Retired from Philips Consumer Electronics after 33 years. Enjoying retirement being a househusband. My wife, Diane, is a computer teacher at a local elementary school. I do some math tutoring, science projects with a home school group and help in my wife's lab. I am active in the Kissimmee First Christian Church. Being a Disney fan is nice here too, since it is only minutes from my home. I enjoy hearing from any of my old classmates.

As I am retired, I am trying to keep the Alumni board up to date as to addresses and married names. Please let me know where you have gotten to and I will keep it posted. I still travel when the urge hits me and I now have two great-grandchildren to keep up with, and three grandchildren. No wonder I feel old at times. Keep in touch.
