Craft ${ }^{\oplus}$ Modeling Material
Distributor: Pacon Corporation
2525 N. Casaloma Dr.
Appleton WI 54913
Emergency Phone: 1-800-222-1222

## Section 2 - Hazard(s) identification

## EMERGENCY OVERVIEW

This products is not expected to produce any unusual hazards during normal use.
Target Organs: None
Hazard Sorts: None
Potential Health Effects:
Eye: No health effects are exoected.If contact with plaster of paris's dust in mechanical processing,may cause mechanical irritation of eyes,if burning,redness,itching,pain or other symptoms persist or develop, consult physician.
Skin: Prolonged or reoeated contact with the skin may cause irritation.
Ingestion: Unlikely to occur,but if ingest,may cause partial or compalete intestinal blockage and gastric disturbances. See First Aid Measure-Ingestion.
Inhalation: No health effects are expected.Breathing plaster of paris in mechanical processing,may irritate eyes,skin, nose, throat, and upper respiratory tract.

## Section 3 - Composition/information on ingredients

| Chemical Name | Percent (by weight) | CAS No. | EC No. |
| :---: | :---: | :---: | :---: |
| Plaster of Paris | $85 \%$ | $10034-76-1$ | Not listed |
| Water | $15 \%$ | $7732-18-5$ | $231-791-2$ |

## Section 4 - First-aid measures

Eye: If contact with eyes, flush with plenty of water.If irritation persists, consult physician.
Skin: No health effects are expected under normal use.If irritation or other symptoms are exoerienced, seek medical attention.
Ingestion: Ingestion of this material is unlikely.If it does occur,drinking gelatin solutions or large volumes of water and watch the person for several days to make sure that partial or complete
intestinal blockage does not occur.
Inhalation: Inhalation of plaster of paris in mechanical processing, remove to fresh air.Leave the area of exposure and remain away until coughing and other symptoms subside.If rapid recovery does not occur,obtain medical attention.

## Section 5 - Fire-fighting measures

General Information: Not expected to burn.
Extinguishing Media: Water or use extinguish media appropriate for surrounding fire. Special Fire Fighting Procedures: Wear appropriate personal protective equipment.

## Section 6 - Accidental release measures

General Information: Use proper personal protective equipment as indicated in section 8. Spills/Leaks: Collect up,then place into a suitable container for disposal.In mechanical processing, avoid plaster of paris's dust generation, and avoid inhalation of dust and contact with eyes and skin.

## Section 7 - Handling and Storage

Storage: Store in a cool,dry area away from heat,moisture and incompatibilities.
Handing: Use with appropriate ventilation.In mechanical processing,avoid dust contact with eyes,wear the appropriate eye protection against dust.Treat carefully,avoid physical damage.Avoid genernation dust. Use good safety and industrial hygiene practices.

## Section 8 - Exposure controls/personal protection

Exposure Limits:
TWA: $\mathbf{1 5}\left(\mathrm{mg} / \mathrm{m}^{3}\right)$ from OSHA (PEL) [United states]Inhalation Total.
TWA: $5\left(\mathrm{mg} / \mathrm{m}^{3}\right)$ [Canada] Inhalation Respirable.
TWA: $\mathbf{1 0}\left(\mathrm{mg} / \mathrm{m}^{\mathbf{3}}\right)$ from NIOSH [United states] Inhalation Total.
TWA: $\mathbf{5}\left(\mathrm{mg} / \mathrm{m}^{3}\right.$ ) from NIOSH [United states] Inhalation Respirable.
TWA: 5( $\mathrm{mg} / \mathrm{m}^{3}$ ) from OSHA (PEL) [United states] Inhalation Respirable.
TWA: 5( $\mathrm{mg} / \mathrm{m}^{3}$ ) [United Kingdom] Inhalation Respirable.
TWA: $10\left(\mathrm{mg} / \mathrm{m}^{3}\right)$ [United Kingdom] Inhalation Total.
TWA: $10\left(\mathrm{mg} / \mathrm{m}^{3}\right)$ from ACGIH (TLV) [United states]Inhalation Total.
TWA: 10 STEL: $\mathbf{2 0}\left(\mathrm{mg} / \mathrm{m}^{\mathbf{3}}\right.$ ) [Canada] Inhalation Total.
Monitoring Methods: No information found.
Engineering Controls: Appropriate ventilation.
Personal Protective Equipment:
Eyes: No special requirement.In mechanical processing, wear eye protection (safety glasses or goggles) to avoid possible eye irritation.
Skin: No special requirement.In mechanical processing, wear gloves and protective clothing to
prevent plaster of paris repeated or prolonged contact with skin.
Clothing: No special requirement.Wear appropriate working clothing if necessary.
Respirators: No special requirement.In mechanical processing usd appropriate respirator or mask if a lot of dust generate.
Other Protection: No smoking or eating scene work.To maintain good health habits.

## Section 9 - Physical and chemical properties

Physical State: White banded solid
Odor: Odorless
Molecular Formula: N/A
Molecular Weight: N/A
Specific Gravity/Density: N/A
Ph: N/A
Viscosity: N/A
Boiling Point: N/A
Freezing/Melting point: N/A
Ignition Temperature: N/A
Decomposition Temperature: N/A
Solubility: Insoluble in water

## Section 10 - Stability and reactivity

Chemical Stability: Stable under normal condition.
Conditions to Avoid: Contact with acids, water,high humidity, and incompatibles.
Incompatibilities with Other Materials: Acids.Exposure to water and acids must be supervised because the reactions are vigorous and produce large amounts of heat.
Hazardous Decomposition Products: Calcium Oxide (CaO), and sulfur dioxide (SO2).
Hazardous Polymerization: Will not occur.

## Section 11 - Toxicological information

Toxicological Information: CAS No. 10034-76-1

- LD50: >5000mg/kg (oral,rat)
- LC50: Not acailable.

Carcinogenicity: Not listed by ACGIH,IARC,NTP, or CA Prop 65.
Sensitization Rate: Not available.
Teratogenicity: Not available.

## Section 12 - Ecological information

Ecological Toxicity: Not available.
Ecological Degradation: Not acailable.

Environment: Not available.

## Section 13 - Disposal considerations

Never discharge directly into sewers or surface waters.Additionally,waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification.

## Section 14 - Transport information

Not regulated as a hazardous material for transportation. (D.O.T; TDG; IMDG; IATA DGR)
UN: N/A
Classification: N/A
Packaging Sign: N/A
Shipping Name: N/A
Packaging Category: N/A
Packaging Method: N/A
Shipping Notice: N/A

## Section 15 -Regulatory information

Regulatory Information: Reference to the local, national and EU/international regulations.
TSCA: None of the components in this product are listed
DSL: None of the components in this product are listed
OSHA: None of the components in this product are considered highly hazardous by OSHA
California Prop 65: None of the components in this product are listed
Hazard Symbols: None
Risk Phrases: None
Safety Phrases: None

## Section 16-Other information

Issue Time: 2009-3-13
Issue Department: Product certification centre
Data review unit:
Modification record:

## Notice to reader

To the best of our knowledge,the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user.All materials may present unknow hazards and should be used with caution. Although certain hazards are described herein,we cannot guarantee that these are the only hazards that exist.

IMPORTANT: Provide this information to employees, customers, and users of this product. Read this SDS before handling or disposing of this product. This product is covered by the OSHA Hazard Communication Standard and this document has been prepared in accordance with requirements of this standard. All abbreviated terms used in this SDS are further described in Section 16.

## 1. Identification

This Safety Data Sheet is available in American Spanish upon request.
Los Datos de Serguridad pueden obtenerse en Espanol si lo riquiere.

| Product Name: | Plaster of Paris | Revision Date: | $9 / 6 / 2018$ |

2. Hazards Identification

## GHS Classification

Acute Tox. 4 Inhalation, Carc. 1A
Symbol(s) of Product

Signal Word
Danger

## Possible Hazards

80\% of the mixture consists of ingredients of unknown acute toxicity
GHS HAZARD STATEMENTS

| Acute Toxicity, Inhalation, category 4 | H332 | Harmful if inhaled. |
| :--- | :--- | :--- |
| Carcinogenicity, category 1A | H350 | May cause cancer. |

## GHS LABEL PRECAUTIONARY STATEMENTS

| P201 | Obtain special instructions before use. |
| :--- | :--- |
| P271 | Use only outdoors or in a well-ventilated area. |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |
| P304+P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| P308+P313 | IF exposed or concerned: Get medical advice/attention. |

## 3. Composition/Information on Ingredients

| Chemical Name | CAS-No. | Wt. \% | GHS Symbols | GHS Statements |
| :---: | :---: | :---: | :---: | :---: |
| Plaster of paris | 26499-65-0 | 60-80 | No Information | No Information |
| Limestone | 1317-65-3 | 10-30 | No Information | No Information |
| Quartz | 14808-60-7 | 0.5-1.5 | GHS07 | H302 |

The text for GHS Hazard Statements shown above (if any) is given in the "Other information" Section.

## 4. First-aid Measures

FIRST AID - INHALATION: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately.
FIRST AID - SKIN CONTACT: Wash skin with soap and water for 15 minutes. Get medical aid if symptoms persist.
FIRST AID - EYE CONTACT: In case of contact, immediately flush eyes with large quantities of water for at least 15 minutes until irritation subsides. Get medical attention immediately.

FIRST AID - INGESTION: If swallowed, DO NOT INDUCE VOMITING. Get medical attention immediately.

## 5. Fire-fighting Measures

## UNUSUAL FIRE AND EXPLOSION HAZARDS: No Information

SPECIAL FIREFIGHTING PROCEDURES: Wear self-contained breathing apparatus pressure-demand (NIOSH approved or equivalent) and full protective gear. Use water spray to cool exposed surfaces.
EXTINGUISHING MEDIA: Carbon Dioxide, Dry Chemical, Foam

## 6. Accidental Release Measures

## ENVIRONMENTAL MEASURES: No Information

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations. Sweep up excess powder. Place remaining powder into containers.

## 7. Handling and Storage

HANDLING: KEEP OUT OF REACH OF CHILDREN!DO NOT TAKE INTERNALLY. Use only with adequate ventilation. Ensure fresh air entry during application and drying. Do not breathe dust. Removal of this product after use will result in the generation of Dust. If dry-sanded, exposure to dust may result in the build-up of material in eyes, ears, nose, and mouth which may cause irritation. While dry sanding, use of a NIOSH-approved dust mask is recommended. Wash thoroughly after handling.

STORAGE: Store away from caustics and oxidizers. Keep containers dry and tightly closed to avoid moisture absorption and contamination.

## 8. Exposure Controls/Personal Protection

| Ingredients with Occupational Exposure Limits |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Chemical Name | ACGIH TLV-TWA | ACGIH-TLV STEL | OSHA PEL-TWA | OSHA PEL-CEILING |
| Plaster of paris | N.E. | N.E. | $15 \mathrm{mg} / \mathrm{m} 3$ TWA total dust, $5 \mathrm{mg} / \mathrm{m} 3$ TWA respirable fraction | N.E. |
| Limestone | N.E. | N.E. | $15 \mathrm{mg} / \mathrm{m} 3$ TWA total dust, $5 \mathrm{mg} / \mathrm{m} 3$ TWA respirable fraction | N.E. |
| Quartz | $0.025 \mathrm{mg} / \mathrm{m} 3$ TWA respirable particulate matter | N.E. | $50 \mu \mathrm{~g} / \mathrm{m} 3$ TWA | N.E. |

Further Advice: MEL = Maximum Exposure Limit OES = Occupational Exposure Standard SUP = Supplier's Recommendation Sk = Skin Sensitizer N.E. = Not Established

## Personal Protection

RESPIRATORY PROTECTION: Dust safety masks recommended where working powder concentration is more than $10 \mathrm{mg} / \mathrm{m3}$. When concentrations exceed the exposure limits specified, use of a NIOSH -approved dust, mist and fume respirator is recommended. Where the protection factor of the respirator may be exceeded, use of a full facepiece, supplied air, or Self Contained Breathing Apparatus (SCBA) may be necessary. If concentrations exceed the exposure limits specified, use of a NIOSH -approved supplied air respirator is recommended. Where the protection factor is exceeded, use of a Self Contained Breathing Apparatus (SCBA) may be necessary. National Institute for Occupational Safety and Health (NIOSH) has recommended that the permissible exposure limit be changed to 50 micrograms respirable free silica per cubic meter of air $(0.05 \mathrm{mg} / \mathrm{m} 3)$ as determined by a full shift sample up to 10 -hour work shift. A respiratory protection program that meets the OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

SKIN PROTECTION: Wear protective gloves.

EYE PROTECTION: Goggles or safety glasses with side shields.

OTHER PROTECTIVE EQUIPMENT: Provide eyewash. Provide coveralls if body contact may occur.

HYGIENIC PRACTICES: Remove and wash contaminated clothing before re-use.

## 9. Physical and Chemical Properties

| Appearance: | White to Off-White | Physical State: | Powder |
| :--- | :--- | :--- | :--- |
| Odor: | Little or No | Odor Threshold: | Not Established |
| Density, g/cm3: | $2.91-2.91$ | pH: | Not Applicable |
| Freeze Point, ${ }^{\circ} \mathrm{C}$ : | Not Established | Viscosity (mPa.s): | Not Established |

| Decomposition Temperature, ${ }^{\circ} \mathrm{C}:$ | Not Established | Explosive Limits, $\%:$ | N.I. - N.I. |
| Boiling Range, ${ }^{\circ} \mathrm{C}:$ | N.I. - N.I. | Auto-Ignition Temperature, ${ }^{\circ} \mathrm{C}$ | Not Established |
| Minimum Flash Point, ${ }^{\circ} \mathrm{C}:$ | No Information | Vot Applicable | Vapor Pressure, mmHg: |
| Evaporation Rate: | Not Applicable | Not Established |  |
| Vapor Density: | Does not support combustion | Flammability: | Not Applicable |
| Combustibility: |  |  | Non-Flammable |

(See "Other information" Section for abbreviation legend)
(If product is an aerosol, the flash point stated above is that of the propellant.)

## 10. Stability and Reactivity

STABILITY: Stable under recommended storage conditions.
CONDITIONS TO AVOID: Do not breathe dust. Avoid dust formation in confined areas. Excessive heat and freezing.
INCOMPATIBILITY: Incompatible with strong bases and oxidizing agents.
HAZARDOUS DECOMPOSITION PRODUCTS: Above 1450 degree C: SO2 and CaO .

## 11. Toxicological Information

EFFECT OF OVEREXPOSURE - INHALATION: Inhalation may cause irritation to the respiratory tract (nose, mouth, mucous membranes). Prolonged, repeated, or high exposures may cause irritation to the respiratory tract (nose, mouth, mucous membranes).

EFFECT OF OVEREXPOSURE - SKIN CONTACT: May cause dry skin. May cause skin irritation. May cause skin irritation in susceptible persons. May develop enough heat to cause burns if a large mass such as a cast of hand or arm, is kept in contact with skin while hardening.

EFFECT OF OVEREXPOSURE - EYE CONTACT: May cause eye irritation. Signs and symptoms may include: pain, tears, swelling, redness and blurred vision. May cause eye irritation.

EFFECT OF OVEREXPOSURE - INGESTION: Under normal use conditions, this product is not expected to cause adverse health effects. Single dose oral toxicity is very low. Amounts ingested incidental to industrial handling are not likely to cause injury; however, ingestion of large amounts may cause injury. Ingestion may cause irritation to mucous membranes. Ingestion may result in obstruction when material hardens.

CARCINOGENICITY: No Information
EFFECT OF OVEREXPOSURE - CHRONIC HAZARDS: Contains Crystalline Silica which has been determined to be carcinogenic to humans (1) by IARC when in respirable form. Risk of cancer depends upon duration and level of inhalation exposure to dust from sanding the dried paint or spray mist. The International Agency for Research on Cancer (IARC) has determined that crystalline silica in the form of quartz or cristobalite that is inhaled from occupational sources is carcinogenic to humans (Group 1-carcinogenic to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (published in June 1997) in conjunction with the use of these materials. The National Toxicology Program (NTP) classifies respirable crystalline silica as "known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (Group A2). Breathing dust containing respirable crystalline silica may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may have the following serious chronic health effects: Excessive inhalation of respirable dust can cause pneumoconiosis, a respiratory disease, which can result in delayed, progressive, disabling and sometimes fatal lung injury. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness and reduced pulmonary function. Smoking exacerbates this disease. Individuals with pneumoconiosis are predisposed to develop tuberculosis. There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by fibrosis of the lungs, skin and other internal organs) and kidney disease. Prolonged or repeated inhalation of dust may cause lung damage.

PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Contact

Acute Toxicity Values
The acute effects of this product have not been tested. Data on individual components are tabulated below

| CAS-No. | Chemical Name | Oral LD50 |  | Dermal LD50 |
| :--- | :--- | :--- | :--- | :--- |

N.I. $=$ No Information

## 12. Ecological Information

ECOLOGICAL INFORMATION: Ecological injuries are not known or expected under normal use.

## 13. Disposal Information

DISPOSAL INFORMATION: This product does not meet the definition of a hazardous waste according to U.S. EPA Hazardous Waste Management Regulation, 40 CFR Section 261. Dispose as hazardous waste according to all local, state, federal and provincial regulations. State and Local regulations/restrictions are complex and may differ from Federal regulations. Responsibility for proper waste disposal is with the owner of the waste.

## 15. Regulatory Information

## SARA SECTION 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

No Sara 313 components exist in this product.

## TOXIC SUBSTANCES CONTROL ACT:

All ingredients in this product are either on TSCA inventory list, or otherwise exempt.
This product contains the following chemical substances subject to the reporting requirements of TSCA 12(B) if exported from the United States:

No TSCA 12(b) components exist in this product.

## 

FIRST AID - INHALATION: If inhaled, remove to fresh air. If breathing is difficult, leave the area to obtain fresh air. If continued breathing difficulty is experienced, get medical attention immediately.

FIRST AID - SKIN CONTACT: Wash skin with soap and water for 15 minutes. Get medical aid if symptoms persist. Remove and wash contaminated clothing.

FIRST AID - EYE CONTACT: In case of contact, immediately flush eyes with large quantities of water for at least 15 minutes until irritation subsides. Get medical attention immediately.

FIRST AID - INGESTION: If swallowed, DO NOT INDUCE VOMITING. Get medical attention immediately.

## 5. Fire-fighting Measures

UNUSUAL FIRE AND EXPL.OSION HAZARDS: Possible dust explosin if dispersed in air in large quantities.
SPECIAL FIREFIGHTING PROCEDURES: Wear self-contained breathing apparatus pressure-demand (NIOSH approved or equivalent) and full protective gear. Use water spray to cool exposed surfaces.

EXTINGUISHING MEDIA: Carbon Dioxide, Dry Chemical, Foam, Water Fog

## 

ENVIRONMENTAL MEASURES: No Information
STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations. Sweep up excess powder. Place remaining powder into containers.

## 

HANDLING: KEEP OUT OF REACH OF CHILDRENIDO NOT TAKE INTERNALLY. Keep containers away from excessive heat and freezing. Use in well ventilated area. Provide fresh air such that chemical odors cannot be detected during use and while drying. Do not inhale dusts of this product. Keep away from sources of ignition. Store in a cool, dry, well-ventilated area, away from incompatible substances.

STORAGE: Avoid excessive heat and freezing. Keep containers closed when not in use. Do not store at temperatures above 120 degrees $F$. Do not store near acids.

##

HAZARDOUS DECOMPOSITION PRODUCTS: Normal decomposition products, i.e., COx, NOx.

## 

EFFECT OF OVEREXPOSURE - INHALATION: May cause sensitization of susceptible persons by inhalation of aerosol or dust. May cause allergic respiratory reaction. May cause irritation of respiratory tract.

EFFECT OF OVEREXPOSURE - SKIN CONTACT: May cause skin irritation. May cause skin sensitization, an allergic reaction, which becomes evident upon re-exposure to this material. Prolonged exposure to the skin may dry the skin and cause dermatitis or burns.

EFFECT OF OVEREXPOSURE - EYE CONTACT: May cause eye irritation. Signs and symptoms may include: pain, tears, swelling, redness and blurred vision.

EFFECT OF OVEREXPOSURE - INGESTION: Acute intoxication by inhalation or ingestion of water soluble barium salts causes vomiting, diarrhea, convulsive tremors and muscular paralysis. Ingestion may cause raising of blood pressure. May cause severe gastrointestinal disturbance with headache, nausea, vomiting and diarrhea.

CARCINOGENICITY: No Information

## Safety Data Sheet

## Potassium Acid Phthalate Crystal, Primary Standard, ACS

## 1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Potassium Acid Phthalate Crystal, Primary Standard, ACS
Synonyms/Generic Names: KHP; Potassium biphthalate; Potassium phthalate monobasic; Phthalic acidmonopotassium salt; Potassium hydrogen phthalate

Product Number: 4145
Product Use: Industrial, Manufacturing or Laboratory use
Manufacturer: Columbus Chemical Industries, Inc.
N4335 Temkin Rd.
Columbus, WI. 53925
For More Information Call: 920-623-2140 (Monday-Friday 8:00-4:30)
In Case of Emergency Call: CHEMTREC - 800-424-9300 or 703-527-3887 (24 Hours/Day, 7 Days/Week)

## 2. HAZARDS IDENTIFICATION

OSHA Hazards: No known OSHA hazards.
Target Organs: None
Signal Word: Warning
Pictograms: None
GHS Classification:

| Acute toxicity, Oral | Category 5 |
| :--- | :--- |

GHS Label Elements, including precautionary statements:
Hazard Statements:

| H 303 | May be harmful if swallowed. |
| :--- | :--- |

Precautionary Statements:
None

Potential Health Effects

| Eyes | May cause eye irritation. |
| :--- | :--- |
| Inhalation | May be harmful if inhaled. Causes respiratory tract irritation. |
| Skin | May be harmful if absorbed through skin. Causes skin irritation. |
| Ingestion | May be harmful if swallowed. |

NFPA Ratings

| Health | 1 |
| :--- | :--- |
| Flammability | 1 |
| Reactivity | 0 |
| Specific hazard | Not Available |

HMIS Ratings

| Health | 1 |
| :--- | :--- |
| Fire | 1 |
| Reactivity | 0 |
| Personal | C |

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Component | Weight \% | CAS \# | EINECS\# / <br> ELINCS\# | Formula | Molecular <br> Weight |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Potassium Acid <br> Phthalate | 100 | $877-24-7$ | $212-889-4$ | C8H5KO4 | $204.22 \mathrm{~g} / \mathrm{mol}$ |

## 4. FIRST-AID MEASURES

| Eyes | in case of eye contact, rinse with plenty of water and seek medical attention if necessary. |
| :--- | :--- |
| Inhalation | Move casualty to fresh air and keep at rest. If breathing is difficult, give oxygen. If not <br> breathing, give artificial respiration. Get medical attention if necessary.. |
| Skin | Immediately flush with plenty of water while removing contaminated clothing and wash using <br> soap. Get medical attention if necessary.. |
| Ingestion | Do Not Induce Vomitingl Never give anything by mouth to an unconscious person. If <br> conscious, wash out mouth with water. Get medical attention if necessary.. |

## 5. FIRE-FIGHTING MEASURES

| Suitable (and unsuitable) <br> extinguishing media | Product may be flammable at high temperatures. Use water spray, <br> alcohol-resistant foam, dry chemical or carbon dioxide. Use appropriate <br> media for adjacent fire. Cool unopened containers with water. |
| :--- | :--- |
| Special protective equipment <br> and precautions for firefighters | Wear self-contained, approved breathing apparatus and full protective <br> clothing, including eye protection and boots. |
| Specific hazards arising from <br> the chemical | Emits toxic fumes (carbon oxides, potassium oxides) under fire <br> conditions. (See also Stability and Reactivity section). |

## 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, <br> protective equipment and <br> emergency procedures | See section 8 for recommendations on the use of personal protective <br> equipment. |
| :--- | :--- |
| Environmental precautions | Prevent spillage from entering drains. Any release to the environment <br> may be subject to federal/national or local reporting requirements. |
| Methods and materials for <br> containment and cleaning up | Sweep up and place in a suitable container for disposal. Clean surfaces <br> thoroughly with water to remove residual contamination. Dispose of all <br> waste and cleanup materials in accordance with regulations. |

## 7. HANDLING AND STORAGE

## Precautions for safe handling

See section 8 for recommendations on the use of personal protective equipment. Use with adequate ventilation. Wash thoroughly after using. Keep container closed when not in use. Avoid formation of dusts.
Conditions for safe storage, including any incompatibilities
Store in cool, dry well ventilated area. Keep away from incompatible materials (see section 10 for incompatibiilites).

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure controls: Contains no substances with occupational exposure limit values.
Personal Protection

| Eyes | Wear chemical safety glasses or goggles. |
| :--- | :--- |
| Inhalation | Provide local exhaust, preferably mechanical. If exposure levels are excessive, use an <br> approved respirator. |
| Skin | Wear nitrile or rubber gloves. Choose body protection in relation to its type, to the <br> concentration and amount of dangerous substances, and to the specific work-place. |
| Other | Not Available |

## Other Recommendations

Provide eyewash stations, quick-drench showers and washing facilities accessible to areas of use and handling.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| Appearance (physical state, color, etc.) | White solid. |
| :--- | :--- |
| Odor | Not Available |
| Odor threshold | Not Available |
| pH | Not Available |
| Melting point/freezing point | $297^{\circ} \mathrm{C}\left(566.6^{\circ} \mathrm{F}\right)$ |
| Initial boiling point and boiling range | Not Available |
| Flash point | Not Flammable |
| Evaporation rate | Not Available |
| Flammability (solid, gas ) | Not Flammable |
| Upper/lower flammability or explosive limit | Not Explosive |
| Vapor pressure | Not Available |
| Vapor density | Not Available |
| Density | 1.640 g/cm ${ }^{3}$ |
| Solubility (ies) | Soluble in cold water. |
| Partition coefficient: n-octanol/water | Not Available |
| Auto-ignition temperature | Not Available |
| Decomposition temperature | Not Available |

## 10. STABILITY AND REACTIVITY

| Chemical Stability | Stable |
| :--- | :--- |
| Possibility of Hazardous Reactions | Will not occur. |
| Conditions to Avoid | Not Available |
| Incompatible Materials | Strong oxidizing agents. |
| Hazardous Decomposition Products | Carbon oxides, potassium oxides. |

## 11. TOXICOLOGICAL INFORMATION

## Acute Toxicity

| Skin | Not Available |
| :--- | :--- |
| Eyes | Not Available |
| Respiratory | Not Available |
| Ingestion | LD50 Oral - rat $->3,200 \mathrm{mg} / \mathrm{kg}$ |

## Carcinogenicity

| IARC | No components of this product present at levels greater than or equal to $0.1 \%$ is identified <br> as probable, possible or confirmed human carcinogen by IARC. |
| :--- | :--- |
| ACGIH | No components of this product present at levels greater than or equal to $0.1 \%$ is identified <br> as a carcinogen or potential carcinogen by ACGIH. |
| NTP | No components of this product present at levels greater than or equal to $0.1 \%$ is identified <br> as a known or anticipated carcinogen by NTP. |
| OSHA | No components of this product present at levels greater than or equal to $0.1 \%$ is identified <br> as a carcinogen or potential carcinogen by OSHA. |

Signs \& Symptoms of Exposure

| Skin | Irritation. |
| :--- | :--- |
| Eyes | Irritation. |
| Respiratory | Irritation, coughing. |
| Ingestion | Irritation, nausea, vomiting, diarrhea. |

| Chronic Toxicity | Not Available |
| :--- | :--- |
| Teratogenicity | Not Available |
| Mutagenicity | Not Available |
| Embryotoxicity | Not Available |
| Specific Target Organ Toxicity | Not Available |
| Reproductive Toxicity | Not Available |
| Respiratory/Skin Sensitization | Not Available |

## 12. ECOLOGICAL INFORMATION

## Ecotoxicity

| Aquatic Vertebrate | Not Available |
| :--- | :--- |
| Aquatic Invertebrate | Not Available |
| Terrestrial | Not Available |

| Persistence and Degradability | Not Available |
| :--- | :--- |
| Bioaccumulative Potential | Not Available |
| Mobility in Soil | Not Available |
| PBT and vPvB Assessment | Not Available |
| Other Adverse Effects | Not Available |

## 13. DISPOSAL CONSIDERATIONS

| Waste Residues | Users should review their operations in terms of the applicable federal/national or <br> local regulations and consult with appropriate regulatory agencies if necessary before <br> disposing of waste product container. |
| :--- | :--- |
| Product <br> Containers | Users should review their operations in terms of the applicable federal/national or <br> local regulations and consult with appropriate regulatory agencies if necessary <br> before disposing of waste product container. |

The information offered in section 13 is for the product as shipped. Use and/or alterations to the product may significantly change the characteristics of the material and alter the waste classification and proper disposal methods.

## 14. TRANSPORTATION INFORMATION

| US DOT | Not Dangerous Goods |
| :--- | :--- |
| TDG | Not Dangerous Goods |
| IMDG | Not Dangerous Goods |
| Marine Pollutant | No |
| IATAIICAO | Not Dangerous Goods |

## 15. REGULATORY INFORMATION

## Safety Data Sheet

Potassium Biphthalate

## Section 1

## Product Description

Product Name:
Recommended Use:
Synonyms:
Distributor:
Chemical information:
Chemtrec:

Potassium Biphthalate
Science education applications
Potassium Acid Bipthalate, 1,2-Benzenedicarboxylic Acid, Monopotassium Salt
Carolina Biological Supply Company, 2700 York Road, Burlington, NC 27215-3398
800-227-1150 (8am-5pm (ET) M-F)
800-424-9300 (Transportation Spill Response 24 hours)

## Section 2 <br> Hazard Identification

Classification of the chemical in accordance with paragraph (d) of $\S 1910.1200$;

## WARNING

Causes skin irritation.
GHS Classification:
Skin Corrosion/Irritation Category 2

Section 3
Composition / Information on Ingredients

| Chemical Name | CAS\# | $\%$ |
| :--- | :--- | :--- |
| Potassium Biphthalate | $877-24-7$ | 100 |

## Section 4

## First Aid Measures

| Emergency and First Aid Procedures |  |
| :--- | :--- |
| Inhalation: | In case of accident by inhalation: remove casualty to fresh air and keep at rest. |
| Eyes: | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. |
| Skin Contact: | IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Ta |
| Ingestion: | ke off contaminated clothing and wash before reuse. |
|  | If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label. |

## Section 5

Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use dry chemical, CO 2 or appropriate foam.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
Fire or excessive heat may produce hazardous decomposition products.
Carbon dioxide, Carbon monoxide

Section 6
Steps to Take in Case Material Is Released or Spilled:

## Spill or Leak Procedures

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Avoid the generation of dusts during clean-up. No special spill clean-up considerations. Collect and discard in regular trash.

