**Acceptable Use Policy
Acknowledgment Form for District Employees**

I have read the Acceptable Use Policy. I understand that the purpose and expected use of the System is to fulfill the educational goals of the District. As a System user, I will use the Mifflinburg Area School District Technology Resources (“System”) to communicate in an educational and professional manner consistent with state and Federal laws governing individuals and employees.

If I am assigned to a supervisory role with students that are using computers, I understand that I am responsible for monitoring the compliance of students under my supervision with the student Acceptable Use Policy, especially as related to obscene and pornographic material, communications with non-school personnel, system security, non-school related use, and uses that violate other district policies.

I understand violation of this policy may result in disciplinary measures, and that consequences for such violation may have consequences ranging from removal of access privileges to suspension or termination of employment, and that these violations may be reported to local, state and/or Federal legal authorities.

The conditions and recommendations of this policy apply to all District employees, interns, representatives, or subcontractors that use the System. The absence of a signature does not exempt any such individuals from the stipulations of this Acceptable Use Policy.
