

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

During the 20-21 school year, teachers created "summer toolboxes" that included grade-level activities for students to use during the summer months. The toolbox concept will evolve into Neighborhood Classrooms for the 2022 summer. Bringing the activities to the Neighborhood

Classroom alleviates the transportation problem that exists for many low-income families. The Neighborhood Classrooms will be open to open to all K-5 students. Teachers will call parents for specific students who demonstrate a need for enrichment activities throughout the summer. The secondary students (Grades 6-12) will be provided summer social activities.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Major Racial and Ethnic Groups	Academic Growth	1,000	The Neighborhood Classroom program will be open to all K-5 students. Activities will not be graded; however, teachers will provide verbal and written feedback. Feedback from families will be requested.
Children from Low-Income Families	Emotional Wellness	1,000	The Neighborhood Classroom program will focus on collaborative work. Students will participate in a pre/posttest survey to assess the program.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

This is a continuation of our Summer Toolbox project and will work in tandem with the Neighborhood Based Classroom Project. Each student will receive 2 novels chosen by each grade level team and materials for one or two STEM activities to complete over the summer. These items will be used when teachers visit neighborhoods as part of the Neighborhood

Classroom. This will address learning loss by providing academic support and reinforce positive social/emotional health with our students by helping them connect with their peers and teachers throughout the summer.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
20	Internal Provider	Teachers will design the Summer Toolbox activities and supervise the program.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results

6. How will the LEA engage families in the summer school program?

All summer school programs will be open for families to participate.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$43,555.00
Allocation
 \$43,555.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	600 - Supplies	\$43,555.00	These funds will support the purchasing of supplies for the summer toolboxes and the expansion into Neighborhood Classrooms for the summer of 2022 and 2023.
		\$43,555.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$43,555.00
Allocation
\$43,555.00

Budget Over(Under) Allocation
\$0.00
