

2023-2024 Course Catalog Grades 6-12 Bellevue School District is committed to developing programs and courses operated in conformity with all Federal and State laws prohibiting discrimination based on race, color, national origin, disability, gender, sex, sexual orientation, religion, or military status.

NON-DISCRIMINATION STATEMENT

Bellevue School District does not discriminate in any programs or activities on the basis of sex, race, creed, religion, color, national origin, age, sexual orientation, gender expression or identity, disability, or the use of a trained dog guide or service animal and provides equal access to designated youth groups. The following employees have been designated to handle questions and complaints of alleged discrimination:

- » Title IX Coordinator: Jeff Lowell, 425-456-4010 lowellj@bsd405.org
- » Section 504/ADA Coordinator: Heather Edlund, 425-456-4156 edlundh@bsd405.org
- » Civil Rights/Nondiscrimination Compliance Coordinator: Nancy Pham, 425-456-4040 phamn@bsd405.org
- » Address for all three: 12111 NE 1st St., Bellevue, WA 98005

A Message from Bellevue School District Superintendent, Dr. Kelly Aramaki

Hello Bellevue School District students!

We're proud to release the 2023-2024 school year course catalog! We're excited to be adding some new, innovative courses, like: Arabic language, Launching into Aviation at Sammamish, Flight & Space in some middle schools and much more. This course catalog is intended to assist you as you explore the vast array of class offerings available in our schools. We want you to be able to take classes that help you discover your passions and interests, and that assist you in achieving your career goals. Classes fall into the many categories such as: Career and Technical fields, Science, Technology, Mathematics, Arts, Music, Humanities, and options in high school for dual credit programs in Advanced Placement, International Baccalaureate, and College in the High School. We encourage you to take your time to look through the huge range of classes available to you, include your friends and families in the process, and maybe choose a class that you're interested in but might not have considered taking before!

For decades, the classes we offer in the Bellevue School District reflect a community commitment to educational excellence. The high caliber and vast array of the classes at middle and high school have helped students to realize their ideal career and college goals. This year and moving forward, we also want to offer new and innovative classes that are driven by student interest. As you look through this course catalog, if there is a class you wish we offered but didn't, reach out to an administrator or e-mail me directly and let me know. If there's enough interest in a class that you want to take in the future, we'll do what we can to make it happen. If you have any questions about a particular class or about the process to sign up, do not hesitate to reach out to counselors and staff in your school. We're all here to help you make the most of your education.

Sincerely, Dr. Kelly Aramaki Superintendent

Middle School General Information

This course guide gives you information about all courses that may be offered in Bellevue. Middle School students are to enroll in and maintain a full 7-period schedule throughout the middle school years. We hope this guide will answer all of your questions as you decide what middle school courses to register for next year. The courses in this guide will be offered next year only if enough students register this spring to fill a class, so, it is very important that you think carefully about your choices now so that the courses you want will be available next year. If you cannot find the answers you need, or if you would like to have individual help in planning your program, please contact an administrator or counselor at your school.

MIDDLE SCHOOLS

Chinook Middle School (425) 456-6300

Highland Middle School (425) 456-6400

Odle Middle School (425) 456-6600

Tillicum Middle School (425) 456-6700

Tyee Middle School (425) 456-6800

CHOICE SCHOOLS

The Big Picture School and International School, alternative programs, serve students in grades 6-12. These schools may package courses under different names, may integrate and combine courses, and may change the sequence of courses, but its curriculum will still satisfy the same basic requirements as other district courses. Please call the school directly if you are interested in information.

Big Picture School (6-12) (425) 456-7800

Bellevue Digital Discovery (K-12) (425) 456-4045 bsddigitaldiscovery@bsd405.org

International School (6-12) (425) 456-6500

INFORMATION FOR MIDDLE SCHOOL STUDENTS

Middle school requirements are explained on the following pages. Use the planning guide (p. 18, 20 and 23) to map out your three-year middle school plan for the required 7-period day. We also encourage you to think ahead about the sequence of courses you will want to take in high school. This way you will know what courses to choose in middle school to be prepared for the high school courses that interest you.

MIDDLE SCHOOL COURSE REQUIREMENTS

- » Three years of Language Arts taken in 6th, 7th and 8th grade.
- » Three years of Social Studies taken in 6th, 7th, and 8th grade.
- » Three years of Mathematics taken in 6th, 7th, and 8th grade.
- » Three years of Science taken in 6th, 7th, and 8th grade.
- » Three semesters of Physical Education (one semester taken in 6th, 7th, and 8th grade).
- » One semester of Health taken in 7th grade.
- » One semester of Career and Technical Education taken in 6th, 7th, or 8th grade
- One semester of Performing/
 Visual Arts taken each year in 6th, 7th and 8th grade.

HIGH SCHOOL CREDIT FOR COURSES TAKEN IN MIDDLE SCHOOL

Passing grades earned in courses that are designated as earning High School Credit will be automatically posted to the high school transcript. Students and Parents/Guardians have the following options:

Credit and grades may remain as posted on the transcript.

Middle School General Information

Grades can be changed to credit only and the course and credit will remain on the high school transcript.

Credit and grade can be removed entirely from the high school transcript. Once the course/credit is removed, it cannot be re-posted to transcript. Changes must be made prior to the end of the junior year in high school.

A full list of courses which qualify for high school credit are listed to the right. If you have any questions, please see a counselor at your school or consult BSD Procedure 2410P section O.

https://bsd405.org/wp-content/pdf/policy/2410P.pdf

MIDDLE SCHOOL GRADING: REPORTING STUDENT PROGRESS

Teachers will provide to parents a written report of each student's progress at the end of each quarter. The student's work and study habits and academic progress will be reported. Letter grades will be provided for all students.

In the interval between the quarterly reports, interim progress reports of a student's outstanding or inadequate progress may be provided to parents. At a minimum, an interim progress report is required when a student's achievement in a subject is known by the teacher to be unsatisfactory (failing) during the second quarter of a semester. This report will be issued as early in the quarter as practicable to allow the student time to improve before the end of the semester. Parents/guardians and students are able to access attendance and grade reports online throughout the year on the district's student information system (Synergy).

SCHEDULING

We hope this guide will answer all of your questions as you decide what high school courses to register for next year. The courses in this guide will be offered next year only if enough students at each school register this spring to fill a class. So, it is very important that you think carefully about your choices now, including alternative selections, so that the courses you want will be available next year at your school. Another reason for students and parents to take spring registration very seriously is that students will be committed to their schedule. Changing student schedules will be done only under exceptional circumstances, master scheduling need or to meet graduation requirements. Desire to have a common lunch with a friend, to be in the same class with a friend, to have a different teacher, preference for a different elective, or similar personal preferences will not be accepted as reasons for schedule changes. The choices you make now will determine your schedule for the entire school year. If you cannot find the answers you need, or if you would like to have individual help in planning your program, please contact an administrator or counselor at your school.

COUNSELING PROGRAM

All school counseling programs will include the following elements: guidance curriculum, individual student planning, responsive services, and systems support.

The focus of the Counseling
Department is to help students
with academic and career planning
and to foster personal exploration,
self-awareness, and social growth.
Students are encouraged to set
realistic yet challenging goals, to make
responsible decisions, to understand
the consequences of their actions, and
to learn to self-advocate.

Students should contact a counselor if they have questions about transitions between schools, registration, course selection, interpretation and use of test results, or graduation requirements. High school counselors assist students with academic, career, college, and personal questions. Visit or call the counseling center or career center to make an appointment with your counselor.

Counselors offer a wide variety of services, resources, and activities:

- » Visit high schools during the prior school year to provide a smooth transition from middle school to high school
- » Assist students in planning, selecting and successfully completing middle and high school courses, completing the High School and Beyond Plan, and meeting all requirements for high school graduation
- » Teach students (in classrooms) about the intricacies of college admission, how to develop and sustain study habits and develop personal/social support systems
- » Provide students and families with information about course selection/ registration, college admissions testing, financial aid, socio-emotional issues, and mental health resources Facilitate outreach with community mental health support agencies
- » Monitor students' academic progress and assist student in developing plans of support so that they are successful in resolving problems in doing well in school and classes
- » Provide a program to prepare students for an education beyond high school
- » Develop and lead groups with topics ranging from dating, relationships, and self-esteem, to academic improvement

» Assist students with issues, academic or personal, that are or may be interfering with academic performance

The College and Career Advisors provide college and career guidance through individual appointments, workshops, speakers, and panel discussions. College and Career Advisors:

- Support students with college applications, college essays, FAFSA/ WAFSA and scholarship assistance;
- » Support and registration for work-based elective credits:
- » Connect students to community resources and events;
- » Assist students with career exploration through connecting them with speakers, attending field trips, workshops, and promoting employer/internship opportunities;
- » Assist students with completion of the High School and Beyond Plan (HSBP).

INFORMATION FOR HIGH SCHOOL STUDENTS

FULL SCHEDULE REQUIREMENT

Full-time high school students must be enrolled in all seven periods at a Bellevue School District school in grades 9 and 10 and enrolled in at least six contiguous periods in grades 11 and 12. Students who are in their fifth year of high school and enrolled in grade 12 may enroll in less than six periods that do not need to be contiguous.

Full-time running start students must be enrolled in a minimum of 15 college credits.

COMMUNITY SERVICE GRADUATION REQUIREMENT

Students must earn forty hours of Community Service as one of their graduation requirements. Students may begin to earn these hours once they complete their eighth grade year. The hours may be earned all at one time, or in any manner that meets the student's schedule, during his/her high school years, but must be completed prior to the student's participation in a commencement ceremony and the granting of a diploma.

Community Service is any service that is done for non-profit agencies and organizations and/or religious organizations. School service is also included. For activities that occur over more than one day, a maximum of 10 hours/day is allowed for the 40 hours of community service required for graduation. All students will record their community service hours in x2Vol, which is housed in the Naviance Program.

2.0 GRADE POINT AVERAGE GRADUATION REQUIREMENT

All students are expected to earn the necessary credits for graduation with a minimum of a 2.0 cumulative grade point average (GPA). Athletic/activity eligibility also requires a 2.0 GPA.

STATE GRADUATION PATHWAY REQUIREMENT

In order to meet Washington state graduation requirements, high school students must: earn all required state and local credits, complete a high school and beyond plan, and show math and literacy competency through an approved Smarter Balanced Assessment (SBA).

There are many ways to meet the Graduation Pathway requirement including one or more of the following:

- A. Meet or exceed SBA scores in ELA and Math
- B. Complete and qualify for college credit in a dual credit course.
- C. Earn credit in a high school transition course.
- D. Earn high school credit with a C+ or better or score 3 or higher

- on an AP exam or in an IB course earn a C+ or better or score a 4 or higher on the IB exam.
- E. Meet or exceed standard on the ACT or SAT
- F. Meet standard on the ASVAB
- G. Complete a sequence of CTE courses based on your High School & Beyond Plan

Please see your counselor for more details.

HIGH SCHOOL AND BEYOND PLAN

Students will design and document their post-high school plans by completing the High School and Beyond Plan in Naviance.

GRADUATION CREDIT REQUIREMENTS

BSD CREDIT REQUIREMENTS				
SUBJECT SEMESTERS CREDITS				
English	8	4.0		
Mathematics	6	3.0		
Social Studies	7	3.5		
Science *	6	3.0		
Career & Technical Education	2	1.0		
Fine Arts (Drama, Music, Visual Art) **	4	2.0		
Health	1	0.5		
Physical Education	3	1.5		
World Language ***	4	2.0		
Electives	7	3.5		
TOTAL 48 24				

^{*} The Science requirement of 3.0 credits must include two lab classes.

The 3rd credit of science and the 3rd credit of math are chosen by the student and based on the student's interest and High School and Beyond Plan, and approved by the parent or guardian, or, if the parent or guardian is unavailable or does not indicate a preference, the school counselor or principal.

Personalized Pathway Requirement (PPR) are related courses that lead to a specific post high school career or educational outcome chosen by the student based on the student's interests and High School and Beyond Plan, that may include Career and Technical Education and are intended to provide a focus for the student's learning. Students may have up to 3 PPR credits.

Some CTE courses are cross credited with other subject areas. Please see the CTE Course Equivalency Credits table for further information.

NON CREDIT REQUIREMENTS:

- » Washington State History
- » High School and Beyond Plan
- » 40 hours of Community Service
- » Students must earn a 2.0 cumulative Grade Point Average

STATE ASSESSMENTS:

Students are expected to take all state assessments including the SBA for ELA and Math. Students meeting the standard will also meet the Graduation Pathway requirement for graduation.

COLLEGE/UNIVERSITY ENTRANCE REQUIREMENTS

Colleges and universities have different general requirements unique to each institution. However, there are some common requirements for each type of college or university. Although specific requirements may vary among institutions, the following minimum quidelines exist:

IN-STATE PUBLIC UNIVERSITIES

English 4 years

Includes 3 credits of college preparatory COMPOSITION & LITERATURE.

Mathematics 4 years

Algebra 2 credit is the minimum level for college entrance; a math credit must be earned during senior year.

Science 2-3 years

Includes 1 credit chemistry or physics. 2 credits must be lab sciences

Social Studies (History or other Social Sciences) 3 years

World Language 2 years Consecutive study (2 credits) of same language: World language, Native American language, or American Sign Language.

Fine Arts 1 year

(University of Washington and Western Washington University specify ½-credit in fine, visual, or performing arts; the other ½-credit may be in the arts or in an academic elective.)

PRIVATE 4-YEAR COLLEGES/ UNIVERSITIES

English 4 years

Mathematics 4 years

Science 2-3 years

Social Studies 3 years

World Language 2-3 years Consecutive study of the same world language.

Academic and Arts Elective 2 years

^{**} The Fine Arts requirement of 2.0 credits can include 1 credit of Personalized Pathway Requirement (PPR).

^{***} For World Language, both credits can be PPR. Credits must be in the same language.

CT_442	Environmental Sustainability	1.0 Lab Science	
CTA470	AP Micro/Macroeconomics	1.0 Social Studies Elective	

HIGHLY SELECTIVE COLLEGES/UNIVERSITIES

College Admission officers pay particular attention to the rigor of the student's program.

English 4 years

Mathematics 4 years

Science 3-4 years With laboratory courses

Social Studies 3-4 years

World Language 3-4 years Consecutive study of the same world language.

Academic and Arts Elective 2-3 years

GUARANTEED ADMISSIONS PROGRAM

Students who have a GPA of 3.0 or higher and are on track to complete the College Academic Distribution Requirements (CADRs) under The Guaranteed Admissions Program (GAP) will be offered admittance to Central Washington University, Eastern Washington University, The Evergreen State College, Washington State University or Western Washington University before you even apply!

COMMUNITY COLLEGES/ TECHNICAL PROGRAMS

Admission requirements vary from "open-door" policy to selective course expectations for specific programs.

FURTHER CREDIT INFORMATION

DIRECTED ATHLETICS PE/ FITNESS CREDIT FOR SCHOOL ATHLETICS & COMMUNITY BASED ATHLETICS AND ACTIVITIES

Students in grades 10-12 may earn up to .5 of the required 1.5 Physical Education credits by participating in school sports, cheerleading or drill or by participating in approved community based sports or activities. A full school sport season or 80 hours of community based activity in a 90-day period qualifies for .5 credit. Students must complete and submit a request form for approval within the academic year of the involvement of the school sport or community activity

and complete an assessment for the knowledge portion of the fitness requirement. There is a nominal fee charged for each assessment.

ELIGIBILITY FOR ATHLETICS/ACTIVITIES

Students are required to maintain a 2.0 cumulative grade point average (GPA) in the semester preceding participation in order to participate in a sport and/or activity. Students who do not initially meet this expectation will be granted a probationary period (during the sport/activity season) to show that progress is being made to reach this standard. During the probationary period, any student may practice, but only those who demonstrate progress may compete.

WORLD LANGUAGE COMPETENCY CREDITS

Competency based credits may be earned for World Language:

A maximum of 4 World Language credits may be awarded through OSPI's Competency Based Credit testing process. Not all colleges accept competency credits to meet their World Language requirement for entrance. Students cannot receive competency credits for courses already taken. They also may not take courses for which they already have world language competency credits. More information is available here: http://www.bsd405.org/departments/curriculum/competency-credits/

In order to earn competency credits in World Language, students will demonstrate proficiency in speaking, listening, reading and writing. These assessments are aligned with the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Levels.

Depending on the language, students take the STAMP Test, the ALTA test, or the OSPI custom test. Students receive credit based on their **lowest** score of the 4 skill areas.

- » Novice Mid-1 credit
- » Novice High- 2 credits
- » Intermediate Low- 3 credits
- » Intermediate Mid or Above- 4 credits

CREDITS FOR EMPLOYMENT

Students aged 16 or older are eligible to receive credit for working. Students can receive 0.5 elective credit for each 180 hours of work up to a total of 4.0 credits. The counting of hours begins when the student registers with their College and Career Advisor who will coordinate the tracking of hours. Please see your school's College and Career Advisor for further information:

CREDITS TAKEN OUTSIDE OF THE BELLEVUE SCHOOL DISTRICT

There are some instances when students may be granted credit (not necessarily a grade) for learning experiences outside the district. The learning experiences are expected to be within the procedures established by the District, which includes meeting Common Core State Standards and alignment with District curriculum. To be granted credit, students must obtain district approval prior to enrollment and/ or participation in the outside learning experience. Students must obtain, complete, and submit the form labeled "Student Request For Approval For Learning Experiences Outside The Bellevue School District". This form, BSD Procedure 2410P Exhibit A, can be found on the district website. Should the request be approved, students must have been, and continue to be, fully scheduled in a Bellevue School District high school, taking the maximum credits offered during the regular school day. Students may not drop a course and/ or shorten their schedule in order to have a learning experience outside the regular program.

Please see BSD policy 2410, and procedures 2410P and 2410 Exhibit A.

WITHDRAWAL GRADES

A "W" grade will be posted to a student's transcript if the course is dropped after the first 10 days but before the 30th day of the semester. At the quarter, a .25 credit and grade will be posted to the transcript if the course is dropped mid-semester. Students who change levels in an academic area or change from one elective to another elective in the same area will receive .5 credit and grade at the end of the semester. Students who change from one course to another course in a different academic area will receive a withdrawal grade of "W" or .25 credit and grade depending on the drop date. The principal makes the final determination of the grade mark to be posted to the transcript.

WAIVING COURSE REQUIREMENTS

Students may have courses waived if they meet certain criteria. In order to apply for a course waiver, students complete and submit to the counselor the Waiver of a Course Requirement form. The counselor will document that he/she has seen the form and supporting documents and write comments/insights to be considered in the decision and then forward the form to the principal. The principal will review the form and add any additional comments/insights and forward the request to the Director of Teaching & Learning or designee. The Director of Teaching & Learning or designee will either grant approval for the course waiver requirement or deny the request, citing reasons for the denial. The completed form will then be sent to the student's counselor for review of the results with the student.

EARLY GRADUATION

Early graduation from high school is appropriate for some students. Plans for early graduation must be made cooperatively between the student, parent(s), and school. Any student contemplating early graduation

should initiate a request and complete a plan with his/her counselor. The plan must be submitted for approval to the principal. This should be done, at the latest, prior to registration for the year during which the student plans to graduate.

Creators of Your Future World

RIGOROUS COURSEWORK & COLLEGE CREDIT OPTIONS FOR HIGH SCHOOL STUDENTS

The choices you make now are important building blocks to future learning. By taking college-level Advanced Placement (AP), International Baccalaureate (IB), College in the High School, Running Start or PNW College/WANIC classes in high school, you enter a world of knowledge and a learning environment that you might not otherwise experience.

WHY SHOULD YOU SIGN UP FOR THESE TYPE OF COURSES?

The greatest benefit of any of these programs is the experience of taking academic courses in an enriched environment with classmates who, like you, are seeking intellectual challenge, are motivated to learn, and are committed to excellence. Participating in these courses is going to give you a head start on exactly the sort of work you will experience in college. You will improve your writing skills and sharpen your problemsolving techniques; develop the study habits necessary for tackling rigorous coursework; assume the responsibility of reasoning, analyzing, and understanding for yourself; and study subjects in greater depth and detail.

ADVANCED PLACEMENT

All students are encouraged to seriously consider enrollment in one or more AP courses during 10th, 11th and 12th grades. AP courses are also available to students in 9th grade. These courses are offered in all our high schools. While the availability of classes differs among the schools, in Bellevue School District we offer over 35 different AP courses ranging from English, US History, and Psychology to Statistics, Calculus, Biology, Chemistry, and Computer Science to Spanish Language, Music Theory and Art Portfolio. We try to provide a broad selection of courses to appeal to a wide variety of student interests.

Advanced Placement courses are college-level courses offered in high school. AP courses include extensive reading. Students in AP courses may earn college credit if they perform well on rigorous national AP tests.

Ask your counselor for assistance in selecting courses that will prepare you for success in any AP course that interests you. Additional information about the AP program is found in the AP information section.

INTERNATIONAL BACCALAUREATE DIPLOMA

The International Baccalaureate (IB) Program, located at Interlake High School, is recognized internationally as a rigorous and comprehensive curriculum, designed to challenge college-bound students. The IB program's broad range of subjects accommodates diverse student interests and intentions while adhering to the objectives of a cohesive liberal arts education. IB courses are college-level courses offered in high school which includes frequent homework and involves extensive reading. Students in IB courses may earn college credit or advanced placement if they perform well on rigorous IB assessments. For more information see specific course

descriptions or talk to an Interlake counselor.

PACIFIC NW COLLEGE CREDIT & WANIC

Pacific NW College Credit and WANIC are programs that combine secondary and post-secondary programs allowing high school students to begin a Career and Technical Education program that leads to a two-year Associate degree, a two-year certificate, and/or a four-year Baccalaureate degree.

These courses are marked with a College Credit or WANIC symbol in the course descriptions.

COLLEGE IN THE HIGH SCHOOL

This program provides 9th through 12th grade high school students the opportunity to earn college credit in approved high school courses. BSD offers courses in math English, World Language, Science, and Social Studies. These courses most often meet college or university general requirements for college graduation. Please check with the institutions you are considering on attending to determine if these credits will be accepted for advancement.

Due to changes in state law which connects college crediting to high school credit some courses maybe credited beyond the 0.5 credit/semester/period that is typical. For example, some 1 period courses may be worth 2 high school credits. This information can be found in the Length/Credit section in the description and are marked with a College Credit Symbol.

Creators of your Future World

Additional College in the High School (CHS) Information:

- » There is no fee for students to enroll in a CHS or co-delivered dual credit course that includes CHS to earn only high school credit. Fees apply only for students who choose to enroll in a CHS course to earn both high school and college credit.
- » Fees for College in the High School courses will vary by the number of credits and the institution. BSD currently has 3 different partner institutions. For each course you can calculate the total cost by multiplying the number of college credits by the cost per credit below:

Bellevue College - \$40/credit Edmonds College - \$43/credit University of Washington - \$66/ credit & one-time \$45 registration fee

- » College credits earned through courses in the College in the High School program cost substantially less than what a college student pays for the same class. Costs are between 35% to 17% of in-person attendance at our partner colleges. Students needing financial assistance should contact their teacher and school counselor to see what resources are available to students.
- » Paying for the college credit automatically starts an official college transcript with the institution offering the course. The college transcript is a permanent record which will record the credits earned and the grade received.

If a student attends another college or university after high school graduation, the new school may count the credits as elective or academic credit depending on the receiving college's transfer credit policies. Many colleges and universities have a list or online tool for you to check the transfer equivalencies and your counselor can support with local university searches.

RUNNING START

Current Washington State legislation allows high school students to attend their local community college or technical school and earn high school credits and college credits at the same time. There are no tuition fees for the student if the number of credits does not exceed the maximum allowed.

Students enrolled in Running Start must:

- » Have junior or senior standing in high school.
- » Apply to the program during the enrollment period. Our largest partner, Bellevue College, opens in March prior to the fall quarter the student wishes to attend.
- » Sign a Bellevue School District Running Start contract with parent(s)/guardian(s).
- » Enroll in courses that are approved by the high school counselor so that graduation requirements are completed in conjunction with any college coursework that may lead to an Associate of Arts degree. The student should also maintain fulltime enrollment of a minimum of 15 credits so that the student's graduation status is not jeopardized.
- » Be responsible for knowing the registrations date(s) and deadline(s) for district and college course registration.
- » Be responsible for transportation, lab fees and books.

HIGH SCHOOL FOUR-YEAR EDUCATIONAL PLAN

Use the High School Planning Worksheets to help you plan for the courses you will take in high school. Please be aware that your post-high school plans for college, employment, or career training may require courses beyond the graduation requirements. Also, if you want to finish up your high school program with some Advanced Placement or advanced level vocational courses, you need to register for the necessary prerequisite classes during 9th, 10th, and 11th grade.

It's your future, so plan carefully!

You are strongly encouraged to complete your graduation requirements in the years indicated on the planning worksheet. Use the descriptions in this course guide to help you decide which courses to take in each subject area.

Middle School Planning Worksheet | Grades 6 – 8

Below is an important worksheet to help you plan the courses you will take during 6th, 7th, and 8th grades. You must enroll in seven courses every year. Use the Middle School Course Requirements on page 4 along with the course descriptions in this book to plan your schedule. Call your middle school for help if you need further information.

BELLEVUE BIG PICTURE SCHOOL

Bellevue Big Picture School is a secondary school- of-choice that serves 6th-12th grade. In partnership with the nationally recognized Big Picture Learning Network (www. bigpicture.org), five guiding principles provide the school's foundation and framework: personalization, adult-world connection, common intellectual mission, supportive partnerships, and shared leadership and responsibility. The school is uniquely structured to educate, support, and guide students from middle school through high school graduation, building bridges across the grades that lead to college success. Core courses are taught by teacher

advisors, each of whom facilitates the academic and personal development of a small group of students over multiple school years. The curriculum is problem/project-based, integrating technology, 21st century skills, and relevant, real-world issues. High school students participate in internships with adult mentors one day each week, and middle school students take advantage of service learning and other community opportunities integrated into the curriculum. Together with parents, advisors, and mentors, students create personalized learning plans that connect their interests, academic goals, and college/ postsecondary plans. Beginning in sixth grade, students prepare for

college and careers through campus visits, college counseling, and partnerships with local postsecondary institutions. Middle school course of study: Humanities (English and social studies), math and science, advisory, Spanish (beginning in 7th grade), physical education/health, and art exploratory courses. High school course of study: Humanities (English and social studies), math and science, advisory, internships, Spanish, physical education/health, and digital media/ art. 11th and 12th grade students will be able to earn college credit through College in the High School courses, AP courses, or Running Start courses.

BELLEVUE DIGITAL DISCOVERY SCHOOL

Bellevue Digital Discovery is a permanent online choice school that serves grades K-12 that accepts students entering at any grade level. Our 7-12 program follows the Alternate Learning Experience instructional model in partnership with Imagine Edgenuity. This model allows significant flexibility in where and

when instructional hours are provided. Students engage in learning at their own pace and their courses are taught by Imagine Edgenuity Washington State certificated teachers. Students have access to most course options in the Course Catalog as well as unique offerings from Imagine Edgenuity. Students can take an extra course or two if they complete their coursework in a faster than expected pace.

Students in grades 7-12 also have one synchronous class called Academic Seminar. This course is co-taught by two Bellevue School District teachers. Students engage in team and community building activities and have a space to talk about their needs. Lessons focus on social emotional learning, study skills, goal setting, and global competency.

INTERNATIONAL SCHOOL

International School offers a rigorous, seven-year secondary school curriculum which promotes deep learning and the development of 21st century academic skills. In both middle and high school, students are prepared for knowledge and skills required to succeed in and contribute to an interdependent and international world as they will pursue their postsecondary education, career, and dreams. The program of studies, required for graduation, exceeds the minimum requirements for the State

of Washington and Bellevue School District. Learning is centered on seven core curricular areas: Humanities (Language Arts), International Studies (History, Geography, Government, and Contemporary World Affairs), Mathematics, Science, French, Physical Education, Fine and Performing Arts. Students are required to focus learning on core curricular areas for a minimum of six years and Advanced Placement, or AP courses are offered in all core subject areas. During 11th and 12th grade, students may choose to pursue Computer Science coursework

by taking the required course instead of Math or P.E. (11th grade) or French, Science, or Arts (12th grade). International School offers Career and Technology Education credit, or CTE credit, through Computer Science and Focus Week. During Focus Week, students have an opportunity to explore diverse career paths offered through one week of specialized study during each of their seven years at International School.

For more information and application go to:

https://bsd405.org/international/about/applying-to-international-school/

MIDDLE SCHOOL AVID

EL_101 PRE-AVID

Length/Credit: 1 semester or 1 year

Prerequisite: Teacher

recommendation and/or AVID site team recommendation

Location: Highland, Odle

The Pre-AVID Elective course is an introduction to the AVID philosophy. Students will develop awareness of the values accompanying academic goals and success. The course will focus on building self-confidence, communication skills in working with peers as well as build college ready academic skills so that students can experience greater success in their current classes. Pre-AVID students will learn habits of mind and cognitive routines proven to help them succeed in high school curriculum and college such as peer collaboration skills, questioning strategies, goal setting, note-taking as a process, organization, time-management and self-advocacy. Students who are the right fit for the AVID elective course will be recommended to apply and interview for the appropriate AVID grade level course when the student is ready.

EL_291 COLLEGE READINESS THROUGH AVID I

Prerequisite: Application and

interview

Location: Chinook, Highland, Odle,

Tillicum, Tyee

Advancement Via Individual
Determination (AVID) is an engaging academic elective designed for motivated and determined students who intend to build the skills and mindset necessary to pursue a four-year college degree and who are also interested in exploring different career pathways. Open to 6th, 7th

and 8th grade students, the AVID curriculum is centered on researchbased instructional routines that support student's development in writing, inquiry, collaboration, organization, reading, study habits, leadership and self-advocacy. In AVID, students learn and practice key cognitive habits of mind proven to help them succeed in their current middle school courses and in preparation for more rigorous high school and college courses in their future. Students in AVID are afforded the opportunity to explore their personal college and career aspirations through individualized research, relevant readings, presentations, college mentorship partnerships and interviews, college field trips and quest speakers who share their journey to college and career.

High School AVID

HIGH SCHOOL AVID

AVID's mission, Advancement Via **Individual Determination**, is to close the opportunity gap by preparing all students for college readiness and success in a global society. AVID is an elective class offered during the school day for grades 6-12 that is designed to increase the number of students who enroll and succeed in college after high school. The AVID program is aimed at students who are traditionally underserved in college, particularly those who would be first in their family to attend college; however, AVID is open to all students who wish to apply and would benefit from the AVID coursework.

The AVID elective class teaches students academic and social skills to help them develop habits and behaviors that are proven to help them succeed in rigorous high school curriculum and college. AVID's core curriculum teaches:

- » peer collaboration skills
- » questioning strategies
- » goal setting
- » motivation through guest speakers and fieldtrips
- » organizational habits
- » notetaking strategies
- » critical thinking skills
- » self-advocacy

Students must apply, interview and be accepted into the AVID program. Candidates for the AVID program:

- » should be able to maintain college-eligible grades
- » have a desire to challenge themselves, and
- » above all, exhibit a strong aspiration to attend college after high school.

While the core AVID curriculum is similar each year and students can enter the program at any time, the AVID curriculum increases rigor and specificity year after year and is intended for students to stay in the program until high school graduation.

The middle school AVID program focuses on the foundations of college readiness and academic success; AVID in grades 9 and 10 focuses on high school success, specifically goal setting, time management, and success in AP and IB courses.

AVID in grades 11 and 12 centers around applying to college, including intense college searches, financial aid, SAT and ACT preparation, and maintaining academic success in rigorous AP or IB courses. The AVID program is research-based, taught by AVID trained educators and has proven results of higher student achievement, increased college acceptances and enrollment in AP and IB courses in under- represented populations.

EL_491 COLLEGE READINESS THROUGH AVID 9

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Application/interview process

Location: Bellevue, Interlake, Newport, Sammamish

Advancement Via Individual Determination (AVID) is a rigorous course designed for motivated and determined students who intend to pursue a four-year college degree. AVID students work through peer study groups and collaborate with college academic coaches to deepen their content knowledge, practice questioning strategies and lead discussions. AVID course work focuses on entrance and placement exams, career and college knowledge, preparing for college study sessions, test taking strategies, refining focused note taking strategy, time

management, organizational skills, and presentation methods. AVID is designed to prepare students for success in four-year colleges and universities by targeting students who want to challenge themselves to use and refine inquiry, reading, writing, and collaborative strategies that students use for success in rigorous courses and in college. Another primary goal of AVID is to close the opportunity gap by providing greater access to the most rigorous courses and college for all students.

AVID is designed to prepare students for success in four-year colleges and universities by targeting students who want to challenge themselves to use and refine inquiry, reading, writing, and collaborative strategies that students use for success in rigorous courses and in college. Another primary goal of AVID is to close the opportunity gap by

providing greater access to the most rigorous courses and college for all students. AVID juniors are required to develop a plan for entrance into four-year colleges and universities, investigate admissions requirements, the college application process and scholarship requirements.

ELH610 JUNIOR AVID/THEORY OF **KNOWLEDGE**

Length/Credit: 1 year - 1.0 credit Prerequisite: Application/Interview **Co-requisite:** Enrollment in at least one Honors, Advanced Placement, or International Baccalaureate course or in a college transferable course while in AVID at this level

Other info: This course fulfills the Theory of Knowledge requirement for IB candidates. However, the course is open to all students (not just IB candidates) who want access to this coursework.

Location: Interlake

EL 791 **SENIOR AVID SEMINAR (A FOCUS** ON THE COLLEGE ADMISSIONS PROCESS AND TRANSITION TO

COLLEGE)

Length/Credit: 1 year - 1.0 credit Prerequisite: Application and interview. Previous enrollment in prior AVID elective class is preferred. Co-requisite: Enrollment in at least

one Honors or Advanced Placement course or in a college- transferable course while in AVID at this level.

Location: Sammamish, Bellevue,

Newport

Advancement Via Individual Determination (AVID) is a rigorous course designed for motivated and determined students who intend to apply and pursue a four year college degree. Alongside mentors and peers, AVID Seniors are actively engaged in the college admissions process, and continue to build skills necessary to transition to the rigors of college

academics. Throughout the year, students pursue the answers to the following essential questions that guide the course.

- » How do I select colleges and universities to apply to?
- » How do I prepare for and take college admission exams?
- » How do I actually apply to different schools?
- » How do I craft a personal statement and address all writing requirements to maximize my chances of admission?
- » How do I get help and advice when stuck in the admissions process?
- » How do I apply for financial aid, seek out scholarships, and pay for school?
- » What sorts of majors and career paths make sense for me?
- » How do I plan a college experience that fits my needs?
- » How do my future college and career plans contribute to financial security?
- » How do I accept admission, financial aid, and get ready for the first day of college?

Historically, AVID seniors have found this course to be one of the most valuable motivators to support their college/career goals and transition to college.

ELH710 SENIOR AVID/THEORY OF **KNOWLEDGE**

(A focus on the College Admissions *Process and Transition to College)*

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Application/Interview **Co-requisite:** Enrollment in at least one Honors, Advanced Placement, or International Baccalaureate course or in a college transferable course while in AVID at this level

Other info: This course fulfills the Theory of Knowledge requirement for IB candidates. However, the course is

open to all students (not just IB candidates) who want access to this coursework.

Location: Interlake

AVID/TOK is intended to integrate learning from all academic subject areas and foster personal understanding, the ultimate goal being college success. Blending AVID college preparatory curriculum and IB Theory of Knowledge, this course emphasizes rhetorical reading, analytical writing, collaborative discussion strategies, peer inquiry study groups, and preparation for academic success in college. The course seeks to define knowledge, evaluate truth claims, and explore the relationship between knowledge and the knower both academically and in students' lives beyond school using AVID inquiry, reading, writing, and collaboration strategies. Students apply their learning through a variety of methods in order to increase their awareness and credibility, and leverage that new understanding into increased academic success. AVID/TOK students spend class time preparing for entrance and placement exams and college study sessions, and future refine test taking strategies, focused note taking, time management, organizational skills, and presentation methods using the Theory of Knowledge curriculum. As with all AVID classes, another primary goal of this course is to close achievement gap by providing greater access to the most rigorous courses and college for all students.

Middle School Career & Technical Education

Career & Technical Education courses at the middle school level provide students with the opportunity to begin introductory programs in technology education, STEM (Science, Technology, Engineering & Math) and health sciences. These introductory classes provide the foundation for further elective choices in high school.

STEM

CT_100 APPLIED ENGINEERING

Length: 1 semester

Other info: Fulfills middle school CTE

or fine arts requirement

Prerequisite: Recommended for

6th graders.

Location: Chinook, Highland, Odle,

Tillicum, Tyee

This semester-long, hands-on, projectoriented design class introduces STEM (Science, Technology, Engineering, and Math) principles, concepts, and guidelines engaging students in current topics related to industry standards and practices. Using the design process, creativity, and an understanding of materials, machines, and equipment students will solve a variety of technology problems. Students will use a design cycle to solve problems and challenges using the current equipment and facilities available in each school. Students will learn how to utilize a clean room for creative design and a fabrication room for model/prototype development. Participation and completion of **Applied Engineering prepares**

students to collaboratively solve openended problems with an engineering and creative design mindset.

CT 205

DESIGN & PRODUCTION

Length/Credit: 1 semester

Other info: Fulfills middle school CTE

or fine arts requirement

Prerequisite: For incoming 6th graders, Applied Engineering is

required.

Location: Chinook, Highland, Odle,

Tillicum, Tyee

This activity-oriented, cuttingedge program shows students how design and technology are used in engineering to solve everyday problems. Students will gain the skills they need to develop, produce, and use products and services. Using the design process, students will solve problems and understand the influence that creative and innovative design has in our lives. Students use industry standard 3D modeling software to draw virtual images of their designs and produce a portfolio displaying their creative solutions. Students will take their designs to the shop and build a product and or prototype and will begin to

Middle School Career & Technical Education

recognize the value of capturing and documenting their ideas. Students develop skills in design drawing, problem solving, and research while learning strategies for design process documentation, collaboration, and presentation.

CT_305 ROBOTICS

Length/Credit: 1 semester **Prerequisite:** For incoming 6th graders, Applied Engineering is required.

Location: Chinook, Highland, Odle, Tillicum, Tyee

This activity-oriented, cutting-edge program shows students how technology is used in engineering to solve everyday problems. Robotics currently consists of two instructional units Automation and Robotics that motivate students to become creative innovators. Students will gain the skills they need to develop, produce, and build innovative products and prototypes through problem solving and working in collaborative groups. They will face a variety of challenges that help them apply mechanical principals and programming skills.

CT_201 FLIGHT AND SPACE

Length/Credit: 1 semester **Prerequisite:** Applied Engineering **Location:** Odle, Tyee, Chinook, Highland

This semester-long, hands-on, project-oriented class introduces the exciting world of aerospace. Students explore the science and history behind aeronautics and use their knowledge to design, build, and test different projects throughout the semester. Simulation software will be used to test and design ideas prior to building and testing prototypes. Students develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation.

TECHNOLOGY EDUCATION

CT_203 MEDIA TECHNOLOGY

Length: 1 semester

Other info: Fulfills middle school CTE

or fine arts requirement

Location: Tyee, Highland, Tillicum, Chinook, Odle, Big Picture

This class is for students interested in exploring art, technology, and the many careers available in the digital art industry. Graphic arts, photography, animation, and videography are some of the art forms covered in the semester. Students will use technology to manipulate images, edit videos, create graphic design products, design games, and apply basic photography skills to a variety of products and academic areas. Students will work individually and in groups to create a wide variety of art projects demonstrating their achievements in understanding processes of the media used and creative techniques for future application in school, business, or personal use.

CT_207 VIDEO PRODUCTION 1

Length: 1 semester

Other info: Fulfills middle school CTE

or fine arts requirement

Location: Big Picture, Highland, Odle,

Tyee, Tillicum, Chinook

Video Production is the art of recording images with a video camera. In this class, students will learn the basics of this art utilizing camcorders, video editing software and digital workflows. Students study video technologies, basic equipment operation, video composition, audio production, and visual storytelling. Students learn and practice preproduction, production, and post-production skills while working in groups to create projects for a variety of purposes and audiences. Students will become aware of

assorted multimedia tools that can be used to enhance future art, educational, or work-related projects and presentations. Oral or written evaluations of work will be expected on a regular basis.

CT_307 VIDEO PRODUCTION 2

Length: 1 semester

Other info: Fulfills middle school CTE

or fine arts requirement

Prerequisite: Video Production 1 **Location:** Odle, Tyee, Highland,

Chinook, Tillicum

In this project-based class, students work in teams to increase their communication, videography, editing, storytelling, and computer art skills for a variety of audiences and purposes. Video art projects may include filming an assortment of school events and topics to be shared with their school/ community. Technical skills focus on advanced techniques with camera work, audio, lighting, digital workflows and storytelling techniques. Students practice 3 steps to making movies using pre-production, production and post-production skills. Students build on their foundation from Video Production 1 to tell visual stories, communicate and develop voice for school and community purposes.

CT_101 COMPUTER SCIENCE DISCOVERIES

Length: 1 semester

Location: Odle, Tillicum, Tyee,

Chinook, Highland

Interested in computer science? If so, this introduction to computer science course will empower students to create authentic artifacts and engage with computer science as a medium for creativity, communication, problem solving, and fun. Students will learn how computers process information and apply a problem-solving model to help humans address problems and real-world scenarios. Students will learn the basics of HTML and CSS as they create their own website, and

Middle School Career & Technical Education

the basics of JavaScript as they create their own animations and interactive programs. This course is perfect for any beginner interested in computer science!

CT_306

CS 101 - CODING IN PYTHON 1

Length: 1 semester

Location: Chinook, Highland, Odle, Tillicum, Tyee, Big Picture

This computer science course uses Python, a professional programming language widely used in the software industry.

Python is an excellent first programming language for students new to line-based coding in that it provides simpler syntax, semantics, and higher code readability than other programming languages (such as Java and C++). This minimizes complexity and allows students to focus on core computer science concepts, problemsolving, design and programming.

Students learn fundamental computer science concepts such as data statements, expressions, variables, values & errors, control structures, conditionals, while loops, indentation & function call, drawing- coordinate system, colors, animation, key & mouse input, lists, for each loops, for-in-range loops, sprite- based graphics-sprites, program structure, collision detection, functions definition, parameters & arguments, return values & types.

CT 308

CS 102 - CODING IN PYTHON 2

Length: 1 semester

Other info: Students who complete both CS 101 Coding in Python 1 and CS 102 Coding In Python 2 are eligible to enroll In CS 202 Coding in Python 2 In high school and can earn college credit. Fulfills middle school CTE or fine arts requirement

Prerequisite: CS 101 - Coding in

Python 1

Location: Chinook, Highland, Odle, Tyee, Tillicum

Coding in Python 2 is an exciting class where students use creativity and the design thinking process to create animation, games, and visual programs. Students have access to professional-quality characters, backgrounds, animations, and sounds to create their programs. This course introduces students to the key coding techniques of functions, dictionaries, multidimensional lists, and spritebased graphics, as well as expanding their knowledge of loops, lists, conditionals, libraries, and input by using them all in exciting and creative new contexts. After learning how to create and manipulate these sprites in Python, students will use proper product development processes and the design thinking process to make advanced and impressive programming projects. The new concepts introduced will include Functions, Parameters and Arguments, Return Values, Dictionaries, Two-Dimensional Lists, Sprites, Sprite sheet Animation, Collision, JSON, Product Development Lifecycle, and Kanban Board.

HEALTH SCIENCES

CT_220

MEDICAL DETECTIVES

Length: 1 semester

Location: Tillicum, Chinook

Become medical detectives and solve medical mysteries! Apply experimental design, creative thinking, and problem solving to investigate the inner-workings of the human body, diagnose disease, and improve human health. Students play the role of real-life medical detectives as they collect and analyze medical data, solve medical mysteries through handson projects and labs, measure and interpret vital signs, examine nervous system structure and function, and investigate disease outbreaks.

Career & Technical Education courses offer students the opportunity to explore and prepare for postsecondary programs through community/technical or four-year colleges. A sequence of courses can provide students with entrylevel employment skills for internships, apprenticeships and preparation for industry certification. All CTE courses listed meet the Career and Technical education credit requirements for graduation.

Specific course descriptions are found under the following career areas:

- » Agriculture, Food & Natural Resources
- » Architecture & Construction
- » Arts, A/V Technology & Communication
- » Business, Management & Administration
- » Education & Training
- » Focus Week
- » Health Services
- » Hospitality & Tourism
- » Human ServicesInformation Technology
- » Marketing, Sales & ServiceScience, Technology, Engineering and Math (STEM)
- » Transportation

WASHINGTON NETWORK FOR INNOVATIVE CAREERS (WANIC) SKILLS CENTER

WANIC programs prepare students for employment, professional certificates, apprenticeships and post-secondary education. WANIC programs are demanding, highly technical 3-hour programs featuring special projects, independent learning experiences, and college credits. WANIC programs are offered at Bellevue, Newport, Interlake and Sammamish High Schools, as well as, other locations in northeast King County. Registration is on a space available basis and students enrolled in WANIC classes must provide their own transportation. For more information on WANIC program offerings, see your College and Career Advisor and visit the WANIC website at www.wanic.org.

COLLEGE CREDIT FOR APPROVED COURSES

Many Career and Technical Education classes offer students the opportunity to earn college credit through Pacific Northwest College Credit. Students who earn a "B" or higher and pay an annual \$50.00 consortium fee, are eligible to earn as many credits as they can take during the school

High School Career & Technical Education

year. Credits are transferable to most community colleges in the state as well as many 4-year schools. See your College and Career Advisor for more information.

SATELLITE PROGRAMS

Satellite Program classes prepare students for employment, professional certificates, apprenticeships and post-secondary education. These high level, indepth, 2-hour college credit classes offer students hands on learning in industry-like environments. Programs are offered at Bellevue, Interlake, Newport, and Sammamish High Schools. Satellite Program classes are open to all Bellevue School District students on a space-available basis and students must provide their own transportation. For more information, see your College and Career Advisor.

AGRICULTURE, FOOD & **NATURAL RESOURCES**

CT 441 INTRODUCTION TO HORTICULTURE

Length/Credit: 1 semester 0.5 CTE credit

Other info: Students may earn 2 college credits

Location: Interlake High School Horticulture Center

This class is designed for students interested in the environment and the green industry. Through classroom learning, students will propagate and maintain plants for small scale gardens and other urban spaces. Students will learn the fundamentals of plant growth, explore greenhouse growing, pruning, plant propagation and identification. Take an active stance on environmental change and contribute to improving it. Gain leadership and career skills through hands-on, individual and group projects. Learn about the business

and career aspects of the horticulture industry by growing, planning, publicizing and staffing the two yearly plant sales.

Satellite COLLEGE CREDIT

CT 541 **NURSERY & GREENHOUSE OPERATIONS AM**

CT 542

NURSERY & GREENHOUSE OPERATIONS PM

Length/Credit: 1 year - two periods -1.0 CTE credit, 1.0 Lab Science Credit Other info: Students may earn

6 college credits

Location: Interlake High School Horticulture Center (Available to all schools)

Students can begin or continue their study of horticulture and the green industry through extensive industry related experience. Students will maintain and operate state-of-theart greenhouses as they extend their knowledge of the horticulture industry, plant production and sales through the student-run yearly plants sales. Students will develop the sales from the ground up by selecting plants, propagating, planning and managing the sales. Classes will take extensive horticultural field trips, use community resources and develop projects that take an in-depth look at the horticulture industry. Students participate in maintaining the school arboretum and partner with the community to improve green spaces. Through hands-on learning, students will gain entry-level job skills and possible opportunities for summer work. Students will be prepared for further study in Environmental Science, Urban Forestry, Ecology, Green Environments, Horticulture and Landscape Architecture.

CT_442 **ENVIRONMENTAL SUSTAINABILITY**

Length/Credit: 1 year - 1.0 CTE Credit or 1.0 Lab Science Credit

Location: Interlake High School Horticulture Center

Students in Environmental Sustainability will investigate the complex relationships of the environment, and learn how these connections are utilized in the growing field of Sustainable Agricultural. Through lab science and discussions on the implications of modern agriculture, students will explore the importance of sustainability in global ecological systems. Students will spend time learning about the interactions of plants and animals in the environment, and then apply this information to design sustainable agricultural systems. Global climate change has a direct impact on agricultural systems. Without a shift in how food is grown the impacts can be devastating. This course asks students how careers in Agriculture and Horticulture can be improved through sustainable practices.

