Global Skill Seekers Award is a new company set up to provide an extra layer of extra curricular options for schools.

Our first Award is called the Rising Star Award. It is made up of a combination of tasks. We will be focussing on skill development, wider understanding of the world and cultures and entrepreneurship.

We have two community partners who have also created challenges. Mind your Health has a series of wellbeing tasks and Tuu have supported us with sustainability challenges.

There is also the option of bolting on additional tasks such as BSO Britishness, UAE National Agenda or creating your own school specific SIP Challenge. It is available for FS2 - Year 8. The Award is a digital app for children and so evidence can be recorded in a sustainable way (no paper) but also in a familiar format. Vlogging videos (up to 4 mins) photos and typed evaluations can all be uploaded as evidence for completing the tasks. Staff supervising the Award in school's will access the evidence from students via a secure portal.

We have taken the highest precautions to safeguard our data and evidence. On completion, children will be awarded a medal/badge and certificate. All schools will have options to use the Award in two ways, a voluntary sign up or a budgeted school payment. 5% of any school order will be given back to schools to support school resources. We would hope that our digital GSSA logo will be seen as an advantageous marketing tool, providing an additional offering at their schools.

Our next Award in the portfolio is linked to enquiry and critical thinking activities in the area of Islamic Studies - The Karam International Award and is also now available, this is in booklet format and again children are awarded a certificate and key chain, available for Year 1- 6 in English and Arabic.
