

Dear Prospective Business Partner:

Our school, Volusia Online Learning, is making great strides toward student success. In doing so, we are asking all community stakeholders to assist us in helping students reach their highest level of achievement. We are looking to create business partnerships with local businesses to enable us to reach our goal.

As a business partner, there are several ways that you can positively influence the success of teaching and learning in our online school. Through a partnership, partners may:

Provide incentives to motivate student achievement.

- Reward instructional personnel for their dedication to students and community.
- Impart knowledge of real-life business experience to our seniors and support senior class activities such as senior breakfast and award ceremony.
- Assist the school in raising funds or making donations to enable the school to reach academic and technological goals.

Your participation as a business partner will influence students, your future employees, and leaders in the community. Partners find it a rewarding way to prepare students for tomorrow. Students learn that the community holds education in high regards and cares about their success and future.

VOL would be happy to recognize any generous donations on our website, social media sites, and in our newsletter.

Whether you are a small business or a major corporation, we need you. Volusia Online Learning invites you to invest in our students, community, and our future. If you are interested in being a partner for our School, or need more information on our partnership program, do not hesitate to reach out via the contact information below.
