How do I know my mask is medical grade?

Medical Grade Masks are made to fit a standard, that Standard is printed on the box. Look for the words ASTM F2100 Level 1-3 to know your mask is medical Grade

Medical Grade Masks can be handed out to any Staff, student, or visitor requesting one.
N95 is a filtering facepiece respirator. If you have medical conditions that affect your lungs, heart, or ability to breath; please consult with your doctor before use or consider an alternative mask.

N95s can be handed out to staff only. This includes Tier II staff.
