Preparing for My Edmodo Classroom

As teachers, we know that preparation is key. Before my students ever create accounts, I prepare for a successful year with Edmodo by:

Signing up for a Teacher Account and creating my Teacher Profile

Preparing and sending out a [Parent Letter](#) and [Permission Slip](#), and reviewing the [Safety Best Practices](#)

Creating a [group](#) for my class and/or different subjects

First Days of Edmodo

Since my young students have a lot to learn about online responsibility, I start with a [Digital Citizenship](#) lesson and pass out a [Digital Code of Conduct](#).

I help my students [create a Student Account](#) in the computer lab. Some of my colleagues choose to send home a [Student Sign Up Guide](#) so parents can help with this.

Once all students have accounts, I help them [join my group](#), and teach them to communicate with me and their classmates by [making posts](#), [replying](#), and [sending me messages](#).

Running My Classroom

From book reports to show and tell, I use Edmodo to manage all the activities that take place in my classroom:

- Have students turn in journal entries using [Assignments](#)
- Use [Quizzes](#) to assess simple addition and subtraction skills
- Store spelling lists, engaging videos, and other files in my [Library and Folders](#)
- Share progress with students and parents through the [Gradebook](#)
- Gather students' opinions before a lesson with [Polls](#)
- Differentiate instruction by creating [Small Groups](#) for reading levels

These [success stories](#) highlight how other early elementary teachers have successfully utilized Edmodo.

Parent Engagement

Edmodo is essential to keeping my students' parents informed and engaged. During back to school night, I pass out [Parent Codes](#), demonstrate [how to create a Parent Account](#), and pass out the [Parent Sign Up Guide](#). I also show them [what they can see on a Parent Account](#) and how to set up [text notifications](#).

Once parents are on Edmodo, I can [Alert](#) them of their child's show and tell date, [send them field trip permission slips](#), and more.

Power of the Teacher Network

Connecting with other elementary school teachers across the globe through [Communities](#) and the [Discover](#) tool has helped me gain new ideas and resources. I've also collaborated through [Teacher Groups](#) such as [1st-3rd Grade Teachers](#) and [21st Century Tools for Elementary Teachers](#), and even created my own Early Elementary Teacher Group for others in my district to join!

Interactive Apps

When it comes time for activity stations, my students love practicing math or reading with [Edmodo Apps](#). Using the App Toolbar to discover new educational apps has really increased my students' engagement and learning. Some of my favorites include [Vocabulary Spelling City](#) and [Sokikom Classroom Management](#), but there is something to be found for every classroom in the Edmodo Store.

Learn about other early elementary teachers who have found [success with Apps](#) on Edmodo.

"I have found it beneficial to have my students only memorize one login, yet have access to so many tools! Edmodo rocks!"