## Safety Data Sheet

Handling: Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Avoid creating and inhaling dust.
Storage: Keep container tightly closed in a cool, well-ventilated place.
Storage Code: Green-general chemical storage

## Section 8

## Protection Information

Gloves:
(STEL)
$\frac{\text { (TWA) }}{\mathrm{N} / \mathrm{A}} \stackrel{\text { OSHA PEL }}{\frac{\text { (STEL) }}{\mathrm{N} / \mathrm{A}}}$

No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use.
Lab coat, apron, eye wash, safety shower.
No respiratory protection required under normal conditions of use.
NIOSH approved air purifying respirator with dust/mist filter.
Wear chemical splash goggles when handling this product. Have an eye wash station available.
Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.
No information available

## Section 9

## Physical Data

Formula: HOOC6H4COOK
Molecular Weight: 204.23
Appearance: Colorless to White Crystalline Solid
Odor: None
Odor Threshold: No data available
pH: 3.8-4.0 (5\% aq. sol.)
Melting Point: 295-300 C
Boiling Point: No data available
Flash Point: No data available
Flammable Limits in Air: No data available

## CHEMTREC 24 Hour Emergency

Phone Number (800) 424-9300
For laboratory use only.
Not for drug, food or household use.

This substance or mixture has not been classified as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals.

Signal word: None required
Pictograms: No symbol required
Target organs: None known
GHS Classification: None required
GHS Label information: Hazard statement: None required
Precautionary statement: None required

Supplemental information:
Do not breathe dust. Do not get in eyes, on skin, or on clothing. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. Get medical attention if you feel unwell.

Ca Prop 65: This product does not contain any chemicals known to the State of California to cause cancer or reproductive toxicity.

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY BE HARMFUL IF INHALED. MAY CAUSE RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: MAY CAUSE EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: MAY BE HARMFUL IF ABSORBED THROUGH SKIN. MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Suitable Extinguishing Media: Use extinguishing agent suitable for type of surrounding fire.
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Precautions for Safe Handling: Read label on container before using. Do not wear contact tenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances.

 and water. If irritation occurs, get medical attention.

## 

Suitable Extinguishing Media: Use any media suitable for extinguishing supporting fire.
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.
 Personal Precautions: Evacuate personnei to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Recover for reuse if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.
 Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid reuse.

Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personne should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low. Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHA approved respirator.

Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: Inhalation may cause sore throat, coughing, shortness of breath.
Ingestion: Ingestion may cause pain in swallowing, abdominal pain, nausea, and drowsiness
Skin: Contact with skin may cause irritation and/or dermatitis.
Eyes: Contact with eyes may cause severe irritation,
Signs and symptoms of exposure: To the best of our knowledge the chemical, physical and toxicological properties have not been thoroughly investigated. Specific data is not available. Exercise appropriate procedures to minimize potential hazards.
Additional information: RTECS \#: Data not available
Yiven
Toxicity to fish: Pimephales promelas (fish, fresh water), LC50 $=>30,000 \mathrm{ug} / \mathrm{L} / 96$ hours
Toxicity to daphnia and other aquatic invertebrates: Daphnia magna (Crustacea), EC50 $=>30,000 \mathrm{ug} / \mathrm{L} / 96$ hours
Toxicity to algae: No data avallable
Persistence and degradability: No data available
Mobility in soil: No data available

Bioaccumulative potential: No data available
PBT and vPvB assessment: No data available

Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handiing or disposal.

regulations may be different. Dispose of in accordance with all local state and federal Federal regulations may apply to empty container. State and/or local sy the fly
UN/NA number: Not applicable

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Potassium Carbonate

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300 Signal word
SECTION 2 - HAZARDS IDENTIFICATION

| Hazard class: Acute toxicity, oral (Category 4). Harmful if swallowed (H302). Do not eat, drink or smoke when |
| :--- |
| using this product (P270). | Pictograms

Hazard class: Skin and serious eye damage, corrosion or irritation (Category 2, 2A). Causes skin and serious eye irritation (H315+H319).

Hazard class: Specific target organ toxicity, singlc exposure; Respiratory tract irritation (Category 3). May cause respiratory irritation (H335). Avoid breathing dust or fumes (P261).

## SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration <br> Potassium carbonate, anhydrous $\operatorname{s84-08-7}$ |
| :--- | :---: | :---: | :---: | :---: |
| $\mathrm{K}_{2} \mathrm{CO}_{3}$ | 138.21 |  |  |  |
| Synonyms: Potash; Carbonic acid, dipotassium salt |  |  |  |  |

## SECTION 4 - FIRST AID MEASURES

If exposed or concerned: Get medical advice or attention (P308+P313).
If inhaled: Remove victim to fresh air in a position comfortable for breathing (P304+P340).
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing ( $\mathrm{P} 305+\mathrm{P} 351+\mathrm{P} 338$ ). If eye irritation persists: Get medical advice or attention (P337+P313).
If on skin: Rinse cautiously with water for several minutes (P351).
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.
SECTION 5 - FIRE FIGHTING MEASURES
Nonflammable solid. NFPA Code
When heated to decomposition, may emit toxic fumes.
In case of fire: Use a tri-class dry chemical fire extinguisher.

None
established

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Sweep up, place in sealed bag or container and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#4. Store with hydroxides, oxides, silicates and carbonates.
Hygroscopic. Store in a cool, dry place within a Flinn Chem-Saf ${ }^{\text {TM }}$ bag. Keep container tightly closed (P233). Use only in a hood or well-ventilated area (P271).

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264). Use only in a hood or well-ventilated area (P271).

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

White powder. Odorless. Melting point: $891^{\circ} \mathrm{C}$
Soluble: Water. Insoluble in alcohol. Specific gravity: 2.29

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with strong oxidizers.
Shelf life: Poor, hygroscopic. See Section 7 for further information.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Severe irritant $\quad$ ORL-RAT LD $50: 1870 \mathrm{mg} / \mathrm{kg}$
Chronic effects: N.A. IHL-RAT LC $_{50}$ : N.A.
Target organs: N.A.
SKN-RBT LD ${ }_{50}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A
$\mathrm{N} / \mathrm{A}=$ Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (209-529-3).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliabie. Flinn Scientific, inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages reiating thereto. The data is offered soiely for your consideration, investigation, and venfication. The data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regutations. The conditions or methods of handling, storage, use and disposal of the product(s) described are beyond the control of Flinn Scientific, Inc. and may be beyond our knowledge. FOR THIS AND OTHER REASONS, WE OO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals.
Revision Date: March 21, 2014

800-227-1150 (8am-5pm (ET) M-F)
800-424-9300 (Transportation Spill Response 24 hours)

Section 2

## Hazard Identification

Classification of the chemical in accordance with paragraph (d) of $\$ 1910.1200$;

## WARNING

Harmful if swallowed. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation.
GHS Classification:
Skin Corrosion/Irritation Category 2, Serious Eye Damage/Eye Irritation Category 2A, Specific Target Organ Systemic Toxicity (STOT) Single Exposure Category 3, Acute Toxicity - Oral Category 4

## Section 3

## Composition / Information on Ingredients

Chemical Name
Potassium Carbonate, Anhydrous

CAS \#
584-08-7
\%
100

## Section 4

## First Aid Measures

Emergency and First Aid Procedures
Inhalation:
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin Contact: IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.
Ingestion: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

## Section 5

## Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use dry chemical, CO2 or appropriate foam.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
N/A
Carbon dioxide, Carbon monoxide, Potassium Oxide

## Section 6

## Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled:

Avoid the generation of dusts during clean-up. Persons not wearing appropriate protective equipment should be excluded from area of spill until clean-up has been completed.

## Safety Data Sheet

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Avoid runoff into storm sewers and ditches that lead to waterways. Do not flush to sewer.
Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation. Avoid creating dusts. Eliminate ignition sources. If a vacuum is used, ensure that the material is wetted or otherwise treated so an explosive dust atmosphere is not created within the vacuum.

## Handling and Storage

Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do no eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Keep container tightly closed in a cool, well-ventilated place. Avoid contact with skin and eyes. Avoid contact with clothing. Store in a we!l-ventiated place. Keep container tightly closed. Store locked up. Avoid creating and inhaling dust. Green - general chemical storage

## Section 8

## Protection Information

## Chemical Name

No data available

## Control Parameters

Engineering Measures:
Personal Protective Equipment (PPE):
Respiratory Protection:
Eye Protection:
Skin Protection:

Gloves:
(TWA) N/A

ACGIH
(STEL) N/A
$\frac{\text { (TWA) }}{\mathrm{N} / \mathrm{A}} \stackrel{\text { OSHAPEL }}{\text { (STEL) }}$

No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use. Lab coat, apron, eye wash, safety shower.
No respiratory protection required under normal conditions of use. Wear a NIOSH approved respirator if levels above the exposure limits are possible.
Wear safety glasses with side shields and a Face shield
Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularty. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.
Nitrile

## Section 9

Formula: K 2 CO 3
Molecular Weight: 138.21
Appearance: White Powder
Odor: No data available
Odor Threshoid: No data available
pH: 11.6, conc: $10 \%$ (aqueous solution)
Melting Point: 891 C
Boiling Point: No data available
Flash Point: No data available
Fiammable Limits in Air: N/A

## Physical Data

Vapor Pressure: N/A
Evaporation Rate (BuAc=1): N/A
Vapor Density (Air=1): N/A
Specific Gravity: 2.29
Solubility in Water: Soluble

## Shand

This substance or mixture has not been classified as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals.

Signal word: WARNING
Pictograms: No symbol required
Target organs: None known
GHS Classification:
Acute toxicity, oral (Category 5)
GHS Label information: Hazard statement: H303: May be harmful if swallowed.

Ca Prop 65 - WARNING! This product contains a chemical(s) known to the State of California to cause cancer, birth defects, or other reproductive harm.

INGESTION: Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
EYE CONTACT: Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Sultable Extinguishing Media: Carbon dioxide, dry chemicat, dry sand, alcohol foam.
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and fulf protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

## 

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Recover for reuse if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances.

| Exposure Limits: | Chemical Name | ACGIH (TLV) | OSHA (PEL) | NIOSH (REL) |
| :---: | :---: | :---: | :---: | :---: |
|  | Particles not otherwise classified | Not established | TWA: $15 \mathrm{mg} / \mathrm{m}^{3}$ total dust |  |

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

## 

Acute toxicity: Oral-rat LD50: $2,600 \mathrm{mg} / \mathrm{kg}$
Skin corrosionfirritation: Data not availabie
Serious eye damage/rritation: Eyes-rabbit - $500 \mathrm{mg} / 24$ hours - mild irritant.
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levets greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: May cause respiratory irritation, coughing and shortness of breath.
Ingestion: May cause nausea, vomiting, diarrhea, abdominal cramping, irregular heartbeats, dehydration, and hypertension.
Skin: Contact may cause mild irritation, redness.
Eyes: Contact with eyes causes mild irritation including stinging, watering and redness.
Signs and symptoms of exposure: Conditions aggravated by exposure may include kidney disorders and high blood pressure (hypertension). Exercise appropriate
procedures to minimize potential hazards.
Additional information: RTECS \#: TS8050000

| Adyeratiry |  |
| :---: | :---: |

Toxicity to fish: Gambusia affinis (fish, fresh water), LC50 $=10,000 \mathrm{mg} / \mathrm{L} / 24$ hours
Toxicity to daphnia and other aquatic Invertebrates: Daphnia magna (Crustacea), $\mathrm{EC} 100=1,010 \mathrm{mg} / \mathrm{L} / 24$ hours
Toxicity to algae: Scenedesmus subspicatus (Algae), EC50 $=2,500 \mathrm{mg} / \mathrm{L} / 72$ hours
Persistence and degradability: No data available Bioaccumulative potential: No data available
Mobility in soil: No data available PBT and vPvB assessment: No data available
Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

## First Aid Measures

## Emergency and First Aid Procedures

Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest.
Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy
to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin Contact:
After contact with skin, wash immediately with plenty of water.
Ingestion:
If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Section $5 \quad$ Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use dry chemical, CO2 or appropriate foam.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
None Known
Chlorine containing gases

## Section 6

## Spill or Leak Procedures

Steps to Take in Case Material is Released or Spilled:

No adverse health affects expected from the clean-up of spilled material. Follow personal protective equipment recommendations found in Section 8 of this MSDS.

## Safety Data Sheet

Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.

## Handling and Storage

| Handling: | Wash thoroughly after handling. Avoid release to the environment. |
| :--- | :--- |
| Storage: | Keep container tightly closed in a cool, well-ventilated place. |
| Storage Code: | Green - general chemical storage |

## Section $8 \quad$ Protection Information

## Control Parameters

Engineering Measures:
Personal Protective Equipment (PPE):
Respiratory Protection:

No exposure limits exist for the constituents of this product. General room ventilation might be required to maintain operator comfort under normal conditions of use. Lab coat, apron, eye wash, safety shower.
No respiratory protection required under normal conditions of use. Provide general room exhaust ventilation if symptoms of overexposure occur as explained Section 11. A respirator is not normally required.
None required where adequate ventilation is provided. If airborne concentrations are above the applicable exposure limits, use NIOSH/MSHA approved respiratory protection. Wear chemical splash goggles when handling this product. Have an eye wash station available.
Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene and wear a barrier cream and/or impervious surgical style gloves. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.
No information available

This substance or mixture has not been classified as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals.

Signal word: WARNING
Pictograms: No symbol required
Target organs: None known
GHS Classification:
Acute toxicity, oral (Category 5)
GHS Label information: Hazard statement:
H303: May be harmful if swallowed.

Precautionary statement:
P312: Call a POISON CENTER or doctor if you feel unwell.

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY CAUSE RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: MAY CAUSE EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.
SKIN ABSORPTION: MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## Suitable Extinguishing Media: Use any media suitable for extinguishing supporting fire.

Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

## 

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Recover for reuse if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and ciothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances.

|  | Chemical Name | ACGIH (TLV) | OSHA (PEL) | NIOSH (REL) |
| :---: | :---: | :---: | :---: | :---: |
| Exposure Limits: | Particles not otherwise classified | Not established | TWA: $15 \mathrm{mg} / \mathrm{m}^{3}$ total dust | Not established |

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

| Appearance: Solid. White, crystalline powder | Evaporation rate ( $=1$ ): Data not available | Partition coefficient: Data not available |
| :---: | :---: | :---: |
| Odor: No odor. | Flammability (solid/gas): Data not available. | Auto-ignition temperature: Data not available |

| Boiling point: Data not available | Relative density (Specific gravity): 1.636 | Molecular weight: 204.23 |
| Flash point: Data not available | Solubility(ies): Soluble in water. |  |

Chemical stability: Stable
Hazardous polymerization: Will not occur.
Conditions to avoid: Excessive temperatures and heat.
Incompatible materials: Strong oxidizers,
Hazardous decomposition products: Carbon oxides, potassium oxides.

Acute toxicity: Oral-rat LD50: $3,200 \mathrm{mg} / \mathrm{kg}$
Skin corrosion/irritation: Data not available
Serious eye damage/lritation: Data not available
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP
IARC: No component of this product present at levets greater than or equal to $0.4 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: Inhalation may cause respiratory irtitation.
Ingestion: Ingestion may cause nausea, vomiting, and diarrhea.
Skin: Contact with skin may cause initation.
Eyes: Contact with eyes may cause irritation.
Signs and symptoms of exposure: To the best of our knowiedge the chemical, physical and toxicological properties have not been thoroughly investigated. Specific data is not available. Exercise appropriate procedures to minimize potential hazards.
Additional information: RTECS \#: CZ4326000

Toxicity to fish: No data available
Toxicity to daphnia and other aquatic invertebrates: No data available
Toxicity to algae: No data available
Persistence and degradability: No data available
Mobility in soil: No data available
Bioaccumulative potential: No data available

Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

Synonyms Potassium hydrogen phthalate, Water Solution

## Section 2 Hazards Identification

This substance or mixture has not been classified as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals.

Signal word: None required
Pictograms: No symbol required
Target organs: None known
GHS Classification: None required
GHS Label information: Hazard statement: None required
Precautionary statement: None required

Supplemental information:
Do not breathe mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. Get medical attention if you feel unwell.

Ca Prop 65: This product does not contain any chemicals known to the State of California to cause cancer or reproductive toxicity.

INGESTION: Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
 attention.

SKIN ABSORPTION: Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## Section $5 \quad$ Fire Fighting Measures

Suitable Extinguishing Media: Use extinguishing agent suitable for type of surrounding fire.
 fire-exposed containers cool.
Specific Hazards: In fire conditions, water may evaporate from this solution which may cause hazardous decomposition products to be formed as dust or fume.

## Section 6 Accidental Release Measures

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid
 clothing before reuse.

Conditions for Safe Storage: Store in a cool, well-ventilated area away from incompatible substances.

## Section $9 \quad$ Physical \& Chemical Properties

Appearance: Clear, colorless liquid Odor: None
Odor threshold: Data not available. pH : Data not available.
Melting / Freezing point: Approximately $0^{\circ} \mathrm{C}\left(32^{\circ} \mathrm{F}\right)$ (water) Boiling point: Approximately $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ (water) Flash point: Data not available

Evaporation rate ( Water = 1): <1 Flammability (solid/gas): Data not available. Explosion limits: Lower / Upper: Data not available Vapor pressure ( mm Hg ): 14 (water) Vapor density ( Air = 1): 0.7 (water)
Relative density (Specific gravity): Approximately 1.0 (water Solubility(ies): Complete in water.

Partition coefficient: Data not available
Auto-ignition temperature: Data not available
Decomposition temperature: Data not available.
Viscosity: Data not available.
Molecular formula: Mixture
Molecular weight: Mixture

Section $10 \quad$ Stability \& Reactivity
Chemical stability: Stable
Hazardous polymerization: Will not occur.
Conditions to avoid: Excessive temperatures which cause evaporation.
Incompatible materials: Strong oxidizers.
Hazardous decomposition products: Carbon oxides, potassium oxides.

## Section 11 Toxicological Information

Acute toxicity: Oral-rat LD50: $3,200 \mathrm{mg} / \mathrm{kg}$ (Potassium Hydrogen Phthalate)
Skin corrosion/irritation: Data not available
Serious eye damage/irritation: Data not available
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: No adverse health effects expected from inhalation.
Ingestion: No adverse health effects expected by ingestion.
Skin: Not expected to be a health hazard from skin exposure.
Eyes: Not expected to be a health hazard.
Signs and symptoms of exposure: Contact with eyes may cause transient irritation. To the best of our knowledge the chemical, physical and toxicological properties have not been thoroughly investigated. Specific data is not available. Exercise appropriate procedures to minimize potential hazards.
Additional information: RTECS \#: CZ4326000 (Potassium Hydrogen Phthalate)

## Section 12 Ecological Information

Toxicity to fish: No data available
Toxicity to daphnia and other aquatic invertebrates: No data available
Toxicity to algae: No data available
Persistence and degradability: No data available Bioaccumulative potential: No data available
Mobility in soil: No data available PBT and vPvB assessment: No data available
Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

## Section 13 Disposal Considerations

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.
Section 14 Transport Information (US DOT / CANADA TDG)
UN/NA number: Not applicable Shipping name: Not Regulated
Hazard class: Not applicable Packing group: Not applicable Reportable Quantity: No Marine pollutant: No
Exceptions: Not applicable 2016 ERG Guide \# Not applicable

## Section 16 Other Information

 IARC: International Agency for Research on Cancer, OSHA: Occupational Safety and Health Administration, STOT: Specific Target Organ Toxicity, SE: Single Exposure, RE: Repeated Exposure, ERG: Emergency Response Guidebook.
Form 06/2015

## Signal word: DANGER

Pictograms: GHS05 / GHS07
Target organs: None known.

GHS Ciassification:
Acute tox. (Category 4)
Skin corr. (Category 1A)
GHS Label information: Hazard statement:
H302: Harmful if swallowed.
H314: Causes severe skin burns and eye damage.

## Precautionary statement:

P260: Do not breathe dust.
P264: Wash hands thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P310: Immediately call a POISON CENTER or doctor.
P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P312: Call a POISON CENTER or doctor if you feel unwelt.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
P363: Wash contaminated clothing before reuse.
P405: Store locked up.
P501: Dispose of contents/container to a licensed chemical disposal agency in
accordance with localiregional/national regulations.

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INGESTION: HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.
INHALATION: Remove to fresh air. If not breathing. give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
EYE CONTACT: CAUSES EYE DAMAGE. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: CAUSES SKIN BURNS. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Sultable Extinguishing Media: Use any media suitable for extinguishing supporting fire
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.
Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances.

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate pratective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

## Appearance: Solid, white pellets. <br> Evaporation rate $(=1)$ : Data not available

Odor: No odor.
Odor threshold: Data not available.
pH : Data not available.
Melting / Freezing point: $361^{\circ} \mathrm{C}\left(682^{\circ} \mathrm{F}\right)$
Boiling point: $1320^{\circ} \mathrm{C}\left(2408^{\circ} \mathrm{F}\right)$
Flash point: Not flammable.

Flammability (solid/gas): Data not availabie Explosion limits: Lower/ Upper: Data not available Vapor pressure ( mm Hg ): $1 \mathrm{~mm} @ 719^{\circ} \mathrm{C}$ Vapor density (Air = 1): Data not available Relative density (Specific gravity): 2.044 Solubility(ies): Complete in water.

Partition coefficient: Data not available. Auto-ignition temperature: Data not available. Decomposition temperature: Data not available. Viscosity: Data not available.
Molecular formula: KOH
Molecular welght: 56.11

Chemical stability: Stable Hazardous polymerization: Will not occur.
Conditions to avoid: Excessive temperatures which cause evaporation.
Incompatible materials: Acids, aluminum, halogens, nitro compounds, organic materials, acid chlorides, acid anydrides, magnesium, copper, tin and zinc.
Hazardous decomposition products: Hydrogen gas in contact with metals.

Acute toxicity: Oral-rat LD50: $365 \mathrm{mg} / \mathrm{kg}$ (IUCLID dataset)
Skin corrosion/irritation: Skin-rabbit - Corrosive
Serious eye damage/irritation: Eyes-rabbit - Corrosive
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
inhalation: May be harmful by inhalation.
Ingestion: Harmful by ingestion.
Skin: Contact with skin causes burns.
Eyes: Contact causes damage.
Signs and symptoms of exposure: Symptoms of exposure may include burning sensation, coughing, wheezing, laryngitis, shortness of breath, headache, nausea and vomiting.
Additional information: RTECS \#: TT2100000

## Toxicity to fish: Gambus affinis (fish, fresh water), LC50 $=85 \mathrm{mg} / \mathrm{l} / 24$ hours

Joxicity to daphnia and other aquatic invertebrates: No data available
Toxicity to algae: No data available
Persistence and degradability: No data available
Mobility in soil: No data available
Bioaccumulative potential: No data available
PBT and vPvB assessment: No data avalable
Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

## E6cto 2 .

Signal word: DANGER
Pictograms: GHSO3
Target organs: Kidneys

GHS Classification:
Oxidizing solid (Category 2)
Skin irritation (Category 3)
Eye irritation (Category 2B)
GHS Label information: Hazard statement:
H272: May intensify fire; oxidizer.
H316: Causes mild skin irritation.
H320: Causes eye irritation.

## Precautlonary statement:

P210: Keep away from heat/sparks/open flames/hot surfaces. No smoking.
P220: Keep away from clothing/incompatible/combustible materials.
P221: Take any precaution to avoid mixing with combustibles/acids/oxidizers.
P264: Wash hands thoroughly after handling.
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
P332+P313: If skin irritation occurs: Get medical attention.
P337+P313: If eye irritation persists: Get medical attention.
P370+P378: In case of fire: Use dry chemical, alcohol foam, carbon dioxide or water spray to extinguish.
P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with local/regional/national regulations.

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INGESTION: MAY BE HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately, Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: MAY CAUSE RESPIRATORY TRACT IRRITATION. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: MAY CAUSE SKIN IRRITATION. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

## 

Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam.
Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. This material is an oxidizer and greatly increases the burning rate of combustible materials. May explode when mixed with combustible materials. May explode in contact with organic and reducing materials.

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chernicals. Keep out of reach of children. Avoid contact with eyes. skin and clothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.

Conditions for Safe Storage: Store in a cool, dry. well-ventilated area away from incompatible substances. Keep away from ignition sources. Keep away from combustible materials.

| Hazardous decomposition products: Yields iodine when in contact with air. Releases iodirse, potassium monoxide, and hydrogen iodide, when in contact with moist air. |  |  |

Acute toxicity: Oral-rat LD50: $\mathbf{4 8 0 0} \mathrm{mg} / \mathrm{kg}$
Skin corrosion/irritation: Data not available
Serious eye damage/irrtation: Data not available
Respiratory or skin sensitization: Data not available
Germ cell mutagenicity: Data not available
Carcinogenity: Data not available
NTP: No component of this product present at fevels greater than or equal to $0.1 \%$ is identified as a known or anticipated carcinogen by NTP.
IARC: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to $0.1 \%$ is identified as a carcinogen or potential carcinogen by OSHA.
Reproductive toxicity: Data not available
STOT-single exposure: Data not available
STOT-repeated exposure: Data not available
Aspiration hazard: Data not available
Potential health effects:
Inhalation: May cause irritation of respiratory tract.
Ingestion: Large doses may cause gastrointestinal upset and weakness.
Skin: May cause mild irritation and redness on prolonged contact.
Eyes: Can be irritating with redness and pain.
Signs and symptoms of exposure: Hypothyroidism with possibility of goitre (hypertrophy of the throid gland), possible sensitization of skin. Chronic ingestion of iodides may produce "iodism" which may be characterized by skin rash, running nose, headache, and irritation of mucous membranes. Weakness, anemia, loss of weight, and general depression may also occur. Additional information: RTECS \#: NN1575000

Toxicity to fish: No data available
Toxicity to daphnia and other aquatic Invertebrates: No data available
Toxicity to algae: No data available

Persistence and degradability: No data available
Mobility in soil: No data available
Bioaccumulative potential: No data available
PBT and vPvB assessment: No data available
Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

## SAFETY DATA SHEET

Creation Date 14-Sep-2009
Revision Date 06-Nov-2015
Revision Number 2

## 1. Identification

Product Name
Potassium iodide
Cat No. : BP367-500; P410-3; P410-10; P410-100; P410-500; P412-3; P412-10; P412-500

Synonyms KI (Granular, Free-flowing/Certified ACS/USP/FCC)
Recommended Use Laboratory chemicals.
Uses advised against No Information available
Details of the supplier of the safety data sheet

Company
Fisher Scientific
One Reagent Lane
Fair Lawn, NJ 07410
Tel: (201) 796-7100

Emergency Telephone Number
CHEMTREC®, Inside the USA: 800-424-9300
CHEMTREC® ${ }^{\circledR}$, Outside the USA: 001-703-527-3887

## 2. Hazard(s) identification

Classification
Classification under 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Based on available data, the classification criteria are not met
Label Elements
None required

Hazards not otherwise classified (HNOC)
None identified
Other hazards
May cause pulmonary edema.

## 3. Composition / information on ingredients

| Component | CAS-No | Weight \% |
| :---: | :---: | :---: |
| Potassium iodide | $7681-11-0$ | $>95$ |

4. First-aid measures

| Eye Contact | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. <br> Obtain medical attention. |
| :--- | :--- |
| Skin Contact | Wash off immediately with plenty of water for at least 15 minutes. Get medical attention <br> immediately if symptoms occur. |
| Inhalation | Move to fresh air. If breathing is difficult, give oxygen. Get medical attention immediately if <br> symptoms occur. |
| Ingestion | Do not induce vomiting. Obtain medical attention. |
| Most important symptoms/effects | No information available. May cause pulmonary edema <br> Treat symptomatically |

## 5. Fire-fighting measures

Unsuitable Extinguishing Media No information available
Flash Point No information available
Method -
No information available
Autoignition Temperature No information available
Explosion Limits
Upper No data available
Lower No data available
Sensitivity to Mechanical Impact No information available
Sensitivity to Static Discharge No information available

## Specific Hazards Arising from the Chemical

Keep product and empty container away from heat and sources of ignition. Thermal decomposition can lead to release of irritating gases and vapors.