CT 443 PLANT BASED DESIGN 1

Length/Credit: 1 semester - 0.5 CTE or Fine Art Credit

Location: Interlake High School Horticulture Center

This course is designed to introduce students to the principles of art through floral and plant-based design. Students create multiple floral arrangements, plant seasonal container arrangements, learn landscape design, and participate in the annual plant sales. This class is intended for students who are interested in careers in the plantbased industry, those who would like to learn more about plant-based design or how to apply art to flowers and plants.

COLLEGE

High School Career & Technical Education

CT 545 PLANT BASED DESIGN 2

Length/Credit: 1 semester - 0.5 CTE

or Fine Art Credit

Prerequisite: Floral Design 1 **Location:** Interlake High School

Horticulture Center

This course is designed to continue the student's exploration of principles of art through floral and plantbased design. Students create large scale floral arrangements, create arrangements for monthly flower subscriptions, and build a living wall. In addition, PBD2 students manage and run the Interlake Floral Shop. This class is intended for students who have already taken Plant Based Design 1 (PBD1) and those who may be interested in a plant-based design career.

CT 791 **AGRICULTURE WORKSITE LEARNING**

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in an

Agriculture class

Students who have completed one semester of a CTE class in the Agriculture career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over

the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

ARCHITECTURE, CONSTRUCTION & MANUFACTURING

CT 424 METALS TECHNOLOGY 1

Length/Credit: 1 semester - 0.5 CTE or Fine Art credit

Location: Interlake

Students will learn how to use the tools, equipment and processes in metal machining, welding and fabrication. The student will learn basic metal working and develop attitudes and habits necessary for working safely and effectively in this environment. Students will also have the opportunity to explore and investigate career and occupational options. Metal sculpting is an important component of this course.

CT 524 **METALS TECHNOLOGY 2**

Length/Credit: 1 semester - 0.5 CTE

or Fine Art Credit

Prerequisite: Metals Technology I

Location: Interlake

The Metals Technology II student will build on skills they have developed by successfully completing the 424H or Q Metals Technology class. Students will refine welding and metal machining skills. Welding processes will include, but are not limited to, Oxygen-Acetylene welding (OAW) and Metal-Inert Gas welding (MIG). Both ferrous and nonferrous metals such as brass, copper, aluminum and silicone bronze will be used for required machining and metal art sculpturing projects. Students will have the opportunity for individualized, extended learning projects as approved by the instructor.

CT 624

WELDING TECHNOLOGY, **DESIGN & FABRICATION**

Length/Credit: 1 year - two periods daily - 2.0 CTE credits

Location: Interlake (Available to all schools)

Students will design, layout and fabricate projects using processes and procedures found in the metalworking industry. The individual and group projects are modeled after industrial welding operations and are worked on in a large, wellequipped classroom laboratory. Students receive instruction, practice and gain experience with: oxy/ acetylene welding (OAW) and cutting; wire-feed welding (MIG); shielded metal arc welding (SMAW); tungsten inert gas welding (TIG); and plasma metal cutting. Metal sculpting and individualized projects are an important component of this course.

CT_425 **WOODS TECHNOLOGY 1**

Length/Credit: 1 semester - 0.5 CTE

credit

Location: Interlake, Sammamish

In Woods Technology 1, students will have the opportunity to engage both their hands and their minds through learning the art of woodworking. Throughout the semester students will make tangible projects that can be taken home while becoming skilled in operating woodworking tools and shop machinery safely. Additionally, the skills learned in Woods Technology 1 will serve as a solid foundation and an invaluable skillset to be used in Woods Technology 2 and Building Industry Technologies - Core Plus Construction

CT 525 **WOODS TECHNOLOGY 2**

Length/Credit: 1 semester - 0.5 CTE

credit

Prerequisite: Woods Technology I **Location:** Interlake, Sammamish

Building on the knowledge and foundation from the previous semester, students in Wood Technology 2 will apply learned techniques and further develop their skills working on individual projects seen in custom woodworking that may include furniture, reading and using blueprints, using industryquality joinery techniques, and more. Students will use 3D modeling software to prototype and refine 3-dimensional models for individual projects which will include working with a variety of wood types. Using the shops' new cutting-edge laser students will be able to produce a wide range of designs in a variety of materials. Students will also develop leadership and work-place skills by working cooperatively with peers on projects and working cooperatively as a class.

CT_610 BUILDING INDUSTRY TECHNOLOGIES - CORE PLUS CONSTRUCTION

Length/Credit: 1.0 CTE credit; 1.0 Math (3rd Year) credit; 1.0 Science credit.

Location: Interlake

Are you interested in the building industry and learning about the field of construction? Building Industry Technologies - Core Plus Construction is a new and unique opportunity to learn about this growing industry, explore different fields, and prepare for your future options while earning Math and CTE credits. This 3-hour course offers students the opportunity to work with industry experts who will periodically be a part of the classroom instruction providing professional knowledge and first-hand experience. In this class, students will be introduced to the use of different materials and methods, fasteners and adhesives used on job sites, learn to safely operate the various industry tools, and learn jobsite safety and OSHA

requirements. Participants will learn how to design and carry out handson skills in practices such as rigging, lifting and safely moving a load utilizing principles of mechanical advantage. Students will also learn how to read, understand and interpret basic plan sets and engineering drawings. Class members will learn and utilize applied academic concepts such as math and physics, how they apply to a well-designed project, key concepts in plumbing and electrical, along with energy utilization and energy efficiencies. Building Industry Technoloiges participants will learn about a variety of organizational and operational approaches, including estimating project costs, planning and scheduling of projects. These experiences will provide students the necessary skills to find employment in the field locally or continue their path at a post-secondary institution.

CT_612 BUILDING INDUSTRY TECHNOLOGIES 2 - CORE PLUS CONSTRUCTION

Length/Credit: 3.0 CTE credits.

Location: Interlake

Building Industries Technologies (BIT) 2 students will use their foundational knowledge and skills from BIT1 to build more intensive skills in project plan reading, schematics, material take-offs, and project cost estimating. Students will focus on learning and demonstrating the necessary leadership skills to be successful in the class, and in the industry, by assisting in instruction and guiding other students. Other aspects of the building industry such as site and work safety, rigging, load relocation and load calculation will be discussed, practiced and implemented in the class. BIT 2 students will also participate in OSHA 30-hour training and certification, which complements the practical, hands-on work that is done in the BIT course, and provides

unique credibility to prospective employers.

CT_780 CONSTRUCTION WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit)

Prerequisite: .5 credit earned in an Architecture, Construction, and Manufacturing class

Students who have completed one semester of a CTE class in the Architecture, Construction, and Manufacturing career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

ARTS, A/V TECHNOLOGY & COMMUNICATION

CT_450 RADIO & PODCAST PRODUCTION

Length/Credit: 1 year - one period daily - 1.0 CTE credits.

Location: Bellevue

Radio Broadcasting covers the ins and outs of working in a real radio station. Students learn how to run a radio station as they participate in the operation and management of KASB 89.9 FM, broadcasting from Bellevue High School. Students learn the art of audio recording, mixing and editing. The class is hands on, providing

COLLEGE

experience on professional audio equipment. This class prepares you for advanced college courses and/or for work in the industry.

CT_451 TELEVISION BROADCASTING

Length/Credit: 1 year - one period daily - 1.0 CTE credits. **Location:** Bellevue

This class produces the morning bulletin WakeUP!, using a professional news studio. Students produce and broadcast a weekly newscast to the rest of the school. The course also covers on-screen and vocal presentation. This class is hands on, providing experience on professional audio and studio video equipment, and prepares you for advanced college courses and/or work in the industry.

CT_417 DIGITAL MEDIA PRODUCTION 1

Length/Credit: 1 semester - .5 CTE or Fine Arts credit.

Location: Bellevue, Newport, Sammamish, Big Picture, Interlake

Are you ready for the world of Video Production? The Digital Media Production 1 course is an exciting introduction into the world of video editing, filming, script writing and studio production. Students learn the various ins and outs of the media industry. Commercial television and film production are all included. Using state-of-the-art equipment, students will learn to produce commercials, public service announcements, music videos, and news stories. In addition, students will learn the production process, including concept brainstorming, storyboarding, filming and video editing. Students may obtain their Adobe Certification in the Adobe CC products such as Premiere Pro and After Effects.

CT 517

COLLEGE

DIGITAL MEDIA PRODUCTION 2

Length/Credit: 1 semester - .5 CTE or Fine Arts credit.

Prerequisite: Digital Media

Production 1

Other info: College credit available for students who did not receive credit for Digital Media Production 1 **Location:** Bellevue, Newport, Sammamish, Big Picture, Interlake

Take the next step into the exciting world of multi-media with cutting edge technology making movies and recording audio. DMP 2 students will work individually and on teams producing video projects such as mini-documentaries and short films to enter in film festivals, and other projects for student activities, sports, special community events, and nonprofit organizations. Additionally, students will write and produce a short movie, animated video or music recording. Students may obtain their Adobe Certification in the Adobe CC products such as Premiere Pro and After Effects.

CT_650 ADVANCED DIGITAL MEDIA PRODUCTION

Length/ Credit: 1.0 CTE credit, 1.0

Satellite COLLEGE CREDIT

Art credit

Prerequisite: Digital Media Production 1 and 2 or teacher permission.

Location: Newport (Available to all schools)

Are you interested in learning about television production, making movies, and professional videos? Media Production covers professional video and film production. Students work in a modern video and film post-production facility with industry standard equipment. Students get hands on experience planning, writing, directing, shooting, editing and producing videos. Students will have access to digital cameras, DSLRs,

audio & lighting equipment. Students will produce films that will be entered in area film festivals. Students explore career opportunities through field trips to local studios. Students will get to interact with industry professionals through classroom visits and film festival seminars/career days. This class prepares students for advanced college courses and/or work in the industry. Students will also take part in producing a student produced bi-weekly morning announcement program. Students are able to obtain their Adobe Certification in the Adobe CC products such as Premiere Pro and After Effects.

CT_519 COMPUTER GRAPHICS 1

Length/Credit: 1 semester - .5 CTE or Fine Arts credit.

Location: Bellevue, Interlake, Sammamish

Students work with the software most commonly found in the graphic arts industry learning the major aspects of graphic design including design principles, product and packaging design, branding, and other aspects of effective design. This course will focus on electronic image manipulation, page layout, and web design. The Adobe software used in this class meets current industry standards. Students are able to obtain their Adobe Certified Professional certification in Photoshop. Introduction to graphics and/or familiarity with computer operation is recommended.

CT_619 COMPUTER GRAPHICS 2

Length/Credit: 1 semester - 0.5 CTE or Fine Art credit

Prerequisite: Computer

Graphics 1

Location: Bellevue, Interlake,

Sammamish

In Computer Graphics 2, students

take a deeper dive into graphic design principles and practices by creating commercial design products. Students further their skill development from Computer Graphics 1 using the Adobe industry standard design programs Illustrator and InDesign. Students will learn 3D modeling and printing using current software such as Fusion 360 and Ultimaker 3D printers. Students are able to obtain their Adobe Certified Professional certification in Adobe Illustrator and InDesign.

CT 412 **PHOTOGRAPHY 1**

Length/Credit: 1 semester - 0.5 CTE or Art credit

Location: Bellevue, Newport, Sammamish, Interlake, Big Picture

Students learn to capture and compose images with a camera and to develop compositional skills with a photographic eye. Students will also learn the history and development of photographic technology while exploring its importance in journalism, advertising, fine art, and commercial applications for possible career choices. The emphasis will be on digital photography. Post production including Photoshop will also be a major focus of the class.

CT 512 **PHOTOGRAPHY 2**

Length/Credit: 1 semester - 0.5 CTE

or Art credit

Prerequisite: Photography 1 Other info: College credit available for students that did not receive credit for Photography 1.

Location: Bellevue, Newport, Sammamish, Interlake, Big Picture

Under guidance of the instructor the advanced student of photography will extend and refine the skills and techniques introduced in Photography, including creating and manipulating digital images in Photoshop. Advanced photography

students will develop their portfolio in breadth (variety of photographic approaches) or concentration (theme for a body of work) as part of this class. Portfolio development is applicable for the student's future AP 2-D Design Portfolio.

CTA612

AP PHOTOGRAPHY PORTFOLIO/ 2-D DESIGN

Length/Credit: 1 year - 1.0 CTE or Art

COLLEGE CREDIT

COLLEGE

Prerequisite: Photography 1; Prefer Photography 2

Other info: Students will submit a

portfolio in the spring. Location: Big Picture, Bellevue,

International, Newport, Sammamish

In this two-semester course, AP Photography students will work on a 2-D Design Portfolio as defined by the Advanced Placement Studio Art criteria. The 2D Design Portfolio includes (but is not limited to): graphic design, typography, digital imaging, collage & photography. Students will continue their advanced exploration of photography, including camera work and digital editing.

TH 411 **TECHNICAL THEATRE 1**

Length/Credit: 1 year - 1.0 CTE or Fine Art credit

Location: Bellevue, Sammamish, Interlake, Newport

This hands-on course concentrates on the various technical aspects of theatre production including sets, props, lights, costumes, sound, and stage management. Students research, design, build and produce technical elements for both theoretical and actual productions. Students will be introduced to all technical theatre areas and then specialize in one or two. Some afternoon and evening work as production running crew members is expected. Students who complete the course can pass an operations

test with the district and can become employed by the district to work in the Performing Arts Centers.

TH 503

TECHNICAL THEATRE 2

Length/Credit: 1.0 CTE or Fine

Arts credit

Prerequisite: Technical Theatre 1 Location: Interlake, Bellevue, Newport, Sammamish

Students will concentrate on the major areas of theatre technology and production. Students will explore advanced set design and construction techniques, the creative process involved in translating a script into a visual design, and the essentials of developing costumes., props, lighting and sound designs. All students in the class will acquire behind-thescenes stage experience through the production of 2-3 shows during the year. Students who complete the course can pass an operations test with the district and can become employed by the district to work in the Performing Arts Centers.

CT 604 COSTUME DESIGN

Length/Credit: 1 semester - 0.5 CTE or Fine Arts Credit

Location: Sammamish

Costume design is a course that prepares individuals to design, select, or build costumes for characters in Sammamish High School's theatre productions. Costumers will serve as part of a production team. This course includes instruction in costume design, script analysis, period styles, history of costume, stage hair and makeup, drawing and sketching, cost estimation and budget compliance, and sewing construction.

CT_781 **COMMUNICATIONS TECHNOLOGIES WORKSITE LEARNING**

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit)

Prerequisite: .5 credit earned in an Arts, AV Technology & Communications class

Students who have completed one semester of a CTE class in the Arts. AV Technology & Communications career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

CT_782 COMMUNICATIONS AND JOURNALISM WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit)

Prerequisite: .5 credit earned in an Arts, AV Technology & Communications class

BUSINESS, MANAGEMENT & ADMINISTRATION

CT_427 ACCOUNTING 1

Length/Credit: 1 semester - 0.5 CTE

credit

Other info: College credit can be earned after completing Accounting 2

Location: Bellevue, Newport,

Sammamish

Students will be introduced to one of the fastest-growing professions in

the United States, which includes a formal system of financial-record management for proprietorships and partnerships. Students will also study accounting vocabulary, the elationship between accounting and business, and the accounting cycle for service businesses organized as a proprietorships. QuickBooks accounting software will be used to enter transactions and create financial reports. A business simulation is used at the end of the semester to aid students in synthesizing and applying their learning.

CT_527 ACCOUNTING 2

Length/Credit: 1 semester - 0.5 CTE credit

Prerequisite: Accounting 1 **Location:** Bellevue, Newport,

Sammamish

In Accounting 2, students will gain experience dealing with specialized accounting applications: special journals, petty cash system, taxes, depreciation, managerial decisions, and interest. Corporate accounting will be introduced. Students will use QuickBooks to complete many accounting problems. They will manually calculate a payroll problem and utilize a computer program to verify the result. Computerized business simulations are used to provide practical experience in handling retail business records. (Students must complete Accounting 1 and 2 to earn college credit with a "B" or better.)

CT_627 ACCOUNTING 3

COLLEGE

Length/Credit: 1 semester - 0.5 CTE credit

Prerequisite: Accounting 2 **Other info:** College credit can be earned after completing Accounting 4

Location: Bellevue, Newport

This course will provide the student with more experience in dealing with

CREDIT

advanced problems and procedures in accounting, extensively utilizing the computer. The student will extend the skills learned in Accounting 1 and 2, then continue to gain experience in partnership and departmentalized accounting. A problem-solving approach will be used for unique applications. Intensive investigation of career opportunities will be offered. Automated business simulations will be used to provide practical experience handling corporate records. If time allows, students have the opportunity to take the Microsoft Excel Core and Expert exam.

CT_727 ACCOUNTING 4

Length/Credit: 1 semester - 0.5 CTE credit

COLLEGE

Prerequisite: Accounting 3 **Location:** Bellevue, Newport

The principal focus for this course will be on corporate accounting, cost accounting, accounting for uncollectible accounts, depreciation, prepaid and accrued items, budgetary planning and control, and automated accounting applications. The student will analyze and prepare financial statements as a resource for management decisions. If time allows, students have the opportunity to take the Microsoft Excel Core and Expert exam. (Students must complete Accounting 3 and 4 to earn college credit with a "B" or better.)

CT_709 ENTREPRENEURSHIP

Length/Credit: 1 semester - 0.5 CTE credit

Location: Sammamish, Interlake, Bellevue

This course is for anyone who is considering owning and operating their own business. Owning your own business can be risky but also very rewarding. This course will include all aspects of beginning a business, funding, operating, managing and

marketing. The course is project based where students will produce a viable and executable business plan. If you want to "live the American dream--and be your own boss," Entrepreneurship is for you.

CT_421 PERSONAL FINANCE

Length/Credit: 1 semester - 0.5 CTE credit

Location: Bellevue, Newport, Sammamish, Interlake

This class teaches students to manage their personal finances in the context of current economic conditions. Students will increase their financial and economic literacy while learning about vital topics such as preparing for the job market, the economy, taxes and tax forms, consumer rights and responsibilities, budgeting, banking, insurance, credit and credit cards, and investing. This class will help prepare students for financial decisions in college and beyond.

CT_471 ECONOMICS

Length/Credit: 1 Semester - .5 CTE credit or .5 social studies elective credit

Location: Bellevue, Sammamish, Interlake

Students will study the laws of supply and demand and why people and societies make economic choices. Students will examine macroeconomic and microeconomic principles in order to understand the fundamentals of the American and global economic systems. Students will examine components of the American economy such as price, competition, business and banking institutions. The course will also examine issues related to the economy such as employment and labor issues, the role of the government in the economy and selected topics on global economics.

CTA470 AP MICROECONOMICS/ AP MACROECONOMICS

Length/Credit: 1 year - 1.0 CTE or social studies elective credit

Other info: Students will take the AP

exam in the spring

Location: Sammamish, Bellevue

Students will build on their basic understanding of economic principles by investigating crucial social issues that are the basis of both microeconomics and macroeconomics. This will involve developing an understanding of the economic choices made by individual households and firms as they seek to maximize their wellbeing. It will also entail assessing the measurement of the performance of the American economy, evaluating potential policy tools such as taxes, government spending and interest rates, and understanding the role of the US in the global economy.

CT_420 BUSINESS LAW

Length/Credit: 1 semester - 0.5 CTE

creait

Location: Bellevue, Newport, Interlake, Sammamish

Business Law is geared toward learning to live in our legal environment. This course will also benefit students considering careers in business, law, or management. Topics included in this class: legal liability, rights, the judicial system, careers in law, contracts, warranties, consumer protection, landlord-tenant relations, personal injuries, and criminal procedure. Students may have the opportunity to participate in a mock trial competition.

CTH580 IB BUSINESS & MANAGEMENT SL

Length/Credit: 1 year - 1.0 CTE credit **Other info:** Students will have the option to take the IB Assessments.

COLLEGE

Location: Interlake

This business and management course aims to help students understand the implications of business activity in a global market. Students gain an international perspective of business and appreciation of cultural diversity through topics like business organization and environments, accounts and finance, international marketing, human resources management, growth and operations management. The course encourages the appreciation of ethical concerns and issues of social responsibility in the global business environment.

CTH680
IB BUSINESS &
MANAGEMENT HL

Length/Credit: 1 year - 1.0 CTE credit **Prerequisite:** 580 H IB Business and

COLLEGE CREDIT

Management SL

Other info: Students may take the IB

HL Level Assessment **Location:** Interlake

This advanced business and management class allows for student to gain depth of knowledge in business skills. Students will study business organization and environments, accounts and finance, human resources, business operations, marketing and business strategy. Advanced students will also benefit from management and leadership training as well as a primary research based project.

CT_783 BUSINESS AND MARKETING WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in a Business and Marketing class

Students who have completed one semester of a CTE class in the Business and Marketing career pathway, and who are currently employed in a paid position with a local employer in

this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

EDUCATION & TRAINING

CT_660 Satchilte COLLEGE CREDIT

Length/Credit: 1 year - two periods

daily - 2.0 CTE credits

TEACHING ACADEMY 1

Prerequisite: Minimum 2.25 GPA

Location: Newport (Available to all schools)

Explore and experience the educational system from teaching to administration. In addition to instruction and seminars at the high school, students will intern with a mentor teacher at a preschool, elementary, middle, or high school of their choice. Throughout the year, students participate in the innerworkings of the classroom, school and district. They will gain knowledge and experience in teamwork, time management, communication, leadership, and current issues in the school system. This course is a must for students interested in a professional career in education.

CT_760 COLLEGE CREDIT TEACHING ACADEMY 2

Length/Credit: Course may be either 1 or 2 periods per day for either 1 or 2 semesters. Credits earned will be from 0.5 to 2.0 CTE

Other info: College credit available for students that did not receive credit for Teaching Academy 1. **Location:** Newport (Available to all schools)

Students will continue to increase their knowledge about teaching and learning through daily internship experiences. Students will work closely with the Teaching Academy instructor and mentor teacher to complete independent assignments and projects.

CT_784 EDUCATION WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in an Education and Training class

Students who have completed one semester of a CTE class in the **Education and Training career** pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

CT_490 FOCUS WEEK

Length/Credit: 1 week each year for 4 years/1.0 CTE credit

Location: International

Students will earn one credit of Career & Technical Education after the successful completion of four Focus Weeks during 9th -12th grade. Each Focus Week activity will provide instruction in work skills in one or more of the following areas: industrial arts, home and family life education, business and office education, agricultural education, health occupations education, vocational education, trade and industrial education, technical education and career education. Students will have the opportunity to have access to quality work and experiences. Research and information gathered during these four weeks will be incorporated in the Senior Project.

HEALTH SCIENCES

CT 530

INTRODUCTION TO HEALTH CARE

Length/Credit: 1 semester - 0.5 CTE Credits

Location: Sammamish, Bellevue, Interlake, Newport

Interested in a career in the health care industry? If so, this course is for you! Study the history of health care and explore different careers. Become familiar with anatomy and physiology, disease processes and hand-on health care skills like handwashing and body mechanics. An introduction to vital signs and anatomy and physiology will also be included. You will also have the opportunity to receive an American Red Cross CPR and First Aid Card.

CT_635.0 HEALTH SCIENCE CAREERS AM

CT_636.0

HEALTH SCIENCE CAREERS PM

Length/Credit: 1 year - 3 periods - 1.5 CTE credits; 1.0 lab Science credit; .5 Health credit

Other info: Students completing coursework are eligible for Certified Assistant Nurse. This course meets a lab science and health credit

Requirements: Students must pass a background check to participate in the required clinicals, provide records of childhood immunizations, have a TB Test completed, and hold a social security card for testing. A social security card is not required to participate in the class but is required in order to take the Certified Nursing Assistant exam which is a state exam.

Location: Sammamish - WANIC (Available to all schools)

This is a 3-period Skill Center class (3 high school credits). This intensive course of study introduces students to a variety of careers in the health care industry with emphasis on hands-on, patient-oriented skills training for those interested in becoming nurses, physicians, and other therapists. Learn about a variety of health care topics, procedures and careers in patient care, and earn certification in CPR/ First Aid. Students complete clinical experience hours in healthcare facilities to meet Nursing Assistant Certified (NAC) requirements. At the end of the year, students who meet course requirements earning an "A" or "B" will qualify to take the NNAAP (National Nurse Aide Assessment Program) written examination & skills evaluation, offered at Sammamish High School. The rigor required for success in this class plus college credits earned allow students to immediately enter employment in the health care industry and/or to continue their post-secondary education. High School credits earned: CTE (1.5) Lab Science (1.0)

Health (0.5). College Credit available. Program fees may apply. Financial assistance may be available for qualifying students. Compare this class description with Medical Careers to understand your options..

SC 506

ANATOMY AND PHYSIOLOGY

Length/Credit: 1 year - 1.2 Lab Science or CTE credit

Prerequisites: Chemistry, Physics

course recommended

Other info: College credit available through Bellevue College in the High School

Location: Bellevue, Sammamish

In this introductory human anatomy and physiology course, students investigate the intricate machinery that makes the body work, relating the functional anatomy and physical geography of organs and organ systems to the physiological functions which they perform. Students will also explore the delicate web of interaction among body systems, the importance of maintaining homeostatic balance within this web, and the medical implications of disturbing this balance. Students may have the opportunity to participate in HOSA.

SC_602 BIOTECHNOLOGY

Length/Credit: 1 year - 1.0 Lab Science credit or CTE credit Prerequisite: Biology, Chemistry Other info: College credit available Location: Newport, Bellevue, Sammamish

Biotechnology is a course designed to give students a comprehensive introduction to the scientific concepts and laboratory research techniques currently used in the field of biotechnology. Students attain knowledge about the field of biotechnology and deeper understanding of the biological

concepts used. In addition, students develop the laboratory, critical thinking, and communication skills currently used in the biotechnology industry. Furthermore, students will explore and evaluate career opportunities in the field of biotechnology through extensive readings, laboratory experiments, class discussions, research projects, guest speakers, and workplace visits. The objectives covered in this course are both academic and technical in nature and are presented in a progressively rigorous manner.

CT 785 HEALTH SCIENCES WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) Prerequisite: .5 credit earned in a **Health Sciences class**

Students who have completed one semester of a CTE class in the Health Sciences career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

HOSPITALITY & TOURISM

CT 520.0 **CULINARY ARTS AM**

CT 521.0 **CULINARY ARTS PM**

Length/Credit: 1 year - 3 periods - 3.0 CTE credits

Prerequisite: Recommend Culinary Essentials 1

Other info: Students may earncollege credits

Location: Newport - Skill Center (Available to all schools)

This is a 3-period Skill Center class (3 high school credits) Culinary Arts is a comprehensive, career focused introduction to the fundamentals of culinary arts and the professional kitchen in a commercial kitchen classroom. Students will learn French cooking techniques, culinary terminology, knife skills, aesthetics of food presentation, baking and pastry techniques, and explore a wide variety of foods and cuisines. In addition, students will have the opportunity to practice safety and sanitation procedures, restaurant management, customer relations, team and leadership skills, and catering and table service. There are also industry related field trips to observe professionals and explore career possibilities. Students who successfully complete Year 1 may be eligible to apply for Year 2. High School credits earned: CTE (3.0). College Credit available. Program fees may apply. Financial assistance may be available for qualifying students. NOTE: Block schedules affect actual class times daily.

CT 620.0 **ADVANCED CULINARY ARTS AM** CT 621.0 **ADVANCED CULINARY ARTS PM** Length/Credit: 1 year - 3 periods - 3.0

CTE credits

Prerequisite: Culinary Arts Other info: Students may earn 9 college credits

Location: Newport - Skill Center (Available to all schools)

Students in Advanced Culinary Arts This is a 3-period Skill Center class (3 high school credits). Students in Advanced Culinary Arts have the opportunity to expand and refine their culinary expertise. Students are prepared with broad and transferable planning, management, communication, and advanced food production skills for employment and post-secondary education. Prerequisite: Culinary Arts High School credits earned: CTE (3.0) Program fees may apply. Financial assistance may be available for qualifying students. NOTE: Block schedules affect actual class times daily.

CT 786 PERSONAL CULINARY WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) Prerequisite: .5 credit earned in a Hospitality and Tourism class

Students who have completed one semester of a CTE class in the Hospitality and Tourism career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning

Coordinator that will assist students throughout the school year

HUMAN SERVICES

CT_431

CHILD DEVELOPMENT Length/Credit: 1 semester - 0.5

CTE credit

Location: Newport

A course that builds a functional understanding of the physical, emotional, and cognitive development of children from conception to adolescence. Students will study the science and research behind the concepts while also having fun learning practical applications. The class will also explore cross cultural and global perspectives. Careers in pediatrics and education will be explored.

CT_415 CULINARY ESSENTIALS 1

Length/Credit: 1 semester - 0.5

CTE credit

Location: Bellevue, Newport,

Sammamish

This class is an introduction to nutrition and food preparation. Students will learn about healthy food choices and demonstrate skills in fundamental food preparation methods. Units covered will include basic preparation techniques for breads, eggs, dairy, fruits, vegetables and meats. Students will learn to identify and use culinary tools and equipment, including knives, hand tools, and small appliances. Whether you are interested in culinary arts and healthy food choices for yourself or in pursuing a career in the food service industry, this course will provide you with the foundation. This course requires the student to acquire a Washington State Public Health Card.

CT 515

CULINARY ESSENTIALS 2

Length/Credit: 1 semester - 0.5

CTE credit

Prerequisite: Culinary Essentials 1 **Location:** Bellevue, Sammamish

This course continues to develop a student's knowledge and skills in food preparation and service. After learning the basics in Culinary Essentials 1, it is time to explore the world of foods. Units covered will include more advanced preparation techniques for grains, stocks, sauces, soups, eggs, dairy, fruits, vegetables, meat, poultry, fish and pastries. Also included are menu planning, nutritional analysis and some basic catering projects. This course requires the student to acquire a Washington State Public Health Card. Continue your journey while developing your culinary skills.

CT_615 BAKERY & PASTRY 1

Length/Credit: 1 semester - 0.5

CTE credit

Prerequisite: Culinary Essentials 1 **Location:** Bellevue, Newport,

Sammamish

This course is an option following Culinary Essentials 1. This course allows culinary students a more rigorous and in-depth study of baking and pastry work. Areas of study include: Baking terminology, tool and equipment use, formula conversions, functions of ingredients, and methods used in creating quick breads, yeasted breads, pastries, cookies, and other desserts. The fundamentals of dough and basic decorating skills are covered. The appropriate use of technology and industry standard equipment is part of this course.

CT_622 INDEPENDENT LIVING

Length/Credit: 1 semester - 0.5

CTE credit

Location: Newport

Students gain essential life skills in this extremely important and fun course through a variety of learning experiences. Topics include personal finance, credit and consumerism, nutrition and basic cooking, clothing care and repair, basic home maintenance and easy repairs, resumes, careers and goal setting. Classroom activities assist the student in making informed decisions in all areas of everyday life now and in the future.

CT_430 INTERIOR DESIGN & HOUSING

COLLEGE

Length/Credit: 1 semester - 0.5 CTE credit

Other info: Students may earn

5 college credits **Location:** Newport

Students will use traditional methods and computer programs to create and analyze floor plans and interior schematics. Principles of design, colors and textures will be implemented to create design projects and sample boards with many practical applications. There will also be a focus on the behavioral, social, economic, functional and aesthetic aspects of housing, interiors and furnishings. Careers in architecture and design will be explored.

CT 787

FAMILY AND CONSUMER SCIENCE WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in a

Human Services class

Students who have completed one semester of a CTE class in the Human Services career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of

CT 607.0

paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

INFORMATION TECHNOLOGY

CT_506.0 CISCO NETWORKING ACADEMY AM

CT_507.0 CISCO NETWORKING ACADEMY PM

Length/Credit: 1 year - 3 periods - 3.0 CTE credits

Prerequisite: Basic understanding of computer operation.

Other info: Students will take the CISCO Certified Network Associate (CCNA) exam at the completion of this course. Instructors are CISCO certified; 20 college credits

Location: Newport - Skill Center (Available to all schools)

This is a 3-period Skill Center class (3 high school credits). Discover how to design, build, manage, and troubleshoot corporate enterprise networks. Learn mitigation of security threats, cybersecurity threat management, and advanced troubleshooting skills with a major emphasis on hands-on learning. Python is introduced for scripting and configuration. Each day half the class time is spent working in a stateof-the-art networking lab. Students take the Cisco Certified Networking Associate (CCNA) exam at the completion of the course. Students who successfully complete CCNA may be eligible to apply for CCNP. High School credits earned: CTE (3.0). College Credit available. Program fees may apply. Financial assistance may

be available for qualifying students. NOTE: Block schedules affect class times daily.

CT_606.0
ADVANCED CISCO CCNP AM

ADVANCED CISCO CCNP PM

Length/Credit: 1 year - 3 periods - 3.0 CTE credits

Prerequisite: CISCO Networking Academy or CCNA certification. Other info: Students will take the CISCO Certified Network Professional (CCNP) exam at the completion of this course. Instructors are CISCO certified; 18 college credits

Location: Newport - Skill Center (Available to all schools)

This is a 3-period Skill Center class (3 high school credits). This advanced curriculum trains students to install, configure, and operate local and wide area networks using protocols and technologies such as TCP/IP, OSPF, EIGRP, BGP, AAA, IPv6, MPLS, STP, DSL, VTP, Gigabit, and 10 Gigabit Ethernet. This course makes extensive use of labs to focus on developing skills to build campus networks using multilayer switching technologies, creating and deploying a global intranet, and troubleshooting. Be prepared to take the Cisco Certified Networking Professional (CCNP) exams at the completion of the course. Aspects of cloud computing with Microsoft Azure and Amazon AWS are covered as well as Voiceover-IP (VoIP) and Cisco Unified Communication Manager topics. Students use VMWare and Microsoft virtualization product to build servers in virtual and cloud environments. Students also gain experience in setting up and configuring Microsoft Server products. College credits are available. Prerequisite: Successful completion of Cisco Networking Academy CCNA Course. High School credits earned: CTE (3.0). College Credit available. Program fees may apply. Financial assistance may be

available for qualifying students. NOTE: Block schedules affect class times daily.

CT_706 ADVANCED CISCO – CYBERSECURITY

Length/Credit: 1 year – 1.0 CTE Credits *(may be repeated)* **Prerequisite:** CISCO Networking

Academy or CCNA certification **Other info:** Instructors are CISCO
Certified; 5 300-level college credits available.

Location: Newport

There has never been a greater need for professionals trained in cybersecurity. In today's world everything is a target—from servers, computers, phones and routers to refrigerators and light bulbs. This course is designed to prepare students for certification in this field. Students learn how to select appropriate hardware and software to provide protection against known security threats. Students also perform advanced installation, configuration, monitoring, and troubleshooting of CISCO IOS routers and ASA firewalls as well as generic network and server equipment. Intrusion detection and intrusion prevention features of Adaptive Security Appliances (ASA firewalls), switches and routers are discussed. Students learn how to set up siteto-site VPNs between CISCO and non-CISCO devices as well as remote access VPNs between CISCO devices and clients. Encryption algorithms such as AES, IPSEC, 3DES and MD5 are discussed and implemented. This course prepares students for the following industry standard exams: Implementing CISCO IOS Network Security (IINS); Implementing **CISCO Secure Access Solutions** (SISAS); Implementing CISCO Edge Network Security Solutions (SENSS); Implementing CISCO Secure Mobility Solutions (SIMOS); and Implementing **CISCO Threat Control Solutions**

COLLEGE

(SITCS). Completion of these exams earns a student the CISCO Certified Security Professional certification.

CT 403 COMPUTER TECHNOLOGY

Length/Credit: 1 semester - 0.5 CTE

Location: Newport

While learning basic computer maintenance and simple management of operating systems in this exploratory class, students will investigate various computer topics based on individual knowledge and interest. These topics may include computer hardware and software, simple networking, graphics, HTML, computer programming, management of computers and Information Technology career areas. Students may pursue certifications such as A+ and Microsoft Certified Desktop Professional. After taking this class, students will be better prepared to take classes such as Web Publishing, CISCO, Coding in Python 1, Video Game and Simulation, and AP Computer Science.

CT 401 MOBILE GAME DEVELOPMENT

Length/Credit: 1 semester - 0.5 CTE credit

Location: Bellevue, Sammamish

Mobile Game Development provides students the opportunity to learn the basic skills necessary to develop and deploy mobile applications. The course builds on the Unity platform to enable students to design games for the most popular mobile game engine, build touch screen-based user interfaces, and extend those designs for both virtual and augmented reality. C# scripts will be written in Microsoft Visual Studio Code, and so some coding experience is recommended. Students will design, build, and deploy their own 2D and 3D games for Android and iOS devices in this project-based course.

CT 480

CS 201 - CODING IN PYTHON 1

Length/Credit: 1 semester - 0.5 CTE

credit

CREDIT

Other info: Students who completed both CS 101 Coding in Python 1 and CS 102 Coding In Python 2 in middle school are eligible to enroll In CS 202 Coding in Python 2. College credit can be earned after completing CS 202 Coding in Python 2.

Location: Bellevue, Interlake, Newport, Sammamish, International

This computer science course uses Python, a professional programming language widely used in the software industry. Python is an excellent first programming language for students new to line-based coding in that it provides simpler syntax and semantics and higher code readability than other programming languages (such as Java and C++). This minimizes complexity and allows students to focus on core computer science concepts, problem-solving, design and programming. Students learn fundamental computer science concepts including data- statements, expressions, variables, values & errors, control structures - conditionals, while loops, indentation & function call, drawing-coordinate system, colors, animation, key & mouse input, lists, for each loops, for-inrange loops, sprite-based graphicssprites, program structure, collision detection, functions - definition, parameters & arguments, return values & types.

CT 580

CS 202 - CODING IN PYTHON 2

Length/Credit: 1 semester - 0.5 CTE

credit

Prerequisite: CS101 or CS201 -Coding in Python 1 at Middle or High

Other info: Students who completed both CS 101 Coding in Python 1 and CS 102 Coding In Python 2 in middle school are eligible to enroll In CS 202

Location: Bellevue, Interlake, Newport, Sammamish, International

Students learn to make professionallooking visual programs and games with sprite-based graphics, sounds, and animation. Coding in Python 2 will introduce students to the key coding techniques of functions, dictionaries, multidimensional lists, and sprite-based graphics, as well as expanding their knowledge of loops, lists, conditionals, libraries, and input by using them all in exciting new contexts. Students will have access to professionalquality characters, backgrounds, animations and sounds to create their programs. After learning how to create and manipulate these sprites in Python, students will use proper product development processes to make more advanced and impressive programming projects than in previous Python courses. The new concepts introduced will include functions, parameters and arguments, return values, dictionaries, two-dimensional lists, sprites, sprite sheet animation, collision, JSON, product development lifecycle, Kanban Board.

CT 581

CS 203 - CODING IN PYTHON 3

Length/Credit: 1 semester - 0.5 CTE credit

Prerequisite: CS101 or CS201 -Coding in Python 1 & Python 2 **Other info:** College credit can be earned after completing Python 4.

Location: Bellevue, Newport,

Sammamish

COLLEGE CREDIT

This course continues the in-depth journey with coding in Python from CS202. During the course, students will master fundamental coding concepts such as file systems, information storage and retrieval, and error handling. Students will also gain proficiency with advanced topics

including user-defined modules, data as values, data as references, and graphical user interfaces. In addition, students will learn the product development cycle of user testing, iteration, and automated testing that is ubiquitous in the software industry. Throughout the course, students will continuously demonstrate their knowledge through both traditional assessments and real-world coding projects, growing their professional portfolio.

CT_582 CODING IN PYTHON 4

Length/Credit: 1 semester - 0.5 CTE credit

Other info: College credit can be earned after completing Python 4.

Location: Bellevue, Newport, Sammamish

This course completes the in-depth journey with coding in Python from CS203. During the course, students will master object-oriented programming concepts through the use of classes and domain-driven design. Students will also explore several different possible future paths for study and careers in computer science including web development, data science, and cybersecurity. In addition, students will research the effects of technology on society and investigate how to build software with a goal of solving social problems. Throughout the course, students will continuously demonstrate their knowledge through traditional assessments and expand their professional project portfolio with a capstone coding project. Upon completion, students will be prepared to step into a variety of coding fields as an entry-level Python programmer.

CT_406 VIDEO GAME & SIMULATION DESIGN

Length/Credit: 1 semester - 0.5 CTE credit

Prerequisite: Algebra 1 or equivalent **Location:** Bellevue, Newport, Big Picture

In this project-based course, students will learn the fundamentals and theory of game and simulation design. Students will plan and design a series of animated games and simulations. The fundamentals of working with sprites, backgrounds, animation objects, game logic and scripting will be covered. This course provides fundamentals that would prepare students for greater success in WANIC's DigiPen Video Game Programming course.

CTA504 AP COMPUTER SCIENCE PRINCIPLES

Length/Credit: 1 year - 1.0 CTE credit

or Math

COLLEGE

COLLEGE

Other info: Students will take the AP exam in the spring.

Location: Bellevue, Newport, Sammamish, International

Be a part of this fun and engaging class. This course signals a change in direction for AP courses, as its primary emphasis builds on the students' own backgrounds and strengths and emphasizes the importance of collaboration. Students will be surprised by this class's innovative, flexible curriculum that uses the experiences, interests, and strengths of students to shape its path. The course develops computational thinking skills in the context of creative problem solving. The primary goal of the course is to introduce students to the foundational concepts of computer science and challenge them to explore how computing and technology can impact the world. In this course you will learn about ways to analyze and study data, define and solve algorithms, how the internet works, and the global impact of computing. Rather than a deepdive into computer programming,

this class takes a broader impact and overview look at the field of computer science. It will include content and influence from classes offered at Stanford and Harvard. Passing the AP exam includes a multiple choice test and delivery of two in-class developed projects.

CTA505 AP COMPUTER SCIENCE

Length/Credit: 1 year - 1.0 CTE credit or Math

Prerequisite: Algebra 1 or equivalent; Geometry recommended; Introduction to Computer Programming, Python 1, or Video Game Design/Computer Programming (Newport) is recommended

Other info: Students will take the AP exam in the spring.

Location: Bellevue, Interlake, International, Newport, Sammamish

This class is designed for students who plan to pursue a career that relies on computer technology. No computer programming experience is necessary; however, completion of Introduction to Computer Science and a strong math background will help assure success. Students will be learning Java, a widely used programming language that is the current standard for AP Computer Science. Topics include: program development cycle, program syntax, writing code techniques, variables, conditionals, iteration, methods, classes and recursion. Students will gain an in-depth knowledge of how computers execute programs. Since the software is free, students will also be able to work at home and/ or use district provided equipment. Students will have the opportunity to write original programs in their area of interest such as a GUI, game programming, or data management.

CT_605 SPECIAL TOPICS IN COMPUTER SCIENCE

Length: 1 year - 1.0 CTE credit **Prerequisite:** AP Computer Science **Location:** Newport, Sammamish, Bellevue, International

While AP Computer Science focused on control issues (loops, conditionals, methods, parameter passing, etc.), **Special Topics in Computer Science** focuses on data issues. Topics include: ADTs (abstract data types), stacks, queues, linked lists, binary trees, hashing, recursion, interfaces, inheritance and encapsulation. The course also introduces the notion of complexity and performance tradeoffs in examining classic algorithms such as sorting and searching, and classic data structures such as lists, sets, and maps. The course will include a mixture of data structure implementation as well as using off-the-shelf components from the Java Collections Framework and Microsoft Visual Studio C#.

CT_771 BIG PICTURE INTERNSHIP / CAREER CHOICES

Length/Credit: Year-long - up to 2.0 credits

Other info: Required for all high school students at Big Picture **Location:** Bellevue Big Picture

The Learning Through Interest (LTI) experience is designed to provide the student with an opportunity to learn across all of the Big Picture Learning Goals through immersion in a professional environment. During the first quarter of 9th grade, students will explore their interests, research careers, create resumes, practice interview skills, and conduct informational interviews and job shadows. All new BP students are required to successfully complete this in-class portion of

the internship program before obtaining an internship. This portion of the program will only occur once per academic year in the fall. In cooperation with school advisors and industry mentors, students will network to obtain placements at internship sites for the remainder of the school year. Students are required to complete and present projects connected to their interests, internships and learning goals at quarterly exhibitions.

CT_788 COMPUTER & INFORMATION TECHNOLOGIES WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in an Information Technology class

Students who have completed one semester of a CTE class in the Information Technology career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

MARKETING, SALES & SERVICE

CT_409

INTRODUCTION TO MARKETING

Length/Credit: 1 year - 1.0 CTE credit **Location:** Bellevue, Newport, Sammamish

Students will be introduced to business practices with an emphasis on day-to-day operations. Topics include: business concepts, psychology and sociology of marketing and promotion, human relations, sales and advertising. DECA is the national association for business and marketing students. As a member of DECA students will have the opportunity to attend conferences, compete and travel. Through DECA students may earn scholarships and gain state and national recognition.

CT_509

ADVANCED MARKETING & ENTREPRENEURSHIP

Length/Credit: 1 year - 1.0 CTE credit **Prerequisite:** Introduction to

Marketing

Location: Bellevue, Newport,

Sammamish

This class provides a more in-depth study of topics introduced in the Marketing and Business class. New topics are introduced including: basic economics; business and marketing research; operations and human relations. DECA is a major part of this class and projects developed will be used in DECA competitions.

CT_609

RETAIL MANAGEMENT – STUDENT STORE

Length/Credit: 1 semester - 0.5 CTE

redit

Prerequisite: Introduction to Marketing. No prerequisite for

Interlake HS

Location: Bellevue, Interlake, Sammamish, Newport

Students will learn how to run a small business by operating the student store. Students will take the role of employees and managers and will be responsible for all aspects of store operation, including staffing, supervision, store maintenance, cash register and money handling procedures, customer service, purchasing, and inventory management and accounting. DECA is a part of this class and skills developed can be used in DECA competitions.

CT_783 BUSINESS AND MARKETING WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in a Business and Marketing class

Students who have completed one semester of a CTE class in the Business and Marketing career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

SCIENCE, TECHNOLOGY, ENGINEERING AND MATH (STEM)

CT_411 INTRODUCTION TO ROBOTICS

Length/Credit: 1 semester - 0.5 CTE credit

......

Location: Sammamish

This course is designed to provide students the opportunity to explore the basics of robotics and build skills necessary for success in STEM careers. Students will complete a variety of hands on challenges that will require the design, construction and programming of robots to learn the basics of robots including hardware, motors, controls, and sensors. Students will also be introduced to the basics of programming with ROBOTC. In addition, this course will provide opportunities for students to develop collaboration, problemsolving, and communication skills.

CT_419 LAUNCHING INTO AVIATION 1

Length/Credit: 1 semester - 0.5 CTE

credit

Location: Sammamish

This course will provide the foundation for advanced exploration in the areas of flying, aerospace engineering, and unmanned aircraft systems. Students will learn about engineering practices, problem solving, and the innovations and technological developments that have made today's aviation and aerospace industries possible. Students will also learn about the wide variety of exciting and rewarding careers available to them. The course will inspire students to consider aviation and aerospace careers while laying the foundation for continued study high school and beyond.

CT_525

LAUNCHING INTO AVIATION 2

Length/Credit: 1 semester - 0.5 CTE

credit

Prerequisite: Launching into

Aviation 1

Location: Sammamish

This course is a continuation of the exploration into aviation and aerospace. Students will continue exploring careers, safety, oversight, and the history of the industry. Aviation innovation and problemsolving will be the major focus this semester along with application of these principles, practices, and knowledge in a student-led Innovation Challenge.

CT_789 ENGINEERING WORKSITE LEARNING

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in a

STEM class

Students who have completed one semester of a CTE class in the STEM career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

TRANSPORTATION

CT 661.0 **AUTOMOTIVE TECHNOLOGY 1 AM**

CT 662.0

AUTOMOTIVE TECHNOLOGY 1 PM

Length/Credit: 1 year - 3 periods - 2.0 CTE Credits, 1.0 Lab Science Credit Other info: 1.0 Lab Science credit **Offered:** Morning (Periods 0,1,2) Location: Bellevue - Skills Center (Available to all schools)

This is a 3-period Skill Center class (3 high school credits). This STEM course provides the foundation for entry into the automotive industry as a technician, service writer/ manager, or future engineer building cars. By the end of the first year, they will complete 4 of the 8 ASE content. This is a nationally certified program through the ASE Education Foundation. Students will take the ASE certification test at the beginning and end of the course to measure growth. Students will learn in a state-of-the art automotive shop and classroom. Leadership through Skills USA Auto Club is expected. Students will work on customer, shop owned and student scheduled vehicles. Students who successfully complete Year 1 may be eligible to apply for Year 2. High School credits earned: CTE (2.0) Lab Science (1.0) Program fees may apply. Financial assistance may be available for qualifying students. NOTE: Block schedules affect actual class times daily.

