

Certificated Schedule of Benefits

Benefits/Payroll Department

District Contribution

The amount of the district's contribution you receive depends on whether you elect to carry medical insurance with the district. Employees who enroll in medical insurance will receive a monthly district contribution equal to the cost of the least HMO medical premium plus dental insurance, employee only coverage. **The difference is the employee contribution.** The amount of cash in lieu of enrolling in medical insurance will be only \$250.

Part-time employees will receive benefits prorated to their service as long as they work **half time or more**. Otherwise the district contribution will be \$0.

Note: For 11-month employees, August insurance premium will be deducted equally (1/11) each month.

Dental

Delta Dental insurance is **mandatory** for employees working half time or more. When enrolling for Delta Dental, you have the option to enroll your dependents. Delta Dental has an Open enrollment period, but is limited, if you cancel your dependents after enrolling them, you will not be able to re-enroll them for 3 years. Exception to this rule are qualifying events like marriage, adoption, loss of coverage, and dependent child turning 3 or 4 years old.

Health

Certificated Employees working half time or more can select from a variety of health plans offered through CalPERS Health Administration. The District will pay the cost of the lowest cost HMO plan (Kaiser), employee only coverage. Packets on each plan are available in the Business Office. *All enrollment and changes in enrollment are handle through the Health Benefits Officer at the District's Office.*