## Hazardous Combustion Products

Hydrogen iodide
Protective Equipment and Precautions for Firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

NFPA

| Health 1 | Flammability 0 | Instability 0 | Physical hazards N/A |
| :---: | :---: | :---: | :---: |
|  | 6. Accidental release measures |  |  |
| Personal Precautions Environmental Precautions | Ensure adequate ventilation. Use personal protective equipment. Avoid dust formation. Should not be released into the environment. See Section 12 for additional ecological information. |  |  |
| Methods for Containment and Clean Sweep up or vacuum up spillage and collect in suitable container for disposal. Avoid dus Up formation. |  |  |  |

|  | 7. Handling and storage |
| :--- | :--- |
| Handling | Wear personal protective equipment. Ensure adequate ventilation. Avoid contact with skin, <br> eyes and clothing. Avoid ingestion and inhalation. Avoid dust formation. |
| Storage | Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from <br> direct sunlight. Store under an inert atmosphere. |

Engineering Measures

## Personal Protective Equipment

Eye/face Protection

Skin and body protection
Respiratory Protection

Hygiene Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Wear appropriate protective gloves and clothing to prevent skin exposure.
Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

Handle in accordance with good industrial hygiene and safety practice.

|  | 9. Physical and chemical properties |
| :--- | :--- |
| Physical State | Solid |
| Appearance | White |
| Odor | Odorless |
| Odor Threshold | No information available |
| pH | $6-85 \%$ in water $\left(20^{\circ} \mathrm{C}\right)$ |
| Melting Point/Range | $680{ }^{\circ} \mathrm{C} / 1256{ }^{\circ} \mathrm{F}$ |
| Boiling Point/Range | $1330{ }^{\circ} \mathrm{C} / 2426^{\circ} \mathrm{F} @ 760 \mathrm{mmHg}$ |
| Flash Point | No information available |
| Evaporation Rate | Not applicable |
| Flammability (solid, gas) | No information available |
| Flammability or explosive limits |  |
| Upper | No data available |
| Lower | No data available |
| Vapor Pressure | 1 mmHg @ $745{ }^{\circ} \mathrm{C}$ |
| Vapor Density | Not applicable |
| Specific Gravity | No information available |
| Solubility | Soluble in water |
| Partition coefficient; n-octanol/water | No data available |
| Autoignition Temperature | No information available |
| Decomposition Temperature | No information available |
| Viscosity | Not applicable |
| Molecular Formula | $I \mathrm{~K}$ |
| Molecular Weight | 166 |

## 10. Stability and reactivity

| Reactive Hazard | None known, based on information available |
| :--- | :--- |
| Stability | Air sensitive. Light sensitive. Hygroscopic. |

## 12. Ecological information

Ecotoxicity

| Component | Freshwater Algae | Freshwater Fish | Microtox | Water Flea |

## X - Listed

E-Indicates a substance that is the subject of a Section 5(e) Consent order under TSCA.
F - Indicates a substance that is the subject of a Section 5(f) Rule under TSCA.
N - Indicates a polymeric substance containing no free-radical initiator in its inventory name but is considered to cover the designated
polymer made with any free-radical initiator regardless of the amount used.
P - Indicates a commenced PMN substance
$R$ - Indicates a substance that is the subject of a Section 6 risk management rule under TSCA.
S - Indicates a substance that is identified in a proposed or final Significant New Use Rule
$\mathbf{T}$ - Indicates a substance that is the subject of a Section 4 test rule under TSCA.
XU - Indicates a substance exempt from reporting under the Inventory Update Rule, i.e. Partial Updating of the TSCA Inventory Data Base Production and Site Reports (40 CFR 710(B).
Y1 - Indicates an exempt polymer that has a number-average molecular weight of $\mathbf{1 , 0 0 0}$ or greater.
Y2 - Indicates an exempt polymer that is a polyester and is made only from reactants included in a specified list of low concern reactants that comprises one of the eligibility criteria for the exemption rule.

## End of SDS

Effective date : 12.16.2014

SECTION 1: Identification of the substance/mixture and of the supplier
Product name:

## Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number:
Potassium lodide 0.05 M

## Recommended uses of the product and restrictions on use:

## Manufacturer Details:

AquaPhoenix Scientific, Inc.
9 Barnhart Drive
Hanover, PA 17331
1-717-632-1291

## Supplier Details:

AquaPhoenix Scientific Inc.
9 Barnhart Drive, Hanover PA 17331
(717) 632-1291

## Emergency telephone number:

ChemTel: (24-hour) (US and Canada)
1-(800)-255-3924

## SECTION 2: Hazards identification

## Classification of the substance or mixture:

Irritant

Skin Irritation, Category 2.
Eye Irritation, Category 2.
Signal word: None

## Hazard statements:

Causes serious eye irritation.
Causes skin irritation.

## Precautionary statements:

If medical advice is needed have product container or label at hand.
Keep out of reach of children.
Read label before use.
Wash skin thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.
IF ON SKIN: Wash with soap and water.
Specific treatment (see supplemental first aid instructions on this label).
If skin irritation occurs: Get medical advice/attention.
Take off contaminated clothing and wash before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do.
Continue rinsing.
If eye irritation persists get medical advice/attention.

Other Non-GHS Classification: None

Effective date : 12.16.2014

SECTION 3: Composition/information on ingredients

Ingredients:

| Ingredients: | Potassium lodide | $0.83 \%$ |
| :--- | :--- | :--- |
| CAS 7681-11-0 | Deionized Water | $99.12 \%$ |
| CAS 7732-18-5 | Sodium Bicarbonate | $0.05 \%$ |
| CAS 144-55-8 | Percentages are by weight |  |

## SECTION 4: First aid measures

## Description of first aid measures

## After inhalation:

Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. Seek medical advice if discomfort or irritation persists. If breathing difficult, give oxygen.

After skin contact:
Wash affected area with soap and water. Rinse thoroughly. Seek medical attention if irritation persists or if concerned.

## After eye contact:

Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

## After swallowing:

Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists.

## Most important symptoms and effects, both acute and delayed:

Irritation. Nausea. Headache. Shortness of breath.
Indication of any immediate medical attention and special treatment needed:
If seeking medical attention, provide SDS document to physician.

## SECTION 5: Firefighting measures

## Extinguishing media

## Suitable extinguishing agents:

If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate fire suppression agents for adjacent combustible materials or sources of ignition. Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing agents: None

## Special hazards arising from the substance or mixture:

Combustion products may include carbon oxides or other toxic vapors. Thermal decomposition can lead to release of irritating gases and vapors.

## Advice for firefighters:

## Protective equipment:

Use NIOSH-approved respiratory protection/breathing apparatus.

## Additional information (precautions):

| lo |  |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |

Move product containers away from fire or keep cool with water spray as a protective measure, where feasible.

## SECTION 6: Accidental release measures

## Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Use respiratory protective device against the effects of fumes/dust/aerosol. Keep unprotected persons away. Ensure adequate ventilation.

## Environmental precautions:

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13.
Small quantities may be flushed to drains with plenty of water.

## Methods and material for containment and cleaning up:

If in a laboratory setting, follow Chemical Hygiene Plan procedures. Collect liquids using vacuum or by use of absorbents. Place into properly labeled containers for recovery or disposal. If necessary, use trained response staff/contractor.

## Reference to other sections: None

## SECTION 7: Handling and storage

## Precautions for safe handling:

Wash hands after handling. Follow good hygiene procedures when handling chemical materials. Use only in well ventilated areas. Avoid contact with eyes, skin, and clothing.

## Conditions for safe storage, including any incompatibilities:

Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store away from foodstuffs. Store away from oxidizing agents. Store in cool, dry conditions in well sealed containers. Keep container tightly closed. Protect from freezing and physical damage.

## SECTION 8: Exposure controls/personal protection

## Control parameters:

Appropriate engineering controls:

7681-11-0, Potassium lodide, ACS, ACGIH NIOSH $0.01 \mathrm{mg} / \mathrm{m} 3$.
Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or dusts (total/respirable) below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. Use under a fume hood.
Respiratory protection: Use suitable respiratory protective device when high concentrations are present. For spills, respiratory protection may be advisable. Normal ventilation is adequate.
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation being used/handled. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.
Safety glasses with side shields or goggles.
The usual precautionary measures are to be adhered to when handling chemicals. Wash hands before breaks and at the end of work. Do not inhale gases/fumes/dust/mist/vapor/aerosols. Avoid contact with the eyes and skin.

Safety Data Sheet
according to 29CFR1910/1200 and GHS Rev. 3
Effective date : 12.16.2014

|  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

SECTION 9: Physical and chemical properties

| Appearance (physical state, color): | Clear, colorless liquid | Explosion limit lower: Explosion limit upper: | Not determined Not determined |
| :---: | :---: | :---: | :---: |
|  | Odorless | Vapor pressure at $\mathbf{2 0}{ }^{\circ} \mathrm{C}$. | Not determined |
| Odor threshold: | Not determined | Vapor density: | Not determined |
| pH-value: 4 , max, | Not determined | Relative density:, | Approx 1.07-1.36 |
| Melting/Freezing point: | Approx $0^{\circ} \mathrm{C}$ | Solubilities: | Soluble in water. |
| Boiling point/Boiling range: | Approx $100^{\circ} \mathrm{C}$ | Partition coefficient (noctanol/water) | Not determined |
| Flash point (closed cup): | Not determined | Auto/Selfignition temperature: | Not determined |
| Evaporation rate: | Not determined | Decómposition temperature. | Not determined |
| Flammability (solid, gaseous): | Not determined | Viscosity: | a. Kinematic: Not determined b. Dynamic: Not determined |
| Density at $20^{\circ} \mathrm{C}$ | Not determined |  |  |

## SECTION 10: Stability and reactivity

## Reactivity:

Nonreactive under normal conditions.

## Chemical stability:

No decomposition if used and stored according to specifications.

## Possible hazardous reactions:

None under normal processing.

## Conditions to avoid:

exposure to light. Incompatible Materials.

## Incompatible materials:

Strong acids. Strong bases. Strong oxidizers.

## Hazardous decomposition products:

Hydrogen iodide. Iodine gas. May include oxides of iodine.

## SECTION 11: Toxicological information

## Acute Toxicity:

Chronic Toxicity: No additional information.
Skin corrosion/irritation:
: Rabbit: causes irritation. 7681-11-0.

## Serious eye damage/irritation:

: Rabbit: causes irritation. 7681-11-0.

Respiratory or skin sensitization: No additional information.
Carcinogenicity: No additional information.
Germ cell mutagenicity: No additional information.

Effective date : 12.16.2014

Reproductive Toxicity: No additional information.
STOT-single and repeated exposure: No additional information.
Additional toxicological information: No additional information.

## SECTION 12: Ecological information

## Ecotoxicity:

: Crustacea LC50 Zebra mussel (Dreissena polymorpha) $220-313 \mathrm{mg} / \mathrm{l}, 24$ hours, 7681-11-0.
: Fish LC50 - Oncorhynchus mykiss (rainbow trout) - 2,190 mg/l-96 h, 7681-11-0.
Persistence and degradability: No additional information.
Bioaccumulative potential:
Not expected to bio accumulate.
Mobility in soil: No additional information.
Other adverse effects: No additional information.

## SECTION 13: Disposal considerations

## Waste disposal recommendations:

Product/containers must not be disposed together with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Consult federal state/ provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product. Small amounts may be flushed with water to sewer. Larger volumes must be sent to approve plant for destruction.

SECTION 16: Other Information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.

800-227-1150 (8am-5pm (ET) M-F) 800-424-9300 (Transportation Spill Response 24 hours)

## Section 2 Hazard Identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

May cause an allergic skin reaction. Causes eye irritation.
GHS Classification:
Serious Eye Damage/Eye Irritation Category 2B
Other Safety Precautions: May cause eye irritation.
May cause gastrointestinal discomfort.
May cause irritation to respiratory tract.
May cause irritation to skin.

## Section 3 Composition / Information on Ingredients

| Chemical Name | CAS \# | \% |
| :--- | :--- | :--- |
| Water | $7732-18-5$ | 85.15 |
| Potassium lodide | $7681-11-0$ | 14.85 |

## Section 4

## First Aid Measures

## Emergency and First Aid Procedures

Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest
Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin Contact: $\quad$ After contact with skin, wash immediately with plenty of water.
Ingestion: If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Section $5 \quad$ Firefighting Procedures

Extinguishing Media:
Fire Fighting Methods and Protection:
Fire and/or Explosion Hazards:
Hazardous Combustion Products:

Use media suitable to extinguish surrounding fire.
Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.
Fire or excessive heat may produce hazardous decomposition products.
Potassium Oxide, Hydrogen lodide

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Ventilate the contaminated area. Remove soiled clothing and launder before reuse.
Use an inert absorbent such as sand or vermiculite. Place in properly labeled closed container. Contain the discharged material.

## Section 7

## Handling and Storage

Handling: Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe dust/vapor. Do not get in eyes, on skin, or on clothing. Retained residue may make empty containers hazardous; use caution.
Storage: Keep container tightly closed in a cool, well-ventilated place.
Storage Code: Green-general chemical storage

Local exhaust ventilation or other engineering controls are normally required when handling or using this product to avoid overexposure. Good general room ventilation should be sufficient to control airborne contaminates to safe levels.
Lab coat, apron, eye wash, safety shower.
No respiratory protection required under normal conditions of use.
NIOSH approved air purifying respirator with dust/mist filter.
Wear chemical splash goggles when handling this product. Have an eye wash station available.
Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.
Nitrile

## Section 9

## Physical Data

Formula: N/A
Molecular Weight: $166.00 \mathrm{~g} / \mathrm{mol}$
Appearance: Colorless to pale yellow Liquid
Odor: None
Odor Threshold: No data available
pH: Neutral
Melting Point: 681 C
Boiling Point: 100 C
Flash Point: No data available
Flammable Limits in Air: N/A N/A

Vapor Pressure: 14
Evaporation Rate (BuAc=1): Slightly $<1$
Vapor Density (Air=1): 0.7
Specific Gravity: Approx. 1.0
Solubility in Water: Soluble
Log Pow (calculated): No data available
Autoignition Temperature: No data available
Decomposition Temperature: No data available
Viscosity: No data available
Percent Volatile by Volume: 99.17\%

## Section 10

Reactivity:
Chemical Stability:
Conditions to Avoid:

No data available
Stable under normal conditions.
Elevated temperatures

## Safety Data Sheet

Incompatible Materials: Hazardous Decomposition Products:
Hazardous Polymerization:

Water-reactive materials, Strong oxidizing agents
Hydrogen Iodide, Potassium Oxide
Will not occur

## Section 11 Toxicity Data

## Section 12 <br> Ecological Data

| Overview: | This material is not expected to be harmful to the ecology. |  |
| :--- | :--- | :--- |
| Mobility: | No data |  |
| Persistence: | Dissolved into water |  |
| Bioaccumulation: | No data |  |
| Degradability: | No data |  |
| Other Adverse Effects: | No data |  |
|  |  | CAS Number | Eco Toxicity | Chemical Name |  | $7732-18-5$ |
| :--- | :--- | :--- |
| Water |  | No data available |
| Potassium lodide |  |  |

## Section 13 Disposal Information

Disposal Methods:
Waste Disposal Code(s):

Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance. Not Determined

Section 14

Ground - DOT Proper Shipping Name: N/A

Transport Information
Air - IATA Proper Shipping Name:
Not regulated for air transport by IATA.

## Safety Data Sheet

Section 15
TSCA Status:

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

 anything by mouth to an unconscious person.
 give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.
 irritation occurs, get medical attention.

Suitable Extinguishing Media: Use any media suitable for extinguishing supporting fire.
Protective Actions for Fire-fighters: In fire conditions. wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Not combustible but enhances combustion of other substances. Risk of fire and explosion on contact with reducing agents.

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
 Wash spill area with soap and water.

Sectron 7 . Handiling \& Storago
 ontact with reuse.

Conditions for Safe Storage: Store in a cool, dry, well-ventlated area away from incompatible substances. Keep away from ignition sources.

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handing at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

Appearance: Solid. White crystals or prills Odor: No odor
Odor threshold: Data not available.
pH : Data not available.
Melting / Freezing point: $333^{\circ} \mathrm{C}\left(631^{\circ} \mathrm{F}\right)$
Boiling point: $400^{\circ} \mathrm{C}\left(752^{\circ} \mathrm{F}\right)$
Flash point: Not flammable

Evaporation rate $(=1)$ : Data not available Flammability (solid/gas): Data not available. Explosion limits: Lower / Upper: Data not available Vapor pressure (mm Hg): Negligible Vapor density ( $\mathbf{A i r}=1$ ): 3.0 Relative density (Specific gravity): 2.1 Solubility(ies): $36 \mathrm{~g} / 100 \mathrm{ml}$ in water.

Partition coefficient: Data not available
Auto-ignition temperature: Data not available Decomposition temperature: Data not available. Viscosity: Data not available.
Molecular formula: $\mathrm{KNO}_{3}$
Molecular weight: 101.11

Chemical stability: Stable
Hazardous polymerization: Will not occur
Conditions to avoid: Excessive temperatures, heat, sparks, open flame and other sources of ignition.
Incompatible materials: Heavy metals, phosphites, organic compounds, carbonaceous materials, strong acids and many other materials.
Hazardous decomposition products: Nitrogen oxides and toxic metal fumes.

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION <br> Potassium Nitrate

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300 Signal Word WARNING

## SECTION 2 - HAZARDS IDENTIFICATION

Hazard class: Oxidizing solids (Category 3). May intensify fire; oxidizer (H272). Keep away from heat, sparks, open flames, and hot surfaces. No smoking (P210).

Hazard class: Acute toxicity, oral (Category 5). May be harmful if swallowed (H303).

SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Forruala |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
| Weight | Concentration |  |  |  |
| Component Name | CAS Number | Formula |  <br>  | $7757-79-1$ |
| $\mathrm{KNO}_{3}$ | 101.11 |  |  |  |

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.
If on skin: Wash with plenty of water.
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell.

## SECTION 5 - FIRE FIGHTING MEASURES

Nonflammable solid.
NFPA Code
Strong oxidizer. Dangerous fire risk if shocked or heated. Avoid contact with organic materials.
None
When heated to decomposition, may emit toxic fumes.
established
In case of fire: Use a tri-class dry chemical fire extinguisher.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Sweep up, place in sealed bag or container and dispose. Ventilate area and wash spill site after material pickup is complete. See
Sections 8 and 13 for further information.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#3. Store with amides, nitrates, nitrites and azides.
Slightly hygroscopic. Store in a Flinn Chem-Saf ${ }^{\text {TM }}$ bag in a cool, dry place. Keep away from combustible materials (P220). Take any precautions to avoid mixing with combustibles ( P 221 ).

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Transparent, colorless crystals or powder. Odorless.
Soluble: Water and glycerin. Slightly in alcohol.

Melting point: $333^{\circ} \mathrm{C}$
Specific gravity: 2.1062

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with strong reducers, finely powdered metals, strong acids, organic and combustible materials.
Shelf life: Good, slightly hygroscopic. See Section 7 for further information.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Irritant
Chronic effects: N.A.
Target organs: Blood, central nervous system

ORL-RAT LD ${ }_{50}: 3750 \mathrm{mg} / \mathrm{kg}$
IHL-RAT LC ${ }_{50}$ : N.A.
SKN-RBT LD ${ }_{50}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26b is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Potassium Nitrate. Hazard class: 5.1, Oxidizer. UN number: UN1486.
N/A = Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (231-818-8), RCRA code D001.

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. Flinn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages relating thereto. The data is offered solely for your consideration, investigation, and verification. The data shouid not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of handling, storage, use and disposal of the product(s) described are beyond the control of Flinn Scientific, Inc. and may be beyond our knowledge. FOR THIS AND OTHER
REASONS WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals.
Revision Date: March 21, 2014

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Potassium Permanganate

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300
Signal Word DANGER

## SECTION 2 - HAZARDS IDENTIFICATION

Hazard class: Oxidizing solids (Category 2). May intensify fire; oxidizer (H272). Keep away from heat, sparks, open flames, and hot surfaces. No smoking (P210).

Hazard class: Acute toxicity, oral (Category 4). Harmful if swallowed (H302). Do not eat, drink, or smoke when using this product (P270).

SECTION 3 - COMPOSITION, INFORMATION ON INGREDIENTS

| Component Name | CAS Number | Formula | Formula <br> Weight | Concentration <br> Potassium permanganate <br>  $\operatorname{} 7722-64-7$ |
| :--- | :---: | :---: | :---: | :---: |
| $\mathrm{KMnO}_{4}$ | 158.04 |  |  |  |

## SECTION 4 - FIRST AID MEASURES

If exposed or concerned: Get medical advice or attention ( $\mathrm{P} 308+\mathrm{P} 313$ ).
If inhaled: Remove victim to fresh air in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.
If on skin: Rinse cautiously with water for several minutes.
If swallowed: Rinse mouth (P330). Call a POISON CENTER or physician if you feel unwell (P301+P312).

## SECTION 5 - FIRE FIGHTING MEASURES

Nonflammable solid.
Powerful oxidizing agent; dangerous fire and explosion risk. When heated in contact with organic or combustible materials, can explode. When heated to decomposition, may emit toxic fumes.

NFPA Code
None established

In case of fire: Use a tri-class dry chemical fire extinguisher (P370+P378).

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Sweep up, place in sealed bag or container and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## Flinn Scientific, Inc.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#8. Store with borates, chromates, manganates and permanganates.
Store in a cool dry place.
Keep away from combustible materials ( P 220 ). Take any precautions to avoid mixing with combustibles (P221).

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264).

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Dark purple to blue crystals with a metallic sheen. Odorless.
Soluble: Water, acetone and methyl alcohol

Melting point: $240^{\circ} \mathrm{C}$ (decomposes)
Specific gravity: 2.7032

## SECTION 10 - STABILITY AND REACTIVITY

Avoid contact with strong reducers, organic and combustible materials, finely powdered metals, peroxides, aluminum, zinc, lead, copper, and their alloys.
Shelf life: Indefinite, if stored properly.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Toxic, corrosive. Overexposure may produce anemia, swelling of the throat with possible suffocation, kidney damage and infertility in men. Chronic effects: N.A.
Target organs: Central nervous system, blood, kidneys, lungs

ORL-RAT $^{\text {LD }}{ }_{50}: 1090 \mathrm{mg} / \mathrm{kg}$

CHEMTREC 24 Hour Emergency
Phone Number (800) 424-9300
For laboratory use only.
Not for drug, food or household use.

| Product | POTASSIUM PERMANGANATE |
| :---: | :---: |
| Synonyms | Chameleon Mineral |

Signal word: DANGER
Pictograms: GHS03 / GHS07/GHS09
Target organs: None known

GHS Classification:
Oxidizing solid (Category 2)
Acute toxicity, ingestion (Category 4)
Aquatic acute (Category 1)
Aquatic chronic (Category 1)
GHS Label information: Hazard statement:
H272: May intensify fire; oxidizer.
H302: Harmful if swallowed.
H400: Very toxic to aquatic life.
H410: Very toxic to aquatic life with long lasting effects.

Precautionary statement:
P210: Keep away from heat/sparks/open flames/hot surfaces. No smoking.
P220: Keep away from clothing/incompatible/combustible materials.
P221: Take any precaution to avoid mixing with combustibles/acids/oxidizers.
P264: Wash hands thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P273: Avoid release to the environment.
P280: Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P312: IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor if you feel unwell.
P370+P378: In case of fire: Use WATER ONLY to extinguish.
P391: Collect spillage.
P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with local/regional/national regulations.

Ca Prop 65 - This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INGESTION: HARMFUL IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by apprapriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: HARMFUL IF INHALED. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
EYE CONTACT: CAUSES SEVERE BURNS. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.
SKIN ABSORPTION: CAUSES BURNS. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
Containment and Cleanup: Remove all sources of ignition. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety giasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves, Use adequate ventilation to keep airborne concentrations low.
Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

##  <br> Appearance: Solid, shiny, dark purple crystals. TSCA-listed, EINECS-listed (231-915-5).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests betieved to be reliable. Flinn Scientific, Inc. makes no guarantee of the accuracy or this completeness of the data and shast not be liable for any damages relating thereto. The data is offered sotely y data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSITUTE NO WARRANTY. Any use of this data and data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CoN laws and regulations. The conditions or methods of information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of handing, storage, use and disposal of the product(s) described are beyond the control of Flinn Scientific, Inc. and may be beyond our knowledge. FOR THIS AND OTH
REASONS WE DO NOT ASSUME RESPONSIBILTY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY REASONS, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR L
WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals. Revision Date: March 27, 2014

## Flinn Scientific, Inc. Safety Data Sheet (SDS)

## SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

## Potassium Thiocyanate

Flinn Scientific, Inc. P.O. Box 219, Batavia, IL 60510 (800) 452-1261
CHEMTREC Emergency Phone Number: (800) 424-9300 Signal Word WARNING
SECTION 2 - HAZARDS IDENTIFICATION
Hazard class: Acute toxicity, oral, dermal, and inhalation (Category 4). Harmful if swallowed, inhaled or in
contact with skin (H302+H312+H332). Do not eat, drink or smoke when using this product (P270). Avoid breathing dust or fumes (P261).

## SECTION 4 - FIRST AID MEASURES

Call a POISON CENTER or physician if you feel unwell.
If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If on skin: Rinse cautiously with water for several minutes ( $\mathrm{P} 302+\mathrm{P} 351$ ). Call a POISON CENTER if you feel unwell (P312). Wash contaminated clothing before reuse (P362).
If swallowed: Rinse mouth. Call a POISON CENTER or physician if you feel unwell (P301+P330+P312).

## SECTION 5 - FIRE FIGHTING MEASURES

Nonflammable solid.
When heated to decomposition, may emit toxic fumes.
In case of fire: Use a tri-class dry chemical fire extinguisher.
NFPA Code
None established

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Sweep up, place in sealed bag or container and dispose. Ventilate area and wash spill site after material pickup is complete. See Sections 8 and 13 for further information.

## SECTION 7 - HANDLING AND STORAGE

Flinn Suggested Chemical Storage Pattern: Inorganic \#7. Store with arsenates, cyanides and cyanates.
Moisture sensitive material. Store in a Flinn Chem-Saf ${ }^{T M}$ bag. Store in a cool dry place.

## SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION

Wear protective gloves, protective clothing, and eye protection (P280). Wash hands thoroughly after handling (P264).

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Colorless transparent crystals. Odorless.
Specific gravity: 1.88
Soluble: Water, alcohol and acetone
Melting point: $173{ }^{\circ} \mathrm{C}$

## SECTION 10 - STABILITY AND REACTIVITY

If heated or in contact with concentrated acids, may liberate poisonous fumes of hydrogen cyanide. Avoid contact with strong acids, oxidizing agents, and heat.
Shelf life: Fair to poor, deliquescent. See Section 7 for further information.

## SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects: Toxic, irritant, eczema
Chronic effects: N.A.
Target organs: N.A.

ORL-RAT LD $_{50}: 854 \mathrm{mg} / \mathrm{kg}$
IHL-RAT LC $C_{50}$ : N.A.
SKN-RBT LD ${ }_{5 \Omega}$ : N.A.
N.A. = Not available, not all health aspects of this substance have been fully investigated.

## SECTION 12 - ECOLOGICAL INFORMATION

Data not yet available.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Please review all federal, state and local regulations that may apply before proceeding.
Flinn Suggested Disposal Method \#26a is one option.

## SECTION 14 - TRANSPORT INFORMATION

Shipping name: Not regulated. Hazard class: N/A. UN number: N/A.
N/A $=$ Not applicable

## SECTION 15 - REGULATORY INFORMATION

TSCA-listed, EINECS-listed (206-370-1).

## SECTION 16 - OTHER INFORMATION

This Safety Data Sheet (SDS) is for guidance and is based upon information and tests believed to be reliable. Flinn Scientific, Inc. makes no guarantee of the accuracy or completeness of the data and shall not be liable for any damages relating thereto. The data is offered solely for your consideration, investigation, and verification. The completeness of the data and shall not be liable for any damages relating thereto. The data is offered solely for your conside not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and data should not be confused with local, state, federal or insurance mandates, regulations, or requirements and CONSTITUTE NO WARRANTY. Any use of this data and information must be determined by the science instructor to be in accordance with applicable local, state or federal laws and regulations. The conditions or methods of handing, storage, Use and disposal of the product(s) described are beyond the controi of Flinn Scientific, Inc. and may be beyond our knowiedge. FOR THIS AND OTH
REASONS WE DO NOT ASSUME RESPONSIBLITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY REASONS, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABBLITY FOR LO
WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THIS PRODUCT(S).
Consult your copy of the Flinn Science Catalog/Reference Manual for additional information about laboratory chemicals.

```
Attention: . . . . . . . . . : Material Safety Data Sheet Coordinator
The attached Material Safety Data Sheet relates potential hazards and
recommended practices for safe handling of the product that you purchased
from Raabe Company.
We urge you and your employees to review the entire MSDS prior to
handling, use or disposal of the product.
You are required to keep this MSDS on file for reference by company
employees or government regulatory officials.
If you resell or distribute this product, you must furnish a copy of the
MSDS to your customer.
```

SECTION 1 - CHEMICAL PRODUCT AND COMPANY IDENTIFICATION
CHEMICAL PRODUCT IDENTIFICATION:
PRODUCT CODE. . . . : 62285683709604
PRODUCT NAME . . . : SAFETY GREEN IF-7626 101220-00-023
PRODUCT CLASS . . . : Aerosol Touch-up
MSDS PREPARATION DATE : 02/05/2008
MANUFACTURER IDENTIFICATION:
RAABE COMPANY
PO BOX 1090
MENOMONEE FALLS WI 53052-1090
EMERGENCY TELEPHONE NUMBERS:
24 HOURS A DAY - CALL CHEMTREC : 800-424-9300
INTERNATIONAL CALLS TO CHEMTREC : 703-527-3887
8 AM TO 4:30 PM CENTRAL TIME : 262-255-9500

## RZ683709

been found to cause the following effects in laboratory animals:
Kidney damage
Eye damage
Lung damage
Liver damage
spleen damage
Anemia
Red blood cell damage
Chronic overexposure to a component or components is this product has been suggested as a cause of the following effects in humans: cardiac abnormalities
Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage. Rats exposed to titanium dioxide dust at $250 \mathrm{mg} / \mathrm{m} 3$ developed 1 ung cancer, however, such exposure levels are not attainable in the workplace with this material.
In April 1996, The International Agency for Research on Cancer (IARC) published Monograph 65 which reclassifies Carbon Black into Group 2B (possibly carcinogenic to humans).
In February 2000 the Internationai Agency for Research on Cancer (IARC) classified ethylbenzene as possibly carcinogenic to humans (Group 2B) on the basis of sufficient evidence for carcinogenicity in experimental animals but inadequate evidence for cancer in humans.

## SECTION 4 - FIRST AID MEASURES

## EYE CONTACT:

Immediately flush eyes with plenty of water. Get medical attention, if
irritation persists.
Flush with large quantities of water for 15 minutes.
SKIN CONTACT:
Wash with soap and water. Get medical attention if irritation develops or persists.
wash thoroughly with soap and water and seek medical attention if irritation persists. Remove contaminated clothing. Launder contaminated clothing before reuse.