CT 761.0

AUTOMOTIVE TECHNOLOGY 2 AM

CT 763.0

AUTOMOTIVE TECHNOLOGY 2 PM Length/Credit: 1 year - 3 periods - 2.0 CTE Credits, 1.0 Lab Science Credit

Prerequisite: Automotive

Technology 1

Other info: 1.0 Lab Science credit Location: Bellevue - Skills Center

(Available to all schools)

This is a 3-period Skill Center class (3) high school credits). At this advanced level of STEM training, students will focus on the intricacies of automotive professionalism. Successful completion of this class requires a high level of maturity, self-motivation, and a desire to succeed. This course has a strong STEM correlation with math, science and physics along with dexterity building and meter usage. Students can earn up to 15 college credits through Pacific NW College Credit and Lab Science Equivalency credits at Bellevue High School. Leadership opportunities are provided through Skills USA Auto Club and job shadowing at local shops/dealerships. Topics studied revolve around the 8 nationally recognized Automotive Service Excellence (ASE) content areas. Students will study 4 ASE topics each year. Students will also take the ASE Certification test at the beginning and end of the course to show growth. Students will work on customer, shop owned and student scheduled vehicles. High School credits earned: CTE (2.0) Lab Science (1.0) Program fees may apply. Financial assistance may be available for qualifying students. NOTE: Block schedules affect actual class times daily.

CT 790 MECHANIC & REPAIR **TECHNOLOGIES WORKSITE LEARNING**

Length/Credit: 180 (.5 CTE credit) or 360 work hours (1.0 CTE credit) **Prerequisite:** .5 credit earned in an Information Technology class

Students who have completed one semester of a CTE class in the Automotive Technology career pathway, and who are currently employed in a paid position with a local employer in this industry, are eligible to enroll in worksite learning. (No home-based businesses may be used for this credit.) Students can earn .5 credits for 180 hours of paid

work or 1.0 credits for 360 hours of paid work, which is the maximum allowable credit. Required paperwork must be signed off by a parent and the employer and submitted on time to earn credit. This includes monthly calendars verifying the number of hours worked and an employer evaluation completed over the course of the work experience. Each high school has a Work Site Learning Coordinator that will assist students throughout the school year.

The Lake Washington School District does not discriminate on the basis of race, color, national origin, sex, disability, age, gender, marital status, creed, religion, honorably discharged veteran, military status, sexual orientation, gender identity or gender expression, the presence of many sensory, mental or physical disability, not but see of a trained guide dog or service animal by a person with a disability, in its programs and activities and provides equal access to the Boy Scoust and other designated youth groups.

MIDDLE SCHOOL ELECTIVES

- » Leadership
- » Academic Seminar
- » Elementary Tutor
- » Peer Tutor
- » Office Assistant

EL_150 LEADERSHIP

Length/Credit: 1 semester (can be repeated)

Other info: Students elected to ASB office are expected to enroll in this course

Location: Chinook (7th-8th), Highland, Odle, Tillicum, Tyee

This year course is open to 6th, 7th, and 8th grade students who want to serve the school community while developing their own leadership skills. Leadership skills are both learned in the classroom and refined through practice. Therefore, this course will include two parts: classroom lessons and school projects. Leadership skills such as goal setting, time management, decision making, meeting procedures, communication, organization, public speaking and interpersonal relations will be developed through instructional activities and assessments. Students

will put these skills into practice through direct planning and implementation of school projects. Students will reflect on their skill development to identify growth and areas for improvement.

EL_103 ACADEMIC SEMINAR

Location: Big Picture

This course provides support for students who struggle academically and need assistance with conceptual understanding of academically complex material.

EL_306 PEER TUTOR

Length/Credit: 1 semester (can be repeated)

Prerequisite: 8th grade standing and teacher recommendation

Other info: This class will be graded with Satisfactory (S) or No Mark (NM). No letter grade will be recorded

Location: Big Picture, Tyee, Chinook

Peer tutors will be paired with students who need help completing assignments, studying for tests, reading, organizing their work, and/ or doing other assigned tasks to positively impact their academic progress. Peer Tutoring may also be done on voluntary basis before or after school.

EL_307 ATTENDANCE ASSISTANT

Length/Credit: 1 semester **Prerequisite:** 8th grade standing. Permission from Attendance Secretary, Counselor, parent, and an excellent attendance record.

Other info: This class will be graded with Satisfactory (S) or No Credit (NC). No letter grade will be recorded

Location: Chinook, Highland, Odle, Tillicum, Tyee

The Attendance Office offers on-thejob training in general office skills and public relations. Students will deliver messages, file, assist with mailings, and help students and staff in a polite and courteous manner. Students will collect attendance records from classrooms.

EL_230 PACIFIC PEER COACH

Length/Credit: To be determined on

an individual basis

Prerequisite: School staff recommendation

Location: Highland

Additional Middle School Elective Courses

Students will serve as peer tutor/ coaches to peers with disabilities. Students will model age appropriate behaviors, reinforce academic concepts and social skills, and encourage functional communication. Under the direction and supervision of certified staff, peer coaches will be expected to work in a group or one on one with students in a variety of settings and situations and will complete weekly assignments.

EL_231 SOCIAL COACH

Length/Credit: To be determined on an individual basis

an individual basis

Prerequisite: School staff

recommendation **Location:** Big Picture

Students will serve as social coaches to individuals with disabilities. Students will model age-appropriate behaviors, reinforce social skills and organization strategies. Under the direction and supervision of certificated staff, peer coaches will be expected to work in a group or one on one with students in a variety of settings and situations and will complete weekly assignments.

EL_122 ADVISORY 1

Length/Credit: 1 Year **Prerequisite:** None

Other info: Required for all 6th grade

students at Big Picture **Location:** Big Picture

This course is designed to aid students in their exploration of college, career, and community. Students will participate in a variety of activities focused on student leadership, advocacy, diversity, and respect. Students will increase their awareness of college programs and careers by researching educational pathways, exploring their interests, hearing from guest speakers, and visiting local campuses/businesses. Students will also participate in

service learning and interdisciplinary projects connecting their academic classes to the community. They will learn to collaborate, communicate, research, and solve problems. Students will present their digital portfolios and project work at exhibitions held throughout the year. In addition, they will participate in student-led conferences and contribute to the development of their personalized learning plan and goals.

EL_222 ADVISORY 2

Length/Credit: 1 Year **Prerequisite:** None

Other info: Required for all 7th grade

students at Big Picture **Location:** Big Picture

This course is designed to aid students in their exploration of college, career, and community. Students will participate in a variety of activities focused on student leadership, advocacy, diversity, and respect. Students will increase their awareness of college programs and careers by researching educational pathways, exploring their interests, hearing from guest speakers, and visiting local campuses/businesses. Students will also participate in service learning and interdisciplinary projects connecting their academic classes to the community. They will learn to collaborate, communicate, research, and solve problems. Students will present their digital portfolios and project work at exhibitions held throughout the year. In addition, they will participate in student-led conferences and contribute to the development of their personalized learning plan and goals.

EL_322 ADVISORY 3

Length/Credit: 1 Year **Prerequisite:** None

Other info: Required for all 8th grade

students at Big Picture **Location:** Big Picture

This course is designed to aid students in their exploration of college, career, and community. Students will participate in a variety of activities focused on student leadership, advocacy, diversity, and respect. Students will increase their awareness of college programs and careers by researching educational pathways, exploring their interests, hearing from guest speakers, and visiting local campuses/businesses. Students will also participate in service learning and interdisciplinary projects connecting their academic classes to the community. They will learn to collaborate, communicate, research, and solve problems. Students will present their digital portfolios and project work at exhibitions held throughout the year. In addition, they will participate in student-led conferences and contribute to the development of their personalized learning plan and goals.

RESEARCH/EXPLORATORY ELECTIVES

ELA601 AP CAPSTONE 1 (AP SEMINAR)

Length/Credit: 2 semesters - 1.0 credit

-

Prerequisite: 10th, 11th, or 12th

grade standing.

Location: Bellevue, Newport

Students engage in conversations about complex academic and real-world issues through a variety of lenses, considering multiple points of views. Classes will focus on two or more themes that allow for deep interdisciplinary exploration based on: concepts or issues from other AP courses, student interests, local and/or civic issues, and Global or international topics.

Exploring different points of view and making connections across disciplines are fundamental components of the AP Seminar experience. Students consider each topic through a variety of lenses and from multiple perspectives, many of which are divergent or competing. Analyzing topics through multiple lenses aids in interdisciplinary understanding and helps students gain a rich appreciation for the complexity of important issues. Students will be encouraged to explore a topic through several of the following lenses: cultural and social, artistic and philosophical, political and historical, environmental, economic, scientific, futuristic, and ethical.

During the course, students will complete a team project, an individual paper and presentation, and take a final written exam. This course is the first of two courses available for students to earn the AP Capstone Diploma.

Students will use the following framework as they explore issues and topics:

- » Question and Explore
- » Understand and Analyze Arguments
- » Evaluate Multiple Perspectives.
- » Synthesize Ideas
- » Team, Transform and Transmit

ELA701 AP CAPSTONE 2 (AP RESEARCH)

Length/Credit: 1 year - 1.0 credit **Prerequisite:** AP Capstone 1 (AP

Seminar)

Location: Newport

AP Research allows students to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, students design, plan, and conduct a yearlong research based investigation to address a research question.

In the AP Research course, students further their skills acquired in the AP Seminar course by understanding research methodology; employing ethical research practices; and accessing, analyzing, and synthesizing information as they address a research question. Although the topic of each research study will vary, the course requires students to plan and conduct a study or investigation. The course provides opportunities (activities/assignments) for students to:

- » Understand principles of disciplinespecific research methods (e.g., qualitative, quantitative, mixed).
- » Employ appropriate disciplinary research methods to develop, manage, and conduct an in-depth study or investigation in an area of student's own interest.
- » Present (using appropriate media) and defend the research design, approach, and findings to a panel.
- » Document their processes and curate the artifacts of the development of their scholarly work in a portfolio.

ELH468 THEORY OF KNOWLEDGE 1

ELH469 THEORY OF KNOWLEDGE 2

Length/Credit: 2 semesters - 1.0 credit

Other info: This course is central to the IB program. The course will be taken in the second semester of Grade 11 and the first semester of Grade 12. IB candidates will have priority in enrollment.

Location: Interlake

In the Theory of Knowledge (TOK), students will explore how they know what they know through personal and global issues. Theory of Knowledge seeks to define knowledge, evaluate truth claims, and explore the relationship between knowledge and the knower. Traditional philosophical conversations and practical methodology in contemporary issues are both studied in Theory of Knowledge. All Areas of Knowledge may be covered with a focus on History, Art and Ethics. All Ways of Knowing may be explored, with a focus on Reason and Emotion. The course is largely based on interacting and reflecting with sources including text, videos, art and even social media. TOK is intended empower students to apply larger rigorous and challenging ideas to foster personal understanding. Students are expected to explore their own beliefs and consider the views of other individuals, perspectives and cultures.

ELH472 IB NATIVE LANGUAGE SL

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Must have native speaker fluency in reading, writing, and speaking in a language other than Chinese, English, French, or Spanish. Must be a Diploma Candidate in the first or second year. Student must have good organizational skills and be able to work well independently.

Other info: Any student who is interested in this option must obtain permission from the IB office. Only 5 students may sign up for Self Study in a particular language in a given year. It fulfills the IB Group 2 (World Language) requirements for students pursuing the Diploma. Self-Study is only offered as a Standard Level (SL) course.

Location: Interlake

The course follows many of the requirements of the IB Literature course, but a student studies independently in their native language. The IB coordinator helps guide the process, and explains the requirements, but the study and fulfillment of the assessments is largely independent. The course is broken into four parts. In Part One, the student studies several works in translation. Part Two is the close study of poetry. The student studies literature from different genres in Part Three. Finally, Part Four includes some additional works chosen by the student. The course encourages students to appreciate the artistry of literature and to develop an ability to reflect critically on their reading. Works are studied in their literary and cultural contexts, through close study of individual texts and passages, and by considering a range of critical approaches. The study of works in translation is especially important in introducing students, through literature, to other cultural perspectives. The response to the study of literature is through oral and written communication, thus enabling students to develop and refine their command of language. Assessments include short written reflections, essays, an oral commentary, as well as timed exams. The course aligns with Common Core Standards.

ACADEMIC SUPPORT ELECTIVES

EL_438 ACADEMIC SEMINAR

Length/Credit: 1 semester - 0.5 credit / 1 year - 1.0 credit

Location: Bellevue, Big Picture, Interlake, International, Newport,

Sammamish

This course provides support for students who struggle academically and need assistance with conceptual understanding of academically complex material, task initiation, organization or completion.

EL_501 SAT PREPARATION

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Limited to 10 & 11th graders with no prior SAT course participation

This introductory course offers diagnostic assessments, direct instruction in targeted areas, and ample practice of required skills. Students will learn the test format, review the SAT directions and scoring, and be introduced to various test-taking strategies. Content will include critical reading, writing and math instruction.

LEADERSHIP ELECTIVES

EL_474 EMERGING LEADERSHIP LEADERSHIP THEORY

Length/Credit: 1 semester – 0.5

credit

Prerequisite: This course is open to any student at all schools. At Newport, first year ASB officers are required to enroll in this class.

Location: Bellevue, Interlake, Newport, Sammamish, Big Picture

This course is designed to introduce emerging leaders to various leadership theories. Students will

explore personal and community core values and a common definition for leadership. This class will be text based, asking students to thoughtfully read and respond to texts that challenge the normal student hierarchy and traditions of high school. Students will teach other students leadership theory through student centered lessons and will provide practical applications to the reading and teaching. The focus of this class will be on teaching and fostering personal leadership within individual students. This class will primarily focus on traditional and hierarchal forms of leadership. Students will also brainstorm solutions to school wide problems and advise elected student leaders on those problems.

EL_476 DEVELOPING LEADERSHIP THEORY & PRACTICE

Length/Credit: 1 semester – 0.5 credit

Prerequisite: Open to all students at listed high schools. ASB, class and club officers, cheerleaders, Natural Helpers and others in leadership positions are encouraged to enroll. At Newport and Sammamish Emerging Leadership is a required prerequisite and first year ASB officers are required to enroll in Emerging and Developing Leadership courses.

Location: Bellevue, Newport, Sammamish, Big Picture

This course is designed to introduce developing leaders to historical models of ethical leadership including readings from Plato, Socrates, Machiavelli, Martin Luther King Jr., and Gandhi. Material will be taught primarily through Socratic seminar structured discussions which will ask students to discuss how those models of leadership can be applied to the issues facing the school and larger community. Topics may include persuading groups through arguments of principle, affecting

change within small and large groups by using group dynamics to jump start change within communities. Students will be taught how to apply learning of leadership to school wide problems. Students will produce a portfolio showing their efficacy for instigating positive school change. Students will primarily be assessed on their ability to transfer gained knowledge of leadership theory to inspiring positive changes in school culture. This class will primarily focus on teaching and fostering collaborative forms of leadership within groups of leaders.

EL 478 **ADVANCED LEADERSHIP -EXPERIENTIAL LEADERSHIP**

Length/Credit: 1 semester - 0.5 elective credit (may be repeated), 1 year - 1.0 credit for Sammamish **Prerequisite:** Completion of the Developing Leadership course EL 476. At Newport and Sammamish continuing ASB officers are required to enroll In Advanced Leadership. At Interlake, completion of Emerging Leadership - Leadership Theory:

Location: Bellevue, Interlake, Newport, Sammamish, **Big Picture**

This course is designed to help already developed leaders become practicing, independent leaders within the school and larger community. Learning will be focused on helping students develop, plan, and fulfill a personal leadership project that will be implemented within the class that will be based on all previous leadership learning. Students may have the opportunity to work closely with the Bellevue community in internships and community outreach projects.

EL 481 **DEVELOPING LINK CREW**

Length/Credit: 1 semester - 0.5 elective credit

In this course, student leaders will plan and implement academic and social events for incoming freshmen as part of a year-long mentoring program. These can include community building activities such as before and/or after sporting event gatherings, freshmen elections, study sessions, social functions, and academic assemblies. The students run all of the events, learn event and assembly planning, and develop evaluation, group planning, and counseling skills, in their capacity as student mentors and leaders. Students are occasionally expected to organize, lead, and participate in activities outside of the regular school

EL 482 **EMERGING LINK CREW**

Length/Credit: 1 semester - 0.5

elective credit

Location: Bellevue, Interlake

In this course, student leaders will plan and implement academic and social events for incoming freshmen as part of a year-long mentoring program. These can include community building activities such as before and/or after sporting event gatherings, freshmen elections, study sessions, social functions, and academic assemblies. The students run all of the events, learn event and assembly planning, and develop evaluation, group planning, and counseling skills, in their capacity as student mentors and leaders. Students are occasionally expected to organize, lead, and participate in activities outside of the regular school day.

EL 483 **DEVELOPING & EMERGING LINK CREW**

Length/Credit: 1 year- 1.0 elective credit (may be repeated)

Prerequisite: Application process. An interview is required for the selection process.

Location: Newport, Sammamish

In this course, student leaders will plan and implement academic and social events for incoming freshmen as part of a year-long mentoring program. These can include community building activities such as before and/or after sporting event gatherings, freshmen elections, study sessions, social functions, and academic assemblies. The students run all of the events, learn event and assembly planning, and develop evaluation, group planning, and counseling skills, in their capacity as student mentors and leaders. Students are occasionally expected to organize, lead, and participate in activities outside of the regular school

Developing & Emerging Link Crew is a one year commitment with one semester learning in a classroom based seminar and the other semester working as an academic coach. Students are placed into 9th grade classes as academic coaches and/or content areas where the Link Crew students can provide student expertise.

SERVICE ELECTIVES

EL 430 PEER COACH

Length/Credit: 1 semester - 0.5 elective credit

Prerequisite: School staff recommendation

Location: Interlake, Bellevue, Sammamish, Newport, Big Picture

Students will serve as peer tutor/ coaches to peers with disabilities. Students will model age appropriate behaviors, reinforce academic concepts and social skills, and encourage functional communication. Under the direction and supervision of certified staff, peer coaches will be expected to work in a group or one on one with students in a variety

of settings and situations and will complete weekly assignments.

EL_530 ACADEMIC COACH

Length/Credit: 1 semester - 0.5

elective credit

Prerequisite: School staff

recommendation

Location: Bellevue, Big Picture, Interlake, Newport & Sammamish.

EL_532

ACADEMIC COACH LINK CREW

Length/Credit: 1 semester - 0.5

elective credit

Prerequisite: School staff

recommendation **Location:** Newport

Students will serve as peer tutors, meeting one period daily in one of a number of regularly scheduled classes. Students in need of tutorial assistance may be paired with a peer tutor. Tutors may participate in an ongoing training program that may involve assigned readings.

EL_531 ELL ACADEMIC COACH

Length/Credit: 1 semester - 0.5

elective credit

Prerequisite: School staff

recommendation

Location: Interlake, Sammamish

This class involves working with small groups in the ELL Language Arts and English Language Development classes. Interested students should be Juniors or Seniors in good standing, have academic and social interests and enjoy helping and working with other students. ELL Academic Coaches will work closely with their advising teachers to deliver small group or tutoring instruction in reading, writing, listening and speaking.

EL 801

STUDENT TECHNOLOGY INTEGRATION

Length/Credit: 1 semester - 0.5 elective credit (may be repeated for

:redit

Prerequisite: Application, Interview, and Assessment of Tech Skills

Location: Big Picture, Sammamish,

Bellevue, Newport

The Student Technology Integration course is a hands-on study of technology integration in an educational context. Students will serve as the Student Help Desk for students and teachers at their school. In addition to solving problems for their classmates and teachers, students will be required to complete and maintain several running projects that address problems or solutions in educational technology integration. Students will also collaborate with teachers to produce technology rich projects and instruction. Students should have a prior understanding of Microsoft Windows OS, Microsoft Office Suite and readiness to learn district software.

EL 514

ATTENDANCE ASSISTANT

Length/Credit: 1 semester - No

credit.

Prerequisite: Permission of supervising adult. Student must have a record of cooperation, responsibility, maintaining confidentiality, and good attendance.

Other info: Fulfills Community

Service requirement

Location: Bellevue, Interlake, International, Newport, Sammamish, Big Picture

Assistants are afforded daily experience in public relations practices and business skills, and provide a service-oriented atmosphere to the student body, faculty and community at large. Primary skills include training in organization and prioritizing, as well

as use of the phones, office machines and equipment, and mail and message routing.

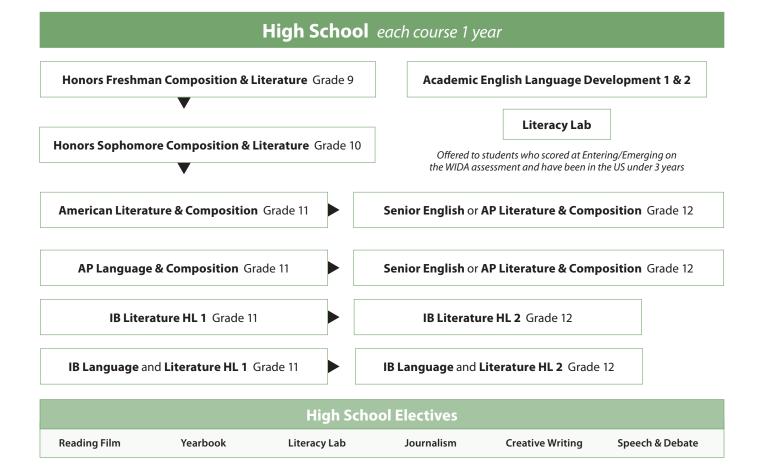

English Language Arts Course Sequence Grades 6-12

Standards which include College and Career Readiness standards. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they continue to progressively build the skills necessary for academic success. The primary goals of the course are to foster independent learning, encourage indepth exploration of the content, and develop academic habits of mind.

EN_301 HONORS 8TH GRADE LANGUAGE ARTS

Length/Credit: 1 year

Location: Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

8th Grade Honors Language Arts is aligned with the Common Core State Standards which include College and Career Readiness standards. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they transition into high school. The primary goals of the

Middle School English Language Arts

course are to foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind.

EN 102 HONORS 6TH GRADE HUMANITIES

Length/Credit: 1 year Location: International

This course examines the theme of choice. Students are introduced to the concept of choice and the consequences of those choices through analytical study of a variety of texts. Students will write in a variety of modes including expository, narrative, persuasive writing, and literary analysis. Students will develop skills in critical reading, reflection, revision, collaboration and oral communication. The primary goals of the course are to foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind.

EN 202 HONORS 7/8TH GRADE HUMANITIES/SYSTEMS

Length/Credit: 1 year

Prerequisite: 7th or 8th grade

Other info: 7th and 8th graders study Humanities in a two-year loop

Location: International

This course examines themes associated with social and political systems as well as structures of power, and techniques of persuasion and propaganda in novels, poetry, short stories, and various media (video, music, advertising). Objectives in the seventh and eighth grade loop are that students move from literal to critical thinking, write an effective body paragraph and understand the basic purpose of analytical writing. Students are exposed to close and critical reading strategies and are challenged to develop organizational skills and academic habits of mind.

Students will also develop skills in collaboration and communication.

EN 302 **HONORS 7/8TH GRADE HUMANITIES/ SYSTEMS IN CONFLICT**

Length/Credit: 1 year

Other info: 7th and 8th graders study Humanities in a two-year loop

Location: International

This course examines themes associated with coming of age on a personal, as well as political/ social level in novels, poetry, short stories, and various media (video and music). Objectives in the seventh and eighth grade loop are that students move from literal to critical thinking, write an effective body paragraph and understand the basic purpose of analytical writing. Students are exposed to close and critical reading strategies and are challenged to develop organizational skills and academic habits of mind. Students will also develop skills in collaboration and communication.

MIDDLE SCHOOL READING

RE 101 READING LAB 1

Length/Credit: 1 year Prerequisite: None

Other info: This class will be assigned to students who did not demonstrate proficiency on the most recent state ELA assessment or by teacher assessment and/or recommendation.

Location: Chinook, Highland, Odle, Tillicum

Students will receive explicit, intensive instruction in order to improve reading vocabulary, fluency, comprehension, and the ability to read a variety of text types. Students will study, develop, and apply a variety of specific reading strategies they can employ when reading fiction and non-fiction texts.

RE 102 READING LAB 2

Length/Credit: 1 year

Other info: This class will be assigned to students who did not demonstrate proficiency on the most recent state ELA assessment or by teacher assessment and/or recommendation.

Location: Chinook, Highland, Odle, Tillicum

Students will learn specific, efficient fiction and non-fiction reading strategies as well as organizational skills that will support academic success in middle school. Students will study, develop and apply critical thinking skills to summarize, analyze and evaluate a variety of text selections. This class focuses on Washington State requirements for reading proficiency as measured on the State Reading Assessment.

RE 110 BOOK CLUB

Length/Credit: 1 semester

Location: Highland

Book Club is a semester long course designed for students who want to spend more time reading, discussing books, and exploring titles and genres that are new to them. All levels of readers are invited to join Book Club where the teacher facilitates small group discussions, offers reading instruction for all levels of readers, and supports students as they individually explore their personal interests.

MIDDLE SCHOOL ELECTIVES

EN 103 CREATIVE WRITING 1

Length/Credit: 1 semester Location: Odle, Tyee, Chinook, Highland, Tillicum

Creative Writing will explore different genres of writing with the main goal of inspiring amazing ideas and constructing original pieces. This course will include student-

Middle School English Language Arts

selected writing topics and ideas and encourage experimentation with writing techniques. A deep understanding of different styles and modes of writing, along with the writing process will be emphasized in this fantastic elective.

EN_203 CREATIVE WRITING 2

Length/Credit: 1 semester **Prerequisite:** Creative Writing I or other creative writing experience **Location:** Odle, Chinook

Creative Writing II will continue to refine and inspire students' growth in multiple genres of creative writing. This course will enhance students' proficiency and creativity through each stage of the creative writing process from generation to publication. Additional emphasis will be placed on developing workshop protocol skills and delving deeper into the multiple genres of creative writing.

EL_202 DEBATE I

Length/Credit: 1 semester **Prerequisite:** 7th or 8th grade

standing

Location: Chinook, Highland, Odle,

Tillicum, Tyee

This course focuses on the qualities of strong public speaking. Students will create speeches to inform and persuade. Students will use necessary research skills to select, research, and construct an argument about controversial issues. Students will practice the language of argumentation and the structure and procedure of formal debate.

EL_302 DEBATE 2

Length/Credit: 1 semester **Prerequisite:** Debate I

Location: Odle

This course focuses on continuing the development of the qualities of strong

public speaking. Students will create speeches to inform and persuade. Students will use necessary research skills to select, research, and construct an argument about controversial issues. Students will practice the language of argumentation and the structure and procedure of formal debate.

ENGLISH LANGUAGE LEARNER (ELL) PROGRAM

As the multilingual learners' department, we commit to being antiracist by promoting educational, linguistic, and racial equity for our students, families, educators, and community members. We engage in high-quality culturally relevant and rigorous educational practices that uphold respect, non-discrimination, and fairness. As social justice advocates, we affirm student identity, promote multilingualism through an additive mindset, and structure our work for integration of all voices.

We work towards our mission by delivering content-based instruction, supportive mainstream, Dual Language*, in-class support and facilitation, or a combination of these models approved by Washington's Transitional Bilingual Instructional Program to support English language learners. We also provide additional monitoring and support for proficient and recently exited students and eligible Native American students under Title III.

A student who meets the following two conditions is considered multilingual and can be eligible for the Transitional Bilingual Instructional Program:

» The primary language of the student is other than English. Washington State defines "primary language" as the language most often used by a student (not necessarily by parents, guardians, or others) for communication in the student's place of residence » The language that the student first learned is other than English

To learn more about our Dual Language programs, please see pages 166-174.

ENE100 ACADEMIC ENGLISH LANGUAGE DEVELOPMENT 1

Length/Credit: 1 semester or 1 year, 0.5 Elective credit to 1.0 Elective credit Prerequisite: Scores at Entering/ Emerging on WIDA assessment and less than 3 years in the United States Location: Highland, Odle, Chinook, Tyee, Tillicum

This course is designed to develop students' oral language abilities and basic literacy skills using English language development strategies and integrated project based learning. Tyee, Highland*

This course is designed to parallel the Honors 7th grade Language Arts with the scaffolding necessary for English Language Learners. An additional emphasis is placed on learning the structure of the English language as well as the forms of writing necessary for success in grade level Language Arts classes.

* 7th Grade students at Highland Middle School are taught by an English Language Arts teacher and supported by ELL teacher.

ENE301

ELL 8TH GRADE LANGUAGE ARTS

Length/Credit: 1 year **Prerequisite:** 8th grade ELL

Designation

Location: Highland, Odle, Chinook,

Tyee, Tillicum

This course is designed to parallel the Honors 8th grade Language Arts course with the scaffolding necessary for English Language Learners. An additional emphasis is placed on learning the structure of the English language as well as the forms of writing necessary for success in grade level Language Arts classes.

* 8th Grade students at Highland Middle School are taught by an English Language Arts teacher and supported by an ELL teacher.

English Language Arts at the high school continues to build critical thinking skills, knowledge and habits needed for college and career readiness. Through development of close reading skills using literary and nonfiction texts, students learn to analyze the relationship between author's purpose, stylistic devices, rhetorical appeals and effects intended for different audiences. Refinement of student writing and academic discussion is a focus with particular attention to selecting textual evidence and organizational patterns according to purpose and audience.

Bellevue School District requires a high school graduate to successfully complete 4.0 credits of English. These requirements are to be completed as follows:

- A. 1.0 credit of Honors Freshman Composition & Literature
- B. 1.0 credit of Honors Sophomore Composition & Literature
- C. 1.0 credit of American Literature & Composition, AP Language and Composition, IB Language and Literature HL1, IB Literature HL1
- D. 1.0 credit of Senior English,
 AP Language & Composition,
 AP Literature & Composition, or
 IB Language and Literature HL2,
 IB Literature HL2, Advanced
 Studies in English

FRESHMAN ENGLISH

GRADE 9 students must take one of these courses:

EN_401 HONORS FRESHMAN COMPOSITION & LITERATURE

Length/Credit: 1 year - 1.0 credit; **Location:** Bellevue, Big Picture, Interlake, Newport, Sammamish

In this course, high school freshmen will develop analytical reading, academic writing, critical thinking, and presentation skills. Course content includes short story, poetry, drama, and novels. Analytical reading instruction will extend understanding of literary elements and language. Writing instruction will extend to students' development in the three modes of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative. In addition, students will develop skills in critical thinking, effective discourse, collaboration, reflection, and CCSS Language standards.

EN_403 HONORS HUMANITIES 9/10 WORLD 1

Length/Credit: 1 year - 1.0 credit **Other info:** 9th and 10th graders study Humanities in a

two-year loop

Location: International

This course places emphasis on reading works from Africa and the Middle East, sometimes paired with western works. Specific literary devices are examined in works read with regard to author's purpose and utilized in writing tasks. Students will practice literary analysis, narrative, expository and argumentative writing and speaking. In addition, instruction will develop skills in critical thinking, effective discourse, collaboration, reflection, and standard English writing conventions. One Shakespeare play will be studied.

EN_400 FRESHMAN COMPOSITION & LITERATURE SEMINAR

Length/Credit: 1 Semester or 1 year 0.5 credit to 1.0 credit

Prerequisite: 9th grade standing

Location: Bellevue

This support class is designed to provide additional time for students to acquire and practice the skills needed to be successful in their 9th Grade Honors English class with additional instruction in reading, writing, and study skills. Course content and literature reinforces the Honors class.

SOPHOMORE ENGLISH

GRADE 10 students must take one of these courses:

EN_501 HONORS SOPHOMORE COMPOSITION & LITERATURE

Length/Credit: 1 year - 1.0 credit; **Location:** Bellevue, Big Picture, Interlake, Newport, Sammamish

In this course, high school sophomores will learn specific writing skills and demonstrate their academic writing competence through course assessments. Course content includes short story, poetry, drama, and novels. Students will engage in the writing process to produce increasingly sophisticated essays. Students will analyze literature, conduct research and synthesize meaning from historical, cultural and intellectual contexts while pursuing multiple themes. Analytical reading instruction will extend understanding of literary elements and language. Writing instruction will extend their development in the three modes of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative. In addition, students will develop skills in critical thinking, effective discourse, collaboration, reflection, and CCSS Language standards.

EN_404 HONORS HUMANITIES 9/10 WORLD 2

Length/Credit: 1 year - 1.0 credit **Other info:** 9th and 10th graders study Humanities in a two-year loop **Location:** International

This course places emphasis on reading works from Asia, sometimes paired with Western works. Specific literary devices are examined in works read with regard to author's purpose and utilized in writing tasks. Students will practice literary analysis, narrative, expository and argumentative writing and speaking. In addition, instruction will develop skills in critical thinking, effective discourse, collaboration, reflection, and writing conventions. One Shakespeare play will be studied.

EN_500 SOPHOMORE COMPOSITION & LITERATURE SEMINAR

Length/Credit: 1 Semester .05 credit **Prerequisite:** 10th grade standing

Location: Bellevue,

This support class is designed to provide additional time for students to acquire and practice the skills needed to be successful in their 10th Grade Honors English class with additional instruction in reading and writing skills. Course content and literature reinforces the Honors class.

JUNIOR ENGLISH

GRADE 11 students must take one of these courses:

EN_601 AMERICAN LITERATURE & COMPOSITION

Length/Credit: 1 year - 1.0 credit; **Location:** Bellevue, Big Picture, Newport, Sammamish

In this course, high school juniors will encounter the American literary heritage from its beginning to the present. They will become familiar with the traditions from different periods in literature while reading essays, poetry, short stories, and novels, historical speeches, essays, and other pieces of non-fiction written by foremost U. S. writers. Analytical reading instruction will extend understanding of literary elements and language. This course is open to all 12th graders. It fulfills the second year of IB Group1 requirements for students pursuing the IB Diploma or Certificate.

ENH804 ADVANCED STUDIES IN ENGLISH

Length/Credit: 1 year - 1.0

English credit

Prerequisites: Senior Standing and AP Literature & Composition, Senior English, or school team permission. Other info: 5 college credits for ENGL& 115: Film as Literature are available from Bellevue College.

Location: Bellevue, Sammamish, Newport

COLLEGE

Students will explore formal poetic styles, but the main goal will be for students to approach various topics and prompts creatively with an emphasis on finding their own voice and speaking their own truth. In prose students will explore short story writing, flash fiction, and create a short screen play. In addition, students will hone their abilities to "read" film. At least one film will be based on a novel that students will read before viewing the film. The analysis of film will be equally divided between the techniques of each film and "truths" that the film attempts to convey. Film choices will be from several decades but will favor more contemporary film, both in style and subject. Writing will accompany the analysis of film through reviews, critiques and analysis.

ENE400 ACADEMIC ENGLISH LANGUAGE DEVELOPMENT 1

Length/Credit: 1 semester or 1 year, 0.5 ELA/Elective credit to 1.0 ELA/ Elective credit

Prerequisite: Scores at Entering/ Emerging on WIDA assessment and less than 3 years in the United States

Location: Sammamish, Interlake, Newport, Bellevue

This course is designed to develop students' oral language abilities and basic literacy skills using English language development strategies and integrated project-based learning. Students develop oral and written competence in understanding and engaging in academic discourse.

The students develop a strong vocabulary base of nouns, verbs, and adjectives which will be used in speaking, listening, reading, and writing projects.

ENE500 ACADEMIC ENGLISH LANGUAGE DEVELOPMENT 2

Length/Credit: 1 semester or 1 year, 0.5 Elective credit to 1.0 Elective credit

Prerequisite: ENE400 and scores at Entering/Emerging on WIDA assessment

Location: Sammamish, Interlake, Newport, Bellevue

This course is designed to continue to develop students' oral language abilities and basic literacy skills using English language development strategies and integrated projectbased learning. Students develop and expand their oral and written competence in understanding and engaging in academic discourse. The students expand their vocabulary base of nouns, verbs, and adjectives which will be used in speaking, listening, reading, and writing projects.

ENE401 FRESHMAN COMPOSITION, LITERATURE & COMMUNICATION

Length/Credit: 1 year - 1.0 English credit

Prerequisite: ELL Designation and 9th grade standing

Location: Sammamish, Interlake, Newport, Bellevue

Freshman Composition, Literature and Communication transitions 9th grade ELL students into academic language skills required to understand literary elements and language. Grammatical structures and parts of speech are taught through writing activities based on reading fictional stories and non-fiction materials. The students become acquainted with basic literary elements common to the study of literature in English. Vocabulary development is emphasized in

order to help the students become successful with academic language. Writing instruction will explicitly cover the three types of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative.

ENE501 SOPHOMORE COMPOSITION, **LITERATURE & COMMUNICATION**

Length/Credit: 1 year - 1.0 English credit

Prerequisite: ELL Designation and 10th grade standing

Location: Sammamish, Interlake, Newport, Bellevue

Sophomore Composition, Literature and Communication emphasizes independent writing through the use of process writing activities. 10th grade ELL students learn to manipulate language and apply more complex grammatical structures to

create essays and projects. The course will explicitly cover the three types of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative. Readings include novels, poetry, and non-fiction materials in conjunction with writing

ENE601 AMERICAN COMPOSITION, LITERATURE & COMMUNICATION

projects and oral activities.

Length/Credit: 1 year - 1.0 English credit

Prerequisite: ELL Designation and 11th grade standing

Location: Sammamish, Interlake,

Newport, Bellevue

American Composition, Literature and Communication provides 11th grade ELL students with extensive study of American literature from the beginning of the United States through current day by reading essays, poetry, short stories, historical speeches, and novels. Interpreting literature, understanding historical

context, and applying critical-reading skills are emphasized. The writing activities are relevant to the assigned readings and will explicitly cover the three types of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative.

ENE602 SENIOR COMPOSITION, **LITERATURE & COMMUNICATION**

Length/Credit: 1 year - 1.0 English credit

Prerequisite: ELL Designation and

12th grade standing

Location: Sammamish, Interlake,

Newport, Bellevue

Senior Composition, Literature and Communication prepares 12th grade ELL students for reading, researching, and thinking in order to complete more complex academic writing tasks. Interpreting literature, understanding historical context, and applying critical-reading skills are emphasized and students will formulate their own academic arguments based on the reading material. The writing activities are relevant to the assigned readings and will explicitly cover the three types of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative.

WRITING ELECTIVES

EN 406 CREATIVE WRITING

Length/Credit: 1 semester - 0.5

Elective credit

Location: Bellevue, Newport, Sammamish, Interlake

Students write personal narratives based on their own experience and short fiction drawn from their imaginations. Characterization, point of view, description, dialogue, and other narrative techniques are practiced in addition to other writing

techniques appropriate to all other forms of writing. Opportunities may also be provided for writing poetry. Writing a term project is part of the course.

EN_405 READING FILM AS TEXT

Length/Credit: 1 semester - 0.5

Elective credit

Location: Bellevue, Sammamish

In this elective course, intended for juniors or seniors, students will be introduced to methods of analyzing and critically viewing popular featurelength films from a variety of time periods. Films will be discussed using not only the language of literary analysis/criticism, but also language specific to the art of filmmaking. After studying the basic history of film in the United States, the course content is organized into six units: Plot and Sequencing, Acting and Character, Scriptwriting, Setting and Props, Camerawork, and Sound and Light. Students will write both analytically and creatively in response to what they learn.

JOURNALISM AND PUBLICATIONS

EN_410 JOURNALISM/NEWSPAPER PRODUCTION

Length/Credit: 1 semester - 0.5 credit; (BHS and NHS: 1 year - 1.0 credit). May be repeated.

Prerequisite: Bellevue, Newport:

Permission of instructor

Other info: Elective credit only. Does not fulfill English requirement. **Location:** Bellevue, Newport,

Sammamish

This class produces the school newspaper.

EN_604 YEARBOOK

Length/Credit: 1 year - 1.0 Elective credit. May be repeated. (SHS: 1 semester - 0.5 credit)

Prerequisite: 11th or 12th grade

standing or permission of instructor. Journalistic Writing is suggested.

Application required.

Other info: Elective credit only. Does not fulfill English requirement. **Location:** Bellevue, Newport,

Sammamish

Students study the various forms of yearbook layout, design, and copywriting. Students are expected to work on the yearbook staff for both semesters.

SPEECH COMMUNICATIONS

EN_413 SPEECH COMMUNICATION

Length/Credit: 1 semester - 0.5 Elective credit

Location: Bellevue

Students develop knowledge and skills in public speaking, group processing, listening, interviews, conflict resolution, mass media analysis, extemporaneous and impromptu public speaking, and classroom presentations. Skills of outlining, researching, critical thinking, and audience analysis are stressed. Students participate in numerous class speaking activities.

EN_420 SPEECH & DEBATE

Length/Credit: 1 semester - 0.5 Elective credit May be repeated.

Location: Sammamish

Students will learn argumentation and public speaking skills to participate in different styles of debate and speaking. Students will participate in philosophical and topical debates in different formats including single debate and partner debate, as well as Student Congress and Mock Trial.

Opportunities in a number of different speaking styles and interpretive reading presentations will be provided.

READING

RE_400 LITERACY LAB

Length/Credit: 1 semester to 1 year depending on student growth

Other info: This class will be assigned to students who did not demonstrate proficiency on the most recent state ELA assessment or by teacher assessment and/or recommendation.

Location: Interlake, Sammamish

The course aims to improve students' reading comprehension through explicit strategy instruction utilizing short, high-interest texts, extensive independent reading and explicit writing instruction. Students apply reading and writing strategies they have learned to content area texts and writing assignments.

Middle & High School Health

HEALTH

One semester of Health is required, in 7th grade, in Middle school.

HE 201 **HEALTH**

Length/Credit: 1 semester **Prerequisite:** 7th grade standing Location: Chinook, Highland, Odle, Tillicum, Tyee

This course focuses on gaining current knowledge about selected health topics. Communication, decision making, goal setting, and negotiation skills will be taught in this course. Disease prevention and awareness of societal influences will be integrated throughout the course.

This course includes the following topics:

- » CPR: earn an Emergency Medical Services CPR/AED card. **Includes First Aid Training**
- » Drugs: physiological and psychological effects of alcohol, prescription drugs, marijuana, and tobacco, and vaping; chemical use, abuse, dependency and refusal skills
- » Family Life and Sexual Health: abstinence, adolescence, anatomy and physiology, birth control, healthy relationships, puberty, sexual harassment, sexually transmitted diseases, and HIV/AIDS education
- » Mental Health: self-esteem, understanding emotions, positive body image, building healthy relationships, stress awareness, dealing with depression and suicide, and understanding eating disorders
- » Nutrition: USDA My Plate, food groups, basic nutrients, eating a balanced diet, explore fast food restaurant food, and snacks

One semester of Health is required, in grade 10, for graduation from high school.

HE 501 **HEALTH**

Length/Credit: 1 semester - 0.5 credit Prerequisite: 10th grade standing **Other info:** Meets Health graduation

requirement

Location: Bellevue, Interlake, Newport, Sammamish, Big Picture

This course focuses on gaining current knowledge about selected health topics that impact the individual and the community. Contents integrated with research from the University of Washington's Center for Ecogenetics and Environmental Health to teach students how genetics, choices and the environment impact their health. The course provides students the opportunity to integrate this core concept into the following health

- » Addiction: scientific information about the disease of addiction, neurobiology of the brain, health consequences, prevention, treatment and recovery, and societal influences and impacts, and exploration of signs and symptoms of a variety of addictions such as drugs, gaming, technology and gambling
- » Family Life and Sexual Health: abstinence, anatomy and physiology, birth control, communicable and noncommunicable diseases, domestic violence, gender orientation, gender roles, healthy relationships, parenting, pregnancy, sexual assault, sexual harassment and consent.
- » Mental Health: self-esteem, understanding and coping with emotions, anger management, stress management, depression, suicide and grief and loss.

» Consumerism: Nutrition concepts, in-depth analysis of consumer products and origins, health risks associated with consumerism and environmental hazards, and a focus on skills to empower students to make thoughtful behavioral choices for personal and occupational health.

By the conclusion of the course, students will have the opportunity to demonstrate the following skills: Goal setting, coping with stress, communicating, and decision making. Design a plan to enhance personal h ealth, analyze factors impacting health behaviors, and enhancing communication, goal setting and decision making skills to improve health. Disease prevention, media awareness Social networking and media awareness and accessing community valid and reliable resources will be integrated throughout the course.

HE 601 **ASPEN AND GLOBAL HEALTH**

COLLEGE CREDIT

Length/Credit: 1 semester- 1.0 **Elective Credit**

Prerequisite: Successful completion of BSD high school health course and application. The application process includes written application, interview, and teaching a five minute lesson.

Other info: 5 college credits for Global Health 101 are available from **University of Washington**

Location: Newport

AIDS Peer Education at Newport is an advanced health class is an advanced Health class. As part of UW in the classroom for Introductory to Global Health: Disparities, Determinants, Policies, and Outcomes, this course will introduce students to the principles of public and global health and discuss strategies and techniques that will improve the health of individuals where they work, live and play. Topics include the burden and distribution of disease and mortality, the determinants of global health

Middle & High School Health

disparities, the making of global health policies and the outcomes of global health interventions. The second quarter and following semester the students act as peer educators to deliver two-day HIV/ AIDS lessons to 9th, 10th, 11th, and 12th graders at Newport High and to 10th graders at district high schools.

distress tolerance, improve focus, and help reduce stress and anxiety. Students enrolled in the course will explore various types of meditation, mindful practice, self-reflection, self-compassion, and opportunities for personal growth in a safe place with time to put these practices into place.

HE_602 ADVANCED ASPEN

Length/Credit: 1 semester - 0.5

Elective credit

Prerequisite: Successful completion of required high school health course and ASPEN application and interview, current or former membership on the ASPEN Team, and teacher permission

Location: Newport

Students will be provided with daily experiences in the preparation of classroom materials and the creation of visual displays to be used by ASPEN educators. Organization, prioritizing and editing skills will be taught and practiced. The ASPEN teaching assistant will work as a peer teacher helping prepare other ASPEN educators deliver eight hours of HIV/AIDS curriculum. They will also teach a minimum of eight hours, demonstrating mastery of the science of HIV, reproductive physiology, human sexual response, twenty birth control methods, and eighteen sexually transmitted diseases. This course is intended for students interested in teaching, tutoring or careers in health fields.

HE_610

EXPLORING MINDFULNESS

Length/Credit: .5 Elective credit **Other info:** This course is for elective credit only and is not for HS Health credit

Location: Newport

This course will offer students an opportunity to build skills and practices to support mental wellbeing, emotional regulation, resiliency/

Middle School Physical Education

The goal of the Middle school Physical Education program is to provide students with opportunities to acquire the knowledge and skills necessary to become a physically educated person. Students will learn to appreciate and understand the value of Physical Education and its relationship to a healthy, active lifestyle. Students will participate in a variety of fitness activities in order to improve their personal level of fitness. In Physical Education students will also develop the skills and knowledge necessary to participate successfully in lifetime activities, team and individual sports. All courses will emphasize the importance of safety, cooperation, and sportsmanship.

PE_101 PHYSICAL EDUCATION GRADE 6

Length/Credit: 1 semester **Location:** Chinook, Highland, Odle, Tillicum, Tyee

Students in grade six will combine fundamental skills into more complex movement forms in modified game, rhythmic activities, and recreational activities. The goal of this class is for students to improve their fitness and further develop fundamental sports skills to allow them to successfully participate in various games and activities. Fitness Technology will also be incorporated. Highlights of the course include:

- » Fitness Development: Fitness assessment and goal setting.
- » Skill Development: Instruction in a wide range of skills and movement patterns.
- » Fitness & Health Education: Exercise anatomy, heart rate, components of fitness, nutrition, and HIV/AIDS.
- » Social Skill Development: Cooperation, teamwork, sportsmanship, and confidence building.

Units may include: Fitness, Badminton Introduction, Basketball Introduction, Volleyball Introduction, Balance & Hand-Eye Coordination, Soccer, Disc Sports, Jump Rope, Low Organized Games, and HIV/ AIDS.

