STEM at Pelahatchie Elementary

Our STEM program is equipped with materials and technology provided through the use of Title 1 funds. Items below are used by students when they are in the STEM lab.

Bee Bots

Robots that have simple inputs for early learning of coding concepts for our PreK - 1st graders

Sphero Bolt Robots

Programmable robots that 2nd - 6th grade students use creativity and coding skills to complete tasks

LEGO Education Kits

LEGO: STEAM Park Engineering and design kits for our PreK - 1st Graders

LEGO: BricQ Essential Kits for students to learn and explore forces & motion

LEGO: Prime Essential Kits that include robotic components to build and code using the Spike APP

Our STEM Lab MAKERSPACE is full of items that students use while completing engineering design tasks. While some of the supplies are reusable materials like cardboard, others like tape, straws, and popsicle sticks, have to be purchased.

LEARNING at Pelahatchie Elementary

Our school is equipped with materials and technology provided through the use of Title 1 funds. Listed below are a few of the items we have purchased with Title 1 funds to enrich student learning in the classroom.

Classroom Novel Sets

Class sets of novels allow each student in the classroom to have text in hand to closely follow along during the lesson.

Additional Teacher Manuals & Bookstudy Books

These materials help our teachers continue to grow in their knowledge and practice!

DoodleJamz JellyBoards

These were purchased for our Kindergarten and 1st grade students to use during phonics instruction. The JellyBoards are a fun and educational sensory learning tool that assist our young students in committing phonics skills to memory.

Magnetic Letter Kits

We purchased our K-3 teachers multiple class sets of magnetic letters to aid in phonics instruction.

Our STEM Lab MAKERSPACE is full of items that students use while completing engineering design tasks. While some of the supplies are reusable materials like cardboard, others like tape, straws, and popsicle sticks, have to be purchased.