## INHALATION:

Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficuit, give oxygen. Get immediate medical attention. For inhalation overexposure move person to fresh air. If breathing stops, apply artificial respiration and seek medical attention.
INGESTION:
since this product may contain materials which can cause lung damage if aspirated into the lungs, the decision whether to induce vomiting or not must be made by a physician after careful consideration of all materials ingested.

```
SECTION 5 - FIRE FIGHTING MEASURES
```

FIRE AND EXPLOSIVE PROPERTIES OF THE PRODUCT:

$$
\begin{aligned}
& \text { Flashpoint } \\
& \text { Explosion Levei } . . . . . . . . . . . . . ~
\end{aligned}
$$

EXTINGUISHING MEDIA:
Use Dry Chemical, Carbon Dioxide or Chemical Foam.
FIRE-FIGHTING PROCEDURES AND EQUIPMENT:
Keep containers tightly closed. Isolate from heat, sparks, and open
flame. Closed containers may explode when exposed to extreme heat. Contents under pressure. Do not use or store near sources of heat, sparks or open flame. Keep away from any source of heat such as sunlight, heaters or stoves that could cause the container to burst. Do not puncture or incinerate. Do not crush or place in a garbage Page 4

RZ683709
compactor. Do not store above 120 degrees $F$. Aerosol containers may explode when exposed to extreme heat. Product vapors are heavier than air and may travel a long distance to a source of ignition and flash back.
Full protective equipment including self-contained breathing apparatus to avoid inhalation of vapors should be used. water spray should not be used except to keep down vapors or cool closed containers to prevent build-up of pressure. If water is used, fog nozzles are preferred.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

CLEAN-UP AND CONTAINMENT:
Remove all sources of ignition. Avoid heat, sparks, flames and anything which could cause fire.
ventilate area of spili and adjacent low lying areas. Avoid breathing solvent vapors. Remove with inert absorbent materials and non-sparking tools.

```
SECTION 7 - HANDLING AND STORAGE
```

## HANDLING:

wash hands thoroughly after handling.
This product contains chemical(s) which are listed on california's proposition 65 list. If the product is to be sold or used in California a clear and reasonable warning must be provided such as: warning! This product contains a chemical or chemicals known to the state of California to cause cancer.
STORAGE:
Store in a cool dry area with ventilation suitable for storing materials shown in section 2 .
Keep away from heat, sparks and flame.
store in a cool place away from direct sunlight or any source of ignition. Do not store at temperatures above 120 degrees $F$.

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION
ENGINEERING CONTROLS:
Sufficient ventilation, in volume and pattern, should be provided to keep air contamination below current applicable OSHA permissible exposure limit or ACGIH's TLV limit.
RESPIRATORY PROTECTION:
If workplace exposure limits are exceeded for any component (see section 2 for hazardous components and exposure limits), a NIOSH/OSHA approved respirator suitable for components listed is recommended.
SKIN PROTECTION:
Chemical resistant plastic or rubber gloves recommended for prolonged or repeated contact.
EYE PROTECTION:
Chemical goggles with side shields or face shield recommended if contact
with the eyes is likely.
OTHER PROTECTIVE EQUIPMENT:
Appropriate impervious clothing is recommended if prolonged or repeated contact is likely.
HYGIENIC PRACTICES:
wash hands before eating or smoking. Smoke in designated areas only.
SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Page 5

SECTION 10 - STABILITY AND REACTIVITY
CONDITIONS TO AVOID:
Avoid contact with heat, sparks, and open flame.
Product may explode if heated. Keep cool, avoid exposure to heat.
INCOMPATIBILITIES:
Strong oxidizing agents.
DECOMPOSITION:
Thermal decomposition may produce carbon dioxide, carbon monoxide, and unidentifiable organic materials.
Product may produce toxic fumes when burned.
POLYMERIZATION:
No hazardous polymerization will occur under normal conditions. STABILITY:

The product is stable under normal storage conditions.
SECTION 11 - TOXICOLOGICAL INFORMATION
No specific information is available. Please refer to section 2 and 3
for available information on exposure limits and hazards identification.
SECTION 12 - ECOLOGICAL INFORMATION
No specific ecological information is available for this product.
SECTION 13 - DISPOSAL CONSIDERATIONS
WASTE DISPOSAL:
Place in closed containers. Dispose of product in accordance with local,
county, state, and federal regulations.
SECTION 14 - TRANSPORT INFORMATION
Ground shipment of limited or excepted quantities of aerosols or liquid
paint in containers of 1 quart or less:
CONSUMER COMMODITY, ORM-D
Ground shipment of liquid paint in containers more than 1 quart: PAINT, FLAMMABLE LIQUID, UN1263, CLASS 3, GROUP II (Regulatory sources: DOT 49CFR 172.101)
Air shipment of limited or excepted quantities of aerosols or liquid paint in containers of 1 quart or less:

CONSUMER COMMODITY, ID 8000, CLASS 9 MISCELLANEOUS LABEL
(Regulatory sources: IATA Quantity Exemptions - Table 2.8.4, 2.7.A, 2.7.5, Packaging Instruction: 910)

OR
AEROSOLS, FLAMMABLE, UN1950, CLASS 2.1 LABEL
(Regulatory sources: IATA Quantity Exemptions - Table 2.8.1, 2.8.4, Packaging Instruction: Y203)

SECTION 15 - REGULATORY INFORMATION

SARA 313 INFORMATION:

RZ683709
This product contains the following substances subject to the reporting requirements of section 313 of Title III of the superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

ETHYLBENZENE
CAS\# 100-41-4 PCT BY WT: 2.7060

XYLENE
CAS\# 1330-20-7 PCT BY WT: 11.7350

FEDERAL REGULATIONS:
TOXIC SUBSTANCES CONTROL ACT: The chemical substances in this product are
listed on the TSCA Section 8 inventory.
STATE REGULATIONS:
This product contains chemical(s) which are listed on california's
proposition 65 list. If the product is to be sold or used in California
a clear and reasonable warning must be provided such as:
warning! This product contains a chemical or chemicals known to the state
of california to cause cancer.
NEW JERSEY RIGHT-TO-KNOW

DANGER:
HARMFUL OR FATAL IF SWALLOWED. EYE IRRITANT, VAPORS CAN BE HARMFUL. DO NOT INGEST OR INHALE. USE PRODUCT IN WELL VENTILATED AREA. KEEP AWAY FROM HEAT, SPARKS AND FLAME. KEEP CONTAINER CLOSED WHEN NOT IN USE.

STATEMENT OF HAZARDS: CONTACT MAY CAUSE EYE AND SKIN IRRITATION.

```
FIRE AND EXPLOSION HAZARDS:
COMBUSTIBLE LIQUID WITH FLASH POINT ABOVE 100 F (38 C).
PRIMARY ROUTE OF EXPOSURE:
SKIN AND EYE CONTACT ARE THE PRIMARY ROUTES OF EXPOSURE TO THIS PRODUCT.
SKIN CONTACT - ACUTE: SKIN CONTACT MAY CAUSE MILD IRRITATION.
EYE CONTACT - ACUTE: EYE CONTACT CAN CAUSE IRRITATION.
```

## SECTION 4. FIRST AID MEASURES

```
INHALATION FIRST AID:
INHALATION IS UNLIKELY; HOWEVER, IF IT DOES OCCUR, REMOVE VICTIM TO FRESH
AIR. IF NOT BREATHING, GIVE ARTIFICIAL RESPIRATION. IF BREATHING IS
DIFFICULT, ADMINISTER OXYGEN. SEEK MEDICAL ATTENTION
SKIN CONTACT FIRST AID:
WASH OFF WITH WATER. IF IRRITATION PERSISTS, SEEK MEDICAL ATTENTION.
EYE CONTACT FIRST AID:
IMMEDIATELY FLUSH WITH PLENTY OF WATER FOR AT LEAST 15 MINUTES HOLDING
EYELIDS APART TO ENSURE FLUSHING OF ENTIRE EYE SURFACE. IF IRRITATION
PERSISTS SEEK MEDICAL ATTENTION.
```

INGESTION FIRST AID:
IF SWALLOWED DO NOT INDUCE VOMITING. RINSE MOUTH AND GIVE LARGE QUANTITIES
OF WATER. CONTACT A PHYSICIAN OR POISON CONTROI IMMEDIATELY. NEVER GIVE AN
UNSEEN MEDICAL ATTENTION.

SECTION 5. FIRE FIGHTING MEASURES

```
FLASH POINT: GREATER THAN 100.0 F 38.0 C
```

FLASH METHOD: PENSKY-MARTEN'S CLOSED CUP
AUTO IGNITION TEMPERATURE: GREATER THAN 302.0 E 150.0 C
UPPER EXPLOSION LIMIT: N/D
LOWER EXPLOSION LIMIT: N/D

EXTINGUISHING MEDIA:
REGULAR FOAM, DRY CHEMICAL OR CARBON DIOXIDE. DIRECT APPLICATION OF HIGH PRESSURE WATER STREAMS MAY SCATTER BURNING MATERIAL.

FIRE FIGHTING PROCEDURE:
AS IN ANY FIRE, PREVENT HUMAN EXPOSURE TO FIRE, SMOKE, FUMES, OR PRODUCTS

OF COMBUSTION. EVACUATE NON-ESSENTIAL PERSONNEL FROM THE FIRE AREA.
FIREFIGHTERS SHOULD WEAR POSITIVE PRESSURE/PRESSURE DEMAND, SELF-CONTAINED BREATHING APPARATUS AND IMPERVIOUS PROTECTIVE CLOTHING. IF POSSIBLE, REMOVE CONTAINERS FROM THE FIRE AREA. KEEP FIRE EXPOSED CONTAINERS COOL WITH A WATER FOG OR SPRAY TO PREVENT EXCESSIVE HEAT. HIGH PRESSURE WATER MAY SPREAD PRODUCT FROM BROKEN CONTAINERS INCREASING CONTAMINATION OR FIRE HAZARD.

FIRE AND EXPLOSION HAZARD: COMBUSTIBLE

SEE SECTION 14 FOR ANY SHIPPING CLASSIFICATIONS.

OTHER FIRE AND EXPLOSION HAZARDS:
FLASH POINT - CLOSED CUP: 180 DEG. F (82 DEG. C)

NAPA HEALTH RATING 2
NFPA FLAMMABILITY RATING 2
NAPA REACTIVITY RATING 0

## SECTION 6. ACCIDENTAL RELEASE MEASURES

CLEANUP:
FOR SMALL SPILLS SOAK UP WITH AN INERT ABSORBENT MATERIAL AND DISPOSE OF IN AN APPROPRIATE WASTE CONTAINER. LARGE SPILLS SHOULD BE DIKED, CONTAINED AND COLLECTED FOR LATER DISPOSAL ACCORDING TO LOCAL, STATE OR FEDERAL REGULATIONS.

## SECTION 7. HANDLING AND STORAGE

HANDLING:

DANGER:
HARMFUL OR FATAL IF SWALLOWED. IRRITATING TO EYES, AND HAS HARMFUL VAPOR. USE IN A WELL VENTILATED AREA.

## STORAGE:

STORE IN AN AREA INACCESSIBLE TO CHILDREN AND PETS. CLOSE CONTAINER AFTER EACH USE. CONTAINERS SHOULD BE STORED IN A COOL, DRY AND WELL VENTILATED, AREA AWAY FROM STRONG OXIDIZING AGENTS.

MAXIMUM STORAGE TEMPERATURE: 120.0 F 49.0 C

SEE GENERAL COMMENTS

GENERAL COMMENTS :
KEEP CONTAINERS TIGHTLY CLOSED UNTIL READY FOR USE. THE STATED MAXIMUM STORAGE TEMPERATURE IS FOR QUALITY PURPOSES ONLY. TEMPERATURES EXCEEDING 120 FF MAY CAUSE COLOR DEGRADATION, AND AN OVERALL DECREASE IN PRODUCT

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

```
RESPIRATORY PROTECTION:
NONE USUALLY REQUIRED WITH USE IN WELL VENTILATED AREA.
SKIN PROTECTION:
NONE USUALLY REQUIRED WITH NORMAL USE. MAY CAUSE MILD SKIN IRRITATION AFTER
PROLONGED OR REPEATED USE. EMERGENCY RESPONDERS SHOULD WEAR IMPERMEABLE
GLOVES.
EYE PROTECTION:
AVOID EYE CONTACT. EMERGENCY RESPONDERS SHOULD WEAR FULL EYE AND FACE
PROTECTION.
FOR EXPOSURE LIMITS SEE SECTION 2.
```

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

BOILING RANGE: 212 F
VAPOR DENSITY (AIR = 1.0): N/D
DENSITY: 1 G/CM3
PERCENT VOLATILE MATTER: N/D
EVAPORATION RATE: N/D
SOLUBILITY IN WATER: INSOLUBLE
APPEARANCE: OPAQUE WHITE LIQUID
ODOR: CITRUS
PH: 9-10

## SECTION 10. STABILITY AND REACTIVITY

STABILITY: STABLE

CONDITIONS TO AVOID: EXPOSURE TO HIGH TEMPERATURES AND OPEN FLAMES

```
INCOMPATIBILITY: STRONG OXIDIZING AGENTS
DECOMPOSITION: TOXIC OXIDES OF CARBON AND HYDROCARBONS
POLYMERIZATION: HAZARDOUS POLYMERIZATION WILI NOT OCCUR
```

## SECTION 11. TOXICOLOGICAL INFORMATION

EYE CONTACT: MILD IRRITATION.

INHALATION: NONE KNOWN.

SKIN CONTACT: PROLONGED CONTINUAL EXPOSURE CAN BE IRRITATING.

INGESTION: MAY BE HARMFUL OR FATAL IF SWALLOWED.

CHRONIC: NO EVIDENCE OF ADVERSE EFFECTS FROM AVAILABLE INFORMATION.

## SECTION 12. ECOLOGICAL INFORMATION

NOT AVAILABLE.

## SECTION 13. DISPOSAL CONSIDERATIONS

DISPOSE IN ACCORDANCE WITH LOCAL, STATE AND FEDERAL REGULATIONS

SECTION 14. TRANSPORT INFORMATION

DOT SHIPPING NAME: NOT REGULATED.

## SECTION 15. REGULATORY INFORMATION

OSHA CATEGORY: HAZARDOUS.

SARA 313 SUPPLIER NOTIFICATIONS: NOT REPORTABLE.

ALL INGREDIENTS ARE LISTED ON THE TSCA INVENTORY

WHMIS (CANADA): NOT REGULATED.

## SECTION 16. OTHER INFORMATION

```
SPECIAL PRECAUTIONS OR OTHER COMMENTS:
CONTAINERS OF THIS MATERIAL MAY BE HAZARDOUS WHEN EMPTIED SINCE EMPTIED
CONTAINERS RETAIN PRODUCT RESIDUES (VAPOR, LIQUID, AND/OR SOLID). ALL
HAZARD PRECAUTIONS GIVEN IN THE DATA SHEET MUST OBSERVED.
SPECIAL PRECAUTIONS OR OTHER COMMENTS:
THE INFORMATION ACCUMULATED HEREIN IS BELIEVED TO BE ACCURATE BUT IS NOT
WARRANTED TO BE REGARDLESS OF WHOM IT ORIGINATES WITH. RECIPIENTS ARE
ADVISED TO CONFIRM PRIOR TO NEED THAT THE INFORMATION IS CURRENT,
APPLICABLE, AND SUITABLE TO THEIR CIRCUMSTANCES.
```

## Safety Data Sheet

## 1. Identification

| Product Information: | PD-1355 |
| :--- | :--- |
| Product Name: | Premium Decor Spray Lacquer (360 ${ }^{\circ}$ Spray Tip)(Clear) |
| Recommended Use: | Aerosol Lacquer |
| Application Method: | No Information |
|  | GPM |
| Supplied by: | 201 Jandus Road |
|  | Cary, IL 60013 |
|  | Telephone: (847) 639-5383 |
| Emergency Telephone: | $(866) 257-3981$ |

## 2. Hazards Identification

## EMERGENCY OVERVIEW: Extremely Flammable!

## GHS Classification

Carc. 1B, Comp. Gas, Eye Irrit. 2, FI Aer, 1, Muta. 1B, Repr. 2, Skin Irrit. 2, STOT SE 3 NE

## Symbol(s) of Product

## Signal Word

Danger

## Possible Hazards

48\% of the mixture consists of ingredients of unknown acute toxicity
GHS HAZARD STATEMENTS

| Flammable Aerosol, category 1 | H222 | Extremely flammable aerosol. |
| :--- | :--- | :--- |
| Compressed Gas | H280 | Contains gas under pressure; may explode if heated. |
| Acute Toxicity, Oral, category 4 | H302 | Harmful if swallowed. |
| Skin Irritation, category 2 | H315 | Causes skin irritation. |
| Eye Irritation, category 2 | H319 | Causes serious eye irritation. |
| Acute Toxicity, Inhalation, category 4 | H332 | Harmful if inhaled. |
| STOT, single exposure, category 3, NE | H336 | May cause drowsiness or dizziness. |
| Germ Cell Mutagenicity, category 1B | H340 | Suspected of causing genetic defects . |
| Carcinogenicity, category 1B | H350 | Suspected of causing cancer. |
| Reproductive Toxicity, category 2 | H361 | Suspected of damaging fertility or the unborn child. Classifed Category 2 <br> suspected human reproductive toxicant irreversible effects such as structural <br> malfunctions, embryo/foetal lethality, post natal functional deficiencies. |

GHS LABEL PRECAUTIONARY STATEMENTS
Obtain special instructions before use.
P210
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211
Do not spray on an open flame or other ignition source.
P251
Do not pierce or burn, even after use.
P261
Avoid breathing dust/fume/gas/mist/vapours/spray.

| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |
| :--- | :--- |
| P281 | Use personal protective equipment as required. |
| P302+P352 | IF ON SKIN: Wash with plenty of soap and water. |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if |
|  | present and easy to do. Continue rinsing. |
| P308+P313 | IF exposed or concerned: Get medical advice/attention. |
| P312 | Call a POISON CENTER or doctor/physician if you feel unwell. |
| P337+P313 | If eye irritation persists: Get medical advice/attention. |
| P362 | Take off contaminated clothing. |
| P403+P233 | Store in a well-ventilated place. Keep container tightly closed. |
| P410+P403 | Protect from sunlight. Store in a well-ventilated place. |
| P410+P412 | Protect from sunlight. Do no expose to temperatures exceeding $50^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$. |
| GHS SDS PRECAUTIONARY STATEMENTS |  |
| P270 | Do no eat, drink or smoke when using this product. |

## 3. Composition/Information on Ingredients

The text for GHS Hazard Statements shown above (if any) is given in the "Other information" Section.

## 4. First-aid Measures

FIRST AID - INHALATION: Remove to fresh air. Give oxygen or artificial respiration if necessary. DO NOT use mouth to mouth resuscitation. Seek medical attention.
FIRST AID - SKIN CONTACT: Remove contaminated clothing. Wash affected area with soap and water. Wash clothing before reuse. Get medical attention if irritation develops or persists.
FIRST AID - EYE CONTACT: Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists.
FIRST AID - INGESTION: If ingested, do not induce vomiting. Immediately give two glasses of water or activated charcoal slurry. Never give anything by mouth to an unconscious person. Call a physician.

## 5. Fire-fighting Measures

UNUSUAL FIRE AND EXPLOSION HAZARDS: Container may rupture on heating. Flammable liquid. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to a distant ignition source and flash back.

SPECIAL FIREFIGHTING PROCEDURES: Use a self-contained breathing apparatus with full face mask in a positive pressure demand mode. Treat as a volatile liquid fire. Water spay may be ineffective. If water spray is used, fog nozzles are preferable. Water may be used to cool sealed containers to prevent pressure build-up and possible explosion or auto-ignition when exposed to the heat of a fire.

EXTINGUISHING MEDIA: Carbon Dioxide, Foam, Water Fog

## 6. Accidental Release Measures

ENVIRONMENTAL PRECAUTIONS: Contain any spills immediately and dike area to prevent spreading. Package material and dispose of as hazardous waste.
STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: REMOVE ALL SOURCES OF IGNITION FROM THE SPILL AREA. EVACUATE ALL NON-ESSENTIA PERSONNEL UPWIND. USING NON-SPARKING TOOLS, SOAK UP SPILLED MATERIAL / SWEEP UP MATERIAL WITH ABSORBENTS AND PLACE IN A CONTAINER FOR DISPOSAL.

## 7. Handling and Storage

HANDLING: Flammable liquid. Avoid heat, sparks and open flames. Avoid breathing vapor and contact with eyes, skin and clothing. Hazardous residue may remain in emptied container. Do not reuse empty containers without commercial cleaning or reconditioning. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding procedures.

STORAGE: Store in a cool dry area. KEEP OUT OF REACH OF CHILDREN. Keep container closed when not in use.

Further Advice: MEL = Maximum Exposure Limit OES = Occupational Exposure Standard SUP = Supplier's Recommendation Sk = Skin Sensitizer N.E. = Not Established

## Personal Protection

RESPIRATORY PROTECTION: When concentrations exceed the exposure limits specified, use of a NIOSH-approved dust, mist and fume respirator is recommended. Where the protection factor of the respirator may be exceeded, use of a full facepiece, supplied air, or Self Contained Breathing Apparatus (SCBA) may be necessary.

SKIN PROTECTION: Chemical-resistant gloves may be required for individuals with sensitive skin.

EYE PROTECTION: Ensure that eyewash stations and safety showers are close to the workstation location. Chemical resistant goggles must be worn.

OTHER PROTECTIVE EQUIPMENT: Use personal protective equipment as necessary. Safety shower and eyewash station should be located in immediate work area.

HYGIENIC PRACTICES: Keep away from food, drink and animal feeding stuffs. Contaminated clothing should be changed and washed before reuse. Eating, drinking and smoking in immediate work area should be prohibited.

## 9. Physical and Chemical Properties

| Appearance: | Translucent Aerosol Mist | Physical State: | Liquid |
| :---: | :---: | :---: | :---: |
| Odor: | Solvent Odor | Odor Threshold: | No Information |
| Density, g/cm3: | 0.000 | pH: | No Information |
| Freeze Point, ${ }^{\circ} \mathrm{C}$ : | No Information | Viscosity: | No Information |
| Solubility in Water: | No Information | Partition Coefficient, n-octanol/ | No Information |
| Decomposition temperature, ${ }^{\circ} \mathrm{C}$ | No Information | water: |  |
| Boiling Range, ${ }^{\circ} \mathrm{C}$ : | -29--29 | Explosive Limits, \%: | N/A |
| Combustibility: | Supports Combustion | Flash Point, ${ }^{\circ} \mathrm{C}$ : | -95 |
| Evaporation Rate: | Faster than Ether | Auto-Ignition Temperature, ${ }^{\circ} \mathrm{C}$ | No Information |
| Vapor Density: | Heavier than Air | Vapor Pressure, mmHg: | No Information |

## 10. Stability and Reactivity

STABILITY: Stable under recommended storage conditions.
CONDITIONS TO AVOID: Do not expose to temperatures above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Avoid contact with strong acids, strong bases and strong oxidizing agents. Avoid heat, flames, sparks and other sources of ignition.

INCOMPATIBILITY: Strong acids and strong basesKeep away from strong oxidizing agents, heat and open flames.
HAZARDOUS DECOMPOSITION PRODUCTS: Incomplete combustion may produce carbon monoxide and other toxic gases.

## 11. Toxicological Information

## Practical Experiences

EFFECT OF OVEREXPOSURE - INHALATION: Exposure to large amounts of vapors or spray mists may cause irritation to the lungs, nose, and throat. May also cause dizziness, nausea, fatigue, or headache. Prolonged overexposure may cause coughing, shortness of breath, dizziness, and intoxication.

EFFECT OF OVEREXPOSURE - SKIN CONTACT: Prolonged and repeated skin contact may cause irritation and possibly dermatitis.

EFFECT OF OVEREXPOSURE - EYE CONTACT: Mist and vapors may cause eye irritation.
EFFECT OF OVEREXPOSURE - INGESTION: Harmful if swallowed. May cause nausea, vomiting, and diarrhea.
EFFECT OF OVEREXPOSURE - CHRONIC HAZARDS: REPORTS HAVE ASSOCIATED REPEATED AND PROLONGED OCCUPATIONAL OVEREXPOSURE TO SOLVENTS WITH PERMANENT BRAIN AND NERVOUS SYSTEM DAMAGE.

CARCINOGENICITY: IARC lists Ethylbenzene as a possible human carcinogen (group 2B)
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Inhalation, Skin Contact

## Acute Toxicity Values

The acute effects of this product have not been tested. Data on individual components are tabulated below

| CAS-No. | Chemical Name |  | Oral LD50 |  | Dermal LD50 |
| :--- | :--- | :--- | :--- | :--- | :--- |

## 12. Ecological Information

ECOLOGICAL INFORMATION: No Information

## 13. Disposal Information

Product

DISPOSAL METHOD: Dispose of material in accordance with applicable federal, state and local regulations.
STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: REMOVE ALL SOURCES OF IGNITION FROM THE SPILL AREA. EVACUATE ALL NON-ESSENTIA PERSONNEL UPWIND. USING NON-SPARKING TOOLS, SOAK UP SPILLED MATERIAL / SWEEP UP MATERIAL WITH ABSORBENTS AND PLACE IN A CONTAINER FOR DISPOSAL.

## 14. Transport Information

SPECIAL TRANSPORT PRECAUTIONS: Note: This product can be transported as a LIMITED QUANTITY

## 15. Regulatory Information

## U.S. Federal Regulations:

## CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Fire Hazard

## SARA SECTION 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

No Sara 313 components exist in this product.

## TOXIC SUBSTANCES CONTROL ACT:

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(B) if exported from the United States:

No TSCA components exist in this product.

## U.S. State Regulations:

NEW JERSEY RIGHT-TO-KNOW:
The following materials are non-hazardous, but are among the top five components in this product.
Chemical Name

## CAS-No.

Non Hazardous Ingredients

## PENNSYLVANIA RIGHT-TO-KNOW

The following non-hazardous ingredients are present in the product at greater than $3 \%$.
Chemical Name
CAS-No.
Non Hazardous Ingredients

## CALIFORNIA PROPOSITION 65 CARCINOGENS

Warning: The following ingredients present in the product are known to the state of California to cause Cancer:
$\underline{\text { Chemical Name }}$

## CALIFORNIA PROPOSITION 65 REPRODUCTIVE TOXINS

Warning: The following ingredients present in the product are known to the state of California to cause birth defects, or other reproductive hazards.

No Proposition 65 Reproductive Toxins exist in this product.
International Regulations: As follows -
CANADIAN WHMIS:
This MSDS has been prepared in compliance with Controlled Product Regulations except for the use of the 16 headings.
WHMIS Class No Information

RESTRICTIONS ON USE: None identified

## 2. Hazards Identification

GHS/HAZCOM 2012 Classification:

| Health |  |
| :--- | :--- |
| Acute Toxicity Category 4 | Not Hazardous |
| Specific Target Organ Toxicity - repeated cxposure |  |
| Category 2 |  |
| Reproductive Toxicity Category? |  |

Label Elements

WARNING!
H302 Harmful if swallowed.
H361d Suspected of damaging the unborn child.
H373 May cause damage to kidneys through prolonged or repeated exposure.

## Prevention:

P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P260 Do not breathe mist or vapors.
P264 Wash exposed skin thoroughly after handling.
P270 Do not eat, drink, or smoke when using this product.
P281 Use personal protective equipment as required.

## Response:

P301 + P312 IF SWAII.OWED: Call a POISON CENTER or physician if you feel unwell. P330 Rinse mouth.
P308 + P313 IF exposed or concerned: Get medical advice.
Disposal:
P405 Store locked up.
P501 Dispose of contents and container in accordance with local and national regulations.
3. Composition/Information on Ingredients

| Component | CAS No. | Amount |
| :--- | :--- | :--- |
| Ethylene Glycol | $107-21-1$ | $45-55$ |
| Water | $7732-18-5$ | $45-55$ |
| 2-Ethyl Hexanoic Acid, Sodium Salt | $19766-89-3$ | $1-5$ |
| Diethylene Glycol | $111-46-6$ | $0-5$ |

## The exact concentrations are a trade secret.

## 4. First Aid Measures

INHALATION: Remove the victim to fresh air. If breathing has stopped administer artificial respiration. If breathing is difficult, have medical personnel administer oxygen. Get medical attention.

SKIN CONTACT: Remove contaminated clothing. Immediately wash contacted area thoroughly with soap and water. If irritation persists, get medical attention.

EYE CONTACT: Immediately flush eyes with large amounts of water for 15 minutes. Get medical attention if irritation persists.

INGESTION: Scek immediate medical attention. Immediately call local poison control center or go to an emergency department. Never give anything by mouth to or induce vomiting in an unconscious or drowsy person.

MOST IMPORTANT SYMPTOMS: May cause eye irritation. Inhalation of mists may cause nose and throat irritation and nervous system cffects. Ingestion may cause abdominal discomfort or pain, nausea, vomiting, dizziness, drowsiness, malaise, blurring of vision, irritability, back pain, decrease in urine output, kidney failure, and central nervous system effects.

INDICATION OF IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT, IF NEEDED: Seek immediate medical attention for large ingestions.

NOTES TO PIIYSICIAN: The principal toxic effects of ethylene glycol, when swallowed, are kidney damage and metabolic acidosis. The combination of metabolic acidosis, an osmol gap and oxalate crystals in the urine is evidence of ethylene glycol poisoning. Pulmonary edema with hypoxemia has been described in a number of patients following poisoning with ethylene glycol. Respiratory support with mechanical ventilation may be required. There may be cranial nerve involvement in the late stages of toxicity from swallowed ethylene glycol. In particular, effects have been reported involving the seventh, eighth, and ninth cranial nerves. presenting with bilateral facial paralysis, diminished hearing and dysphagia.