PE_201 PHYSICAL EDUCATION GRADE 7

Length/Credit: 1 semester **Location:** Chinook, Highland, Odle, Tillicum, Tyee

In grade seven, students continue to develop competence in modified versions of various games, rhythmic, recreational activities. They can apply similar concepts from one sport or movement setting to another. Students continue to develop responsible personal and social behaviors by demonstrating decision-making skills, conflict-resolution skills, appropriate etiquette, and respect for others. Fitness Technology may be incorporated. Highlights of the course include:

» Fitness Development: Fitness assessment, goal setting, targeted and developmentally appropriate training activities.

Middle School Physical Education

- » Skill Development: Instruction in a wide range of activities, sports skills, and movement patterns.
- » Fitness & Health Education: Exercise anatomy, heart rate, components of fitness, and nutrition.
- » Social Skill Development: Cooperation, teamwork, sportsmanship, problem solving, conflict resolution, and confidence building.
- » Units may include: Fitness, Intermediate Badminton, Intermediate Basketball, Intermediate Volleyball, Bat/Ball/Glove, Track & Field, Jump Rope, and Rugby.

PE_301 PHYSICAL EDUCATION – GRADE 8

Length/Credit: 1 semester **Location:** Chinook, Highland, Odle, Tillicum, Tyee

In grade eight, students demonstrate competence in skillful movement in modified game situations and a variety of rhythmic and recreational activities. They transition from modified versions of movement forms to more complex applications across all types of activities. Students set goals, track progress, and participate in activities to improve health-related fitness. Fitness technology may be included. Highlights will include:

- » Fitness Development: Fitness assessment, goal setting, targeted and developmentally appropriate training activities.
- » Skill Development: Instruction in a wide range of activities, sports skills, and movement patterns.
- » Fitness & Health Education: Exercise anatomy, heart rate, components of fitness, nutrition, HIV/AIDS, and personal fitness planning.

» Social Skill Development: Cooperation, teamwork, sportsman-

Cooperation, teamwork, sportsmanship, problem solving, conflict resolution, game creation, and confidence building.

Units may include: Fitness, Pickle ball, Tennis, Flag Football, Dance, Advanced Volleyball, Track & Field, Lacrosse, and HIV/AIDS.

PE_102 PHYSICAL EDUCATION 6TH/7TH ELECTIVE

Length/Credit: 1 semester **Prerequisite:** None

Location: Chinook, Highland, Odle, Tillicum, Tyee

Students in 6th and 7th grade elective will participate in a variety of individual and team sports and fitness activities as an extension of the core requirements. This class will focus on continuing to develop the basic skills acquired in the core physical education classes. Students will gain an understanding of how each activity can be used to improve and maintain health and wellness. Units vary depending on school and facility availability. Units may include: team and individual sports, fitness activities, and low organized games.

PE_202 PHYSICAL EDUCATION – 7TH/8TH ELECTIVE

Length/Credit: 1 semester

Prerequisite: None

Other info: A 6th grader may enroll in this course on approval of the instructor

Location: Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

Students in 7th and 8th grade elective will participate in a variety of individual and team sports and fitness activities as an extension of the core requirements. This class will focus on continuing to develop more advanced skills acquired in the core physical education classes.

Students will gain an understanding of how each activity can be used to improve and maintain health and wellness. Fitness Development: Fitness assessment, goal setting, targeted and developmentally appropriate training activities. Skill Development: Instruction in a wide range of activities, sports skills, and intermediate and advanced movement patterns and game strategy. Fitness & Health Education: Lifelong health and wellness skills and components of fitness. Social Skill Development: Cooperation, teamwork, sportsmanship, and confidence building. Units may vary depending on school, teacher, and equipment availability.

PE_105 YOGA AND GAMES ELECTIVE

Length/Credit: 1 semester **Prerequisite:** This does not replace core PE for each grade level. This elective is open to all students; 6th, 7th and 8th grade

Location: Odle, Tillicum, Highland, Chinook

Students will have the opportunity to experience the many benefits of Yoga, which include flexibility, improved circulation of blood, increased stamina, and strength. Yoga can lead to better overall physiological functioning throughout the body. The practice of Yoga can help a student become more mentally and emotionally centered.

Along with the Yoga Practice will be a variety of low organized games and functional movement activities with the emphasis on being playful and enjoying fitness. There is more to exercise than sets, reps and mileage. Playful movements tend to promote balance, coordination, useful strength, speed and skill.

Middle School Physical Education

PE_302 STRENGTH AND FITNESS

Length/Credit: 1 semester

Prerequisite: 2 semesters of Core PE **Location:** Chinook, Highland, Tillicum,

Tyee

This class is designed for students interested in improving their physical fitness through resistance training and aerobic conditioning. This course will emphasize improvement in balance, muscular endurance, and strength. Training and workouts will have a positive influence on cardiorespiratory endurance, body composition, and motor performance. Highlights of the course include:

- » Fitness Development: Fitness assessment, goal setting, targeted and developmentally appropriate training activities.
- » Skill Development: Focus on proper training techniques, training principles, and injury prevention.
- » Fitness & Health Education: Exercise anatomy, heart rate, components of fitness, nutrition, and the science of muscular development.
- » Social Skill Development: Cooperation, teamwork, encouragement, and confidence building.

Units may vary depending on school, teacher, and equipment availability.

PE_103 PHYSICAL EDUCATION/HEALTH

Length/Credit: 1 year **Other info:** Combines Physical Education and Health in a three-year program for 6th, 7th and 8th grade students, multi-graded

Location: International

At International School students take a combined class of Physical Education and Health during each year of Middle school in 7th and 8th grade. There will be two units of health per year. The physical education program concentrates on sportsmanship,

teamwork, fundamental skills and fitness. Team sport concepts are introduced and developed. As students advance their skills, they continue to be challenged by strategies and complex play. Students will understand individual fitness levels and will obtain the skills to selfanalyze through practical applications as well as fitness testing and written assessments. A variety of world sport activities and dance will be integrated into the program to correspond with the International Studies curriculum. The Health portion of the class will focus on gaining current knowledge about selected health topics. Communication, decision making, goal setting, and negotiation skills will be taught in this course. Disease prevention and media awareness will be integrated throughout the course.

The following topics will be taught in the Health portion:

- » CPR: earn an Emergency Medical Services certification
- » Drugs: physiological and psychological effects of alcohol, marijuana and tobacco on the body; chemical dependency, and refusal skills
- » Family Life and Sexual Health: abstinence, adolescence, anatomy and physiology, birth control, healthy relationships, puberty, sexual harassment, sexually transmitted diseases and HIV/AIDS Education
- » Mental Health: self-esteem, understanding emotions, positive body image, building healthy relationships, stress awareness, dealing with depressions and suicide, and understanding eating disorders
- » Nutrition: USDA My Plate, food groups, basic nutrients, eating a balanced diet, explore fast food restaurant food, and snacks

HE_102

Other info: Required for all 7th Grade

students at Big Picture

HE_302 PHYSICAL EDUCATION AND HEALTH 3

Length/Credit: 1 Semester

Other info: Required for all 8th Grade

students at Big Picture **Location:** Big Picture

These courses integrate health and fitness over the span of three year, totaling one semester of Health and three semesters of PE. The goal of this class is for students to improve their fitness and further develop fundamental sports skills to allow them to successfully participate in many games and activities. Students will participate regularly in fitness activities designed to help them improve their fitness levels and fitness scores. During this course state mandated HIV/AIDS education is taught. The program includes both team and individual activities. Students will learn safety procedures for all activities and be given the opportunity to practice cooperation, sportsmanship and teamwork skills.

The health component of the course focuses on gaining current knowledge about selected health topics.
Communication, decision making, goal setting, and negotiation skills will be taught in this course. Disease prevention and media awareness will be integrated throughout the course. This course includes the following topics: CPR, Drugs, Family Life and Sexual Health, Mental Health, and Nutrition.

The goal of the high school Physical Education program is to provide students with a foundation of knowledge and skills to lead a healthy, active lifestyle. Students will learn how to access reliable health and fitness information and services, set goals, and participate in community-based opportunities that enhance wellness.

In Physical Education students have the opportunity to improve and refine motor skills and movement patterns, and apply concepts, principles and strategies to a variety of individual and team activities and sports.

Knowledge and application of the components of fitness are integral parts of each course. The relationship between the components of fitness and the individual sport/activity will be explored. The components of fitness are: cardio-respiratory endurance, flexibility, body composition, muscular endurance and muscular strength.

All courses will emphasize the importance of personal responsibility, safety, cooperation and sportsmanship.

Successful completion of Foundations of Fitness and Sports and one Physical Education electives fulfills the high school graduation requirement.

REQUIRED PROGRAM

PE_401 FOUNDATIONS OF FITNESS AND SPORT

Length/Credit: 1 year - 1.0 credit **Location:** Bellevue, Big Picture, Interlake, Newport, Sammamish, International

The goal of this course is to provide students with a comprehensive, relevant, medically-accurate and inclusive fitness and sport education for a lifetime personal fitness. Students will learn about the process of becoming fit as well as achieving some degree of fitness within the class. Curriculum includes information on the Health-related components of fitness, knowledge and skills of being physically active, eating nutritionally for optimal fitness and health, seeking reliable health-related information and services, effective communication and social development skills, and goal setting. Students are expected to improve their skill and knowledge of movement and sport, analyze personal health and fitness levels, display positive self-management and social skills in a variety of activities

High School Physical Education

PE_403 HIGH SCHOOL PHYSICAL EDUCATION/ HEALTH

Length/Credit: 1 year - 1.0 credit, repeated each year

Location: International

Physical Education is one of the seven core subjects at the International School. All high school students are expected to take 4 years of Physical Education. Students will be exposed to numerous team sports, international activities and lifelong skills with an overall focus on a running/cardio program. The use of heart rate monitors may be included to personalize Individual assessment. High school activities will include lifetime activities and skill building sports such as strength training, self- defense, yoga, golf, archery, field hockey, bocce ball and tchouckball. Health will also be offered either 9th or 10th grade year. See course offering HE_501, High School Health, for course description.

PHYSICAL EDUCATION ELECTIVES

PE_404 TERRITORY SPORTS ELECTIVE

Length/Credit: 1 semester -

0.5 credit

Prerequisite: Foundations of Fitness and Sport

and Sport

Other info: Meets the combination sports class recommendation

Location: Newport

Formally known as Team Sports, Territory Sports expands the depth of skills and knowledge of team sports by focusing on offensive and defensive tactics necessary for invading an opponent's territory while scoring points. Curriculum incorporates concepts of strategies, tactics and patterns of play that enhance a student's problem solving skills and performance while providing instruction on advanced skills for game situations and play. Conditioning is also incorporated, which may include the use of heart rate monitors. Sports that may be included are: basketball, flag football, floor hockey, lacrosse, soccer, rugby, Ultimate, team handball and speedball. A minimum of four team sports will be offered.

PE_405 RECREATIONAL MULTIPLE SPORTS

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness

and Sport

Location: Bellevue, Newport,

Interlake

This course is designed for students to refine and improve the activity-specific movement skills and knowledge necessary to participate successfully in a variety of individual and team sports at the recreational level. Students are expected to learn the skills and strategies and demonstrate necessary to demonstrate them in game situations. SMART goal setting will be applied to set individual movement performance/concepts and healthrelated fitness goals. Conditioning is also incorporated, which may include the use of heart rate monitors. Sports that may be included are: basketball, flag football, floor hockey, lacrosse, soccer, softball, Ultimate Frisbee, team handball, speedball, tennis, pickleball, badminton, table tennis, volleyball and squash. Please check with your PE staff for more details.

PE_505 COMPETITIVE MULTIPLE SPORTS ELECTIVE

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness

and Sport **Location:** Bellevue, Newport,

Sammamish

This course is designed for students with a competitive motivation to continue to refine and improve the

activity-specific skills and knowledge necessary to participate in a variety of team and individual sports at a competitive level. Students may learn more advanced techniques, participate and organize competitive tourna ments, learn about various roles in the professional world of sports, and learn how to coach and/ or referee. Conditioning and sport specific training principles are also incorporated, which may include the use of heart rate monitors. SMART goal setting will be applied to set individual movement performance/ concepts and health-related fitness goals. Sports that may be included are: basketball, flag football, floor hockey, lacrosse, soccer, softball, Ultimate Frisbee, team handball, speedball, tennis, pickleball, badminton, table tennis, volleyball and squash. Please check with your PE staff for more details.

PE_406 WEIGHT TRAINING AND CONDITIONING FOR FITNESS

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness and Sport

Location: Bellevue, Interlake, Newport, Sammamish

This course is designed for students interested in improving their physical fitness through strength training methods. The course will concentrate on the basic skills of strength training in a safety-first environment. Students will learn the physiology of muscle development and anatomy of the body associated with specific exercises. Conditioning activities are included on a regular basis to increase students' cardio respiratory endurance. Students will assess their current fitness level, develop a SMART goal-oriented fitness program and chart their fitness progress. Students are expected to improve their level of fitness through participation in strength training and conditioning exercises.

High School Physical Education

PE_407 PERSONAL FITNESS

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness and Sport

Location: Bellevue, Big Picture, Interlake, Newport, Sammamish

This course is designed for all students interested in improving their overall personal fitness. Students will participate in cardio respiratory endurance, flexibility and muscular strength and endurance activities. Health-related Components of Fitness, the benefits of exercise, and the skills related to each activity will be the focus of this course. Students will explore the relationship between exercise and personal wellness. Activities may include: power walking, jogging, rope jumping, weight training, step aerobics, yoga, and circuit training. The use of heart rate monitors to analyze fitness levels may be included. Students will assess their current fitness level, identify areas for improvement and set SMART goals for health-related fitness achievement.

PE_408 NET AND WALL SPORTS ELECTIVE

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness and Sport

Location: Bellevue, Interlake, Newport, Sammamish

Formally known as Racquet Sports, this course is designed for students to continue to develop and improve the skills and knowledge necessary to participate success- fully in a variety of wall and/or net sports. Participation will result in a better understanding of activities for life-long fitness. Students are expected to learn more advanced skills and strategies and demonstrate them in game situations. Sports that may be included are: tennis, pickleball, badminton, table tennis, volleyball, sepak takraw and

squash. Please check with your PE staff for more details.

PE_409 COMPETITIVE BASKETBALL

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness and Sport

Location: Bellevue, Interlake, Newport

This course will provide an indepth learning experience for the game of basketball. The focus will be on individual and team play, conditioning and game management. Students will participate on several different teams during the semester with each team creating their own playbooks both offensively and defensively. Within this format, students will learn the proper application of rules, conditioning and team strategies from the perspective of a player, coach and referee.

PE_410 WALKING FOR FITNESS

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness and Sport

Location: Bellevue, Big Picture, Newport, Sammamish, Interlake

This course is designed for students interested in improving their personal level of fitness through walking. Students will learn how walking can improve cardio-respiratory fitness, prevent disease, and reduce stress. They will also learn about the relationship between daily sleep and nutritional habits, exercise and physical and emotional performance. Students will assess their current fitness levels, create a plan for increasing their fitness, participate in goal setting and reassess fitness levels several times throughout the course. Flexibility and muscular fitness components such as yoga or Pilates may be included.

PE_412 YOGA FOR FITNESS

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** Foundations of Fitness and Sport

Location: Newport, Sammamish, Interlake, Bellevue

This course is designed for all students interested in improving their personal fitness through yoga and core strength activities in a non-competitive environment. Students will learn how yoga can improve flexibility, muscular strength, muscular endurance and cardiovascular health. Students will explore the relationship between exercise and personal wellness. Activities may include: yoga, core, walking, aerobics, pilates, mindful practices, and dance. The use of heart rate monitors to analyze fitness levels may be included. Students will assess their current fitness level, identify areas for improvement and set goals for achievement through fitness planning and create and teach a yoga sequence.

PE_502 SPORT FOR PHYSICAL EDUCATION CREDIT

Length/Credit: 1 semester **Prerequisite:** Completion of Foundations of Fitness and Sport, 10th, 11th, or 12th grade standing **Location:** Bellevue, Big Picture, Interlake, Newport, Sammamish

According to School Board Policy 2410 students may earn 0.5 Physical Education credit by participating in one season of WIAA- approved junior varsity and/or varsity level team sports, district approved and offered clubs sports, cheerleading and/or drill team during their 10th, 11th, or 12th grade year. Students must complete the Procedure 2410 Exhibit "Request for Directed Athletics Credit for Involvement in WIAA and Non-WIAA Approved Club Sports" form and pass the PE Sport for Credit Assessment

High School Physical Education

with an 65% or higher. All forms and exams must be completed within the same academic year of participation.

DA_401 INTRODUCTION TO DANCE

Length/Credit: 1 semester - 0.5 PE (or Fine Arts based upon instructor certification)

Prerequisite: Foundations of Fitness

and Sport

Location: Sammamish, Bellevue

Introduction to Dance is a class geared toward anyone who is interested in learning how to express themselves through movement. The course will teach the basics of many different styles of dance including Jazz, Ballet, Modern, Hip Hop and Social (Swing, Waltz etc.), as well as choreography. The historical background of these forms will also be discussed as well as how the forms all relate to one another. Your final project will involve choreographing a dance with your peers and presenting during an informal studio show. Dancers will focus on improving core, arm, and leg strength, coordination, expression, and confidence.

DA_501 DANCE PERFORMANCE

Length/Credit: 1 semester - 0.5 PE (or 0.5 Art credit based upon Instructor certification)

Other info: May be repeated for

credit

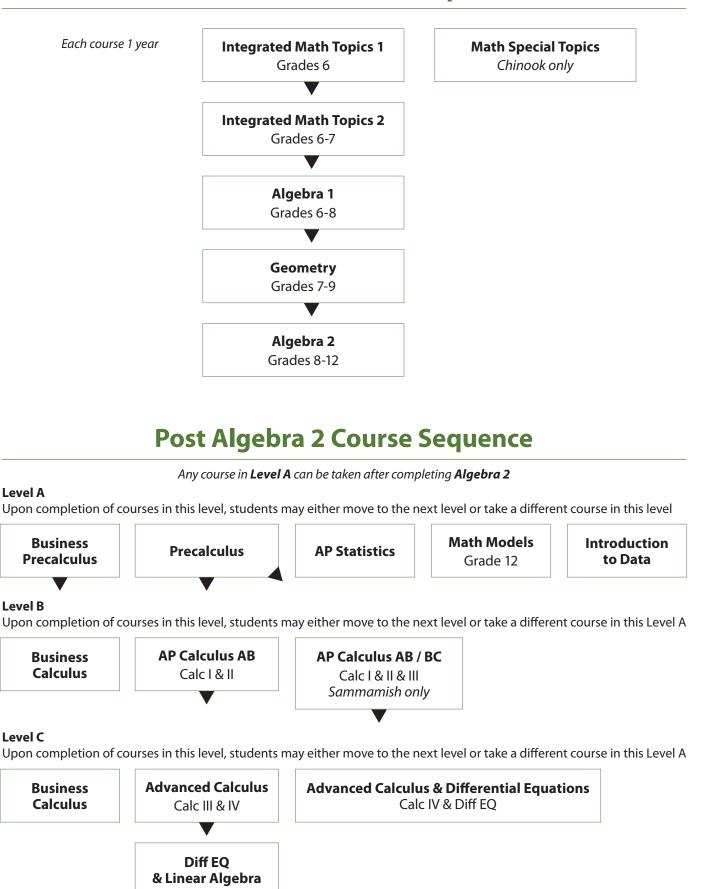

Prerequisite: Foundations of Fitness and Intro to Dance at the High School or Dance Performance at the Middle School or Instructor permission

Location: Sammamish

In this course students will learn combinations to improve their strength and body awareness, at the same time focusing greater attention toward accuracy and timing of each step. Group and self- assessment is a cornerstone of this dance class.

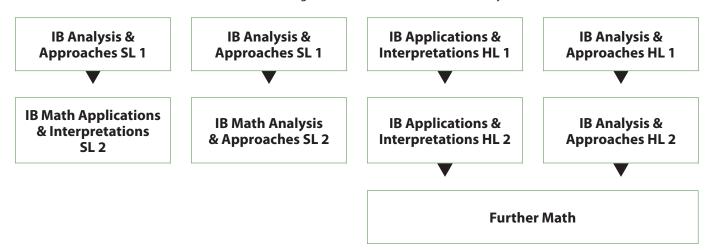

All students will choreograph their own dance with their peers while using specific choreographic elements that will be taught throughout the semester. Informal studio shows will feature student and instructor choreography.

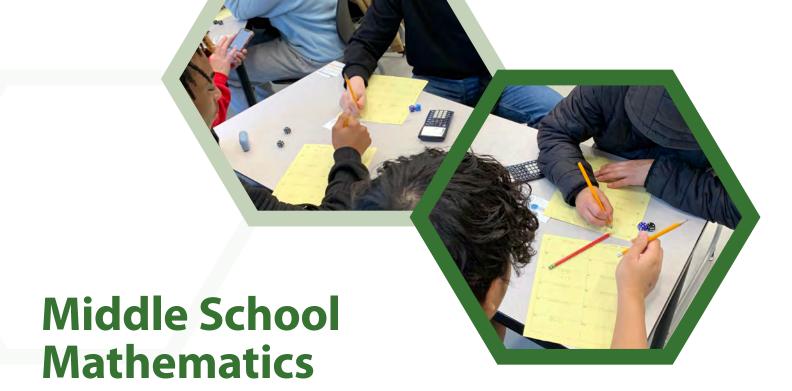

Mathematics Course Sequence

Interlake HS IB Math Sequence

For students who began **IB Math** in the 2019-2020 school year

Bellevue School District works to ensure that all students have opportunities to learn and thrive as creators of their future world. Middle school mathematics courses are intentionally designed to build a unique learning experience for Bellevue School District students that you will not find anywhere else.

Our middle school mathematics courses allow all students the opportunity to accelerate and advance their learning in mathematics by building a solid mathematical foundation in Integrated Math Topics 1 and 2 so all students can take Algebra 1 in 8th grade.

We believe that learning mathematics is more than just algorithms and formulas. Our teachers work diligently to help build confidence and a positive self-efficacy in mathematics by supporting a growth mindset, pushing students to be able to justify and explain their reasoning, and make sense of problems and persevere in solving them. We push students to engage in productive struggle and develop skills that translate to more than just getting a solution.

COURSE SEQUENCE AND PREREQUISITES

Mathematics courses in the Bellevue School District are connected.
Each course in the sequence builds upon skills, concepts, knowledge, and attitudes developed in the prerequisite course. Prerequisites must be satisfied prior to the starting date of the course. Students who want to further accelerate their math sequence in an effort to access higher levels of math prior to graduation have the following options:

- » Geometry and Algebra 2 may be taken concurrently in high school (this option is not available in middle school).
- » For Algebra 1 and beyond, students may complete a prerequisite course at an accredited school or online program approved with prior approval before the start date of the course.

Middle School Mathematics

MA_101 INTEGRATED MATH TOPICS 1

Length: 1 year

Prerequisite: 5th grade Math **Location:** Big Picture, Chinook, Highland, International, Odle, Tillicum, Tyee

This course addresses the Common Core State Standards for Mathematics by developing students' abilities to problem solve, reason, and communicate like mathematicians through the Standards for Mathematical Practice and focusing deeply on the Grade 6 and selected Grade 7 Standards for Mathematical Content.

In IMT 1, student learning should focus on students conceptual understanding and fluency in adding, subtracting, multiplying and dividing fractions and decimal numbers; connecting ratios and unit rates to proportional relationships; writing, interpreting and using expressions and equations and inequalities; and developing their understanding of one-variable statistics.

MA_201 INTEGRATED MATH TOPICS 2

Length/Credit: 1 year

Prerequisite: Integrated Math

Topics 1

Location: Big Picture, Chinook, Highland, International, Odle, Tillicum, Tyee

This course addresses the Common Core State Standards for Mathematics by developing students' abilities to problem solve, reason, and communicate like mathematicians through the Standards for Mathematical Practice and focusing deeply on the Grade 7 and selected Grade 8 Standards for Mathematical Content.

In IMT 2, student learning should focus on students solidifying their understanding of proportional relationships and proportional thinking and extending this to linear relationships; developing and formalizing their understanding of operations with rational numbers; conceptually and algebraically understand how to solve linear equations and evaluate linear expressions; develop and refine geometric thinking when working with a variety of 2- and 3-dimensional shapes and constructs; extend their understanding of proportional thinking to probability; develop rules for laws of exponents and generalize, verify and apply the Pythagorean Theorem.

MA_400 ALGEBRA 1

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Integrated Math

Topics 2

Other info: Students will receive high school credit for this class

Location: Big Picture, Chinook, Highland, International, Odle, Tillicum,

Tyee

This course is a first-year algebra course that covers the content of the Common Core State Standards for Mathematics and prepares students for Geometry and Algebra 2 courses in high school. This course builds on the big ideas of ratios, proportionality, number sense, expressions and linear equations developed in IMT 1 and IMT 2. Highlights of this course include: Operations with Integers, Rational and Irrational Numbers; Evaluating Expressions (Linear, Exponential and Quadratic); Function Notation and Functions of Linear, Exponential and Quadratic Relationships; Solve Systems of Equations and Inequalities; Statistics and Use of Trend Lines and Mathematical Models.

MA_401 GEOMETRY

Length/Credit: 1 year - 1.0 credit

Prerequisite: Algebra 1

Other info: Students may request high school credit for this class Location: Big Picture, Chinook, Highland, International, Odle, Tillicum,

Tyee, Sammamish

This course covers the content of the Common Core State Standards for Mathematics. Highlights of the course include Statistics and Probability, Geometric Figures and Proof, Transformational Geometry, Similarity, and Right Triangle Trigonometry.

MA_306 MATH SPECIAL TOPICS 1

Length:1 Semester **Prerequisite:** None **Location:** Chinook

Students will explore math topics of special interest such as math modelling, patterns, logic, number systems, and additional topics driven by student interest. Students will select their own projects as related to unit topics.

MA_105 MATH LAB 1

MA_205 MATH LAB 2

MA_305 MATH LAB 3

Length/Credit: Varies by school **Prerequisite:** Concurrent enrollment

in Math

Location: Tillicum

Math Lab is designed to be a second math class where students to receive additional support in mathematics. Teachers provide skill-building, re-teaching and enrichment for students. Topics covered in the class will vary depending on the needs of the students.

Middle School Mathematics

SU_101 READING/MATH SEMINAR

Length/Credit: 1 year **Prerequisite:** Teacher recommendation

Location: The 6th grade Seminar Class is designed to support the transition to middle school. Students enrolled in this course will receive support and enrichment in mathematics, reading, and study skills. This course assists students to develop the skills necessary to access the rigorous Middle school curriculum, including, but not limited to: binder organization, planner use, grade monitoring, self-advocacy, and peer study strategies. Math topics covered in the class will vary based upon student needs but will primarily focus on problem solving skills, group work skills, number computation, fractions, decimals, and basic pre-algebra. Reading topics will again vary based upon student needs but will focus on efficient fiction and non-fiction

reading strategies, critical thinking

MA_106
MATH SEMINAR

Length/Credit: 1 year **Prerequisite:** Teacher recommendation **Location:** Highland

skills, and analyzing and summarizing text.

Math Seminar is a multiage class designed to be a second math class for students who demonstrate a need. Teachers will enrich student understanding through skill-building, pre-teaching, and re-teaching.

MA_501 ALGEBRA 2

Length:1 year – 1.0 credit **Prerequisite:** Geometry

Other info: Not all schools have capacity to offer this course. Students may need to attend this course at a

local high school.

Location: Big Picture, Highland, International, Odle, Tillicum, Tyee

This course is a second-year algebra course that covers the content of the Common Core State Standards for Mathematics and prepares students for the required state testing. This course builds off topics developed in Algebra 1 and Geometry. Highlights of the course include: Properties of Functions, Quadratics, Exponential and Logarithmic Functions, Rational Expressions and Equations, Polynomials, and Trigonometry.

Bellevue School District works to ensure that all students have opportunities to learn and thrive as creators of their future world. High school mathematics courses are intentionally designed to provide a flexible learning experience for Bellevue School District students that you will not find anywhere else.

Our high school mathematics courses allow all students the opportunity to accelerate and advance their learning in mathematics by building on a solid mathematical foundation in Algebra 1. Bellevue School District follows the Common Core Accelerated pathway and as a result, all students take Algebra 1 in 8th grade I order to be able to complete Calculus by 12th grade. Students entering high school without the successful completion of Algebra 1, will be enrolled in an Algebra 1 course. Students may elect to earn college credit for math courses beyond Algebra 2 by enrolling concurrently in Bellevue College's College in the High School program.

Three years of high school mathematics credits are required in order for student to graduate from the Bellevue School District. However, all students are encouraged to take math each year of high school and to complete at least Precalculus before graduating.

COURSE SEQUENCE AND PREREQUISITES

Mathematics courses in the Bellevue School District are connected.
Each course in the sequence builds upon skills, concepts, knowledge, and attitudes developed in the prerequisite course. Prerequisites must be satisfied prior to the starting date of the course. Students who want to further accelerate their math sequence in an effort to access higher levels of math prior to graduation have the following options:

- » Geometry and Algebra 2 may be taken concurrently in high school (this option is not available in middle school).
- » For Algebra 1 and beyond, students may complete a prerequisite course at an accredited school or online program approved with prior approval before the start date of the course.

MA_400 ALGEBRA 1

Length: 1 year – 1.0 credit **Prerequisite:** Integrated Math

Topics 2

Location: Bellevue, Big Picture, Interlake, International, Newport, Sammamish

This course is a first-year algebra course that covers the content of the Common Core State Standards for Mathematics and prepares students for Geometry and Algebra 2 courses in high school. This course builds on the big ideas of ratios, proportionality, number sense, expressions and linear equations developed in IMT 1 and IMT 2. Highlights of this course include: Operations with Integers, Rational and Irrational Numbers; Evaluating Expressions (Linear, Exponential and Quadratic); Function Notation and Functions of Linear, Exponential and Quadratic Relationships; Solve Systems of Equations and Inequalities; Statistics and Use of Trend Lines and Mathematical Models.

MA_401 GEOMETRY

MA_404 GEOMETRY IN SPANISH

Length: 1 year – 1.0 credit **Prerequisite:** Algebra 1 **Location:** Bellevue, Big Picture, Interlake, Newport, Sammamish, (MA_404 at Interlake only)

This course covers the content of the Common Core State Standards for Mathematics. Highlights of the course include Statistics and Probability, Geometric Figures and Proof, Transformational Geometry, Similarity, and Right Triangle Trigonometry.

MA_501 ALGEBRA 2

Sammamish

Length: 1 year – 1.0 credit
Prerequisite: Algebra 1, Geometry
Other info: The 10th grade Smarter
Balanced Assessment includes
content from Algebra 1 and Geometry
Location: Bellevue, Big Picture,
Interlake, International, Newport,

This course is a second year algebra course that covers the content of the Common Core State Standards for Mathematics and prepares students for the required state testing. This course builds off topics developed in Algebra 1 and Geometry. Highlights of the course include: Properties of Functions, Quadratics, Exponential and Logarithmic Functions, Rational Expressions and Equations, Polynomials, and Trigonometry.

MA_601 PRECALCULUS

Length/Credit: 1 year - 2.0 credit **Prerequisite:** Algebra 2

COLLEGE

Other info: This is a 1 period course, but the high school credits are tied to the 10 college credits available. Students do not need to earn the college credits to earn the 2 high school credits.

Location: Bellevue, Big Picture, International, Newport, Sammamish

This course covers the content of the Common Core State Standards for Mathematics. The course is designed around mathematical modeling using the elementary functions including polynomial, rational, radical, exponential, logarithmic and trigonometric functions. In addition, students will study vector and conic applications, sequences and series, analytic geometry and statistics and probability.

MAH603 IB MATHEMATICS: ANALYSIS & APPROACHES SL 1

MAH703 IB MATHEMATICS: ANALYSIS & APPROACHES SL 2

Length/Credit: 1 year – 1.0 credit **Prerequisite:** Algebra 2 or AL

Algebra 2

Other info: These courses serves as the first year of a sequence that prepares students for assessment in IB Mathematics Analysis and Approaches Standard Level (SL).

Only MAH603 (SL1) is the first year of a sequence to prepare for the assessment. Students must take SL1 AND SL2 in order to be prepared/eligible for the assessment.

Location: Interlake

IB Mathematics Analysis and Approaches SL 1 and SL 2 are appropriate for students who enjoy developing their mathematics to become fluent in the construction of mathematical arguments and develop strong skills in mathematical thinking. Students will explore real and abstract applications of mathematical ideas. Student who take this class should enjoy the thrill of mathematical problem solving. The content of Analysis and Approaches is aimed at students who will go on to study subjects with substantial mathematical content such as mathematics, engineering, physical sciences or economics. Students who choose Analysis and Approaches should have strong Algebra 2 skills.

The content of Analysis and Approaches at Standard Level includes:

- » Number and Algebra: Arithmetic and geometric sequences and series, law of exponents with integer and rational exponents, deductive proofs, the binomial theorem, Pascal's triangle
- » Functions: Intersections, composite functions, quadratic equation roots and inequalities, exponential and logarithmic functions, transformation and translations
- » Geometry and Trigonometry: Combinations of three-dimensional solids, trigonometric ratios in the unit circle, Pythagorean identity, periodic and composite functions, analytical solutions to trigonometric functions
- » Statistics and Probability: Collection and presentation of data, correlation, probability calculations, distributions, standardization

Calculus: Limits, derivatives, and integrals for complex mathematical relationships, including second derivatives, indefinite integrals, and area between curves

MAH603 IB MATHEMATICS: ANALYSIS & APPROACHES SL 1

MAH704 IB MATHEMATICS: APPLICATIONS & INTERPRETATION SL 2

Length/Credit: 1 year - 1.0 credit **Prerequisite:** IB Math Analysis & Approaches SL1 (from Algebra 2 or AL Algebra 2). Students must take SL1 AND SL2 in order to be prepared/ eligible for the assessment.

Other info: These courses serves as the first year of a sequence that prepares students for assessment in IB Mathematics Applications and Interpretation Standard Level (SL).

Location: Interlake

IB Mathematics Applications and Interpretation SL 1 and SL 2 are appropriate for students who are interested in developing their mathematics for describing our world and solving practical problems. Students will harness the power of technology while exploring mathematical models. Student who take this class should enjoy mathematics best when seen in a practical context. The content of Applications and Interpretation is aimed at students who will go on to study subjects such as social science, business, psychology and design, for example. Students who choose Applications and Interpretation

The content of Applications and Interpretation at Standard Level includes:

should have solid Algebra skills.

» Number and Algebra: Arithmetic and geometric sequences and series; approximation and estimates, amortization and annuities using technology, systems of equations using technology

- » Functions: Modelling of linear, quadratic, exponential, inverse, cubic, and sinusoidal relationships; properties of functions such as domain and range
- » Geometry and Trigonometry: Properties of three-dimensional solids, trigonometric ratios for triangles, Pythagorean theorem, arcs and sectors of circles, Voronoi diagrams
- » Statistics and Probability: Collection and presentation of data, correlation, probability outcomes, distributions, and hypotheses
- » Calculus: Gradients of functions, derivates of simple functions, integration using technology, optimization.

MAH606 IB MATHEMATICS APPLICATIONS & INTERPRETATION HL 1

MAH707 IB MATHEMATICS APPLICATIONS & INTERPRETATION HL 2

Length: 1 year - 1.0 credit **Prerequisite:** Algebra 2 or AL

Algebra 2

Other info: These courses serve as a sequence that prepares students for assessment in IB Mathematics Applications and Interpretation Higher Level (HL).

Location: Interlake

IB Mathematics Applications and Interpretation HL 1 and HL 2 is appropriate for students who are interested in developing their mathematics for describing our world and solving practical problems. Students will harness the power of technology while exploring mathematical models. Student who take these class should enjoy mathematics best when seen in a practical context. The content of Applications and Interpretation is aimed at students who will go on to study subjects such as social science, business, psychology and design,

for example. Students who choose Applications and Interpretation should have solid Algebra skills.

The content of Applications and Interpretation at Higher Level includes:

- » Number and Algebra: All SL topics plus laws of logarithms, sums of infinite geometric sequences, complex numbers, conversion between Cartesian, polar and exponential forms, matrices, and eigenvectors
- » Functions: All SL topics plus composite functions, transformations of graphs, exponential, sinusoidal and logistic models, and scaling using logarithms
- » Geometry and Trigonometry: All SL topics plus the unit circle, Pythagorean identities, geometric transformation, introduction to vectors and scalars, graph theory
- » Statistics and Probability: All SL topics plus, reliability and validity tests, normal distribution, central limit theorem, regression, residuals, coefficient of determination, linear transformation, Poisson distribution, binomial distribution, and transition matrices
- » Calculus: All SL topics plus the chain, product and quotient rules, second derivatives, definite and indefinite integration, kinematics problems, slope fields, Euler's method for first order differential equations, and phase portrait solutions.

MAH605 IB MATHEMATICS ANALYSIS & APPROACHES HL 1

MAH705 IB MATHEMATICS ANALYSIS & APPROACHES HL 2

Length: 1 year - 1.0 credit **Prerequisite:** Algebra 2 or AL

Algebra 2.

Other info: These courses serve as a sequence that prepares students

for assessment in IB Mathematics Analysis and Approaches Higher Level (HL).

Location: Interlake

IB Mathematics Analysis and Approaches HL 1 and HL 2 are appropriate for students who enjoy developing their mathematics to become fluent in the construction of mathematical arguments and develop strong skills in mathematical thinking. Students will explore real and abstract applications of mathematical ideas. Student who take this class should enjoy the thrill of mathematical problem solving. The content of Analysis and Approaches is aimed at students who will go on to study subjects with substantial mathematical content such as mathematics, engineering, physical sciences or eco-nomics. Students who choose Analysis and Approaches should have strong Algebra 2 skills.

The content of Applications and Interpretation at Standard Level includes:

» Number and Algebra: All SL topics plus permutations, combinations,

partial fractions, complex numbers, and proofs

- » Functions: All SL topics plus polynomial roots, inverse functions, even and odd functions, and modulus equations
- » Geometry and Trigonometry: All SL topics plus identities (reciprocal, Pythagorean, compound angle, etc.), vectors, intersections of lines, two planes and three planes
- » Statistics and Probability: All SL topics plus Bayes theorem and continuous random variables
- » Calculus: All SL topics plus continuity, higher derivatives, implicit differentiation, multiple methods of integration, first-order differential equations, and Mclaurin series.

MA_602 MATHEMATICAL MODELS

Length: 1 year - 1.0 credit

Other info: Credit for Bellevue College Math 107 - Math in Society is available through College-in-the-High school.

COLLEGE

Location: Bellevue, Newport, Interlake, International, Sammamish

This course is designed to introduce students to mathematical models applicable to contemporary issues like political and management decisions, interpreting statistical information, the economy and personal finance. Topics include graph theory, scheduling algorithms, voting theory, fair division, descriptive statistics, saving, borrowing and growth models and algebraic and geometric models. This course is recommended for students who need review of algebra and geometry to be better prepared for college or to pass required state testing.

MA_603 INTRODUCTION TO DATA SCIENCE

Length: 1 year - 1.0 credit **Prerequisite:**Geometry or Algebra 2

Other info: College credit at the UW for STAT 180 – 4 credits.

Location: Bellevue, Newport, Interlake, Sammamish

This course will develop skills in data science and statistics by emphasizing a modeling approach. The General Linear Model (GLM) is used as a major connecting principle among the many concepts covered in this course. Students will learn to use data and modeling to answer questions and to critically evaluate information. The goals of the course are for students to develop the habits of mind of a data scientist, such that they can problem solve flexibly with data in a variety of situations. The course also aims to develop the practical skills needed across the stages of the data science cycle, including data collection,

analyses, and communication of results. Students will develop skills that are future-oriented, not outdated, and tied to the real-world so that they are better equipped for their future careers

MAA702 AP STATISTICS/INTRODUCTION TO STATISTICS

Length/Credit: 1 year - 1.0 credit

Prerequisite: Algebra 2

Other info: Students will take the AP Statistics exam in the spring. Credit for Bellevue College Math 130 – Introduction to Statistics is available through College-in-the-High school Location: Bellevue, Big Picture,

Interlake, Newport, Sammamish

The AP Statistics course follows the Advanced Placement syllabus and prepares students for the AP test in May. Course study will include the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students will be introduced to four broad conceptual themes: exploring data, planning a study, anticipating patterns in advance and statistical inference. Use of the graphing calculator is an integral part of this course and its use is required on the advanced placement test.

MA_520 BUSINESS PRECALCULUS / INTRODUCTION TO CALCULUS LENGTH: 1 YEAR - 1.0 CREDIT

Prerequisite: Algebra 2 or Mathematical Models or Precalculus **Other info:** Credit for Bellevue College Math 138, College Algebra for Business and Social Science is available through College-in-the-High school.

Location: Bellevue, Newport, Sammamish, Interlake

This course begins with a study of non-trigonometric elementary functions, systems of equations and

inequalities, probability, and matrices, emphasizing uses in business and social science. Course study will then move to topics of introductory calculus including limits, differential and integral calculus, and applications emphasizing uses in business. Students enrolling in this class should not plan to take an advanced placement test in calculus.

MA_620 BUSINESS CALCULUS

COLLEGE

Precalculus

Other info: Credit for Bellevue College Math 148, Business Calculus, is available through College-in-the-High school

Location: Bellevue, Newport, Sammamish

Course study will include differential and integral calculus, emphasizing uses in business and social science. Use of the graphing calculator is an integral part of this course. Students enrolling in this class should not plan to take an advanced placement test in calculus.

MAA703 AP CALCULUS AB / CALCULUS I & CALCULUS II

Length/Credit: 1 year - 2.0 credit **Prerequisite:** Precalculus **Other info:** Students will take the

AP Calculus AB exam in the spring. Credit for Bellevue College Math 151 (Calculus I) and Math 152 (Calculus II) is available through College-in-the-High school

Location: Bellevue, Big Picture, Interlake, International, Newport, Sammamish

The AP Calculus AB course follows the Advanced Placement syllabus and prepares students for the AP test in May. Course study will include properties of functions, limits, differential calculus, and integral calculus. Use of symbolic differentiation and integration techniques are also included. Use of the graphing calculator is an integral part of this course and its use is required on the advanced placement test. AP Calculus AB is meant to be taken instead of AP Calculus BC, not before AP Calculus BC. The two courses are not sequential as the BC course contains the entire AB course. This is a 1 period course, but the high school credits are tied to the 10 college credits available. Students do not need to earn the college credits to earn the 2 high school credits.

MAA705 AP CALCULUS AB/BC

Length/Credit: 1 year - two periods

daily - 3.0 credits

Prerequisite: Precalculus

Other info: Students will take the AP Calculus BC exam in the spring. Credit for Bellevue College Math 153 is available through College in the High School.

Location: Sammamish

AP Calculus AB/BC is a full-year two period course in the calculus of functions of a single variable. It includes all topics covered in AP Calculus AB plus additional topics (polynomial approximations and series, polar, parametric, vectorvalued functions and 3-D vector operations including the dot product and the cross product). Both courses represent college-level mathematics for which most colleges grant advanced placement and credit. The content of Calculus BC is designed to qualify the student for placement and credit in a course that is one course beyond that granted for AP Calculus AB. Use of the graphing calculator is an integral part of this course and its use is required on the advanced placement test. This is a 2 period course, but the high school credits are tied to the 15 college credits available. Students do not need to earn the

college credits to earn the 3 high school credits.

MAH802 ADVANCED CALCULUS

Length/Credit: 1 year - 2.0 credit **Prerequisite:** AP Calculus AB or BC

COLLEGE

Other info: Depending on enrollment, this course may only be offered at some high schools but will be available to all students in the district. Credit for Bellevue College Math 153 and 254 is available through College-in-the-High school or Running Start.

Location: Bellevue, Newport, International

This course extends topics in calculus beyond the scope of AP Calculus BC. It emphasizes the study of infinite sequences and series including power series. It then moves into the calculus of vector- valued functions and functions of several variables. Partial derivatives are included. This is a 1 period course, but the high school credits are tied to the 10 college credits available. Students do not need to earn the college credits to earn the 2 high school credits.

MAH906 CALCULUS IV / DIFFERENTIAL EQUATIONS

Length/Credit: 1 year - 2.0 credit **Prerequisite:** AP Calculus AB/BC (offered only at Sammamish) **Other info:** Credit for Bellevue College Math 254 and Math 238 (or 3 credits for UW Math 307) is available through College-in-the-High school.

Location: Sammamish

This course extends topics in calculus beyond the scope of AP Calculus BC. It emphasizes the study in functions of several variables, partial derivatives, directional derivatives, gradient vectors, lagrange multipliers and double integrals. This course will also use tools from algebra, trigonometry and calculus in solving first- and second-order linear

COLLEGE

differential equations. Students will focus on applying differential equations in modeling physical situations, and using power series methods and numerical techniques when explicit solutions are unavailable. May include work with Laplace Transforms and systems of differential equations. This is a 1 period course, but the high school credits are tied to the 10 college credits available. Students do not need to earn the college credits to earn the 2 high school credits.

MAH910 FURTHER MATH 1

MAH911 FURTHER MATH 2

MAH912 FURTHER MATH 3

Length/Credit: 1 year - 1.0 credit **Prerequisite:** IB Mathematics Analysis & Approaches HL2 OR IB Mathematics Applications &

Interpretations HL2 **Other info:** Students who

successfully complete this course may take the IB Mathematics Analysis & Approaches or IB Mathematics Applications and Interpretation assessment

Location: Interlake

Further Mathematics builds on the content explored in IB Mathematics HL and requires students to use a wide range of analytic and technical skills. The course focuses on several different branches of advanced mathematics to encourage students to appreciate the diversity of the subject and to provide students with the opportunity to form an overview of the characteristics that are common to all mathematical thinking, independent of topic or branch. Students will continue their work with series and differential equations and study new topics including geometry, sets, relations and groups, statistics and probability and discrete mathematics.

MAH908 LINEAR ALGEBRA / DIFFERENTIAL EQUATIONS

Length/Credit: 1 year - 2.0 credit **Prerequisite:** Advanced Calculus **Other info:** Students can earn 5 credits of Math 238 at Bellevue College and 5 credits of Math 208 at Bellevue College.

Location: Newport, Bellevue

Introduces the vocabulary, algebra, and geometry of vector spaces in "R" and function spaces. Students use matrix methods and vectors to explore systems of linear equations and transformations. Also presents elementary theory of eigenvalues. Students use matrix methods and vectors to explore systems of linear equations and transformations. Also presents elementary theory of eigenvalues. This course uses tools from algebra and calculus in solving first- and second-order linear differential equations. Students focus on applying differential equations in modeling physical situations, and using power series methods and numerical techniques when explicit solutions are unavailable. May include work with Laplace Transforms and systems of differential equations. This is a 1 period course, but the high school credits are tied to the 10 college credits available. Students do not need to earn the college credits to earn the 2 high school credits.

MATH SUPPORT

MA_406 MATH SEMINAR

Length/Credit: 1 semester -

0.5 credits

Location: Bellevue, Newport,

Sammamish

The Math Seminar course will support students who have experienced barriers to success in mathematics. This course will not be aligned with students' current math course. The course is designed to address and

support math gaps, so that they can be successful in their current and future math classes and move on from the math support class with confidence.

Students in this class will rotate through 3 components during the semester:

- » Small Group Instruction: Students will work in a small group with their teacher and peers on specific skills.
- » Computer Based Learning: Students will use the math software independently
- » Independent Work: Students will work on specific skill development, identified gaps in knowledge and supplemental materials to support their learning

MA_411 ALGEBRA 1 SEMINAR

Length/Credit: 1 semester -

0.5 credits

Prerequisite: Concurrent enrollment

in Algebra 1

Location: Bellevue, Interlake,

Sammamish

Math Seminar is designed to be a second math class where students who struggle with mathematics can get additional help. Teachers enrich student understanding through skill building, pre-teaching and reteaching. Topics covered in the class will vary depending on the needs of the students. Typical skill-building topics may include whole number & integer computation, order of operations, working with fractions and decimals, and basic pre-algebra.

MA_511 GEOMETRY SEMINAR

Length/Credit: 1 semester -

0.5 credits

Prerequisite: Concurrent enrollment

in Geometry

Location: Bellevue, Sammamish

Math Seminar is designed to be a second math class where students who struggle with mathematics can get additional help. Teachers enrich student understanding through skill building, pre-teaching and re-teaching. Topics covered in the class will vary depending on the needs of the students. Typical skill-building topics may include algebraic expressions, equations and inequalities as well as continued work with computation and pre-algebra topics.

