

RMS (Reimagining Middle Schools) Committee

Steering Meeting Minutes

February 7

Inclusive welcome –

- Steering committee members were asked to sit with their prototype group from 2/2. We had four groups representing the big 4 ideas: advisory/homeroom, project-based learning, teachers with a cohort of students, and longer classes/block schedule.
- Objective of the day was reviewed:
 - Continue creating "scrappy prototypes" for each of the four key areas using feedback collected so far and prepare for "Town Hall" sharing

Content-

- Prototype: Steering committee members shared reflections and feedback collected so far and then spent about 30 minutes refining initial prototypes.
- "Town Hall" Sharing and Feedback: Steering committee members engaged in three rotations to learn more about the other prototypes and to give feedback. One member of the team stayed with their prototype to share with other committee members.
- We provided feedback into three categories: "I like..." / "I wish..." / "What if..." (please see slide 13 for details).
- Refine: after rotating to other prototypes, teams returned to their group and reviewed feedback received and refine prototype again.

Nuts and Bolts-

- The Next meeting - **March 9** in the ADAMS Room @ WISC
 - Innovated MS information will be shared
 - Staff Listening Session Data will be presented
 - We will continue to refine our prototypes
- We are inviting Steering committee members to join the staff listening campaigns on **March 2**
