Title I - Every Student Succeeds Act

These programs and services provide customized instruction and curricula that help students meet academic standards and take an active, engaged interest in what they can learn and do.

Funding received under Title I is intended to help ensure that all children have the opportunity to obtain a high-quality education and reach proficiency on challenging state academic standards and assessments. As the largest federal program supporting elementary and secondary education, Title I targets these resources to the districts and schools where the needs are the greatest.

RISE:
RISE is an authentic way to build partnerships with families. It is a data literacy model that teaches families about data and how it’s used in schools to inform instruction. In the one-hour interactive meeting, teachers and families have conversations about student school success. It provides a way to show families what learning looks like in the classroom and families learn how to help their child at home. It is an opportunity for families to connect with each other.

FAMILY ENGAGEMENT:
Our goal is to ensure every student is supported by a collaborative team of family, school, and community partners in order to achieve academic success. In alignment with Colorado Department of Education, Family, School, and Community Partnership department, we use the 6 National Standards for Family School Partnerships as the foundation of our work.

6 National Standards for Family School Partnership:
1. Create a Welcoming Environment
2. Effective 2-way Communication
3. Supporting Student Success
4. Speaking up for Every Child
5. Sharing Power
6. Collaborating with Community

TRANSLATION & INTERPRETATION:
Translation & Interpretation Services ensure that all Jeffco families receive important information clearly and quickly. Jeffco provides communication in over 100 languages on topics including safety, health, enrollment, student expectations, and academic progress.

Successful two-way communication promotes understanding, partnership, and a sense of community among Jeffco families and staff. The connection between Jeffco staff and families benefits students. This is the "Why" behind the team’s work. Federal guidelines require school districts to provide information to families in their preferred language to the best of their abilities, regardless of the schools' Title I status.

TI-FAC: TITLE I FAMILY ADVISORY COMMITTEE:
The Title I Family Advisory Committee (TI-FAC) brings together family representatives across our Title I schools to provide feedback and share ideas that will guide decisions that impact Title I schools. This includes planning and improvement of the district’s Title I program, and the development, revision and review of the parent and family engagement policy. TI-FAC members will work with district and school staff to communicate with families in their individual school and articulation communities.

TEAM DRIVEN SHARED LEADERSHIP:
Differentiated stakeholder engagement groups provide reflection, perspective, feedback, ideas and recommendations when making decisions that impact our Title I families, students and staff. Area representatives are the voice of their constituents and are responsible for two-way communication.

COMMUNITY AND FAMILY CONNECTIONS
The McKinney-Vento Homeless Assistance Act ensures educational stability for children and youth experiencing housing instability. Students who lack fixed, regular, and adequate nighttime residence qualify for additional support and resources. Unaccompanied Youth, students whose living situation is not fixed, regular or adequate and who are not in the physical custody of a parent or legal guardian, also qualify. Our team of 7 CFC Liaisons work to identify and verify eligibility. They are also trained to assist with Medicaid/CHP enrollment.