Ethanol is antidotal and its early administration may block the formation of nephrotoxic metabolites of ethylene glycol in the liver. The objective is to rapidly achieve and maintain a blood ethanol level of approximately $100 \mathrm{mg} / \mathrm{dl}$ by giving a loading dose of ethanol followed by a maintenance dose. Intravenous administration of ethanol is the preferred route. Ethanol blood levels should be checked frequently. Hemodialysis may be required. 4-Methyl pyrazole (Fomepizole(R), a potent inhibitor of alcohol dehydrogenase, has been used therapeutically to decrease the metabolic consequences of ethylene glycol poisoning.

SDS 484

## PRESTONE ( 8 DexCool 50/50 Prediluted Extended Life

 ANTMFREEZE/COOLANTDate Prepared: 09/20/2013
Fomepizolectis is casier to use clinically than ethanot, does not cause CNS depression or hypoglycemia and requires less monitoring than ethanol. Additional therapeutic modalities which may decrease the adverse consequences of ethylene glycol metabolism are the administration of both thiamine and pyridoxine. As there are complicated and serious overdoses, we recommend you consult with the toxicologists at your poison control center.

## 5. Firefighting Measures

SUITABLE EXTINGUTSHING MEDIA: For large fires, use alcohol type or all-purpose foams. For small fires, use water spray, carbon dioxide or dry chemical.

SPECIFIC HAZ.ARDS ARISING IROM THE CHFMICAI: A solid stream of water or foam directed into hot, hurning liquid can cause frothing. Burning may produce carbon monoxide and carbon dioxide.

SPECIAL FIRE FIGHTING PROCEDURES: Do not spray pool fires directly. Firefighters should wear positive pressure selfcontained breathing apparatus and full protective clothing for fires in areas where chemicals are used or stored.

## 6: Accidental Release Measures

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: Wear appropriate protective clothing and equipment (See Section 8).

METHODS AND MATERIALS FOR CONTAINMENT/CLEANUP: Collect with absorbent material and place in appropriate, labeled container for disposal or, if permitted flush spill area with water.

## 7. Handling and Storage

## PRECAUTIONS FOR SAFE HANDLING:

Harmful or Fatal if Swallowed. Do not drink antifreeze or solution. Avoid eye and prolonged or repeated skin contact. Avoid breathing vapors or mists. Wash exposed skin thoroughly with soap and water after use. Do not store in opened or unlabeled containers. Kcep container away from open flames and excessive heat. Do not reuse empty containers unless properly cleaned. Empty containers retain product residue and may be dangerous. Do not cut, weld. drill, etc. containers, even empty.

Sudden release of hot organic chemical vapors or mists from process equipment operating at elevated temperature and pressure, or sudden ingress of air into vacuum equipment, may result in ignitions without any obvious ignition sources. Published "autoignition" or "ignition" temperatures cannot be treated as safe operating temperatures in chemical processes without analysis of the actual process conditions. Use of this product in elevated temperature applications should be thoroughly evaluated to assure safe operating conditions.

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES: Store away from excessive heat and oxidizers.

NFPA CLASSIFICATION: IIIB (May qualify for the following consumer quantity exemption: Consumer products that contain not more than 50 percent by volume of water-miscible flammable or combustible liquids, with the remainder of the product consisting of components that do not burn and where packaged in individual containers that do not exceed 1.3 gal (5 L) capacity.)
8. Exposure Controls / Personal Protection

## EXPOSURE GUIDELINES

PRESTONE © DexCool 50/50 Prediluted Extended Life ANTIFREEZE/COOLANT

Date Prepared: 09/20/2013

| Fihylene Glycol (ax acrosol) | $100 \mathrm{mg}^{3} \mathrm{meiling} \mathrm{ACGIH} \mathrm{TLV}^{\prime}$ |
| :--- | :--- |
| Diethylene Glycol | $10 \mathrm{mg} / \mathrm{m}^{3}$ TWA AIHA WEELs |
| 2-Ethyl Hexanoic Acid | None Established |

APPROPRIATE ENGINEERING CONTROLS: Use general ventilation or local exhaust as required to maintain exposures below the occupational exposure limits.

## PERSONAL PROTECTIVE EQUIPMENT

RESPIRATORY PROTECTION: For operations where the TLV is exceeded a NIOSH approved respirator with organic vapor cartridges and dust/mist prefilters or supplied air respirator is recommended. Equipment selection depends on contaminant type and concentration. Select and use in accordance with 29 CFR 1910.134 and good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.

GLOVES: Chemical resistant gloves such as neoprene or PVC where contact is possible.
EYE PROTECTION: Splash-proof goggles.
OTHER PROTECTIVE EQUIPMENT/CLOTHING: Appropriate protective clothing as needed to minimize skin contact.

## 9. Physical and Chemical Properties

| APPEARANCE: | Orange liquid | ODOR: | Characteristic odor |
| :--- | :--- | :--- | :--- |
| ODOR THRESHOLD: | None | pH: | 9.0 |
| MELTING/FREEZING <br> POINT: | $-34^{\circ} \mathrm{F}\left(-36^{\circ} \mathrm{C}\right)$ | BOILING POINT/RANGE: | $229^{\circ} \mathrm{F}\left(109^{\circ} \mathrm{C}\right)$ |
| FLASH POINT: | $>220^{\circ} \mathrm{F}\left(104^{\circ} \mathrm{C}\right)$ | EVAPORATION RATE: | Not determined |
| FLAMMABILITY (SOLID, <br> GAS $)$ | Not Applicable | FLAMMABILITY LIMITS: | LEL: Not determined <br> UEL: Not determined |
| VAPOR PRESSURE: | $<0.1 \mathrm{mmHg} @ 68^{\circ} \mathrm{F}$ | VAPOR DENSITY: | Not determined |
| RELATIVE DENSITY: | 1.07 | SOLUBILITIES | Water: $100 \%$ |
| PARTITION COEFFICIENT <br> (n-octanol/water) | Not determined | AUTOIGNITION <br> TEMPERATLRE: | Not determined |
| DECOMPOSITION <br> TEMPERATURE: | Not determined | VISCOSITY: | Not determined |

## 10. Stability and Reactivity

REACTIVITY: Nomally unreactive
CHEMICAL STABILITY: Stable
POSSIBILITY OF HAZARDOUS REACTIONS: Reaction with strong oxidizers will generate heat.

CONDITIONS TO AVOID: None known
INCOMPATIBLE MATERIALS: Avoid strong bases at high temperatures, strong acids, strong oxidizing agents, and materials reactive with hydroxyl compounds.

HAZARDOUS DECOMPOSITION PRODLCTS: Carbon monoxide, carbon dioxide.

## 11. Toxicological Information

SDS 484
PRESTONE (®) DexCool 50/50 Prediluted Extended Life ANTIFREEZE/COOLANT

Date Prepared: 09/20/2013

## POTENTIAL HEALTH EFFECTS:

## ACUTE HAZARDS:

INHALATION: May cause irritation of the nose and throat with headache, particularly from mists. High vapor concentrations caused. for example, by heating the material in an enclosed and poorly ventilated workplace, may produce nausea, vomiting, headache, dizziness and irregular eye movements.

SKIN CONTACT: No evidence of adverse effects from available information.
EYE CONTACT: Liquid, vapors or mist may cause discomfort in the eye with persistent conjunctivitis, seen as slight excess redness or conjunctiva. Serious comeal injury is not anticipated.

INGESTION: May cause abdominal discomfort or pain, nausea, vomiting, diziness, drowsiness, malaise, blurring of vision. irritability, back pain, decrease in urine output, kidney failure, and central nervous system effects, including irregular eye movements, convulsions and coma. Cardiac failure and pulmonary edema may develop. Severe kidney damage which may be fatal may follow the swallowing of ethylene glycol. A few reports have been published describing the development of weakness of the facial muscles, diminishing hearing, and difficulty with swallowing, during the tate stages of severe poisoning.

CHRONIC EFFECTS: Prolonged or repeated inhalation exposure may produce signs of central nervous system involvement, particularly dizziness and jerking eye movements. Prolonged or repeated skin contact may cause skin sensitization and an associated dermatitis in some individuals. Ethylene glycol has been found to cause birth defects in laboratory animals. The significance of this finding to humans has not been determined. 2-Ethyl Hexanoic Acid, Sodium Salt is suspected of causing developmental effects based on animal data.

CARCINOGENICITY LISTING: None of the components of these products is listed as a carcinogen or suspected carcinogen by IARC, NTP, ACGIH, or OSHA.

## ACUTE TOXICITY VALUES:

Ethylene Glycol: $\quad$ LD50 Oral Rat: $4700 \mathrm{mg} / \mathrm{kg}$ LD50 Skin Rabbit: $9530 \mathrm{mg} / \mathrm{kg}$<br>Diethylene Glycol: LD50 Oral Rat: $12,565 \mathrm{mg} / \mathrm{kg}$ LD50 Skin Rabbit: $11.890 \mathrm{mg} / \mathrm{kg}$

SIGNIFICANT LABORATORY DATA WITH POSSIBLE RELEVANCE TO HUMAN HEALTH:
Ethylene glycol has been shown to produce dose-related teratogenic effects in rats and mice when given by gavage or in drinking water at high concentrations or doses. Also, in a preliminary study to assess the effects of exposure of preguant rats and mice to aerosols at concentrations $150,1,000$ and $2,500 \mathrm{mg} / \mathrm{m} 3$ for 6 hours a day throughout the period of organogenesis, teratogenic effects were produced at the highest concentrations, but only in mice. The conditions of these latter experiments did not allow a conclusion as to whether the developmental toxicity was mediated by inhalation of aerosol, percutaneous absorption of ethylene glycol from contaminated skin, or swallowing of ethylene glycol as a result of grooming the wetted coat. In a further study, comparing effects from high aerosol concentration by whole-body or nose-only exposure, it was shown that noseonly exposure resulted in maternal toxicity ( 1,000 and $2,500 \mathrm{mg} / \mathrm{m} 3$ ) and developmental toxicity in with minimal evidence of teratogenicity ( $2,500 \mathrm{mg} / \mathrm{m3}$ ). The no-effects concentration (based on maternal toxicity) was $500 \mathrm{mg} / \mathrm{m} 3$. In a further study in mice, no teratogenic effects could be produced when ethylene glycol was applied to the skin of pregnant mice over the period of organogenesis. The above observations suggest that ethylene glycol is to be regarded as an animal teratogen; there is currently no available information to suggest that ethylene glycol caused birth defects in humans. Cutaneous application of ethylene glycol is ineffective in producing developmental toxicity; exposure to high aerosol concentration is only minimally effective in producing developmental toxicity; the major route for producing developmental toxicity is perorally.

Two chronic feeding studies, using rats and mice, have not produced any evidence that ethylene glycol causes dose-related increases in tumor incidence or a different pattern of tumors compared with untreated controls. The absence of carcinogenic potential for ethylene glycol has been supported by numerous invitro genotoxicity studies showing that it does not produce mutagenic or clastogenic effects.

In a study of Wistar rats, adverse developmental results were reported at a dose of $100 \mathrm{mg} / \mathrm{kg}$ of body weight for 2-Ethyl Hexanoic Acid, Sodium Salt.

This product contains less than $0.2 \%$ tolytriazole which has demonstrated mutagenic activity in a bacterial test system. A correlation has been established between mutagenic activity and carcinogenic activity for many chemicals. Tolytriazole has not been idenlified as a carcinogen or probable carcinogen by NTP, IARC, ACGIH, or OSHA.

## 12. Ecological Information

## ECOTOXICITY:

Ethylene Glycol: LC50 Fathead Minnow $<10,000 \mathrm{mg} / \mathrm{L} / 96 \mathrm{hr}$. EC50 Daphnia Magna $100,000 \mathrm{mg} / \mathrm{L} / 48 \mathrm{hr}$ Bacterial (Pseudomonas putida): $10,000 \mathrm{mg} / \mathrm{l}$ Protozoa (Entosiphon sulcatum and Uronema parduczi; Chatton-Lwoff): $>10,000 \mathrm{mg} /$ Algae (Microcystis aeruginosa): $2,000 \mathrm{mg} / \mathrm{l}$ Green algae (Scenedesmus quandricauda): $>10,000 \mathrm{mg} / \mathrm{l}$
Diethylene Glycol: LC50 western mosquitofish $>32,000 \mathrm{mg} / \mathrm{L} / 96 \mathrm{hr}$

## PERSISTENCE AND DEGRADABILITY:

Ethylene Glycol is readily biodegradable ( $97-100 \%$ in 2-12 days).
Diethylene glycol is readily biodegradable ( $>70 \%$ in 19days).

## BIOACCUMULATIVE POTENTIAL:

Ethylene glycol: A BCF of 10, reported for ethylene glycol in fish. Golden ide (Leuciscus idus melanotus), after 3 days of exposure suggests the potential for bio concentration in aquatic organisms is low.
Diethylene glycol: An estimated BCF of 3 suggests the potential for bio concentration in aquatic organisms is low. MOBILITY IN SOIL: Ethylene glycol and diethylene glycol are highly mobile in soil.

OTHER ADVERSE EFFECTS: None known

## 13. Disposal Considerations

Dispose of product in accordance with all local, state/provincial and federal regulations.

## 14. Transport Information

U.S. DOT HAZARD CLASSIFICATION: Not regulated (unless package contains a reportable quantity)

Note: IF A SHIPMENT OF A REPORTABLE QUANTITY ( $9,090 \mathrm{LBS} / 1.018$ GAL.) IN A SINGLE PACKAGE IS INVOLVED, THE FOLLOWING INFORMATION APPLIES:

PROPER SHIPPING NAME: RQ, Environmentally hazardous substance, liquid, n.o.s. (Ethylene glycol)
UN NUMBER: UN3082
PACKING GROUP: III
LABELS REQUIRED: Class 9

DOT MARINE POLLUTANTS: This product does not contain Marine Pollutants as defined in 49 CFR 171.8.
IMDG CODE SHIPPING CLASSIFICATION: Not Regulated
CANADIAN TDG CLASSIFICATION: Not Regulated

## 15. Regulatory Information

CERCLA SECTION 103: Spills of this product over the RQ (reportable quantity) must be reported to the National Response Center. The RQ for this product, based on the RQ for Ethylene Glycol ( $55 \%$ maximum) of $5,000 \mathrm{lbs}$., is $9,090 \mathrm{lbs}$. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

EPA SARA $311 / 312$ HAZARD CLASSIFICATION: Acute health, chronic health

EPA SARA 313: This Product Contains the Following Chemicals Subject to Annual Release Reporting Requirements Under SARA Titlc III, Scction 313 (40 CFR 372):

$$
\text { Ethylene Glycol } \quad 107-21-1 \quad 45-55 \%
$$

PROTECTION OF STRATOSPHERIC OZONE: This product is not known to contain or to have been manufactured with ozone depleting substances as defined in 40 CFR Part 82, Appendix A to Subpart A.

CALIFORNIA PROPOSITION 65: The normal consumer use of this product does not result in exposures to chemicals known to the State of Califormia to cause Cancer and/or Reproductive Harm above the significant risk level for carcinogens or the maximum allowable dose levels for reproductive toxins. Therefore, no warnings are required for consumer packages. Industrial or other occupational use of this product at higher frequency and using larger quantities of this product may rcsult in exposures exceeding these levels and are labeled accordingly.

EPA TSCA INVENTORY: All of the components of this material are listed on the Toxic Substances Control Act (TSCA) Chemical Substances Inventory.

CANADIAN WHMIS CLASSIFICATION: Class D - Division 2 - Subdivision A - (A very toxic material causing other toxic effects)

## CANADIAN WHMIS HAZARD SYMBOLS

This SDS has been prepared according to the criteria of the Controlled Products Regulation (CPR) and the SDS contains all of the information required by the CPR.

EUROPEAN INVENTORY OF EXISTING COMMERCIAL CHEMICAL SUBSTANCES (EINECS): All of the ingredients are listed on the EINECS inventory.

AUSTRALIA: All of the components of this material are on the Australian Inventory of Chemical Substances (AICS).
JAPAN: All of the components of this material are listed on the Japanese Existing and New Chemical Substances (METI) List.
CHINA: All of the ingredients of this product are listed on the Inventory of Existing Chemical Substances in China (IECSC)
KORFA: All of the components of this material are listed on the Korean Existing Chemicals List (KECL).
PHILIPPINES: All of the components of this material are listed on the Philippines Inventory of Chemicals and Chemical Substances (PICCS).

NEW ZEALAND: All of the components of this material are listed on the New Zcaland lnventery of Chemicals. (NZIoC)

## 16. Other Information

## NFPA RATING-FIRE: I HEALTH: 2 INSTABILITY: 0

REVISION SUMMARY: All Sections - conversion to Hazcom 2012 classification and labeling and format.
SDS Date of Preparation/Revision: September 20, 2013
This SDS is directed to professional users and bulk handlers of the product. Consumer products are labeled in accordance with Federal Hazardous Substances Act regulations.

Mild Alcohol

Hazard statement(s)
Harmful if swallowed
Harmful if contact with skin
Harmful if inhaled
Causes damage to organs
Flammable liquid and vapor

## Precautionary statement(s)

Wear protective gloves/protective clothing/eye protection/face protection
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product Use only outdoors or in a well-ventilated area
Do not breathe dust/fume/gas/mist/vapors/spray
Keep away from heat/sparks/open flames/hot surfaces. - No smoking Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof electrical/ ventilating/ lighting/ equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Precautionary Statements - Response
IF exposed: Call a POISON CENTER or doctor/physician
Specific treatment (see supplemental first aid instructions on this label)

## Skin

Call a POISON CENTER or doctor/physician if you feel
unwell Wash contaminated clothing before reuse
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Inhalation
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for

- Hicthlive
breathing Call a POISON CENTER or doctor/physician if you feel unwell

## Ingestion

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell Rinse mouth
Fire
In case of fire: Use CO2, dry chemical, or foam for extinction

## Precautionary Statements - Storage

Store in a well-ventilated place. Keep cool
Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant
HAZARDS NOT OTHERWISE CLASSIFIED (HNOC)
Not applicable
OTHER INFORMATION
PROLONGED OR REPEATED CONTACT MAY DRY SKIN AND CAUSE IRRITATION
INTERACTIONS WITH OTHER CHEMICALS
Use of alcoholic beverages may enhance toxic effects.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name | CAS No | Weight-\% | Trade Secret |
| :--- | :---: | :---: | :---: |
| Methyl alcohol | $67-56-1$ | $8-12$ | ${ }^{*}$ |

*The exact percentage (concentration) of composition has been withheld as a trade secret

## SECTION 4: FIRST-AID MEASURES

## DESCRIPTION OF NECESSARY FIRST-AID MEASURES

General Advice
Eye Contact

Show this safety data sheet to the doctor in attendance.
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. If symptoms persist, call a physician.

| Skin Contact | Wash off immediately with soap and plenty of water while removing all <br> contaminated clothes and shoes. If symptoms persist, call a physician. |
| :--- | :--- |
| Inhalation | Remove to fresh air. If breathing is difficult, (trained personnel should) give <br> oxygen. If not breathing, give artificial respiration. Avoid direct contact with <br> skin. Use barrier to give mouth-mouth resuscitation. |
| Ingestion | Do NOT induce vomiting. Rinse mouth immediately and drink plenty of <br> water. Never give anything by mouth to an unconscious person. Call a <br> physician. |
| Self-protection of the first aider | Ensure that medical personnel are aware of the material(s) involved, take <br> precautions to protect themselves and prevent spread of contamination. <br> Avoid direct contact with skin. Use barrier to give mouth-to-mouth <br> resuscitation. |

MOST IMPORTANT SYMPTOMS/EFFECTS, ACUTE AND DELAYED
Most Important Symptoms and Effects
Coughing and/ or wheezing. Difficulty in breathing.
INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED
Notes to Physician
Ethanol may inhibit methanol metabolism.

## SECTION 5: FIRE-FIGHTING MEASURES

## SUITABLE EXTINGUISHING MEDIA

Dry chemical. Carbon dioxide (CO2). Water spray. Alcohol resistant foam.

## UNSUITABLE EXTINGUISHING MEDIA

CAUTION: All these products have a very low flash point. Use of water spray when fighting fire may be inefficient.

## SPECIFIC HAZARDS ARISING FROM THE CHEMICAL

Vapors can form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapor explosion hazard indoors, outdoors or in sewers. Runoff to sewer may create fire or explosion hazard.

Uniform Fire Code
Toxic: Liquid
Combustible Liquid: II

- Highlline

## HAZARDOUS COMBUSTION PRODUCTS <br> Carbon oxides.

EXPLOSION DATA
Sensitivity to Mechanical Impact No.
Sensitivity To Static Discharge Yes.

## PROTECTIVE EQUIPMENT AND PRECAUTIONS FOR FIREFIGHTERS

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

## PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES <br> ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) All equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Full encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not breathe vapor or mist.

Other Information
Water spray may reduce vapor; but may not prevent ignition in closed spaces.

## ENVIRONMENTAL PRECAUTIONS

Prevent entry into waterways, sewers, basements or confined areas.

| METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING UP |  |
| :--- | :--- |
| Methods for Containment: | Stop leak if you can do it without risk. A vapor suppressing foam may be used to <br> reduce vapors. Absorb with earth, sand or other non-combustible material and <br> transfer to containers for later disposal. |
| Methods for cleaning up: | Use clean non-sparking tools to collect absorbed material. Dike far ahead of liquid <br> spill for later disposal. Soak up with inert absorbent material. Pick up and transfer to <br> properly labeled containers. |

Hichline

## SECTION 7: HANDLING AND STORAGE

## PRECAUTIONS FOR SAFE HANDLING

Use personal protection equipment. Ensure adequate ventilation. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. In case of insufficient ventilation, wear suitable respiratory equipment. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Use grounding and bonding connection when transferring this material to prevent static discharge, fire or explosion. Use spark-proof tools and explosion-proof equipment.

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: PRIME ZYME
Product Description: A formulated lift station maintainer.
EPA Registration Number: NA

24 Hour Emergency CHEMTREC Number: 800-424-9300
MSDS Number: 123176
EPA Establishment Number: NA

## 2. HAZARDS IDENTIFICATION <br> ***EMERGENCY OVERVIEW***

FIFRA Hazard Classification:
Not Applicable
Skin corrosion/irritation: Category 3
Serious eye damage/eye irritation: Category 2B
Acute toxicity; oral: Category 4

Exclamation Mark
WARNING
Hazard Statements:
H316 Causes mild skin irritation. H320 Causes eye irritation. H302 Harmful if swallowed.
Precautionary Statements:
P270 Do not eat, drink or smoke when using this product. P264 Wash hands thoroughly after handling.
3. COMPOSITION/INFORMATION ON INGREDIENTS

| Hazardous Ingredients | $\frac{\text { CAS Number }}{\text { Stabilized Cultures }}$ | Weight <br> (Proprietary) | $<12 \%$ | $\frac{\text { ACGIH }}{\text { NE }}$ |
| :--- | :--- | :--- | :--- | :--- |

## 4. FIRST AID MEASURES

P337+P313 If eye irritation persists: Get medical advice. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P332+P313 IF SKIN irritation occurs: Get medical attention. P301+P312 IF SWALLOWED: call a POISON CENTER or physician if you feel unwell. P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

## 5. FIRE FIGHTING MEASURES

Flashpoint(Method): None to boiling point
Lower Explosive Limit(LEL): NA Upper Explosive Limit(UEL): NA Autoignition Temperature: NA
Flammable Properties: None Expected
Extinguishing Media: Carbon Dioxide, dry chemical, foam.
Fire Fighting Instructions: Wear self-contained breathing apparatus and full protective clothing. Contains oil, water is not effective in fire fighting. Water may be used to coolclosed containers to prevent possible explosive when exposed to extreme heat.

## 6. ACCIDENTAL RELEASE MEASURES

Ventilate area. Halt spill at source, dike and contain spill. Flush with plenty of water to drain. Dispose of in accordance with Federal, State and Local Regulations regarding waste disposal.

## 7. HANDLING AND STORAGE

P402 Store in dry place. P405 Store locked up.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Use general or local ventilation to keep exposure levels below exposure limits.
Personal Protective Equipment:
Respiratory: Normal room ventilation is adequate. Use a NIOSH/MHSA approved respirator if exposure limits are exceeded.
Eye: Wear approved safety glasses or goggles with unperforated eyeshields where splashing may occur.
Skin: For repeated or prolonged contact, wear chemically impervious gloves such as Nitrile.
Other: An emergency eyewash station or source of clean potable water should be available in case of accidental eye contact.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Slighty hazy
Odor: Mint
Physical State: Liquid.
pH: $7.25+/-0.5$
Solubility in Water: 100\%
Diluted pH: NA
Boiling Point: NA
Specific Gravity: $1.005+/-0.05$
Freezing Point: NA
VOC Content: 0\%
Melting Point: NA

## 10. STABILITY AND REACTIVITY

Stability: Stable
Hazardous Polymerization: Will not occur.
Conditions to Avoid: Heating and freezing.
Incompatibility: Strong acids or bases may deactivate.
Hazardous Decomposition Products: Carbon Dioxide, Carbon Monoxide

## 11. TOXICOLOGICAL INFORMATION

This product contains no ingredient at $0.1 \%$ or greater that is listed as a human carcinogen.

| Hazardous Ingredients | CAS Number | LD50 | $\underline{\text { LC50 }}$ |
| :--- | :--- | :--- | :--- |
| Stabilized Cultures | Stabilized Cultures (Proprietary) | NE | NE |
| Linear Alcohol Ethoxylate | $68439-46-3$ | $>2,000 \mathrm{mg} / \mathrm{kg}$ (rat oral), $3,300 \mathrm{mg} / \mathrm{kg}$ | NE |

## 12. ECOLOGICAL INFORMATION

The product is not expected to be hazardous to the environment.

## 13. DISPOSAL CONSIDERATIONS

P501 Dispose of container in accordance with all Federal, State and Local Regulations regarding waste disposal.

## 14. TRANSPORT INFORMATION

DOT Shipping Data: Not Regulated
Canadian TDG: Not Regulated
For International Shipments by Air: Not Regulated
For International Shipments by Vessel: Not Regulated

## 15. REGULATORY INFORMATION

TSCA: All ingredients in this product are listed or exempt from listing on the TSCA Chemical Inventory.
CEPA: All ingredients in this product are listed or exempt from listing on the Canadian DSL/NDSL.
Proposition 65: This product contains no listed substances known to the State of California to cause cancer, birth defects or reproductive harm, at reportable levels under the statute.
SARA 313: This product contains no toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-ToKnow Act of 1986 (40CFR372).
VOC: 0\%
HMIS RATING: HEALTH $=1 \quad$ FLAMMABILITY $=0 \quad$ REACTIVITY $=0 \quad$ PPE $=\mathrm{B}$
WHMIS RATING: Class D, Division 2B

## 16. OTHER INFORMATION

NA $=$ Not Available or Not Applicable
NE $=$ Not Established
Read and follow all label directions and precautions before using the product. This product is intended for industrial and institutional use only. NOT FOR HOUSEHOLD USE OR RESALE. KEEP OUT OF THE REACH OF CHILDREN. ## FICHE SIGNALÉTIQUE DE SÉCURITÉ

State Industrial Products

Numéro d'urgence CHEMTREC 24 h/24: 800-424-9300
Numéro de la fiche signalétique de produit : 123176
EPA Establishment Number : NA

## 1. IDENTIFICATION DU PRODUIT CHIMIQUE ET DE LA SOCIÉTÉ

Nom du produit : PRIME ZYME
Description du produit : Un défenseur formulé de station d’ascenseur.
EPA Registration Number : NA

## 2. IDENTIFICATION DES DANGERS <br> ***VUE GÉNÉRALE D'URGENCE***

Point
d'exclamation
AVERTISSEMENT
Mention de danger:
H316 Provoque une légère irritation de la peau. H320 Provoque une irritation des yeux/Lésions oculaires/irritation des yeux graves. H302 Nocif en cas d'ingestion.
Conseils de prudence:
P270 Ne pas manger, boire ou fumer en manipulant ce produit. P264 Se laver soigneusement la peau après manutention.

| Ingrédients dangereux | Numéro CAS | Poids | ACGIH | OSHA |
| :---: | :---: | :---: | :---: | :---: |
| Cultures Stabilisées | Stabilized Cultures | <12\% | NE | NE |
|  | (Proprietary) |  |  |  |
| Alcools éthoxylés | 68439-46-3 | <2.0\% | NA | NA |

## 4. PREMIERS SOINS

P337+P313 Si l'irritation oculaire persiste: consulter un médecin. P305+P351+P338 EN CAS DE CONTACT AVEC LES YEUX: rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. P332+P313 En cas d'irritation cutanée: consulter un médecin. P301+P312 EN CAS D'INGESTION : Appeler un CENTRE ANTIPOISON ou un médecin en cas de malaise. P301+P330+P331 EN CAS D'INGESTION : Rincer la bouche. NE PAS faire vomir.

## 5. EN CAS D'INCENDIE

Point déclair : Aucun jusqu'au point d'ébullition.
Limite d'explosivité inférieure (LIE) : NA Limite d'explosivité supérieure (LSE) : NA
Température d'auto-inflammation : NA
Propriétés d'inflammabilité : aucune présumée
Moyens d'extinction : Dioxyde de carbone, poudre chimique, mousse extinctrice.
Lutte contre l'incendie : Porter un appareil respiratoire autonome et une tenue protectrice intégrale. Contient de l'huile, l'eau nest pas un moyen d'extinction efficace.
Utiliser de l'eau pour rafraîchir les récipients hermétiques exposés à une chaleur extrême pour écarter les risques d'explosion.

## 6. ÉMISSIONS ACCIDENTELLES

Ventiler la zone. Interrompre le déversement à la source, l'endiguer et le contenir. Évacuer à grande eau. Éliminer conformément aux réglementations fédérale, provinciale et locale en vigueuren matière délimination des déchets

## 7. MANIPULATION ET CONSERVATION

P402 Stocker dans un endroit sec. P405 Entreposer dans un endroit verrouillé.

## 8. EXPOSITION/PROTECTION INDIVIDUELLE

Moyens techniques: Assurer une ventilation forcée adéquate pour maintenir l'exposition en deçà de la valeur limite d'exposition.
Équipement de protection individuelle :
Respiratoire : La ventilation normale est suffisante. Si les limites d’exposition sont dépassées, utiliser un appareil respiratoire agréé NIOSH/MSHA.
Oculaire : Porter des lunettes de protection homologuées munies décrans latéraux non perforés.
Cutanée : En cas de contact répété ou prolongé, porter des gants de protection chimique.
Autre : Un bassin oculaire d'urgence ou une source d'eau potable propre devrait être prêt à être utilisé en cas de contact oculaire accidentel.

