It is further understood that under no circumstances shall the Vendor urge, for any purpose whatsoever, that the presence of the Owner, any supervisory personnel, and visiting officers or employees of the Owner, and any failure by such personnel to take exception to any Work of the Vendor, constitute a ratification or approval of the Work or work methods employed by the Vendor if the same did not in fact comply with the requirements of the Contract Documents.

1.23 COMPETENT WORKMEN

No workmen shall be required as competent first class, within the meaning of this Act, except those who are duly skilled in their respective branches of labor, and who shall be paid not less than such rates of wages and for such hours work as shall be doing of similar work in the district where work is being done. According to Section 752 of the Public School Code of 1949, no person shall be employed to do work under such contract except competent and first class workmen and mechanics.

All workmen on this project must have Pennsylvania State Police Act 34 Clearance Affidavit. Attesting to that Clearance should be carried by each individual workman when on the premises or in the building. A copy of the Affidavit must be filed with the District Administration Office, prior to that workman performing work on the site. The cost of obtaining this "Clearance" and required badges shall be the responsibility of the Vendor.

Act 151-PA Child Abuse History Clearance: Successful bidder shall have a background check done on all employees who will be working in or around district buildings who will have "direct contract with students." Background checks shall be in accord with Act 151 of 1994. The Vendor shall submit the original to the Owner prior to an employee beginning work. The cost of obtaining this "Clearance" and required badges shall be the responsibility of the Vendor.

1.24 PENNSYLVANIA PREVAILING WAGE RATES

If the total estimated project sum is greater than \$25,000.00, this regulation and the general Pennsylvania prevailing minimum wage rates, (Act 442 of 1961, P.L. 987, amended) as determined by the Secretary of Labor and Industry, which shall be paid for each craft or classification of all workers needed to perform the contract during the anticipated term therefore in the locality in which public work is performed, are made part of this specification.

No workmen shall be employed on this work except in accord with the classifications set forth in the decision of the Secretary of Labor and Industry. If additional or different classifications are necessary, the procedure set forth in Section 7 of the Regulations for Pennsylvania Prevailing Wage

Act shall be followed.

All workmen employed or working on this work shall be paid unconditionally, regardless of whether any contractual relationship exists or the nature of any contractual relationship which may be alleged indirectly, except authorized deductions, the full amounts due at the time worked in the appropriate classification. This Contract does not prohibit payment of more than the general prevailing minimum wage rates as determined by the Secretary of Labor and Industry.

Each Vendor shall post for the entire period of construction the wage determination decisions of the Secretary of Labor and Industry, including the effective date of any changes thereof, in a prominent and easily accessible place or places at the site of the work and at such place or places used by them to pay workmen their wages. The posted notice of wage rates shall contain the following information:

- A. Name of Project.
- B. Name of Public Body for which it is being constructed.
- C. The crafts and classifications of workmen listed in the Secretary's general prevailing minimum wage rate determination for the particular project.
- D. The general prevailing minimum wage rates determined for each craft and classification and the effective date of any changes.
- E. A statement advising workmen that if they have been paid less than the general prevailing minimum wage for their job classification, or if the Vendor is not complying with the Act or the Regulations in any manner whatsoever, they may file a protest, in writing, with the Secretary of Labor and Industry within three months of the date of the occurrence, objecting to the payment of any Vendor to the extent of the amount or amounts due or to become due to them as wages for work performed on the public work project. Any workmen paid less than the rate specified in the Contract shall have a civil right of action for the difference between the wage paid and the wages stipulated in the Contract, which right of action shall be exercised within six months from the occurrence of the event creating such right.

The Vendor shall keep accurate records showing the name, craft, classification, number of hours worked per day and actual hourly rate of wage paid (including employee benefits) to each workman employed by him in connection with work. Such record shall include any deductions from each workman. The record shall be preserved for two years from the date of payment and shall be open at all reasonable hours to the inspection of the public body awarding the Contract and to the Secretary of Labor and Industry or his duly authorized representatives.

Apprentices shall be limited to such numbers as shall be in accord with a bona fide apprenticeship program registered with and approved by the Pennsylvania Apprenticeship and Training Council and only apprentices whose training and employment are in full compliance with the provisions of the Apprenticeship and Training Act approved July 14, 1961 (Act No. 304) and the Rules and Regulations issued pursuant thereto shall be employed on the public work project. Any workman using the tools of a craft who does not qualify as an apprentice within the provisions of this subsection shall be paid the rate predetermined for journeymen in that particular craft and classification as follows:

- A. Wages shall be paid without any deductions except authorized deductions. Employers not parties to a contract requiring contributions for employee benefits which the Secretary has determined to be included in the general prevailing minimum wage rate shall pay the monetary equivalent thereof directly to the workmen.
- B. Payment of compensation to workmen for work performed on public work on a lump sum basis, or a piece work system, or a price certain for the completion of a certain amount of work, or the production of a certain result shall be deemed a violation of the Act and these Regulations, regardless of the average hourly earnings resulting therefrom.

Each Vendor shall file a statement each week and a final statement at the conclusion of the Work on the contract with the contracting agency, under oath, and in form satisfactory to the Secretary, certifying that all workmen have been paid wages in strict conformity with the provisions of the contract as prescribed by this Section C of these Regulations, or of any wages remain unpaid to set forth the amount of wages due and owing to each workman respectively.

(b) After the expiration of one (1) year following the date on which Principal ceased all work on said contract, it being understood, however, that if any limitation embodied in this bond is prohibited by any law controlling the construction hereof, such limitation shall be deemed to be amended so as to be equal to the minimum period of limitation permitted by such law.