MA_611 ALGEBRA 2 SEMINAR

Length/Credit: 1 semester -

0.5 credits

Prerequisite: Concurrent enrollment

in Algebra 2

Location: Bellevue, Sammamish

Math Seminar is designed to be a second math class where students who struggle with mathematics can get additional help. Teachers enrich student understanding through skill building, pre-teaching and re-teaching. Topics covered in the class will vary depending on the needs of the students. Typical skill-building topics may include work with algebraic expressions, equations and inequalities as well as continued work with computation and geometry topics.

Through the study and practice of the arts, students employ sound, image, action, and movement to learn to solve problems, make decisions, think creatively, and use imagination. This process not only leads to deeper understanding of one's own work and that of others in the arts, but also develops skills which are highly sought after in the world of work.

Music Course Sequence Grades 6-12

Middle School Music

All courses are yearlong and fulfill the Middle School Fine Arts requirement.

VA_100 INTEGRATED ARTS

Length/Credit: 1 year

Prerequisite: 6th grade standing

Location: International

Students will study a combination of choir and visual art concepts. Students will go through 3 weeks of choir, and 1 week of visual art every month. Students will focus on a wide range of materials and processes stressing quality and self-expression.

MU_103 ENTRY CHOIR

Length/Credit: 1 year (or 1 semester Highland only)

Other info: This is a performance-based course which requires day and evening performances as an extension of the classroom activities

Location: Chinook, Highland, Odle, Tillicum, Tyee

Love to sing? Want to learn? Join us! This class provides an introduction to choral music. Students will learn to sing a variety of choral literature and styles from around the world in unison, two- or three- part harmony. Musical concepts are taught in daily

rehearsals with an emphasis on correct breathing and vocal techniques.

MU_110 MARIACHI I

Length/Credit: 1 semester - 0.5 credit **Prerequisite:** No prerequisite. Prior Music and Spanish experience suggested.

Location: Highland

This class is designed to teach the beginning/ intermediate level of Mariachi Music. Students have the opportunity to learn violin, vihuela, guitar, guitarron, trumpet or voice. Students will learn to sing and understand the fundamentals of an authentic music style through, scales, key signatures, terms, theory, and basic rhythms through performing in a Mariachi. This class is taught in Spanish with support for non-Spanish speakers.

MU_203

INTERMEDIATE CHOIR

Length/Credit: 1 year

Prerequisite: Successful completion of Entry Choir or equivalent, as determined by the director. This is a performance- based course which requires day and evening performances as an extension of the classroom activities.

Location: Chinook, Highland, International, Tillicum, Tyee

Students continue their musical growth as ensemble singers with more opportunities for small group and solo singing. Musical concepts are taught in daily rehearsals with an emphasis on correct breathing and vocal techniques (diction, blend, balance, phrasing, intonation, articulation and tone quality), and music reading.

MU_303 ADVANCED CHOIR

Length/Credit: 1 year

Prerequisites: Successful completion of Intermediate Choir or equivalent, as determined by the director. Auditions may be necessary.

Location: Chinook, Odle, Tillicum,

Tyee

Students continue their development of choral singing. Advanced Choir requires a commitment to more performances than Entry or Intermediate choirs. Students become more independent as singers and participate in solo and small ensemble singing. The vocal technique and performance skills taught will lead students toward self-confidence and growth as ensemble singers. Students perform more advanced and

Middle School Music

challenging literature and continue to develop music reading skills.

MU_101 ENTRY BAND

Length/Credit: 1 year **Prerequisites:** This course is designed for students with one-year experience. (Students new to the district who have not had an opportunity to learn an instrument need to meet with the director for assistance in selecting an instrument, beginning materials, and to discuss an accelerated learning plan to help the student to catch up with the experienced students.)

Other info: This course can be

multi-graded

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Entry Band is a performance-based course which requires student participation in day and evening performances. Through large and small ensemble experiences, students will learn basic theory and performance skills such as articulation, embouchure, hand position, and posture. Through their participation in an ensemble the students will be introduced to blend, balance, intonation (playing in tune) and instrumentation. Students will learn self-discipline through home practice and rehearsal sessions.

MU_201 INTERMEDIATE BAND

Length/Credit: 1 year **Prerequisite:** This course is designed for students who have successfully completed Entry Band or the equivalent. Placement will be determined by the instructor. Auditions may be necessary.

Other info: This course can be

multi-graded

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Intermediate Band is a performance-based course which requires student

participation in day and evening performances. Band students will be provided the opportunity to learn accountability and commitment to a team. During their ensemble experience, the students will be exposed to intermediate-level music theory, articulation patterns, rhythmic patterns, and a variety of musical styles. Students will continue their quest to improve tone, breath support, blend, balance, and intonation. Listening and criticalthinking skills will be enhanced as students analyze their individual and group performances.

MU_301 ADVANCED BAND

Length/Credit: 1 year

Prerequisite: This course is designed for students who have successfully completed Intermediate Band or the equivalent. Placement will be determined by the instructor. Auditions may be necessary. **Other info:** This course can be

multi-graded

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Advanced Band (Middle School Wind Ensemble) is a performancebased course which requires student participation in day and evening performances. Through large and small ensemble work, students will be provided the opportunity to learn self-discipline, accountability, group cohesiveness, and commitment. New information the students will acquire include compound meters, advanced articulation pat-terns, and form. Students will experience further development in tone, rhythm, balance, blend, and music history. Through the study of different time periods and styles, students will understand music as a form of communication which will expand their ability to listen, analyze, and discuss concepts.

MU_102

ENTRY ORCHESTRA

Length/Credit: 1 year **Prerequisites:** This course is designed for students with one-year experience on a stringed instrument. (Students new to the district who have not had an opportunity to learn an instrument need to meet with the director for assistance in selecting an instrument, beginning materials, and to discuss an accelerated learning plan to help the student to catch up with the experienced students.)

Other info: This course can be

multi-graded

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Entry Orchestra is a performance-based course which requires student participation in day and evening performances. The basic skills and concepts presented in the class include: basic music theory, history, tone production, string technique, and ear training. In addition, students will study home-practice strategies and the role of self-discipline in achieving high standards.

MU_202 INTERMEDIATE ORCHESTRA

Length/Credit: 1 year **Prerequisite:** This course is designed for string students who have successfully completed Entry Orchestra or the equivalent. Placement will be determined by the instructor. Auditions may be necessary.

Other info: This course can be

multi-graded

Location: Chinook, Highland, International, Tillicum, Tyee, Odle

Intermediate Orchestra is a performance-based course which requires student participation in day and evening performances. In addition to further instruction in the basic skills, more complex keys and rhythms will be introduced as students read more difficult music (two- or three-part harmony). By

the end of the year, students should be independent players, meaning they can read and perform ageappropriate music without prompting from a teacher or a peer. Listening and critical-thinking skills will be enhanced as students analyze their individual and group performances.

MU_302 ADVANCED ORCHESTRA

Length/Credit: 1 year

Prerequisite: This course is designed for string students who have successfully completed Intermediate Orchestra or the equivalent. Placement will be determined by the instructor. Auditions maybe necessary.

Other info: This course can be

multi-graded

Location: Chinook, Highland, Odle, Tillicum, Tyee

Advanced Orchestra is a performance-based course which requires student participation in day and evening performances. This class requires a commitment to more performances than Entry and Intermediate levels. Through appropriate literature, students will increase their ability to apply the fundamentals of music. Students will learn vibrato, advanced rhythms, and bowings. Students will understand music as a form of communication which will expand their ability to listen, analyze, discuss, and appreciate this art form.

MU_104 GUITAR ENSEMBLE

Length/Credit: 1 semester

Prerequisite: None

Other info: This course can be

multi-graded **Location:** Highland

This course is designed for students at any level of experience, from complete beginners to experienced guitarists. Students will learn classical and modern guitar techniques and will have the opportunity to perform

in small and large groups. Students will learn to play many styles on guitar, including classical technique, modern pop music, as well as songs from various folklore traditions. Instruments are available at the school – all students are welcome!

MU_105 POP MUSIC EXPLORATION

Length/Credit: 1 semester -

0.5 credit

Location: Chinook, Highland, Tyee,

Odle

From its multi-cultural roots in the Americas through its expansion around the globe, modern pop music connects cultures across the world. Students will learn about the history and traditions behind these music genres while learning how to create and play music. Whether you have experience singing, rapping, drumming, playing guitar, keyboard or other instruments, or have no experience other than enjoying listening to music, your skills and background will be welcomed into the class. Students will also learn how create music digitally using loops, samples, and programming beats using music software platforms.

IB MUSIC

MUH801 MUSIC HL 1

Length/Credit: 1 year - 1.0 Fine Arts

credit

Prerequisite: Two full years of participation in a High School performing ensemble or instructor's permission.

Other info: All students taking either IB Music HL or IB Music SL will take this course. No examinations will be completed after the first year. During the first year of this course, students will complete a musical investigation research paper, required for both HL and SL Music. Fulfills the state's high school arts requirement and district high school Fine Arts requirement.

Location: Interlake

MUH802 IB MUSIC HL 2

Length/Credit: 1 year - 1.0 Fine Arts

credit

Prerequisite: IB Music HL 1

Other info: Students must decide at the beginning of this year if they wish to take the HL or the SL Music examination. Both HL and SL students will take the Listening Paper examination at the end of this year, and the Musical Investigation (completed during IB Music HL 1). Students taking IB Music

SL will then submit recordings from two public performances with their performing ensembles during the year. IB Music HL students will submit three contrasting musical compositions, and also a recording of a solo performance recital on their instrument of choice. Fulfills the state's high school arts requirement and district high school Fine Arts requirement.

Location: Interlake

IB SL: Students complete Listening Paper examination at the end of two full years of IB Music. They also complete a Music Investigation research paper, and MUST participate in all concerts for their performing ensemble.

IB HL: Students complete all the required elements for IB SL. Student also compose three contrasting compositions, and give a solo performance recital on their instrument of choice.

BAND

MU_401 CONCERT BAND

Length/Credit: 1 year - 1.0 Fine Arts

credit

Prerequisites: Middle school experience or the equivalent

Other info: Fulfills the state's high school arts requirement and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, Interlake, International, Newport, Sammamish

Students will be expected to participate in all Concert Band and athletic band activities (pep and/or marching band). Students will perform literature from all time periods with

the appropriate technique, tone, articulation, phrasing and style. In addition, students will increase their adeptness in sight reading and their ability to precisely match fundamental concepts with other band members.

MU_511 SYMPHONIC BAND

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisites: Successful completion of Concert Band or the equivalent.

Other info: Fulfills the state's high school arts requirement and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, Newport, Interlake

Students will be expected to participate in all Symphonic Band and athletic band activities during or outside the normal school day, including participation in a marching band. Students will apply the skills and concepts learned in Concert Band and apply them to more difficult music literature. Awareness of their instrument's role and attention to fine detail within the ensemble will be taught.

MU_501 WIND ENSEMBLE (HIGH SCHOOL ADVANCED LEVEL)

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisites: Successful completion of Concert Band or the equivalent. Audition is required.

Other info: Fulfills the state's high school arts requirement and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions.

Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, International, Newport, Interlake, Sammamish

Students will be expected to participate in all Wind Ensemble and athletic band activities during or outside the normal school day. Students will work towards mastering the concepts and skills in rich tone quality, group and individual intonation, expressing appropriate style for various time periods, advanced articulations and fluid technique. Precision in music reading and sight reading is expected. Students successfully completing the four-year sequence will be knowledgeable music listeners; able to enjoy music as lay participants throughout life; prepared to study music at any advanced level.

MU_415 JAZZ ENSEMBLE 1

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisites: Auditions required
Other info: Fulfills the state's
high school arts requirement
and district high school Fine Arts
requirement may be repeated for
credit. Jazz classes held outside
the regular school day require
students to be enrolled in a primary
performing ensemble, (i.e., band,
orchestra). Students will attend
jazz performances, festivals and
competitions in and out of state.
Students planning to enroll in jazz
must sign up now.

Location: Bellevue, Interlake, International, Newport, Sammamish

Jazz Ensemble is an extension of the larger ensemble experience. The jazz ensemble reflects traditional Big Band instrumentation (saxophone, trumpet, trombone and rhythm section). Through listening to recordings, critiquing, analyzing, discussion and application, students

will learn a variety of jazz styles found within this genre. Students will understand the history of jazz and be able to associate specific musicians to distinct types of jazz. This is a performance class; therefore, students are expected to attend all rehearsals, sectionals and performances.

MU_515 JAZZ ENSEMBLE 2

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisites: Auditions required **Other info:** Fulfills the district's Fine Arts requirement. May be repeated for credit. Jazz classes held outside the regular school day require students to be enrolled in a primary performing ensemble, (i.e., band, orchestra). Students will attend jazz performances, festivals and competitions in and out of state. Students planning to enroll in jazz must sign up now.

Location: Bellevue, Newport, Interlake

Jazz Ensemble 2 is an extension of the larger ensemble experience. The jazz ensemble reflects the traditional Big Band instrumentation of saxophone, trumpet, trombone and rhythm sections. Students enrolled in this class will learn the basics of the jazz style, sound, balance and terminology. Students will be introduced to jazz improvisation and its relationship with scales and chord progressions. This is a performance class; therefore, students are expected to attend all rehearsals, sectionals and performances.

MU_414 PERCUSSION ENSEMBLE

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisite: Students must have a minimum of middle school band experience or permission from the instructor

Other info: Fulfills the state's high school arts requirement and district

high school Fine Arts requirement. May be repeated for credit. **Location:** Newport, Bellevue

Percussion Ensemble provides an opportunity for all percussion students to participate in Concert Band, Symphonic Band, and/or Wind Ensemble. Students will receive training in marching band skills and small percussion ensembles. Students will learn the concepts of rhythm, texture, balance, blend, and rudiments as they develop their role as ensemble members.

ORCHESTRA

MU_402 CONCERT ORCHESTRA

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisite: This course is for string students who have at least 3 years of middle school and/or 1 year of high school experience or the equivalent.

Other info: Fulfills the state and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, Newport, Interlake, International, Sammamish

Students will refine musical skills such as vibrato, 3rd and 5th position. Students will study styles from the Baroque, Classical, Romantic and Contemporary time periods. Involvement in this course will also acquaint the students with many of the life skills necessary to be successful in the work place including personal relations, problem solving, and working as a team to produce a product. Students successfully completing the four-year sequence will be knowledgeable music listeners; able to enjoy music as lay

participants throughout life; prepared to study music at any advanced level.

MU_502 SINFONIA

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisite: Sinfonia is open to 10th - 12th grades string students who have successfully completed Concert Orchestra or the equivalent. Audition may be required.

Other info: Fulfills the state's and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, Newport, International, Interlake, Sammamish

Students will continue to refine high school level performance skills. In addition, the students will demonstrate performance practices of specific time periods (Baroque, Classical, Romantic, Contemporary) through more advanced string and full orchestra literature. Students successfully completing this program will be knowledgeable music listeners; able to enjoy music as lay participants throughout life; prepared to study music at any advanced level.

MU_522 CHAMBER ORCHESTRA

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisite: Chamber Orchestra is open to 10th-12th grade string students who successfully completed Concert Orchestra or Sinfonia. Audition is required.

Other info: Fulfills the state and district high school Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to

participate in Eastshore region Solo and Ensemble festivals and audition for state honor groups.

Location: Newport, Interlake, Bellevue

Chamber orchestra is a mastery-level course designed for the accomplished string player. Students will continue to study curriculum developed for the district's high school orchestra program. Performance repertoire will be selected from the most advanced music for string and full orchestra. Students in this course will be expected to attend rehearsals, sectionals, and seminars during or outside the normal school day.

MU_404 INTRODUCTORY BAND & ORCHESTRA

Length/Credit: 1 year – 1.0 Fine Arts

credit

Other info: No instrumental experience necessary.

Location: Newport, Sammamish

Interested in playing in band or orchestra but never started on an instrument? Did you play for a year or two and stopped but would like start again? This course is designed to catch you up in a year and prepare you to participate in high school band or orchestra. The class will include individualized instruction as well as ensemble playing to match each student's needs.

MU_403 CONCERT CHOIR

Length/Credit: 1 year - 1.0 Fine Arts credit

Other info: Fulfills the Washington state and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, Big Picture,

Newport, Interlake, International, Sammamish

This choir sings a wide variety of choral music including standard classics, popular American music, and music originating from other cultures. This is a performance-based choir which requires numerous day and evening concerts, and musical events outside of the school day. Students develop good vocal production, performance practice, and sightsinging skills. Students are taught the knowledge and skills to become an independent singer. Teamwork, self-confidence, and a sense of accomplishment characterize what the singer realizes from the choral experience.

MU 503 **CHORALE CHOIR**

Length/Credit: 1 year - 1.0 Fine Arts credit

Prerequisites: Successful completion of Concert Choir. Permission from the instructor. Audition may be required. Other info: Fulfills the state and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the

Eastshore Solo and Ensemble festivals

and audition for state honor groups.

Location: Bellevue, International, Newport, Sammamish

This choir sings a wide variety of choral music including standard classics, popular American music, and music originating from other cultures. This is a performance-based choir which requires numerous day and evening concerts, contests, and musical events outside of the school day. Students continue developing good vocal production, performance practice, and sight-singing skills. Musical teamwork, self-confidence, and a sense of accomplishment characterize what the singer realizes from the choral experience.

MU 533 **VOCAL JAZZ ENSEMBLE**

Length/Credit: 1 year - 1.0 Fine Arts

Prerequisites: Auditions required Other info: Fulfills the Washington State and district high school Fine Arts requirement. May be repeated for credit. Students will be dualenrolled in a high school choir. Vocal Jazz will meet outside of the regular day to accommodate students' schedules. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue (Bellairs), Interlake (Jazz Choir), Newport (Knight Sounds), Sammamish (Vocal Jazz Ensemble), International (iJazz)

This is a performance-oriented course for students who desire a high degree of specialized performance opportunities, small ensemble and solo singing. All groups will perform Jazz repertoire. Members of this ensemble are expected to be independent singers, highly motivated and committed to the group and its activities.

MU 701 **CHAMBER CHOIR**

Length/Credit: 1 year - 1.0 Fine Arts

Prerequisites: Successful completion of Concert Choir or Chorale Choir. Permission from the instructor. Audition may be required.

Other info: Fulfills the Washington state and district high school Fine Arts requirement. May be repeated for credit. Students may travel in and out of state to attend festivals and competitions. Students from this class are eligible to participate in the Eastshore Solo and Ensemble festivals and audition for state honor groups.

Location: Bellevue, Newport,

Sammamish

Chamber choir is designed for accomplished vocalists with experience singing in choral ensembles. Students will continue to develop skills aligned to the district high school choir curriculum while performing advanced and sophisticated literature. This is a performance-based class which requires numerous day and evening concerts, contests, and musical events outside of the school day.

SOLO INSTRUMENTS

MU 424 **GUITAR 1**

Length/Credit: 1 semester - 0.5 Fine Arts credit

Other info: This course is designed for beginning students. May be repeated for credit.

Location: Bellevue, Big Picture, Interlake, Newport, Sammamish

Students will acquire the basic elements of music reading, theory, and playing technique. Students will play in small groups, with the class as a whole, and solo. They will learn to play melodies and chords, receiving whole class and individual instruction within the class from the teacher. Students are expected to work independently at their own pace, as well as cooperatively with small groups and with the class as a whole. Completion of the course will give players the basic skills to become life-long musicians.

MU 524 **GUITAR 2**

Length/Credit: 1 semester - 0.5 Fine Arts credit

Prerequisites: Completion of Guitar 1 or equivalent basic formal training (ability to read all natural notes in first position, play basic chords, and demonstrate basic technical fluency).

Other info: May be repeated for credit.

Location: Bellevue, Big Picture, Interlake, Newport, Sammamish

Students will increase reading skills, chord vocabulary, technical facility, and will apply basic theoretical concepts to the guitar fingerboard, such as playing and spelling scales and triads. Students will have the opportunity to play and perform music in a variety of styles, including Classical, Jazz, and Popular. Students will work individually at their own pace as well as cooperatively with small groups and the entire class. Completion of the course will give players skills enabling them to succeed in a variety of musical situations, and to appreciate various styles of music.

MU_425 PIANO 1

Length/Credit: 1 semester - 0.5 Fine Arts credit

Other info: This course is designed for beginning students. May be repeated for credit.

Location: Bellevue, Interlake, Newport, Sammamish

Students will receive individualized instruction on the piano and work independently. A basic course of study is determined by student and teacher. Students are evaluated by progress toward agreed goals. Students have the opportunity to perform for each other as well as play duets, and listen to a variety of music.

MU_525 PIANO 2

Length/Credit: 1 semester - 0.5 Fine Arts credit

Prerequisites: Completion of Piano 1 or prior teacher approval

Other info: This course is for any student with prior piano experience and understanding of music theory fundamentals. May be repeated for credit.

Location: Bellevue, Interlake, Newport, Sammamish

Intermediate or advanced players expand their current skills and further their experience with literature appropriate for their level. A course of study is determined by student and teacher. Students are evaluated by progress toward agreed goals. Students have the opportunity to perform for each other as well as play duets, accompany other musicians, and listen to a variety of music. Successful completion of this course gives students the basic piano skills to become lifelong musicians.

MU_421 COMPOSING MUSIC WITH TECHNOLOGY

Length/Credit: 1 semester - 0.5 Fine Arts credit

Other info: Students do not need previous knowledge of music or use of MIDI (Music Instrument Digital Interface) software in order to have success in this course. Software Programs include Sibelius and FL Studio.

Location: Bellevue, Big Picture, Newport, Sammamish

This course is an introduction to musical composition utilizing computer technology and music software. Students will learn sequencing, scoring, looping, "making beats", basic notation, and musical multimedia basics. Students will have opportunities for individual projects based on their musical interests. Completion of this course will prepare students for Composing Music with Technology 2.

MU_521 COMPOSING MUSIC WITH TECHNOLOGY 2

Length/Credit: 1 semester - 0.5 Fine Arts credit

Prerequisites: Successful completion of Composing Music with Technology or permission from instructor.

Other info: Classes are held in the computer lab using, Sibelius, Audacity and FL Studio software.

Location: Bellevue, Newport, Sammamish

This course will refine composing skills using music software. Students will extend their notation, scoring, looping and "making beats" skills. Students use the software to create music or create arrangements of music while working at their own pace. Final projects can stand alone or be used by other activities such as dance routines, short videos, drill team, or other art experiences.

ENSEMBLES

MU_430 STEEL DRUM ENSEMBLE

Length/Credit: 1 semester - 0.5 Fine Arts credit

Other info: This course is designed for beginning or experienced students. Course may be repeated for credit.

Location: Bellevue

This course provides an opportunity for students to explore the music of the Caribbean through steel drums. Students will learn musical form, improvisation, chord structure and the role of various drum "voices" within the steel drum ensemble. Students will develop skills in reading musical notation. Students will have the opportunity to perform with the ensemble outside of class.

MUSIC THEORY

MU_450 MUSIC APPRECIATION AND THEORY

Length/Credit: 1 semester - 0.5 Fine

Arts credit

Other info: This course is designed for beginning or experienced students. Course may be repeated for credit.

Location: Bellevue

This course will introduce students to analytical listening with historical

perspective to music from a wide array of genres. Students will also learn fundamentals of musical notation and music theory. Students will learn the foundational skills needed to continue successfully into the AP Music Theory course.

MUA701 AP MUSIC THEORY

Length/Credit: 1 year - 1.0 Fine Arts

credit

Prerequisites: Ability to read basic

notation

Other info: Students will take the AP exam in the spring. Fulfills the Fine Arts requirement. Highly recommended that students also study performance (i.e. guitar, piano, band, orchestra or choir)

Location: Bellevue, Newport,

Sammamish

This course studies aural and visual understanding of musical structure and compositional procedures. Students will study and practice tools of music analysis and develop listening skills. Both analysis and listening will be used to develop competency in sight-singing. Visual and aural understanding of melodic and harmonic structure is tested in relation to musical elements and compositional procedures on the final exams.

THEATRE ARTS

TH_101 BEGINNING DRAMA

Length/Credit: 1 semester **Other info:** Fulfills 1 semester Middle school fine arts requirement **Location:** Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

This is a beginning course in which students engage in creative theatre exercises to develop observation, concentration, and imagination.

Students also condition their bodies and voices to be flexible, coordinated, and expressive. Students are introduced to drama through activities which may include storytelling, pantomime, puppet performances, characterization, and scene work. This is a collaborative class that is both challenging to the actor and fun for everyone.

TH_201 ADVANCED DRAMA

Length/Credit: 1 semester (may be repeated)

Prerequisite: Successful completion of Beginning Drama or Instructor Permission

Location: Chinook, Odle, Tillicum, Tyee, Big Picture

This is a more advanced theatre course where students will engage in indepth movement, voice, and character development. They will experience many opportunities for in-class performances which may include the following: scenes and monologues, reader's theatre, Shakespeare and other playwrights, 10 minute plays, makeup and other technical theatre explorations. They will continue to advance the development of their observation, concentration, and imagination skills as they perform and work with classmates. This course includes the basic elements of dramatic production.

TH_303 THEATRE PRODUCTION

Length/Credit: 1 semester **Prerequisite:** Successful completion of Advanced Drama or Instructor

Permission

Other info: Auditions held during

Location: Odle, Chinook

This is an advanced class for students who wish to perform in a school play. During class, students rehearse

and stage 1-2 formal productions for evening performances. The class provides an opportunity for students in sports or other after-school related activities to participate in theatrical productions. Students may be required to provide their own costumes, hand props, and make-up, with assistance from the Theatre Department.

DANCE

DA_101 DANCE

Length/Credit: 1 semester **Other info:** Fulfill MS Fine Arts requirement

Location: Chinook, Highland, Odle, Tyee, Tillicum

Students at all ability levels will learn the techniques of a variety of dance/movement disciplines that could include creative movement, ballet, jazz, lyrical, modern, ballroom, hiphop, break dance, tap/rhythm, yoga, historical and cultural dance. Course objectives will also have a focus on dance vocabulary, dance history, and body awareness. Instruction is provided in a positive and supportive environment, encouraging each

Middle School Theatre Arts & Dance

student to do his or her personal best. The curriculum is designed to encompass the practical application of movement while also developing an appreciation for the historical and aesthetic aspect of dance and music. Students will learn about the art form of Dance by viewing dance performances, as well as reflecting on their own and other performances. Students will develop positive social skills through cooperation, teamwork, encouragement, & confidence building.

DA_201 DANCE PERFORMANCE

Length/Credit: 1 year (can be

repeated)

Other info: Fulfills Middle school fine

arts requirement **Location:** Odle

This performance-based academy class for the students who has had some prior dance instruction will develop a broad understanding and appreciation of the origins and development of dance styles such as ballet, jazz, lyrical, modern, ballroom, and hip hop. Students of dance styles will develop a range of movement techniques and a repertoire of dances that will be performed throughout the school year. In addition to teacher choreography, there will also be a focus on independent student choreography (at the teacher's discretion). Students will develop the ability to manipulate the elements of the form such as shape, space, time, and motion.

High School Theatre Arts & Dance

All courses satisfy High School fine arts credit requirements.

TH_401 THEATRE WORKSHOP

Length/Credit: 1 semester – 0.5

Art credit

Location: Bellevue, Interlake,

Newport, Sammamish,

Big Picture

Students will learn the fundamentals of theatre, voice, movement, and production design. Students will learn to read scripts for meaning, understanding, and evaluation. Students will rehearse to create several structured theatre projects while working in cooperation with other members of the class to create an ensemble effort onstage.

Areas of study include:

- 1. Basic stage blocking, notation, and stage movement
- 2. Improvisation rules, skills and structures
- 3. Monologues, scenes, and 10 minute plays
- 4. Stage combat

- 5. Basic technical theatre operations and design
- 6. The development of an idea to the stage

TH_501 ACTING WORKSHOP

Length/Credit: 1 semester – 0.5

Art credit

Prerequisite: Theatre Workshop or Middle School Advanced Drama **Other info:** May be repeated for

credit

Location: Bellevue, Interlake, Newport, Sammamish, Big Picture

This course focuses on training for audience performances. Students will prepare scenes from contemporary and classical plays utilizing notation, blocking, and character study. They will develop a monologue for a professional audition. Some of these projects will be used in public performances and competitions.

TH_603 Q DIRECTING WORKSHOP

Length/Credit: 1 semester – 0.5

Art credit

Prerequisite: Acting

Workshop,Instructor Permission or

Theatre Workshop

Other info: May be repeated for credit

Location: Newport, Sammamish

Structured in a workshop format, Directing Workshop studies the principles, procedures, and practices of stage direction. Beginning with a non-verbal approach to composition and movement study and progressing to more formal text work, the various exercises culminate in the direction of a ten-minute play for public performance. Directing Workshop meets concurrently with Acting Workshop to allow for collaborative exercises between the two courses.

TH_502 STUDIO WORKSHOP

Length/Credit: 1 semester – 0.5

Art credit

Prerequisite: Prior middle school Experience in Beginning Drama or Drama 2; Theatre Workshop or

Instructor permission **Location:** Bellevue

This course covers theatre performance styles, plus theatre history from the ritual of storytelling to modern Broadway plays. Students will learn by acting in scenes and monologues which reflect various

High School Theatre Arts & Dance

CREDIT

theatre genres and cultures. Some of these projects may be used in public performances. This course is for students who have prior theatre experience.

TH_411 TECHNICAL THEATRE 1

Length/Credit: 1 year - 1.0 CTE or

Art credit

Other info: May be repeated for

credit

Location: Bellevue, Interlake,

Newport, Sammamish

Students will concentrate on the major areas of theatre technology, production and performance. Students will learn how to research and design sets and scenery, design lights and sound and learn about the roles for Stage Manager, Production Manager and House Manager. Students will learn about all areas of technical theatre and specialize in one or two areas. Some afternoon and evening work is required in addition to in-class production work. Behind the scenes stage experience will be acquired through the production of 2-3 shows during the year. Students who complete the course can pass an operations test with the district and can become employed by the district to work in the Performing Arts Centers.

TH_503 TECHNICAL THEATRE 2

Length/Credit: 1 year-1.0 Art &

CTE credit,

Prerequisite: Technical Theatre 1 **Location:** Bellevue, Interlake, Newport, Sammamish

Students will concentrate on the major areas of theatre technology and production. Students will explore advanced set design and construction techniques, the creative process involved in translating a script into a visual design, and the essentials of developing costumes, props, lighting and sound designs. All students in

the class will acquire behind-thescenes stage experience through the production of 2-3 shows during the year. Students who complete the course can pass an operations test with the district and can become in employed by the district to work in the Performing Arts Centers.

TH_601 THEATRE PRODUCTION - PLAY

TH_602

THEATRE PRODUCTION - MUSICAL

Length/Credit: 1 semester – 0.5

Art credit

Prerequisite: Audition

Other info: May be repeated for

credit

Location: Bellevue, Newport, Sammamish, Interlake – TH_602 only

This is an advanced class for students who wish to perform in a school play. During class, students rehearse and stage a formal production for evening performances. The class provides an opportunity for students in sports or other after school related activities to participate in a drama production. Students may be required to provide their own costumes, hand props, and make-up, with assistance from the Theatre Department. Auditions are generally a year in advance in the spring.

CT_604 COSTUME DESIGN

Length/Credit: 1 semester – 0.5 CTE

or Fine Arts Credit

Prerequisite: Technical Theatre 1

Location: Sammamish

Costume design is a course that prepares individuals to design, select, or build costumes for characters in Sammamish High School's theatre productions. Costumers will serve as part of a production team. This course includes instruction in costume design, script analysis, period styles, history of costume, stage hair and makeup, drawing and sketching, cost

estimation and budget compliance, and sewing construction.

THH602 HONORS ACTING WORKSHOP

Length/Credit: 1 semester – 0.5 Art credit

Prerequisite: Theatre or Studio Workshop; Consultation with your theatre teacher is required

Other info: Students may travel in and out of state to attend competitions

Location: Bellevue, Newport,

Sammamish

While participating in the Acting Workshop class, students will extend their understanding of theatre through involvement in a series of achievements. Students enrolling in Honors will:

- Prepare a resume and audition (WASA Thespian Conference)
- Prepare three monologues in the Greek, Elizabethan, and Contemporary styles for competition
- 3. Prepare two scenes for performance; a comedy and a drama
- 4. Lead an acting improvisational troupe through a performance
- Students must complete and perform two scenes from two separate theatrical styles. One of the scenes must include a complete portfolio of the scene including character study, scene analyst, and technical needs including historically accurate costumes and make-up.

THH520 IB FILM SL

CREDIT

THH620 IB FILM HL

Length/Credit: 1 year-1.0 Art credit **Prerequisite:** IB Film SL must be completed before IB Film HL

High School Theatre Arts & Dance

Other info: This elective course can be taken by any 10th, 11th, or 12th grader. It fulfills IB requirements for Group 6 (Arts).

Location: Interlake

Students will use methods of analyzing and critically viewing several films from a variety of genres, time periods, and countries. They will study topics such as plot and sequencing, acting and character, scriptwriting, setting and props, camera work, sound and light, and other practical and technical skills of production. They will present their analyses of film segments, research and write a rationale for a documentary, and finally produce an original short film. Students will learn to appreciate and understand film as a complex form of art, and develop the ability to formulate stories and ideas in film terms. Curriculum, including films, is cycled over 2 years in order to allow students to take this course for a second year.

- » IB SL Assessments: Standard Level assessments include a Film Portfolio in which student undertake a variety of film-making exercises, a Textual Analysis where students demonstrate their knowledge and understanding of how meaning is constructed in film, and a Comparative Study where students carry out research into a chosen area of film.
- » IB HL Assessments: Higher Level (HL) assessments include all of the SL assessments as well as a Collaborative Film project where students work collaboratively to plan and create an original completed film of 7 minutes.

DANCE

DA_401 INTRODUCTION TO DANCE

Length/Credit: 1 semester - 0.5 PE or 0.5 Art credit

Other info: Does not take the place of required 9th Grade Core PE. No previous experience needed.

Location: Bellevue, Sammamish

Introduction to Dance is a class geared toward anyone who is interested in learning how to express themselves through movement. The course will teach the basics of many different styles of dance including Jazz, Ballet, Modern, Hip Hop and Social (Swing, Waltz etc.), as well as Choreography. The historical background of these forms will also be discussed as well as how the forms all relate to one another. Your final project will involve choreographing a dance with your peers and presenting during an informal studio show. Dancers will focus on improving core, arm, and leg strength; coordination; expression; and confidence.

DA_501 DANCE PERFORMANCE

Length/Credit: 1 semester - 0.5 PE or 0.5 Art credit

Other info: May be repeated for

Prerequisite: Intro to Dance at the High School or Dance Performance at the Middle School or Instructor permission

Location: Sammamish

In this course students will learn combinations to improve their strength and body awareness, at the same time focusing greater attention toward accuracy and timing of each step. Group and self-assessment is a cornerstone of this dance class. All students will choreograph their own dance with their peers while using specific choreographic elements that will be taught throughout the semester. Informal studio shows will feature student and instructor choreography.

Middle School classes are one semester unless noted. High School Program includes a variety of classes to meet the 2.0 credit requirement in Fine Arts. Students may directly enter electives and experience a variety of art media. Students who find an interest in a particular art area and students who are motivated to apply to art colleges can enroll in a sequence to prepare for the Advanced Art Portfolio class. All courses include art history, elements and principles of design, critique, and portfolio development.

Electives at each high school will be determined by facilities, teacher expertise, and student need. Enrollments dictate offering subsequent advanced courses. Other Visual Art credits are offered through Career & Technical Education courses.

Through creating, presenting, responding and connecting to art, students will develop creative problem solving and higher-level thinking skills.

VA_101 ART EXPLORATION

Length/Credit: 1 semester (may be repeated) - 1 year at Big Picture **Other info:** Fulfills 1 semester

Middle school fine arts requirement.

Recommended for first year art students.

Location: Big Picture (6th grade – 1 year), Chinook, Highland, Odle, Tillicum, Tyee

Develop your creative skills through sampling a variety of experiences that may include drawing, painting, sculpting, printmaking, fiber arts, glass, book arts, and clay. Investigate the elements of art and principles of design and learn techniques to improve your art skills. Resources from art history, cultures, and other artists will inspire your work.

VA_102 STUDIO ART

Length/Credit: 1 year, 1 semester at Highland (may be repeated)

Other info: Fulfills 1 year or 1 semester Middle school fine arts requirement. **Location:** Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

This yearlong class provides in-depth experiences in a variety of media that

may include painting, sculpture, fiber, book arts, drawing, cartooning, clay, glass art, print making, photography, and digital media. Some art projects will be self-directed, fueled by the students' own interests with research in art history, cultures, and contemporary art.

VA_104 ART AROUND THE WORLD

Length/Credit: 1 semester (may be repeated)

Other info: Fulfills 1 semester Middle school fine arts requirement.

Location: Chinook, Highland, Odle, Tyee, Tillicum

Bellevue students represent numerous backgrounds and cultures. This class will provide opportunities to appreciate our diversity through making art and cultural crafts inspired by artifacts from around the world. Students will work with a variety of materials and learn how art forms have been influenced by geography, people, materials, and traditions.

VA_103 CERAMICS

Length/Credit: 1 semester (may

be repeated)

Middle School Visual Arts

Other info: Fulfills 1 semester Middle School fine arts requirement. **Location:** Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

In this class, you will learn hand-building techniques to create functional and sculptural pottery. Pinch, coil, and slab methods along with a variety of surface design and glazing techniques will be taught. Examples of projects may include decorative sculptures, coil vessels, slab boxes, bowls, and mugs. Students who repeat the course will have the opportunity to progress to higher level work. Potters wheels are site specific.

VA_203 CERAMICS 2

Length/Credit: 1 semester (may be repeated)

Prerequisite: Ceramics

Other info: Fulfills 1 semester Middle school fine arts requirement. **Location:** Odle, Tyee, Highland

Ceramics 2 will give experienced students further opportunities to explore and develop hand-building skills by creating more complex forms with pinch, slab, and coil techniques. Students will create a variety of forms, both functional and decorative. Various surface treatments, additive or subtractive techniques, as well as glazing techniques, will also be a focus. Students will engage in the creative process: investigating, planning/designing, creating and evaluating. Potters wheels are site specific.

VA_201 ART AND DESIGN 7/8

Length/Credit: 1 year

Other info: Fulfills Middle school fine arts requirement Integrated Arts, this is a 2 year looping program.

Location: International

Students study the elements of line, shape, form, color, texture, space, and principles of design - the rules

that govern how the elements are organized in a composition. This course includes a variety of media and connections to art history, cultures and artists and provides a vocabulary and foundation for students to discuss and evaluate their own and with peer work in a supportive atmosphere. Students investigate the computer as a tool medium, while practicing drawing and exploring design techniques.

VA_301 VIDEO PRODUCTION

Length: 1 semester **Location:** Big Picture

This class introduces the basics of video production utilizing a personal camcorder and video editing software. Students study video technologies, basic equipment operation, video composition, basic lighting and audio production planning, and visual storytelling. Students work in groups to create video projects utilizing postproduction editing. Students will study the film of leading directors and become knowledgeable of the history of film. The student will become aware of assorted multimedia tools that could be used to enhance future educational or work-related projects and presentations. Oral or written evaluations of work will be expected on a regular basis.

VA_105 CONNECTIONS IN ART

Length: 1 semester (may be repeated) **Other info:** Fulfills 1 semester Middle school fine arts requirement

Location: Tillicum

Studies show that students who participate in integrated arts courses improve test scores in mandatory core subjects. This new survey course is designed to reveal STEM connections to other subjects and build a solid foundation of problem solving skills. Students will explore the chemistry and biology of color, environmental art, creative planning through

engineering, applications in digital media technology, and creativity across mathematics. A synergy concept based community project using all areas of the curriculum will finish the course.

VA_202 STUDIO ART 2

Length/Credit: 1 year **Prerequisite:** Studio Art

Other info: Fulfills Middle school fine arts requirement. 8th grade elective

Location: Big Picture

This course continues the exploration of drawing, painting, inventing and building, using the skills, concepts, and knowledge provided in Studio Art. A variety of media will be explored in-depth and may include painting, sculpture, fiber, book arts, drawing, cartooning, clay, glass art, photography, and digital media. Some art projects will be self-directed, fueled by the students' own interests with research in art history, cultures, and contemporary art.

VISUAL ART THROUGH CTE

CT_203 MEDIA TECHNOLOGY

required.

Location: Chinook, Highland, Odle,

Tillicum, Tyee

See Middle School Career & Technical Education for course

details.

CT 100

APPLIED ENGINEERING

Length: 1 semester

Other info: Fulfills middle school CTE

or fine arts requirement

Prerequisite: Recommended for

6th graders.

Location: Chinook, Highland, Odle,

Tillicum, Tyee

Visual Art offers a variety of classes to meet the 1.0 credit requirement in Fine Arts. All courses listed will count toward this requirement. Students may directly enter electives and experience a variety of art forms and media or pursue a specific art area of interest. All visual art classes include art history, elements and principles of design, critique, and portfolio development. Fees are charged for materials in some art classes.

2-D VISUAL ART

VA_401 DRAWING & PAINTING 1

Length/Credit: 1 semester - 0.5 Art credit

Location: Bellevue, Interlake, International, Newport, Sammamish, Big Picture

Students explore a variety of media providing a foundation in the elements and principles of art with an emphasis on drawing and painting in traditional media such as graphite, charcoal, pastel, acrylic and water color. The study of historical and contemporary artists and culture provides vocabulary skills and a foundation for students to discuss and evaluate their own work. This course may also include printmaking, calligraphy, computer applications, and commercial art. This course is a suggested prerequisite for the AP Studio Art and IB programs.

VA_501 DRAWING & PAINTING 2

Length/Credit: 1 semester - 0.5 Art credit; *(may be repeated for credit)* **Prerequisite:** Drawing & Painting1

Location: Bellevue, Big Picture, Interlake, Newport, Sammamish, International

Extend and refine skills and media introduced in Drawing & Painting. Under the guidance of the instructor, student initiated projects will explore a particular media in depth (example: ink drawing) or the Breadth of a media (example: water based medium; ink, water-color, tempera, acrylic, etc.) or the development of a Concentration (theme for a body of work). Portfolio development in this class is applicable to the student's future AP Drawing or 2D Design Portfolio.

VA_402 ART & DESIGN 1

Length/Credit: 1 semester - 0.5 Art credit

Location: Bellevue, Big Picture, Interlake, International, Newport, Sammamish

Students explore a variety of media, with an emphasis on design. Two-dimensional media may include: painting, printmaking, collage, and digital media. Students will be introduced to digital media as a tool for manipulating and enhancing traditional studio media. Three-dimensional media may include:

sculptural clay, functional clay, wood, paper product sculpture, jewelry, textiles, and stained glass. The study of art history, cultures, and artists will incorporate vocabulary and the elements and principles of design. This course is a suggested prerequisite for the AP and IB programs.

VA_502 ART & DESIGN 2

Length/Credit: 1 semester - 0.5 Art credit (may be repeated for credit)
Prerequisite: Art & Design 1
Location: Bellevue, Big Picture,
Interlake, International, Newport,
Sammamish

Students refine and enhance design skills with experiences in a variety of two-dimensional media. The principles of design will be explored through assignments that may include: printmaking, digital imaging, typography, collage, graphic design, and commercial art. Advanced Art & Design students will develop their portfolio in Breadth (variety of media approaches) or Concentration (theme for a body of work) as part of this class. Portfolio development is applicable to the student's future AP 2-D Design or Drawing Portfolio.

VA_403 COMPUTER VISUAL ART 1

Length/Credit: 1 semester - 0.5 Art credit; *(may be repeated for credit)* **Location:** Newport

This course is an introduction to computer skills and their applications for drawing, design, graphics and photography. Students will work both in the computer lab and the art studio combining digita I work with traditional materials. Class assignments explore the elements and principles of art while instructing students in the applications of PhotoShop and other software to transform drawings, photographs and other traditional media through

manipulation, importing, scanning and printing. This is a foundations class for the AP 2D Design Portfolio.

VA_412 PHOTOGRAPHY 1

Length/Credit: 1 semester - 0.5 credit (*H/CTE or Q/Art*)

Location: Bellevue, Interlake, Newport, Sammamish, Big Picture

Students learn to capture and compose images with a camera and to develop compositional skills with the "photographic eye." Students will also learn the history and development of photographic technology while exploring its importance in careers of journalism, advertising, commercial and fine art. At Sammamish students will use a 35 mm film camera, learn darkroom techniques, and be introduced to digital photography. At Newport, Bellevue, and Interlake students will process, manipulate, and print digital images using PhotoShop. Access to a camera is required. See the photography teacher for options of cameras and processing.

VA_512 PHOTOGRAPHY 2

Length/Credit: 1 semester - 0.5 credit (may be repeated for credit) (H/CTE or O/Art).

Prerequisite: Photography 1 **Location:** Bellevue, Interlake, Newport, Sammamish, Big Picture

Under the guidance of the instructor, the advanced student of photography will extend and refine the skills and techniques introduced in Photography, including creating and manipulating digital images in Photoshop. Advanced photography students will develop their portfolio in Breadth (variety of photography approaches) or Concentration (theme for a body of work) as part of this class. Portfolio development is applicable to the student's future AP 2-D Design Portfolio.

VA 400

DIGITAL MEDIA/VISUAL ART 1

Length/Credit: 1 year – 1.0 credit **Prerequisite:** 9th grade standing **Location:** Bellevue, Newport, Sammamish, Big Picture

VA_500

DIGITAL MEDIA/VISUAL ART 2

Length/Credit: 1 year – 1.0 credit **Prerequisite:** 10th grade standing **Location:** Bellevue, Newport, Sammamish, Big Picture

VA_600 DIGITAL MEDIA/VISUAL ART 3

Length/Credit: 1 year – 1.0 credit **Prerequisite:** 11th grade standing **Location:** Bellevue, Newport, Sammamish, Big Picture

This course is an introduction to computer skills/digital media and their applications for drawing, design, graphics, photography, and videography. Students will work both in the computer lab and the art studio combining digital work with traditional materials. Class assignments explore the elements and principles of art while instructing students in the applications of PhotoShop and other software to transform drawings, photographs and other traditional media through manipulation, importing, scanning and printing.

Students learn to capture and compose images with a digital camera and to develop compositional skills with a photographic eye.
Students will also learn the history and development of photographic technology while exploring its importance in journalism, advertising, fine art, and commercial applications for possible career choice.

Students will design and create digital portfolios demonstrating their achievements in their school course work and learning goal areas.

3-D VISUAL ART

VA 406 3-D ART & DESIGN/SCULPTURE

Length/Credit: 1 semester -

0.5 credit

Location: International, Newport

This is a survey course for threedimensional media. A variety of construction techniques and materials will be employed to explore "form." Historical and contemporary threedimensional art will be discussed to inspire student work. Materials used may include: wood, metal, plaster, plastics, paper products, fibers, and clay.

VA 404 CERAMICS 1

Length/Credit: 1 semester -0.5 credit;

Location: Bellevue, Big Picture, Interlake, International, Newport, Sammamish

Explore the many facets of clay construction and decoration in creating functional, sculptural and decorative clay objects. Handbuilding, wheel-throwing, glazing, and firing techniques will be introduced through open-ended problems that require individual unique solutions. An open mind, a desire to experiment, and a willingness to get involved in the creative process are the only prerequisites for this class.

VA_504 **CERAMICS 2**

Length/Credit: 1 semester -0.5 credit; (may be repeated for credit)

Prerequisite: Ceramics 1 **Location:** Bellevue, Big Picture, Interlake, Newport, Sammamish

In this advanced class, students may choose a clay forming technique to explore in-depth as they refine the skills and techniques introduced in Ceramics. Individual research of

historical and contemporary ceramic art will inspire work. Advanced ceramic students will develop their portfolio in Breadth (variety of ceramic or other 3D media approaches) or Concentration (theme for a body of work) as part of this class. Portfolio development is applicable to the student's future AP 3-D Design Portfolio.

VA 405 **METAL DESIGN/JEWELRY 1**

Length/Credit: 1 semester - 0.5

credit

Location: Bellevue, Interlake

Design and produce jewelry and other metal art forms. Basic metal fabrication skills include: soldering, riveting, annealing, pickling, rolling, polishing, and stone setting. Students will be able to work with a variety of different metals and incorporate other materials into their finished pieces (glass, wood, ceramics, etc.).

