Dear Parents,

As the weather begins to get warm and the closer we get to the end of the school year, we begin to experience a high number of disruptive behaviors in the classroom. Please speak to your child about the EXPECTED behavior, as we have expected all school year. We will adhere to district policy for disruptive student behaviors including SUSPENSION. Students are EXPECTED to also keep up with their studies and submit all assignments. Let's not allow our students to fail in both areas the last semester of the school year.
