I'm still here in Southern Wisconsin where I'm raising all 5 of my kids, well ok, only 4 since Rick (20) moved out last summer. Melissa just turned 18 and will graduate from high school and will be off to Europe for a year before returning to attend a yet to be determined university (University of Wisconsin in all likelihood). My 2 youngest, Tom 12 and Ben 10 will be moving to Scotland in March or April of 2007 to live with their Mother. That will just leave Susan 15, two cats and myself here....Quite a change from 5 kids to 1 in a years time! I'm still working for Other World Computing but I moved out of sales a couple of years ago. I am now one of the Senior Tech Support Reps. I still freelance as a Mac Tech in the suburbs of Chicago for pocket change. I have also become engaged to a music teacher at one of the local elementary schools. Vicki and I will probably tie the knot in a couple of years. We want to get a few more

of the kids out the door since she also has 5 kids.  
Feel free to call or email.

I'm working as a Quality Manager in automotive manufacturing. The company I work for makes tail light assemblies and the rear window/spoiler brake lights. If you drive a Honda, Toyota, Mazda, Lexus or Saturn, chances are we make your brake lights. Pretty cool, but challenging work! I have 2 kids, Kalie is 19 and just moved out on her own. She is going to IUPUI and studying physical

therapy. Dylan is 13 and just started the 8th grade. I love to travel, we are going to Chicago in a few weeks for the weekend. I love to read, bowl, and cook, and that just about covers it.