VA 505 **METAL DESIGN/JEWELRY 2**

Length/Credit: 1 semester - 0.5 credit (may be repeated for credit)

Prerequisite: Metal Design/Jewelry 1 Location: Bellevue, Interlake

The advanced jewelry student will expand and refine the techniques learned in Jewelry. Individual research of historical and contemporary metal art will inspire work. Advanced metal design/jewelry students will develop their portfolio in Breadth (variety of metal or other 3D media approaches) or Concentration (theme for a body of work) as part of this class. Portfolio development is applicable to the student's future AP 3-D Design Portfolio.

VA 407 STAINED GLASS 1

Length/Credit: 1 semester -

0.5 credit

Location: Interlake, Newport

Explore the medium of glass and learn basic construction techniques to actualize your own designs. Individual student projects may provide experience in designing, cutting, copper foiling, soldering, etching, lead caning, and fusing

VA 507 **STAINED GLASS 2**

Length/Credit: 1 semester -0.5 credit (may be repeated for credit);

Prerequisite: Stained Glass **Location:** Interlake, Newport

Design individual glass projects that extend and refine the techniques learned in Stained Glass. Students will research contemporary and historical glass to inspire work. Advanced stained glass students will develop their portfolio in Breadth (variety of glass or other 3D media approaches) or Concentration (theme for a body of work) as part of this class. Portfolio development is applicable to the student's future A.P. 3-D or 2-D Design Portfolio.

VA 409 **BEGINNING GLASS BLOWING**

Length/Credit: 1 semester - 0.5 credit

(may be repeated for credit) Location: Sammamish

This class will cover the basics of working with molten glass, with an emphasis on studio and hands on experiences. Students will learn a variety of hot glass techniques such as sculpting and blowing, as well as warm glass techniques such as fusing and slumping. The history of glass art will be explored. Students will take field trips to observe contemporary glass artists at work and research glass artists and history.

VA 509 INTERMEDIATE GLASS BLOWING

Length/Credit: 1 semester - 0.5 credit

(may be repeated for credit)

Prerequisite: Beginning Hot Glass

Location: Sammamish

This class is a continuation of Beginning Hot Glass and will allow students the opportunity to develop and refine skills, and explore new and more complex hot glass techniques.

VA_609 ADVANCED GLASS BLOWING

Length/Credit: 1 semester - 0.5 credit (may be repeated for credit)

Prerequisite: Intermediate Hot Glass

Location: Sammamish

This class is designed for serious glass students who have mastered the basic technical aspects of working in hot glass and seek opportunities to expand their skills by learning advanced techniques. Advanced hot glass students will develop their portfolio in Breadth (variety of glass or other #D media approaches) or Concentration (theme for a body of work) as part of this class. Portfolio development is applicable to the student's future AP 3-D Design Portfolio.

DIGITAL ARTS

CT_417 DIGITAL MEDIA PRODUCTION 1

Length/Credit: 1 semester - 0.5

CTE or Art credit

Location: Bellevue, Interlake, Newport, Sammamish, Big Picture Ready to make your own movie, music video, or documentary? How about learning the art of recording music or voices for CDs, soundtracks, cartoons, or commercials? In this course, students will use exciting new digital video cameras and state-of-the-art computer editing programs to produce video and audio recordings. Students will learn and experience the complete production process including idea brainstorming, scriptwriting and storyboarding, filming and audio recording, acting, computer editing, and video, CD, or DVD production.

CT_517 DIGITAL MEDIA PRODUCTION 2

Length/Credit: 1 semester - 0.5

CTE or Art credit

Prerequisite: Successful completion Digital Video/Audio Production 1 or

permission of instructor.

Location: Bellevue, Interlake, Newport, Sammamish, Big Picture

Take the next step into the exciting world of multi-media with cut-ting edge technology making movies and recording audio. Students will work individually and on teams producing video and audio projects for school assemblies, student activities and sports, special community events, and non-profit organizations. There will be opportunities to produce a daily TV news show for the school's closed circuit TV. Additionally, students will write and produce a short movie, animated video or CD, or music recording.

CT_519 COMPUTER GRAPHICS 1

Length/Credit: 1 semester - 0.5 CTE or Art credit

COLLEGE

Prerequisite: Keyboarding skills and general computer knowledge recommended.

Location: Bellevue, Interlake,

Sammamish

Students will learn the basic design principles and the required software for electronic publishing and pre-press. The course will focus on electronic image manipulation, page layout, and web page design. The software used in the class, including Photoshop, InDesign and Illustrator, meet current industry standards. Microsoft Office IT Academy Beginner, Introduction to Graphics or familiarity with computer operation is recommended. (This class may be used as either a Fine Arts credit or an Occupational Education requirement at Sammamish High School.)

CT_619

COMPUTER GRAPHICS 2

Length/Credit: 1 semester - 0.5

CTE or Art credit

Prerequisite: Computer Graphics **Location:** Bellevue, Interlake,

Sammamish

Other info: Students will submit a

portfolio in the spring

Location: Bellevue, International

Students further their skill development from Computer Graphics through a series of independent projects using the most current software. Programs used in this class may include vector-based software such as Illustrator, raster-based software such as Photoshop, and animation software such as Flash. This may vary from school to school and student to student. (This class may be used as either a Fine Arts credit or an Occupational Education requirement at Sammamish High School.)

ADVANCED PROGRAMS IN ART

In the Advanced Portfolio classes, motivated art students work on portfolios to submit for college admission, scholarships, International Baccalaureate Assessment (at Interlake) and the A.P exam. Students choose the portfolio (Drawing, Photography, Computer Art, Art & Design, 3-D Design) that best "fits" their chosen approach and media. Students need to talk to the art teacher(s) if they are unsure which portfolio class to enroll in. There is overlap, especially between the Drawing and the Art & Design Portfolios (You may refer to the AP Course Descriptions on the AP website for more information on the distinctions between the portfolios). Each portfolio displays competence and range of understanding in three areas. The Concentration section asks to demonstrate a depth

of investigation and process of discovery. The Breadth section asks to demonstrate a serious grounding in visual principles and a variety of material techniques. The Quality section permits the student to select the works that exhibit their "best" examples of synthesizing form, technique and content. Students may include artwork previously done in other studio art classes as part of submitting the required portfolio. Students enrolled in the International Baccalaureate program at Interlake will submit portfolios for the IB-SL (year 1) and IB-HL (year 2) assessments or may choose to submit one of the A.P. portfolios to the College Board.

VAA511 AP ART HISTORY

Length/Credit: 1 year - 1.0 Fine Arts or Social Studies credit

Prerequisites:Foundations of World History

Other info: Students will take AP

exam in the spring

Location: Newport, Bellevue

This course is equivalent to an introductory college course in art history. No prior experience in the history of art is required. Students will pursue an understanding of architecture, sculpture, painting, and other art forms within historical and cultural contexts. Ancient Near Eastern, Greek, Roman, European, and American traditions will constitute ninety percent of the focus of this class. The AP Art History exam consists of both multiple choice and essay questions. One of the essay guestions will allow students to show their knowledge of non-European traditions. (Refer to the College Board Central website for more specific information on the AP Art History exam.)

VAA514 AP DRAWING PORTFOLIO

Length/Credit: 1 year - 1.0 credit **Length/Credit:** 1 semester - 0.5

CTE or Art credit

Prerequisite: Suggested 2 semesters of visual art and teacher recommendation

Other info: Students will submit a portfolio in the spring

Location: Bellevue, International,

Sammamish, Newport

In this two semester advanced art course, students will work on a Drawing Portfolio as defined by the Advanced Placement Studio Art criteria. The Drawing Portfolio includes a very broad interpretation of drawing issues, mark-making, and media, including (but not limited to): drawing, painting, printmaking and mixed media.

VAA612 AP PHOTOGRAPHY / 2D ART & DESIGN

Length/Credit: 1 year - 1.0 credit

(H/CTE or Q/Art)

Prerequisite: Suggested 2 semesters of visual art and teacher recommendation

Other info: Students will submit a portfolio in the spring

ortiono in the spring

Location: Bellevue, Big Picture, Newport, Sammamish

In this two semester course, advanced photography students will work on a 2-D Design Portfolio as defined by the Advanced Placement Studio Art criteria. The 2D Design Portfolio includes (but not limited to): graphic design, typography, digital imaging, collage & photography.

VAA513 AP 3-D ART & DESIGN PORTFOLIO

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Suggested 2 semesters of visual art and teacher

recommendation

Other info: Students will submit a

portfolio in the spring

Location: Bellevue, International, Newport, Sammamish

In this two semester advanced art course, students will work on a 3-D Design Portfolio as defined by the Advanced Placement Studio Art criteria. The 3-D Design Portfolio includes (but not limited to) traditional sculpture, architectural models, apparel, ceramics, three-dimensional fiber arts, metal work, & other 3-dimensional media.

VAA517 AP 2-D ART & DESIGN PORTFOLIO

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Suggested 2 semesters of visual art and teacher recommendation

Other info: Students will submit a

portfolio in the spring

Location: Bellevue, International,

Newport, Sammamish

In this two semester course, advanced art students will work on a 2-D Design Portfolio as defined by the Advanced Placement Studio Art criteria. The 2D Design Portfolio includes (but not limited to): painting, printmaking, digital imaging, illustration, graphic design, collage, typography, & photography.

VAA601 IB VISUAL ART SL/AP VISUAL ART 1

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Suggested 2 semesters of visual art and teacher recommendation

Other info: Students will submit a portfolio in the spring for the IB SL assessment (1 year) Students may choose to submit an A.P Art Portfolio (Drawing, 2D Design, 3D Design)

Location: Interlake

In this two semester advanced art course, students will develop a portfolio of studio work and conduct research into visual art forms of interest as defined by the IB SL assessment criteria. The IB Portfolio

may include a variety of art media including traditional 2D & 3D media, and computer generated work. Research in the form of drawing and writing will inform the art portfolio, but will compose a smaller percent of the grading in the course.

VAA701 IB VISUAL ART HL/AP VISUAL ART 2

Length/Credit: 1 year - 1.0 credit **Prerequisite:** IB Visual Art SL/AP

Visual Art 1

Other info: Students will submit a portfolio in the spring for the IB HL assessment (2 years) Students may choose to submit an A.P Art Portfolio (Drawing, 2D Design, 3D Design)

Location: Interlake

In this two semester advanced course, students will further develop a portfolio of studio work started in year one focusing on a theme or Concentration. Further research into visual art forms will inform the art portfolio, but will compose a smaller percent of the grading in the course. The IB HL assessment will be scored on two years of portfolio art work and two years of research in a variety of forms relating to the student's interests in artists, cultures, and art forms. Students who plan to submit one of the A.P. portfolios should be sure to comply with the specifications for the portfolio they choose in both the Breadth and Concentration sections.

Middle School Science

Science promotes curiosity and a sense of wonder, encourages life-long exploration, and provides a foundation for understanding the natural world. Science courses promote hands-on learning in an environment that fosters scientific inquiry. Through scientific investigation, students expand their knowledge to better understand and explain the phenomena they observe in the world around them. Curriculum is aligned with the Next Generation Science Standards (www. nextgenscience.org).

The science disciplinary strands of life science, physical science and the earth and space sciences are integrated throughout grades 6 through 8. Each year builds on the previous year's content at a deeper level or more complex context. The Washington Comprehensive Assessment of Science (WCAS) will be given at the end of the 8th grade year. The WCAS assesses the Next Generation Science Standards (www.nextgenscience.org).

Science is required for all students each year in grades 6 through 8.

SC_101 6TH GRADE SCIENCE

Length/Credit: 1 year **Location:** Big Picture, Chinook, Highland, International, Odle, Tillicum,

The focus in sixth grade science is the development of foundational and observable principles in science. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenge students to consider multiple perspectives by carrying out investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this year focus on body systems, variation of traits, thermal energy, weather patterns and the impact of climate change and humans' role in these changes.

SC_201 7TH GRADE SCIENCE

Length/Credit: 1 year

Location: Big Picture, Chinook, Highland, International, Odle, Tillicum,

Tyee

Middle School Science

The focus in seventh grade science is to continue the development of science and engineering practices and observable principles. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenge students to consider multiple perspectives by carrying out investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this year focus on phase change, chemical reactions, plate motion, rock transformation, matter and energy in ecosystems, and ecosystem dynamics.

SC_301 8TH GRADE SCIENCE

Length/Credit: 1 year

Location: Big Picture, Chinook, Highland, International, Odle, Tillicum, Tyee

The focus in eighth grade science is multiple contexts for exploring relevant science phenomena and using scientific explanation and argumentation. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenge students to consider multiple perspectives by carrying out investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide students opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this year focus on energy transfer, forces, magnetic fields, Earth-Moon-Sun systems, natural selection and evolutionary history.

SC 202

SCIENCE: SPECIAL TOPICS Length/Credit: 1 semester Location: Chinook, Odle

Students will explore science topics of special interest, such as engineering design, forensic science, physics and environmental issues. Students will select their own projects as related to the curriculum.

Science promotes curiosity and a sense of wonder, encourages life-long exploration, and provides a foundation for understanding the natural world. Science courses promote hands-on learning in an environment that fosters scientific inquiry. Through scientific

investigation, students expand

their knowledge to better

the world around them.

understand and explain the

phenomena they observe in

Science is required for all students in grades 6 through 10. Students must have 3 Science credits (2 Lab Science credits) for graduation. Students are encouraged to take science all four years during high school to maximize their post-high school options and to provide a foundation for lifelong learning in the sciences.

The recommended science course sequence will provide students with foundational study of the life sciences, physical sciences and the earth and space sciences in grades 9-11. Students who complete the recommended course sequence of Biology, Chemistry and a physics course will be best prepared to demonstrate proficiency on the Washington Comprehensive Assessment of Science (WCAS). The WCAS assesses the Next Generation Science Standards (nextgenscience. org). Students are encouraged to explore and challenge themselves with additional science electives.

REQUIRED SCIENCE

SCIENCE - GRADE 9-10

Students in grade 9 and 10 will complete biology and chemistry. At International School the order is chemistry, then biology.

SC_401 BIOLOGY

Length/Credit: 1 year - 1.0

Lab Science credit

Location: Bellevue, Big Picture, Interlake, International, Newport, Sammamish

This introductory biology course is designed to engage students in the core concepts of biology with some earth science. Students will use phenomena to explain ecosystem dynamics, genetics and heredity, and evolution. Students use the practices of scientists and engineers: asking questions, developing models, designing and conducting investigations, using mathematics and computational thinking, scientific explanation and argumentation.

SC_501 CHEMISTRY

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: Biology or concurrent **Location:** Bellevue, Big Picture, Interlake, International, Newport, Sammamish

This introductory chemistry course is designed to engage students in core concepts of chemistry with some earth science. Students will use phenomena to explain atomic theory, concepts in bonding, states of matter and behavior of gases, and chemical reactions with extensions into earth science. Students use the practices of scientists and engineers: asking questions, developing models, designing and conducting investigations, using mathematics and computational thinking, scientific explanation and argumentation. This course will provide opportunities for students to apply their understanding of chemistry to environmental science.

SCH500 IB CHEMISTRY SL 1

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: Biology

Other info: Students who take IB SL 1 AND IB Chemistry SL2/AP Chemistry may complete the IB Standard Level (SL) assessments in the second year of the course. IB Chemistry SL1 is the first course in a two-course sequence and is not an IB testing course.

Location: Interlake

This course covers the introductory level of the IB SL chemistry curriculum such as atomic structure, chemical reactions and quantities, periodicity, chemical bonds (via organic chemistry), thermodynamics, kinetics, equilibrium, acids and bases, and redox processes. The primary method of instruction is guided inquiry with an emphasis on hands-on activities. Students will learn basic laboratory techniques, how to collect and

analyze data, and will design their own experiments.

FURTHER SCIENCE STUDY

The high school science program in Bellevue is developed as a sequence of courses. Physics should be taken after Chemistry in the course sequence. We recommend that students take physics or AP Physics 1 while in high school to round out their high school science transcript.

PHYSICS

SC_601 PHYSICS

Length/Credit: 1 year - 1.0

Lab Science credit

Prerequisite: Chemistry or

concurrent

Location: Bellevue, Interlake, Newport, Sammamish

This laboratory science course focuses on concepts and principles that explain many naturally occurring events in the world. Students also develop strong problem-solving skills as they build an understanding of straight line and rotational motion, gravitation, momentum and energy, electricity, and magnetism. Physics core ideas are connected to laboratory experiences and the real world.

SC_620 PHYSICS OF THE UNIVERSE

Length/Credit: 1 year - 1.0

Lab Science credit

Prerequisite: Biology, Chemistry,

Algebra I

Other info: 5 college credits for Astronomy 101 are available from University of Washington.

Location: Big Picture

This year-long introductory course is designed to provide an overview of Physics in the context of Astronomy. The class will explore major mysteries

of space by examining forces, motion, energy, waves and electromagnetism. Students will engage in the practices of scientists and engineers in their course of study: asking questions, developing models, planning investigations, scientific explanation and argumentation.

SCA601 AP PHYSICS 1

Length/Credit: 1 year - 1.0

Lab Science credit

Prerequisite: Chemistry, Algebra 2

recommended

Other info: Students will take the AP

exam in the spring.

Location: Bellevue, International,

Newport, Sammamish

The course provides a systematic introduction to the main principles and concepts in physics: mechanics, forces, rotational mechanics, energy, and mechanical waves. AP Physics 1 and AP Physics 2 form a two year equivalent to the first and second semesters of a typical introductory, algebra-based, college physics course. AP Physics 1 may be taken as a stand-alone course.

SCA702 AP PHYSICS 2

Length/Credit: 1 year - 1.0

Lab Science credit

Prerequisite: AP Physics 1 or

AP Physics C

COLLEGE

Other info: Students will take the AP

exam in the spring.

Location: Bellevue, International,

Newport, Sammamish

The course provides a systematic introduction to the main principles and concepts in physics: fluids, thermodynamics, electricity, magnetism, optics, and topic in modern Physics. AP Physics 1 and AP Physics 2 form a two year equivalent to the first and second semesters of a typical introductory, algebra-based, college physics course.

SCA701 AP PHYSICS C - MECHANICS

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: Previous or concurrent

enrollment in Calculus

Other info: Students will take the AP

exam in the spring.

Location: Bellevue, Newport,

Sammamish

This course forms the first part of a college physics sequence for students majoring in the physical sciences or engineering. The course focuses on mechanics. Methods of calculus are used as appropriate in developing concepts and in applying them to physical problems. Strong emphasis is placed on solving a variety of challenging problems in a laboratory setting.

SCH601 IB PHYSICS SL 1/AP PHYSICS 1

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: Geometry. Concurrent enrollment in Algebra 2 is recommended. Students must also complete IB Chemistry SL 2 to qualify for the IB Chemistry assessment and to fulfil the IB Group 4 (Sciences) requirement.

Other info: Students may take the AP Physics 1 exam in the spring. Students may choose to complete another year of physics in order to take AP Physics 2 exam or complete the IB Physics SL or IB Physics HL assessments.

Location: Interlake

This is a college-level physics course in which algebraic solutions to problems are developed. The course provides a systematic introduction to the main principles and concepts in physics via inquiry instruction. Students are challenged to apply their understandings to complex situations, to express their ideas mathematically, and to provide clear justification for their answers. Topics include mechanics, rotational

dynamics, simple harmonic motion, mechanical waves, electric force and fields, and an introduction to electric circuits. Particular emphasis is placed on experimental design and methods of data collection and analysis. Students complete an individual investigation in the spring.

SCH701 IB PHYSICS HL/AP PHYSICS 2

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: IB Physics SL1/AP

Physics 1

Other info: Student may take the AP Physics 2 exam or complete the IB Physics HL and IB Physics SL assessment in the spring.

Location: Interlake

This course serves as a second year of algebra-based, college-level physics for students who are interested in pursuing science or engineering majors at university. Topics from the first year of physics are extended. New topics include thermal physics and thermodynamics; static fluids and fluid dynamics; geometric and physical optics; atomic, nuclear, particle and quantum physics; electromagnetic induction; and advanced electric circuits. Students are challenged to apply their understandings to complex situations, to express their ideas mathematically, and to provide clear justification for their answers. Processes of science and individual investigations are extended from year one.

SCH704 IB PHYSICS SL 2/AP PHYSICS 2

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: IB Physics SL 1/AP

Physics 1

Other info: Student may take the AP Physics 2 exam or complete the IB Physics SL assessment in the spring.

Location: Interlake

This course serves as a second year of

algebra-based, college-level physics. Topics from the first year of physics are extended. New topics include thermal physics and thermodynamics; static fluids and fluid dynamics; geometric and physical optics; atomic, nuclear and particle physics; electromagnetic induction; and static-state circuits with capacitors. Students are challenged to apply their understandings to complex situations, to express their ideas mathematically, and to provide clear justification for their answers. Processes of science and individual investigations are extended from year one.

BIOLOGY

SCA602 AP BIOLOGY

Length/Credit: 1 year - 1.2 Lab Science credit

Other info: Students will take the AP exam in the spring. 6 college credits for Biol& 160 are available from Bellevue College.

Location: Bellevue, International,

Newport, Sammamish

This is a college level biology course which focuses on enduring, conceptual understandings in biology through scientific practices. The curriculum is organized around four underlying biological principles: the process of evolution drives the diversity and unity of life; biological systems utilize free energy and molecular building blocks to grow, to reproduce and to maintain dynamic homeostasis; living systems store, retrieve, transmit and respond to information essential to life processes; and biological systems interact, and these systems and their interactions possess complex properties. Students will also develop advanced scientific inquiry and reasoning skills, such as designing a plan for collecting data, analyzing data, and connecting concepts in and across domains.

COLLEGE

SCH602 IB BIOLOGY SL

Length/Credit: 1 year - 1.2

Lab Science credit

Prerequisite: Biology and Chemistry Other info: Student may complete the IB Biology SL assessment in the spring. 6 college credits for Biol& 160 are available from Bellevue College. Students may choose to take a second year of advanced biology in order to complete the IB Biology HL assessments or AP Biology exam.

Location: Interlake

This is a college-level biology course that is particularly focused on handson, laboratory-based instruction. Core topics include cell biology; molecular biology; genetics; ecology; evolution and biodiversity; and animal physiology. Optional topics include neurobiology and behavior; biotechnology and bioinformatics; ecology and conservation, and human physiology. Processes of science, including experimental design, methods of data collection, and data analysis are stressed in this course. Students will complete an individual investigation in the winter.

SCH702 IB BIOLOGY HL/AP BIOLOGY

Length/Credit: 1 year - 1.0

Lab Science credit

Prerequisite: IB Biology SL Other info: Student may take the AP Biology exam or complete the IB Biology assessment in the spring.

Location: Interlake Length/Credit: 1 year - 1.0 Lab Science credit

This course is the second year of college-level Biology in the IB Program. Topics from the first year of IB Biology SL are extended. New topics include: Metabolism, cell respiration and photosynthesis, plant biology, genetics and evolution, and animal physiology. Optional topics include neurobiology and behavior;

biotechnology and bioinformatics; ecology and conservation, and human physiology. Processes of science, including experimental design, methods of data collection, and data analysis are stressed in this course. Individual investigations are extended from year one.

CHEMISTRY

SCA501 AP CHEMISTRY

Length/Credit: 1 year - 1.2 Lab

Science Credit

Prerequisite: Chemistry, concurrent

Precalculus recommended

Other info: Students will take the AP exam in the spring. 6 college credits for Chem& 161 are available from Bellevue College.

Location: Bellevue, International,

Newport, Sammamish

This course is the equivalent of a full year of college general chemistry for science and engineering majors. Students will build deeper understanding of concepts introduced in the first-year Chemistry course and will engage in laboratory experiences that require detailed quantitative analysis.

SCH605 IB CHEMISTRY SL 2/AP CHEMISTRY

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: IB Chemistry SL 1, AL

Chemistry 9 or Chemistry

Other info: Students who took IB SL 1 or AL Chemistry 9 may complete the IB Standard Level (SL) assessments in this course. Students who took Chemistry may complete the AP Chemistry exam

Location: Interlake

This course builds on the first-year chemistry course, including content in chemical reactions and quantities, periodicity, chemical bonds (via organic chemistry), thermodynamics,

kinetics, equilibrium, acids and bases, and redox processes. Students will choose to engage with an additional unit in materials, biochemistry, energy, or medical chemistry. The primary method of instruction is guided inquiry with an emphasis on hands-on activities. Students will complete an Individual Investigation, in which they develop their own questions, carry out a set of experiments, and evaluate their data and methods.

ENVIRONMENTAL SCIENCE

SC 505

COLLEGE

ENVIRONMENTAL SCIENCE

Length/Credit: 1 year - 1.0 Lab

Science credit

Prerequisite: Chemistry

Location: Bellevue, Big Picture

Students study local, national and global environmental issues through the gathering and interpretation of geologic, ecological and political data. The focus of the course is the origin, dynamics and consequences of environmental damage. Topics include human population, ecosystems, resource use, energy & land use, with an emphasis on personal choices.

SCA505 AP ENVIRONMENTAL SCIENCE

Length/Credit: 1 year - 1.0

Lab Science credit **Prerequisite:** Chemistry

Other info: Students will take the AP

exam in the spring.

Location: Bellevue, Big Picture, International, Newport, Sammamish

This laboratory course provides an understanding of living things and the complex interrelationships between humans and the ecosystem. Classroom activities will focus on developing the skills and abilities needed to work with complex systems and to design models

of these systems. Topic areas will include: sustainability, population ecology, human populations, land and soil, energy resources, environmental quality.

SCH505 IB ESS/AP ENVIRONMENTAL SCIENCE

Length/Credit: 1 year - 1.0 Lab Science credit

Prerequisite: Chemistry

Other info: Students will take the AP Environmental Science or IB Environmental Systems and Societies assessment in the spring.

Location: Interlake

This laboratory course provides an understanding of living things and the complex interrelationships between humans and the ecosystem. Classroom activities will focus on developing the skills and abilities needed to work with complex systems and to design models of these systems. Topic areas will include: sustainability, population ecology, human populations, land and soil, energy resources, environmental quality.

ADDITIONAL AREAS OF STUDY

CT_442 ENVIRONMENTAL SUSTAINABILITY

Length/Credit: 1 year – 1.0 CTE Credit or 1.0 Lab Science Credit **Location:** Interlake High School Horticulture Center

Students in Environmental Sustainability will investigate the complex relationships of the environment, and learn how these connections are utilized in the growing field of Sustainable Agricultural. Through lab science and discussions on the implications of modern agriculture, students will explore the importance of sustainability in global ecological

systems. Students will spend time learning about the interactions of plants and animals in the environment, and then apply this information to design sustainable agricultural systems. Global climate change has a direct impact on agricultural systems. Without a shift in how food is grown the impacts can be devastating. This course asks students how careers in Agriculture and Horticulture can be improved through sustainable practices.

SC_504 MARINE SCIENCE

Length/Credit: 1 year - 1.2 Lab

Science credit

Prerequisite: Chemistry

Other info: 6 college credits for Ocea& 101 are available from Bellevue

College.

Location: Newport

This course is designed to provide an overview of the world's oceans and seas as integrated systems. Four unifying themes include: (1) fundamentals of chemical, physical, and geological oceanography, (2) water analysis and identification and classification of marine organisms, (3) ecological study of the major ocean environments, and (4) interactions of humans with the marine environment. Laboratory experiences will include research, field study, aquarium maintenance, water analysis, identification and classification, and service project related to the marine environment.

SC_506 ANATOMY AND PHYSIOLOGY

Length/Credit: 1 year - 1.2 Lab Science credit or CTE credit at Bellevue and Sammamish Prerequisites: Chemistry

Other info: 6 college credits for Biology 108 are available from

Bellevue College.

Location: Newport, Bellevue,

Sammamish

In this introductory human anatomy and physiology course, students investigate the intricate machinery that makes the body work, relating the functional anatomy and physical geography of organs and organ systems to the physiological functions which they perform. Students will also explore the delicate web of interaction among body systems, the importance of maintaining homeostatic balance within this web, and the medical implications of disturbing this balance.

SC_602 BIOTECHNOLOGY

Length/Credit: 1 year - 1.0 Lab Science credit or CTE credit Prerequisite: Biology, Chemistry Other info: 5 college credits for Biology 107 are available from Shoreline Community College. Location: Newport, Sammamish,

Bellevue

COLLEGE

COLLEGE

Biotechnology is a course designed to give students a comprehensive introduction to the scientific concepts and laboratory research techniques currently used in the field of biotechnology. Students attain knowledge about the field of biotechnology and deeper understanding of the biological concepts used. In addition, students develop the laboratory, critical thinking, and communication skills currently used in the biotechnology industry. Furthermore, students will explore and evaluate career opportunities in the field of biotechnology through extensive readings, laboratory experiments, class discussions, research projects, guest speakers, and workplace visits. The objectives covered in this course are both academic and technical in nature and are presented in a vprogressively rigorous manner.

SCH_703 IB DESIGN TECHNOLOGY AND ENGINEERING SCIENCE SL

Length/Credit: 1 year - 1.0

Elective credit **Prerequisite:** Physics **Location:** Interlake

This course takes on an active approach towards the nature of design and the engineering practices. It provides an opportunity to deal with realistic problems and to synthesize appropriate solutions using the processes practiced during the course, in particular through the design project. Course content includes topics such as ergonomics, sustainability, modeling, materials and energy, production, innovation, design, and markets. Students will complete a design project that includes inquiry and analysis of a design opportunity, conceptual design development, detailed design and refinement, and testing and evaluation. IB SL Assessments: Standard Level (SL) assessments include exams in May, the design project, and the Group 4 project.

SC_610 FRONTIERS IN SCIENCE, OCEANS, ATMOSPHERE, AND SPACE

Length/Credit: 1 year - 1.0 Lab

Science credit

Prerequisite: Biology, Chemistry **Other info:** 5 college credits for Astronomy 101 are available from University of Washington.

Location: Sammamish

This is a yearlong introductory course on the frontiers of science. Students will explore modern theories of the universe, evolution of galaxies, quasars, stars, black holes, planets and solar systems with emphasis on conceptual understanding. Students will also explore the interdisciplinary nature of climate change focusing on causes, evidence, future projections, societal and environmental impacts and potential solutions.

SC_621 ASTRONOMY

Length/Credit: 1 year - 2.0 Lab

Science credits

Prerequisite: Biology, Chemistry,

Algebra 1

Other info: 10 college credits for Astronomy 101 and Astronomy 150 are available from University of Washington.

Location: Sammamish

The first part of this lab science course is a conceptual, rather than mathematical, introduction to the universe. Students will explore modern theories of the universe, evolution of galaxies, quasars, stars, black holes, planets and solar systems. The second part of this course is a survey of the planets of the solar system, with a focus on recent explorations of the planets and on comparative study of the Earth's and the other planets' evolutions.

SC_604

THE BRAIN & ADDICTION

Length/Credit: 1 semester - 1.0 Lab

Science credit

Prerequisite: Biology, Chemistry **Other info:** 5 college credits for Biology 100 are available from University of Washington.

Location: Newport

The Brain and Addiction focuses on the neurobiology of drug use and drug addiction. It covers three major classifications of drugs and investigates how these drugs impact molecules, cells, anatomy, and behavior. The specialized topic area requires a high school biology, chemistry and health prerequisite. Our content helps develop awareness of issues pertaining to drug use that are socially and personally impactful. The course aspires to contribute to helping students become informed consumers of information and decision makers.

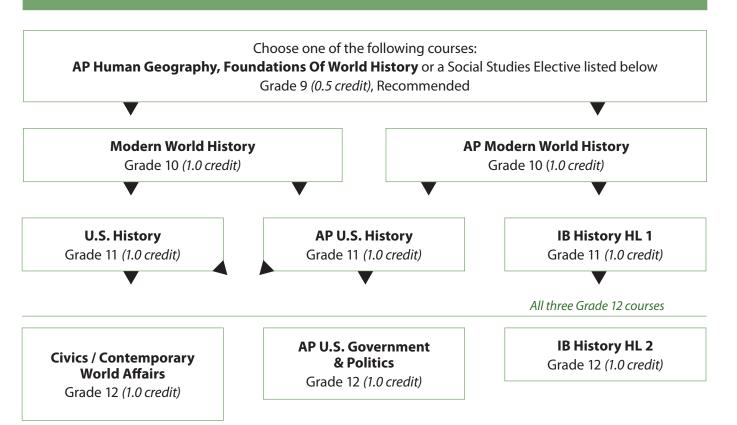

This course fulfills the requirements of the Biology 100 course at the

University of Washington. It meets their general education requirement referred to as Natural Science (NS). As such, the class is intended for non-scientists but is appropriate for prescience students. It will count toward elective credits.

Social Studies Course Sequence Grades 6-12

Middle School each course 1 year Honors Social Studies Grade 7 Honors Social Studies Grade 8

High School 3.5 credits required for graduation

Social Studies Electives IB – International Baccalaureate (at IHS only) **AP** – Advanced Placement

Washington State
History & Government
Sociology
AP Micro/Macro Economics
Psychology / IB Psychology SL

Honors Social Studies

Grade 6

AP Psychology Race in the U.S. AP European History AP Human Geography AP Art History
IB Theory of Knowledge
Economics
AP Comparative Government

Middle School Social Studies

The Middle School program is designed to provide three years of organized, directed student investigations into the areas of civics, economics, geography, and history through multiple perspectives. The first two years focus on different regions and cultures of the world. The final year is a study of early United States history.

Successful completion of Washington State History/Government is a high school graduation requirement. Washington State History/ Government instruction occurs in 7th and 8th grade, in Bellevue School District. Students who transfer into Bellevue School District after 7th grade will be required to satisfactorily complete Washington State History/ Government curriculum in order to meet the graduation requirement. High school registrars will note successful completion of Washington State History/Government on students' transcripts.

SS_101 HONORS 6TH GRADE SOCIAL STUDIES

Length/Credit: 1 year **Location:** Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

The sixth-grade honors social studies course introduces students to the study of geography, culture, and history in the western hemisphere. Students begin the year with a general study of physical and human geography terms and concepts, with an emphasis on exploring how physical features impact people. While studying human geography,

students will also explore the Sustainable Global Goals to learn about global challenges related to poverty, climate, environmental degradation, just to mention a few. They will answer the questions:

- What does it mean to be an active and informed global citizen?
- 2. What challenges do communities face?

These concepts will then be applied throughout the year while studying the physical and human geography of Europe and Latin America. During the study of 20th century Europe, students examine some of the events leading up to the Holocaust using state approved resources provided by the Holocaust Center for Humanity. Students also develop the thinking, reading, and writing skills necessary to make a claim and support it with detailed, relevant evidence, and develop critical reading skills through the analysis of a variety of primary sources such as photographs, maps, and other historical artifacts.

SS_201
HONORS 7TH GRADE
SOCIAL STUDIES
Length/Credit: 1 year

Middle School Social Studies

Location: Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

The seventh-grade honors social studies course begins with an introduction to the foundations and development of Early River Valley civilizations. Subsequently, students will examine the current geography and cultures of the following regions: The Middle East, Africa (West, East, Central, and Southern), China and South Asia. This course also addresses Washington State geography and economics. The geographic terms and concepts learned in the sixth grade are reinforced as they are applied to the regions studied in seventh grade social studies. Students explore cultural and natural features that characterize each region; trace the movement of people, ideas, and products within the regions; and discover ways that each can be divided into sub-regions. Students will examine how civilizations manage their water supplies for consumption, irrigation, and farming and also study our local watershed. The study of China includes a focus on the Cultural Revolution. Students read the novel Red Scarf Girl to discover how the events of the Cultural Revolution impacted one family. Through regular exploration and discussion of current events, students address public issues of global significance in these regions and consider possible resolutions for them through analysis, discussion, and writing. Students also demonstrate their understanding of historical events through writing by developing claims supported by evidence backed with sound reasoning. Using a variety of media, students compile, analyze, and present geographic and economic data pertaining to each region.

SS_301 HONORS 8TH GRADE SOCIAL STUDIES

Length: 1 year

Prerequisite: 8th grade standing

Location: Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

In this course students examine the ideas that shaped the United States as they practice close reading, analyzing, contextualizing, and sourcing skills. The year begins with an examination using perspective to understand historical accounts as well as the role race plays in them. Students then learn about several indigenous peoples lives prior to colonization and how various indigenous people live today. Students discover the impact of European exploration and conquest from the perspective of the displaced indigenous peoples and immigrant Europeans. Students will examine the colonies regionally to recognize political, social, religious, and economic factors that led to their rapid growth. Using primary sources, students will identify the colonial tensions which ultimately led to the American Revolution. The Civics and the Constitution unit takes students through the development of a new government with an emphasis placed on the purpose, structure, and functional compromise of a constitutional government. In the Westward Expansion or European Invasion unit students analyze the impact of westward movement to understand its impact on enslaved Africans, Native peoples, Latinos, women, men, Asians, etc. During the Civil War unit students examine the political, economic, and social differences between regions and people to understand the causes of the war. The year ends with a study of Washington State History from statehood to the present day with a local focus on Japanese Internment and the development of the city of Bellevue.

SS_110 HONORS INTERNATIONAL STUDIES - HUMAN GEOGRAPHY A

Length/Credit: 1 Year, 1.0 credit **Prerequisite:** 6th or 7th grade

standing

Other info: This course is part of a two-year loop

Locations: International School

The Honors Human Geography course is part of a two-year loop for sixth and seventh grade students that uses geographic processes to systematically study and understand spatial patterns that are evident in the world around us. Students utilize spatial concepts and landscape analysis to examine historical and contemporary patterns of human, social, and economic organization, and evaluate their environmental consequences. Students employ the methods and tools of geographers to formulate questions and find answers to issues within our local, regional and global communities. Through this study, students understand how global challenges are interconnected, the importance of considering diverse perspectives, and their role in a sustainable future or people, planet, and prosperity. Human Geography A examines patterns and processes in population; migration; cities & urban land use; and culture (including local & popular culture, ethnicity, language, religion, and gender roles & attitudes).

SS_210 HONORS INTERNATIONAL HISTORY - HUMAN GEOGRAPHY B

Length/Credit: 1 Year, 1.0 credit **Prerequisite:** 6th or 7th grade standing

Other info: This course is part of a two-year loop

Locations: International School

The Honors Human Geography course is part of a two-year loop for sixth and seventh grade students that uses geographic processes to systematically study and understand historical and contemporary spatial patterns that are evident in the world around us. Students utilize spatial concepts and landscape analysis to examine the patterns of human, social, and economic organization, and evaluate their environmental

Middle School Social Studies

consequences. Students employ the methods and tools of geographers to formulate questions and find answers to issues within our local, regional and global communities. Through this study, students understand how global challenges are interconnected, the importance of considering diverse perspectives, and their role in a sustainable future or people, planet, and prosperity. Human Geography B examines patterns and processes in Washington state social equity, ecological, & economic sustainability; agriculture & food production; political organization; and industrial & economic development.

SS_302 HONORS INTERNATIONAL STUDIES – UNITED STATES HISTORY

Length: 1 year

Prerequisite: 8th grade standing **Locations:** International School

In this course students examine the ideas that shaped the United States as they practice the skills of close reading, analyzing, contextualizing, and sourcing. The units of study begin with an examination of the power of perspective in terms of understanding historical accounts as well as the role race plays in them. Following this unit students learn about several indigenous peoples and their ways of living prior to colonization and how some indigenous people live today. Students discover the impact of European exploration and conquest from the perspective of the displaced indigenous peoples and immigrant Europeans. By studying the colonies regionally, students determine political, social and economic factors that led to their rapid growth. Through interpreting and analyzing multiple primary sources, students will recognize the tensions that existed between the colonists and the British government which ultimately led to the American Revolution and

independence. The Civics and the Constitution unit takes students through the development of a new government beginning with the Articles of Confederation and ending with the Constitution. Emphasis is placed on the purpose, structure and function of a constitutional government. In the Westward Expansion or European Invasion unit students will analyze the impact of westward movement from a variety of perspectives to understand its impact on enslaved Africans, Native peoples, Latinos, women, men, etc. During the Civil War unit students examine the political, economic and social differences between regions and people to understand the causes of the war. Students will explore the Washington State and Pacific Northwest Native American history and government.

ELECTIVES

SS_220 CONSTITUTIONAL LAW

Length: 1 semester

Prerequisite: 7th or 8th grade

standing

Locations: Tillicum Middle School

This course will serve as a foundational exploratory (Pre-Law) course prepare students that are interested in the study of civil or criminal law. In this course, students will examine local, state, and federal laws to develop a deeper understanding of the judicial system. Students will engage in hands on activities to support learning such as: speech and debate, mock trials, current events case studies, criminology and forensic science. A project based learning approach will be used to provide students with meaningful, activities to explore about the justice system and requirements for a future career in this field.

Our social studies offerings include a number of subjects and areas of study. The purpose of the high school program is for the student to achieve a high standard of understanding in history, economics, geography and civics and to be able to successfully participate in civic life. The Bellevue School District requires a high school graduate to success- fully complete 3.5 credits of social studies.

These requirements are to be completed as follows:

- A. 0.5 credit of Social Studies Electives.
- B. 1.0 credit of World History or AP World History (or Elective if needed)
- C. 1.0 credit of United States History or AP United States History or IB United States History/Americas
- D. 1.0 credit of United States Civics/
 Contemporary World Problems
 (1.0) or AP U.S. Government/AP
 Comparative Government (1.0)
 or AP Comparative Government
 (1.0) or AP U.S. Government or IB
 History HL 2

Please refer to the course sequence chart for the required/recommended sequence.

SOCIAL STUDIES ELECTIVES

SS_401 FOUNDATIONS OF WORLD HISTORY

Length/Credit: 1 semester - 0.5 credit

Location: Bellevue, Newport Sammamish

This course focuses on an understanding of culture, institutions, technology, and geography prior to 600 C.E. The course will focus on the political, economic, religious, social and cultural institutions that formed as a result of these challenges. An additional purpose of the course is to develop the skills of studying, document analysis, discussion, critical thinking and writing. These skills are essential for success in World History or AP Modern World History. This course covers the Foundations unit of AP World History, focusing on an understanding of cultures, institutions, technology, and geography prior to 600 C.E. Writing instruction will extend student development as outlined by the Common Core State Standards in three skill area: writing precise claims, using valid reasoning, and relevant and sufficient evidence.

SSA403

AP HUMAN GEOGRAPHY

Length/Credit: 1 Year, 1.0 credit

Prerequisite: None

Locations: Big Picture, Interlake, Newport, Sammamish, Bellevue

AP Human Geography is designed to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students will apply the methods and tools of geographers by employing spatial concepts and landscape analysis to examine human social organization and its environmental and geopolitical consequences. Students also learn about the methods and tools geographers use in their science and practice to more completely understand the complexities of: population and migration; cultural patterns and processes; political organization of space; agriculture and rural land use; industrialization and economic development; cities and urban land use.

SS_403 HUMAN GEOGRAPHY

Length/Credit: 1 Year, 1.0 credit **Other info:** 9th grade students at Big Picture must enroll in this course or AP Human Geography

Locations: Big Picture

Human Geography introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students will apply the methods and tools of geographers by employing spatial concepts and landscape analyses to analyze human social organization and its environmental consequences, and engage students to find answers to questions about the world around us. Students will discover how geography gives meaning to an ever-changing world by working on authentic problems

in Bellevue and the larger world by using a hands-on, minds-on problembased learning approach.

SSA470 AP MICRO ECONOMICS/AP MACRO

ECONOMICS

Length/Credit: 1 year - 1.0

elective credit

Other info: Students will take the AP

exam in the spring

Location: Bellevue, Newport,

Sammamish

Students will build on their basic understanding of economic principles by investigating crucial social issues that are the basis of both microeconomics and macroeconomics. This will involve developing an understanding of the economic choices made by individual households and firms as they seek to maximize their wellbeing. It will also entail assessing the measurement of the performance of the American economy, evaluating potential policy tools such as taxes, government spending and interest rates, and understanding the role of the US in the global economy.

SS_464 PSYCHOLOGY

Length/Credit: 1 semester - 0.5

elective credit

Location: Bellevue, Interlake, Newport, Sammamish

Students study human behavior through the approaches of the various and sometimes conflicting schools of psychological thought. Topics of investigations may include such areas as sensation, perception, states of consciousness, memory, personality theory, learning, mental disorders, and social psychology.

SSA464 AP PSYCHOLOGY

Length/Credit: 1 year - 1.0

elective credit

Prerequisite: Biology, Health

(can be concurrent)

Other info: Students will take the AP

exam in the spring

Location: Bellevue, Newport,

Sammamish

This course is equivalent to an introductory college course in psychology. The AP Psychology course is designed to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. They also learn about the ethics and methods psychologists use in their science and practice.

SSH503 IB PSYCHOLOGY SL

Length/Credit: 1 year - 1.0

elective credit

Prerequisite: Biology, Health

(can be concurrent) **Location:** Interlake

IB Psychology SL examines the interaction of biological, cognitive, and sociocultural influences on human behavior, adopting an integrated approach. Students will learn how psychological knowledge is generated, developed and applied enabling the students to achieve a greater understanding of themselves and appreciate the diversity of human behavior. Ethical concerns raised by the methodology and application of psychological research are key considerations in IB Psychology. Students will plan and undertake a simple experimental study and produce a report of their study as part of this class.

SS_404 WASHINGTON STATE HISTORY & GOVERNMENT

Length/Credit: 1 semester - 0.5 elective credit

Location: Bellevue, Interlake, Sammamish, Newport

Other info: This course is for any student, especially those who did not attend a middle school in Washington state and therefore have not yet met the state graduation requirement.

Pacific Northwest History: A journey through our region's past and future. The course will concentrate on our geographic and geologic foundation, our Native Peoples, early explorers, the establishment of state government, and territorial settlers and finally, our economy from its agricultural roots to its cyber future.

SSV404 WASHINGTON STATE HISTORY & GOVERNMENT SELF STUDY

Length/Credit: 1 semester – no credit

Location: Bellevue, Interlake, Sammamish, Newport, Big Picture, International School

Other info: This course is for any student, especially those who did not attend a middle school in Washington state and therefore have not yet met the state graduation requirement.

Pacific Northwest History: A journey through our region's past and future. The course will concentrate on our geographic and geologic foundation, our Native Peoples, early explorers, the establishment of state government, and territorial settlers and finally, our economy from its agricultural roots to its cyber future.

VAA511 AP ART HISTORY

Length/Credit: 1 Year - 1.0 fine arts credit, 1.0 elective credit, or 0.5 fine arts credit, 0.5 social studies elective credit

Other info: Students will take the AP Exam in the spring.

Locations: Newport

This course is equivalent to an introductory college course in art history. No prior experience in the history of art is required. Students will pursue an understanding of architecture, sculpture, painting, and other art forms within historical and cultural contexts. Ancient Near Eastern, Grecian, Roman, European and American traditions will constitute ninety percent of the focus of this class. The AP Art History exam consists of both multiple choice and essay questions. One of the two essay questions will allow students to show their knowledge of non-European traditions. Essay topics will be broad and themes will be announced ahead of time.

SS_470 RACE IN THE UNITED STATES

Length/Credit: 1 semester - .5 elective credit

Locations: Bellevue, Interlake, Newport, Sammamish, Big Picture

This course introduces students to the history and modern implications of race within the context of the United States. With a commitment to sharpening skills in thinking, research, writing, and discussion, the course will focus on experiences of persons of color as a foil to examine several deeper themes. Students will focus their studies around the themes of social construction of race, movements as a catalyst for change, culture inclusion, institutionalized racism, and equity and social justice policy. Students will also master and apply the tenets of Courageous Conversations in order to gain leadership skills in discussing race in their communities. Each person will be encouraged to share their own experiences and to focus on the "personal, local, and immediate" in conversation, while making connections to the larger themes of

the course. Student outcomes will include increased cultural sensitivity, leadership in the community, a collection of academic writing and investigation, and culminating in a project in which students will be encouraged to research and report

out on racial implications in a field of their choice such as art, music, literature, film, science, etc.

CT_471 ECONOMICS

Length/Credit: 1 Semester - .5 CTE credit or .5 social studies elective credit

Location: Bellevue, Sammamish, Interlake

Students will study the laws of supply and demand and why people and societies make economic choices. Students will examine macroeconomic and microeconomic principles in order to understand the fundamentals of the American and global economic systems. Students will examine components of the American economy such as price, competition, business and banking institutions. The course will also examine issues related to the economy such as employment and labor issues, the role of the government in the economy and selected topics on global economics.

SS_463 SOCIOLOGY

Length/Credit: 1 semester - 0.5

elective credit **Location:** Bellevue

Sociology is the study of the society around us. We will look at the concept of conformity and how that influences our behavior. Classic experiments like the Milgram Experiment, the Stanford Prison Experiment and other extreme human behaviors are at the heart of this investigation. Other topics include a look at American culture, human socialization, race and ethnicity and gender roles in

American society. Finally, we will look at the creation of positive social movements and creating positive social change.

