

School Year Asbestos Notification

Watertown- Mayer Public Schools has an inspection and management program for all asbestos containing building materials.

The district will maintain a safe and healthful environment for our community's youth and employees.

Every three years, all buildings owned, leased or operated by the district are re-inspected by an EPA accredited inspector. Every six months, all building materials containing asbestos are surveyed. Any materials needing repair or removal are done so under our Asbestos Operation and Maintenance Program-safely and responsibly.

The Watertown School District has a list of locations and types of asbestos containing materials found in our buildings. A copy of the Asbestos Management Plan is available for review in the district office.

Questions related to the plan should be directed to the Building and Grounds Director at the district office 952-955-0480.