## 9. PROPRIÉTÉS PHYSIQUES ET CH IMIQUES

## 10. STABILITÉ ET RÉACTIVITÉ

Stabilité : Stable
Polymérisation dangereuse : Ne se produira pas
Conditions à éviter : chaleur et gel.
Incompatibilité : les acides ou les bases fortes peuvent avoir un effet désactivant.
Produits de décomposition dangereuse : Monoxyde de carbone, dioxyde de carbone.

## 11. INFORMATIONS TOXICOLOGIQUES

Ce produit ne contient aucun ingrédient déclaré cancérogène humain à des teneurs supérieures ou égales à $0,1 \%$.

| Ingrédients dangereux | $\underline{\text { Numéro CAS }}$ | $\underline{\text { LD50 }}$ | $\underline{\text { LC50 }}$ |
| :--- | :--- | :--- | :--- |
| Cultures Stabilisées | Stabilized Cultures (Proprietary) | NE | NE |
| Alcools éthoxylés | $68439-46-3$ | $>2,000 \mathrm{mg} / \mathrm{kg}$ (rat oral), $3,300 \mathrm{mg} / \mathrm{kg}$ | NE |

## 12. INFORMATIONS ECOLOGIQUES

Le produit ne devrait pas être dangereuse pour l'environnement

## 13. DESTRUCTION

P501 Éliminer le contenant conformément à tous les règlements fédéraux, d'État et locales en matière d'élimination des déchets.

## 14. TRANSPORT

INFORMATION DE TRANSPORT D.O.T. : non réglementé.
TMD AU CANADA : non réglementé.
Pour les expéditions internationales par Air : non réglementé.
Pour les expéditions internationales par Vessel : non réglementé.

## 15. INFORMATIONs RÉGLEMENTAIRES

TSCA : Tous les ingrédients contenus dans ce produit figurent ou sont exempts de figurer sur l'inventaire du TSCA.
CEPA : Tous les ingrédients contenus dans ce produit figurent ou sont exempts de figurer sur la LIS et la LES (Canada).
Proposition 65 : Ce produit ne contient aucune substance chimique reconnus dans l'État de Californie pour causer le cancer, des malformations congénitales ou d’autres problèmesde reproduction.
SARA 313 : Ne produit ne contient aucune substance chimique toxique devant être déclarée aux termes de la section 313 de la loi Emergency Planning andCommunity Right-To-Know Act de 1986 (40 CFR 372.65C).

CLASSIFICATION HMIS : SANTÉ $=1 \quad$ INFLAMMABILITÉ $=0 \quad$ RÉACTIVITÉ $=0 \quad$ EPS $=\mathrm{B}$

CLASSIFICATION SIMDUT : Classe D, Division 2B

## 1. PRODUCTO QUÍMICO Y DATOS DE LA COMPAÑÍA

## Nombre del producto: PRIME ZYME

Descripción del producto: Un sostén formulado de la estación de la elevación.
EPA Registration Number: NA

Núm. CHEMTREC las 24 horas: 800-424-9300
Número MSDS: 123176
EPA Establishment Number: NA
2. ENUMERACIÓN DE PELIGROS
${ }^{* * *}$ DESCRIPCIÓN GENERAL DE LAS SITUACIONES DE EMERGENCIA***

Signo de
exclamación
ADVERTENCIA

H316 Causa leve corrosión/irritación en la piel. H320 Causa irritacion en los ojos/Serio daño en los ojos/irritación en los ojos. H302 Nocivo en caso de ingestión.

P270 No comer, beber ni fumar durante su utilización. P264 Lavar la piel meticulosamente después de la manipulación.

## 3. COMPOSICIÓN/INFORMACIÓN SOBRE LOS COMPONENTES

| Componentes peligrosos | $\frac{\text { Número CAS }}{\text { Subsilized Cultures }}$ | $\frac{\text { Peso }}{<12 \%}$ | $\underline{\text { ACGIH }}$ | NE |
| :--- | :--- | :--- | :--- | :--- |
| Culturas Estabilizadas | (Proprietary) | NE |  |  |
| Alcoholes etoxilados | $68439-46-3$ | $<2.0 \%$ | NA | NA |

## 4. MEDIDAS DE PRIMEROS AUXILIOS

P337+P313 Si persiste la irritación ocular: Consultar a un médico. P305+P351+P338 EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando. P332+P313 En caso de irritación cutánea: Consultar a un médico. P301+P312 EN CASO DE INGESTIÓN: llamar a un CENTRO DE TOXICOLOGÍA o médico SI se siente indispuesto. P301+P330+P331 EN CASO DE INGESTIÓN: Limpie la boca. NO provoque el vómito.

## 5. MEDIDAS PARA COMBATIR INCENDIOS

Pto. inflamabilidad: Ninguno para el punto de ebullición
Límite explosivo inferior (LEL): NA Límite explosivo superior (UEL): NA Temperatura de autoignición: NA
Inflamabilidad: No se espera ninguna.
Medio extinguidor: Dióxido de carbono, productos químicos en polvo, espuma.
Instrucciones para combatir el fuego: Use un aparato autónomo para respirar e indumentaria de protección. Por contener aceite, el agua no resultará eficaz para combatir incendios.Puede usarse agua para enfriar los recipientes cerrados y evitar una posible explosión si éstos estuvieran expuestos a calor extremo.

## 6. MEDIDAS EN CASO DE DERRAME ACCIDENTAL

Ventile el área. Coloque una barrera física y contenga el derrame en el propio sitio de origen. Limpie el derrame con agua en abundancia y vierta todo por el drenaje. Obedezca todos losreglamentos federales, estatales y locales relativos a la disposición final de residuos.

## 7. MANIPULACIÓN Y ALMACENAMIENTO

P402 Almacenar en un lugar seco. P405 Almacenar bajo llave.

## 8. CONTROL DE EXPOSICION/PROTECCION PERSONAL

Controles de ingeniería: Proveer suficiente ventilación mecánica para mantener la exposición por debajo del límite de concentración máxima (Threshold Limit Value, TLV).
Equipo de protección personal:
Respiratorio: Si el límite de exposición en el lugar de trabajo es excedido, se aconseja el uso de un respirador de aire ante la ausencia de control ambiental.
Ojos: Use gafas protectoras o gafas con protección lateral sin perforaciones aprobadas.
Piel: Si el contacto fuera prolongado o repetido, use guantes resistentes a productos químicos.
Otros: Una estación de lavaojos de emergencia o una fuente de agua potable limpia debe estar disponible en caso de contacto accidental con los ojos.

## 9. PROPIEDADES FÍSICAS Y QUÍMICAS

Aspecto: Nebuloso ligeramente
Olor: Menta
Estado de agregación: Líquido
Concentrarse pH: $7.25+/-0.5$
Solubilidad en agua: 100\%
Diluido pH: NA
Peso específico: $1.005+/-0.05$
Punto de congelación/fusión: NA / NA

## 10. ESTABILIDAD Y REACTIVIDAD

Estabilidad: Estable
Polimerización peligrosa: No ocurrirá.
Condiciones a evitar: Calentamiento y congelación.
Incompatibilidad: Los ácidos o bases fuertes podrían desactivar el producto.
Productos de descomposición peligrosos: Monóxido de carbono, Dióxido de carbono.

## 11. INFORMACIÓN TOXICOLÓGICA

Este producto no contiene ningún componente en $0.1 \%$ o más del que se señale como un carcinógeno humano.

| Componentes peligrosos | $\underline{\text { Número CAS }}$ | $\underline{\text { LD50 }}$ | $\underline{\text { LC50 }}$ |
| :--- | :--- | :--- | :--- |
| Culturas Estabilizadas | Stabilized Cultures (Proprietary) | NE | NE |
| Alcoholes etoxilados | $68439-46-3$ | $>2,000 \mathrm{mg} / \mathrm{kg}(\mathrm{rat} \mathrm{oral}), 3,300 \mathrm{mg} / \mathrm{kg}$ | NE |
|  |  | (rat dermal) |  |

## 12. INFORMACIÓN ECOLÓGICA

El producto no se espera que sea peligroso para el medio ambiente.

## 13. SUGERENCIAS PARA SU DISPOSICIÓN FINAL

P501 Elimine el recipiente en conformidad con todas las regulaciones federales, estatales y locales relacionadas con la eliminación de residuos.

## 14. INFORMACION SOBRE TRANSPORTE

DATOS DE EMBARQUE SEGÚN EL DOT (Ministerio de Transporte de los EE.UU.): No se ha regulado.
TDG CANADIENSE: Producto no regulado. No se ha regulado.
Para los envíos internacionales de Air: No se ha regulado.
Para los envíos internacionales de Vessel: No se ha regulado.

## 15. INFORMACIÓN SOBRE REGLAMENTOS

TSCA: Todos los químicos de este producto están catalogados o están exentos de ser catalogados en el inventario químico de la Ley de Control de Sustancias Tóxicas(Toxic Substances Control Act, TSCA).
CEPA: Todos los químicos de este producto están catalogados o están exentos de ser catalogados en el DSL/NDSL canadiense.
Propuesta 65: Este producto no contiene sustancias registradas en el Estado de California como causante de cáncer, defectos de nacimiento u otros daños reproductivos.
SARA 313: Este producto no contiene sustancias tóxicas sujetas a los requisitos de información del Artículo 313 de la ley de 1986 (40 CFR 372.65 ) de Planeamiento anteemergencias y Derecho a Estar Informado de la Comunidad.

:

: Warning
: Suspected of damaging the unborn child.
May cause damage to organs through prolonged or repeated exposure.
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Do not breathe vapor.
: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention.
: Store locked up.
Dispose of contents and container in accordance with all local, regional, national and international regulations.

| Date of issue/Date of revision | $: 3 / 24 / 2015$. | Date of previous issue | : No previous validation. | Version | $: 1$ | $1 / 10$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Supplemental label elements

WARNING: This product contains chemicals known to the State of California to cause cancer and bith defects or other reproductive harm. FOR INDUSTRIAL USE ONLY. Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.
: None known.

Hazards not otherwise classified

## Section 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of |  |
| identification | $:$ Not available. |

CAS numberlother identifiers

| Ingredient name | \% by weight | CAS number |
| :--- | :--- | :--- |
| 1-(2-Butoxymethylethoxy)-propanol | 2.4 | $299111-28-2$ |
| 2-(2-Methoxyethoxy)-ethanol | 1.4 | $111-77-3$ |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention following exposure or if feeling unwell. |
| :---: | :---: |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| Ingestion | Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

## Most important symptoms/effects, acute and delayed <br> Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

Over-exposure signs/symptoms

| Date of issue/Date of revision | $: 3 / 24 / 2015$. | Date of previous issue | No previous validation. | Version | $: 1$ | $2 / 10$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

| Eye contact | No specific data. |
| :---: | :---: |
| Inhalation | : Adverse symptoms may include the following reduced fetal weight increase in fetal deaths skeletal malformations |
| Skin contact | : Adverse symptoms may include the following reduced fetal weight increase in fetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |

## Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician
Specific treatments
Protection of first-aiders
: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
: No specific treatment.
: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire.
media
Unsuitable extinguishing : None known.
media

Specific hazards arising from the chemical
Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| :---: | :---: |
| remergency responders | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitabie materials. See also the information in "For nonemergency personnel". |

| Date of issue/Date of revision | $: 3 / 24 / 2015$. | Date of previous issue | No previous validation. Version $: 1$ | $3 / 10$ |
| :--- | :--- | :--- | :--- | :--- |

## Section 6. Accidental release measures

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

Precautions for safe handling

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

| Conditions for safe storage, |
| :--- |
| including any |
| incompatibilities |

direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials
(see Section 10) and food and drink. Store locked up. Keep container tightly closed
and sealed until ready for use. Containers that have been opened must be carefully
resealed and kept upright to prevent leakage. Do not store in unlabeled containers.
Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure_limits
None.

Appropriate engineering controls

## Environmental exposure

 controls: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legisłation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

| Date of issue/Date of revision | $: 3 / 24 / 2015$. | Date of previous issue | No previous validation. Version $: 1$ | $4 / 10$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Section 8. Exposure controls/personal protection

| Individual protection measures |  |
| :---: | :---: |
| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields. |
| Skin_protection |  |
| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | Use a property fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. |

Not available.

Mobility in soil
Soil/water partition : Not available.
coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available.
to Annex II of MARPOL
73/78 and the IBC Code

## Section 15. Regulatory information

## U.S. Federal regulations

## State regulations

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

Response
Storage
Disposal
Supplemental label elements
: IF exposed or concerned: Get medical attention.
: Store locked up.
: Dispose of contents and container in accordance with all local, regional, national and international regulations.
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.
: None known.

Hazards not otherwise classified

## Section 3. Composition/information on ingredients

Substance/mixture
Other means of identification

CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Titanium Dioxide | $\geq 10-\leq 25$ | $13463-67-7$ |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation

Skin contact

Ingestion
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 5. Fire-fighting measures

## Extinguishing media

media
Unsuitable extinguishing media

Specific hazards arising from the chemical
Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters

Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire.
: None known.
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
For emergency responders
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

## Section 6. Accidental release measures

Environmental precautions
: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits (OSHA United States)

## Occupational exposure limits (Mexico)

|  | CAS \# | Exposure limits |
| :--- | :--- | :--- |
| None. |  |  |

| Appropriate engineering controls | : If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. |
| :---: | :---: |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| Individual protection measures |  |
| Hygiene measures | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields. |
| Skin protection |  |
| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |

## Section 8. Exposure controls/personal protection

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

| Appearance |  |
| :---: | :---: |
| Physical state | : Liquid. |
| Color | : White. |
| Odor | : Not available. |
| Odor threshold | : Not available. |
| pH | : 9.6 |
| Melting point/freezing point | : Not available. |
| Boiling point/boiling range | : $100^{\circ} \mathrm{C}\left(212^{\circ} \mathrm{F}\right)$ |
| Flash point | : Closed cup: Not applicable. |
| Evaporation rate | : 0.09 (butyl acetate = 1) |
| Flammability (solid, gas) | : Not available. |
| Lower and upper explosive (flammable) limits | : Not available. |
| Vapor pressure | : $2.3 \mathrm{kPa}(17.5 \mathrm{~mm} \mathrm{Hg})$ [at $20^{\circ} \mathrm{C}$ ] |

effects
Potential delayed effects : Not available.

## Potential chronic health effects

Not available.

## General

: No known significant effects or critical hazards.
Carcinogenicity : Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity : No known significant effects or critical hazards.
Teratogenicity : No known significant effects or critical hazards.
Developmental effects : No known significant effects or critical hazards.
Fertility effects : No known significant effects or critical hazards.

## Numerical measures of toxicity

Acute toxicity estimates
Not available.

## Section 12. Ecological information

## Toxicity

| Product/ingredient name | Result | Species | Exposure |
| :--- | :--- | :--- | :--- |
| Titanium Dioxide | Acute LC50 $>1000000 \mu \mathrm{~g} / /$ Marine water | Fish - Fundulus heteroclitus | 96 hours |

## Persistence and degradability

Not available.

## Bioaccumulative potential

Not available.

## Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
Section 14. Transport information

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
Caution: HMIS® ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS $®$ ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented $H M I S ®$ program. $\mathrm{HMIS} ®$ is a registered trademark and service mark of the American Coatings Association, Inc.
Procedure used to derive the classification

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## Section 2. Hazards identification

## OSHA/HCS status

## Classification of the

 substance or mixtureGHS label elements Hazard pictograms

## Signal word

Hazard statements

## Precautionary statements

## General

: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: SKIN CORROSION/IRRITATION - Category 2
SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A CARCINOGENICITY - Category 1A
:

: Danger
: Causes skin irritation. Causes serious eye irritation. May cause cancer.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

## Section 2. Hazards identification

Prevention<br>Response<br>Storage<br>Disposal<br>Supplemental label elements

: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Wash thoroughly after handling.
: IF exposed or concerned: Get medical advice or attention. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
: Store locked up.
: Dispose of contents and container in accordance with all local, regional, national and international regulations.
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Adequate ventilation required when sanding or abrading the dried film. If Adequate ventilation cannot be provided wear an approved particulate respirator (NIOSH approved). Follow respirator manufacturer's directions for respirator use. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Abrading or sanding of the dry film may release Crystalline Silica which has been shown to cause lung damage and cancer under long term exposure. Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.
: None known.

Hazards not otherwise classified

Section 3. Composition/information on ingredients
Substance/mixture
Other means of : Not available. identification

CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Titanium Dioxide | $\geq 10-\leq 25$ | $13463-67-7$ |
| Calcium Carbonate | $\geq 10-<20$ | $1317-65-3$ |
| Heavy Paraffinic Oil | $\leq 1$ | $64742-65-0$ |
| Crystalline Silica, respirable powder | $\leq 0.3$ | $14808-60-7$ |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact

Inhalation
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 4. First aid measures

| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| :---: | :---: |
| Ingestion | : Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Most important symptoms/effects, acute and delayed |  |
| Potential acute health effects |  |
| Eye contact | : Causes serious eye irritation. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : Causes skin irritation. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs/symptoms |  |
| Eye contact | : Adverse symptoms may include the following: pain or irritation <br> watering <br> redness |
| Inhalation | : No specific data. |
| Skin contact | : Adverse symptoms may include the following: irritation redness |
| Ingestion | : No specific data. |
| Indication of immediate medical attention and special treatment needed, if necessary |  |
| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising : In a fire or if heated, a pressure increase will occur and the container may burst. from the chemical
: Use an extinguishing agent suitable for the surrounding fire.
: None known.

Date of issue/Date of revisio

B20W2651
PROMAR® 200 Zero VOC Interior Latex Eg-Shel
SHW-85-NA-GHS-US

## Section 5. Fire-fighting measures

Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
硅
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

## Section 7. Handling and storage

Advice on general occupational hygiene
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits (OSHA United States)

## Section 8. Exposure controls/personal protection

Eye/face protection

Body protection

Other skin protection

Respiratory protection
Skin protection
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The

Disposal
Supplemental label elements
: IF exposed or concerned: Get medical advice or attention.
: Store locked up.
: Dispose of contents and container in accordance with all local, regional, national and international regulations.
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.
: None known.

Hazards not otherwise classified

Section 3. Composition/information on ingredients
Substance/mixture
Other means of identification

CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Calcium Carbonate | $<10$ | $1317-65-3$ |
| Titanium Dioxide | $\leq 10$ | $13463-67-7$ |
| Heavy Paraffinic Oil | $\leq 1$ | $64742-65-0$ |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact

Inhalation

Skin contact

Ingestion
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
: Wash out mouth with water. Remove dentures if any. If material has been swallowed $\nabla$ and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 4. First aid measures

## Most important symptoms/effects, acute and delayed

Potential acute health effects

| Eye contact | $:$ No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | $:$ No known significant effects or critical hazards. |
| Skin contact | $:$ No known significant effects or critical hazards. |
| Ingestion | $:$ No known significant effects or critical hazards. |

Over-exposure signs/symptoms

| Eye contact | $:$ No specific data. |
| :--- | :--- |
| Inhalation | $:$ No specific data. |
| Skin contact | $:$ No specific data. |
| Ingestion | $:$ No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary
Notes to physician
: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Specific treatments
: No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

| Suitable extinguishing | : Use an extinguishing agent suitable for the surrounding fire. |
| :--- | :--- |
| media |  |
| Unsuitable extinguishing |  |
| media |  |

Specific hazards arising from the chemical
Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides metal oxide/oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

## Section 6. Accidental release measures

> | For emergency responders : $\begin{array}{l}\text { If specialized clothing is required to deal with the spillage, take note of any information in } \\ \text { Section } 8 \text { on suitable and unsuitable materials. See also the information in "For non- } \\ \text { emergency personnel". }\end{array}$. |
| :--- | :--- |

Environmental precautions $\quad$| : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains |
| :--- |
| and sewers. Inform the relevant authorities if the product has caused environmental |
| pollution (sewers, waterways, soil or air). |

Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

## Control parameters

| None. |  |  |

Appropriate engineering controls

Environmental exposure controls
: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Individual protection measures

| Date of issue/Date of revision |  | : 9/24/2021 | Date of previous issue | : 4/14/2021 | Version :17 | 5/12 |

## Section 8. Exposure controls/personal protection

Hygiene measures

Eye/face protection

## Skin protection

Hand protection

Body protection

Other skin protection

Respiratory protection
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.
Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

## Bioaccumulative potential

Not available.

## Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects
: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

## Section 14. Transport information

| Transport <br> hazard class(es) | - | - | - | - | - |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Packing group | - | No. | No. | No. | No. |
| Environmental <br> hazards | No. | - | - | - | - |
| Additional <br> information | - | - | - | - |  |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.
Transport in bulk according : Not available. to IMO instruments

Proper shipping name : Not available.

## Section 15. Regulatory information

## SARA 313

SARA 313 (40 CFR 372.45) supplier notification can be found on the Environmental Data Sheet.

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## International regulations

International lists

Vietnam inventory: Not determined.

Section 16. Other information
Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
Caution: HMIS® ratings are based on a $0-4$ rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented $\mathrm{HMIS} ®$ program. $\mathrm{HMIS}{ }^{\circledR}$ is a registered trademark and service mark of the American Coatings Association, Inc.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs

## Section 2. Hazards identification

OSHA/HCS status

## Classification of the

 substance or mixture
## GHS label elements

Signal word
Hazard statements

## Precautionary statements

General
Prevention
Response
Storage
Disposal
: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
: Not classified.
: No signal word.
: No known significant effects or critical hazards.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Not applicable.
: Not applicable.
: Not applicable.
: Not applicable.

## Supplemental label elements

Hazards not otherwise : None known. classified

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.

Section 3. Composition/information on ingredients
Substance/mixture
: Mixture
Other means of : Not available. identification

CAS number/other identifiers

| Ingredient name | $\%$ by weight | CAS number |
| :--- | :--- | :--- |
| Calcium Carbonate | $<10$ | $1317-65-3$ |
| Heavy Paraffinic Oil | $\leq 1$ | $64742-65-0$ |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

| Eye contact | $:$Immediately flush eyes with plenty of water, occasionally lifting the upper and lower <br> eyelids. Check for and remove any contact lenses. Get medical attention if irritation <br> occurs. <br> InhalationRemove victim to fresh air and keep at rest in a position comfortable for breathing. Get <br> medical attention if symptoms occur. |
| :--- | :--- |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and <br> shoes. Get medical attention if symptoms occur. <br> : Wash out mouth with water. If material has been swallowed and the exposed person is <br> Ingestion <br> conscious, give small quantities of water to drink. Do not induce vomiting unless <br> directed to do so by medical personnel. Get medical attention if symptoms occur. |

Most important symptoms/effects, acute and delayed
Potential acute health effects

| Eye contact | : No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

## Over-exposure signs/symptoms

| Eye contact | : No specific data. |
| :--- | :--- |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary

## Section 4. First aid measures

## Notes to physician <br> Specific treatments <br> : No specific treatment. <br> Protection of first-aiders <br> See toxicological information (Section 11) <br> Section 5. Fire-fighting measures

: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
: No action shall be taken involving any personal risk or without suitable training.

## Extinguishing media

media
Unsuitable extinguishing media

Specific hazards arising from the chemical
Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters

Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire.
: None known.
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency
personnel

For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

## Section 6. Accidental release measures

Large spill : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures
Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8).
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

coefficient (Koc)

Other adverse effects
: No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

## Section 14. Transport information

| Packing group | - | - | - | - | - |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Environmental <br> hazards | No. | No. | No. | No. | No. |
| Additional <br> information | - | - | - | - | - |
|  |  |  |  |  |  |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.
Transport in bulk according : Not available. to IMO instruments

Proper shipping name : Not available.

## Section 15. Regulatory information

## SARA 313

SARA 313 (40 CFR 372.45) supplier notification can be found on the Environmental Data Sheet.

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

| Date of issue/Date of revision | $: 9 / 26 / 2021$ | Date of previous issue | $: 6 / 4 / 2021$ | Version |
| :--- | :--- | :--- | :--- | :--- |
| B31T2654 | PROMAR® 200 | Zero VOC Interior Latex Semi-Gloss |  | SHW-85-NA-GHS-US |

## Section 16. Other information

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.
Procedure used to derive the classification

|  | Classification |

| Not classified. | Justification |

History
Date of printing : 9/26/2021
Date of issue/Date of : 9/26/2021
revision
Date of previous issue : 6/4/2021
Version
Key to abbreviations
: 13
: ATE = Acute Toxicity Estimate
BCF = Bioconcentration Factor
GHS = Globally Harmonized System of Classification and Labelling of Chemicals IATA = International Air Transport Association
IBC = Intermediate Bulk Container
IMDG = International Maritime Dangerous Goods
LogPow = logarithm of the octanol/water partition coefficient MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)
N/A = Not available
SGG = Segregation Group
UN = United Nations
$\nabla$ Indicates information that has changed from previously issued version.

## Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

## SAFETY DATA SHEET

B25W35

## Section 1. Identification

| Product name | : PROMAR® Interior/Exterior Semi-Gloss Block Filler |
| :--- | :--- |
| Product code | : B25W35 |
| Other means of <br> identification | : Not available. |

## Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
: CARCINOGENICITY - Category 1A SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1
Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: $9.8 \%$ (oral), $11.5 \%$ (dermal), 12.9\% (inhalation)
GHS label elements
Hazard pictograms

Signal word
Hazard statements
Precautionary statements
General
:

: Danger
: May cause cancer.
Causes damage to organs through prolonged or repeated exposure. (lungs)
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

| Date of issue/Date of revision | $: 4 / 17 / 2022$ | Date of previous issue | $: 1 / 30 / 2022$ | Version | $: 24.03$ | $1 / 15$ |

| B25W35 | PROMAR® | Interior/Exterior Semi-Gloss Block Filler |  | SHW-85-NA-GHS-US |  |  |

## Section 2. Hazards identification

Prevention

## Response

Storage
Disposal

Supplemental label elements

Hazards not otherwise classified
: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling.
: IF exposed or concerned: Get medical advice or attention.
: Store locked up.
: Dispose of contents and container in accordance with all local, regional, national and international regulations.
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Adequate ventilation required when sanding or abrading the dried film. If Adequate ventilation cannot be provided wear an approved particulate respirator (NIOSH approved). Follow respirator manufacturer's directions for respirator use. DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE. Abrading or sanding of the dry film may release Crystalline Silica which has been shown to cause lung damage and cancer under long term exposure. Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.
: None known.

## Section 3. Composition/information on ingredients

| Substance/mixture <br> Other means of <br> identification <br>  <br> CAS number/other identifiers <br> Ingredient name <br> Titanium Dioxide <br> Kaolin |
| :--- |
| Ethylene Glycol |
| 2-(2-Butoxyethoxy)-ethanol |
| Heavy Paraffinic Oil |
| Vinyl Acetate |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 4. First aid measures

| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse. |
| :---: | :---: |
| Ingestion | Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Most important symptoms/effects, acute and delayed |  |
| Potential acute health effects |  |
| Eye contact | : No known significant effects or critical hazards. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs/symptoms |  |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |
| Indication of immediate medical attention and special treatment needed, if necessary |  |
| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising from the chemical

Hazardous thermal decomposition products
: Use an extinguishing agent suitable for the surrounding fire.
: None known.
: In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides

## Section 5. Fire-fighting measures

| Special protective actions <br> for fire-fighters | : <br>  <br> Promptly isolate the scene by removing all persons from the vicinity of the incident if <br> there is a fire. No action shall be taken involving any personal risk or without suitable <br> training. |
| :--- | :--- |
| Special protective <br> equipment for fire-fighters | $:$Fire-fighters should wear appropriate protective equipment and self-contained breathing <br> apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

## Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Avoid exposure obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

## Section 7. Handling and storage

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from
including any
incompatibilities
direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits (OSHA United States)

| Ingredient name | CAS \# | Exposure limits |
| :---: | :---: | :---: |
| Titanium Dioxide | 13463-67-7 | ACGIH TLV (United States, 1/2021). <br> TWA: $10 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. OSHA PEL (United States, 5/2018). TWA: $15 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. Form: Total dust |

## Mobility in soil

Soil/water partition : Not available.
coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

## Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|  | DOT <br> Classification | TDG <br> Classification | Mexico <br> Classification | IATA | IMDG |
| :--- | :--- | :--- | :--- | :--- | :--- |
| UN number regulated. | Not regulated. | Not regulated. | Not regulated. | Not regulated. |  |
| UN proper <br> shipping name | - | - | - | - | - |
| Transport <br> hazard class(es) | - | - | - | - |  |
| Packing group | - | - | No. |  |  |

| Additional <br> information | - | - | - | - |  |

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available. to IMO instruments

Proper shipping name : Not available.

## Section 16. Other information

## Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS $®$ program. $\mathrm{HMIS} ®$ is a registered trademark and service mark of the American Coatings Association, Inc.

Store in a well-ventilated place. Keep container tightly closed.
Do not breathe dust, fumes, gases, mists, vapors, or spray.
Wear protective gloves/protective clothing/eye protection/face protection.
IF ON SKIN: Wash with plenty of soap and water.
Take off contaminated clothing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

## 3. Composition/Information On Ingredients

## HAZARDOUS SUBSTANCES

| Chemical Name | CAS-No. | Wt.\% <br> Range | GHS Symbols |  | GHS Statements |
| :--- | :---: | :---: | :--- | :--- | :--- |
| Acetone | $67-64-1$ | $25-50$ | GHS02-GHS07 | H225-319-332-336 |  |
| Propane | $74-98-6$ | $10-25$ | GHS04 | H280 |  |
| Toluene | $108-88-3$ | $10-25$ | GHS02-GHS07- <br> GHS08 | H225-304-315-332-336-373 |  |
| n-Butyl Acetate | $123-86-4$ | $2.5-10$ | GHS02-GHS07 | H226-336 |  |
| n-Butane | $106-97-8$ | $2.5-10$ | GHS04 | H280 |  |
| Solvent Naphtha, Light Aromatic | $64742-95-6$ | $1.0-2.5$ | GHS07-GHS08 | H304-332-340-350 |  |
| 1,2,4-Trimethylbenzene | $95-63-6$ | $1.0-2.5$ | GHS02-GHS07- | H226-304-315-319-332-335 |  |
| Naphtha, Petroleum, Hydrotreated Light | $64742-49-0$ | $1.0-2.5$ | GHS08 | H304 |  |

## 4. First-aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.
FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.
FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.