SSA480 AP EUROPEAN HISTORY

Length/Credit: 1 semester - 0.5

elective credit

Prerequisite: AP Modern World History or Modern World History

Location: Bellevue

AP European History focuses on developing students' abilities to think conceptually about European history from approximately 1450 to the present. Five themes of equal importance—Interaction of Europe and the World, Poverty and Prosperity, Objective Knowledge and Subjective Visions, States and Other Institutions of Power, and Individual and Society—provide areas of historical inquiry for investigation.

MODERN WORLD HISTORY

MODERN WORLD HISTORY

Length/Credit: 1 year - 1.0 credit **Location:** Bellevue, Big Picture, Newport, Sammamish

This course focuses on developing students' understanding of world history from approximately 1200 CE to the present. Students investigate the content of world history significant events, individuals, developments and processes in historical periods and develop historical thinking skills and methods (contextualization, synthesis, source analysis, point of view) employed by historians as they study the past. A sample of content includes trade networks, state building in the Americas and Africa, world religions and how they shape societies in Africa, Asia and Europe, intellectual, scientific and technological innovations, agricultural societies, feudalism,

and the manorial system in Europe. Writing and research instruction will extend student development as outlined by the Common Core State Standards in three skill areas: writing precise claims, applying valid reasoning with relevant and sufficient evidence.

SSA505 **AP MODERN WORLD HISTORY**

Other info: This is a 1 period course, but the high school credits are tied to the college credits available. Depending on the partner college the high school credit can vary. Check with your school counselor to determine your school's crediting. Location: Bellevue, Interlake, Newport, Sammamish

AP Modern World History is designed to be the equivalent of a twosemester introductory college or university world history course. Students investigate significant events, individuals, developments in four historical periods from approximately 1200 CE to present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical comparisons and utilizing reasoning about contextualization, causation, and continuity and change over time. The course provides five themes that students explore throughout the year in order to make connections among historical developments in different times and places: interaction between humans and the environment: development and interaction of cultures; state building, expansion, and conflict; creation, expansion and interaction of economic systems; and development and transformation of social structures.

SS 405

MODERN WORLD HISTORY

Length/Credit: 1 year - 1.0 credit Prerequisite: 9th grade standing and/or successful completion of 7th/8th grade Social Studies

Other info: All 10th grade students will take the AP Modern World History Exam in the spring.

Location: International School

This global history course is the first year of a two-year loop. In World History: Modern, students investigate significant events, individuals, developments, and processes from circa 1200 C.E. to circa 1750 C.E. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. The course focuses on major historical developments including Belief Systems, Forms of Governance, Networks of Exchange, Land-Based Empires, and Trans-Oceanic Interconnections. In addition, the course explores a variety of contemporary world affairs and global issues.

SSA504

AP MODERN WORLD HISTORY

Length/Credit: 1 year - 1.0 credit **Location:** International School

This global history course is the second year of a two-year loop. In AP World History: Modern, students investigate significant events,

individuals, developments, and processes from circa 1750 C.E. to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. The course focuses on major historical developments including Revolutions, the Consequences of Industrialism, Global Conflicts, the Cold War and Independence, and Globalization. In addition, the course explores a variety of contemporary world affairs and global issues.

UNITED STATES HISTORY

SS_601 UNITED STATES HISTORY

Length/Credit: 1 year - 1.0 credit **Location:** Bellevue, Big Picture, International, Newport, Sammamish, Interlake

This U.S. History course focuses on the development of historical thinking skills (chronological reasoning, comparing and contextualizing, crafting historical arguments using historical evidence, and interpreting and synthesizing historical narrative) and the development of students abilities to think conceptually about U.S. history from approximately 1491 to the present. The course content and pedagogy attempts to

decolonize the history of the United States and prioritize the previously unheard stories and experiences of and the impacts of events and policies on historically and currently marginalized groups, including, but not limited to: indigenous peoples and sovereign Tribes; Black, Latinx, Asian, Pacific Islanders and all people of color; women; transgender and gender-nonconforming people; LGBTQ+; people with disabilities; the intentionally impoverished; and immigrants. Several themes of equal importance — American Identity; Migration and Displacement; Politics and Power; Access to the "American Dream"/Marketplace; America in the World; and Resistance; provide areas of historical inquiry for investigation throughout the course. These require students to reason historically about continuity and change over time and make comparisons among various historical developments in different times and places. The course also allows teachers flexibility across nine different periods of U.S. history to teach topics of their choice in depth.

SSA601 AP UNITED STATES HISTORY

Length/Credit: 1 year - 2.0 credits **Other info:** Students will take the AP exam in the spring. 10 college credits for HIST& 147/148 are available from Edmonds College.

COLLEGE CREDIT

Location: Bellevue, Interlake, International, Newport, Sammamish

The AP U.S. History course focuses on the development of historical thinking skills (chronological reasoning, comparing and contextualizing, crafting historical arguments using historical evidence, and interpreting and synthesizing historical narrative) and the development of students abilities to think conceptually about U.S. history from approximately 1491 to the present. Seven themes of equal importance — American and National Identity; Migration and

Settlement; Politics and Power; Work, Exchange, and Technology; America in the World; Geography and the Environment; provide areas of historical inquiry for investigation throughout the course. These require students to reason historically about continuity and change over time and make comparisons among various historical developments in different times and places. The course also allows teachers flexibility across nine different periods of U.S. history to teach topics of their choice in depth.

SSH603 IB HISTORY HL 1

Length/Credit: 1 year - 1.0 credit **Other info:** This is the first year of the

two- year IB History. **Location:** Interlake

The IB History HL 1 course is based on a comparative, multi-perspective, and skill-based approach to history. Topics will include the emergence and development of democracy in, as well as the modernization of, the United States, Mexico, and South Africa. In addition, factors that led to the emergence of authoritarian governments in the 20th century will also be studied. Meets state and district US History requirements.

In this course, students will

- » Develop an understanding of, and continuing interest in, the past,
- » Engage with multiple perspectives and to appreciate the complex nature of historical concepts, issues, events and developments
- » Develop an understanding of history as a discipline and to develop historical consciousness including a sense of chronology and context, and an understanding of different historical perspectives
- » Develop key historical skills, including engaging effectively with sources

» Increase their understanding of themselves and of contemporary society by encouraging, reflection on the past.

Students will also engage in historical research as part of the course, completing the IB Historical Investigation

U.S. GOV & CIVICS

SSH703 IB HISTORY HL 2

Length/Credit: 1 year - 1.0 credit **Prerequisite:** IB History HL 1 **Other info:** This is the second year of the two- year IB History course

Location: Interlake

The IB History HL 2 course is based on a comparative, multi-perspective, and skills-based approach to the study of history. Topics covered are the Foundational Documents of the United States, as well as important documents such as constitutions of other countries in the Americas; political developments in Latin America; and civil rights and social movements in the Americas post 1945. Students will understand the purposes, organization and function of governments, laws, and political systems, as well as civic involvement. Meets state and district Civics and CWHGP.

In this course, students will

- » Develop an understanding of, and continuing interest in, the past,
- » Engage with multiple perspectives and to appreciate the complex nature of historical concepts, issues, events and developments
- » Develop an understanding of history as a discipline and to develop historical consciousness including a sense of chronology and context, and an understanding of different historical perspectives

- » Develop key historical skills, including engaging effectively with sources
- » Increase their understanding of themselves and of contemporary society by encouraging, reflection on the past.

SS_702 UNITED STATES CIVICS/ CONTEMPORARY WORLD PROBLEMS

Length/Credit: 1 year - 1.0 credit; **Prerequisite:** U.S. History or AP U.S.

History

Location: Bellevue, Big Picture, Interlake, Newport, Sammamish

Students will learn about the philosophy of government, the functions of the U.S. political system, foreign and domestic policy making, and the role of government in contemporary issues. The course is designed to prepare students to both understand and participate in the United States system of government. Students will also examine the world since 1975. The areas of focus will include critical thinking and media literacy, human rights in the 21st century, local and regional conceptions of sustainability and a focus on international solutions to the emerging climate crisis. The international economy, world hot spots, and comparative views of world events will be studied in a contemporary context.

SS_705 UNITED STATES CIVICS/ SENIOR PROJECT

Length/Credit: 1 year - 1.0 credit **Prerequisite:** 12th grade standing and completion of U.S. History **Location:** International

This year-long United States Civics/ Senior Project course is designed to prepare students to be active and informed citizens who can participate effectively in their own governance. Students will acquire the concepts and skills needed to interpret and analyze political issues and their implications from a variety of perspectives. Students will examine the constitutional basis of government, political beliefs and behaviors, political parties, interest groups, mass media, institutions of government, civil rights and liberties, and public policy. The International School Senior Project is a self-directed culmination of a student's education and a launching pad to integrate them into the life of the community through career exploration. It consists of a year-long project designed by the students themselves, and has three basic components: information gathering and synthesis; project planning and implementation; and student presentation to a communitybased panel. Each project proposal is evaluated by a community advisory board to ensure it meets certain criteria, such as a learning stretch, project achievement, community involvement, feasibility, and an observable outcome or closure.

SSA701 AP UNITED STATES GOVERNMENT & POLITICS

Length/Credit: 1 year - 1.0 credit **Prerequisite:** U.S. History or AP U.S.

History

Other info: Students will take the AP

Exam in the spring

Location: Bellevue, Interlake, Newport, Sammamish

This AP United States Government course provides students multiple opportunities to develop an analytical perspective on government and politics in the United States, to develop civic commitment and capacity, and to build a well-informed, thoughtful response to the question: What is the proper role of government in our democracy? The goal of the AP+ course is to demonstrate that a more hands-on and minds-on AP course can produce better results in the following: success on the AP Exam coupled with deep

conceptual learning, a greater passion for the political process, engagement in learning, and appeal to a wider range of students. This course is project-based learning at its best. Students learn concepts through six project cycles: Government in Action, Town Hall, LegSim (a mock Congress simulation), Election Sim, Supreme Court of the United States, and Taking it Global. The concepts covered are designed to prepare students for successful completion of the AP U.S. Government & Politics course.

SS_704 CIVIC ACTION & RACE IN THE US

Length/Credit: 1 year - 1.0 credit **Prerequisite:** U.S. History or AP U.S.

History

Location: Big Picture

This course examines the history and modern implications of race within the context of the United States and focuses on how students can become informed, empowered and active citizens. Students will master and apply the tenets of Courageous Conversations, using these skills to discuss race and examine the relationship between values and political ideology. Students will learn the history of voter enfranchisement and disenfranchisement along with how to vote. Examining how race impacts Americans' lives in a variety of institutions such as housing and education, students will learn fundamentals of the judicial branch, including key Supreme Court cases. Students will also delve into the Constitution and the concept of federalism, creating action projects that focus on different levels of government and issues of equity. With a commitment to sharpening skills in thinking, research, writing, discussion and civic engagement, the course will focus on experiences of persons of color as a lens to examine several deeper themes. Student outcomes will include increased cultural sensitivity, an ability to

communicate across racial and ideological differences, leadership in the community, and a sense of civic duty and efficacy.

SSA702

AP COMPARATIVE GOVERNMENT

Length/Credit: 1 year - 1.0 credit **Prerequisite:** U.S. History or AP U.S.

History

Other info: Students will take the AP

exam in the spring. **Location:** Bellevue

AP Comparative Government and Politics is an introductory college-level course in comparative government and politics. The course uses a comparative approach to examine the political structures; policies; and political, economic, and social challenges of six selected countries: China, Iran, Mexico, Nigeria, Russia, and the United Kingdom. Students cultivate their understanding of comparative government and politics through analysis of data and text-based sources as they explore topics like power and authority, legitimacy and stability, democratization, internal and external forces, and methods of political analysis.

Special Education Course Sequence Grades 6-12

HIGH SCHOOL GENERAL ED CORE AND ELECTIVE GRADING GUIDELINES FOR STUDENTS WITH IEPS

AREAS OF CONSIDERATION	COURSE DESIGNATION	
	GENERAL	MODIFIED
IEP	Accommodations are listed on IEP.	Modifications are listed on IEP.
Course Objectives	Student accomplishes the same standards as typically developing peers. Standards are met with access to accommodations, but without modifying the course goals.	Student accomplishes modified standards that are directly related to the course curriculum and grade level, developmentally appropriate and/or related to IEP goals.
Team must follow process from Procedural Handbook		
Grading Standards	Grade on general education standards with consideration of student accomodations.	Grade on modified standards determined through collaboration between general education teacher and special education teacher.
Meets National Collegiate Athletic Association & College Academic Distribution Requirements	Yes	No

Note: Courses with Targeted in the title do not meet National Collegiate Athletic Association and College and Academic Distribution Requirements for college entrance eligibility for college athletics with the exception of Targeted English 9, 10, 11, and 12.

Middle School Special Education

Courses listed below are available to all students who meet state eligibility criteria for special education services and are being served on an Individualized Education Program (IEP). This continuum includes specially designed instruction, accommodations, and related services in general education, special education and/or community environments.

- » Length and Credit: Determined on an individual basis
- » Prerequisite: Individual Education Plan (IEP) Team decision
- Location: Determined by analysis of Special Education population within each school
- » Note: Not every aspect of the continuum of services is available at each school

Courses listed below are available to all students who meet state eligibility criteria for special education services and are being served on an Individualized Education Program (IEP). This continuum includes specially designed instruction. accommodations, and related services in general education, special education and/or community environments. Special education personnel at each school site will determine specific course availability based on an analysis of their student population. Therefore, not every aspect of the continuum may be available at each school. Classes will be assigned based on individual student needs and the IEP process. As part of the IEP process the team may determine a particular course be repeated for credit and/or may be

taken multiple periods throughout the day based on student need.

Students receiving special education services who are enrolled in general education courses may require accommodations and/or modifications to access the curriculum with equity.

ENS100 TARGETED LANGUAGE ARTS

Length/Credit: To be determined on an individual basis

Prerequisite: IEP goal in basic reading, reading fluency, reading comprehension and/or written expression

Location: Determined by analysis of special education population within each school

This course provides reading, reading comprehension and writing intervention. Instruction is focused on vocabulary and language development, thinking skills, and reading and writing strategies. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers. Students will learn skills to help them make the

Middle School Special Education

transition to general education classes. Placement in course is determined by leveled assessment in conjunction with IEP goals.

MAS101 TARGETED MATHEMATICS

Length/Credit: To be determined on an individual basis

Prerequisite: IEP goal in mathematics **Location:** Determined by analysis of special education population within each school

This course provides instruction in mathematical skills and concepts. Skills may include whole numbers computations, fractions, measurement, money, time, place value, geometry, estimation and calculator use. Students will learn skills to help them make the transition to general education classes. Students will learn skills to help them make the transition to general education classes. Placement in this course is determined by leveled assessment in conjunction with IEP goals.

SUS160 STRATEGIES FOR SCHOOL SUCCESS

Length/Credit: To be determined on an individual basis (1 year - 1.0 elective credit)

Prerequisite: IEP goal in study skills, adaptive, behavior, and/or social-emotional

Location: Determined by analysis of special education population within each school

This course provides instruction in social, behavior, adaptive, and/ or study skill related areas as they relate to improving success in school. Instruction may include skills such as time management, goal setting, communication, organization, self-awareness, social awareness, relationship skills, grooming, hygiene, personal safety and decision making. Students will learn skills to help them make the transition to general

education learning environment. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS117 SOCIAL SKILLS

Length/Credit: To be determined on an individual basis

Prerequisite: IEP goal in social, organization, and/or behavior- related areas

Location: Highland, Tillicum and Tyee

This course provides instruction in social and behavior related areas including self-regulation, conflict resolution, and conversation skills. Students practice role play and are provided coaching in emotional regulation and positive behavior skills. The classroom is a therapeutic environment with a focus on intensive behavioral interventions. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS118 ADAPTIVE LIVING SKILLS

Length/Credit: To be determined on an individual basis

Prerequisite: Student has IEP goals in the area(s) covered in this class **Location:** Determined by analysis of

special education population within each school

This course provides instruction in adaptive skills in the areas of grooming, hygiene, self-help, mobility, communication, community and personal safety, phone skills, and health. Students will have opportunities to generalize skills learned in this course in a community setting. Students will use verbal and/or augmentative and alternative communication. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS121 COMPREHENSIVE ACADEMICS

each school

Length/Credit: To be determined on an individual basis up to 4 periods per day.

Prerequisite: Student has IEP goals in the area(s) covered in this class **Location:** Determined by analysis of special education population within

This course of study is designed to provide instruction in functional academic domains: functional reading skills, computer skills, functional writing skills, functional math skills such as time-telling, time management, money management (coins and bills), calculator skills, and banking and budgeting. Students will have opportunities to generalize skills learned in this course in a community setting Students will use verbal and/ or augmentative and alternative communication. Students may take this class one to four periods per day based on their IEP goals and objectives. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

Courses listed below are available to all students who meet state eligibility criteria for special education services and are being served on an Individualized Education Program (IEP). This continuum includes specially designed instruction, accommodations, and related services in general education, special education and/or community environments. Special education personnel at each school site will determine specific course availability based on an analysis of their student population.

Therefore, not every aspect of the continuum may be available at each school. Classes will be assigned based on individual student needs and the IEP process. As part of the IEP process the team may determine a particular course be repeated for credit and/ or may be taken multiple periods throughout the day based on student need.

Students receiving special education services who are enrolled in general education courses may require accommodations and/or modifications to access the curriculum with equity. The designation of modified is determined by the IEP team and documented in the student's IEP.

ENS401 TARGETED ENGLISH 9

Length/Credit: To be determined on an individual basis (1 year - 1.0 English credit)

Prerequisite: IEP goal in reading related areas and/or written expression

Location: Determined by analysis of special education population within each school

This course provides reading, reading comprehension and writing intervention for students who

have applicable decoding, basic comprehension and writing skills. Instruction includes literature analysis, reading comprehension strategies, and analytic writing. Students will learn skills to help them make the transition to general education classes. This class replaces English 9 and meets National Collegiate Athletic Association and College and Academic Distribution Requirements. Placement in this course is determined by leveled assessment in conjunction with IEP goals.

ENS501 TARGETED ENGLISH 10

Length/Credit: To be determined on an individual basis (1 year - 1.0 English credit)

Prerequisite: IEP goal in reading related areas and/or written expression

Location: Determined by analysis of special education population within each school

This course provides reading, reading comprehension and writing intervention for students who have applicable decoding, basic comprehension and writing skills. Instruction includes literature analysis, reading comprehension strategies,

High School Special Education

and analytic writing. Students will learn skills to help them make the transition to general education classes. This class replaces English 10 and meets National Collegiate Athletic Association and College and Academic Distribution Requirements. Placement in this course is determined by leveled assessment in conjunction with IEP goals.

ENS601 TARGETED ENGLISH 11

Length/Credit: To be determined on an individual basis (1 year - 1.0 English credit)

Prerequisite: IEP goal in reading related areas and/or written expression

Location: Determined by analysis of special education population within each school

This course provides reading, reading comprehension and writing intervention for students who have applicable decoding, basic comprehension and writing skills. Students will focus on improving their reading and writing skills including determining and analyzing the theme in text, compare and contrasting different types of text, using precise language to writing in multiple forms and produce clear and coherent writing. Students will learn skills to help them make the transition to general education classes. This class replaces English 11 and meets National Collegiate Athletic Association and College and Academic Distribution Requirements. Placement in this course is determined by leveled assessment in conjunction with IEP goals.

ENS701 TARGETED ENGLISH 12

Length/Credit: To be determined on an individual basis (1 year - 1.0 English credit)

Prerequisite: IEP goal in reading related areas and/or written expression

Location: Determined by analysis of special education population within each school

This course provides reading, reading comprehension and writing intervention for students who have applicable decoding, basic comprehension and writing skills. Students will focus on improving their reading and writing skills including determining and analyzing the theme in text, compare and contrasting different types of text, using precise language to writing in multiple forms and produce clear and coherent writing. Students will learn skills to help them make the transition to general education classes. This class replaces English 12 and meets National Collegiate Athletic Association and College and Academic Distribution Requirements. Placement in this course is determined by leveled assessment in conjunction with IEP goals.

MAS421 TARGETED MATHEMATICS 1

MAS422 TARGETED MATHEMATICS 2

MAS423 TARGETED MATHEMATICS 3

Length/Credit: To be determined on an individual basis (1 year - 1.0 math credit))

Prerequisite: IEP goal in mathematics **Location:** Determined by analysis of special education population within each school

This course provides instruction in basic mathematical skills and concepts with an emphasis on higher-order thinking and techniques for relating problem solving to real life situations. Skills include whole numbers computations, fractions, measurement, money, time, place value, geometry, estimation and calculator use. Students will learn skills to help them make the transition to general education classes. Placement in this course is

determined by leveled assessment in conjunction with IEP goals.

MAS500 TARGETED PRE-ALGEBRA

Length/Credit: To be determined on an individual basis (1 year - 1.0 math credit)

Prerequisite: IEP goal in mathematics **Location:** Determined by analysis of special education population within each school

This course is offered as an algebra preparation course. It provides instruction on essential pre-algebra and basic geometry content including strategies for solving straight-line equations, exponents, signed numbers, facility with fractions, decimals and percentages, data tables and graphs, and a wide range of word problems involving rate, proportion, probability, and algebraic solutions. Placement in this course is determined by leveled assessment in conjunction with IEP goals.

MAS621 TARGETED CONSUMER MATHEMATICS

Length/Credit: To be determined on an individual basis (1 year - 1.0 math credit)

Prerequisite: Senior status; IEP goal in mathematics

Location: Determined by analysis of special education population within each school

This course provides math instruction targeting the application of basic math skills to everyday situations. Students develop competencies in mathematics for personal use in a problem-solving format that allows them to use math skills in consumer situations. Units will focus on budgeting, cost comparisons, credit, recordkeeping, purchasing and banking. The goal of this course is to guide students in building a strong foundation in logical thinking and problem-solving that will enable them to make good

High School Special Education

within each school

decisions concerning matters of money and finance in their daily lives. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS460 PASS

Length/Credit: To be determined on an individual basis (1 year - 1.0 elective credit)

Prerequisite: IEP goal in study skills, adaptive, behavior, social, and/or social-emotional

Location: Determined by analysis of special education population within each school

Personal and Academic Skills for Success (PASS) is a course that provides instruction in social, adaptive, behavior, and/or study skill related areas as they relate to improving skills needed to for success in school and post secondary life. This course is devoted to developing better communication skills and strategies that address pro-social behavior, ensuring students' ability to interact and work effectively with others. Students learn how to deal with daily challenges, focusing on what to do when you are frustrated, confused, or angry. Instruction may include skills such as time management, goal setting, communication, organization, self-awareness, social awareness, relationship skills, grooming, hygiene, personal safety and decision making. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS451 COMMUNICATION, COLLABORATION & CONNECTION

Length/Credit: To be determined on an individual basis (1 year - 1.0 elective credit)

Prerequisite: IEP goal in social, organization and/or behavior- related areas

Location: Determined by analysis of special education population within each school. This course may be part of a centered or resource program.

This course provides instruction in social and behavior related areas including self-regulation, conflict resolution, and conversation skills. Students are provided coaching in emotional regulation and positive behavior skills. Students will learn self-advocacy skills to increase awareness of individual learning needs. Students in classes may also practice appropriate social behaviors including: greeting others, initiating and participating in conversation, responding appropriately to peers and authority figures, etc. The classroom is a therapeutic environment with a focus on intensive behavioral interventions. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS446 ADAPTIVE LIVING SKILLS

Length/Credit: To be determined on an individual basis (1 semester - 0.5 credit)

Prerequisite: Student has IEP goals in the area(s) covered in this class **Location:** Determined by analysis of special education population within each school

This course of study is designed to provide instruction in adaptive skills in the areas of grooming, hygiene, self-help, mobility, communication, community and personal safety, phone skills, and health. Students will have opportunities to generalize skills learned in this course in a community setting. Students will use verbal and/or augmentative and alternative communication. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS449 COMPREHENSIVE ACADEMICS

Length/Credit: To be determined on an individual basis up to 4 periods per day. (1 semester - 0.5 credit)

Prerequisite: Student has IEP goals in the area(s) covered in this class **Location:** Determined by analysis of special education population

This course provides instruction in functional academic domains: functional reading skills, computer skills, functional writing skills, functional math skills such as timetelling skills, time management, money management (coins and bills), calculator skills, and banking and budgeting skills. Students will have opportunities to generalize skills learned in this course in a community setting. Students will use verbal and/ or augmentative and alternative communication. Students may take this class one to four periods per day based on their IEP goals and objectives. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS432 PRE-VOCATIONAL TRAINING

SUS433 PRE-VOCATIONAL TRAINING

Length/Credit: To be determined on an individual basis up to 3 periods per day (1 semester - 0.5 credit)

Prerequisite: Student has IEP goals in the area(s) covered in this class

Location: Determined by analysis of special education population within each school

This course provides instruction in vocational skills useful within the home, school and community and provides opportunities to develop skill areas that support post-secondary goals in the areas of education/training, independent living, and employment. Students

High School Special Education

will have the opportunities to generalize skills learned in this course in a school and/or community setting. Students will use verbal and/or augmentative and alternative communication. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS750 COMMUNITY HABILITATIVE SERVICES

Length/Credit: To be determined on an individual basis (1 semester - 0.5 credit)

Prerequisite: Student has IEP goals in the area(s) covered in this class and placement in the PACIFIC/ETP (Evergreen Transition Program). The student has not received a high school diploma.

Location: Interlake/Evergreen Transition Services

This course provides opportunities to develop skill areas based on individual student needs and may include pre-vocational, therapeutic, habilitative skill development, (functional) academics, self-care skills, leisure skills, social/communication skills, and self-advocacy. These services are determined by the IEP team with a focus on teamdetermined post-secondary goals. Instruction is delivered both in the classroom and in the community. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

SUS751 TRANSITION SERVICES 1 SUS752 TRANSITION SERVICES 2 SUS753 TRANSITION SERVICES 3 SUS754

CONNECTION SERVICES

Length/Credit: To be determined on an individual basis up to 7 periods per

day. (1 semester - 0.5 credit)

Prerequisite: Student has IEP goals in the area(s) covered in this class and placement in the ETP (Evergreen Transition Program). The student has not received a high school diploma.

Location: Evergreen Transition

Program OR an alternate location determined by the IEP team
This course provides opportunities to develop skill areas that support post-secondary goals in the areas of education/training, independen

post-secondary goals in the areas of education/training, independent living, and employment. Coursework is based on individual student needs and may include prevocational and vocational skill development, functional academics, independent living, leisure skills, social communication, selfdetermination and self-advocacy. Student programs are determined by the IEP team. Instruction is delivered in the classroom, as well as in the community in order to allow students the opportunity to generalized learned skills in an experiential way. Community instruction may include placement at non-paid work internships. Learning objectives for this course are individualized and align with student's IEP goals and objectives.

World Languages Course Sequence Grades 6-12

Offerings by Attendance Area

The goal of the World Language program is to prepare students to be able to communicate effectively with speakers of a different language in authentic cultural contexts. World Language has been shown to positively affect standardized test scores. such as the SAT and the ACT. Learning another language also strengthens criticalthinking and problem solving skills. Finally, world language study raises students' cultural awareness. Language skills provide a competitive edge in career and wider possibilities in life.

We encourage all students in the Bellevue School District begin World Language study in the sixth grade in the 1A course. Students should then continue to study that same language, uninterrupted, through the twelfth grade, as length of study is the most important factor in becoming a proficient communicator. Students who begin in the sixth grade will also have the opportunity to take AP/IB Language and Literature courses in high school.

Students may request high school credit for level IB and level 2 world language courses completed in Middle school.

CHINESE (MANDARIN)

CH_101 CHINESE 1A

Length/Credit: 1 year

Prerequisite: Students should be in 6th or 7th grade. 8th graders are not advised to take Chinese 1A but are instead advised to wait until high

school to take Chinese 1.

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like to prepare for the Advanced

Placement and/or the International Baccalaureate Exams in high school. **Location:** Odle, Tillicum, Tyee

Students learn language that can be used in everyday conversation. Students will begin to communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Instruction will focus on listening comprehension and speaking at the beginning of the year. Students will learn to communicate topics such as greetings, classroom and courtesy expressions, numbers, family and friends, and school subjects. Pinyin, the phonetic system indicating Chinese pronunciation using the English alphabet, will be taught and students will be able to read sentences in Pinyin in addition to basic Chinese characters. The writing of basic Chinese characters is also introduced as well as simple grammar and sentence patterns. Students will take part in various activities, such as films, games, songs and projects to enhance language learning and understanding of the Chinese culture.

CH_402 CHINESE 1B

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Chinese

1A or equivalent

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like to prepare for the Advanced Placement and/or the International Baccalaureate Exams in high school. Credit and the grade earned will appear on the student's high school transcript.

Location: Odle, Tillicum, Tyee

Students continue to communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Simplified Chinese character writing and pinyin, the phonetic system indicating Chinese pronunciation using the English alphabet, will be emphasized. Traditional Chinese characters are available as reference. Students will examine radicals to understand the structure of learned characters and decode new characters as they continue to develop reading and writing skills. This class will be conducted primarily in Chinese. Students will expand their understanding of culture through the study of festivals, philosophy, geography, arts, and comparisons between Chinese and American cultures.

CH_501 CHINESE 2

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Chinese 1B, Chinese 1 or equivalent

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like to prepare for the Advanced Placement and / or the International Baccalaureate Exams in high school. Credit and the grade

earned will appear on the student's high school transcript.

Location: Odle, Tillicum, Tyee

Students develop their communication in the target through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. At the same time developing greater command of sentence word order. Students will continue to learn about the Chinese culture through a variety of activities and projects, focusing on everyday situations and aspects that allow students to understand the differences between their own culture and the Chinese culture. These situations include the contexts of leisure, cultural activities, health, technology, and travel. Use of the target language in class increases until most of the class is conducted in Chinese.

FRENCH

FR_101 FRENCH 1A

Length/Credit: 1 year

Prerequisite: Students should be in 6th or 7th grade. 8th graders are instead advised to wait until High School to take French 1.

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement and / or the International Baccalaureate Exams in High School.

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Students begin to communicate skills in the target language through spontaneous speaking and writing, presentational speaking and writing, and interpretive reading and listening. Class will be conducted primarily in French with a goal of helping each student reach high novice proficiency. Students engage in hands-on learning, personalized activities, projects, songs, games,

and basic conversations to enhance their learning of French and Frenchspeaking cultures.

FR_402 FRENCH 1B

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of French 1A or equivalent

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement and / or the International Baccalaureate Exams in High School. Credit and the grade earned will appear on the student's high school transcript.

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Students continue to communicate in the target language through spontaneous speaking and writing, presentational speaking and writing, and interpretive reading and listening. The class is conducted primarily in French with an emphasis on helping each student to reach high novice proficiency. Students engage in hands-on learning, personalized activities, projects, songs, games and conversations to enhance their learning of French and Frenchspeaking cultures.

FR_501 FRENCH 2

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of French 1B, French 1 or equivalent

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement and / or the International Baccalaureate Exams in High School. Credit and the grade earned will appear on the student's high school transcript.

Location: Chinook, Highland, International, Odle, Tillicum, Tyee

Students develop their communication in the target language through spontaneous speaking and writing, presentational speaking and writing, and interpretive reading and listening. The class will be conducted primarily in Frenchand students will be expected to use the language in class. The goal is to help each student reach intermediate low proficiency.

JAPANESE

JA_101 JAPANESE 1A

Length/Credit: 1 year

Prerequisite: Students should be in 6th or 7th grade. 8th graders are advised to wait until High School to take Japanese 1.

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement test in High School.

Location: Chinook

Students begin to communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. In this class students will learn vocabulary and sentence patterns to allow them to participate in basic everyday conversations in Japanese, while also gaining an understanding of Japanese culture. Students study topics such as greetings, telling time, classroom phrases, and likes and dislikes. Speaking and listening skills are emphasized, but students will also begin to learn to read and write using two different alphabets (hiragana and katakana). This class will be conducted in Japanese as much as possible. Through videos, guest presenters, printed materials, games, and other activities, students will learn about Japanese culture as well as the Japanese language.

JA_402 JAPANESE 1B

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Japanese 1A or equivalent

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement test in High School. Credit and the grade earned will appear on the student's high school transcript.

Location: Chinook

Students continue to communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Students will expand their knowledge in Japanese by reading materials in Japanese and producing oral projects. They will learn basic kanji throughout the year. Japanese culture studies will continue to be extended from Japanese 1A. This class will be conducted in Japanese as much as possible.

JA_501 JAPANESE 2

Length/Credit: 1 year - 1.0 credit Prerequisite: Completion of Japanese 1B, Japanese 1 or equivalent Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement test in High School. Credit and the grade earned will appear on

the student's high school transcript.

Location: Chinook

This course is designed to increase Japanese speaking skills, understanding of Japanese sentence constructions, and skills in reading and writing. Students develop their communication in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Students will be able to discuss various topics in

past and present. Cultural studies will continue to be extended from Japanese 1. This class will be conducted in Japanese as much as possible.

SPANISH

SP_101 SPANISH 1A

Length/Credit: 1 year

Prerequisite: Students should be in 6th or 7th grade. 8th graders are advised to wait until High School to take Spanish 1.

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement and / or the International Baccalaureate Exams in High School.

Location: Big Picture, Chinook, Highland, Odle, Tillicum, Tyee

Students begin to communicate in the target language through spontaneous speaking and writing, presentational speaking and writing, and interpretive reading and listening. Class will be conducted primarily in Spanish with a goal of helping each student reach mid novice proficiency. They practice basic conversations in Spanish about what they want, need, plan, and know how to do, as well as describe people, places, and events.

SP_404 SPANISH 1B

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Spanish

1A or equivalent

Other info: The 1A-1B-2 sequence of courses is recommended as the best path for Middle school students who would like prepare for the Advanced Placement and / or the International Baccalaureate Exams in High School. Credit and the grade earned will appear on the student's high school transcript.

Students continue to learn about Hispanic countries through articles, video, speakers, group projects, computer activities, music, and games. The goal is to reach intermediate low proficiency.

SP_403 SPANISH LANGUAGE ARTS I

Length/Credit: 1 year - 1.0 credit **Other info:** Students may request 1.0 high school credit for completion of this course **Location:** Odle, Chinook

This course focuses on the development of Spanish literacy skills

and communicative competence. Through literacy and leadership units focused on the Common Core for Spanish Language Arts, Students increase their ability to understand complex texts and write effectively in academic settings. This course is designed to help students for students who speak Spanish, but have not had the opportunity to develop their reading and writing. Through leadership opportunities, students develop their bilingual, biliterate, and bicultural skills.

SP_503 SPANISH LANGUAGE ARTS II

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Spanish

1B, Spanish 1 or equivalent

Other info: Credit and the grade earned will appear on the student's high school transcript.

Location: Odle

This course focuses on the development of Spanish literacy skills and communicative competence. Through literacy and leadership units focused on the Common Core for Spanish Language Arts, Students increase their ability to understand complex texts and write effectively in academic settings. This course is designed to help students maintain their Spanish literacy on the same level as their English literacy. Through leader-ship opportunities, students develop their bilingual, biliterate, and bicultural skills.

SP_603 SPANISH LANGUAGE ARTS III

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Spanish Language

Arts II

Other info: Credit and the grade earned will appear on the student's high school transcript.

Location: Odle

This course focuses on the development of Spanish literacy skills and communicative competence.

Through literacy and leadership units focused on the Common Core for Spanish Language Arts, Students increase their ability to understand complex texts and write effectively in academic settings. This course is designed to help students maintain their Spanish literacy on the same level as their English literacy. Through leadership opportunities, students develop their bilingual, biliterate, and bicultural skills.

The Bellevue School District requires that all students in the Bellevue School District study a world language, or complete Personal Pathways. The mission is to equip students with the skills to communicate effectively across multiple cultures. Students use world languages to explore global challenges and other cultural perspectives. Most colleges and universities require at least two years of study of one world language. However, competitive schools may require four years of study. A long sequence of world language study will give students an advantage in college admissions in the United States.

WORLD LANGUAGE COMPETENCY CREDITS

Competency based credits may be earned for World Language

A maximum of 4 World Language credits may be awarded through OSPI's Competency Based Credit testing process. More information is available here: http://www.bsd405.org/departments/curriculum/competencycredits/

In order to earn competency credits in World Language, students will demonstrate proficiency in speaking, listening, reading and writing. These assessments are aligned with the American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Levels.

Depending on the language students take the STAMP Test, the ALTA test, or the OSPI custom test. Students receive credit based on their **lowest** score of the 4 skill areas.

- » Novice Mid- 1 credit
- » Novice High- 2 credits
- » Intermediate Low- 3 credits
- » Intermediate Mid or Above- 4 credits

- » All approved Competency-based World Language Credits will be posted to the Bellevue School District transcript as credit earned without grades attached to them.
- » The approved Competency-based World Language Credits cannot replace an unsatisfactory (D/F) grade posted on the BSD transcript for an equivalent course. It will be posted in a separate area of the BSD transcript.
- » Students cannot have duplicate credits for classes already taken. They also may not take courses for which they already have world language competency credits.
- » After students have received Competency-based World Language Credits for a certain level of a language, they may not take an equivalent or a lower level class in that same language. They must take a higher level.
- » Competency-based World Language Credits may be used to meet World Language graduation requirements.
- » Students who receive 4 credits will also qualify automatically for the Seal of Biliteracy.

SEAL OF BILITERACY

In the State of Washington, students qualify for the seal by demonstrating intermediate mid proficiency, across all skills, on a proficiency test.

Students may use approved Competency-based World Language Credits for placement purposes in higher level World Language courses.

CHINESE (MANDARIN)

CH_401 **CHINESE 1**

Length/Credit: 1 year - 1.0 credit

Prerequisite: None

Location: Newport, Sammamish

Beginning students study language that can be used in everyday communication. Students begin to communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Students will develop skills in impromptu speaking and writing, understanding what they read and hear, and formal presentations. Simplified Chinese character writing and pinyin (the phonetic system indicating Chinese pronunciation using the English alphabet) will be emphasized. Traditional Chinese characters are available as reference. Students will examine radicals to understand the structure of learned characters and decode new characters. Class will be conducted as much as possible in Chinese with the goal of helping each student become a competent communicator. Students will communicate in Chinese about topics such as greetings, classroom and courtesy expressions, family and friends, and school subjects. Students will be introduced to culture through various forms of multimedia.

CH 501 **CHINESE 2**

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Chinese 1B, Chinese 1 or equivalent

Location: Newport, Sammamish

Students will develop their communication in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. They will also develop greater command of sentence word order.

CH 601 **CHINESE 3**

Length/Credit: 1 year - 1.0 credit Prerequisite: Completion of Chinese

2 or equivalent

Other info: Students may request college credit from Bellevue College in courses that are pre-approved by Bellevue College. Those earning a "B" grade or better in the course may receive credit.

Location: Newport, Sammamish

Students will deepen their communication in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening. Students will learn more advanced grammar patterns and vocabulary while exploring their understanding of the Chinese culture using technology on various projects. Creative writing and formal composition skills are also emphasized. The class is conducted in Chinese.

CH 701 **CHINESE 4**

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of Chinese

3 or equivalent

Other info: Students may request college credit from Bellevue College in courses that are pre-approved by Bellevue College. Those earning a

"B" grade or better in the course may receive credit.

Location: Newport, Sammamish

Students communicate in the target language through interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening to explore cultural themes. In addition to using classroom texts, students also use technology, watch films in the target language, give oral presentations, read short stories, and create authentic writings to increase their knowledge and fluency in Chinese. This class is conducted in Chinese. Students may take the IB Chinese SL exam in the spring.

CHA801 AP CHINESE LANGUAGE & CULTURE

Length/Credit: 1 year - 1.0 credit Prerequisite: Completion of Chinese

4 or equivalent

Other info: Students will take the AP exam in the spring. Those receiving a score of 3, 4 or 5 may receive college credit in 200-level equivalent classes, depending upon the university in which they enroll.

Location: Newport, Sammamish

AP Chinese Language is a comprehensive review of the Chinese language through literature, media, and linguistic interaction. Emphasis is placed on the development of the four language skills at an advanced level of proficiency. To gain a broader understanding of the Chinese language and culture, students will explore a range of sources including literature, art, history, and geography on Chinese society and current events. This class is conducted entirely in Chinese and serves as a preparation for the AP Chinese Language and Culture exam.

CHH906 HONORS CHINESE 6

Advanced Learning Services at Odle & Tyee Course Sequence Grades 6-8

Self-contained Advanced Learning Services are provided at Odle & Tyee.

Students who qualify for Advanced Learning (AL) services may take courses in math, language arts, social studies, and science with their AL peers or may choose to take individual courses in any of those subject areas with their peers in the General Education Program.

ENG101 AL 6TH GRADE LANGUAGE ARTS SSG101 AL 6TH GRADE SOCIAL STUDIES

Length/Credit: 1 year

Topics in AL Language Arts are integrated with topics in AL Social Studies. AL Language Arts is aligned with and extends the Common Core Standards. In AL Social Studies. students will study and analyze cultural and historical concepts through world history thematic units. Both courses emphasize developing critical reading, listening, thinking, research, speaking, and academic and creative writing skills while integrating knowledge and ideas with fiction and informational texts that explore various cultural, historic, economic, geographic, and literary perspectives.

ENG201 AL 7TH GRADE LANGUAGE ARTS

SSG201 AL 7TH GRADE SOCIAL STUDIES

Length/Credit: 1 year

Topics in AL Language Arts are integrated with topics in AL US History. AL Language Arts aligns with and extends the Common Core Standards. In AL Social Studies, students will analyze major events in US history from 1800- 1890 and study Washington State geography, economics, history and the Washington State Constitution. Both courses focus on the study of numerous primary source documents and literature that explores various cultural, historic, economic, geographic and literary perspectives. These courses emphasize developing critical reading, listening, thinking, speaking, research, and academic and creative writing skills.

ENG401 AL COMPOSITION & LITERATURE

Length/Credit: 1 year

Other info: Credit and the grade earned will appear on the student's high school transcript.

In this course, 8th grade students will develop analytical reading, academic writing, critical thinking, and presentation skills. Course content includes myth, short story, poetry, drama, and novels. Analytical reading instruction will extend understanding of literary elements and language. Writing instruction will extend students' development in the three modes of writing as outlined by the CCSS and College and Career Readiness Standards: narrative, expository, and argumentative. In addition, students will develop skills in critical thinking, effective discourse, collaboration, reflection, and CCSS Language standards.

SSG401 AL HUMAN GEOGRAPHY

Length/Credit: 1 semester

Other info: Credit and the grade earned will appear on the student's high school transcript.

Human Geography introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students will apply the methods and tools of geographers by employing spatial concepts and landscape analyses to analyze human social organization and its environmental consequences, and engage students to find answers to questions about the world around us. Students will discover how geography gives meaning to an ever- changing world by working on authentic problems in Bellevue and the larger world by using a hands-on, minds-on problembased learning approach.

SSG402 AL FOUNDATIONS OF WORLD HISTORY

Length/Credit: 1 semester

The purpose of Foundations of World History is to develop a greater understanding of how different groups of people, including settled and nomadic, dealt with the challenges that they faced. The course will focus on the political, economic, religious, social and cultural institutions that formed as a result of these challenges. An additional purpose of the course is to develop the skills of studying, document analysis, discussion, critical thinking and writing. These skills are essential for success in AP Modern World History. This course covers the Foundations units of AP Modern World History, focusing on an understanding of cultures, institutions, technology, and geography prior to 600 B.C. Students completing this course will enroll in AP Modern World History in ninth grade.

MATH

MAG201 AL INTEGRATED MATH TOPICS 2

Length/Credit: 1 year This course covers the topics listed below. Students learn to recognize and generalize patterns and relationships and apply this knowledge to increasingly more difficult problems. Units will cover:

- » Introduction to Algebra: variables, tables, graphs and symbols as representations
- » Similarity: similar figures with congruence as a special case
- » Proportional Reasoning: rate, ratio, proportion, and percent
- » 3-D Measurement: surface area and volume
- » Integers: operations with positive and negative numbers

- » Linear Relationships: expressed in words, tables, graphs and equations
- » Probability: expected value, range
- » Modeling: use functions and their related equations to solve problems

MAG401 AL ALGEBRA 1

Length/Credit: 1 year/1.0 credit **Prerequisite:** AL Integrated Math Topics 2 or Integrated Math Topics 2 if new

Other info: Credit and the grade earned will appear on the student's high school transcript.

Algebra 1 is a first year algebra course that covers the content of the Common Core State Standards. This course focuses on the same mathematical content as Algebra 1 at a deeper, more analytical level and incorporates mathematical modeling, extensions and challenge problems. Highlights of the course include:

- » Number & Quantity: operations with integers: rational and irrational numbers. Expressions, Equations and Inequalities: evaluate expressions; simplify, add, multiply and factor polynomials using the properties of real numbers; solve linear, absolute value and quadratic equations and inequalities; solve systems of linear equations and inequalities in two variables
- » Functions: recognize and represent linear, quadratic and exponential functions using tables, graphs, words and symbols; identify intercepts, domain and to develop models for real world problem situations and analyze them to solve problems and answer questions that arise from these situations
- » Statistics: analyze and transform of measures of center and variation; properties of data sets; use trend lines as a mathematical models

MAG402 AL GEOMETRY

Length/Credit: 1 year/1.0 credit **Prerequisite:** AL Algebra 1 or Algebra 1, if new

Other info: Credit and the grade earned will appear on the student's high school transcript.

This course covers the Common Core State Standards for Mathematics. This course focuses on the same mathematical content as Geometry at a deeper, more analytical level and incorporates mathematical modeling, extensions and challenge problems. Highlights of the course include:

- » Plane Geometric Figures: properties of parallel and perpendicular lines, triangles, quadrilaterals and other polygons and circles; geometric constructions; using properties to solve problems
- » Reasoning and Proof: inductive and deductive reasoning; the role of undefined terms, definitions, postulates and theorems in a mathematical system; proving conjectures using geometric and coordinate methods; indirect proof
- » Similarity: properties of similar figures; proving figures similar; right triangle trigonometry; Law of Sines; Law of Cosines; problem solving applications
- » Geometric Measurement: perimeter/circumference and area of triangles, quadrilaterals, circles and polygons; surface area and volume of prisms, pyramids, cylinders, cones and spheres
- » Transformational Geometry: symmetry; reflections; rotations; translations; composite transformations; dilations

MAG501 AL ALGEBRA 2

Length/Credit: 1 year - 1.0 credit

Prerequisite: Geometry **Location:** Odle, Tyee

Other info: Credit and the grade earned will appear on the student's high school transcript.

AL Algebra 2 is a second year algebra course that covers the content of the Washington State and Common Core Mathematics Standards. This course focuses on the same mathematical content as Algebra 2 but at a deeper, more analytical level. Consequently, assigned work is more challenging. Highlights of the course include:

- » Number & Quantity: operations with rational, irrational and complex numbers.
- » Expressions, Equations and Inequalities: transform expressions using the properties of real numbers; solve linear, absolute value, quadratic, polynomial, rational, radical, exponential and logarithmic equations and inequalities; solve systems of linear equations and inequalities in two and three variables; solve systems of nonlinear equations In 2 variables.
- » Functions: recognize and represent linear, quadratic, polynomial, exponential, logarithmic, rational, radical and trigonometric functions using tables, graphs, words and symbols; identify intercepts, domain and range; use functions and their related equations to solve problems; understand how transformations affect the equations, graphs and properties of functions.
- » Modeling: use functions to develop models for real world problem situations and analyze them to solve problems and answer questions that arise from these situations
- » Probability & Statistics: analyze of measures of center and variation, normal and binomial distributions; counting, permutations and combinations; independent, dependent and compound events

» Trigonometry: use trigonometric ratios and the Law of Sines and Law of Cosines to solve problems

MAG601 AL PRECALCULUS

Length/Credit: 1 year/1.0 credit

Prerequisite: Algebra 2

Other info: Credit and the grade earned will appear on the student's high school transcript.

Location: Odle

This course covers the content of the Common Core State Standards for Mathematics. The course is designed around mathematical modeling using the elementary functions including polynomial, rational, radical, exponential, logarithmic and trigonometric functions. In addition, students will study vector and conic applications, sequences and series, analytic geometry and statistics and probability.

