

Meece Middle School SBDM

ALIGNMENT WITH STATE STANDARDS POLICY

ALIGNMENT NEEDS ASSESSMENT

Our yearly School Improvement Planning process will include:

1. An analysis of our KSA and other school data as necessary to discover the extent to which our school and students are meeting state academic expectations and that our programs are aligned with state standards.
2. Systematically work to discover and correct the causes of and barriers toward reaching proficiency by all students and to ensure the growth of students toward meeting theirs and our school's academic expectations.
3. The School Improvement Plan is based on our needs assessment data from the previous and current school year. Our School Improvement Plan will identify priority goals, objectives, strategies, and identify activities and individuals responsible for implementation.

Our School Improvement Plan will be monitored by the SBDM council through ongoing implementation and impact checks conducted each quarter by the council.

POLICY EVALUATION

We will evaluate the effectiveness of this policy through our School Improvement Planning Process.