FIRST AID - INGESTION: Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

## 5. Fire-fighting Measures

EXTINGUISHING MEDIA: Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS LESS THAN $20^{\circ}$ F. EXTREMELY FLAMMABLE LIQUID AND VAPOR!Water spray may be ineffective. Closed containers may explode when exposed to extreme heat due to buildup of steam. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can. No unusual fire or explosion hazards noted. Keep containers tightly closed.
SPECIAL FIREFIGHTING PROCEDURES: Full protective equipment including self-contained breathing apparatus should be used. Evacuate area and fight fire from a safe distance. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED; Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools. Dispose of according to local, state (provincial) and federal reguiations. Do not incinerate closed containers. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing.
STORAGE: Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above $120^{\circ} \mathrm{F}$. Store large quantities in buildings designed and protected for storage of NFPA Class I flammable liquids. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials. Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep away from heat, sparks, flame and sources of ignition. Avoid excess heat.

## 8. Exposure Controls/Personal Protection

| Naphtha, Petroleumene <br> Hydrotreated Light | $64742-49-0$ | 5.0 | N.E. | N.E. | N.E. | N.E. |

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use explosion-proof ventilation equipment. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.
RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI 288.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.
SKIN PROTECTION: Use gloves to prevent prolonged skin contact. Nitrile or Neoprene gloves may afford adequate skin protection.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.
OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

| Appearance: | Aerosolized Mist | Physical State: | Liquid |

| Vapor Density: | Heavier than air | Vapor Pressure: | N.D. |
| (See "Other information" Section for abbreviation legend) |  |  |  |

## 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid temperatures above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Avoid all possible sources of ignition. Avoid contact with strong acid and strong bases.
INCOMPATIBILITY: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
HAZARDOUS DECOMPOSITION: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.
HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.
STABILITY: This product is stable under normal storage conditions.

## 11. Toxicological information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes Serious Eye Irritation
EFFECTS OF OVEREXPOSURE - SKIN CONTACT: May be absorbed through the skin in harmful amounts. May cause skin irritation. Allergic reactions are possible.
EFFECTS OF OVEREXPOSURE - INHALATION: High gas, vapor, mist or dust concentrations may be harmful if inhaled. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. Prolonged or excessive inhalation may cause respiratory tract irritation.
EFFECTS OF OVEREXPOSURE - INGESTION: Harmful if swallowed.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. High concentrations may lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage.
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No. | Chemical Name | Oral LD50 | Dermal LD50 | Vapor LC50 |
| :---: | :---: | :---: | :---: | :---: |
| 67-64-1 | Acetone | $5800 \mathrm{mg} / \mathrm{kg}$ Rat | N.I. | $50.1 \mathrm{mg} / \mathrm{L}$ Rat |
| 74-98-6 | Propane | N.I. | N.I. | $658 \mathrm{mg} / \mathrm{L}$ Rat |
| 108-88-3 | Toluene | $2600 \mathrm{mg} / \mathrm{kg}$ Rat | $12000 \mathrm{mg} / \mathrm{kg}$ Rabbit | 12.5 mg/L Rat |

> This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Fire Hazard, Pressure Hazard, Acute Health Hazard, Chronic Health Hazard

## Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

```
Chemical Name CAS-No.
Toluene 108-88-3
1,2,4-Trimethylbenzene
95-63-6
```

Toxic Substances Control Act:
This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:
No TSCA 12(b) components exist in this product.

| Product Use/Class: | Topcoat/Aerosol | Manufacturer: | Rust-Oleum Corporation <br> 11 Hawthorn Parkway |
| Supplier: | Rust-Oleum Corporation <br> 11 Hawthorn Parkway <br> Vernon Hills, IL 60061 <br> USA | Vernon Hills, IL 60061 <br> USA |  |
| Preparer: | Regulatory Department |  |  |
| Emergency Telephone: | 24 Hour Hotline: $847-367-7700$ |  |  |

## 2. Hazard Identification

EMERGENCY OVERVIEW: Extremely flammable liquid and vapor. Vapors may cause flash fire or explosion. Harmful if inhaled. May affect the brain or nervous system causing dizziness, headache or nausea. Contents Under Pressure. May cause eye, skin, or respiratory tract irritation. KEEP OUT OF REACH OF CHILDREN. Harmful if inhaled. Harmful if swallowed. Causes eye irritation. Use ventilation necessary to keep exposures below recommended exposure limits, if any. Vapor Harmful. Causes Eye, Skin, Nose, and Throat Irritation.

## Classification

Acute Toxicity, Inhalation, category 4 H 332
STOT: single exposure rategory 3 , RTI H335
STOT, single exposure, category 3, NE H336
Aspiration Hazard, category 2 H305
Eye Irritation, category 2B H320
Flammable Aerosol, category $1 \quad$ H280

Extremely flammable aerosol.
Extremely flammable liquid and vapor.
May be harmful if swallowed.
May be harmful in contact with skin.
Causes skin irritation.
Causes serious eye irritation.
Harmful if inhaled.
May cause respiratory irritation.
May cause drowsiness or dizziness.
May be harmful if swallowed and enters airways.
Causes eye irritation.
Contains gas under pressure; may explode if heated.

Germ Cell Mutagenicity, category 1B

Carcinogenicity, category 1 B

Reproductive Toxicity, category 2

STOT, repeated exposure, category 2

Acute Toxicity, Oral, category 4

May cause genetic defects. Classified as mutagenic Category 1 if one ingredient is present at or above $0.1 \%$. Applies to liquids, solids (w/w units) and gases ( $\mathrm{v} / \mathrm{v}$ ). The substance may also have its own exposure limit. Routes of exposure are dependent on ingredient form.
May cause cancer. Classified as carcinogenic Category 1 on the basis of epidemiological and/or animal data. Mixtures are classified as carcinogenic when at least 1 ingredient has been classified as carcinogenic and is present at $0.1 \%$ or above Routes of exposure are dependant on ingredient form. Suspected of damaging fertility or the unborn child. Classifed Category 2 suspected human reproductive toxicant irreversible effects such as structural malfunctions, embryo/foetal lethality, post natal functional deficiencies. May cause damage to organs <or state all organs affected, if known> through prolonged or repeated exposure <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>. Harmful if swallowed.

Do not spray on an open flame or other ignition source.
Pressurized container: Do not pierce or burn, even after use.
Fight fire remotely due to the risk of explosion.
Keep out of reach of children.
Read label before use.
Keep only in original container.
Do not breathe dust/fume/gas/mist/vapors/spray.
Do not get in eyes, on skin, or on clothing.
Wash ... thoroughly after handling.
Use only outdoors or in a well-ventilated area.
Avoid release to the environment.
Wear protective gloves/protective clothing/eye protection/face protection.
Use personal protective equipment as required.
In case of inadequate ventilation wear respiratory protection.
Fight fire with normal precautions from a reasonable distance.
Store in a dry place.
Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
Protect from sunlight. Do not expose to temperatures exceeding $50^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$.
Store in a well-ventilated place. Keep cool.
Take off contaminated clothing and wash before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
Store in a well-ventilated place. Keep container tightly closed.
Obtain special instructions before use.
IF exposed or concerned: Get medical advice/attention.
Call a POISON CENTER or doctor/physician if you feel unwell.
Gently wash with plenty of soap and water.
IF ON SKIN: Wash with plenty of soap and water.

The text for GHS Hazard Statements shown above (if any) is given in the "16. Other Information" section.

## 4. First-aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.
FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.
FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.
FIRST AID - INGESTION: Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

## 5. Fire-fighting Measures

## EXTINGUISHING MEDIA: Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS LESS THAN $20^{\circ} \mathrm{F}$. EXTREMELY FLAMMABLE LIQUID AND VAPOR!Water spray may be ineffective. Closed containers may explode when exposed to extreme heat due to buildup of steam. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can. No unusual fire or explosion hazards noted. Keep containers tightly closed.
SPECIAL FIREFIGHTING PROCEDURES: Full protective equipment including self-contained breathing apparatus should be used. Evacuate area and fight fire from a safe distance. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools. Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing.
STORAGE: Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above $120^{\circ} \mathrm{F}$. Store large quantities in buildings designed and protected for storage of NFPA Class I flammable liquids. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials. Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep away from heat, sparks, flame and sources of ignition. Avoid excess heat.

## 8. Exposure Controls/Personal Protection

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use explosion-proof ventilation equipment. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.
RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI 288.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.
SKIN PROTECTION: Use gloves to prevent prolonged skin contact. Nitrile or Neoprene gloves may afford adequate skin protection.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.
OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid temperatures above $120^{\circ} \mathrm{F}$. Avoid contact with strong acid and strong bases. Avoid all possible sources of ignition.
INCOMPATIBILITY: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
HAZARDOUS DECOMPOSITION: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.
HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.
STABILITY: This product is stable under normal storage conditions.

## 11. Toxicological information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes Serious Eye Irritation
EFFECTS OF OVEREXPOSURE - SKIN CONTACT: May be absorbed through the skin in harmful amounts. May cause skin irritation. Allergic reactions are possible.
EFFECTS OF OVEREXPOSURE - INHALATION: High gas, vapor, mist or dust concentrations may be harmful if inhaled. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. Prolonged or excessive inhalation may cause respiratory tract initation.
EFFECTS OF OVEREXPOSURE - INGESTION: Harmful if swallowed.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. High concentrations may
lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage.
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No. | Chemical Name | Oral LD50 | Dermal LD50 | Vapor LC50 |
| :---: | :---: | :---: | :---: | :---: |
| 74-98-6 | Propane | N.I. | N.I. | $658 \mathrm{mg} / \mathrm{L}$ Rat |

## 15. Regulatory Information

## U.S. Federal Regulations:

## CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Fire Hazard, Pressure Hazard, Acute Health Hazard, Chronic Health Hazard

## Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title Ill of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

```
Chemical Name CAS-No.
Toluene 108-88-3
1,2,4-Trimethylbenzene 95-63-6
```

Toxic Substances Control Act:
This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:

No TSCA 12(b) components exist in this product.

## CALIFORNIA PROPOSITION 65:

WARNING: This product contains a substance known to the State of California to cause cancer.

## Chemical Name

Benzene
Ethylbenzene

CAS-No.
71-43-2
100-41-4

## CALIFORNIA PROPOSITION 65 REPRODUCTIVE TOXINS

WARNING: This product contains a substance known to the State of California to cause birth defects or other reproductive harm.

## Chemical Name <br> CAS-NO.

Toluene
108-88-3
Benzene
71-43-2

## International Regulations:

## CANADIAN WHMIS:

This SDS has been prepared in compliance with Controlled Product Regulations except for the use of the 16 headings.

## 4. First-aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.

FIRST AID - INHALATION: If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation.

FIRST AID - INGESTION: Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

## 5. Fire-fighting Measures

EXTINGUISHING MEDIA: Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog
UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS LESS THAN $20^{\circ}$ F. EXTREMELY FLAMMABLE LIQUID AND VAPOR!Water spray may be ineffective. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can. Closed containers may explode when exposed to extreme heat due to buildup of steam. No unusual fire or explosion hazards noted.

SPECIAL FIREFIGHTING PROCEDURES: Evacuate area and fight fire from a safe distance. Full protective equipment including self-contained breathing apparatus should be used. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Remove all sources of ignition, ventilate area and remove with inert absorbent and nonsparking tools. Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Use only in a well-ventilated area. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Avoid contact with eyes, skin and clothing.
STORAGE: Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above $120^{\circ} \mathrm{F}$. Store large quantities in buildings designed and protected for storage of NFPA Class I flammable liquids. Contents under pressure. Do not expose to heat or store above $120^{\circ} \mathrm{F}$. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials. Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep away from heat, sparks, flame and sources of ignition. Avoid excess heat.

## 8. Exposure Controls/Personal Protection

$\left.\begin{array}{|l|c|c|c|c|c|c|c}\hline \text { Chemical Name } & \text { CAS-No. } & \begin{array}{c}\text { Weight \% } \\ \text { Less Than }\end{array} & \begin{array}{c}\text { ACGIH TLV- } \\ \text { TWA }\end{array} & \begin{array}{c}\text { ACGIH TLV- } \\ \text { STEL }\end{array} & \text { OSHA PEL-TWA }\end{array} \begin{array}{c}\text { OSHA PEL- } \\ \text { CEILING }\end{array}\right]$

| Ethylbenzene | 100-41-4 | 1.0 | 20 ppm | 125 ppm | 100 ppm | N.E. |
| Carbon Black | 1333-86-4 | 1.0 | $3 \mathrm{mg} / \mathrm{m} 3$ <br> (Inhalable Dust) | N.E. | $3.5 \mathrm{mg} / \mathrm{m} 3$ | N.E. |

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits.

RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.
SKIN PROTECTION: Use impervious gloves to prevent skin contact and absorption of this material through the skin. Nitrile or Neoprene gloves may afford adequate skin protection. Use gloves to prevent prolonged skin contact.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.
OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further information regarding personal protective equipment and its application. Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

| Appearance: | Aerosolized Mist | Physical State: | Liquid |
| :---: | :---: | :---: | :---: |

| Vapor Density: | Heavier than Air | Vapor Pressure: | N.D. |

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid temperatures above $120^{\circ} \mathrm{F}$. Avoid all possible sources of ignition. Avoid contact with strong acid and strong bases.
INCOMPATIBILITY: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
HAZARDOUS DECOMPOSITION: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.
HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.
STABILITY: This product is stable under normal storage conditions.

## 11. Toxicological information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes Serious Eye Irritation
EFFECTS OF OVEREXPOSURE - SKIN CONTACT: Substance may cause slight skin irritation. Prolonged or repeated contact may cause skin irritation. May cause skin irritation. Allergic reactions are possible.
EFFECTS OF OVEREXPOSURE - INHALATION: Harmful if inhaled. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Prolonged or excessive inhalation may cause respiratory tract irritation.
EFFECTS OF OVEREXPOSURE - INGESTION: Aspiration hazard if swallowed; can enter lungs and cause damage. Harmful if swallowed.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: IARC lists Ethylbenzene as a possible human carcinogen (group 2B).

Overexposure to xylene in laboratory animals has been associated with liver abnormalities, kidney, lung, spleen, eye and blood damage as well as reproductive disorders. Effects in humans, due to chronic overexposure, have included liver, cardiac abnormalities and nervous system damage. Contains carbon black. Chronic inflammation, lung fibrosis, and lung tumors have been observed in some rats experimentally exposed for long periods of time to excessive concentrations of carbon black and several insoluble fine dust particles. Tumors have not been observed in other animal species (i.e., mouse and hamster) under similar circumstances and study conditions. Epidemiological studies of North American workers show no evidence of clinically significant adverse health effects due to occupational exposure to carbon black.

Carbon black is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC and is proposed to be listed as A4- "not classified as a human carcinogen" by the American Conference of Governmental Industrial Hygienists. Significant exposure is not anticipated during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of carbon black in the formula. May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. High concentrations may lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage.
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

## U.S. Federal Regulations:

## CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Fire Hazard, Pressure Hazard, Acute Health Hazard, Chronic Health Hazard

## Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

| Chemical Name | $\underline{\text { CAS-No. }}$ |
| :--- | :--- |
| $1,2,4$-Trimethylbenzene | $95-63-6$ |
| Xylene (mixed isomers) | $1330-20-7$ |
| Ethylbenzene | $100-41-4$ |

## Toxic Substances Control Act:

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:

No TSCA 12(b) components exist in this product.

## CALIFORNIA PROPOSITION 65:

WARNING: This product contains a substance known to the State of California to cause cancer.

## Chemical Name

Ethylbenzene Carbon Black
Benzene
hexachlorobenzene

CAS-No.
100-41-4
1333-86-4
71-43-2
118-74-1

## CALIFORNIA PROPOSITION 65 REPRODUCTIVE TOXINS

WARNING: This product contains a substance known to the State of California to cause birth defects or other reproductive harm.

## Chemical Name

CAS-No.
Benzene
Toluene
71-43-2
108-88-3
hexachlorobenzene

## 4. First-Aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.
FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.
FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.
FIRST AID - INGESTION: Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

## 5. Fire-Fighting Measures

EXTINGUISHING MEDIA: Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

## UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS LESS THAN - $7^{\circ} \mathrm{C}\left(20^{\circ} \mathrm{F}\right)$. EXTREMELY FLAMMABLE LIQUID

 AND VAPOR!Water spray may be ineffective. Closed containers may explode when exposed to extreme heat due to buildup of steam. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can.SPECIAL FIREFIGHTING PROCEDURES: Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Full protective equipment including self-contained breathing apparatus should be used. Evacuate area and fight fire from a safe distance. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.
Special Fire and Explosion Hazard (Combustible Dust): No Information

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools. Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only in a well-ventilated area. Use only with adequate ventilation. Follow all SDS and label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing. STORAGE: Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Store large quantities in buildings designed and protected for storage of flammable aerosols. Keep away from heat, sparks, flame and sources of ignition. Contents under pressure. Do not expose to heat or store above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Avoid excess heat. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials.
Advice on Safe Handling of Combustible Dust: No Information

## 8. Exposure Controls / Personal Protection

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation.
RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.

SKIN PROTECTION: Use impervious gloves to prevent skin contact and absorption of this material through the skin.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.
OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications. Refer to safety supervisor or industrial hygienist for further information regarding personal protective equipment and its application.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 10. Stability and Reactivity

Conditions to Avoid: Avoid temperatures above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Avoid all possible sources of ignition.
Incompatibility: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
Hazardous Decomposition: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.
Hazardous Polymerization: Will not occur under normal conditions.
Stability: This product is stable under normal storage conditions.

## 11. Toxicological Information

## EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes Serious Eye Irritation

EFFECTS OF OVEREXPOSURE - SKIN CONTACT: Substance may cause slight skin irritation. Prolonged or repeated contact may cause skin irritation.
EFFECTS OF OVEREXPOSURE - INHALATION: Harmful if inhaled. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Prolonged or excessive inhalation may cause respiratory tract irritation.
EFFECTS OF OVEREXPOSURE - INGESTION: Harmful if swallowed.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. High concentrations may lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Overexposure to xylene in laboratory animals has been associated with liver abnormalities, kidney, lung, spleen, eye and blood damage as well as reproductive disorders. Effects in humans, due to chronic overexposure, have included liver, cardiac abnormalities and nervous system damage. IARC lists Ethylbenzene as a possible human carcinogen (group 2B). Contains Titanium Dioxide. Titanium Dioxide is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC. No significant exposure to Titanium Dioxide is thought to occur during the use of products in which Titanium Dioxide is bound to other materials, such as in paints during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of Titanium Dioxide in the formula. (Ref: IARC Monograph, Vol. 93, 2010)
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## 12. Ecological Information

ECOLOGICAL INFORMATION: Product is a mixture of listed components. Product is a mixture of listed components.

## 13. Disposal Information

DISPOSAL: Do not incinerate closed containers. Dispose of material in accordance to local, state, and federal regulations and ordinances. This product as supplied is a US EPA defined ignitable hazardous waste. Dispose of unusable product as a hazardous waste (D001) in accordance with local, state, and federal regulation.

## 14. Transport Information

|  | Domestic (USDOT) | International (IMDG) | Air (IATA) | TDG (Canada) |

## 15. Regulatory Information

## U.S. Federal Regulations:

## CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Gas under pressure, Carcinogenicity, Serious eye damage or eye irritation, Specific target organ toxicity (single or repeated exposure), Germ cell mutagenicity

## SARA Section 313

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

## Chemical Name

Xylenes (o-, m-, p- Isomers)
1,2,4-Trimethylbenzene
Ethylbenzene

CAS-No.
1330-20-7
95-63-6
100-41-4

## Toxic Substances Control Act

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:
No TSCA 12(b) components exist in this product.

## U.S. State Regulations:

## California Proposition 65

## Classification

## Symbol(s) of Product

## Signal Word

Danger

## Possible Hazards

$29 \%$ of the mixture consists of ingredient(s) of unknown acute toxicity.

## GHS HAZARD STATEMENTS

Carcinogenicity, category 2 H351
Compressed Gas $\quad \mathrm{H} 280$
Eye Irritation, category $2 \quad \mathrm{H} 319$
Flammable Aerosol, category $1 \quad \mathrm{H} 222$
STOT, repeated exposure, category 2 H373
STOT, single exposure, category 3 , NE H336

Suspected of causing cancer.
Contains gas under pressure; may explode if heated.
Causes serious eye irritation.
Extremely flammable aerosol.
May cause damage to organs through prolonged or repeated exposure.
May cause drowsiness or dizziness.

## GHS LABEL PRECAUTIONARY

STATEMENTS
P201 Obtain special instructions before use.
P210

## 4. First-aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.
FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.
FIRST AID - INGESTION: Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

## 5. Fire-fighting Measures

EXTINGUISHING MEDIA:

UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS LESS THAN $20^{\circ}$ F. EXTREMELY FLAMMABLE LIQUID AND VAPOR!Water spray may be ineffective. Closed containers may explode when exposed to extreme heat due to buildup of steam. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can. No unusual fire or explosion hazards noted.
SPECIAL FIREFIGHTING PROCEDURES: Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Full protective equipment including self-contained breathing apparatus should be used. Evacuate area and fight fire from a safe distance. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools. Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only in a well-ventilated area. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing. STORAGE: Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above $120^{\circ} \mathrm{F}$. Store large quantities in buildings designed and protected for storage of flammable aerosols. Keep away from heat, sparks, flame and sources of ignition. Contents under pressure. Do not expose to heat or store above $120^{\circ} \mathrm{F}$. Avoid excess heat. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials.

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation.
RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.
SKIN PROTECTION: Use gloves to prevent prolonged skin contact. Use impervious gloves to prevent skin contact and absorption of this material through the skin. Nitrile or Neoprene gloves may afford adequate skin protection.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.

OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications. Refer to safety supervisor or industrial hygienist for further information regarding personal protective equipment and its application.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid temperatures above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Avoid contact with strong acid and strong bases. Avoid all possible sources of ignition.
INCOMPATIBILITY: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
HAZARDOUS DECOMPOSITION: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.
HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.
STABILITY: This product is stable under normal storage conditions.

## 11. Toxicological information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes Serious Eye Irritation
EFFECTS OF OVEREXPOSURE - SKIN CONTACT: Substance may cause slight skin irritation. May cause skin irritation. Allergic reactions are possible. Prolonged or repeated contact may cause skin irritation.
EFFECTS OF OVEREXPOSURE - INHALATION: Harmful if inhaled. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Prolonged or excessive inhalation may cause respiratory tract irritation.
EFFECTS OF OVEREXPOSURE - INGESTION: Harmful if swallowed. Aspiration hazard if swallowed; can enter lungs and cause damage.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. High concentrations may lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Overexposure to xylene in laboratory animals has been associated with liver abnormalities, kidney, lung, spleen, eye and blood damage as well as reproductive disorders. Effects in humans, due to chronic overexposure, have included liver, cardiac abnormalities and nervous system damage. Contains carbon black. Chronic inflammation, lung fibrosis, and lung tumors have been observed in some rats experimentally exposed for long periods of time to excessive concentrations of carbon black and several insoluble fine dust particles. Tumors have not been observed in other animal species (i.e., mouse and hamster) under similar circumstances and study conditions. Epidemiological studies of North American workers show no evidence of clinically significant adverse health effects due to occupational exposure to carbon black.

Carbon black is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC and is proposed to be listed as A4- "not classified as a human carcinogen" by the American Conference of Governmental Industrial Hygienists. Significant exposure is not anticipated during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of carbon black in the formula. IARC lists Ethylbenzene as a possible human carcinogen (group 2B). Contains Titanium Dioxide. Titanium Dioxide is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC. No significant exposure to Titanium Dioxide is thought to occur during the use of products in which Titanium Dioxide is bound to other materials, such as in paints during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of Titanium Dioxide in the formula.
(Ref: IARC Monograph, Vol. 93, 2010)
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

## Classification

Symbol(s) of Product
Not a hazardous substance or mixture per 2012 OSHA Hazard Communication Standard 29 CFR 1910.1200.
Signal Word
No Signal Word has been assigned.

Possible Hazards
$3 \%$ of the mixture consists of ingredient(s) of unknown acute toxicity.

## 3. Composition/Information On Ingredients

## HAZARDOUS SUBSTANCES

| Chemical Name | $\underline{\text { CAS-No. }}$ | $\underline{\underline{\text { Wt. } \%}}$ | GHS Symbols |  | GHS Statements |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Dipropylene Glycol Monobutyl Ether | $29911-28-2$ | $\underline{\text { Range }}$ |  |  |  |

| H272-301-331 |  |  |  |  |  |

## 4. First-aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.
FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.

FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.

FIRST AID - INGESTION: Swallowing less than an ounce will not cause significant harm. For larger amounts, do not induce vomiting, but give one or two glasses of water to drink and get medical attention. If swallowed, rinse mouth with water. If feeling unwell, get medical attention.

## 5. Fire-fighting Measures

EXTINGUISHING MEDIA: Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS TESTED TO BE GREATER THAN 200 DEGREES F. No unusual fire or explosion hazards noted. Keep containers tightly closed.
SPECIAL FIREFIGHTING PROCEDURES: Water may be used to cool closed containers to prevent buildup of steam. If water is used, fog nozzles are preferred.

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. If spilled, contain spilled material and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations. Do not incinerate closed containers

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Avoid contact with eyes. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing.
STORAGE: Keep from freezing. Keep container closed when not in use. Store in a dry, well ventilated place. Keep container tightly closed when not in use.

## 8. Exposure Controls/Personal Protection

| Chemical Name | CAS-No. | Weight \% <br> Less Than | ACGIH TLV- <br> TWA | ACGIH TLV- <br> STEL | OSHA PEL-TWA | OSHA PEL- <br> CEILING |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |

| Sodium Nitrite | $7632-00-0$ | 1.0 | N.E. | N.E. | N.E. | N.E. |

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Prevent build-up of vapors by opening all doors and windows to achieve crossventilation.
RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.
SKIN PROTECTION: Use gloves to prevent prolonged skin contact. Nitrile or Neoprene gloves may afford adequate skin protection.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.
OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further information regarding personal protective equipment and its application. Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

| Vapor Density: | Lighter than Air | Vapor Pressure: | N.D. |

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid contact with strong acid and strong bases.
INCOMPATIBILITY: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
HAZARDOUS DECOMPOSITION: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes.
HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.
STABILITY: This product is stable under normal storage conditions.

## 11. Toxicological information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes eye irritation. Irritating, and may injure eye tissue if not removed promptly.
EFFECTS OF OVEREXPOSURE - SKIN CONTACT: Substance may cause slight skin irritation. Low hazard for usual industrial handling or commercial handling by trained personnel.
EFFECTS OF OVEREXPOSURE - INHALATION: Low hazard for usual industrial handling or commercial handling by trained personnel. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist.
EFFECTS OF OVEREXPOSURE - INGESTION: Substance may be harmful if swallowed.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: Contains carbon black. Chronic inflammation, lung fibrosis, and lung tumors have been observed in some rats experimentally exposed for long periods of time to excessive concentrations of carbon black and several insoluble fine dust particles. Tumors have not been observed in other animal species (i.e., mouse and hamster) under similar circumstances and study conditions. Epidemiological studies of North American workers show no evidence of clinically significant adverse health effects due to occupational exposure to carbon black.

Carbon black is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC and is proposed to be listed as A4- "not classified as a human carcinogen" by the American Conference of Governmental Industrial Hygienists. Significant exposure is not anticipated during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of carbon black in the formula.
PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

| CAS-No. | Chemical Name |
| :--- | :--- |
| $1333-86-4$ | Carbon Black |
| $7632-00-0$ | Sodium Nitrite |

## 15. Regulatory Information

## U.S. Federal Regulations:

## CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Acute Health Hazard, Chronic Health Hazard

## Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

Chemical Name
CAS-No.
Sodium Nitrite
7632-00-0
Toxic Substances Control Act:
This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:
Chemical Name
CAS-No.
Sodium Nitrite
7632-00-0

H317

Suspected of causing cancer.
Contains gas under pressure; may explode if heated.
Causes serious eye irritation.
Extremely flammable aerosol.
May cause drowsiness or dizziness.
May cause an allergic skin reaction.

## GHS LABEL PRECAUTIONARY

 STATEMENTSObtain special instructions before use.
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Do not spray on an open flame or other ignition source.
Do not pierce or burn, even after use.
Avoid breathing dust/fume/gas/mist/vapors/spray.
Wash hands thoroughly after handling.
Use only outdoors or in a well-ventilated area.
Contaminated work clothing should not be allowed out of the workplace.

| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |
| :--- | :--- |
| P302+P352 | IF ON SKIN: Wash with plenty of soap and water. |
| P304+P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and |
|  | easy to do. Continue rinsing. |
| P308+P313 | IF exposed or concerned: Get medical advice/attention. |
| P312 | Call a POISON CENTER or doctor/physician if you feel unwell. |
| P321 | For specific treatment see label |
| P333+P313 | If skin irritation or rash occurs: Get medical advice/attention. |
| P337+P313 | If eye irritation persists: Get medical advice/attention. |
| P403+P233 | Store in a well-ventilated place. Keep container tightly closed. |
| P405 | Store locked up. |
| P410+P403 | Protect from sunlight. Store in a well-ventilated place. |
| P410+P412 | Protect from sunlight. Do not expose to temperatures exceeding $50^{\circ} \mathrm{C} / 122^{\circ} \mathrm{F}$. |
| P501 | Dispose of contents/container in accordance with local, regional and national regulations. |

## GHS SDS PRECAUTIONARY STATEMENTS

P363
Wash contaminated clothing before reuse.

