

Summer School
Admissions

A student who graduates from Tivy High School on a “Minimum” or “Basic-Foundation” graduation plan may, with principal approval, enroll in Tivy High School’s summer school program in order to upgrade the student’s graduation plan to either “Recommended” or “Foundation with an Endorsement.” Approval for summer school enrollment will be limited to only the first summer school immediately following the student’s graduation.

Transcript
Changes

If the student is able to complete sufficient credits in summer school to elevate the level of the student’s graduation plan prior to August 31st of the student’s graduation year, the student’s transcript will be changed to reflect the elevated graduation plan. Summer school documentation, supporting the transcript change, will be maintained in the student’s permanent school record.
