

The Morris School District is happy to announce the adoption of the Morris County Sheriff's Office RSVP-3 program. RSVP-3 stands for "Responsible School Violence Prevention, Preparation, Protection." The Morris County Sheriff's Office established the RSVP-3 as a means to enable our students and parents the ability to share their concerns about someone who is struggling/depressed or potential acts of violence. The Morris School District is grateful to have this resource available as it provides the ability to anonymously report significant safety concerns directly to law enforcement. For more information, refer to their linked ***RSVP-3 Flyer***.

The RSVP-3 Application is easily downloadable from both the [Google Play Store](#) and [Apple App Store](#).

Tips can also be submitted using this link: ***P3 Campus / Anonymous Reporting Solution for Schools***. Once there, click "Submit a Tip", select the United States, New Jersey, the affected town, and the affected school. You will be brought to the report page. Tips provided using the link are received in real-time, just as when submitted tips through the mobile application.

Emergencies and suspicious activities related to schools should always be reported by calling 9-1-1.