SCIENCE

The Advanced Learning Middle School science program accelerates content so that students are ready for high school biology in the 8th grade. This is accomplished through a study of integrated science content in grades 6 and 7. Following biology, high school courses can be sequenced in a variety of ways, resulting in credits in chemistry as well as AP science courses. We recommend that students take the core science courses; biology, chemistry, AP/IB Physics and accomplish at least one additional AP science course during their time in high school.

SCG101 AL 6TH GRADE SCIENCE Length/Credit: 1 year

The focus in AL 6th grade science is to continue the development of

science and engineering practices

and observable principles. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenge students to consider multiple perspectives by carrying out investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this year focus on phase change, chemical reactions, plate motion, rock transformation, matter and energy in ecosystems, and ecosystem dynamics.

SCG201 AL 7TH GRADE SCIENCE Length/Credit: 1 year

The focus in AL 7th grade science is multiple contexts for exploring relevant science phenomena and using scientific explanation and argumentation. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenge students to consider multiple perspectives by carrying out investigations, evaluating evidence

and having class discussions before

drawing conclusions.

Students engage in units that provide students opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this year focus on energy transfer, forces, magnetic fields, Earth-Moon-Sun systems, natural selection and evolutionary history.

SCG401 AL BIOLOGY

Length/Credit: 1 year/1.0 credit **Other info:** Students may request high school credit for this class **Prerequisite:** Algebra 1 or concurrent

This introductory biology course is designed to engage students in the core concepts of biology with

some earth science. Students will use phenomena to explain ecosystem dynamics, genetics and heredity, and evolution. Students use the practices of scientists and engineers: asking questions, developing models, designing and conducting investigations, using mathematics and computational thinking, scientific explanation and argumentation.

Advanced Learning Services at Interlake Course Sequence Grades 9-12

The following are the course progressions for the core content areas.

Students may select Advanced Learning or other courses as available at grade level.

	English	Social Studies	Science	Mathematics	Additional Requirements
9th Grade	AL English 9	AL AP Modern World History	AL Chemistry 9	AL Algebra 2 or IB Application Interpretation HL1 or AP Calculus AB	PE (1 year)
10th Grade	AL IB Literature HL1 or AL IB Language & Literature HL1	AL IB History HL 1/AP US History	AL IB Physics SL1/AP Physics 1	IB Applications & Interpretation HL1 or IB Analysis & Approaches SL1 or HL1 or IB Applications & Interpretation HL2	World Language AND Health (1 sem) AND Theory of Knowledge (2nd sem)
11th Grade	AL IB Literature HL 2 Or AL IB Language & Literature HL2	AL IB History HL 2/AP American Government	IB Physics HL/AP Physics 2 Or IB Biology SL Or IB Chemistry SL2 / AP Chemistry Or IB ESS/AP Environmental Science Or IB Design Technology & Engineering Science SL	IB Applications & Interpretations SL2 or HL2 or IB Analysis & Approaches SL2 or HL2 or Further Mathematics	World Language AND Theory of Knowledge (1st sem)
12th Grade	Advanced Studies in English	College Level Social Science	IB Physics HL/AP Physics 2 Or IB/AP Biology SL Or IB Biology HL / AP Biology Or IB Chemistry SL2 / AP Chemistry Or IB ESS/AP Environmental Science Or IB Design Technology & Engineering Science SL	Further Mathematics or AP Statistics or AP Calculus AB	Internship (elective)

In addition to the courses listed below, 9th grade students in Advanced Learning courses will enroll in 9th grade PE. In 10th grade students also enroll in Health. In 10th and 11th grade, students will enroll in courses leading to an International Baccalaureate Diploma by the end of the 11th grade.

ENGLISH COURSES

ENG501 AL ENGLISH 9

Length/Credit: 1 year - 1.0 credit

Prerequisite: None **Location:** Interlake

In this course, high school freshman will learn specific writing skills and demonstrate their academic writing competence both in course assessments and the Smarter Balanced. Course content includes Biblical allusions, short story, poetry, drama, and novels. Students will engage in the writing process to produce increasingly sophisticated essays. Students will analyze literature, conduct research and synthesize meaning from historical, cultural and intellectual contexts while pursuing multiple themes. In addition, instruction will develop skills in critical thinking, effective discourse, collaboration, reflection, and standard English writing conventions.

ENG601 AL IB LITERATURE HL 1

Length/Credit: 1 year - 1.0 credit
Prerequisite: AL English 9
Other info: This course is open to all 10th graders receiving advanced learning services, and is one of two options that fulfill the Junior English requirement at Interlake. It also fulfills the first year of IB Group 1 requirements for students pursuing the Diploma or Certificate. Students in this course will be prepared to take the AP English Language exam in May, if they choose.

Location: Interlake

Course content is focused on the study of the novel. The significance of historic and other cultural influences on literature will be explored, as well as theme, character, structure, and literary devices. Of the studied fictional works, some will be American literature, and some will be World literature. Analytical

reading and essay writing is included. The course content also includes presenting literary analysis. Note: if taking this course as an IB Diploma candidate, please read the second year course description, as well, since you will be required to take IB Literature for 2 years.

ENG602 AL IB LANGUAGE & LITERATURE

Length/Credit: 1 year - 1.0 credit **Prerequisite:** AL English 9

Other info: This course is open to all

10th graders receiving

advanced learning services, and is one of two options that fulfill the Junior English requirement at Interlake. It also fulfills the first year of IB Group 1 requirements for students pursuing the IB Diploma. Students in this course will be prepared to take the AP English Language exam in May, if they choose.

Location: Interlake

This course meets international standards of performance. Students will expand analytic and composition skills. Course content includes prose non-fiction, poetry, fiction, and drama, and the techniques appropriate to those genres. The significance of historic and other cultural influences on literature will be explored, as well. College-level analytical reading, essay composition, and presentations are emphasized.

ENG701 AL IB LITERATURE HL 2

Length/Credit: 1 year - 1.0 credit **Prerequisite:** IB English HL 1/AP

Language

Other info: This course is the second of a two-year International Baccalaureate program that includes oral and written assessments. Students in this course will be prepared to take the AP English Literature exam in May, if they choose.

Location: Interlake

These courses meet international standards of performance. Students will expand analytic and composition skills. Course content includes prose non-fiction, poetry, fiction, and drama, and the techniques appropriate to those genres. The significance of historic and other cultural influences on literature will be explored, as well. College-level analytical reading, essay composition, and presentations are emphasized.

ENG702 AL IB LANGUAGE & LITERATURE HL 2

Length/Credit: 1 year - 1.0 English credit

Prerequisite: AL IB Language and

Literature HL 1 Location: Interlake

This course meets international standards of performance. Students will expand analytic and composition skills. Course content includes novels, short stories, poetry, and drama. The significance of historic and other cultural influences on literature will be explored, as well as the techniques appropriate to the genre. Analytical reading, essay composition, and oral communication skills are emphasized. Note: if taking this course as an IB Diploma candidate, you must have taken the first year of IB Language and Literature to qualify for this course.

ENG804 ADVANCED STUDIES IN ENGLISH

Length/Credit: 1 year – 1.0 English

Prerequisite: IB English HL 2/AP

Literature

Location: Interlake

Students will explore formal poetic styles, but the main goal will be for students to approach various topics and prompts creatively with an emphasis on finding their own voice and speaking their own truth. In prose students will explore short

story writing, flash fiction, and create a short screen play. In addition, students will hone their abilities to "read" film. The analysis of film will be equally divided between the technique of each film and "truths" that the film attempts to convey. Film choices will be from several decades but will favor more contemporary film, both in style and subject. Writing will accompany the analysis of film through reviews, critiques and analysis.

SOCIAL STUDIES COURSES

SSG501 AL AP MODERN WORLD HISTORY

Length/Credit: 1 year - 1.0 credit

Location: Interlake

AP Modern World History is designed to be the equivalent of a twosemester introductory college or university world history course. Students investigate significant events, individuals, developments in four historical periods from approximately 1200 CE to present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical comparisons and utilizing reasoning about contextualization, causation, and continuity and change over time. The course provides five themes that students explore throughout the year in order to make connections among historical developments in different times and places: interaction between humans and the environment; development and interaction of cultures; state building, expansion, and conflict; creation, expansion and interaction of economic systems; and development and transformation of social structures.

SSG601 **AL IB HISTORY HL 1/AP US HISTORY**

Length/Credit: 1 year - 1.0 credit **Prerequisite:** AL AP World History Other info: The course is designed to prepare students to take the Advanced Placement exam in US History, and the course satisfies the content requirements for Paper Three of the IB examinations that students take at the end of their junior year.

Location: Interlake

This course provides students with the analytical skills and factual knowledge necessary to deal critically with the political, social, and economic problems in United States history, and in the history of the Americas. Topics will include a study of the emerging republic, sectionalism and civil war, the rise of industry, westward movement, and political reform. The second semester studies the emergence of the U.S. as a world economic, political, and military power. In addition, the course incorporates topics on the Mexican Revolution, Juan Peron in Argentina, the Haitian Revolution, Fidel Castro in Cuba, and the emergence of Canada. Students will also engage in historical research as part of the course

SSG701 AL IB HISTORY HL 2 / AP AMERICAN GOVERNMENT

Length/Credit: 1 year - 1.0 credit Prerequisite: AL IB History HL 1/AP

US History

Other info: The course prepares students for the Advanced Placement exam in U.S. Government and satisfies the content requirements for Papers One and Two of the Higher Level examination for the International Baccalaureate Diploma.

Location: Interlake

The course provides students with a critical perspective on politics and government in the United States. Units include constitutional

underpinnings, various policy-making institutions, linkage institutions (media, parties, elections, interest groups (beliefs), and ideas that make up the American political reality. In addition, the course includes an in-depth, international perspective on the social, economic, and political developments of the Cold War in the U.S., Russia, China, and Vietnam. It also includes a document-based analysis of the Arab-Israeli conflict.

SSG801 COLLEGE LEVEL SOCIAL SCIENCE

Length/Credit: 1 year – 1.0 credit **Prerequisite:** IB History HL 2/AP American Government

Other info: The course prepares for the Advanced Placement exams in Micro and Macro Economics

Location: Interlake

Students will build on their basic understanding of economic principles by investigating crucial social issues that are the basis of both microeconomics and macroeconomics. This will involve developing an understanding of the economic choices made by individual households and firms as they seek to maximize their wellbeing. It will also entail assessing the measurement of the performance of the American economy, evaluating potential policy tools such as taxes, government spending and interest rates, and understanding the role of the US in the global economy.

SCIENCE COURSES

SCG501 AL CHEMISTRY 9

Length/Credit: 1 year - 1.0 credit

Prerequisite: Biology **Location:** Interlake

This lab-intensive course provides students with an introduction to chemical principles and their applications. Topics covered include

atomic theory, concepts in bonding, nanotechnology, states of matter and behavior of gases, mathematical calculations in chemistry, chemical reactions, equilibrium, acids and bases, thermochemistry and electrons in reactions.

SCG601 AL IB PHYSICS SL1 / AP PHYSICS 1

Length/Credit: 1 year - 1.0 credit Science credit

Prerequisite: Algebra 2 or AL Algebra 2. (All AL students take Algebra 2 the year prior to enrolling in this course). Other info: Student may take the AP Physics 1 exam in the spring. Students may choose to complete another year of physics in order to take the AP Physics 2 exam or complete the IB Physics SL or IB Physics HL assessments.

Location: Interlake

This is a college-level physics course in which algebraic solutions to problems are developed. The course provides a systematic introduction to the main principles and concepts in physics via inquiry instruction. Students are challenged to apply their understandings to complex situations, to express their ideas mathematically, and to provide clear justification for their answers. Topics include mechanics, rotational dynamics, simple harmonic motion, mechanical waves, electric force and fields, and an introduction to electric circuits. Particular emphasis is placed on experimental design and methods of data collection and analysis. Students complete an individual investigation in the spring.

MATHEMATICS COURSES

MAG501 AL ALGEBRA 2

Length/Credit: 1 year - 1.0 credit

Prerequisite: Geometry **Location:** Interlake

Algebra 2 is a second year algebra course that covers the content of the Washington State and Common Core Mathematics Standards. This course focuses on the same mathematical content as Algebra 2 but at a deeper, more analytical level. Consequently, assigned work is more challenging. Highlights of the course include:

- » Number & Quantity: operations with rational, irrational and complex numbers.
- » Expressions, Equations and Inequalities: transform expressions using the properties of real numbers; solve linear, absolute value, quadratic, polynomial, rational, radical, exponential and logarithmic equations and inequalities; solve systems of linear equations and inequalities in two and three variables; solve systems of nonlinear equations In 2 variables.
- » Functions: recognize and represent linear, quadratic, polynomial, exponential, logarithmic, rational, radical and trigonometric functions using tables, graphs, words and symbols; identify intercepts, domain and range; use functions and their related equations to solve problems; understand how transformations affect the equations, graphs and properties of functions.
- » Modeling: use functions to develop models for real world problem situations and analyze them to solve problems and answer questions that arise from these situations
- » Probability & Statistics: analyze of measures of center and variation, normal and binomial distributions; counting, permutations and combinations; independent, dependent and compound events
- » Trigonometry: use trigonometric ratios and the Law of Sines and Law of Cosines to solve problems

ADDITIONAL ELECTIVES

CTG770 INTERNSHIP

Length/Credit: 1 semester - 1.0 credit **Prerequisite:** 12th grade standing in the Advanced Learning High School

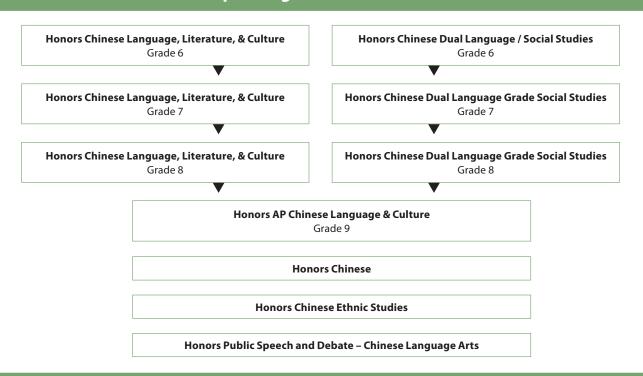

Program

Location: Interlake

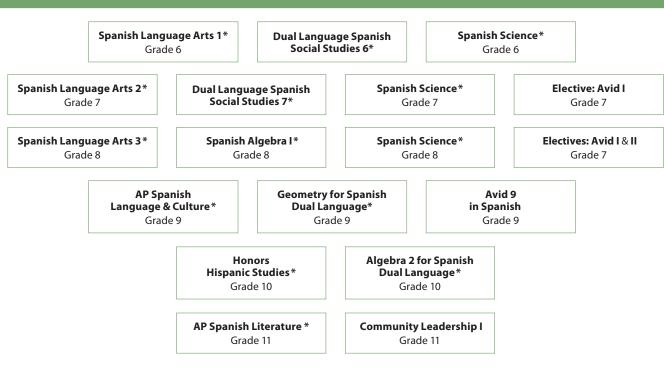

The mission of the GHSP internship program is to expose students to a variety of career employment possibilities, through which they can gain an overview of potential career paths, learn appropriate workplace behaviors and protocols, and develop a realistic understanding of what to expect from a future career as well as what will be expected of them in a variety of situations. These goals will be achieved by the student participating in his/her own internship(s) by sharing what he/ she learns with other interns in the program in a structured classroom situation, and by participating in career seminars presented by professionals from a variety of industries.

Dual Language Programs Course Sequence

Chinese Dual Language at Tillicum Middle School & Newport High School each course 1 credit

Spanish Dual Language at Highland Middle School & Sammamish High School *each course 1 credit*

^{*} Students must be enrolled in these courses in order to remain in the Dual Language Program

Dual Language Programs

The secondary Chinese Dual Language Program is located at Tillicum Middle School and Newport High School. The program consists of students from the K-5 Chinese Dual Language Program at Jing Mei Elementary School, as well as in-district students whose Chinese proficiency levels are at the higher end of Intermediate Mid to Intermediate High. Middle school students will participate in two classes, starting with Honors Chinese Language, Literature, and Culture 1 and Honors Chinese **Dual Language Social Studies** 6. High school will have one class each year.

CHINESE DUAL LANGUAGE PROGRAM MIDDLE SCHOOL

DLC401 HONORS CHINESE LANGUAGE, LITERATURE & CULTURE 1

Length/Credit: 1 year

Prerequisite: Previously enrolled in the K-5 Chinese Dual Language Program at Jing Mei Elementary or have met the higher end of Intermediate Mid proficiency level in Chinese based on standardized language assessment.

Location: Tillicum

This course is conducted entirely in Mandarin. Students will develop literacy skills through literaturebased curriculum that incorporates authentic and culturally relevant literature, vocabulary, and cultures that are grade level appropriate and based on students' learning needs. Reading and writing units will include personal narratives, fiction, nonfiction, literary and content-based research essays. The course is aligned with Common Core State Standards and ACTFL standards for both content and language proficiency skills. Out of classroom and summer readings are required.

DLC102 HONORS DUAL LANGUAGE CHINESE SOCIAL STUDIES 6

Length/Credit: 1 year

Prerequisite: Previously enrolled in the K-5 Chinese Dual Language Program at Jing Mei Elementary or have met the higher end of Intermediate Mid proficiency level in Chinese based on standardized language assessment.

Location: Tillicum

This course is conducted entirely in Mandarin and will be using various literature pieces to introduce the honors grade social studies 6 concepts. The course focuses on the geography and cultures of Europe, Mexico, South America, Central America, and the Caribbean. Students begin the year with the study of physical and human geography terms and concepts. These terms and concepts will then be applied throughout the year while studying the contemporary geography of Europe and Latin America. Students study the geography of each of these world regions; explore cultural and natural features that characterize each region; trace the movement of people, ideas, and products within the regions; and discover ways that each can be divided into sub-regions.

Chinese Dual Language Program

Historical background is provided to enable students to understand how these regions developed from the past to the present. Differences in governments and economies are examined. Through regular study and discussion of current events, students study public issues of global significance in these regions and work to resolve them through analysis, discussion, and writing. Using a variety of media, students compile, analyze, and present geographic and economic data pertaining to the regions.

DLC402 HONORS CHINESE LANGUAGE, LITERATURE & CULTURE 2

Length/Credit: 1 year

Prerequisite: Previously enrolled in the Chinese Dual Language Program or have met proficiency standards in Chinese

Location: Tillicum

This course is taught entirely in Mandarin and will incorporate themes from 7th Grade Honors Language Arts in English and 7th Grade Honors Social Studies for cross-content knowledge and skills. The curriculum will be project and theme based. Students will be exposed to a variety of authentic materials and resources that are cultural and real-life relevant.

The course is aligned with the Common Core State Standards and ACTFL standards. Reading, writing, speaking, listening, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they continue to progressively build the skills necessary for academic success. The primary goals of the course are to foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind. Outside and summer reading are required.

DLC202 HONORS DUAL LANGUAGE CHINESE SOCIAL STUDIES 7

Length/Credit: 1 year

Prerequisite: Previously enrolled in the Chinese Dual Language Program or have met proficiency standards in Chinese.

Location: Tillicum

This course is taught entirely in Mandarin. The course will begin with an introduction to the foundations and development of ancient civilizations. Students will continue to examine the current geography and cultures of the following regions: The Middle East, Africa (West, East, Central, and Southern), China and South Asia. This course also covers Washington State geography and economics. Students will strengthen geographic terms and concepts from the previous year and explore cultural and natural features that characterize each region. The study of China includes the topic of Cultural Revolution and its history. Through regular exploration and discussion of current events, students study public issues of global significance in these regions and consider possible resolutions to them through analysis, discussion, and writing. Students will continue to demonstrate their understanding of historical events and strengthen their literacy and language proficiency skills through authentic reading materials and project based learning. They will read and write using the CER model of claim, evidence, and reasoning through examining a variety of nonmedia and media resources.

DLC403 HONORS CHINESE LANGUAGE, LITERATURE & CULTURE 3

Length/Credit: 1 year

Prerequisite: Previously enrolled in the Chinese Dual Language Program or have met proficiency standards in Chinese.

Location: Tillicum

This course will be taught entirely in Mandarin. This course is aligned with the Common Core State Standards and the World Readiness Standards for Learning Languages, Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they transition into high school. The primary goals of the course are to promote biliteracy and bilingualism, foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind. Authentic Mandarin literary and informational texts will be used to cultivate multiple perspectives in examining topics that are relevant to students' lives. Outside and summer reading are required.

DLC302 HONORS DUAL LANGUAGE SOCIAL STUDIES 8

Length/Credit: 1 year **Location:** Tillicum

This course will be taught entirely in Mandarin. Students will examine the ideas that shaped the United States as they practice the skills of close reading, analyzing, contextualizing, and sourcing. The units of study include Native Americans, European Exploration and Colonization, the American Revolution, the Founding of American Government, Westward Expansion, and the Civil War. This course also includes a study of Washington State History and the Washington State Constitution. Students will analyze, synthesize and evaluate historical events using primary and secondary sources as well a variety of media. They will develop the essay writing skills of making claims supported with strong evidence and valid reasoning.

Chinese Dual Language Program

CHINESE DUAL LANGUAGE PROGRAM HIGH SCHOOL

CHA801 AP CHINESE LANGUAGE & CULTURE

Length/Credit: 1 year - 1.0 credit Prerequisite: Completion of Honors Chinese Language, Literature & Culture 3, Chinese 4 or equivalent Other info: Students will take the AP exam in the spring. Those receiving a score of 3, 4 or 5 may receive college credit in 200-level equivalent classes, depending upon the university in which they enroll.

Location: Newport

AP Chinese Language is a comprehensive review of the Chinese language through literature, media, and linguistic interaction. Emphasis is placed on the development of the four language skills at an advanced level of proficiency. To gain a broader understanding of the Chinese language and culture, students will explore a range of sources including literature, art, history, and geography on Chinese society and current events. This class is conducted entirely in Chinese and serves as a preparation for the AP Chinese Language and Culture exam.

CHH906 HONORS CHINESE 6

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of AP Chinese Language or equivalent

Location: Newport

This class is designed to deepen students' Chinese language skills and cultural understanding through the use of authentic materials. Students will be communicating in the target language of interpersonal speaking and writing, presentational speaking and writing, and interpretive reading and listening with an emphasis on literature & composition. This

class is conducted entirely in Mandarin to sustain students' language abilities.

DLC916 CHINESE ETHNIC STUDIES

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of AP Chinese Language or Honors Chinese 6 or equivalent

Location: Newport

This course is an introductory course for students to learn Chinese history that teaches the perspective of the seven major ethnic groups. Students will learn from each ethnic group's perspective what Chinese means to them and how Chinese became a melting pot by disseminating and absorbing from each ethnic group. Students will examine how the politics, religion, economy, literature, agriculture, and technology shaped Chinese up to Qing dynasty, the last imperial government. This class is conducted entirely in Mandarin to sustain students' language abilities.

DLC920 PUBLIC SPEECH & DEBATE -CHINESE LANGUAGE ARTS

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Completion of AP Chinese Language or Honors Chinese

6 or equivalent **Location:** Newport

This course is designed to advance student's communication and presentation skills. Debate and speech topics are organic (from local, national to global issues) and relevant to the real-world. Students will be able to further develop their global competency. Through projects, students will develop the sense of self and their relationship with the community and society. Through these projects, students will develop the sense of self and their relationship with the community and society. Students will also learn to negotiate and compromise while expressing

ideas from their unique perspectives on the topics. Although students will be preparing their debate and speech script by reading research literature and writing, this course will weight heavier on speaking and listening domains. Students will work collaboratively on debate and independently on speech projects. After each project, students will debrief and make actionable recommendations to deepen their thinking and enhance their language skills.

The Spanish Dual Language
Program at the middle school
level is housed at Highland
Middle School. Dual language
students participate in three
content area classes per day in
Spanish and four classes per day
in English. The offerings vary
from sixth to eighth grade and
include Spanish language arts,
social studies, science, math, and
electives.

The Spanish Dual Language
Program at the high school level
is housed at Sammamish High
School. Dual Language students
participate in at least two content
area classes per day in Spanish.
The offerings include a Spanish
Language Arts course for each
year. The other course offerings
will vary from ninth to twelfth
grade as the program continues
to be rolled out at the high
school level.

SPANISH DUAL LANGUAGE PROGRAM MIDDLE SCHOOL

DLS401 SPANISH LANGUAGE ARTS 1

Length/Credit: 1 year

Prerequisite: Previously enrolled in Spanish Dual Language Program or have met proficiency standard in

Spanish

Location: Highland

Spanish Language Arts 1 is taught in Spanish and is aligned with the Common Core State Standards. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they continue to progressively build the skills necessary for academic success in middle school. The primary goals of the course are to promote biliteracy and bilingualism, foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind. Throughout the year students engage with different novels, poetry units, grammar lessons, and projects to help facilitate the students' knowledge of Spanish language and literature.

DLS105 SPANISH 6TH GRADE SCIENCE

Length/Credit: 1 year **Location:** Highland

The focus in sixth grade, conducted in Spanish, is the development of foundational and observable principles in science. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenges students to consider multiple perspectives by carrying out investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide opportunities to investigate science

topics of relevance to their own lives and build understanding of essential learning in science focused on body systems, variation of traits, thermal energy, weather patterns and the impact of climate change and humans' role in these changes.

DLS102 DUAL LANGUAGE SPANISH SOCIAL STUDIES 6

Length/Credit: 1 year

Prerequisite: Previously enrolled in Spanish Dual Language Program or have met proficiency standard in Spanish

Location: Highland

The sixth-grade honors social studies course, taught in Spanish, introduces students to the study of geography, culture, and history. Students begin the year with a general study of physical and human geography terms and concepts, with an emphasis on exploring how physical features impact people. These concepts will then be applied throughout the year while studying the physical and human geography of Europe and Latin America. Students explore questions that geographers and historians grapple with such as: Why is location important? How does physical geography impact population, culture, and level of development? What causes conflict? How does prejudice take over? Why and how are cultures and countries different from each other? Students research, analyze, and present geographic and economic data pertaining to Europe and Latin America using various types of sources. During this unit students examine some of the events leading up to the Holocaust and read excerpts of Daniel's Story. Students also develop the thinking, reading, and writing skills necessary to make a claim and support it with detailed, relevant evidence, and develop critical reading skills through the analysis of a variety of primary

sources such as photos, graphs, maps, and other historical artifacts.

DLS402 SPANISH LANGUAGE ARTS 2

Length/Credit: 1 year

Prerequisite: Previously enrolled in Spanish Dual Language Program or have met proficiency standard in Spanish

Location: Highland

Spanish Language Arts 2, taught in Spanish, is aligned with the Common Core State Standards. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they continue to progressively build the skills necessary for academic success. The primary goals of the course are to promote biliteracy and bilingualism, foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind. This course will continue in growing the skills learned in Spanish Language Arts I as well as add new skills not previously learned. There will be a range of different literary texts in this class to facilitate the student's exposure and knowledge of Spanish language and literature.

DLS204 SPANISH 7TH GRADE SCIENCE

Length/Credit: 1 year

Prerequisite: Previously enrolled in Spanish Dual Language Program or have met proficiency standard in Spanish

Location: Highland

The focus in seventh grade science conducted in Spanish, is to continue the development of science and engineering practices and observable principles. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that

challenge students to consider multiple perspectives by carrying out investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this course focus on phase change, chemical reactions, plate motion, rock transformation, matter and energy in ecosystems, and ecosystem dynamics.

DLS202 DUAL LANGUAGE SPANISH SOCIAL STUDIES 7

Length/Credit: 1 year

Prerequisite: Previously enrolled in Spanish Dual Language Program or have met proficiency standard in Spanish

Location: Highland

The seventh grade honors social studies course begins with an introduction to the foundations and development of Early River Valley civilizations. Students will continue to examine the current geography and cultures of the following regions: The Middle East, Africa (West, East, Central, and Southern), China and South Asia. This course also covers Washington State geography and economics. The geographic terms and concepts learned in the sixth grade are reinforced as they are applied to the regions studied in seventh grade social studies. Students explore cultural and natural features that characterize each region; trace the movement of people, ideas, and products within the regions; and discover ways that each can be divided into sub-regions. While studying each region, students will examine how civilizations manage their water supplies for consumption, irrigation, and farming which includes a basic overview of Bellevue's watershed.

Historical background is provided to enable students to understand how these regions developed from the past to the present. The study of China includes a focus on the Cultural Revolution. Students read the novel Red Scarf Girl to discover how the events of the Cultural Revolution impacted one family. Through regular exploration and discussion of current events, students address public issues of global significance in these regions and consider possible resolutions for them through analysis, discussion, and writing. Students also demonstrate their understanding of historical events through writing by developing claims supported by evidence backed with sound reasoning. Using a variety of media, students compile, analyze, and present geographic and economic data pertaining to the regions.

DLS403 SPANISH LANGUAGE ARTS 3

Length/Credit: 1 year

Prerequisite: Previously enrolled in Spanish Dual Language Program or have met proficiency standard in Spanish

Location: Highland

Spanish Language Arts 3, taught in Spanish, is aligned with the Common Core State Standards. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they continue to progressively build the skills necessary for academic success. The primary goals of the course are to promote biliteracy and bilingualism, foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind. This course will continue in growing the skills learned in Spanish Language Arts 2. There will be a range of different literary texts in this class to

facilitate the student's exposure and knowledge of Spanish language and literature.

DLS400 SPANISH ALGEBRA I

Length/Credit: 1 year

Location: Highland, Sammamish

This course, conducted in Spanish, is a first year algebra course that covers the content of the Common Core State Standards for mathematics. Highlights of this course include: Number & Quantity: operations with integers, rational and irrational numbers; Expressions, Equations and Inequalities: evaluate expressions; simplify, add, multiply, and factor polynomials using the properties of real numbers; solve linear, absolute value, and quadratic equations and inequalities; solve systems of linear equations and inequalities in two variables; Functions: recognize and represent linear, quadratic, and exponential functions using tables, graphs, words, and symbols; identify intercepts, domain, and range; develop models for real world situations and analyze the models to solve problems and answer questions that arise from these situations; Statistics: analyze and transform measures of center and variation, properties of data sets, correlation, and use trend lines as mathematical models.

DLS304 SPANISH 8TH GRADE SCIENCE

Length/Credit: 1 year **Location:** Highland

The focus in eighth grade science conducted in Spanish, is to provide multiple contexts for exploring relevant science phenomena and using scientific explanation and argumentation. Each unit is aligned to NGSS and focuses on problems, questions and phenomena that challenge students to consider multiple perspectives by carrying out

investigations, evaluating evidence and having class discussions before drawing conclusions.

Students engage in units that provide students opportunities to investigate science topics of relevance to their own lives and build understanding of essential learning in science. Units in this course focus on energy transfer, forces, magnetic fields, Earth-Moon-Sun systems, natural selection and evolutionary history.

DLS105 AVID I IN SPANISH

DLS205 AVID II IN SPANISH

Length/Credit: 1 year

Prerequisite: Application and

interview

Location: Highland

Advancement Via Individual Determination (AVID) is a rigorous course designed for motivated and determined students who intend to pursue a four-year college degree. Open to 6th, 7th and 8th grade students, AVID students work through peer study groups and collaborate with college academic coaches to deepen their content knowledge, practice questioning strategies, and lead discussions. AVID course work focuses on entrance and placement exams, career and college knowledge, preparing for college study sessions, test taking strategies, refining note taking strategies, time management, organizational skills, and presentation methods. AVID is designed to prepare students for success in four-year colleges and universities by supporting students who want to challenge themselves to use and refine inquiry, reading, writing, and collaborative strategies that students use for success in rigorous courses and in college. Another primary goal of AVID is to close the opportunity gap by providing greater access to the most rigorous courses and college for all students.

SPANISH DUAL LANGUAGE PROGRAM HIGH SCHOOL

DLS404 SPANISH LANGUAGE ARTS 4

Length/Credit: 1 year **Location:** Sammamish

Spanish Language Arts 4, taught in Spanish, is aligned with the Common Core State Standards. Reading, writing, speaking, listening, language, and collaborative strategies are used purposefully to build knowledge and skills and to help students become independent readers, writers, and thinkers as they continue to progressively build the skills necessary for academic success. The primary goals of the course are to promote biliteracy and bilingualism, foster independent learning, encourage in-depth exploration of the content, and develop academic habits of mind. This course will continue in growing the skills learned in Spanish Language Arts 3. There will be a range of different literary texts in this class to facilitate the student's exposure and knowledge.

DLS405 GEOMETRY FOR SPANISH DUAL LANGUAGE

Length/Credit: 1 year - 1.0 credit

Prerequisite: Algebra 1 **Location:** Sammamish

This course covers the content of the Common Core State Standards for Mathematics. Highlights of the course include Statistics and Probability, Geometric Figures and Proof, Transformational Geometry, Similarity, and Right Triangle Trigonometry.

DLS406 AP SPANISH LANGUAGE & CULTURE

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Spanish Language

Arts 3

Other info: Students will take the AP exam in the spring. Those receiving a score of 3, 4 or 5 may receive college credit in 200-level equivalent classes, depending upon the university in which they choose to enroll.

Location: Sammamish

The AP Spanish Language and Culture course provides students with regular opportunities to use Spanish in all three communicative modes: Interpretive, Interpersonal, and Presentational. In addition to developing rich vocabulary, idiomatic expression, and sophisticated language skills, students will learn about the cultural products, practices and perspectives of the Spanishspeaking world by interacting with all of the following authentic resource materials: online print articles, graphs, charts, maps, audio, and audiovisual, traditional print resources that include literature, essays, and magazine and newspaper articles, movies, and native speakers outside of the classroom. Course content will be organized thematically according to the College Board's Curriculum Framework and guided by essential questions.

DLS502 HONORS HISPANIC STUDIES & HUMANITIES

Length/Credit: 1.0 Elective credit **Prerequisite:** Completion of AP Spanish Language or permission from instructor

Location: Newport, Sammamish

Students examine Hispanic cultures, history and art through rich, robust and relevant units of study. Students will read about how historical events shape and define a culture, study and engage in productions of art that reflect and portray belief systems, and analyze how literature, film and other fine arts document and reveal aspects of societies. This class is conducted entirely in Spanish.

DLS601 AP SPANISH LITERATURE & CULTURE

Length/Credit: 1.0 Elective credit **Prerequisite:** Completion of Honors Hispanic Studies and Humanities or permission from instructor

Other info: Students will take the AP exam in the spring. Those receiving a score of 3, 4 or 5 may receive college credit in 200-level equivalent classes, depending on the university.

Location: Sammamish

Students read, analyze, discuss, and write in Spanish and about Hispanic literature from the fourteenth through twentieth centuries. Thirtysix authors and fifty-six works are studied for the AP course. Students discuss, interpret, and compare these works in their social, historical, and thematic contexts. All genres of literature are read. Students are trained to analyze critically the form and content of various literary works. This class is conducted entirely in Spanish. At the end of the year, students will take the AP exam in Spanish Literature.

DLS501 ALGEBRA 2 FOR SPANISH DUAL LANGUAGE

Length/Credit: 1 year - 1.0 credit **Prerequisite:** Algebra 1, Geometry **Other info:** The 10th grade Smarter Balanced Assessment includes content from Algebra 1 and Geometry.

Location: Sammamish

This course is a second year algebra course that covers the content of the Common Core State Standards for Mathematics and prepares students for the required state testing. This course builds off topics developed in Algebra 1 and Geometry. Highlights of the course include: Properties of Functions, Quadratics, Exponential and Logarithmic Functions, Rational Expressions and Equations.

DLS474

COLLEGE

COMMUNITY LEADERSHIP I

Length/Credit: 1 year - 1.0 credit **Location:** Sammamish

This is a project-based course that seeks to prepare students to be agents of change and transformation. This course is open to 11th grade Spanish Dual Language and ISA students who want to serve the greater community while developing their leadership skills. The course uses the lenses of multiculturalism and social justice as we prepare students academically to be biliterate in Spanish and English. Leadership skills such as mentorship, self-reflection, pride in identity, decision making, communication, and recognizing different perspectives will be developed through instructional activities and projects.

COLLEGE

The Bellevue School District is in the process of building a Heritage Language Program at both the elementary and secondary level. The Secondary Heritage Language Program will be online and hosted by Bellevue Digital Discovery. The online courses will be available for all Bellevue School District secondary students. Heritage language programs are recommended for students who are interested in building their knowledge and experiences between language and culture.

HL_401 ARABIC 1

Length/Credit: 1 year – 1 credit **Other info:** This is an online only offering

Location: Bellevue Digital Discovery and available at all secondary schools

This course is for students who are interested in learning Arabic whether or not they have prior experience with the language. Beginning students will learn how to communicate in Arabic Language through listening, speaking, reading, and writing. Students will experience listening to and learning different dialects from other Arabic speaking countries. Throughout the course students will learn about the history of the Arab world and the diverse cultures.

HL_501 ARABIC 2

Length/Credit: 1 year – 1 credit **Prerequisite:** Arabic 1 or the equivalent prior learning **Other info:** This is an online only

offering

Location: Bellevue Digital Discovery and available at all secondary schools

Students will develop their communication in Arabic Language through listening, speaking, reading,

writing and presentational speaking and writing. Students will experience listening to and learning different dialects of Arabic to consider the cultural aspects of use of Arabic language more carefully. Throughout the course students will broaden their understanding of cultural histories of the Arab world.

HL_601 ARABIC 3

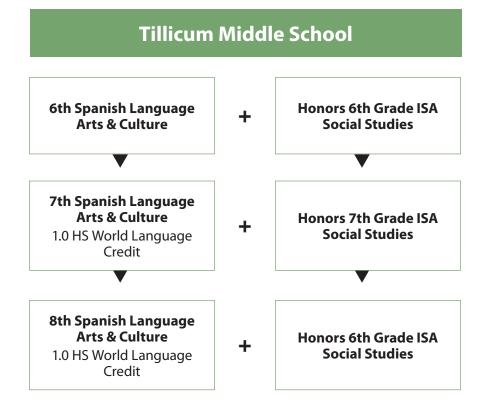

Length/Credit: 1 year – 1 credit **Prerequisite:** Arabic 2 or the equivalent prior learning **Other info:** This is an online only

offering

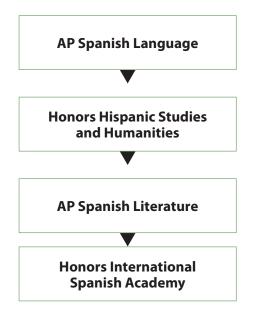

Location: Bellevue Digital Discovery and available at all secondary schools

Students will deepen their Arabic Language through listening, speaking, reading and writing to grow in their Arabic fluency. Students will experience listening to and learning different Dialects from other Arabic speaking countries, as well as interacting with a literary text. Throughout the course students will learn about the History of the Arab world and the diverse cultures.

International Spanish Academy Course Sequence Grades 6-12

Newport & Sammamish High School

AP - Advanced Placement

The International Spanish Academy (ISA) is recognized by the Ministry of Education of Spain. The Ministry makes resources and programs available to ISA schools throughout the world and offers an integrated curriculum to prepare the students to participate in international university programs. Students also have multiple opportunities to earn the Seal of Biliteracy.

The Middle School courses are designed for Spanish Immersion students who are at the intermediate proficiency level.

EARNING THE ISA DIPLOMA

Students must successfully complete the following to receive an ISA diploma.

MIDDLE SCHOOL (6 total) 6TH GRADE

- » Honors 6th Grade ISA Social Studies in Spanish; AND
- » 6th Grade Spanish Language Arts

7TH GRADE

- » Honors 7th Grade ISA Social Studies in Spanish; AND
- » 7th Grade Spanish Language Arts

8TH GRADE

- » Honors 8th Grade ISA Social Studies in Spanish OR Science in Spanish
- » 8th Grade Spanish Language Arts

HIGH SCHOOL (all 4)

- » AP Spanish Language and Culture
- » Honors Hispanic Studies or Spanish Language Arts 4
- » AP Spanish Literature and Culture
- » Honors Hispanic Studies and Humanities or Spanish 4
- » Honors International Spanish Academy

In certain circumstances, a student may take Spanish 4 in 9th grade (based upon proficiency) and still earn the ISA Diploma by doubling up on ISA Program classes in a future year.

SUCCESS ON TWO OF THESE TESTS

TEST STAMP 4S*	PASSING SCORE 6+ on all skills	GRADE 8th, 10th
AP Spanish Language & Culture	3+	9th
AP Spanish Literature	3+	11th
DELE B2	Pass	12th

* Students take the STAMP test in 8th and 10th grade to track student growth and evaluate the ISA program.

International Spanish Academy

SPANISH LANGUAGE ARTS & CULTURE

SI_404 6TH SPANISH LANGUAGE ARTS AND CULTURE

Length/Credit: 1 year

Prerequisite: Previously enrolled in Puesta del Sol Elementary Spanish Immersion program or have met Spanish Language Standard

Location: Tillicum

This course is conducted in Spanish. It integrates authentic literature, grammar, vocabulary and spelling practice, culture and how it relates to today's world. The goal of this program is to deepen the student's knowledge of the Spanish language as well as the literature and culture of the Spanish-speaking world.

SI_405 7TH SPANISH LANGUAGE ARTS AND CULTURE

Length/Credit: 1 year - 1.0 World

Language credit

Prerequisite: Previously enrolled in the 6th grade ISA program or have met standard on the MS ISA 7th grade

entrance exam **Location:** Tillicum

This course is conducted entirely in Spanish. It offers a language acquisition environment where students can reach advanced proficiency in reading, writing, listening and speaking by integrating authentic literature, vocabulary and language structures enrichment, and culture as it relates to today's world. This course has a language arts focus, as well as Advanced Placement support and practice. The goal of this course is to deepen the student's knowledge of the Spanish language, literature, and culture of the Spanishspeaking world in order to educate biliterate, bilingual and multicultural global citizens.

SI_406

8TH SPANISH LANGUAGE ARTS AND CULTURE

Language credit

Prerequisite: Previously enrolled in the 7th grade ISA program or have met standard on the MS ISA 8th grade entrance exam

Location: Tillicum

This course is conducted entirely in Spanish. It offers a language acquisition environment where students can reach advanced proficiency in reading, writing, listening and speaking by integrating authentic literature, vocabulary and language structures enrichment, and culture as it relates to today's world. This course has a language arts focus, as well as Advanced Placement support and practice. The goal of this course is to deepen the student's knowledge of the Spanish language, literature, and culture of the Spanishspeaking world in order to educate biliterate, bilingual and multicultural global citizens.

INTERNATIONAL SPANISH ACADEMY (ISA) SOCIAL STUDIES

SI_102 HONORS 6TH GRADE ISA SOCIAL STUDIES

Length/Credit: 1 year

Prerequisite: Previously enrolled in Puesta del Sol Elementary Spanish

Immersion program **Location:** Tillicum

This class is conducted entirely in Spanish. The sixth grade honors social studies course introduces students to the geography and cultures of Europe, Mexico, South America, Central America, and the Caribbean. Students begin the year with the study of physical and human geography terms and concepts. These terms and concepts will then be applied throughout the year while studying the con-

temporary geography of Europe and Latin America. Students study the geography of each of these world regions; explore cultural and natural features that characterize each region; trace the movement of people, ideas, and products within the regions; and discover ways that each can be divided into sub-regions. Historical background is provided to enable students to understand how these regions developed from the past to the present. Differences in governments and economies are examined. Through regular study and discussion of current events, students study public issues of global significance in these regions and work to resolve them through analysis, discussion, and writing. Using a variety of media, students compile, analyze, and present geographic and economic data pertaining to the regions.

SI_202 HONORS 7TH GRADE ISA SOCIAL STUDIES

Length/Credit: 1 year

Prerequisite: Previously enrolled in Honors 6th Grade Social Studies (ISA)

Location: Tillicum

This class is conducted entirely in Spanish. The seventh grade honors social studies course introduces students to geography and cultures of the Middle East, Africa (West, East, Central, and Southern), India, China, Japan, and Korea. This course also covers Washington State Geography and Economics. The geographic terms and concepts covered in the 6th grade are reinforced as they are applied to the regions studied in 7th grade social studies, and as students explore cultural and natural features that characterize each region; trace the movement of people, ideas, and products within the regions; and discover ways that each can be divided into sub-regions. Historical background is provided to enable students to understand

International Spanish Academy

how these regions developed from the past to the present. Differences in governments and economies are examined. Through regular study and discussion of current events, students study public issues of global significance in these regions and work to resolve them through analysis, discussion, and writing. Using a variety of media, students compile, analyze, and present geographic and economic data pertaining to the regions.

SI_302 HONORS 8TH GRADE ISA SOCIAL STUDIES

Length/Credit: 1 year

Prerequisite: Previously enrolled in Honors 7th Grade Social Studies (ISA)

Location: Tillicum

This class is conducted entirely in Spanish. Students will examine the ideas that have shaped the United States through a historical context using the skills of problem solving, logic, critical thinking, and information gathering, presentations and simulations. Students analyze, synthesize and evaluate social science concepts. Students will examine the following topics in depth: European exploration and colonization, the American Revolution, the founding of the American government, the roles that multiple ethnic groups have in the development of the U.S., expansion and reform, and the Civil War. This course also covers Washington State History and the Washington State Constitution.

The International Spanish Academy (ISA) program in High School is offered at Sammamish and Newport High Schools. The courses are designed for immersion and native speakers at the Intermediate High and Advanced Low proficiency levels.

INTERNATIONAL SPANISH ACADEMY (ISA) HIGH SCHOOL

SIA401 AP SPANISH LANGUAGE & CULTURE

Length/Credit: 1 year - 1.0 Elective

COLLEGE

credit

Prerequisite: Completion of 8th grade International Spanish Academy **Other info:** Students will take the STAMP test to qualify for the ISA Diploma

Location: Newport, Sammamish

This class is conducted entirely in Spanish and is focused on improving reading, writing, listening and speaking abilities. Students will improve proficiency in Spanish with the goal of earning a 3, 4 or 5 on the AP Spanish Language Exam. The course seeks to develop integrated language skills that are useful in themselves and that can be applied to various activities and disciplines rather than a mastery of any specific subject matter. Training in integrating language skills and in synthesizing written and aural materials is an integral part of the AP Spanish Language course.

SIH501 HONORS HISPANIC STUDIES & HUMANITIES

Length/Credit: 1 year - 1.0 Elective

Prerequisite: Completion of AP Spanish Language or permission from instructor.

Location: Newport, Sammamish

Students examine Hispanic cultures, history and art through rich, robust and relevant units of study. Students will read about how historical events shape and define a culture, study and engage in productions of art that reflect and portray belief systems, and analyze how literature, film and other fine arts document and reveal aspects

of societies. This class is conducted entirely in Spanish.

COLLEGE CREDIT

SIA601 AP SPANISH LITERATURE & CULTURE

Length/Credit: 1 year - 1.0 Elective credit

Prerequisite: Completion of Honors Hispanic Studies and Humanities or permission from instructor.

Other info: Students will take the AP exam in the spring. Those receiving a score of 3, 4 or 5 may receive college credit in 200-level equivalent classes, depending on the university.

Location: Newport, Sammamish

Students read, analyze, discuss, and write in Spanish and about Hispanic literature from the fourteenth through twentieth centuries. Thirtysix authors and fifty-six works are studied for the AP course. Students discuss, interpret, and compare these works in their social, historical, and thematic contexts. All genres of literature are read. Students are trained to analyze critically the form and content of various literary works. This class is conducted entirely in Spanish. At the end of the year, students will take the AP exam in Spanish Literature.

SIH701 HONORS INTERNATIONAL SPANISH ACADEMY

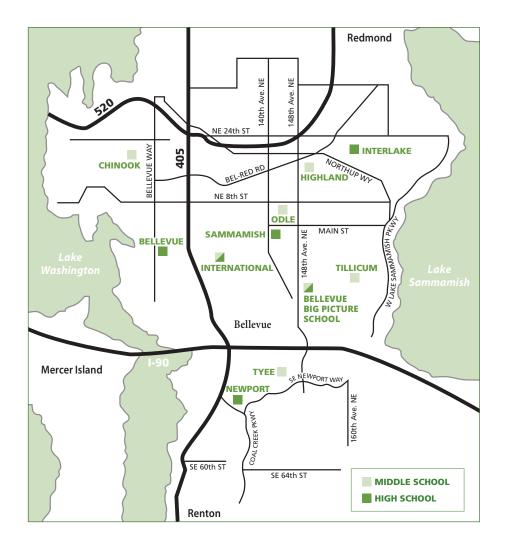

Length/Credit: 1 year - 1.0 Elective credit

Other info: Students will have the opportunity to take the DELE exam. **Location:** Newport, Sammamish

This class is the culminating study of the International Spanish Academy program and is conducted entirely in Spanish.