## 3. Composition / Information On Ingredients

## HAZARDOUS SUBSTANCES

Chemical Name
Acetone
Propane
n-Butane
Titanium Dioxide
Hydrotreated Light Distillate
Xylenes (o-, m-, p- isomers)
Hydrous Magnesium Silicate
Naphtha, Petroleum, Hydrotreated Light
Kaolin Clay
Ethylbenzene
Methyl ethyl ketoxime

## 4. First-Aid Measures

FIRST AID - EYE CONTACT: Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

FIRST AID - SKIN CONTACT: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.

FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.

FIRST AID - INGESTION: Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

## 5. Fire-Fighting Measures

## EXTINGUISHING MEDIA: Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

#### Abstract

UNUSUAL FIRE AND EXPLOSION HAZARDS: FLASH POINT IS LESS THAN $20^{\circ} \mathrm{F}$. EXTREMELY FLAMMABLE LIQUID AND VAPOR!Water spray may be ineffective. Closed containers may explode when exposed to extreme heat due to buildup of steam. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can. No unusual fire or explosion hazards noted. SPECIAL FIREFIGHTING PROCEDURES: Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Full protective equipment including self-contained breathing apparatus should be used. Evacuate area and fight fire from a safe distance. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

Special Fire and Explosion Hazard (Combustible Dust): No Information

## 6. Accidental Release Measures

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED: Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools. Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

## 7. Handling and Storage

HANDLING: Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all SDS and label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing.
STORAGE: Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above $120^{\circ} \mathrm{F}$. Store large quantities in buildings designed and protected for storage of flammable aerosols. Keep away from heat, sparks, flame and sources of ignition. Avoid excess heat. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials.
Advice on Safe Handling of Combustible Dust: No Information

## 8. Exposure Controls / Personal Protection

| Chemical Name | CAS-No. | Weight \% Less Than | ACGIH TLVTWA | ACGIH TLVSTEL | OSHA PEL-TWA | OSHA PELCEILING |

| Methyl ethyl ketoxime | 96-29-7 | 1.0 | 10 ppm | N.E. | N.E. | N.E. |

## PERSONAL PROTECTION

ENGINEERING CONTROLS: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation.
RESPIRATORY PROTECTION: A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.

SKIN PROTECTION: Use gloves to prevent prolonged skin contact. Nitrile or Neoprene gloves may afford adequate skin protection.
EYE PROTECTION: Use safety eyewear designed to protect against splash of liquids.
OTHER PROTECTIVE EQUIPMENT: Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.
HYGIENIC PRACTICES: Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.
Engineering Measures for Combustible Dust: No Information

## 9. Physical and Chemical Properties

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

CONDITIONS TO AVOID: Avoid temperatures above $120^{\circ} \mathrm{F}\left(49^{\circ} \mathrm{C}\right)$. Avoid all possible sources of ignition.
INCOMPATIBILITY: Incompatible with strong oxidizing agents, strong acids and strong alkalies.
HAZARDOUS DECOMPOSITION: By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.
HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.
STABILITY: This product is stable under normal storage conditions.

## 11. Toxicological Information

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes Serious Eye Irritation
EFFECTS OF OVEREXPOSURE - SKIN CONTACT: May cause skin irritation. Allergic reactions are possible.
EFFECTS OF OVEREXPOSURE - INHALATION: Harmful if inhaled. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Prolonged or excessive inhalation may cause respiratory tract irritation.
EFFECTS OF OVEREXPOSURE - INGESTION: Harmful if swallowed.
EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. High concentrations may lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Overexposure to xylene in laboratory animals has been associated with liver abnormalities, kidney, lung, spleen, eye and blood damage as well as reproductive disorders. Effects in humans, due to chronic overexposure, have included liver, cardiac abnormalities and nervous system damage. IARC lists Ethylbenzene as a possible human carcinogen (group 2B). Contains Titanium Dioxide. Titanium Dioxide is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC. No significant exposure to Titanium Dioxide is thought to occur during the use of products in which Titanium Dioxide is bound to other materials, such as in paints during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of Titanium Dioxide in the formula. (Ref: IARC Monograph, Vol. 93, 2010)

PRIMARY ROUTE(S) OF ENTRY: Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

## ACUTE TOXICITY VALUES

## 12. Ecological Information

ECOLOGICAL INFORMATION: Product is a mixture of listed components.

## 13. Disposal Information

DISPOSAL INFORMATION: Do not incinerate closed containers. This product as supplied is a USEPA defined ignitable hazardous waste. Dispose of unusable product as a hazardous waste (D001) in accordance with local, state, and federal regulation.

## 15. Regulatory Information

## U.S. Federal Regulations:

## CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Gas under pressure, Carcinogenicity, Respiratory or Skin Sensitization, Serious eye damage or eye irritation, Specific target organ toxicity (single or repeated exposure)

## Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

## Chemical Name

Xylenes (o-, m-, p-isomers)
Ethylbenzene

CAS-No.
1330-20-7
100-41-4

## Toxic Substances Control Act:

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(b) if exported from the United States:
No TSCA 12(b) components exist in this product.

## U.S. State Regulations:

## California Proposition 65:

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

Rust-Oleum Corporation believes, to the best of its knowledge, information and belief, the information contained herein to be accurate and reliable as of the date of this safety data sheet. However, because the conditions of handling, use, and storage of these materials are beyond our control, we assume no responsibility or liability for personal injury or property damage incurred by the use of these materials. Rust-Oleum Corporation makes no warranty, expressed or implied, regarding the accuracy or reliability of the data or results obtained from their use. All materials may present unknown hazards and should be used with caution. The information and recommendations in this material safety data sheet are offered for the users' consideration and examination. It is the responsibility of the user to determine the final suitability of this information and to comply with all applicable international, federal, state, and local laws and regulations.

## SECTION 1. IDENTIFICATION

Product name : PURELL® Hand Sanitizing Wipes

Manufacturer or supplier's details
Company name of supplier : GOJO Industries, Inc.
Address : One GOJO Plaza, Suite 500 Akron OH 44311

Telephone : 1 (330) 255-6000
Emergency telephone : 1-800-424-9300 CHEMTREC

Recommended use of the chemical and restrictions on use
Recommended use
: Hand Sanitizer
Restrictions on use : This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseeable use. Cosmetics and consumer products, specifically defined by regulations around the world, are exempt from the requirement of an SDS for the consumer. While this material is not considered hazardous, this SDS contains valuable information critical to the safe handling and proper use of the product for industrial workplace conditions as well as unusual and unintended exposures such as large spills. This SDS should be retained and available for employees and other users of this product. For specific intended-use guidance, please refer to the information provided on the package or instruction sheet.

## SECTION 2. HAZARDS IDENTIFICATION

## GHS Classification

Flammable liquids
: Category 3
Eye irritation : Category 2A

GHS Label element
Hazard pictograms

Signal Word
Hazard Statements
: Warning
: H226 Flammable liquid and vapor. H319 Causes serious eye irritation.

Other hazards
Vapors may form explosive mixture with air.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Hazardous ingredients

| Chemical Name | CAS-No. | Concentration (\%) |
| :--- | :--- | :---: |
| Ethanol | $64-17-5$ | $>=10-<20$ |
| Benzethonium chloride | $121-54-0$ | $>=0.1-<1$ |

## SECTION 4. FIRST AID MEASURES

General advice

If inhaled

In case of skin contact

In case of eye contact
: In the case of accident or if you feel unwell, seek medical advice immediately.
When symptoms persist or in all cases of doubt seek medical advice.

If inhaled, remove to fresh air. Get medical attention if symptoms occur.

Wash with water and soap as a precaution. Get medical attention if symptoms occur.

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.
If easy to do, remove contact lens, if worn.

## PURELL® Hand Sanitizing Wipes

| :--- | :--- | :--- | :--- |
| 1.0 | $03 / 30 / 2015$ | $80013-00001$ | Date of first issue: $03 / 30 / 2015$ |

| If swallowed <br> Most important symptoms <br> and effects, both acute and <br> delayed <br> Protection of first-aiders <br> Get medical attention if symptoms occur. <br> Rinse mouth thoroughly with water. |  |
| :--- | :--- |
| : Causes serious eye irritation. |  |
| : First Aid responders should pay attention to self-protection, <br> and use the recommended personal protective equipment <br> when the potential for exposure exists. |  |
| Notes to physician | $:$ Treat symptomatically and supportively. |

## SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

## Unsuitable extinguishing media

Specific hazards during fire fighting

Water spray
Alcohol-resistant foam
Dry chemical
Carbon dioxide (CO2)
High volume water jet

Do not use a solid water stream as it may scatter and spread fire.
Flash back possible over considerable distance.
Vapors may form explosive mixtures with air.
Exposure to combustion products may be a hazard to health.
Hazardous combustion products

Specific extinguishing methods
: Carbon oxides
: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so.
Evacuate area.
In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Environmental precautions
: Remove all sources of ignition.
Use personal protective equipment. Follow safe handling advice and personal protective equipment recommendations.
: Discharge into the environment must be avoided.

| Version | Revision Date: | MSDS Number: | Date of last issue: - |
| :--- | :--- | :--- | :--- |
| 1.0 | $03 / 30 / 2015$ | $80013-00001$ | Date of first issue: 03/30/2015 |

Methods and materials for containment and cleaning up

Prevent further leakage or spillage if safe to do so.
Prevent spreading over a wide area (e.g. by containment or oil barriers).
Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
: Non-sparking tools should be used.
Soak up with inert absorbent material.
Suppress (knock down) gases/vapors/mists with a water spray jet.
For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.
Clean up remaining materials from spill with suitable absorbent.
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

## SECTION 7. HANDLING AND STORAGE

| Technical measures | See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. |
| :---: | :---: |
| Local/Total ventilation | Use with local exhaust ventilation. Use only in an area equipped with explosion proof exhaust ventilation. |
| Advice on safe handling | Avoid inhalation of vapor or mist. <br> Do not swallow. <br> Do not get in eyes. <br> Avoid prolonged or repeated contact with skin. <br> Handle in accordance with good industrial hygiene and safety <br> practice. <br> Non-sparking tools should be used. <br> Keep container tightly closed. <br> Keep away from heat and sources of ignition. <br> Take precautionary measures against static discharges. <br> Take care to prevent spills, waste and minimize release to the environment. |
| Conditions for safe storage | Keep in properly labeled containers. <br> Keep tightly closed. <br> Keep in a cool, well-ventilated place. <br> Store in accordance with the particular national regulations. <br> Keep away from heat and sources of ignition. |
| Materials to avoid | Do not store with the following product types: Strong oxidizing agents |

## STOT-single exposure

Not classified based on available information.

## STOT-repeated exposure

Not classified based on available information.
Repeated dose toxicity
Ingredients:
Ethanol:
Species: Rat
NOAEL: 2,400 mg/kg
Application Route: Ingestion
Exposure time: 2 y

Aspiration toxicity
Not classified based on available information.

## SECTION 12. ECOLOGICAL INFORMATION

## Ecotoxicity

Ingredients:
Ethanol:
Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): $>1,000 \mathrm{mg} / \mathrm{l}$ Exposure time: 96 h

Toxicity to daphnia and other : EC50 (Daphnia magna (Water flea)): $>1,000 \mathrm{mg} / \mathrm{I}$ aquatic invertebrates Exposure time: 48 h

Toxicity to algae

Toxicity to daphnia and other aquatic invertebrates Exposure time: 9 d
(Chronic toxicity)
Toxicity to bacteria : EC50 (Photobacterium phosphoreum): $32.1 \mathrm{mg} / \mathrm{l}$ Exposure time: 0.25 h

## Benzethonium chloride:

Toxicity to fish : LC50 (Oncorhynchus mykiss (rainbow trout)): $1.15 \mathrm{mg} / \mathrm{l}$ Exposure time: 96 h Method: OECD Test Guideline 203

| Toxicity to daphnia and other : EC50 (Daphnia magna (Water flea)): $0.22 \mathrm{mg} / \mathrm{l}$ |  |
| :--- | :--- |
| aquatic invertebrates | $\quad$Exposure time: 48 h |

Method: OECD Test Guideline 202

## PURELL® Hand Sanitizing Wipes

SECTION 13. DISPOSAL CONSIDERATIONS

## Disposal methods

Waste from residues : Dispose of in accordance with local regulations.
Contaminated packaging : Dispose of as unused product.
Empty containers should be taken to an approved waste handling site for recycling or disposal.
Do not burn, or use a cutting torch on, the empty drum.

| Propan-2-ol | $67-63-0$ | $>=1-<5$ |

## SECTION 4. FIRST AID MEASURES

General advice

If inhaled

In case of skin contact

In case of eye contact
: In the case of accident or if you feel unwell, seek medical advice immediately.
When symptoms persist or in all cases of doubt seek medical advice.
: If inhaled, remove to fresh air.
Get medical attention if symptoms occur.
: Wash with water and soap as a precaution. Get medical attention if symptoms occur.
: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.
If easy to do, remove contact lens, if worn.

## SAFETY DATA SHEET

## PURELL® Instant Hand Sanitizer Gel VF481 ${ }^{\text {M }}$

| Version | Revision Date: | MSDS Number: | Date of last issue: 01/16/2015 |
| :--- | :--- | :--- | :--- |
| 1.2 | $02 / 11 / 2015$ | $46679-00003$ | Date of first issue: $01 / 13 / 2015$ |

| If swallowed | Get medical attention. <br> : If swallowed, DO NOT induce vomiting. <br> Get medical attention if symptoms occur. <br> Rinse mouth thoroughly with water. |
| :--- | :--- |
| Most important symptoms <br> and effects, both acute and <br> delayed | $:$ Causes serious eye irritation. |
| Protection of first-aiders | $:$First Aid responders should pay attention to self-protection, <br> and use the recommended personal protective equipment <br> when the potential for exposure exists. |
| Notes to physician | $:$ Treat symptomatically and supportively. |

## SECTION 5. FIRE-FIGHTING MEASURES

| Suitable extinguishing media | Water spray <br> Alcohol-resistant foam Dry chemical Carbon dioxide (CO2) |
| :---: | :---: |
| Unsuitable extinguishing media | High volume water jet |
| Specific hazards during fire fighting | Do not use a solid water stream as it may scatter and spread fire. <br> Flash back possible over considerable distance. <br> Vapors may form explosive mixtures with air. <br> Exposure to combustion products may be a hazard to health. |
| Hazardous combustion products | Carbon oxides |
| Specific extinguishing methods | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. <br> Use water spray to cool unopened containers. <br> Remove undamaged containers from fire area if it is safe to do so. <br> Evacuate area. |

Special protective equipment : In the event of fire, wear self-contained breathing apparatus. for fire-fighters Use personal protective equipment.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, <br> protective equipment and <br> emergency procedures | $:$Remove all sources of ignition. <br> Use personal protective equipment. <br> Follow safe handling advice and personal protective <br> equipment recommendations. <br> Environmental precautions |
| :--- | :--- |

## PURELL® Instant Hand Sanitizer Gel VF481 ${ }^{\text {TM }}$

| Version | Revision Date: | MSDS Number: | Date of last issue: 01/16/2015 |
| :--- | :--- | :--- | :--- |
| 1.2 | $02 / 11 / 2015$ | $46679-00003$ | Date of first issue: 01/13/2015 |

## Methods and materials for

 containment and cleaning upPrevent further leakage or spillage if safe to do so.
Prevent spreading over a wide area (e.g. by containment or oil barriers)
Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Non-sparking tools should be used.
Soak up with inert absorbent material.
Suppress (knock down) gases/vapors/mists with a water spray jet.
For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.
Clean up remaining materials from spill with suitable absorbent.
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

## SECTION 7. HANDLING AND STORAGE

| Technical measures | See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. |
| :---: | :---: |
| Local/Total ventilation | Use with local exhaust ventilation. <br> Use only in an area equipped with explosion proof exhaust ventilation. |
| Advice on safe handling | Do not breathe vapors or spray mist. <br> Do not swallow. <br> Do not get in eyes. <br> Avoid prolonged or repeated contact with skin. Handle in accordance with good industrial hygiene and safety practice. <br> Non-sparking tools should be used. <br> Keep container tightly closed. <br> Keep away from heat and sources of ignition. <br> Take precautionary measures against static discharges. <br> Take care to prevent spills, waste and minimize release to the environment. |
| Conditions for safe storage | Keep in properly labeled containers. <br> Keep tightly closed. <br> Keep in a cool, well-ventilated place. <br> Store in accordance with the particular national regulations. <br> Keep away from heat and sources of ignition. |
| Materials to avoid | Do not store with the following product types: Strong oxidizing agents |

## PURELL® Instant Hand Sanitizer Gel VF481 ${ }^{\text {M }}$

| Version | Revision Date: | MSDS Number: | Date of last issue: 01/16/2015 |
| :--- | :--- | :--- | :--- |
| 1.2 | $02 / 11 / 2015$ | $46679-00003$ | Date of first issue: 01/13/2015 |

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

| Ingredients | CAS-No. | Value type <br> (Form of <br> exposure) | Control <br> parameters / <br> Permissible <br> concentration | Basis |
| :--- | :--- | :--- | :--- | :--- |
| Ethanol | $64-17-5$ | TWA | $1,000 \mathrm{ppm}$ <br> $1,900 \mathrm{mg} / \mathrm{m3}$ | NIOSH REL |
|  |  | TWA | $1,000 \mathrm{ppm}$ <br> $1,900 \mathrm{mg} / \mathrm{m3}$ | OSHA Z-1 |
| Propan-2-ol |  | STEL | $1,000 \mathrm{ppm}$ | ACGIH |
|  |  | $67-63-0$ | TWA | 200 ppm |
|  |  | STEL | 400 ppm | ACGIH |
|  |  | TWA | 400 ppm <br> $980 \mathrm{mg} / \mathrm{m3} 3$ | NIOSH REL |
|  |  | ST | 500 ppm <br> $1,225 \mathrm{mg} / \mathrm{m3}$ | NIOSH REL |
|  |  | TWA | 400 ppm <br> $980 \mathrm{mg} / \mathrm{m3}$ | OSHA Z-1 |

## Biological occupational exposure limits

| Ingredients | CAS-No. | Control <br> parameters | Biological <br> specimen | Sam- <br> pling <br> time | Permissible <br> concentratio <br> $n$ | Basis |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Propan-2-ol | $67-63-0$ | Acetone | Urine | End of <br> shift at <br> end of <br> work- <br> week | $40 \mathrm{mg} / \mathrm{l}$ | ACGIH <br> BEI |

Engineering measures : Minimize workplace exposure concentrations.
Use only in an area equipped with explosion proof exhaust ventilation.
Use with local exhaust ventilation.

## Personal protective equipment

Respiratory protection
: General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and

## PURELL® Instant Hand Sanitizer Gel VF481 ${ }^{\text {TM }}$

| Version | Revision Date: | MSDS Number: | Date of last issue: 01/16/2015 |
| :--- | :--- | :--- | :--- |
| 1.2 | $02 / 11 / 2015$ | $46679-00003$ | Date of first issue: 01/13/2015 |

| Hand protection |  |
| :---: | :---: |
| Material | Impervious gloves |
| Material | Flame retardant gloves |
| Remarks | Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday. |
| Eye protection | Wear the following personal protective equipment: Safety goggles |
| Skin and body protection | Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. <br> Wear the following personal protective equipment: <br> Flame retardant antistatic protective clothing. <br> Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc). |
| Hygiene measures | Ensure that eye flushing systems and safety showers are located close to the working place. <br> When using do not eat, drink or smoke. Wash contaminated clothing before re-use. |

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : liquid
Color : clear, Hazy, blue green
Appearance : Hiquid

Odor : alcohol-like
Odor Threshold : No data available
$\mathrm{pH} \quad: 3.5-5.2$
$\mathrm{pH} \quad: 3.5-5.2$
Melting point/freezing point : No data available
Initial boiling point and boiling : $75.00^{\circ} \mathrm{C}$ range
d
use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.
: Impervious gloves
Flame retardant gloves
: Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. Breakthrough ime is not determined for the product. Change gloves often! special applications, we recommend clarifying the rist with the gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.

Wear the following personal protective equipment: Safety goggles

Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure Wear the following personal protective equipment: Flame retardant antistatic protective clothing. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).
located close to the working place. Wash contaminated clothing before re-use.

## SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Inhalation
Skin contact
Ingestion
Eye contact
Acute toxicity
Not classified based on available information.
Ingredients:
Ethanol:
Acute oral toxicity : LD50 (Rat): $>5,000 \mathrm{mg} / \mathrm{kg}$
Acute inhalation toxicity $\quad:$ LC50 (Rat): $124.7 \mathrm{mg} / \mathrm{l}$
Exposure time: 4 h
Test atmosphere: vapor
Propan-2-ol:
Acute oral toxicity $\quad:$ LD50 (Rat): $>5,000 \mathrm{mg} / \mathrm{kg}$
Acute inhalation toxicity : LC50 (Rat): $72.6 \mathrm{mg} / \mathrm{l}$
Exposure time: 4 h
Test atmosphere: vapor
Acute dermal toxicity $\quad:$ LD50 (Rat): $>5,000 \mathrm{mg} / \mathrm{kg}$

## Skin corrosion/irritation

Not classified based on available information.
Product:
Result: No skin irritation

## Ingredients:

## Ethanol:

Species: Rabbit
Method: OECD Test Guideline 404
Result: No skin irritation

## Propan-2-ol:

Species: Rabbit
Result: No skin irritation

## Serious eye damage/eye irritation

Causes serious eye irritation.
Ingredients:

## Ethanol:

Species: Rabbit
Result: Irritation to eyes, reversing within 21 days
Method: OECD Test Guideline 405

## PURELL® Instant Hand Sanitizer Gel VF481 ${ }^{\text {TM }}$

| Version | Revision Date: | MSDS Number: | Date of last issue: 01/16/2015 |

## Propan-2-ol:

Species: Rabbit
Result: Irritation to eyes, reversing within 21 days

## Respiratory or skin sensitization

Skin sensitization: Not classified based on available information.
Respiratory sensitization: Not classified based on available information.

## Product:

Assessment: Does not cause skin sensitization.

## Ingredients:

## Ethanol:

Test Type: Local lymph node assay (LLNA)
Routes of exposure: Skin contact
Species: Mouse
Result: negative

## Propan-2-ol:

Test Type: Buehler Test
Routes of exposure: Skin contact
Species: Guinea pig
Method: OECD Test Guideline 406
Result: negative

## Germ cell mutagenicity

Not classified based on available information.

## Ingredients:

## Ethanol:

Genotoxicity in vitro : Test Type: In vitro mammalian cell gene mutation test Result: negative

Genotoxicity in vivo : Test Type: Rodent dominant lethal test (germ cell) (in vivo) Species: Mouse Application Route: Ingestion Result: negative

Propan-2-ol:
Genotoxicity in vitro : Test Type: Bacterial reverse mutation assay (AMES) Result: negative

Genotoxicity in vivo : Test Type: Mammalian erythrocyte micronucleus test (in vivo cytogenetic assay) Species: Mouse Application Route: Intraperitoneal injection Result: negative

## Carcinogenicity

Not classified based on available information.
Ingredients:
Propan-2-ol:

# PURELL® PROFESSIONAL SURFACE DISINFECTANT - FINISHED PRODUCT 

Version 1.3
MSDS Number: 400000005189

## SECTION 1. IDENTIFICATION

Product name : PURELL® PROFESSIONAL SURFACE DISINFECTANT FINISHED PRODUCT USE ONLY

## Manufacturer or supplier's details

Company name of supplier : GOJO Industries, Inc.
Address : One GOJO Plaza, Suite 500
Akron, Ohio, 44311
Telephone : 1 (330) 255-6000

Emergency telephone : 1-800-424-9300 CHEMTREC number

## SECTION 2. HAZARDS IDENTIFICATION

GHS Classification
Flammable liquids

GHS Label element Hazard pictograms

Signal word
Hazard statements
Precautionary statements
: Category 3

: Warning
: H226 Flammable liquid and vapour.
: Prevention:
P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.
P233 Keep container tightly closed.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
Response:
P370 + P378 In case of fire: Use dry sand, dry chemical or alco-hol-resistant foam for extinction.
Storage:
P403 + P235 Store in a well-ventilated place. Keep cool.
Disposal:
P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards
None Known

# PURELL® PROFESSIONAL SURFACE DISINFECTANT - FINISHED PRODUCT 

Version 1.3

ods
cumstances and the surrounding environment Use water spray to cool unopened containers.

Further information : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Special protective equipment : In the event of fire, wear self-contained breathing apparatus. for firefighters Use personal protective equipment.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment.
Ensure adequate ventilation.
Remove all sources of ignition.
Material can create slippery conditions.

Environmental precautions : Discharge into the environment must be avoided.
Prevent further leakage or spillage if safe to do so.
Retain and dispose of contaminated wash water.

Methods and materials for containment and cleaning up

Non-sparking tools should be used. Soak up with inert absorbent material. Keep in suitable, closed containers for disposal. Clean contaminated floors and objects thoroughly while observing environmental regulations.

## SECTION 7. HANDLING AND STORAGE

Advice on safe handling : Avoid contact with eyes.
Conditions for safe storage : No smoking.
Take measures to prevent the build up of electrostatic charge.
Keep container tightly closed in a dry and well-ventilated place.
Store in accordance with the particular national regulations.

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## 2. HAZARDS IDENTIFICATION

## Classification

OSHA Regulatory Status (29CFR1910,1200): Not Hazardous

| Acute toxicity - Oral | Not classified Oral LD50 $(\mathrm{rat})>5 \mathrm{~g} / \mathrm{kg}$ body weight |  |
| :--- | :--- | :---: |
| Acute toxicity - Dermal | Not classified Dermal LD50 (rabbit) $>5 \mathrm{~g} / \mathrm{kg}$ body weight |  |
| Acute toxicity - Inhalation (Vapors) | Not classified LCso $>2.04 \mathrm{mg} / \mathrm{L}$ |  |
| Serious eye damage/eye irritation | Mildly irritating |  |
| Skin sensitization | Not a skin sensitizer |  |
|  |  |  |
| 3. COMPOSITION/INFORMATION ON INGREDIENTS |  |  |

Substance

| Chemical Name | CAS No. | Weight-\% |  |
| :---: | :---: | :---: | :---: |
| Citric Acid | $77-92-9$ | 0.6 |  |
|  |  |  |  |
| 4. FIRST AID MEASURES |  |  |  |

## Description of first aid measures

| Eye contact | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. <br> Consult a physician. |
| :--- | :--- |
| Skin contact | Wash skin with soap and water. |
| Inhalation | Remove to fresh air. |
| Ingestion | None under normal use conditions. |

## Most important symptoms and effects, both acute and delayed <br> Symptoms None known.

Indication of any immediate medical attention and special treatment needed
Note to physicians Treatments should be based on observed signs /symptoms of distress in the patient. The possibility of overexposure to materials other than this product should be considered.

## 5. FIRE-FIGHTING MEASURES

## Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable extinguishing media Caution: Use of water spray when fighting fire may be inefficient.
Specific hazards arising from the chemical No information available.

## Explosion data

Sensitivity to Mechanical Impact None.
Sensitivity to Static Discharge None.

## Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

## Personal precautions, protective equipment and emergency procedures

Personal precautions No special precautions are needed in handling this material.

## Environmental precautions

Environmental precautions See Section 12 for additional ecological information.
Methods and material for containment and cleaning up
Methods for containment Large (industrial) release: Before attempting clean up. Refer to hazard data given.
Methods for cleaning up Pick up and transfer to properly labeled containers.

## Precautions for safe handling

Advice on safe handling Handle in accordance with good industrial hygiene and safety practice.
Conditions for safe storage, including any incompatibilities
Storage Conditions Keep container closed.
Incompatible materials None known based on information supplied.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Control parameters

Exposure Guidelines
This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.
Appropriate engineering controls
Engineering Controls $\quad$ None under normal use conditions.
Individual protection measures, such as personal protective equipment

| Eye/face protection | No special technical protective measures are necessary. |
| :--- | :--- |
| Skin and body protection | No special technical protective measures are necessary. |
| Respiratory protection | No protective equipment is needed under normal use conditions. |

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

| Physical state Appearance | Wet wipe <br> Clear transparent liquid on white towelettes <br> Clear transparent liquid on white towelettes |
| :--- | :--- |
| Color | Light citrus <br> Odor |
| No information available |  |
| Odor threshold |  |
| Property | $\underline{\text { Values }}$ |
| pH | $1.90-2.40$ |
| Melting point/freezing point | No information available |
| Boiling point $/$ boiling range | No information available None |
| Flash point | to boiling |
| Vapor density | No information available |
| Specific Gravity | 1.010 |
| Water solubility | Complete (100\%) |

10. STABILITY AND REACTIVITY

## Reactivity

Not reactive under normal conditions
Chemical stability
Stable under recommended storage conditions.
Possibility of Hazardous Reactions None under normal processing. Conditions to avoid
Extremes of temperature.
Incompatible materials
None known based on information supplied.
Hazardous Decomposition Products
None known based on information supplied.

## 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

| Product Information | Product does not present an acute toxicity hazard based on known or supplied information |
| :--- | :--- |
| Inhalation | No known effect. |
| Eye contact | Mildly irritating to the eyes. |

| Skin contact | No known hazard in contact with skin. |
| :--- | :--- |
| Ingestion | No data available. |
| Delayed and immediate effects as well as chronic effects from short and long-term exposure |  |

Sensitization Not a contact sensitizer (U.S. EPA Health Effects Test Guidelines, OPPTS 870.2600).

## 12. ECOLOGICAL INFORMATION

## Ecotoxicity

No data currently available

## 13. DISPOSAL CONSIDERATIONS

## Waste treatment methods

| Disposal of wastes | Disposal should be in accordance with applicable regional, national and local laws and |
| :--- | :--- |
|  | regulations. |
| Contaminated packaging | Do not reuse container. |

| N/A |  |

[^6]:    - -imi": .
    
    Suitable Extinguishing Media: Use any media suitable for extinguishing supporting fire.
    Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.
    Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Contact with strong oxidizers may cause fire or explosion.

    ## 

    Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8 . Provide adequate ventilation.
    Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.
    Containment and Cleanup: Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.
